The above War Establishment was reviewed in accordance with War Office signal 56409 SD3(D) dated 1 May 46.

In view of a very recent decision that this college can not continue after 31 Aug 46 the proposal submitted to the committee was not examined since it had been made on the assumption that the college would move to Austria. The sponsors however were directed to submit a proposal for the immediate non-implementation of surplus appointments and further proposals as the run down progresses.

In order to ensure the successful conclusion of present courses and the satisfactory winding up of the college it was agreed that the continuation of the appointments Commandant (colonel) - 1 and Chief Instructor (lieutenant-colonel) - 1 should be recommended to the War Office.

In view of a very recent decision that this college can not continue after 31 Aug 46 the proposal submitted to the committee was not examined since it had been made on the assumption that the college would move to Austria. The sponsors however were directed to submit a proposal for the immediate non-implementation of surplus appointments and further proposals as the run down progresses.

In order to ensure the successful conclusion of present courses and the satisfactory winding up of the college it was agreed that the continuation of the appointments Commandant (colonel) - 1 and Chief Instructor (lieutenant-colonel) - 1 should be recommended to the War Office.

Despite a strong plea by the sponsors that the appointment Deputy director of mechanical engineering should continue to be graded as a Brigadier appointment the committee considered this could no longer be justified and could agree to its continuation only as a Colonel appointment.

A similar plea was made on behalf of the Deputy director of ordnance services, but after considerable argument had been put forward on both sides it was felt that the appointment should be downgraded from Brigadier to Colonel w.e.f. 31 Jul 46. By this date the full effect of a new directive re-allocating Ordnance responsibilities within the theatre will have been felt.

The downgrading of the Deputy director of pioneer and labour (colonel) to Assistant director of pioneer and labour was proposed by the sponsors and accepted.

It was agreed that all remaining first grade appointments and above should be recommended to the War Office but that the following appointments should be reviewed again 30 Sep 46 with a view to their downgrading.

Chief engineer (brigadier)	1
Chief signals officer (brigadier)	1
Deputy director of supplies and transport (brigadier)	1
Deputy director of medical services (brigadier)	1

It was agreed that the incumbents of the appointments Deputy assistant military secretary - 1 and Clerk, general duties (any arm) Warrant officer, class I in the Military Secretary's Branch (not included in the re-written War Establishment) should be protected for 28 days from 30 Jun 46, or until the date of their posting whichever is the earlier.

3021 - continued

This increase in the above war establishment is partially offset by deletions in the war establishment CM/30/6 General Headquarters, Central Mediterranean Forces (see minute 3028 below).

It was agreed to recommend the appointment of Assistant director of supplies and transport (Barrack Services) - 1 to the War Office.

This amendment together with the amendment to CM/1145/2 Vienna Area (Army Component) (see minute 3025 below) and the new war establishments, referred to in minutes 3022 - 3024 below, have been approved in order to form a new Barrack Services organisation in respect of AUSTRIA. This organisation when finally set up will greatly diminish the responsibilities of certain Town Majors, making the early disbandment of fourteen of these units possible and relieving Headquarters 'Q' staffs of a considerable amount of work in connection with accomodation matters.

Will be promulgated as Amendment No. 5.
