As known, on 15 October 45, the 212 Italian HQ was disbanded because its units were reduced to only two groups of battalions (2nd and 6th) having each a strength of a little over 1000 men.

The above groups were consequently passed under the disciplinary and administrative control of the Military Territorial Commands of the area in which the two groups were located and at present they still come under those commands.

Further to the recent transfer of the 205 Division to the P.B.S. and in view of the carrying out of the instructions contained in appendix "A" of your letter no SD/203, dated 17th inst. that division is finding itself in the same position as the a/m 212 Italian HQ.

In fact, the 205 Division has now only two Air Force groups, the 3rd and the 4th. The first is formed by Army personnel and the second, by Air Forces personnel (the 3rd and 6th Coy Army Air Services have been recently added to the latter group). The two groups have an approx. strength of 1,200 men each.

In consideration of the above and similarly to what was done for the 212 Italian HQ, we propose to disband the HQ 205 Divis. which, under present circumstances, is a not essential and excessive unit having a strength almost corresponding to that of a regiment.

Should you approve the above proposal, we will transfer the 3rd Air Forces Group under the Military Territorial Command Naples for discipline and administration purposes, while the 4th Air Forces Group, after making agreements with the Air Forces S.M., would be transferred under the HQ IV Air Zone, Bari.

The 3rd and 4th Coy. Army Air Services would remain attached to the 4th Group, being under the Military Territorial Command, Bari, for discipline purpose only.

In a similar way, the 32nd and 41st Coy Air Forces Air Services, which have recently been transferred to the 6th Group of battalions, would remain attached to that group, and would come under the HQ IIIrd Air Zone Rome, for discipline purpose.

We await your decisions on the matter.

To : Allied Forces Headquarters.

1. Ref: once is made to letter dated 13 August 1946, Headquarters Peninsular Base Section, AG 363.6 PMS, Subject: "US-III Troops Assigned to PMS".

2. It would be appreciated if this Headquarters could be informed of AFHQ intentions regarding the continuance of Italian troops of the US-III and M-III categories.

3. In accordance with your directive, subject: "Handover of Italian Army to Italian Government" of 2 November 1945, AG 091.711 G(SD)-O, which is the most recent information which we have on the subject of disbandment of US-III and M-III, it was estimated that US-III personnel would be reduced to nil by approximately February 1946. Accordingly the Italian Ministry of War in planning its troop basis for the interim Italian Government has made no provision for replacements of M-III and US-III units after that date.

4. There are at present 5946 US-III, according to most recent figures. Of these it is stated by HQ PMS that 3881 are eligible for release under Italian law, and for whom replacements will be required at least to the number of 2881, since PMS feels that they can cut their total of 5946 by only 1000 at this time, leaving 4946 US-III under PMS.

5. The further question of the employment of US-III and M-III under the peace treaty will have to be considered, unless they can be dispensed with before that date. Furthermore, should the Italian Government elect in the near future to accept the revised armistice terms instead of waiting for a definitive peace there is no provision in these terms for the continuance under Allied control of Italian troops of these categories.

2. It would be appreciated if this Headquarters could be informed of AFHQ intentions regarding the continuance of Italian troops of the US-III and US-III categories.

3. In accordance with your directive, subject: "Transfer of Italian Army to Italian Government" of 2 November 1945, HQ 091.741 G(ES)-3, which is the most recent information which we have on the subject of disbandment of US-III and US-III, it was estimated that US-III personnel would be reduced to nil by approximately February 1946. Accordingly the Italian Ministry of War in planning its troop basis for the interim Italian 2354 has made no provision for replacement of US-III and US-III categories after that date.

4. There are at present 5246 US-III, according to most recent figures. Of these it is stated by HQ PMS that 3684 are eligible for release under Italian law, and for whom replacement will be required at least to the number of 2684, since PMS feels that they can cut their total of 5946 by only 1000 at this time, leaving 4946 US-III under PMS.

SUBJECT: US-ITI Troops assigned to PBS

TO : Commanding General, MTOUSA, APO 512, US ARMY

1. There are presently approximately 5900 US-ITI Troops assigned to PBS. Of this number, 3881 are eligible for release since they come within the 1922 and 1923 age groups. Due to additional missions assigned this command it is not possible to release more than 1 000 at this time. Upon the receipt of an equal number of replacements the balance of 2881 can be released.

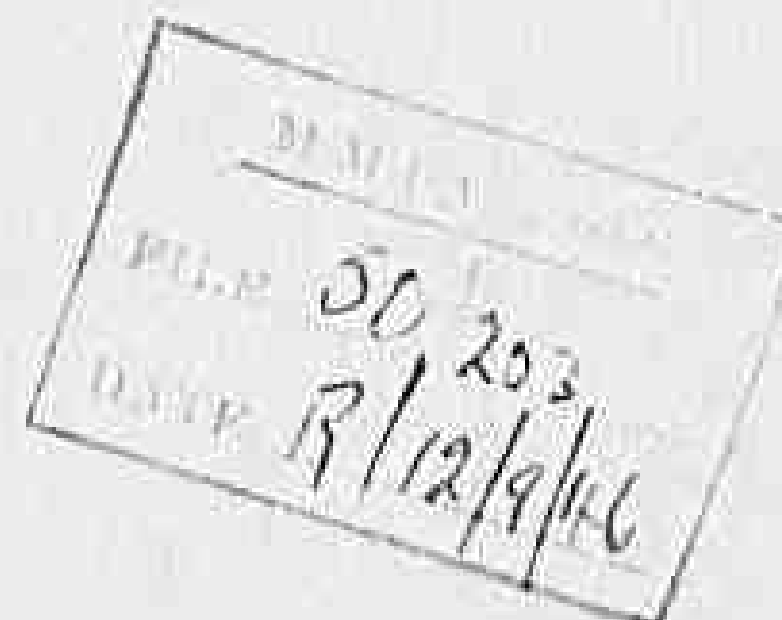

2. As a result of a conversation between Lt Col Morris, MMIA, and Lt Col MOCK, this Headquarters, it is understood that at such time as the Italian Peace-Treaty may be ratified there will be no provisions for the continuance of US-ITI Troops. It is estimated that approximately 4900 US-ITI troops will be required for an indefinite period.

3. It is therefore requested that action be initiated to enable this Headquarters to retain such US-ITI Troops as may be required to accomplish assigned missions.
