EXTRACT FROM ACI 860/41

Para 3. In the circumstances envisaged above, units or formations commanded by an officer not below the rank of lieutenant-colonel, or in the case of the A.T.S., by a chief commander, may, without reference to higher authority (a) arrange locally for minor works services, or (b) purchase locally R.E. stores, up to a total value of £10 (for (a) and (b) combined) in any one calendar month.

Similar, the powers of an officer below the rank of lieutenant-colonel, or in the case of the A.T.S., below the rank of a chief commander, who commands an accounting unit, will be up to a total value of £5 (for (a) and (b) combined) in any one calendar month.

Para 4. C.O.s will ensure that any services ordered on their responsibility are essential for the comfort of the troops or the A.T.S. and do not include any provision to which the troops or the A.T.S. would not be entitled under the War Scales of Hutting. In cases of doubt the prior agreement of the D.C.R.E. or G.E. should be obtained.

In view of the ultimate compensation liability C.C.s will not authorise works services at requisitioned buildings which involve structural alterations or would result in acts of vandalism.

C.O.s will be responsible that use is not made of this A.C.I. to charge public funds with items which should properly be charged to individuals or units as barrack damages.

Para 6. Payment will in all cases be made from the unit imprest account and the bills will not be forwarded to the command paymaster for payment as is the usual practice. The charge in the imprest account will be supported by the receipted bill which will be certified to the effect that the purchase or payment for work done has been made in accordance with the provision of this A.C.I. and that the charges are fair and reasonable, and that the purchase or work done was not properly chargeable to individuals or units as barrack damages.

TRANSLATION

PRESIDENCY OF THE COUNCIL OF MINISTERS
No 77981/19.10

Rome, 13 August 1946

The Italian Government is aware that, for practical and economic purposes, Allied Military Headquarters might eventually amalgamate, and cannot but consider such an event favorably.

As far as choice of locality is concerned, the Italian Government wishes to point out that, apart from the office of the General Headquarters being in Leghorn, Padova would be more suitable and more preferable of the two places estimated, both for greater arrangements facility, and to avoid the unfavorable impression which might result if the Italian Command were removed from Udine.

This amalgamation will, inFortunately, bring about the occupation of new premises in the chosen zone. The Italian Government highly recommends that requisitions be limited to the strictly indispensable, and possibly be made in the suburbs, because, especially in Leghorn, the centre of the town is exremely damaged, and the number of homeless people still considerable. The Italian Government wishes that these requisitions be studied and prepared in collaboration with an Italian representative, who will be sent at your request. It is also necessary that the requisitioning of commercial and industrial premises be avoided, as this would result in furthering unemployment which is already causing much anxiety.

The inevitable inconveniences that will result owing to this amalgamation, should, however, bring about an improvement in the general situation south of the Appenines. Regarding this, it would be appreciated and desirable that, especially in Rome, the situation of the hotels be alleviated.

The Italian Government wishes to point out that it will do all in its power to facilitate this change.

for The President
s. Paolo Cappa

Reference your signal O.199 concerning 13 Corps 5365/SD2 of 29th. Mar. which places Tolmezzo Alpini Bn. under Admin. Command 1 A.G.R.A.

13 Corps state that no change in Admin. Command is intended i.e. that Tolmezzo Bn. is still really under Admin. Command of Min. of War. What they really meant was; "for local administration". 13 Corps point out that it is an academic point of definition, that it was put thus in this letter in order to make 1 A.G.R.A. "interested in" 517 Gd. Bn. Were they to put "under Admin. Command of Min of War" nobody would take the slightest Admin. interest in this Bn.

As it is, questions of vehicles, replacements, petrol, and to a fair extent, welfare, are dealt with now by 1 A.G.R.A.

Arrangements will have to be made for other services through section A of G.HQ.

In any case the capacity of the circuits to handle additional traffic must first be examined. The security classifications of traffic permissible on such routes must be defined before deciding to divert signal traffic to these circuits.

h) Certain operational telephone lines between Aircraft Safety Centre, South ITALY, Air Headquarters, NAF ITALY, Allied and Italian controlled airfields, seaplane and marine craft bases are now controlled by the Allies and used by the RAF for controlling Italian aircraft operations. It will be an eventual requirement for the I.A.F. to use these lines extended to ROME for the same purpose. Meanwhile the relatively small amount of telephonic communication from this Headquarters to Southern ITALY Detachments could be carried on these and on Italian civil telephone services.

SUBJECT : Affiliation of 'A' and 'B' type BLUs

LAND FORCES SUB COM, AC, (MMIA)

G/1

7 Mar 46

To : 9 BLU
10 BLU
11 BLU

1. MMIA Directive No.2 dated 7 Dec 45 lays down that 'B' Type BLUs will be affiliated to 'A' Type BLUs for certain administrative matters.

2. Since this directive was written certain tendances have become apparent

eg (a) It has not always been easy to draw the line between administrative and General Staff matters.

(b) Owing to the long distances involved and delays caused in travelling it has not been possible for officers from MMIA staff to visit BLUs as often as was hoped.

(c) The development of CARs has added increased emphasis to the Infantry training aspect of BLUs responsibilities.

(d) In the case of 9 and 11 BLUs as opposed to all other 'B' Type BLUs the Commander is not an Infantry Officer.

3. It has therefore been decided to increase the scope of the affiliation as layed down in MMIA Directive No.2 to give OC 10 BLU the responsibilities for Inspectorate and adviser to 9 and 11 BLUs in all matters.

4. 9 and 11 BLUs will still remain directly under command of MMIA and will report to and correspond direct with MMIA as before.

2926

OC No.10 BLU is however authorized to visit 9 and 11 BLUs and give such advice and assistance as he considers necessary. If he considers that an order or direction is required he will not do so direct to 9 and 11 BLU but will submit his recommendations to MMIA with copy to the BLU concerned.

5. The changes in proceedure as detailed above are in no way due to any lack of confidence on the part of MMIA in the manner in which 'B' type BLUs are carrying out their duties but are only framed with the intension of assisting 'B' type BLUs which are at times apt to feel themselves overworked and understaffed.

There is some doubt as to the relationship between Type 'A' and Type 'B' BLU's. May a ruling please be given as to whether it is the duty of the GSO I of a Type 'A' BLU to visit Type 'B' BLU's, and Italian HQ's and units in their districts, and to offer advice and criticism as necessary ?

This is NAF 1102. I authorised the following statement to be released to the press on 19 December 1945 in accordance with the provisionsof FAN 635 and FAN 636.

Since his announcement of 13 December 1945, Rear Admiral ELLERY W STONE USNR, Chief Commissioner of the Allied Commission, has been in consultation with the Italian Government with regard to the detailed arrangements for the handing back to Italian Administration of the territories there in mentioned.

It is confirmed that the remaining Italian territory now under Allied Military Government, including the Islands of Lampedusa, Linosa, and Pantelleria but excluding Venezia Guilia and the Province of Undine will be transferred to Italian Administration of 31 December 1945.

The transfer of these territories and any withdrawal of Allied troops which the Supreme allied Commander may determine or without prejudice to any frontier rectification which may be decided in the peace treaty.

SECRET.

This is NAF 1098 reference FAN 634 and NAF 1096.

Para 1. The immediate handback of the Northern Provinces raises the question of whether the rights of the Italian Government in the Franco-Italian frontier Zone are to be in any way restricted.

Para 2. It is clear that unless we do restrict the employment of Italian troops in this zone pending the outcome of diplomatic negotiations between the United States, United Kingdom and French Governments we risk provoking the French into precipitate action.

Para 3. Logically the Italian Government when reponsible for the administration of the Provinces of Piedmonte and Liguria should be permitted to station such troops as they consider necessary anywhere in these provinces. I am reluctant to attach further formal conditions to the hand over of territory, but I feel that the present restriction on employment of Italian troops in the frontier zone (NAF 1096 refers) should be maintained until the question is settled with the French Government.

Para 4. I therefore propose at the time of hand over to obtain an undertaking by the Italian Government not to station troops other than Carabinieri anywhere within 15 miles of the Franco-Italian border. This undertaking will be given no publicity. The Italian Prime Minister will be informed now that some such condition may be imposed.

Para 5. I estimate that the hand over of the Northern Provinces will be effected about 31 December. Urge that the question of restrictions in the Franco-Italian Frontier Zone be settled with the French Government by that date.

Please see Folio 130, which redesignates the British portion of AFHQ (CM/30/4) as GHQ CMF (CM/30/5).

From now onwards GHQ CMF will deal with all British matters and HQ MTOUSA with all U.S. matters. There is no "body of men" which call themselves AFHQ, but where an Allied decision is required the British and U.S. HQs get together and give an allied decision under the style of "AFHQ".
