guard duties have not proved to be correct. 6 Inf. Regt. have not changed over the bns. as arranged because of accommodation difficulties for families of Officers. The matter has to be discussed all over again with 6 Comiliter in the light of recent developments with regard to accommodation questions in Bologna.

(b) CC.

Carabinieri of the Legion have been rather busy during the month owing to the number of strikes organized in the area.

Mobile Bns. have again been employed on P.S. duties and movements carried out as follows.

BOLOGNA Bn. H.Q. Bologna
Coys as reported in Report No.14.

GENOVA Bn. H.Q. Modena
Coys as reported in Report No.14 except
One company plus section AFV to REGGIO EMILIA for duty 6.9.46.

ROMA Bn. H.Q. Bologna
One company plus section AFV to FLORENCE for duty 7.9.46. Returned to BOLOGNA 12.9.46.
One company plus section AFV returned from REGGIO EMILIA to BOLOGNA 6.9.46.

3. TRAINING

CAR

Training for the second course commenced 19th August and continues to programme. Transfer of recruits for the specialists arms commenced on 20th Sept.

Slight reorganization of CAR was necessary because of a TYPHUS epedemic at the barracks at PESARO. Companies were sent temporarily to SENIGALLIA, FANO and ANCONA.

CAR was visited on 30th September and one company was seen firing on the 30 and 200 yards ranges. The recruits were up to an average standard, but due to there being one instructor between two recruits on

CAR

Training for the second course commenced 19th August and continues to programme. Transfer of recruits for the specialists arms commenced on 20th Sept.

Slight reorganization of CAR was necessary because of a TYPHUS epedemic at the barracks at PESARO. Companies were sent temporarily to SENIGALLIA, FANO and ANCONA.

CAR was visited on 30th September and one company was seen firing on the 30 and 200 yards ranges. The recruits were up to an average standard, but due to there being one instructor between two recruits on the 'firing point' and not all of these very interested, the recruit was definitely not getting sufficient coaching (In one case neither elbow was rested and the rifle rested solidly on badly laid cover). Due to a mistake the 'aiming mark' was grey on a light brown background, providing a good lesson in camouflage but not in aiming. This is being altered and corrected. Further, none of the rifles had been zeroed owing to the non arrival of Armourers Tools (ADOS at the conference in August informed all BLUs that they had been issued to the M of W) and so they fired on the 30 yard

...3/.....

257

Declassified E.O. 12356 Section 3.3/NND No. 785036

range to find the MPI and then had to correct their aim for all ranges which seemed unnecessarily difficult.

Of the men not firing or in the next details, about 50 were being instructed in TSMG but the remaining 50 were doing nothing. This is to be rectified and in future enough material will be taken to the range to give instruction in something to all. There appeared to be a lack of good instructors.

General conditions at the CAR are good and with the coys detached as indicated above through the epidemic there is no overcrowding, although wet weather instructional accommodation is lacking.

The 'CASA DEL SOLDATO' is working and the excellent cinema is providing good entertainment. In this connection, if training films could be allotted, some solution would be provided to the lack of good instructors.

During the winter months with the four detached coys withdrawn to PESARO, indoor instruction is going to be a serious difficulty and FANO appears unlikely to be ready for occupation before January in spite of very recent optimistic reports that in November all would be ready.

6 Inf. Regt.
==========

III Bn. less one recruit company at REGGIO EMILIA and two platoons at PESARO are fully committed to guard duties although there are daily weapon training periods on British weapons. Standard of this W.T. is average.

10 Coy III Bn. is composed of recruits and is in its training area at REGGIO EMILIA. It is engaged on platoon training with the effective total of between 90 - 100 recruits. Training area is admirable for this advanced platoon training and the Trg Offrs appear keen and knowledgable.

Regt. H.Q. Course for potential N.C.O's in progress; out of 120 starters approx. 40 were found to be nearly illiterate and were returned. Of the remainder 50 to 60 are showing definite promise.

In this connection it has been suggested to CAR that the CAR Comd earmarks potential N.C.O's on their leaving the CAR, a report to this effect being sent to the new unit as otherwise, the course starting

6 M.T. Unit.

The course for potential drivers of the 6 Inf. Regt. continues and promises to provide a satisfactory number of passes.

6 Medical Coy

Requests for labour by the hospitals and M.I. Rooms have been heavy, but time has been allotted for the training of S.B's and medical orderlies.

(b) CC.

The course for drivers AFV and gunner w/t operators was concluded on the 15th September.

4. INTELLIGENCE

(a) General Feeling.

Feeling is rather one of anger against the Government for no action with regard to the prices of essential articles, rather than party squabbles normally prevalent in this zone.

(b) Frontier Activity.

Smuggling continues and appears to be ably aided and abetted by the POLES, according to CC reports.

(c) Relations between CC and Civilians.

Communists in an attempt to discredit the CC, whom they have realized are in good report with the general public, have commenced a campaign against the police, especially CC, exaggerating the breaches of public order and increased incidence of crime pointing out the incompetence and calling the EMILIA REGION the 'MEXICO of ITALY'. It has not affected the morale of the CC.

(d) Political Feeling among the Troops.

Troops still show a certain amount of interest in the Communist 'MARCH on ROME' plot, which con-

N.T.R.

(f) Public Security.

Many strikes were called during the past month - all directly or indirectly the work of the leftist parties calling for the reduction in cost of living and increase of wages for the workers.

...5/.....

Declassified E.O. 12356 Section 3.3/NND No. 785036

Murders and attempted murders are increasing by a large percentage compared with recent months. Seventeen murders of which four were political have been committed during the month as against seven of August.

The anti-leftist press lays all the blame for the disorders on the Communists, daily writing leader articles stating that the leftists want to remove completely all people who are opposed to their ideas and are determined to frighten the employers into yielding to the requests of the workers. The object being to create disorder, preparing the ground for their proposed attack by force against the State.

(g) Financial Situation.

There is a feeling of optimism in the area because of the very good crop yield this season. Sugar beet and hemp crops are good and production of other foodstuffs very satisfactory. People, however, are still petitioning for the reduction of prices for goods of the staple diet and, as reported above, strikes and disorders on this account have been numerous.

Owing to the uncertain fate of the LIRA, businessmen are reluctant to change goods for cash and, indeed, are constantly looking for means to invest their capital. Consequently, the legitimate market is almost stationary.

(h) Feeling towards the Allies.

The latest efforts of De Gasperi during the past few days to try and defer the settlement of the TRIESTE problem has led the leftist press to write that pressure is being brought to bear on behalf of the Western Allies so that troops will remain in ITALY for a much longer period - really a repetition of the propaganda of the August period.

The more serious press are preoccupied with the Anglo-American apparent lack of interest in the future of Italy. The efforts made by the Western Powers, in comparison with the Russians, with regard to propaganda in Italy, is regarded as a sign that the country will pass from the sphere of Western influence to that of the East.

6. WELFARE.

All sea-side Rest Centres have been closed due to the change of season. This venture has proved highly successful, despite the many difficulties that have been encountered.

Several concerts have been given at the CASA DEL SOLDATO during September, and a special performance was given at the local military hospital.

7. PUBLIC RELATIONS.

During the past month much time has been spent by the P.R.O. making the necessary contacts throughout this Command, and planning a future campaign. The liaison work with the civilian authorities, press and other organizations started immediately, and is increasing its activity in order to reach a closer co-operation.

A commemoration to the dead of CEFALONIA, fallen during the war, organized by 6 COMILTER, was held at Piazza Maggiore, BOLOGNA, on 22nd Sept.'46. It was attended by all local authorities, representatives of various associations, and a large number of people.

On 29 Sept., a "Mostra dell'Esercito" was opened in BOLOGNA. Gen. CERICA and Sig. MARTINO (Under Secretary of State for War) were present, and the exhibition was generally well attended. It consisted of photographs showing ITALIAN Troops being reviewed by various Allied Commanders, together with the latter's messages of congratulation. Diaries of several combat units were also on view, and models showing certain phases of the late campaign. 90,000 people have already visited this exhibition, out of a total population of 300,000. It has also been well "written up" in the press.

In the afternoon of the 29 Sept., a Partisan Memorial was unveiled at CA' DI GUZZO. It consisted of a small monument giving the names of partisans who

Deficiencies against W.E. reported last month remain unchanged.

The matter is aggravated by VCR due to lack of tyres and tubes, no replacements being available.

10. CLOTHING AND EQUIPMENT.

Winter clothing presents no problem, sufficient being available for troops of this command.

As is well known, barrack equipment for CC is in short supply, but assistance has been given through Comilter service in the provision of sheets, beds and mattresses, on a limited scale.

O.C., 6 CAR, complained that arms training is hampered by inability to adjust sights, due to lack of armourers tools. As it is understood that armourers tools have been at the disposal of the Ministry of War, for some time, the matter is being investigated.

The quantity of P.O.L. allotted for the month of Sept. has been decreased in comparison with that consigned for the month of August,. and the allotment for October is less than that for September. It is considered by 6 COMILTER, that should these allotments, (which are still sufficient), be further decreased, transport road services may be compromised.

Ministry of War have now instructed that storage installations be put in order. In BOLOGNA territory, a plan for renewing a depot of large capacity has been forwarded to Ministry of War for approval.

ed during the past month, and is making good progress. 6 COMILTER has stated that further accommodation is required for the concentration of troops in BOLOGNA, and this H.Q. is looking for suitable accommodation which may become available in the near future, in close liaison with the appropriate ER authorities.

It is now understood, that repairs to the CASERMA at FANO, which is to accommodate part of 6 CAR, will not be completed until January or February.

3. TRAINING

(a) Army

CAR

On the 19th August the second course for the first call-up of the 1925 class was commenced. The recruits were in good heart and got off to a very good start - good weather and it augurs well for a sumessful course.

At the CAR two additional courses have been started in order to try and solve the problem of P.T. Instructors and squad Instructors.

Course No.1 For Officers and N.C.O's - P.T. Instructors Course;
Course No.2 For 'Graduati' - Junior N.C.O's P.T. Course.

6 Inf Regt.

Following training carried out by the bns and coys not employed on guard duties.

The first 5 weeks of the 'secondo ciclo addestramento' - first 3 weeks actually completed in one.

The first 3 weeks of Junior N.C.Os selection course.

The first 2 weeks of Infantry Specialists course (Regimental).

106 Signal Coy

Little or no time for training as all were employed on communications within the Terr. Command.

2nd Engineer Bridging Coy

Influx of recruits has permitted more work to be carried out and at the same time permitted the training of those recruits in bridging.

6 Repair Unit

==========

Courses for drivers continue, but unfortunately tyre troubles have limited the number of vehicles available. On the 17th Aug. a course for 100 potential drivers from 6 Inf. Regt. was initiated.

(b) CC

Commitments have been so heavy that training has been limited. Courses continue for drivers AFV and gunner wireless operators.

Mobile Bn has carried out several tactical deployment exercises on company level.

4. INTELLIGENCE

(a) General Feeling

On the whole unchanged but something is brewing for the Socialists have really fallen out with the Communists and it appears that they are making tentative efforts to link up with the Christian Democrats. The Communists are slipping into splendid isolation owing to their double faced attitude in internal politics and decided anti-nationalism in foreign politics. The masses are confused and have recently arranged demonstrations against rising prices, all of which have been turned by one or another party into political and party struggles. Nothing concrete has come out so far, but the bubble will soon burst according to well informed Questura circles.

(b) Frontier Activity

Smuggling continues unabated and it is now evident that money for the Communists is being brought in from Yugoslavia by this means. Strong countermeasures by CC and Finance Guards are being implemented, but without the cooperation of the local people they are considered to be only slightly effective.

(c) Relations between the CC and Civilians.

Continue to be good and this has been emphasised recently in a good deal of public discussion over the sedition of auxiliary police agents in certain parts of N. Italy. The people do realise that the CC are far more to be trusted than the Questura Agents and indeed are openly saying so.

(d) Political Feeling among Troops.

As usual a good deal of party time has been allotted to the attempted conversion of troops either to Socialist or Communist way of Politics. Serious preoccupation on the part of the people has been communicated by letter etc. to the troops and a good deal of discussion has been going on with regard to the Communist intentions and the new edition of "March on Rome", this time a different colour, but a definite threat to the powers of the State. CC and Questura give little credence to this so-called threat but they too are having to investigate and try and find the source of the plot. Developments are eagerly awaited by the troops.

(e) Subversive elements in the Army.

N.T.R.

(f) Public Security.

Campaign against the Black Market has led to a certain amount of reactionary crime and the figures for August are up. Seven murders for August, three political, is a fair score.

The Area is now well covered with the additional CC Mobile Bn from Rome and the new drive against

...4/....

231

Declassified E.O. 12356 Section 3.3/NND No. 785036

crime planned and indeed already started should bring good results. Unfortunately the number of strikes has pinned down a considerable number of cc.

(g) Financial Situation.

Prices continue to go up and the workers are really up against it. Strikes are a daily occurrence on this count and demonstrations are made frequently. Commercial activity is indeed confined to the Black Market which has been given new scope with the recent functioning of 12 new sugar refining and producing factories.

(h) Feeling towards the Allies.

Recent efforts of De Gasperi in Paris to postpone the Trieste problem for a year were viewed by many that he wished the Anglo-American forces to remain in Italy for a considerable period, longer than previously anticipated. The Communists immediately started a new attack against the Allies in Italy. Same old arguments were brought forward: continued occupation of buildings, encouragement of Black Market etc. The Communists appear to be preparing for the day that the Allies leave Italy so that they may launch their illegal armed campaign to gain complete power. Feeling generally has calmed and the more liberal and thinking people are no longer prompted to blame the Anglo-Americans for the Italian Peace Treaty conditions as they did at first due to their nature (hot blood and all that).

The POLES, regarded as allies, are still leaders in the field for accidents and continue to write off vehicles and Italians at a fair rate. This doesn't help improve relations.

6. DISBANDMENTS.

Orders have been received from the Minstry of War for the disbandment of HQ 840 Searchlight Coy and 841 Static Searchlight Platoon. This is the contrary to the request made in this HQ letter A/3/1 of 18 July and your letter to GHQ under reference SD/98 of 22 July '46. As recommendation for the disbandment of 471 Mob S/L Workshops was initiated by OC SEP Centre, and the desirability for the disbandment of BRI-ITI units is appreciated, OC SEP Centre has been asked to review this matter, and to submit a further recommendation for the disbandment of this unit, if it is considered advisable.

7. WELFARE.

A seaside colony has been organised for the children of OARE workers: this has proved popular and is functioning satisfactorily.

A Rest Camp to accommodate 2 Offrs and 20 ORs has been founded at SESTOLA. This is mainly patronised by 6 Inf Regt and the chief past time is Alpine climbing.

The amenities of the Rest Camp at RIMINI have been extended to male and female employees of military establishments. Female have private rooms, but meals are taken in a common mess, together with the soldiers, and good feeling is thereby promoted.

The first Mobile Canteen is now functioning with good results.

8. PUBLIC RELATIONS.

The importance of this matter is continually being stressed to VI COMILITER, who, well alive to the matter, has appointed a Capt. BARALDI of 6 Inf Regt as P.R.O., since the appointment of an officer for this purpose has not been made by the Ministry of War. BARALDI is a regular officer, and has been chosen for his general ability, common sense, and loyalty towards the Italian Army. The appointment was only made yesterday, and no opportunity has yet been given to discuss the policy in detail. A meeting has been arranged for this purpose, early next week.

Provided the new appointment is allowed within the WE, No change to the policy set out in this HQ letter to you under reference A/9/3 of 18 July 46, is required, and the appointment of Col. MICALETTI has P.R.O.

12. CLOTHING AND EQUIPMENT.

Owing to the poor quality of the summer uniforms at present in use, it is considered unlikely that they will prove worth repairing and storing for wear next summer. For the forthcoming winter, uniforms and overcoats of grey-green material, handed in last spring, have been reconditioned and will shortly be issued.

In order to preserve items of BRITISH equipment, now in course of issue to the Italian Army, VI COMDLITER has been advised that such items that are not immediately required for training, and which cannot be usefully employed, should be stored for future use and maintained as necessary. Temporary instructions on this matter have been issued to units, pending detailed instructions from Ministry of War.

All material for the Italian Army has now been collected, with the exception of certain vehs under dispute by the authority concerned, and the arms notified in your Q154 of 18 July 46: These arms will be collected immediately and the present stock-taking of the Depot is completed.

No problem with regard to supply and reserves. It is considered essential however, that the Min of War authorises the necessary repairs to storage installations, as petrol in containers does not weather well, and the ever present danger of fire is more serious.

15. ACCOMMODATION.

The "DUCA D'AOSTA" Barrack, BOLOGNA, were handed over by the British authorities to the Italian Army, on 29 Aug 46. After essential repairs have been completed, the position with regard to accommodation in this Command, will be considerably alleviated, but there is still considered insufficient available for the desired concentration of troops in BOLOGNA.

It has been noted with satisfaction, that the Min of War has now interested itself in the serious problem of accommodation for Offrs and NCOs.

6 BLU Progress Report No. 13

Period 1 - 31 July 46

GENERAL

(a) Domestic

BLU is finding it very difficult not having at least one British clerk. DAA and QMG has to spend far too much valuable time supervising the office and the civilians employed therein.

(b) Italian

LOGNA are considerably depleted in numbers. One company of the "Mobile Bn" is still detached at PESARO where it was sent to preserve order during the recent strike - the Prefect will not now allow its return although the emergency is over; (BLU signal G/6/3 of 23, MMIA reply SD 2193 of 25). Its return is highly desirable in accordance with policy for "Mob Bns" and from the collective training point of view.

3. TRAINING

(a) Army

Training at the CAR was concluded on the 6th July. Recruits were given 10 days leave and then returned to the CAR to await transport to respective report centres in Southern Italy and Sicily.

Within the 6 Infantry Regt., the training has been limited owing to a variety of reasons. Mainly because of lack of NCO's, a large number have just been discharged from the Army and the waiting for the long promised British arms etc. The arrival of recruits has brought up along a new problem foreseen by BLU's a long time ago - there are no officers or NCO's within the Inf Regt who are capable of carrying on the training of the recruits. It is suggested that if CESANO cannot cope with the training of the Inf Regt Offrs and NCO's then the Inf Div's be ordered to run Div Schools for these people and put over the British arms and methods. Presumably any one of the Regtl Comds of the Inf Regts in the ex Gruppi could efficiently run a Div School. (FOLGORE and FRIULI most certainly) ACTION My G/7/2 dated 3 Aug. O.C. 6 Inf Regt although for a time with the San Marco Regt as Inf Adviser hasn't the ability or knowledge to run a course for his platoon comds and NCO's.

106 Signal Company has carried training on a small scale although most of its time has been taken up with maintenance of communications.

(b) CC

Owing to depleted numbers the training of CC has been limited but courses have been run for drivers in trucks and armoured cars and for wireless operators.

In the "Mobile Bn", numerous periods have been allotted to the instruction in police duties and maintenance of public order.

Firing practice has been carried with 45 mm mortar and .300 LMG, but on a rather restricted scale owing to shortage of ammunition.

4. INTELLIGENCE

(a) General Feeling

Feeling runs high in EMILIA over the de-

cisions of the Foreign Ministers with regard to the ITALIAN Peace Treaty. Political parties which predominate in this area are the Communists and Socialists and there have been a series of strikes and demonstrations organized by these parties. Through clever propaganda these parties have turned the whole blame onto the "Anglo-American" shoulders and although outwardly the people appear to like the Allies, underneath there is a great deal of anti-Allied feeling.

Great deal of propaganda is backed by quotations from various wartime declarations by such BBC Italian commentators as STEPHENS who it would seem promised Italy a far better deal than she appears to have been given.

From the sales of party newspapers it is evident that the majority still have the old habit of only reading the party paper; the fact that it is now 'red' instead of 'black' doesn't really matter. The masses still blindly believe all that their party leaders tell them, and in this area very often a very distorted version of the truth.

(b) Frontier Activity.

Smuggling on the Adriatic Coast has reached a new high level. Contraband includes arms from Yugoslavia and in return grain is shipped to that country. The Finance Guards and CC are not adequately equipped to stop this and the market at the moment is good.

(c) Relations between the CC and civilians.

To all intents and purposes they appear ideal. However, this may largely be due to the fact that the Republic and not the Monarchy emerged victorious in the referendum. However, in spite of any political reasons the CC have a great standing in the eyes of the population as a whole. They have come through this past period with colours flying and have earned a great respect for their loyalty to the State and the public.

(d) Political feeling among the troops.

The troops within the command are not really politically conscious. At the CAR, however, it is rather different; the 'intake' was from the youth who had been largely partisan and so rather of 'red' tendency. During the post election period they made no attempt to hide that the results were to their great satisfaction. They are, however, quite inactive at the moment.

(e) Subversive elements in the Army.

There are still reactionaries within certain units but they are well known and the activi-

ties of the officers have rather killed the anti-army feeling that they tried to foster.

(f) Public Security.

The situation appears to have improved although the statistics are up on certain types of crimes. The tendency to theft and housebreaking is on the increase especially in the area where there are numerous POLES. In the FORLI' area arms continue to be found in small quantities and it appears that the POLES are selling these to the people.

Until total disarmament is reached in these areas and punishments are greater for these armed hold-ups etc., and the pay and allowances of the Police Forces is increased crime will continue at the present level. Police Officials so poorly paid cannot be expected for ever to be zealous for the sake of tradition, high public spirit, and sense of duty.

(g) Financial Situation.

The classes which are really in dire circumstances are the office workers and manual labourers, whose monthly wages only allow for about a third of family needs. To balance the family badget they must sell family property and use up savings, if any.

Traders continue to increase prices of consumer goods and the farmers are enjoying a prosperous spell as their produce has high market value. At the moment, rumours of further devaluation of the lira has caused a rush to convert cash into property or goods.

UNRRA distribution in this territory was inadequate to balance deficiencies in essential goods during this month period.

The "commercial crisis" caused by the increase of prpduction costs has paralysed the local factories. Prices of goods, clothing and other manufactured goods has increased by 5 to 10% during the month.

(h) Feeling towards the Allies.

Good; but only in appearance. The reactions to the Foreign Ministers' conference and decisions have been strong and unfavourable to the

Good; but only in appearance. The reactions to the Foreign Ministers' conference and decisions have been strong and unfavourable to the Anglo-Americans. Dissatisfaction is already expressed on all sides at the way Italy has been treated by the BIG FOUR and the Communists have managed to turn the blame on the Western Allies.

Furthermore, continued occupation of schools and other Public Buildings by Allied troops or dependent troops, i.e. POLES, is another bone of contention. The alarming number of road accidents

Declassified E.O. 12356 Section 3.3/NND No. 785030

involving POLISH vehicles, who break all known speed limits and never stop to assist their victims, is also a further cause for complaint against the Allies.

The rather better educated people treat this as a temporary phase and are convinced that Italy will very soon side once more with the Western Allies both economically and politically.

14. ACCOMMODATION.

The general difficulties regarding accommodation have improved, due to the repairs carried out to buildings, and certain derequisitions by the Allies. Further accommodation in the city of BOLOGNA is urgently required, however, as stated in this HQ letter Q/6/1 of 24 July, addressed to 217 Area; no answer has yet been given, but verbal enquiries give the impression that there is a possibility of obtaining DUCA D'AOSTA bks, in the near future, but D'AZEGLIO bks will not be available for at least six months.

1. EMPLOYMENT OF TROOPS

(a) Army (less CC RR)

Gren B. 87 Inf Regt and one group 155 Arty Regt have returned to normal stations on completion of election duties at BOLOGNA.

(b) CC RR

The Mobile Bn of BOLOGNA moved to NAPLES 11 June '46, complete with personnel and equipment, in order to assist in maintenance of civil order: no orders have been issued regarding their return.

The Mobile Bn of GENOA remains at MODENA.

2. TRAINING

(a) CAR

6 CAR, PESARO, was inspected 24 June '46, notification having been given some days previously. The visit was in the nature of a general inspection and not solely applicable to training, but the report is included in this paragraph for easy reference.

As accomodation is limited, men's dining halls are non-existent, and meals are taken in the open: it is hoped that accommodation will become available for this purpose when the detachment opens at FANO. Crime in the past has been heavy, 92% of the cases being desertion: 2.000 recruits were late returning from Easter leave, and all were punished. The position is reported to be steadily improving, and the men are becoming more settled.

.....2/.....

Declassified E.O. 12356 Section 3.3/NND No. 785036

Political propaganda among the troops is almost non-existent; this is due to a meeting which took place between O.C. CAR and Party Leaders at PESARO, and less need for dissemination of political propaganda at this present time. Concern was expressed at the shortage of bayonets available for training purposes, 60 only per Coy being in possession; PIAT mortar bombs were also stated to be in short supply. Allowing for the many difficulties encountered, the Welfare organisation was excellent. Canteens are in existence, but the price of articles is out of all proportion to the money paid to the average soldier. There is a good cinema, but films are in short supply: this is common to all cinemas in the Territorial Command, and offers excellent opportunity to the Allies, if advantage can be taken of it. C.F.A. workers are in daily attendance, and the officer in charge spoke highly of their work. The CAR produces its own paper, and many of the contributions are from the recruits. A school is organised for illiterates, and 86 men were under instruction. Generally, the impression made, was that a whole-hearted attempt to run a good show is in being, but it is obvious that continual drive over a considerable period is essential, if the ultimate object is to be reached: encouragement at this present time would pay a dividend, but it is needed more in kind than in spirit.

(b) 6 Inf Regt

The position with regard to training in 3 Bn remains unaltered: 33 out of a total strength of 583 (effective strength 821) underwent training during June. Continuity in training is entirely lacking, as men attending change from day to day, although the number in attendance is constant. No organised syllabi of training is used, instruction being given from the various text books: the period of training is two and half hours daily. It is an opinion that despite the many guard duties and other inconveniences by which this Bn is handicapped, considerable improvements can be effected: this matter will be discussed in detail on arrival of GSO II, and further reported on.

3. INTELLIGENCE

(a) Political current among Troops

It is difficult to appreciate the consequence of the referendum within the Army: it is necessary to remember that this zone in partucular is subjected to much extremist propaganda, and that any anti-feeling may not be expressed either openly or in private. Additionally, it is necessary to distinguish between officers and regular N.C.Os., and N.C.Os. (non-regulars) and soldiers.

It is the opinion of the writer that the first group are about equally divided: Monarchists by tradition and belief in a monarchial institution, and a few for fear of what may happen to them. It has been stated that some Staff Officers, affectionate to

.....3/.....

Declassified E.O. 12356 Section 3.3/NND No. 765036

the Royal House, will leave the Army because they do not wish to serve in a republican army arisen in such an unhappy manner. Those that favour the republican cause, do so, either from the spirit of adventure and a belief that a change in institution may be a good thing, or a convincement that a republic is preferable. In this instance, it is to be emphasised that they have been subjected to a strong republican influence outside the army, though in fairness it is to be stated that almost all officers are without political character.

The second group are mainly republican: this because propaganda has taken root among the soldiers, who, many fresh from civilian life and consequent influence, are in many cases ignorant and easy to become enthusiastic about matters they do not understand. The weak discipline of the army has given opportunity for exploitation, and advantage has been taken of it. The men foresee immediate discharge from the army, employment for all, and peace for years to come. The reaction has not yet shewn itself, but may develop later to the detriment of the republican cause.

Generally there is an undercurrent among all troops, a wondering if the end of the monarchy will have an aggravating effect on what is considered the already bad conditions of peace. Finally, it is considered that the loyalty of the army toward the State has not been seriously affected, and that it will do its duty as demanded of it. There are hopes that the new constitution will solve satisfactorily the vital problems essential to the re-construction of Italy, and that the army will benefit accordingly.

(b) Relations between troops and populace

Remain good. Estimation of CC RR has increased considerably during the last two months, and the smooth working of polling booths during the electoral period, has further enhanced their reputation. It is interesting to note that not one incident was reported throughout the Emilia Region, involving either troops or civilians.

(c) Relations with Allies

There can be no doubt that sympathies for Anglo-Americans, so great immediately after the liberation, have cooled off considerably, and a feeling of bitterness and resentment is slowly creeping in. Public opinion, at first astonished at the news from the Paris Conference, is now turning to indignation: the words "Punishing Peace" are commonly used, particularly by extremist parties. The prolonged stay of Allied troops in Italy is provoking resentment daily, as there is a feeling, particularly in the province of Ancona, where

(d) Public Security

Conditions are generally improving, and on the whole may be considered good: in two provinces only - MODENA and REGGIO EMILIA - is the situation deteriorating, mainly due to political reasons. Three serious murders have taken place in REGGIO EMILIA during the past month: the victims were two sisters stated to be the daughters of an ex-Fascist, and a man supposed to have sympathy for the monarchy and "Uomo Qualunque" party. Additionally a priest was murdered for unknown

.....4/.....

Declassified E.O. 12356 Section 3.3/NND No. 785036

reasons. No arrests have been made, and the province is considered generally unsafe during the hours of darkness. It is still believed that large quantities of arms and ammunition are held by civilians, and that these will not be given up until a law is passed to severely punish those in unlawful possession.

(e) Economics

The situation is static: no improvements on previous months can be reported, and no immediate improvement is foreseen. The position with regard to wages and cost of living becomes even more critical, and prices of foods tend to increase. Few factories are working, and in the EMILIA Region there are 350000 unemployed. Black marketeering appears to be confined to rationed goods only - sugar, oil, wheat, rice, tobacco, etc. The agricultural position appears favourable, good crops of cereals, vegetables and fruit, being expected.

(f) RUSSIAN Communist Propaganda Tour

On the 28 June a meeting was held and presided over by Signor PAIETTA, Italian Communist Leader. The main points of the conference were the excellent economic conditions of Russian workmen, and the Russian Government's effort to establish, help and defend the Family, which is considered the basis of the State: anything detrimental to that country was stated to be the work of her enemies. Four Russian guests were introduced, and each held as an example of how the lowliest of birth were given opportunity to rise in the service of the State. Love for the Italian people was repeatedly expressed, and an assurance given that the sympathy of all Russian workmen was extended to them. The Chief of the Russian Delegation speaking of Russia from an international point of view, stated that Russia was the only nation always to oppose Fascism and Nazism, while other countries made love with them. He further stated that Russia is a strong military power, prepared to maintain peace at any cost, whilst ENGLAND and AMERICA are still trying to cause trouble in Europe. However, the tour seems to have excited very little interest, the longest report of the meeting being contained in the "Giornale dell'Emilia", which reported in general terms only that ".....nothing disgraceful happened at the meeting ....". The whole report was less than half a column.

5. DISBANDMENTS

Disbandment of 519 Evac Hosp, FORLI', has now been completed.

6. WELFARE

Welfare arrangements for Troops stationed in BOLOGNA, have been inspected in detail, and it is obvious that a large effort has been made to provide amenities and general welfare for the soldier: the result is good and bears credit on those responsible. The CASA DEL SOLDATO is an excellent institution, supplying canteen, cinema, reading and writing rooms, library and dance hall. Grounds for outdoor sports are in course of preparation. Evening classes for illiterates are also available. Women of the CORPO ASSISTENZA FEMMINILE are in attendance, but are considered inadequate. It has been suggested that members of this Corps should be given a standard course of training, before taking up their work, and that the Corps should be given official recognition. Two Mobile Canteens will be operating in the near future, one in BOLOGNA and one at 6 CAR. Officers have not been forgotten, and a club - Circolo Ufficiali di Presidio - has been opened at 12, Via Marsala, for the use of officers in transit and others: "At homes" for Officers and their families are held from time to time. A new organisation, S.A.P.A.M. - (Servizio Assistenza Personale Amministrazione Militare), is in course of constitution: the object of this organisation is to supply food for Officers and ORs at low prices. Canteens for military personnel in transit have been opened at the following places; MODENA - FERRARA - REGGIO EMILIA - PIACENZA - PARMA - RAVENNA - FORLI' - PESARO - ANCONA. These canteens are military sponsored, but do not depend upon the Army for supplies. Entitlement meal tickets are handed to soldiers in transit, and exchanged at station canteens, for goods in kind.

Many demands are made upon VI COMILITER, for news of Ps.O.W.- It has been stated that it is felt ROME Red Cross should contact foreign countries and reply with more details and speed.

6 BLU PROGRESS REPORT No 11

Period 1 - 31 May 46

"G"

1. EMPLOYMENT OF TROOPS.

(a) Army (less CC RR).

The guard of 6 Inf Regt on railway material dump at CASTEL MAGGIORE has now been withdrawn.

Gren Bn 87 Inf Regt and one group 155 Arty Regt (approx strength 600 all Ranks) concentrated BOLOGNA 25 May, for election duties.

(b) CC RR.

The Mob Bn of BOLOGNA is now concentrated.

No CC RR troops are employed on extraneous duties.

2. TRAINING.

(a) CAR.

It has not yet been possible to visit 6 CAR, PESARO, consequently first hand knowledge is not available.

Distribution of arms to troops is complete.

During May, 740 recruits were posted to Artillery, Engineer Corps Automobilisti and Medical Services, and proceeded for further training to the Specialist School.

Relation with Polish troops remains cordial.

The health of troops is satisfactory, no epidemic or infective diseases having been reported.

(b) 6 Inf Regt

Training of 1 and 2 Bns has consisted of tactical (Company), weapon training and firing. Serious training by 3 Bn has not been possible owing to guard commitments. A 20 days course [illegible]

Training of 1 and 2 Bns has consisted of tactical (Company), weapon training and firing. Serious training by 3 Bn has not been possible, owing to guard commitments. A 20 days course - Br arms and tactics for 12 officers and 24 NCOs was the only training that took place by this Bn.

(c) CC RR Mob Bn.

During the past month various short courses for Drivers, wireless operators and MT drivers, have been carried out.

All new weapons issued to troops have

Declassified E.O. 12356 Section 3.3/NND No. 785020

been fired. In addition, firing on the open range with 37 mm and 300 machine guns, from Staghound ACs has been possible. 37 mm ammo, scaled at 10 rds each HE and AP per vehicle, for both BOLOGNA and GENOA Mob Bns, was supplied from local Br sources. Only part of this was used for range exercises, the remainder being held for operational purposes.

The turn-out and bearing of the BOLOGNA Mob Bn is exceptionally high: whatever may have been said in the past, of their system of training, they appear to be on top of the job, and impart confidence. Vehicles are particularly clean and well maintained.

Several full scale turn-outs of this Bn during the month, in an effort to show the flag, seem to have produced the required deterring effect in communes most likely to cause trouble.

3. INTELLIGENCE.

(a) Public Law and Order (pre-election period)

During the past month, election fever has been high, reaching its climax on the 1st June. All parties have been active, and propaganda has been distributed by means of posters, press, radio and party meetings.

The outstanding meeting at BOLOGNA was held in the Piazza Maggiore on 22 May, when Giuseppe SAGRAT, described as a moderate socialist, addressed the crowd. The Communists, in order to deter the workers from attending, staged several small meetings at the same time, on the outskirts of the town. However, the meeting passed without incidents, and general opinion is that the gulf between Socialists and Communists is growing even wider.

At the majority of political meetings held, all parties have been given the opportunity to question the speaker: no incidents of intimidation or bribery, are reported.

So far as the Institutional question is concerned, the abdication of the late King and the appointment of his successor, caused no outward demonstrations. If anything, there has been a leaning to the Right, but this has not been caused by any devotion to UMBERTO II, or a real belief in the benefits of a Monarchial Institution, so much as by fear of a revolution or of an extremist Government.

There is a general feeling that the Government has failed in its planning, to ensure that the election period passes without serious disorder; it is considered that the Army and Police

well maintained.

If anything, there has been a leaning to the Right, but this has not been caused by any devotion to UMBERTO II, or a real belief in the benefits of a Monarchial Institution, so much as by fear of a revolution or of an extremist Government.

There is a general feeling that the Government has failed in its planning, to ensure that the election period passes without serious disorder; it is considered that the Army and Police Forces are inadequately armed for present requirements. The Minister of Internal Affairs, ROMITA, is charged with negligence in valuing the true psychological situation of the Nation.

At the time of writing, polling has passed without incidents of any kind: none the less, general opinion among those responsible for administration of law and order, is that serious disorder may occur when final results of the referendum is known. Whatever the result may be, it is felt that a small majority for Monarchy or Republic is inevitable, and the future portends evils unknown.

In some spheres, there is a feeling that the left parties, at least to overpower by violence, the police and other administrative organs: there

Declassified E.O. 12356 Section 3.3/NND No. 785030

are rumours of numerous weapons at the disposal of the Communists, pre-arranged plans for action, and list of persons to be killed. There appears no foundation for these rumours, and their primary sources cannot be traced.

To "sum-up", the pre-election period has been quiet, and apart from three bomb incidents at BOLOGNA and one at RAVENNA, in which no-one has been hurt and very little damage occurred, the period has been void of serious or minor disorders. It is the opinion of the writer, that rumours of threats and violence are part of the war of nerves: and this, to the detriment of whatever Party may expect to gain.

(b) Public Security.

42 Crimes only, committed by 104 persons, have been reported. 11 persons have been arrested in respect of these crimes. Generally, the situation is improving.

(c) Relation with Allies.

News of the Allies intention to leave ITALY, has been received favorably: it is a general opinion that much accommodation will thus become available to civilians, and availabilities on the food market will increase, and a reduction in cost will ensue.

(d) Economic.

Strikes for higher wages have occurred in several provinces during May; unemployment demonstrations have been made without incidents, at BOMPORTO (MODENA), VERRUCCHIO (FORLI), and BASTIGLIA (MODENA).

The failure of the PARIS Conference caused discontent, as it was felt that ITALY was being used as a bartering element, and likely to be exploited by the expansionist appetites of RUSSIA, YUGOSLAVIA and FRANCE: the disputed territories are regarded not only of strategical value, but also of economical importance.

4. COMMUNICATIONS.

(a) In order to assist Territorial Command during the election period, eight 19 sets were borrowed from Br Army sources, and placed at the disposal of CC RR: this enabled one group set to be installed in each province, and an "up to the minute" appreciation by the Commander, to assist in

(b) Validity of Travel.

Regulations with reference to movement of Italian Military Individuals through Zone A and B of VENEZIA JULIA, were published in Min of War Circular, No 207600/II of 21 Mar.

No order regarding this subject, from Allied Military sources, are in possession. It is presumed that the Min of War directives are valid,

Declassified E.O. 12356 Section 3.3/NND No. 785030

and appropriate Allied orders have in fact been issued.

5. DOMESTIC.

The following vacancies exist on War Establishment:

1	Major	GSO II
1	Corporal	Clerk
1	Private	Clerk
1	Private	Batman/Driver

Major D. STOCKER, Training ~~Officer~~ Major, is detached on duty, and it is understood a replacement will arrive in the near future.

One female clerk has been dismissed, and will be replaced by a male clerk. No difficulties are envisaged with regard to clerical duties.

One soldier batman/driver is desirable. It is considered essential that one person, subject to Military Law, be employed on the M.T. side: despite strict control and frequent checks on issues of petrol, small illegal leakages may occur. against

6. ITALIAN STRENGTH DEFICIENCIES.

The state of 6 Inf Regt is unsatisfactory. There is a 40% surplus in officers and NCOs and 23% deficiency in men, as at 15 May.

7. DISBANDMENTS.

The following Units have been disbanded:

717 Adm Regt HQ
Italian Incr to HQ 217 Area

Complete disbandment of 519 Evac Hosp FORLI, has not yet been effected.

Special vehs	9

No hold-up in distribution of vehicles from efficient Vehicle Park is appparent.

Transport CC RR.

Of the recent allotment of Staghound Armoured Cars to BOLOGNA Mob Bn, nine W/T sets were not working, and a considerable number of tools and accesories were deficient. Help from the local ADS was requested, and all sets were replaced and available to issued. In addition, the total complement of sets of FLORENCE Mob Bn, were either replaced or repaired. As it is the intention to issue Br sets to CC RR, it is considered tele-comm mechanics, CC RR personnel, would be invaluable.

In general, preference for the HUMBER Armoured Car, over the STAGHOUND, was shown: the main pros consisted of its maneouvreability and mechanical simplicity.

11. ACCOMMODATION.

It is considered that PACLINI Brks, FANO, will need considerable repairs before occupation by troops: an estimate cost of 14,000,000 lire for necessary repairs has been made, and it is stated that the work will take from two to three months.

With a large reduction in commitment of 5 Transit Camp, it is now possible for further accommodation to be made available to 6 Repair Unit, at the PIROTECNICO buildings. Authority has been granted by 217 Area to de-requisition, and arrangements are being made to hand over to the Italian authorities during the current month.

12. ARMS AND AMMUNITION.

(a) CC RR

The following ammo has been drawn by BOLOGNA Legion, during May :

Cartridges 6.5 Moschetto	65,000
Cartridges 9mm MITRA	37,200
Cartridges 10.35 rev mod 1889	6,000

13. P.O.L.

The recent strike by CIP employees did not materially affect supply to the Army; 6 CAR, PESARO, was the only unit to report interference with normal administration.

Adequate reserves exist, in order to meet emergencies during the electoral period.

CC RR Mob Bn complain that correct types of oil for STAGHOUNDS are not available: this matter is being investigated, and will constitute a separate report.

are in 831 and 834 S/L Pls (u/c 3 Terr Cmd) which are in the process of being disbanded.

Difficulty is being encountered in obtaining a posting authority from one Territorial Command to another. The matter was taken up with the Ministry of War by the Italian HQ here and it was stated that such a move was entirely in the hands of "the Allies".

Further action through MMIA is in hand.

9. TRANSPORT CC RR

The CC RR Legion this month have to date drawn :

M/cs	(Br)	9
Trucks	(It)	13

from the VI Efficient Vehicle Park BOLOGNA. This leave a total of 13 (Br) M/cs still to be drawn.

The Mob Bn has to date received two of its twelve armoured cars. The remaining ten will be drawn from BOLOGNA on 17 April.

10. AMMUNITION CC RR

The issue of 25,000 rounds of 9 mm parabellum ammo for use in Italian Automatic Carbines model 38A from 25 Adv Ammo Depot, ANCONA, has been momentarily held up as that Depot stated that it had no authority.

In fact authority was received by them last December and the matter is being taken up and should be resolved this week.

11. C.E.M.

(i) Vehicles.

The collection from 2 CEM Group Depot MODENA is proceeding satisfactorily. This month the following vehicles have been withdrawn (up till 13 Apr) :

Trucks, various	19
Trailers, various	21
Wkshps vehicles	2
Cars, FIAT 1100 cc	2
Total	44

Nothing more has been heard from Ten Col CUCCIOLI after his unsuccessful attempt to suspend all drawings pending consideration and reallotment in the light of Regia Marina and Regia Aeronautica requirements. Although it is considered possible that an effort may be made in the future to try and re-allot after the Italian Army has cleared the dump.

If this turns out to be the case, it will be disheartening for the Army wkshps, who will have done most of the repair work, and upsetting for the units and Staffs who have based their hopes and plans for having tpt deficiencies made up from CEM sources.

(ii) Arms.

The clearing of the arms dump at MODENA is proving a longer job than was originally calculated and they are already behind schedule. Work is continuing however and should be complete before the end of the .

(iii) Misc. stores.

A large assortment of miscellaneous stores has been collected from 918 German Ord Depot, RIMINI. These (set out in detail in your Q 154 of 25 Mar) consist mostly of accommodation and hospital stores and have been brought to BOLOGNA.

4. PROGRESS OF CALL-UP

In the week following the 28th March 1000 of the 6000 odd individuals who failed to present themselves during the call-up, reported to districts. By the 8th April this flow of late-comers had ceased. Altogether about 40 % of those expected have not reported.

5. DOMESTIC

OR's.

The clerk situation, as hinted in our last Report, has now become desperate. The Corporal clerk (Bdr WEST) proceeded on Python on 12 April, and Reinforcements Depot, N.ITALY states that it is not possible to replace him or even fill the vacancy - which has existed for some time - for a Pte clerk.

Two civilian clerks are being employed, but these naturally cannot be expected to have the knowledge of Army Forms and procedure etc which is required to ensure smooth running behind the scenes.

6. C.A.R. INSTRUCTORS

There is a 50 % shortage of junior NCO instructors at the CAR at PESARO. The reason for this is as follows :

Last December the Ministry of War promised that 100 junior NCO's would materialise from CESANO. By the beginning of March they had not arrived and a letter was received from the Ministry of War stating that numbers had fallen short of expectations and in fact that nobody would arrive.

Accordingly 100 likely young NCO's from 6 Inf Regt were sent on a course, from which only 45 have proved themselves suitable. These have been sent to PESARO, but are barely sufficient by half to meet requirements.

As there are no other possible local sources and CESANO is apparently to produce nobody, the situation remains semper idem.

7. ITALIAN STRENGTH DEFICIENCIES

The state of 6 Inf Regt is far from satisfactory. Out of a WE of 2269 there is a paper strength of only 1816 (deficiency under WE : 452). Of these, owing to courses, sickness, leave etc, there are usually about 1450 actually present. From this

OR's.

The clerk situation, as hinted in our last Report, has now become desperate. The Corporal clerk (Bdr WEST) proceeded on Python on 12 April, and Reinforcements Depot, N.ITALY states that it is not possible to replace him or even fill the vacancy - which has existed for some time - for a Pte clerk.

Two civilian clerks are being employed, but these naturally cannot be expected to have the knowledge of Army Forms and procedure etc which is required to ensure smooth running behind the scenes.

8. BR-ITI REINFORCEMENTS

The question of BR-ITI reinforcements for 833 S/L Platoon, RIMINI, which was due to send 15 of its strength on release on 31 March has cropped up. The only trained reinforcements available

senior NCOs are rather miserably looking into the future and wondering if life won't be hard pressed and leaveless for them for a long while hence.

A rather weak attitude towards the Emilian recruits by officers and NCOs is the second of these factors. This attitude is exemplified in the following incident. While this officer was talking to a group of senior Italian Officers, including the Commandant 6 CAR, during a recent visit, our group was approached by a hatless, slouching recruit, with hands in pockets. At a few feet distance he stopped to listen in head lolling stupidly to one side. This officer questioned the Commander of the CAR as to whether such a slouching attitude was permitted in his unit. His answer was a shrug of the shoulders and : "Eh, cosa vuole, sono ancora borghesi." Another officer in the group remarked rather shamefacedly that if a recruit was told to stand up and take his hands out of his pockets he was liable to use the epithet "Fascist" in reply and take no notice. Consequently discipline is noticeably slovenly throughout the CAR.

The third factor is that rifles have not yet been issued to recruits up to full scale. Although all rifles were available at the CAR only 10 % were initially issued to companies for training purposes. This decision was taken by the Brig Gen Inf 6 Terr HQ and is supported by GOC. It was felt that the complete issue should not be made until the political temper of the recruits had been judged reliably. It has now been decided to make the complete issue. However initial training on the rifle has suffered suffered accordingly.

(b) CAR Demonstration Pl.

This platoon is not yet installed in the CAR. Orders have been given for its move there during the second half of this month. The reason given for this delay is that no accommodation was available until recently.

Undoubtedly the problem of space is considerable, but one platoon could nevertheless have been put in without difficulty. While no direct admission has been made to the effect, this delay is viewed by this officer as being yet another symptom of a policy either consciously or unconsciously being adopted towards the Emilian recruits - ie to take no step that would lay the organisers of the CAR open to the accusation of "militarism" (fascism) on the part of the more vociferous of the new recruits. These would then have a popular current political slogen with which to incite the more lethargic mass to acts of overt indiscipline.

Consequently a slow and hesitating course is being followed in attempts by the staff of the CAR to imbue in the new recruits ideas of discipline and military bearing.

3. COMMUNICATIONS

(a) CC RR

Ref this BLU Progress Report No 2, para 3 (a), the situation of CC RR communications shows a slight improvement.

(i) 55 % of CC RR stations have telephone communication with their immediate HQs.

(ii) A further 25 % are located in towns or villages where use can be made of the telephonic communications of other civil organisations, such as post office, commune etc.

(iii) Of all these communications 75 % are available by day only. At 2100 hours it is customary for the operators of these

1. ORGANISATION

(a) 6 C.A.R.

The establishment of CARs does not include a light car for Bn. Cmds. With the extension of training from the parade ground to training areas for combat training during the second and third months, control by Bn.Cmds would be greatly assisted if they were issued with a light, mobile vehicle with a good performance over narrow country lanes, cart-tracks etc.

(b) CC RR Mob Bn Workshop.

This workshop is not yet mobile. The vehicles (or vehicle and trailer) on establishment have not yet been supplied.

There is no recovery vehicle on establishment. The shortage of such vehicles is appreciated. Nevertheless it is felt the character of the Mob Bn demands that such a vehicle should be included on establishment and that the unit be given high priority in the supply of one.

The Italian Army in EMILIA is based on the larger urban centres and so, when organised, will be its vehicle recovery facilities. This however bears no relation to the character and functions of CC RR Mob Bns which must be prepared to work in the most widely dispersed towns and villages, independently and quickly.

(c) CC RR Mob Bn.

In urban areas where wells are not readily accessible difficulties are being encountered in the supply water to CC RR Mob Bn detachments. Shortage of fuel has prevented civil authorities from pumping water to sub-urban districts for numbers of hours during the day. Mobile detachments of CC RR that take up duty in such areas during water-less hours are unable to ensure reserves for themselves by filling baths, buckets and wash basins. Water bottles are soon exhausted since the water-less hours are usually from early morning until late evening.

The supply of a water-trailer to the Mob Bn would be the ideal solution, otherwise an issue of water-cans on a fairly big scale should be made. Neither of these solutions catered for by the establishment of the Mob Bn BOLOGNA at present in force.

2. TRAINING

(a) 6 C.A.R.

Three factors have influenced the training at No 6 CAR to its detriment.

Shortage of instructors is the most considerable of these - junior NCOs are 50 % short. The remaining 50 % are not of very high quality. The majority have been supplied by 6 Inf Regt and have only that experience in the handling of British arms and equipment gained in a one month course. As a result of this shortage squads are on the whole too large (twenty to thirty men being taken in one weapon training lesson), and officers and

Period 16 - 30 April 46

1. EMPLOYMENT OF TROOPS

(a) CC RR Mob BN.

Of the three detachments of the CC RR Mob Bn Bologna, that at MODENA has been called in complete. A half of the detachment at FERRARA has been withdrawn. The order from GHQ CC RR to withdraw the whole of it was objected to by the Prefect, FERRARA, and Commander BOLOGNA Legion, authorised thewithdrawal to be limited to one half. Officially this is a temporary measure, to come to an end during the first fortnight of May and after FERRARA Group, CC RR, has been reinforced. The order from GHQ CC RR to withdraw these detachments made no mention of the half Company at REGGIO EMILIA. It is not known for what reason. Consequently this detachment remains.

(b) 6 Inf Regt.

3 Bn 6 Inf Regt is heavily committed with guard duties. One Coy is detached at the CAR PESARO. The remainderof the Bn is committed to numerous guards and piquets in and aroundBOLOGNA and being at low strength finds difficulties in meeting all these commitments without sacrificing training completely.

The remainder of the Regt is hardly better off. The 1st Bn at PARMA has one Coy detached at the CAR MODENA. This detachment was made on the orders of Min of War in view of the fact that 5 Terr Comd held that their Inf Regt was already over committed and could not find a Company for its CAR MODENA. Since it is planned to move the CAR from MODENA this commitment will come to an end shortly,it is hoped.

The 2nd Bn at FERRARA is completely concentrated and apart from piquet duties in the town is free to get on with training.

Great efforts are being made by 6 Territorial HQ to reduce guard duties for 6 Inf Regt. But the situation is unsatisfactory because the Regt is considerably below strength (viz 6 BLU Progress Report No 9 para 7) and Min of War are laggardly in granting authority for the employment of Civilian guards instead of troops.

2. TRAINING

(a) C.A.R.

The distribution of arms to recruits was again delayed during this period and it is now stated that it will take place in the first few days of May.

The demonstration platoon is now on the ground at 6 C.A.R.

The shortage of junior NCO instructors (viz our Progress Reprot No 9 para two) cannot be dealt with until the second course. Ministry of War have given authority for 65 likely

..... 2/...

Declassified E.O. 12356 Section 3.3/NND No. 785036

recruits to be retained after the end of the first course to make up this deficiency. The shortage at 6 CAR is of about 90. A request has been made by 6 Terr HQ to Min of War to augment the number of 65 recruits to meet this shortage completly, as 6 Inf Regt cannot provide any personnel. A replay is awaited.

A Brigade HQ and one Polish Bn are located at PESARO. So far relations have been cordial between these Poles and HQ 6 CAR. Difficulties over training areas and ranges have been mutually adjusted.

(b) CC RR Mob BN

Training of CC RR Mob Bn, is still based on somewhat ad hoc arrangments. No directive has yet been received by the Commander and his projects for training consist in "theoretical andpractical courses in the driving of trucks, tanks and armoured cars." Added to which everyday "to all soldiers free from 'servizio' will be imparted instruction in professional and institutional matters." etc etc. A timed programme planned methodically and progressively does not exist.

3. INTELLIGENCE

(a) Subversive activities

A reliable informant of the Public Safety Officer, AC Liaison Group, EMILIA, reported that six army officers, one only of whom is on the active list, are associated with communist party propaganda directed towards the recruits of 1924 class.

This propaganda has taken the form of telling P.C.I. adherents to answer the call-up in a disciplined fashion and take no action until such time as they are armed and equipped and then await further orders.

The names of these officers have been conveyed to 6 Terr Comd. They report that this type of propaganda by extremists is widespread in EMILIA.

(b) Public Law and Order

On 16 April a band of a dozen bandits attacked an Arty Depot at Anzola Emilia, BOLOGNA. The guards were overpowered and some quantity of ammunition was taken. This included 12 boxes of Italian type grenades.

During this month one prison mutiny is reported and six successful evasions from prison or arrest.

Murders for political reasons are reported at four. Four others murders were committed. The total number of crimes shows no decline on last month.

Extremism of an opposite colour to the usual occurred when on the 23rd of April a bomb was exploded at the Headquarters of the "Italian Anti-fascist" party, PARMA. In the neighbourhood of the explosion were afterwards found placards proclaiming that the hammer and sickle would never triumph.

(c) Political Sympathies of Army and CC RR Officers

The communist danger and its close ally the Slav menace continue to occupy large paragraphs in Italian Intelligence Summaries and large chapters of the days thinking and talk among officers.

The fact that public safety conditions have improved

...../3...

since the winter is regarded by the pessimists to be a lull before the storm.

If the result of the referendum be in favour of the Monarchy it is felt grave trouble will immediately ensue. If the reverse is the case it is felt it will only act as a temporary palliative to the parties of the extreme left who will shortly follow it with attempts to seize dictatorial powers.

How much of this is pure bias on the part of the military against a political group who openly criticise and despise them; how much is a conscious or unconscious exaggeration of the danger for professional and political ends, that is for the increase in strength of the Army and CC RR as a factor in the deployment of peoples in face of the 'so called' slav menace; and how much is a genuine appreciation of the danger is a matter of opinion.

It is felt by this officer that the first two factors mentioned are far stronger than the third.

Nothing further has been heard about the proposed disbandment of 717 Adm Regt. The matter was taken up with Two District who promised that an authority would be given before third May. As stated in previous reports this unit is serving no useful purpose and disbandment before Summer Clothing issues become necessary would be desirable.

Great satisfaction has been produced by the release of Sports equipment from NAAFI sources at NAPLES. This was the result of personal intervention by the Welfare Officer and the kit obtained has been distributed trhoughout the Command on a "Presidio" basis.

34 complete foot-balls (ie with laces, bladders, grease) have already been issued, and 6 are being kept at Territorial HQ as a reserve for important matches. The remaining items - 10prs of boxing gloves and some nets for volley ball - have been issued on a similar basis.

Arrangements for a "Inter-Presidio" Foot-ball League are in hand, and the question of prizes has been discussed.

Money is of course the important factor in deciding the scope of any Welfare organisation, and on the whole it can be said that expenditure has been wise and judicious.

.....4/...

Declassified E.O. 12356 Section 3.3/NND No. 780030

A mobile canteen is expected in the near future. This has been promised by the Ministry of War and has been contracted by adapting an old RE Ambulance. In addition the construction of another mobile canteen by Territorial Command is being visualised, but is momentarily held up for lack of funds (110,000 lire is the lowest estimate).

Arrangements are being made to stock the canteens by wholesale purchases, but the Ministry of War have recently suggested a scheme by which all canteens are handed over to civilian contractors. This scheme is being opposed by Territorial Commad as dishonesty and corruption on a large scale are foreseen, as well as the undesiderability at the present time of having unknown civilian elements allowed into barracks and military installations.

Release of a Light Utility Car - recently authorised by augmented WE - has been obtained. The vehicle is to be withdrawn from a disbanding unit here in BOLOGNA, and is expected to render about a week's service before going for a long spell in workshops.

9. TRANSPORT (Army)

The repair of vehicles at the CARE and 6 Repair Unit is going on satisfactorily.

Figures for vehicles repaired during the last 15 days of APRIL are as follows :

At OARE :

Trucks	37
Cars	10
M/Cs	9

At 6 Repair Unit :

Trucks	60
Cars	22
M/Cs	18

10. TRANSPORT (CC RR)

The MobBn of the CC RR has now drawn its full complement of 12 Staghound Armoured Cars. They are all in good running condition, but have not yet had Regio Esercito members allotted.

Three Jeeps have been drawn from 8 Vehicle Park ROME and have been distributed as follows :

Mob Bn BOLOGNA.	1
BOLOGNA City Coy.	1
Tenenza di VERGATO.	1

No more motor-cycles have been received since our last report.

The Mob Bn wkshp is functioning as regards equipment and personnel, but is not yet mobile (Progress Report No 9 para 1 (b) refers).

(a) Vehicles

Drawings from CEM Depot MODENA are continuing satisfactorily. Figures of vehicles withdrawn during the last 15 days of APRIL are as follows :

Trucks, various	30
Trailers, various	4

Vehicles of Italian Army origin are still being brought into the dump from various sources, so it is impossible to state precisely when the work of clearing will be complete.

However it is reckoned that by the end of June all vehicles other than new arrivals will have been withdrawn.

6 BLU PROGRESS REPORT No 8

Period 15 - 31 March 46

G

1. ORGANISATION

(a) CAR

It has been decided to split No 6 CAR Pesaro, and to send one battalion to Fano. This will relieve congestion at Pesaro, which to alleviate on the spot would involve considerable expense in barrack reconstruction; it will also permit the allotment of more indoor space for instructional purposes.

(b) CC RR

(i) Ammunition reserves. It is not planned to maintain reserves of ammunition at Group, Company or Tenenza level. Consequently a station near Rimini, for example, obliged to expend its personal allotment of ammunition (100 rounds per man) must wait until its Group headquarters has ordered the withdrawal of part of the personal allotment from other stations in the area before this expenditure is made up. Thereafter, and in due course, the Group is made up from Legion reserves held at Bologna, 70 miles away.

This system seems to be unnecessarily tortuous and tactically unsound.

(ii) Tear-gas grenades. No tear-gas grenades are in issue to CC RR. They are not manufactured in Italy. They would be invaluable for barrack and station defence, and for combating attempted prison breaks. To meet immediate needs an issue of these grenades from Allied sources is suggested and the question of their manufacture by Italian industry for future requirements might usefully be studied.

2. TRAINING

2. TRAINING

(a) CAR Demo Pl

On 15 March this platoon demontrated an attack, using live ammunition, to GOC 6 Terr Cmd and to Officers and men of 6 Inf Regt. The attack was carried out in accordance with British battle drill principles and was directed by an officer of 3/87 Gren Bn having eighteen months experience of these tactics.

Two great weaknesses of Italian training were repeated in this exercise. Weaknesses that were not remarked and not commented upon by a single senior, war-exper-

ienced officer present. Yet to the first hand knowledge of this officer weaknesses that have caused more useless loss of life and ill-success to the Italian Army in battle than any other factor.

They were lack of realism and failure to maintain momentum in the attack. An example of the first of these faults was the placing of a 6 pdr A/Tk gun on a forward slope at a range of six hundred yards from the enemy and giving covering fire with it for the platoon attack; impressive but useless. The second fault consisted in the fact that the assaulting troops lay about on the ground for some fifteen minutes at about 150 yards from the enemy, ie in just that area where defensive fire would be coming down thick and fast, while the covering fire group manouevred about producing smoke screens.

(b) CAR

Training did not commence on 1st April at No 6 CAR on a overall organised basis. Some recruits were still arriving and this was taken as an excuse for most of the regimental officers and NCOs to occupy themselves with the administration problems involved in recruit reception and to leave the remaining recruits to hang about rather than employ them in purposeful training.

3. EMPLOYMENT OF TROOPS

(a) CC RR Mob Bn

GHQ CC RR letter 170/CC - 1945 of 21-2-46 states:-

" .....personnel of Mob Bns may be used as reinforcements for short or long terms, but always in complete sub-units, ie sections, platoons or companies".

This is the only instruction on employment of troops that has been received by Bologna Mob Bn and does not agree with the contents of para 14 (d) of your CC RR/G/12 dated 19 March.

Consequently the position of Bologna Mob Bn remains as it has been previously reported ie:-

One Coy and 2 Platoons at Ferrara
2 Platoons at Modena
2 Platoons at Reggio Emilia

4. INTELLIGENCE

(a) Political currents among officers.

The conversation and written commentaries of officers of 6 Terr Comd reveal several wide-spread and strongly held political opinions. The most characteristic feature of these opinions is the similarity of view shown

...../...

Declassified E.O. 12356 Section 3.3/NND No. 785030

by officers from GOC downwards.

It is complained against the Allies that much of the present economic and social difficulties has been the result of the too early and unwary grant of freedom to party politics in Italian Government. Instead it is held that an oligarchy of experts would have been set up under Allied Commission's control and direction to carry on government not only until the complete liberation of Italy, but until she had felt her feet again economically. Attempts to point out that such a course would have not been in keeping with generally accepted forms of democracy, are met with the heated contention that democracy as at present loose in Italy does not work. Cynicism in respect of the genuineness, sincerity and patriotism of political leaders; distaste often and forcibly expressed at the political battle for power and its attendant machinations, are the most evident forms of this pessimism towards Italian democracy.

The fact that the a/m machinations often take the form of verbal attacks on the Italian Army past and present is the subject of bitter comment and tends to increase the distaste for democratic forms to, in the view of this officer, a high emotional degree. To pursue this analysis logically one must accede the outsiders justification in attacking the army, if only on grounds of political impartiality. Who would not judge the Italian officer's incapacity to stop talking politics as a sign of ever-readiness to take sides actively in the quarrels?

A second important current is anti-slav. This is the result of a number of complementary factors - not only Jugoslav pretentions towards Trieste. The strenght of the communist party in Emilia is feared, and the communists are accused of lack of patriotism in that until recently they have not opposed themselves to the secession of Trieste, and their adherents have often taken part in the forcible breaking up of patrictic demonstrations against secession. The communist party is naturally connected with Russia and with being ready to assist Russia in gaining a foothold west of the Alps. That Russia should want to gain a foothold west of the Alps is taken for granted as a result of general agreement with the contents of Mr Churchill's speech at Fulton, Missouri.

The view is taken that Russian tactics in world politics are aggressive and are setting up a momentum

The view is taken that Russian tactics in world politics are aggressive and are setting up a momentum that will eventually bring her into a collision with the western maritime powers. To meet this threat the western meritime powers must cooperate in strategic organisation - and of this strategic Italy is the bastion of the Mediterranean flank. These views are undoubtedly strongly held, more forcibly prhaps in this area, in view of the strength of the Italian Communist party in Emilia, than elsewhere.

(b) Social discipline.

The progress of the call-up in Emilia should provide interesting data for comparison with other zones and consequent judgement of their respective conditions of social discipline. During the first week 40% only of the total number of recruits expected reported to districts; and during the second week there was a slight increase which brought up the total for the complete call-up to 52,5% of expectations.

Anti call-up propaganda was wide-spread throughout Emilia - its effect was most pronounced in Forli province where 14% only of expected personnel actually reported.

(c) Political currents among the troops.

On visiting the CAR Pesaro on 1st April the impression was gained by this officer that the officers and NCOs were dominated by the new recruits. The latter were being left to stand about idle, hands in pockets, hatless. As has been previously reported training had not commenced. There was little attempt to maintain military forms amongst the recruits and only a few squads were seen marching about in an orderly manner.

One incident was been reported. An attempt to force a free entry into a Concert hall in Pesaro by a number of recruits, was only brought under control by the intervention of the Colonel commanding the CAR himself.

This incident was rather reluctantly reported to this officer after he had put his impression of the CAR before GOC 6 Terr HQ. The whole is interpreted by this officer to show that there is a high anti-military and anti-disciplinary feeling at 6 CAR which may well be the result of it being composed entirely of recruits from Emilia. It is too early to say whether this feeling will last the whole course - and whether it will be repeated in further courses - but it is here reported so that other officers visiting 6 CAR may examine their own reactions and so that the possibility may be considered of dispersing recruits from Emilia more widely through the other CARs during successive call-ups.

(d) Subversive activities.

(d) Subversive activities.

Apart from anti-call-up propaganda activities reported under para (b) above the only other subversive activity reported this month is from a FSS source. This is that Communist party extremists are offering officers and NCOs, who are due for early demobilisation, well paid jobs as instructors for armed bands. Response so far to these offers is reported to be slight.

(c) Public law and order.

Reported crime in Emilia for the month of March shows a considerable decrease on February. 66 crimes have been reported in contrast to the 100 of last month. No large scale banditry has occurred and CC RR successful investigation and arrests of participants in the large scale raids of Nov - Dec 1945 which still continues may have discouraged this type of activity.

5. DOMESTIC

Major VCJ THRUPP proceeded on release on 22nd March and his place as DAA & QMG has been taken by Major JS HUGHES.

The WE of OR's is complete with exception of one clerk. As the Cpl clerk is due for Python this week, it seems that a shortage may arise. However efforts are being made at the CRU N Italy in the hopes of obtaining reinforcements.

The post of training Major as authorised in the last amendment to the WE, has not yet been filled.

6. DISBANDMENT

3 Engr Coy Verona was disbanded wef 31 March and 515 Line Sec Osimo is in the course of disbandment this week.

HQ 717 Adm Regt is now more than ever redundant as it will only have to administer 893 S/L Pl Rimini and the three-men increment to 217 Area.

already taken up with 2 Brigade

7. WELFARE

Welfare amenities for troops have not increased or improved in any way. Indeed, if anything, they have been reduced as a result of the monetary grant from the Ministero della Guerra being cut from 100,000 lire

Welfare amenities for troops have not increased or improved in any way. Indeed, if anything, they have been reduced as a result of the monetary grant from the Ministero della Guerra being cut from 100,000 lire per month to 30,000 lire.

The question of dances for troops is being held up by lack of instruments for the band and inability to hire or purchase them for lack of funds. The same applies to the acquisition of a military band.

The local SEZIONALE has been approached with a view to increasing the allotment of foodstuffs, particularly flour, for canteens, but this attempt has not been successful.

Sports amenities are handicapped by grave lack of equipment; and a number of articles, particularly balls of every variety, promised by the Ministero della Guerra in early February have not arrived. This kit

(a) Vehicles.

On 26 March a decision was given by 2 District to the effect that, in agreement with the CC of 2 CEM Dump, Modena, we could draw out any vehicle of Italian military origin, even if without the two stars on the engine, as long as some reasonable proof of ownership could be given.

Accordingly arrangements were immediatly put into operation to inspect the whole dump and find, mark and withdraw all such vehicles.

So far the following have been taken :

Autocarri	9	all with two stars
Trailers	3	

(b) Misc stores.

A considerable amount of accommodation stores and wireless and signal equipment has already been drawn from the German Ord Depot Rimini. The complete allotment would have been withdrawn during the course of the next few days.

(c) Arms.

The clearance of large quatities of Italian arms (mostly rifles and machine pistols) from 2 CEM Depot Modena is continuing and would be completed by the 10th

The situation is now well in hand and allotments from CCP for the month of April show a slight increase on the figures for March.

Territorial Command has built up a reserve which under normal condition would be sufficient for 15 days.

11. ACCOMMODATION

The only recent acquisition has been a small area in the 'Pirotecnico' Bologna, which was given up by 5 (Br) Transit Camp. The building concerned are adjacent to some others already in use by 6 Repair Unit and will permit of a certain increase in scope by that unit.

6 B.L.U. PROGRESS REPORT No 7

Period 1 - 15 Mar 46.

A/Q

1. C.A.R. rehearsal of recruit reception.

On 9 Mar a rehearsal of the reception of recruits was carried out at No 6 C.A.R.

The attitude of the majority of the participants while undressing and going to bed in broad daylight was:'Well, if those mad Englishmen from "Sesto RLU" want us to do this there must be something in it and anyway it is quite good fun,' and so entered into the spirit of the exercise wholeheartedly.

Consequently a good morning was had by all - and apart from the fact that the bed-cots supplied by Ministry of War appeared to be so fragile that if a boisterous soldier lept on one it would crumble up without a word, no major hitch or inefficiency was noted, while for the few deficiencies observed plans were well in hand.

2. WITHDRAWALS FROM C.E.M. DUMP M O D E N A.

The total number of vehicles and trailers listed by 6 Territorial HQ recce party in C.E.M. dumps MODENA as identifiable of ex-Italian military origin by the stars stamped on the engine was 248. Of these 21 were fitted out as workshop vehicles, ie medium load carriers fitted out in caravan style and containing either fittings for spare parts stores, or workshop benches and machine tools.

181 of these 248 vehicles have been withdrawn - 13 of those fitted as workshops and 168 of the ordinary pattern.

The balance of the 21 workshop vehicles, 8 in number, were released to "Air Forces Sub Commission, AC" by "G" Two District at the same time as this unit was obtaining a release from "Ord" Two District for all the 21.

As these 8 vehicles were Regia Aeronautica vehicles in the first place and this unit had been misinformed by the Italian recce pty of this military origin - this "G" release is quite regular.

The balance of the ordinary pattern vehicles,59 in n

The balance of the ordinary pattern vehicles,59 in number, are hulks. The clearing of these will by long and slow process.

3. P.O.L.

The situation is now normal once more. C.I.P. has notified Territorial Command that the whole quantity released for March will be available. This will allow Territorial Command to build up their reserve (25,000 kilos of petrol and 25,000 kilos of gasoil).

6 B.L.U. PROGRESS REPORT No 5.

PERIOD 16 - 28 Feb.

"G"

1. ORGANISATION

(a) ARMY - Welfare Services.

There is no establishment of transport for Army Welfare Services, and the establishment of personnel is far from generous. With the position of supply and provision of canteens as difficult as it is, Lack of transport and shortage of personnel makes the organisation of welfare a very difficult and heart-breaking task.

At the moment the system of supply to canteens is based on local purchase, consequently, no very visible difference to price rates between canteen and civil restaurant or shop exists. Given the transport, authority and personnel to buy where goods are cheapest and to resell in canteens Welfare Officers could put up a show that has some meaning as Welfare.

(b) CCRR - Workshops.

The present L.A.D. with the Mob Bn BOLOGNA is static. This B.L.U. has taken up with A.D.M.E. your HQ the necessity for putting this L.A.D. on a mobile basis as soon as possible.

Most M.T. repairs for CCRR Groups are being carried out by civilian garages. This state of affairs marks the absence of mechanics and fitters at Group H.Q. or a Legion L.A.D. Groups do not make use of the Terr Repairs unit if they can help it as this latter unit is so overworked that vehicles going into it may remain off the road several weeks.

2. TRAINING - ARMY.

No change. Formal training continues. Re-organisation of Inf Regts and a training directive based on this re-organisation, the entry of new blood into the Army, are awaited to put new Life into this subject.

CCRR Mob Bn

The few personnel available (some 120 men) in BOLOGNA are being trained in handling equipment on the basis of specialist courses in driving and maintenance of tanks, trucks and M/Cs designed to last until mid April. The longest single drive by the tanks of BOLOGNA Mob Bn has been 12 kilometres. Now that the Bn very nearly has all it's equipment it is hoped to practise sub-unit moves in due course. An issue of maps down to sections has been arranged by this B.L.U. through map depot 217 Area.

3. EMPLOYMENT OF TROOPS.

(a) CCRR

Groups, at the discretion of their commander, are to find mobile road blocks for checking up on road movement. The object of these blocks is to replace the provisional blocks set up by un-uniformed partisan organisations that gave such cover to banditry.

4. INTELLIGENCE

1. Subversive Activities

(a) Though it gives no evidence of growing in strength the neo - fascist organisation of the Squadra d' Azione Mussolini continues to distribute propaganda in EMILIA. Attached to this progress report are copies of two manifestos issued by the party in FERRARA.

2. Civil - military relations.

(a) Army and civil population

417 F.S.S. report that their civilian contacts show little consciousness of the existence of an army. It is felt that although there has been talk of the re-organisation of the Italian Army the governments that have been in power since the Armistice have been too weak and dilatory to alter the position that appertained in Fascist days ie of an army that was secondary in importance to the fascist militia, was bureaucratic in organisation and poorly equipped.

This opinion is borne out by the report in my ProgressReport No 3 para 6 (b)2, that the Sindaco of REGGIO EMILIA expressed surprise at the existence of a disciplined body of soldiers such as the Gren Bn located in his town.

(b) Army and CCRR.

The poor bearing and discipline of the ex-guard battalion now forming 6 Inf Regt gives rise to the frequently repeated opinion in CCRR circles that the army lacks the solidarity to make it reliable in times of civil disturbance.

3. Public Law and Order.

(a) The numbers of reported crimes in EMILIA still maintain their level. In the month of February over one hundred incidents of murder abduction and robbery occurred.

(b) The arrest of some criminals precipitated a demonstration at PORTOMAGGIORE (FERRARA) in which some 200 persons took part. The criminals and demonstrators were members of the Communist party. The

(b) The arrest of some criminals precipitated a demonstration at PORTOMAGGIORE (FERRARA) in which some 200 persons took part. The criminals and demonstrators were members of the Communist party. The theme of the demonstration was that the CCRR were Monarchists and that the criminals had been put inside for political reasons only. The demonstration was broken up.

4. Economic Situation.

(a) On the whole EMILIA is one of the more fortunately placed zones of Italy from the economic point of view. Any disorders based on economic complaints are likely to occurr for chronic rather than acute reasons. The old EMILIA squable between the landed proprietor and his tenant farmers is the chief of these. The present arrangement of 50% share to each farmer and proprietor of the products of the land is being challenged. The farmer s demand is that he should get 60 %. In this

month the only reported incident has been the menacing of one proprietor who had the guts to live on his land. Since the murder of some proprietors towards the end of last year, many have left their land and retired to the safer precincts of BOLOGNA.

5. DOMESTIC.

The WE position of this B.L.U. is shown separately in our A/4/2 dated 5 March. The civilian part of the WE is in course of implementation mainly for use in the officers mess (see para 8).

6. CALL-UP.

Target figures for the forthcoming 1924 class call-ups show that an average of 400 men only per province are to be selected for the C.A.R. This figure represents less than a quarter of the estimated number of men liable for reporting to the Military Districts, and indicates the large number of exemptions and postponements which will have to be granted. Membership of a partisan formation is likely to prove popular as a claim to postponement.

All recruits selected from FORLI province are being sent to C.A.R. at SIENA.

7. WELFARE.

(a) Emphasis has been placed by Territorial Command on welfare for the recruits during the Call-up both at Military Districts and at the C.A.R. itself. This is to take the form of sign-posting, information posts, canteens, reading and writing rooms (with note-paper provided), etc. In order to put into force this programme which is designed to impress on the recruit the fact that he is being welcomed, Territorial Command are expecting to have available a grant of 100 Lire per recruit.

(b) Owing to the high prices on the market, commidities on sale in canteens are limited to those articles which are cheap enough even at wholesale prices for the average soldier to buy. These in effect consist mainly of coffee, wine and a few cheap drinks. It is felt that with more energetic buying on the part of Welfare Officers, or by organising regional purchasing for canteen articles such as toilet necessities the soldier would benefit considerably.

Regarding food for the canteens a more generous allotment of rationed

It is felt that with more energetic buying on the part of Welfare Officers,or by organising regional purchasing for canteen articles such as toilet necessities the soldier would benefit considerably.

Regarding food for the canteens a more generous allotment of rationed supplies from the SE.PR.AL would be desirable. For example,the BOLOGNA canteen obtains monthly through the civilian food organisation only 1 quintal of flour. This is insufficient for the provision of an adequate number of cakes. A promise has been extracted from the local SE.PR.AL for this to be increased to 2 quintals in future.

8. DOMESTIC

6 B.L.U. Officers Mess will be opening shortly in Via BELLACOSTA. The accommodation,a villa,was requisitioned by the Prefect at the request of Territorial Command and is being fixed up and furnished by the latter.

....4/.....

Declassified E.O. 12356 Section 3.3/NND No. 785030

9. P.O.L.

The P.O.L. position continues to be somewhat critical. Although CIP Regional offic in BOLOGNA made various releases to Territorial Command during Feb from a variety of Provincial Depots, total drawings for that month still represent only ¾ of the total allotments made by the War Ministry.

The figures for petrol are given below :-

	Allotments		Drawn
	73,640 Kg		
	14,730 "	(re-allotted from CCRR Mob Bn)	
	8,000 "		
Total	96,370 "		69,060 Kg

In this way it is impossible to build up any reserve.

So far this month nothing has been drawn of the March allotment which is a much larger one (approx 100,000 Kg petrol) to cover increased commitments such as C.A.R., Base Wksp etc. Stock at present consists of some 5,000 litres which cannot last long. With the call-up and its demands on transport impending it is to be hoped that a good proportion of the March allotment will be made available soon by C.I.P.. The situation is being carefully watched.

10. ACCOMMODATION.

News of the release of the MONTECCUCCOLI Barracks MODENA came somewhat too late, and the bn in the DUCA D'AOSTA barracks (5C.A.R.) had had to be moved to PARMA. The next course is now being considered whether to move I/6 Inf Regt back to MODENA into MONTECCUCCOLI or leave it where it is, and offer the MONTECCUCCOLI to a further Bn of 87 Inf Regt. At any rate it is felt that the sooner MONTECCUCCOLI is occupied to capacity the less likely it is to be demanded by D.P.R.S.C. on 1 April. The 'Funzionali' at MODENA are meanwhile being repaired but completion is not likely to be before May.

No progress is being made in the nature of preparing accommodation for the remainder of 87 Inf Regt South of the PO. It seems that the War Ministry was asked to authorise work on barracks at SASSUOLO and SCANDIANO, but that no reply has been received.

Considerable difficulty is experienced in this region in finding accommodation for officers. In BOLOGNA, nothing is organised and

Considerable difficulty is experienced in this region in finding accommodation for officers. In BOLOGNA, nothing is organised and officers have to find their own rooms, often being forced to pay high rents. In REGGIO EMILIA officers of III/87 Inf Regt are living crowded in hotel rooms and with the prospect of further officers arriving the Sindaco will not be persuaded to move a finger to requisition any rooms for them.

This same difficulty has been encountered in PESARO when accommo- dation is required for the officers of the C.A.R.. Apparently there is no law under which Civil Authorities are bound to requisition accommo- dation for officers

This B.L.U. is constantly being asked to persuade Area to requisition accommodation on behalf of the Italian Army, but this of course is not possible.

It is suggested that this question is of considerable importance and it is not surprising if the discipline and enthusiasm of officers

....5/.....

Declassified E.O. 12356 Section 3.3/NND No. 785030

ebbs while the present situation continues. Limited powers of re - quisition vested in the Territorial Command would probably be sufficient to ease the situation. Can something be done on a high level ?.

11. C.E.M.

A number of Italian military vehicles have been found to be in a C.E.M. dump in MODENA. 6 Territorial Command on instructions of this B.L.U. is now proceeding with the checking of these vehicles direct. This is being done without reference to the War Ministry or to you as any further delay would have caused 2 District to hand over all the vehicles to A.R.A.R..

12. C.A.R.

Attached to this report is a further report on 6 C.A.R.

E' in questo momento critico per noi che si vede un vero fascista di fede, il fascista pronto a dare la sua vita per la causa comune.
E' in questo momento che tutti ci dobbiamo unire sotto le nostre insegne per combattere i nostri nemici e i nemici dell'Italia.
Tutti i fascisti hanno il dovere di formare delle squadre in qualunque posto; chi oggi medita chi oggi non sa cosa fare non è fascista ma un traditore.
Molti di questi casi se ne vedono, fascisti fino a poche ore prima della liberazione, oggi meditano, oggi hanno paura. Si ricordino tutti che chi non avrà partecipato alla lotta della resurezione non sarà mai fascista. I fascisti che hanno cambiato bandiera la pagheranno presto o tardi ma la pagheranno.
Con rammarico vediamo che nel movimento ferrarese mancano degli uomini anziani mentre nelle altre citta' ve ne sono parecchi, noi conosciamo molti fascisti della vecchia guardia che preferiscono starsene alla finestra, ma quando il movimento tanto atteso giungerà noi diremo loro state pure alla finestra. Molti dicono che senza armi non si può far niente, il fascismo non ha intenzione di andare al potere spargendo sangue, del sangue ne è stato versato abbastanza, il santo manganello ci basterà per far scattire le velleità di qualche facinoroso.

1. ORGANISATION — Army I Services

Policy with regard to the organisation and functioning of Italian Military Intelligence Services is not known by this BLU. However investigation reveals that the system appertaining to 6 Territorial Command seems to consist of a hangover from Fascism.

The Commander states that he relies on the information supplied him by a privately organised "jungle telegraph" consisting of two or three acquaintences who are in the know.

The Chief of Staff when approached on the subject said he did not make use of his "I" office to collect intelligence, but had appointed for this purpose a major on his staff who was " molto in gamba".

The head of the "I" office when interrogated about his function gave most stress to that part of it which consisted in training personnel for exercising "I" functions in time of war. His attitude to collecting other information was that he got some reports about the activities of soldiers from Bn Cmds but had had nothing interesting for the last month or so. He did not seem to think that he had much active work to do in this sphere.

The investigation referred to above followed attempts by the officer to discover how the HQ were kept informed of the following specific "I" points:-

(a) Activities on the part of nationals or foriegners designed to undermine the discipline of the army and CCRR units.

(b) Activities leading to organisations of nationals or foriegners calculated to produce a military threat to internal security within the Terr Area and against which the HQ may have to act with troops at its disposal.

No precise system or cut and dried methods are operating. Counter espionage teams in the area do not liaise with the Terr HQ to pass information to it direct. Ordinary CCRR units have no organised service for collecting intelligence or passing it to the military commander. In fact the situation seems to be much as it must have been under a fascist system where such an important subject as intelligence was not allowed to stay into the hands of normal government organisations such as the Army and CCRR but was retained in those of a secret police serving the dictator.

It is appreciated that with the present delicate political situation any

It is appreciated that with the present delicate political situation any move to organise a service in the army that may have to investigate and report adversely on the activities of this or that political party, may be considered inadvisable beyond a certain point. Some information on this matter would be appreciated by this BLU.

2. EMPLOYMENT OF TROOPS. C.C.R.R. Mob Bn

No change in the situation of BOLOGNA Mob Bn has taken place since that reported in my Progress Report No 2.

Half the strength of the Bn is still dispersed to various parts of EMILIA.

Troops dispersed in this manner are being used to reinforce guards on prisons etc and are not getting on with the essential need for collective training.

3. Training

1 CAR

No scale of training stores and equipment has been received by 6 Terr Cmd from the Ministry of War.

Meanwhile the question of the provision of such items as Aiming rests, aiming discs, instructional diagrams, painted panoramas for fire order training etc is being taken up independently by Terr HQ with the Ministry.

It has been decided to try to find the demo pl No 6 CAR from No 6 Inf Regt. A platoon has already been formed from the best elements of 6 Inf Regt and wef 14 Feb has been attached to Gren Bn 87 Inf Regt for training. The progress of the platoon will be reviewed early in March and a decision will then be taken whether to retain it as fit for demonstration purposes or whether to call for a platoon from an Inf Div.

"A"

4. CAR

The reception arrangements of recruits arriving at 6 CAR from the Military Districts are being tested on 7 Mar 46. It is considered that this will allow sufficient time to rectify any defects discovered in the arrangements.

"O"

5. CAR

Work on the barracks is now well under way. The work to be done appears to be considerable particularly in the older Cialdini barracks, but the Genio is confident that the essentials will be satisfactorily completed by 15 Mar.

A certain amount of difficulty is being experienced in finding adequate accn outside barracks for officers and families. This is due to overcrowding in PESARO and lack of enthusiasm on the part of the Sindaco in finding buildings for the Army.

All the clothing for the CAR, with exception of 3600 prs new boots to come from ROME and approximately 8.000 prs cotton drawers, has been received in BOLOGNA. It will be sent to PESARO as soon as the storage space is ready. All the necessary kitchen utensils have been allocated by Ministry of War but not yet received.

The question of emm supplies for the CAR has been raised by the Commander. It is presumed that any allotment will be notified in due course.

6. POL

There has been a crisis over POL owing to CIP not being able to supply the February allotment. By using up reserves (including that of CC RR Mob Bn) and cutting down services to a minimum Territorial Command have been able to carry on. Now CIP BOLOGNA are releasing 11.000 litres of diesel in BOLOGNA, 11.000 litres of petrol in PARMA and FORLI; this should keep the Army going in this area for about 8 days more.

1. GENERAL

(a) Domestic. The chief difficulty of a "B" type BLU, consisting as it does of two officers only is that of holding off small tasks while jobs requiring a whole day's or more attention are undertaken. One is without a junior staff upon whom to off-load some of these distractions such as those arising from the petty misunderstandings between local admin HQ & BR-ITIs under their command that are so often referred to us for solution; those arising under the heading of camp duties; etc.

The addition of a Training Major to the staff will be of very great assistance. Some steps have been taken locally to create a junior staff, ie a CC RR LO and Army LO who, assist in obtaining information. However as yet it is very difficult for G II or DAA & QMG to get out and around and give advice and assistance. It is to be hoped that as we grow more accostomed to the work and can reduce certain parts of it to rule of thumb- more time will be left to us to get out and fulfil this task of giving advice and assistance.

G

2; ORGANISATION

(a) Domestic. Prior to the Rome conference 28-29 Jan this unit had asked for and received the attachment from 6 Terr HQ of an Italian officer as interpreter and LO. The officer concerned (a Lieutenant reservist) has been with this unit for some days now and is proving of two fold value. He can get out and visit service units in the Terr Area and obtain from them information required by this unit that cannot be procured through staff channels owing to, the fact that up to date records are not always available from Direzione, and, the time lag which is occurring in the comms between Direzione and their subordinate service units. Secondly he is able to translate letters out to Direzione not having interpreters, thereby speeding

(b) ARMY. The addition was announced of a Brig Gen Inf to the staff of 6 Terr HQ. He will form a Directorate of Infantry, ostensibly to control all Inf matters in the Terr Area. In fact he will merely duplicate the task of the commander of 6 Inf Regt, interfere with that of Commander Friuli Inf Div (87 Inf Regt of which is in this Terr Area), and become one more and a possibly conflicting pressure upon the commander of No 6 CAR. This is just one

PILING UP

more example of the ~~pobing~~ of senior Officers in redundant jobs which characterises the org of the Terr HQ at the moment. It produces the unnecessary interference from above, bureaucracy of the destructive type, that saps the initiative and capacity for decision and independent action of junior officers, and is exemplified in the picture of a colonel, chief of staff to a Terr HQ gazing at the photographs of two types of double bunk bed and saying"now I must write to the war Ministry and ask them which type they prefer for my CAR". The mooted reorganisation of the Ministry of war and its hoped for reduction of bureaucratic control; the consequent effect on the efficiency of Terr HQ and the probable follow through of reorganisation of that HQ, should remove the dangers interest in this over-crowding at the top.

(c) CC RR The present organisation of the CC RR (less Mobile Battalion) in Emilia does not seem to permit efficient training. Men are all out to stations, and at stations are occupied in routine duties. A further argument for the creation of reserves, the personnel of which could be turned over at periodic intervals, is that it would make the task of training CC RR simpler than at present.

3. EMPLOYMENT OF TROOPS

(a) Army The dispersion of a Inf Regt reported in my progress report No 2 has now been reduced to minimun possible proportions, with Bns concentrated one each at Modena, Bologna and Ferrara. Closer concentration than this (Bns from 25 - 30 miles apart) has not been possible owing to the limitations of accomodation.

Each Bn has rather more than one Coy engaged in guard duties. Terr HQ agree to make every effort to reduce guard duties to the minimum by employment of civilians, and thereby leave the maximum number of soldiers available for training.

Those Coys not engaged in guard duties are available for training - and at the moment are in fact making small efforts in this direction.

(b) CC RR There is no change in the situation

Those Coys not engaged in guard duties are available for training - and at the moment are in fact making small efforts in this direction.

(b) CC RR There is no change in the situation reported in my progress report No 2 relating to the dispersion of Bologna Mobile Bn.

CC RR personnel from stations have been taking part continously in arms raids organised by 417 FSS during the past six months and more. These raids have shown up considerable deficiencies in the training, leadership and discipline of the CC RR.

4. TRAINING

(a) CC RR (less Mobile Bn) It appears CC RR notions on the organisation and conduct of house searching operations are poor. Comdr 417 FSS who has personally commanded many such operations with CC RR under him has the following observations to make:-

(i) Embussing and debussing by CC RR is usually slow; unorganised, and characterised by argument between all ranks and poor response to officers orders.

(ii) Tactical ideas are non-existent in the heads of most officers and NCOs. On debussing they will order their men to form up in threes on the road and then march them off to surround a house by moving straight down the road to it.

(iii) No sense of the importance oftiming seems to exist in the heads of all ranks. Two houses half a mile apart will be surrounded and searched at an interval of eight hours.

(iv) CC RR CRs will readily enter into a discussion of the merits and demerits of the person or persons whom they are in the process of arresting, with onlookers to the operation.

(v) More courses are necessary for CC RR officers and NCOs - modernised courses in which they are brought into contact with military ideas of speed, control, discipline and tactics generally and made to put these ideas into practise intraining with men.

(vi) CC RR Mobile Bn With the start on 1Jan 46 of the issue of POL to the Mob Bn training in the handling of its armoured vehicles commenced. On the 15 Jan a parade took placeof the Mob BN through the streets of Bologna and the salute was taken by comd 217 Area. The parade was a great success and went off without a hitch. The Bn gave the impression of being alert, well disciplined and master of its equipment. This reflects great credit on its commander Major Ferrari + Since the bn has not been formed for very long and that it has had very little equipment. Although at this parade only the formal disciplinary side of training came under observation there is no reason to believe that when the bn can be concentrated and trained in tactics this standard of exeellence will not be maintained.

(b) CAR The commander and instructional staff of No 6 CAR

heads of most officers and NCOs. On debussing they will order their men to form up in threes on the road and then march them off to surround a house by moving straight down the road to it.

(iii) No sense of the importance of timing seems to exist in the heads of all ranks. Two houses half a mile apart will be surrounded and searched at an interval of eight hours.

(iv) CC RR ORs will readily enter into a discussion of the merits and demerits of the person or persons whom they are in the process of arresting, with onlookers to the operation.

(v) More courses are necessary for CC RR officers and NCOs - modernised courses in which they are brought into contact with military ideas of speed, control, discipline and tactics generally and made to put these ideas into practise intraining with men.

(b) CAR The commander and instructional staff of No 6 CAR have now returned from CES.NO. During the ensuing month they will be studying the lay-out of the school and the organisation of the training.

A detailed report on the progress of repair work and provision of equipment is attached in the proforma specified by you.

6 Terr HQ have agreed to provide one platoon of specially selected men from 6 Inf Regt organised and equipped similarly to a platoon of an Inf Div. These will be attached for one month's training to the Gren Bn 87 Regt at REGGIO E. It is hoped that by the end of this period they will be fit for

Declassified E.O. 12356 Section 3.3/NND No. 785030

duty as a demo pl with 6 CAR. If the result is unsatifactory it may be necessary to ask for a pl of the Gren Bn for the first course at the CAR.

(c) ARMY. In view of the dispersion of 6 Inf Regt it has been difficult to form a picture of their training. Now that the Regt is concentrated and has been relieved of most its Guard duties it is hoped to make a beginning with training of a formal nature. When reorganisation of the Regt takes place and the instructional cadre returns from CESANO, it will be possible to undertake a more ambitious programme.

5. INTELLIGENCE

(a) SUBVERSIVE ACTIVITIES

(i) FSS beleive that a small group of Yugo-slavs (four in number) working in BOLOGNA area bringing money and arms into the country to put at the disposal of the Communist party. It is reported that 100,000,000 Lire will accrue to party in this way.

(ii) FSS continue to receive reports of the organisation of a military set-up in the Communist party. The head of the BOLOGNA region branch of this set-up is suspected as being the organiser of the incidents that took place at GAGGIO MONTANA and SAVIGNO (two villages that were sistematically looted by a band of about fifty to sixty bandits). These incidents are regarded as training exercises for the set-up as well as designed to acquire funds for it.

(iii) One open attempt has been made by the Communist party to encourage indiscipline in the Italian Army. At a communist party gathering in FORLI a soldier was encouraged to take the stand and openly abuse his officers as currupt and of fascist sympathies.

(iv) FSS report that the head of the Christian Democratic party in BOLOGNA area, stated to them that he was organising his party on lines to combat the communists, ie. arming groups of people and making them mobile so that they could be manoeuvred during the elections and used to neutralise communist pressure on electors and to put on some pressure of their own. This man is an ex army officer and may be regarded as having sympathisers in the Army.

(b) PUBLIC OPINION OF ARMY AND CC RR

(i) FSS report that the parade of the CC RR Mob Bn through the streets of BOLOGNA has had the effect of sending up public esteem of them. It is generally reported that CC RR are regarded as the only force upon which law abiding citizens can rely to maintain the fairness of election and a reasonable state of public law and order.

(ii) The Sindaco of REGGIO EMILIA and members of his staff expressed surprise and pleasure on the arrival of the Grenadier Bn of 87 Inf Regt in their town. They said they did not know that Italy had in being such a well

Declassified E.O. 12356 Section 3.3/NND No. 785030

disciplined force the outward aspect of which encouraged confidence in it.

(iii) It is the opinion of the writer of this report that 6 Inf Regt cannot be expected to aquire more than a half-hearted confidence in it from the public (wiht the possible exception of the Bn in BOLOGNA), since turn-out is usually slovenly, and soldiers on the whole make no effort to carry themselves with pride or to behave with dignity in public.

(C) PUBLIC SECURITY

(i) The state of public law and order in EMILIA continues to present a grave picture. No improvement can be stated to have taken place during the past month - nor does there seem to be any likelihood of improvement until equipment is got to the CC RR. Murders and abductions normally finishing in murders, show an increase on the previous month. The most grave fact under this heading was the arbitrary murder of a whole family by a gang of a dozen masked bandits. The motive of this act is obscure and probably involved personal hatreds.

(ii) The CC RR have carried out numerous arrests after their investigations of crime. A large number of the gang that took part in the raid on SAVIGNO mentioned in (a (ii)) above, have been arrested. Here the bandit tactic of threatening the CC RR with death if arrests continue has been frequently used. It has had no evident effect - nor been carried out in this instance. However the CC RR carrying out the arrests were in strength. It is probable that similar tactics applied to small CC RR stations would have considerable effect until they can feel backed up by strong and efficient reserves.

6. DOMESTIC:

Personnel position is shown in ~~one~~ our letter A/4/2 of 5 Feb 46. Dvr ROYDS and Dvr NOBLETT have been recalled to ROME (your A 360 of 28 Jan 46 refers) and this BLU will then be without British tpt personnel.

7. DISBANDMENTS :

When all disbandment# operations now in progress are over, total Br-Iti strength in 6 Territorial Command will be scarcely more than 200 men.

HQ 217 Area is now taking an active interest in the disposal of vehs of 1 and 2 It GT Coys, and no further difficulties are anticipated.

8. CALL-UP :

War Ministry Circular No 13 dealing with the forthcoming call-up has been received and is being studied by the Territorial Command before drafting the detailed instructions to the Military Districts. The big problems are likely to be (a) organising transport facilities from Comuni to Military Districts and thence to the CAR ensuring that there are no bottlenecks, and (b) careful regulation of the medical inspections and postponements granted in order to make certain that the correct number of the men of best physique including tradesmen are sent to the CAR.

9. WELFARE :

Welfare activities in 6 Territorial Command are largely centred round the "Case de Soldato" (canteens) which have been established in most centres under arrangements of local Presidii. In BOLOGNA there is a cinema attached to the canteen which is also used twice for dances twice a week and for plays. It seems that the Welfare Officer attached each Presidio, spends rather more time on "Assistenza" in the form of grants to needy to soldiers and families. Funds for ordinary welfare activities are not generous (eg. there was no extra grant for Xmas).

Forthcoming arrangements are as follows : -

(a) Mobile canteens run by the corps Assistenza Femminile,
(b) A mobile cinema,
(c) Organisation of two canteens in PESARO for the CAR (one in barracks and one out),
(d) Organisation of a band for 6 Indep Regt. A bandmaster has been put in charge of this; progress will be notified.

10. DOMESTIC ACCN :

We are making attempts to start an officers mess. Difficulties in finding suitable accn have been encountered as BOLOGNA is very crowded; but it is hoped that these will shortly be overcome. 6 Territorial Command are cooperating.

11. ACCOMMODATION :

(a) Last remaining Br unit will be clear of ALDO DEL MONTE Barracks PESARO (CAR) by 9 Feb.
(b) Nothing further has developed regarding D'AZEGLIO Barracks BOLOGNA.
(c) Attempts have been made to obtain release of the MONTECUCCOLI Barracks MODENA to accommodate I Bn 6 Indep Regt It may now not be necessary if the two Bns of CAR UDINE do not have to be housed in MODENA.
(d) Work in preparation for the arrival of 87 Regt (accn planned for PIACENZA, SCANDIANO and SASSUOLO) was suspended when it was thought that the Regt would not come after all. So far no orders have been received by Territorial Command to resume work.

12. CAR :

Progress report is attached. Information for the two barracks has been incorporated into one report as they are adjacent and can be considered as one unit. If future reports are required separetly, this can be done.

13. TRANSPORT CC RR :

Efforts by this BLU to obtain releases of load carrying vehs ex local EVP for CC RR have not proved entirely succesful. Some three ~~xxxx~~ weeks ago 6 Territorial Command at our suggestion requested War Ministry to release all or the majority of the vehs standing unassigned in the EVP. After considerable delay, releases for 3 vehs only were received, and in spite of a further request by 6 Territorial Command, no further releases have been made.

It is not known if it is in accordance with policy that Legion should be made up in tpt from local EVP's, but since BOLOGNA Legion alone is some 70 trucks down on estabishment (comparing unfavourably with the Army), some bulk release would seem to be the only solution.

14. CLOTHING CC RR :

(a) Work on the production (in Legion shops) of 4,000 uniforms out of 12,000 metres of material released by War Ministry is to begin in a day or two. After excessive delay 18,000 metres of lining material for these uniforms were obtained from MILAN Commissariato on 1 Feb (this is almost two months after the date of the Ministry of War release for the GV material)

(b) BOLOGNA Legion is still awaiting two consignements of boots (Allied repaired) ex BARI; one is for 500 ex BARI Legion released 2 Dec 45 and the other is a War Ministry assignement of 1900 released 15 Jan 46. This BLU is taking steps to hasten delivery.

15. CLOTHING REPAIR :

The repair shops are shortly moving to CASARALTA. This will allow for expansion and installation of some machinery which is now being brought up from BARI.

6 BLU - PROGRESS REPORT No 2

Period 1 - 15 Jan 46

G

1. EMPLOYMENT OF TROOPS

(a) Army less CC RR

One battalion only of 6 Inf Regt is concentrated as a unit and can be considered therefore a real factor in studying the maintenance of public law and order. This bn. is at BOLOGNA.

The remaining two bns. are split up in nine different localities.

This state of affairs has been represented to HQ 6 Terr Cmd as most unsatisfactory from all point of view and it has been agreed to concentrate the remaining two bns in two different localities, MODENA and FERRARA, by the end of this month. Concentration more speedily is not possible owing to accommodation shortage.

(b) CC RR

The BOLOGNA Mobile Bn CC RR is not concentrated as a unit. It is split up as follows : -

150 men at FERRARA (M 1286)
50 men at MODENA (L 5666)
50 men at REGGIO EMILIA (L 3673)
12 men at SAVIGNO (L 6737)
300 men at BOLOGNA (L 8948)

This dispersion has been occasioned by demands from prefects of the respective provinces in which detachments are located for reinforcement of their CC RR Groups. These demands have been accepted by the Ministry of the Interior and the CC RR ordered to make dispositions accordingly.

This dispersion requires careful scrutiny. If the Ministry of the Interior accedes to the demands of prefects and permits dispersion of force in the Mobile Bns under its contrl, it would be possible for the strength of these units to be under-mined and for them to be drawn off from areas in which any large scale activity endangering public law and order was being planned.

2. TRAINING

(a) C.A.H.

Planning of the major constructional repairs for the barracks at PESARO is complete and concentration of the necessary materials has begun to take place. It is expected that detailed work on the barracks will commence during the latter half of this month.

The admin plan for equipping the CAH has been drawn up and supplies are on indent, or order to civilian firms.

The detailed lay-out of the school, planning for supply of training equipment, and planning of training areas remains to be dealt with on the return from CESANO of the senior instructional staff in the month of February.

Meanwhile the necessary study of grounds has been initiated by subordinate officers. Planning of mined areas will have to take place as complete records are not held within 6 Terr Cmd.

3. COMMUNICATIONS

(a) CC RR

The following statistics of Comms available to CC RR show up a very grave deficiency : -

(i) Of 500 CC RR stations in the area of 6 Terr Cmd only 150 stations have telephonic comms with their Hqs.

(ii) This over-all figure of 30% in communications is not a fair one in that in the four provinces over which fighting was sustained, ie FORLI, RAVENNA, BOLOGNA, FERRARA, the figure is only 10%.

(iii) In the province of FORLI (including RIMINI) the figure is NIL.

The state of CC RR transport has already been

4. DISBANDMENT

The problem of 1 and 2 GT Coys seems now to

.....3/...

Declassified E.O. 12356 Section 3.3/NND No. 785036

be coming to a head. However no progress is being made at the moment as 2 District have issued a "hold-everything" order.

It is considered a matter of some importance that these units should now be finally dissolved. Apart from the fact that men and vehs are deteriorating after months of inactivity, the reasons for the delay cannot be grasped by Italian staffs who are putting their own, not always flattering, interpretation on whole matter.

In the opinion of this BLU, the position can be summarised as follows : - An ArHQ letter dated 26 Aug 45 ordering the disbandment of these units by 16 Sep 45 and giving specific instructions therefor , has, for reasons unknown, been disregarded by HQ 2 District. It is hoped that a settlement at GHQ-District level will soon be arrived at, as the time and energy expended by MMIA LO's and 6 BLU over these two units since Sep 45 has been at the expense of more important work and unproductive of results.

Q

5. CLOTHING CC RR

(a) BOLOGNA Legion has now received 12,000 metres of uniform material released by Ministry of War. This is enough for 4,000 uniforms which should take about 2 months to produce locally. Work has not started owing to non-delivery of lining material and thread which should have been released in MILAN. The matter is urgent as there are still some 200 men in the Legion without a uniform. 3 BLU has been contacted in attempt to hasten. 25

(b) The 9,000 metres of material released ex CEM Depot BOLZANO has been received. It is planned to manifacture greacoats out of this, as the greatcoats issued by Ministry of War are praticaily all too small. Here again lining material and thread is lacking. The Legion has taken the matter up with Comando Generale dell'Arma. Buttons are

Covering period 15 Dec 1945 - 1 Jan 1946

1. GENERAL

(a) Domestic. This unit is now occupying offices alongside 6 Terr. Cmd. H.Q.

The occupation of these new offices and their systematisation; the employment of new staffs and their training, has been the major preoccupation of the past fortnight.

The period has seen an expansion of activities directed mainly towards making a detailed study of CC RR problems.

(b) Italian. No difficulties are being encountered in approaching both H.Q. 6 Terr. Cmd. and H.Q. Bologna legion CC RR. All officers of these H.Qs. are ready to give what information and assistance lies within their power.

The largest problem presented during these approaches so far has been that of the CC RR. In the country districts the advantage everywhere seems to lie with the bandit. CC RR forces are dispersed from station to station, varying in groups of from five to ten in strength. Unbacked by adequate reserves at "Tenenze" (platoon), Company, and Group (En) h.q.s.; cut off from these h.q.s. in that in very few areas are telephone comms. working; unserved by vehicles capable of meeting conditions imposed by terrain on communications and mobility; and not armed equally to the bandits, CC RR out-stations present an unhappy picture.

A full and detailed study is being made by this unit of conditions throughout Emilia and a plan of minimum essential requirements will be submitted to H.Q. MMIA at the earliest possible moment.

2. ORGANISATION

(a) Domestic. The W.E. of civilian personnel for this unit has not yet been implemented except in the case of a general dutyman. The reason for this is that we have not yet established mess or billet for officers or O.Rs.

A CC RR liaison office is being set up with this unit, to assist in compiling the plan referred to in Para 1 (b). A CC RR captain is already at work in this sphere; the civilian clerks will assist.

(b) Italian. (CC RR). Some difficulty is being encountered in obtaining the over-all CC RR picture for 6 Terr. Cmd. area. Two provinces in the north-west of the area come under Genoa Legion, and two in the south-east under Ancona Legion. Reports so far from these two corners have been sketchy and the

RR picture at the moment known to this office, represents only the area covered by Bologna Legion. It is hoped that the CC RR Liaison office referred to in Para 2 (a) will assist in achieveing a balanced over-all picture.

The operation of gangs of armed bandits, from fifty to sixty strong, in the Emilia region, present the CC RR with something of a military problem. The organisation and lay-out of the CC RR should be based on the existence of posts on the ground backed by reserves, and above all by mobile reserves. This for the moment is not the case. Further, rapid communications must be available between posts and h.q.s. Since telephones are not working over widespread areas, and the CC RR are without other means of communication such as wireless, motor-cycle, or car, but must rely on bicycles in some cases, and good luck in others, this condition is in no way satisfied.

3. TRAINING

(a) T.T.C. A suitable site in Pesaro has now been found for this T.T.C., to take the place of Modena which is most unsatisfactory. Permission for the alteration in plan has yet to be given by M. of W., in view of an increase in expediture that will be necessary if the new site is chosen.

Pesaro offers three distinct advantages. Good personnel accomodation (better than at Modena); training areas available in the immediate vicinity of the school (as opposed to Modena where they were some thirteen miles apart); an altogether more temperate and favorable climate than Modena, with better opportunities for recreation during the hot months.

(b) A range has been handed back to Italian Military Control in the Bologna area. This will be available for the Inf. bn. of the independent regiment stationed in Bologna. It is hoped that the same may be achieved for each bn. of 6 Inf. regiment in due course.

4. INTELLIGENCE

(a) Evidence is accumulating that arms are being smuggled into Emilia from the sea in the Lake Comacchio area. Guarding this area effectively is beyond the powers of the isolated and weak posts of CC RR without the assistance of an efficient coast guard service. So far evidence is not available whether the organising genius of this smuggling consists of individuals working for personal gain, or of organisations, either native or foreign, working for political ends.

(b) There has been no improvement in public confidence in CC RR and army from that reported in my Monthly Routine Intelligence Summary Nº 1.

(c) The picture with regard to subversive elements is one of activity on a small but vigorous scale.

The Communist...../3

Declassified E.O. 12356 Section 3.3/NND No. 789530

The Communist party is reported to be studying the strength and deployment of allied troops in Emilia. An anti-communist student demonstration in Bologna with Trieste as its motif was broken up by workmen, who, it is reported, were moved to the scene by transport supplied from sources controlled by the Sindaco. Two active little groups indulging in hearty propaganda are the Squadra D'Azione Mussolini, and the Fronte dell'Uomo Qualunque. The first is openly neo-fascist - the second denies that it is so. The efforts of both are opposed to the communists. Finally there is a monarchist organisation rapidly spreading over Emilia. Details of the strength of these organisations and the percentage of the population they include are not available. However it seems we have our flames to fan in Emilia should the occasion arise.

(d) Reports on public law and order will be sketchy in that the detailed examination of it, with the assistance of the CC RR Liaison Office has not been possible this month. The major fact is the raid carried out on Savigno (I6839) during the night of the 11th December by a band of about 60 bandits. This raid was a repetition of the Gaggio Montano incident - CC RR post was immobilised and the village systematically looted. It seems probable that in some parts of Emilia (particularly in the Appenines) public security is non-existant, and banditry is limited only by the whims of the persons concerned and the difficulties their encounter in transporting and disposing of their loot.

5. LIAISON

A Liaison visit was made to Ancona during the period covered by this report. Contacts were made with H.Q. 61 Area, and with Italian military establishments in the town.

61 Area have few Br-Iti troops under Command and relations between them presented no problem. Consequently the fact that 712 Adm. Regt. had not moved up from Bari at that time was not given much prominence.

6. MOVES & LOCATIONS

(a) One Bn., III/87 Regt. Friuli Inf. Div. has moved into the Reggio Emilia area. The remaining two Bns. of 87 Inf. Regt. are expected to follow in due course.

(d) Reports on public law and order will be sketchy in that the detailed examination of it, with the assistance of the CC RR Liaison Office has not been possible this month. The major fact is the raid carried out on Savigno (I5838) during the night of the 11th December by a band of about 80 bandits. This raid was a repetition of the Caggio Montano incident - CC RR post was immobilised and the village systematically looted. It seems probable that in some parts of Emilia (particularly in the A Appenines) public security is non-existant, and banditry is limited only by the whims of the persons concerned and the difficulties their encounter in transporting and disposing of their loot.

7. DOMESTIC

This BLU has at present no deficiencies in military personnel WE. The full position is shown in my letter A/7/I dated 3 Jan 46. One clerk is on LIAP (reported in my A/2/I dated 29 Dec 45); he should return mid-February.

8. DISBANDMENTS

Disbandment of various units is continuing, and personnel are disposed of under orders of 6 Territorial Command without undue delay. Men are absorbed into local admin units as much as possible but in cases where a large number of specialists become available (eg. a CT Coy), the Infantry Divs take the majority. The only difficulties have been presented by 1 and 2 CT Coys which are still partially in exsistence. This is through no fault of any Italian HQ. HQ 2I7 Area have now assumed a certain responsibility and it is hoped that there will be little further delay.

Q

9. DOMESTIC

For the tpt situation of this BLU, which is satisfactory, see attached Appendix 'D'.

Spacious and well-heated office accommodation has been provided by Territorial Command adjoing their own offices and preliminary work such as painting, white-washing, installation of bells andtelephones etc. has at last been satisfactorily completed.

IO. ACCOMMODATION

The main obstacle to the occupation of the more serviceable barracks in the Region is still DP & RSO. The view of 6 Territorial Command, felt somewhat strongly, is that the refugee problem has died down sufficiently to allow a partial release of the accn still controlled by this body.

At present we are dealing with the local AC team over the D'Azeglio Barracks Bologna, and you will be informed if developments are unsatisfactory.

II. RATIONS

19

In recent days all the Food Distribaition Depots in the Territorial Command have been visited with the exception of that at Piacenza. Certain quantities of supplies in Ancona and Forli originally drawn from I3 CRASC Depots have been examined by Analysis Commision and condemned.

11. RATIONS

19

In recent days all the Food Distribution Depots in the Territorial Command have been visited with the exception of that at Piacenza. Certain quantities of supplies in Ancona and Forli originally drawn from I3 CMASC Depots have been examined by Analysis Commision and condemned.

Some difficulties are arising over the fresh vegetable and fruit issues to Br-Iti units. In some cases certain quantities are being left undrawn on the hands of the Distribution Depots owing to reduction in Br-Iti strength. It is evident that units would prefer to be able to purchase their fruit and vegetables on the market rather than have these issued after handling at two depots.

12. TRANSPORT CC RR

Distribution of the 63 M/Cs released by 2 District to EVP Bologna for CC RR has been held up owing to conflicting instructions. The original orders on the subject from SMRE, which have not yet been amended, allotted all 63 to Mobile Bn Bologna. Subsequently Mobile Bns Padua, Bologna and Milan, having received allocations from the Comando Generale similar to those contained in your signal ST/I306, laid claim to their shares. Territorial Command are now releasing on the basis of your above-quoted signal.

13. CLOTHING & EQUIPMENT

The clothing repair workshop in Bologna, now in the process of expansion, has insufficient machinery for its boot-repair department to meet present and future needs.

Territorial Command are giving this matter close attention especially as the boots of the bn of Friuli Div, which has lately arrived in Reggio Emilia, are reported to be in a poor state.

6 B.L.U. Fortnightly Report No1.

1. GENERAL REMARKS.

The past ten days, which have seen the formation of 6 B.L.U. have been a period of planning rather than fruition.

The conversion from the office of M.M.I.A. L.O., c/o 217 Area has been one of the chief preoccupations. Very shortly we shall move into our new quarters alongside No.6 Territorial Command.

2. RELATIONS.

Our relations with both British and Italians have been good. On the face of it, since there have been but few days in which to judge, British H.Qs. seem to help, and Italian H.Qs ready to co-operate.

3. INTERNAL SECURITY.

Two District have agreed to the move of one regiment of FRIULI Division south of the PO. This was desired by General Cerica commanding 6 Terr Cmd. & supported by Cmd. 217 Area. The reason is that EMILIA is considered one of the three most troublesome areas of Italy. The regiment (which one is not yet firm, though it will not be the Arty) will be located between REGGIO EMILIA & MODENA.

4. ACCOMODATION & U.N.R.R.A.

Most of the best Italian Military barracks in Emilia are in the hands of the D.P. & R.S.C.,A.C. for refugee evacuation. It is the intention that these should be handed over to U.N.R.R.A. in the very near future in from two to three weeks. It remains to be seen whether U.N.R.R.A., a civilian organisation, will submit to the pressure of G.H.Q. - C/M.F. & release accomodation held by them to the Iti Ministry of War. So that, if it is not already not too late, anything the M.O.W? want must be got now direct from D.P. & R.S.C.. A case in point is the Regie Accademia di Fanteria e Cavalleria at Modena U.N.R.R.A. plan to hold this for a further year as a camp for static refugees.

5. LIAISON VISITS.

H.Q. 61 Area, Ancona, have requested a liaison visit from an officer of this H.Q. In the absence of a second string (the D.A.A. & Q.M.G., Capt.Thrupp is still on L.I.A.P) it is not easy to break

5. LIAISON VISITS.

- 1

H.Q. 61 Area, Ancona, have requested a liaison visit from an officer of this H.Q. In the absence of a second string (the D.A.A. & Q.M.G., Capt.Thrupp is still on L.I.A.P) it is not easy to break away from Bologna. However the visit must be made for there is also 712 Iti Admin Regt. to be looked for no word has been heardfrom it ofits intended location in Ancona, nor of whether it has planned or commenced its move from Bari.

6. TERRITORIAL TRAINING CENTRE.

The Duca D'Aosta Barracks of Modena, in which it is planned to have No.6 T.T.C. require a great deal of work if they are to be ready for the first batch of recruits in March 1946. At present there is accomodation ready for from 1,000 - 1,500 men only.
