(d) ROME Mobile Bn remains on detachment in BOLOGNA Legion area.

(e) On 17 December a motorized Coy of FLORENCE Mobile Bn and an Armoured Car Section were sent to REGGIO EMILIA.

3. INTELLIGENCE

(a) Public Opinion Situation

No material change on last report.
The resentment against the Powers which imposed on Italy a peace treaty considered unjust is growing worse, time of signature being imminent.
People are openly blaming the egoism of the Powers which, for their own interests, did not hesitate to violate the most elementary rights of Justice.
However the population is hoping that the situation will improve after the visit of the President of the Council, Mr. De Gasperi, to the United States of America.

(b) Public Opinion towards the Carabinieri

No change on previous reports.

(c) Press

The press is mainly concerned this month with the international political situation and with the Italian internal conditions.
Arguments between the various parties are frequent and often lively.
Criticism against the victor nations for the unjust treaty imposed on Italy are many.

6091

(d) Forecast.

It is feared that the peace treaty imposed on Italy may seriously compromise the national reconstruction.

(f) Influence of the past events on the future

No change on last report.

4. TRAINING

(a) Training of the Carabinieri

No change on last report.
Training courses of Mobile Bns are being carried out satisfactorily in spite of the many exigencies of service.

Declassified E.O. 12065 Section 3-402/NNDC NO. 765020

5. ADMINISTRATION

(a) General Discipline of the Carabinieri
Normal.

(b) During the past month FLORENCE Legion denounced a Carabiniere for manslaughter.
LEGHORN Legion denounced two Carabinieri alleged to have helped an escape. Four Carabinieri have been denounced for desertion, having reported to their HQ.s with great delay after the liberation.

.../b...

Declassified E.O. 12065 Section 3-402/NNDC No. 165020

(c) Pay
The wages increase decided by the Government for the Army brought a certain relief which has been neutralized by the enormous increase of prices of first necessity goods. It is hoped that the cost of living may become normal in a short time.

(d) During past month Major ANTICO Angelo commanding UDINE Group has reported from UDINE to LEGHORN. No breach of discipline amongst senior officers. No promotions amongst the same officers during the past month.

3. INTELLIGENCE

(a) Public Opinion Situation

No change on last report.
Peace treaty terms still provoke some resentment against the powers concerned.

(b) Public Opinion towards the Carabinieri

No change on last report.

(c) Press

The press is mainly concerned this month with the international situation and the internal economical problems of Italy.
Arguments between the various parties are growing harder.
Every unfavourable news on the discussed peace treaty reported from New York increases the resentment toward the powers.
Harsh criticism is being made by the press of the adverse parties on the conference between On. Togliatti and Marshal Tito.

(d) Forecast

The above quoted situation keeps the parties on the alert and it is not impossible that it may be the source of some trouble$, particularly, if the peace treaty which is going to be imposed on Italy will compromise its political and economical future.

(e) Influence of the past events on the future

No change on last report.

4. TRAINING

(a) Training of the Carabinieri

No important change on last report.
Training courses at Mobile Bns continue with good results in spite of the several exigencies of service.

6086

(b) Political education of the population

Unchanged situation.
After the recent defeats experienced by the Christian Democratic Party during the last administrative elections it is to be remarked that there is a decrease in membership of this party with a noticeable increase of Communist and "Uomo qualunque" parties membership. This demonstrates that the political tendencies of the population lie in two opposite directions and, even if this clarifies the present situation, it could bring, on the other hand, a violent clash between the two adverse parties.

7. MORALE

No change on last report.

8. ORDER AND PUBLIC SECURITY SITUATION

During the past month one murder has been committed in 3rd Bde area.

9. GENERAL

The departure of Polish troops from the MARCHE district caused the civil population to hope that this would improve the local housing problem which is particularly severe in the ANCONA province. It is reported however that the families of Polish troops are to be moved to ANCONA, by order of the Allies, this has given rise to resentment amongst the local population. The Mayor of ANCONA has asked both the President of the Council of Ministers and the Minister of Internal Affairs for their assistance in having these Polish personnel moved from the district.

No important moves of personnel have taken place during the month. GENOA and ROME Mobile Bns remain on detachment in the BOLOGNA Legion area.

3. INTELLIGENCE

(a) Public Opinion Situation

The news of the peace treaty terms for Italy has provoked a further wave of resentment against the Allies who are accused of breaking their promises in the terms of the Atlantic Charter, which, it is said they used as a lyre to induce the nation to fight for what was supposed to be Italy's interests but was, in fact, only in the Allied interest.

(b) Public opinion towards the Carabinieri

Prestige and esteem for the Carabinieri is continually increasing among the population.

(c) Press

The press is mainly concerned this month with the peace treaty terms and the economical situation in Italy.

...2/...

Declassified E.O. 12065 Section 3-402/NNDC NO. 765020

The political differences between the various parties of the Government grow stronger daily, this is particularly noticeable in the opposing policies of the Christian Democrats and the Communists. The renewal of the united action pact between Socialists and Communists has come as a great blow to those who hoped that the Socialists would adopt a strong anti-Communists attidude. However this pact is not considered to be very strong owing to the widely differing opinions and policies of the two parties.

The inevitable policy of compromise which the Government has had to adopt has had a bad influence on the new democracy.

(d) Forecast

The above mentioned situation causes the parties, who fear to be overwhelmed, to be constantly on the alert in order to retain their political independence. It is difficult to foresee how this delicate situation will develop.

4. TRAINING

Training continues within the Mobile Bns with satisfactory results in spite of the many duty commitments. A drive is being made throughout the bns to improve the condition of the existing transport.

5. ADMINISTRATION

(a) General Discipline of the "Arma"

Normal, no change on last report.

(b) During the past month the following breaches of discipline were dealt with:-

A Carabiniere of the BOLOGNA Legion for desertion;
A Carabiniere of the BOLOGNA Legion for disobedience with violence to an officer.
Six Carabinieri for desertion - these men should have reported for duty immediately after the liberation, five of them were dismissed and one is still serving.

6081

(c) Pay

Difficulties reported in previous reports are increasing due to the constantly rising cost of living.

(d) Personnel

During the month Major SCHIOPPA Mario reported from the LAZIO Legion to take command of the LEGHORN Group.

No breaches of discipline amongst senior officers.

2. ORGANIZATION

No change on last report. Genoa and Rome Mobile Battalions remain on detachment in Bologna area.

3. INTELLIGENCE

(a) Public Opinion Situation

News of the Paris peace conference provokes bitter criticism of the Allies who are accused of breaking up their promises.

(b) Public Opinion towards the Carabinieri

No change on last report.

(c) Press

The press is mostly interested in the Peace Treaty and economical internal situation in Italy. Many articles have appeared showing resentment to the Allies for the terms of the treaty which are considered unjust. In addition, the numerous delays to find a solution to the treaty increase the disrespect towards the powers in charge of world reorganisation.

One of the more bitter comments is that, without regard to the Atlantic Charter or for the injustice to Italy, the Allies are bartering Italian territory in order to satisfy other countries whose support is considered necessary to achieve their purposes.

It is reported that, at the cost of Italy, the French boundary has been extended in order to ensure French support to England and America against Russia.

.. 2/...

Declassified E.O. 12065 Section 3-402/NNDC No. 77502

All these factors affecting the internal situation are said to have provoked an enormous rise in prices, which in turn has caused delay in rebuilding and general reconstruction resulting in an increased number of unemployed.

(d) Forecast

It is reported that the a/m internal situation may create serious disorders and it is feared that the extremists may try, by violence, to overthrow the present government.

4. TRAINING

Training of Mobile Bns is being carried out normally and results are satisfactory. The political education of the people is improving in spite of the serious difficulties of the times.

5. ADMINISTRATION

General Discipline of the "Arma"

(a) Normal, no change on last report.

(b) During the past month the Ancona Legion tried a NCO and a Carabiniere for selling rationed food. A NCO was brought to trial for not reporting a crime. A NCO and a Carabiniere were tried for attempted corruption.

Two Carabinieri of the Bologna Legion were brought to trial on charge of theft.

Leghorn Legion have remanded a Carabiniere for desertion.

(c) The difficulty of insufficient pay is increasing owing to the constantly rising cost of living. This hits married Carabinieri very hard.

(d) Personnel

No breach of discipline amongst senior officers.

6077

6. GENERAL DEFICIENCIES

(a) M.T. situation is growing steadily worse owing to lack of tyres and difficulty of obtaining spare parts.

By order of M. of W. the Ancona Legion have handed back two requisitioned cars to their owners. Leghorn Legion have delivered one Fiat car to 7 Repair Unit as being beyond local repair.

(b) Clothing & Equipment

The situation is slightly improved but is still unsatisfactory. Indents have been forwarded for

Subject: Report on visits to CC.RR. in Florence

19 September 1946 - GSO II and DAA & QMG 7 B.L.U. visited CC.RR. Central School and CC.RR. Mobile Bn at Florence.

(a) A conference was held with col. FABBO O.C. Central School who explained his duties and the functions of the school. The next course for N.C.Os will start on 15 November '46 when approx 750 students are expected. The students will be split into three coys of foot Carabinieri and one squadron of mounted Carabinieri. The later will carry out their specialist training at "Baldissera" Barracks.
The question of pay was discussed at length and it was learned that for a single man the pay was satisfactory but was not adeguate for a married man.
No arrangement had been made for accomodation of students families during their nine months course.

(b) Major PALANDRI conducted the party on a visit to the Mobile Bn at "Baldissera" Barroks. An impressing display was seen in the training of Armoured Cars crews and M/Cyclists. A high standard of maintenance was noted in all vehicles.
Major PALANDRI stated that his main deficiencies were sixty crash helmets fitted for wireless, twelve Browning Med. M.Gs for armoured cars and spare parts for Ford G.M.C. armoured cars. A further conference on this subject will be held in this HQ. in the next few days and a full report will be submitted.

3. INTELLIGENCE

(a) Public Opinion Situation
Public opinion criticized the attitude of the Communists towards the action of the Italian representative at the Peace Conference. Harsh criticism has been also provoked by the sedition of the Auxiliary Agents of the Asti Police. This fact is said to have compromised the prestige and the authority of the Government.

(b) Public Opinion toward the Carabinieri
Prestige and esteem for the Carabinieri is continually increasing among the population.

(c) Press
The press is mostly interested in the Peace-Treaty and in the serious economical situation of Italy.
Resentment towards England and U.S.A., who are accused of having broken their promises made during the war, is increasing.

...2/...

Declassified E.O. 12065 Section 3-402/NNRG NO. 785020

The people clearly show their aversion to France for its rapacity and excessive demands. Many think that, indirectly France is supporting Yugoslavia.
Hints are being made by the press about the serious possible consequences that may be derived from such unjust treatment of Italy, in view of the instability of the international politics.

(d) Forecast
In spite of talks and promises it is feared that the Peace Treaty which is going to be imposed to Italy will be too hard and this will weaken the new Italian Republic.

(e) Influence of past events on the future situation
It is reported that the behaviour of the co-belligerants toward Italy may entail bitter surprises for the Anglo--Americans and especially for France in the eventuality of a new war, as it would be very difficult to change the public opinion after such hard delusions.
Neither is it possible, the Italians think, to neglect the strength of 47 million inhabitants. The opinion that Italy should be neutral in the eventuality of a new war is spreading more and more.

4. TRAINING

Courses have re-commenced at Mobile Bns but are not running smoothly at present owing to constant demands made for service of personnel in connection with preservation of law and order.
Training for the average Carabiniere, outside the Bns, is non-existant and the situation is the same as reported several months ago.

5. ADMINISTRATION

(a) General Discipline of the "Arma"
Normal

(b) During past August Ancona Legion courtmartialled a Carabiniere alleged to be responsible for theft and embezzlement. Another Carabiniere has been denounced for desertion and illegal wearing of badges of rank.

(c) Pay
No change on last report.

(d) Personnel
Major MANNUCCI BENINCASA, previously Liaison Officer to P/S S/Com. A.C. at Bologna, has temporarily taken command of the Modena Group.

(a) M.T. situation of passenger vehicles is bad owing to lack of spares and tyres.
During the past month a motor cycle with side-car "Guzzi" 500 No RE 6046, being beyond repair, has been delivered to 6 Repair Unit Bologna; a FIAT 508 car No C.C. 6535 has been derequisitioned and handed back to the owner.
Bologna Mobile Bn has delivered to 6 Repair Unit the 12 tanks M.15/42 that have been substituted with Armoured cars.

(b) Clothing & Equipment
Clothing and Equipment situation is generally improving.

3. INTELLIGENCE

(a) Public Opinion Situation
Public opinion criticized the attitude of the Communists towards the action of the Italian representative at the Peace Conference. Harsh criticism has been also provoked by the sedition of the Auxiliary Agents of the Asti Police. This fact is said to have compromised the prestige and the authority of the Government.

(b) Public Opinion toward the Carabinieri
Prestige and esteem for the Carabinieri is continually increasing among the population.

(c) Press
The press is mostly interested in the Peace-Treaty and in the serious economical situation of Italy.
Resentment towards England and U.S.A., who are accused of having broken their promises made during the war, is increasing.

...2/...

Declassified E.O. 12065 Section 3-402/NND NO. 785020

The people clearly show their aversion to France for its rapacity and excessive demands. Many think that, indirectly France is supporting Yugoslavia.
Hints are being made by the press about the serious possible consequences that may be derived from such unjust treatment of Italy, in view of the instability of the international politics.

(d) Forecast
In spite of talks and promises it is feared that the Peace Treaty which is going to be imposed to Italy will be too hard and this will weaken the new Italian Republic.

(e) Influence of past events on the future situation
It is reported that the behaviour of the co-belligerants toward Italy may entail bitter surprises for the Anglo--Americans and especially for France in the eventuality of a new war, as it would be very difficult to change the public opinion after such hard delusions.
Neither is it possible, the Italians think, to neglect the strength of 47 million inhabitants. The opinion that Italy should be neutral in the eventuality of a new war is spreading more and more.

4. TRAINING

Courses have re-commenced at Mobile Bns but are not running smoothly at present owing to constant demands made for service of personnel in connection with preservation of law and order.
Training for the average Carabiniere, outside the Bns, is non-existant and the situation is the same as reported several months ago.

5. ADMINISTRATION

(a) General Discipline of the "Arma"
Normal

(b) During past August Ancona Legion courtmartialled a Carabiniere alleged to be responsible for theft and embezzlement. Another Carabiniere has been denounced for desertion and illegal wearing of badges of rank.
Florence Legion denounced a Carabiniere for desertion..

(c) Pay
No change on last report.

(d) Personnel
Major MARNUCCI BENINCASA, previously Liaison Officer to P/S S/Com. A.C. at Bologna, has temporarily taken command of the Modena Group.

(c) Personnel

Lt. Col. GIUDI discharged
Lt. Col. PUCCI, formerly discharged, now re-enlisted and at disposal of 7 Terr. Command.
Major STARA discharged (own request).

7. MORALE

Alleged to be deteriorating. Apart from the many difficulties confronting members of the CC.RR., i.e., low pay in comparison to increasing cost of living, poor conditions of many barracks, etc, practically 50 % of the 3rd Bgde are still awaiting results of epuration and discrimination. It is strange to think that officers and men of an organization responsible for maintaining law and order, should themselves, after more than a year since cessation of hostilities, still be faced with the uncertainty of their own future. In the interests of the CC.RR. Service as a whole these proceedings should be expedited. List of percentages of such personnel in 3rd Bgde at Appx "C"

8. PUBLIC SAFETY SITUATION

No change in general situation. The month has been noteable for the numerous strikes and demonstrations which have taken place in this area, and the CC.RR. have been fully occupied in attending to these matters. No subsequent disorders have been reported. It is understood that experience here has shown that Questura personnel are not competent in dealing with such situations and as usual the responsibility is left to the Carabinieri.

9. GENERAL

During the past two or three months there has been a noticeable improvement regarding transport, uniform, arms, and ammunition, and distribution is better. However the problem of pay, communications, barracks, barrack equipment and training remain practically the same as when first reported on in February last, and until such time as these questions are firmly tackled there is not likely to be any further great improvement in the efficiency of the CC.RR.
It is understood that officers and men of CC.RR. Legion at Rome each received 1800 lire for their services during the election, but this has not been extended to any other Legion. If this is so, it is a pity this excellent idea was not made general throughout the CC.RR. and so avoid the irritation caused by such discrimination.
A copy translation of CC.RR. monthly report for July is attached herewith - Appx "D".

HQ. 3rd BDE CARABINIERI FLORENCE

Florence, 3rd August 1946

No 46/59 di prot. Ris. Pers.

SUBJECT: Carabinieri Monthly Report.

TO : Major Walter Greenhough - 7 B.L.U. Florence

1. STRENGTH OF TERRITORIAL COMMANDS
Total strength of the depending Legions, as at 15 July 1946, is shown in Appx No 1.

2. STRENGTH OF MOBILE BNS
Total strength of Florence and Bologna Mobile Bns, as at 31st July 1946, is shown in Appx No 2.

3. ORGANIZATION
See what former report refers.
During past July no important movement of personnel has been performed among the various groups.
All military that were sent to Sienna at the month end of June during the "Palio" have come back to the respective residences.
Genoa Mobile Bn is still at Modena exception made for a Company transferred at Piacenza and an Armoured Cars Section transferred at Parma.
On 24 July 100 military of Florence Internal Group and 100 of Bologna Internal Group left toward Palermo on reinforcing duty.

4. INTELLIGENCE
Public Opinion Situation
a) Nearly unanimous approval for the election of On. DE NICOLA as President of the Republic.

b) See what previous reports refer.

c) Public opinion toward the Carabinieri
Prestige and esteem of the population toward the Carabinieri is more and more increasing, and everybody, without any consideration of political tendency, looks at them with sympathy and trust.

6065

d) Press
Press topics are in this moment the serious economical and financial problems and Parties arguments.
News of the peace treaty, generally considered unjust, have had a great resounding. Resentment is particularly hard toward England and U.S.A. that made nothing or nearly so to substain the Italian rights against the excessive pretences of Jugoslavy, helped by Russia, and against France that, although has a rich national territory and large colonial possessions that cannot be entirely exploited owing to the scarce population, pretended also a rectification of the line of demarcation

Declassified E.O. 12065 Section 3-402/NNDG NO. 785020

which is going to deprive Italy of some Power Stations. The latter were built with great sacrifices by the Italian work and while they are not of a great value for France they are essential for the industries of the northern Italy.
It is pointed out that the Anglo-American people should have opposed the French and Jugoslave rapacity keeping their words about the promised integrity of the national territory.
Also the colonial problem is of a great interest for everybody and they hope in an act of due comprehension toward the Italian people closed in a very small space and deprived of any resource.

e) Foresights
If the peace imposed to Italy will not be right a weakening of the new Republic with all the possible consequences also in the international field is to be foreseen.

f) Influence of the past events over the future situations
The way the Allies behaved toward Italy and the promises so often made and never kept may induce the Italian people, in case of a new European crisis, to tendencies that may be different from what is wished by Anglo-American and French nations.

5. TRAINING
See what former report refers.
a) After Bologna and Florence Mobile Bns came back from Naples, all training courses for the personnel have been resumed although with a great difficulty due to the frequent movements for public order services in this very delicate moment of the country.

b) Political education of the population keep on improving in spite of the serious difficulties of this period.
The people shows political education as well as good sense and temperance. They are enduring the serious uncomforts and the hard privations due to the disproportion between wages and cost of living with admirable and praiseworthy firmness.

6. ADMINISTRATION
a) General Discipline of the "Arma"
Good.

b) During the past month Florence Legion denounced a military responsible for desertion and another for deceit.

6064

c) Pay
The hard financiary situation the personnel is confronted with owing to the low wages they are drawing and the high cost of living has become worse in the last times, food-stuff prices having increased.

d) Changes in Appointment of Senior Officers
Florence Legion
Lt. Col. (Reserve) GNUDI Giuseppe - discharged.
Lt. Col. (reserve) FUCCI DA FILICAIA Ugo, previously discharged has been reenlisted and he is now at disposal of 7 Terr. Comd for the organisation

of Guard Services to depots of Allied materials handed over to Italy.

Bologna Legion
Major (Reserve) STARA Michele - discharged (at his own request)

o o o

No breack of discipline among senior officers has happened.

o o o

See what former report refers about the promotions.

7. DEFICIENCIES OF VARIOUS MATERIALS CONFRONTED WITH THE MINIMUM NEED AND THEIR REASONS

a) Motor vehicles and bicycles

See what was formerly stated.

Situation of the other legions is improved after collection of the items stated at para 10.

c) Arms and Ammunition
Unchanged situation exception made for what is stated at para 10.

8. MORALE OF THE "ARMA"

Morale of the "Arma " personnel is getting worse owing to the pecuniary difficulties many of them are confronted with since so long a time, the lack of clothing and shoes and the bad barracks situation: these problems have not yet been solved the way the personnel wished or they have been solved only in part so that the military are obliged to suffer uncomforts and privations.
Officers and ranks are doing their best with their petty means in order to put a stop to such situation.

9. ORDER AND PUBLIC SAFETY SITUATION

Public order is generally normal.
Here following facts and events of note connected with order and public safety happened during the month are stated.

1st July, at Sienna, VENERDI' Armando, aged 37, a fight having arosen for futile reasons, was killed with a knife by CONFETTORE Sebastiano. The killer gave himself up to the P.S.

(c) Personnel

Following changes in appointments of Senior officers occurred during the past month.

Lt. Col. BERSANETTI to BOLOGNA External Group in place of Major GIULIANI (discharged).

Col. PORCIANI to Mobile Bns Group FLORENCE in place of Lt. Col. BONI (at disposition of FLORENCE Legion Command).

6. GENERAL DEFICIENCIES

Distribution of Khaki uniform should be expedited if it is to be of any service this summer.

7. MORALE

Satisfactory.

8. PUBLIC SAFETY SITUATION

No improvement in general situation. Several unemployed demonstrations and one or two strikes of short duration occurred at various towns without causing any subsequent disorder. Seven murders were committed in the 3rd Bgde area. In three of these cases the persons responsible have been arrested. There is no decrease in the number of armed robberies in spite of the increasing arrests made by the Carabinieri.

9. GENERAL

Genoa Mobile Bn is still in MODENA.
The General Election, and aftermath, has occupied practically all the resources of the CC.RR. during the month. Generally speaking there is little change in the situation as reported in previous monthly report.

Intelligence

Relations between the public and CC.RR. continue to be satisfactory.

The General Election has been the main topic of interest, but no untoward incidents have been reported and at present there are no indications of any threatened disorder on a large scale.

CC.RR. report a noticeable trend in support of the Monarchy, but add that opinion is divided as to whether or not disturbances will result in the event of a victory for the Monarchy.

On 16 May at Arezzo a meeting held by the Monarchist Party was repeatedly interrupted in spite of appeals from leaders of local Communist and Republican parties. A member of the Communist Party removed the Italian flag from the balcony used by the speakers. The flag was recovered by a soldier of the [illegible] Regiment and replaced on the balcony.

On 22 May at Agliana (Pistoia) unknown persons fired several shots against the Communist Paty office. No persons injured.

On 27 May at Galluzzo (Florence) a hand grenade was thrown against the Communist Party office. Some shots were also fired. No persons injured.

4. Training

No change in general situation. It is recommended that steps be taken towards reviving the monthly refresher courses formerly held at Legion HQ's.

A training course for heavy motor car drivers, and another for "Staghound" armoured car drivers, has been completed by Bologna Mobile Sn. Results satisfactory.

A training course for wireless operators for "Staghound" is being held by same Sn.

of these where the motive arose from family disputes the persons responsible were traced. In the third case the motive was robbery and investigations are proceeding. The main problem is the prevalence of armed robberies, but the CC.RR. are having better results with detections and this should ultimately have the desired effect. The following are some of the more serious crimes which have been committed and in which the authors have been traced by CC.RR.

1 May Porto S. Giorgio. Several thefts amounting to 600.000 lire. 9 persons arrested and 150.000 lire recovered.

1. May S. Elpidio a Mare (Ascoli Piceno). Nine thefts amounting to 800.000 lire. 4 persons arrested and 400.000 lire recovered.

1 May. Calciana di Prato (Florence). Armed robbery. Money and valuables, total 500.000 lire. 3 persons arrested and a third identified.

4 May. Grosseto. Two persons arrested alleged to have been involved in plot to assault local prison and assist escape of some political prisoners. Proceedings are also being instituted against seven prisoners alleged to be involved in the conspiracy.

4 May. Ponte Elvella. Armed robbery. Motor car and valuable stolen. Three persons arrested and car recovered.

5 May. Treja. Three members of an armed gang suspected of committing many crimes, arrested after gun fight with CC.RR. One of the criminals was wounded. Resulting from this action arms and stolen property were recovered.

8 May. Falconara Marittima (Ancona). CC.RR. arrested 6 members of a gang responsible for numerous thefts of tyres, petrol, clothing etc, mainly allied property. Proceeding are also being taken against several receivers.

9 May. S. Giovanni d'Asso (Siena). Two armed individuals raided bank and forced the cashier to give them 45.000 lire. Thieves arrested and stolen property recovered.

6050

17 May. Terracosa. Three members of gang of criminals arrested after gun fight with CC.RR. One prisoner wounded.

6049

17 May. "Piume Cesano" Senigallia (Ancona) CC.RR. detected a gang of about 20 individuals awaiting opportunity to raid a train loaded with Allied goods, approaching Moretta Railway Station. After a gun fight, during which one of the criminals was wounded, the Carabinieri arrested 11 persons, and later recovered a large amount of stolen property, the result of previous crimes committed by the gang, also numerous special tools used for opening railway wagons

HQ. 3rd BRIGADE CC.RR. FLORENCE

Florence, 1st April 1946

No 255/1 di protocollo

Subject: Public safety condition within the territory of 3rd Brigade.

I have noticed, much to my satisfaction, after inspections, and examination of reports issued by the depending commands, the strong impulse wherever given to the preventive and repressive services relating to the judiciary police.

I consider advisable, then, to draw a picture of the public safety situation within the Brigade Jurisdiction, for information, and in order to give prominence to the merits acquired by Officers, N.C.O's and soldiers in performing brilliant service operations which delivered up to the Justice numerous and harmful delinquents.

From comparative examination of the figures relating to the most important crimes reported to the Arma in the various provinces, public safety situation appears to be improved in the last times.

In fact, offences against individuals and, particularly, fraudolent homicides have decreased everywhere. Person sequestrations, that peculiarly within Emilia county, during the first months after the liberation, had taken an impressing crescendo, are today become sporadic cases.

Also percentage of political murders are noticeably decreased.

For what is relating to the offences against the property, the examination of the statistical data is consolable. In fact robberies are decreasing since past February and, however represent a character of minor gravity as, generally, they are not followed by any wounding or murder committed aither for brutal savageness or in order to eliminate whoever could enable the CC.RR. to identify and arrest the delinquents.

Therefore it is hoped that the most harmful delinquents of that county have been delivered up to the Justice.

Moreover it is to be noticed the end of the activity of the armed and motorised gangs that, in the last times, raided villages, assaulted cheese-dairies, banks, etc, terrifying whole regions and stopping every activity. It is also to be considerdd the liberation of the roads crossing the Tosco-Emiliano Appennine, from the ambushes of some small armed gangs, and very harmful ones because very mobile and helped by the nature of the ground.

Attention is also to be called on the percentage of the discovered crimes, and particularly of the most serious ones, which is noticeably increased. As, for instance, in some place where the percentage of the discovered robberies was only 3%, and now reaches 25%: moreover, total percentage of discovered crimes is more than 35%.

Established what above, I call your attention on the most important operations executed since April 1945, by the military of this Brigade. Please make all the personnel acquainted of that as incitement for the restless struggle against the delinquency. I think it unnecessary to say that I will keep watching the future activity of every group, concerning with the judiciary police and that, in due time I will take the results into consideration.

6047

BOLOGNA LEGION

FERRARA GROUP Ferrara Group must be mentioned firts as it is one of the most distinguished in repressing delinquency that, since April 1945, was become particularly serious for the activity in that zone of the harmful gang RIZZATI - DE FEO, disposing of automatic weapons, hand grenades, motorcars, and motor-cycles. It is enough to remember that, in the past spring-time, only in a month of activity, that gang

...2/...

Declassified E.O. 12065 Section 3-402/NNDC NO. 725020

perpetrated extortions and robberies of more than 25 millions and that, after the attempted murder of the Questore CIANCI and his son Flaminio, after having committed hundreds of homicides and numerous robberies, projected, on last October, many offences, among which the murder of the Prefetto and some magistrates. After accurate inquiry, made under the direction and with serious personal risk of the Group Commander, Major GRILLANDINI, the components of that gang were identifyed and the more responsible of them arrested.

These operations arosen a great recounding into all the province and procured tranquillity for the population of Ferrara and Ferrara outskirts. Since that time serious offences against persons and property have noticeably decreased.

Other important service operations have been performed by the military of the Portomaggiore Company under the direction of Capt. MORRONE, who arrested many harmful delinquents responsible with robberies and murders. Two armed gangs working into Argentano and Portonense zone were captured.

CC.RR. of Portomaggiore, on 8 February 1946 arrested 5 criminals, author of robberies, extortions and attempted extortions.

BOLOGNA INTERNAL GROUP Services of repressing delinquency took a noticeable development at Bologna and Bologna outskirts. As r sult of that, delinquency has been restrained and prestige of the Arma increased.

Admirable, over all, is the promptitude of the Bologna Internal Company in stopping disturbances into the town, raiding arms, and preventing mutinies and escapes from the prisons. At this regard, Col. BORLA is to be praised very much for his activity of direction and organisation he showed since when he took the Legion Command. Also Major BARILE, Internal Group Commander, and Capt. BIANCO, Internal Company Commander, are to be mentioned. The latter, distinguished himself in many circumstances for profeasional capacity and courage, serving as an example and incitement for his dependent military.

Particular attention must be called on the services executed under the personal direction of Capt. VESCE, Bologna Internal Company Commander, after the raidings happened on 15 November at Gaggio Montano and on 11 December at Savigno. Such services ended with the identification of the gangsters and with the arrest of many of them. In these occasions, Lt BERNABEI Gustavo, Vergato Tenenza Commander, and 2nd Lt. TINTO Luigi, distinguished themselves for cleverness and courage.

RAVENNA GROUP Very important is the repressive activeness of the Arma, over all within the Faenza zone where, after difficult inquires, a big portion of the authors of robberies happened in that place, have been arrested. In those services the members of Faenza and Casola Valsenio stations, distinguished themselves particularly.

Attention must be payd on the operations made to find and sequester arms, over all at Alfonsine, Cervia, Castiglione di Cervia, Granarolo, and Marina di Ravenna. The Group Commander, Major Argentiano, is to be particularly praised for such services, as he, not only directed them, but also took a personal interest on the investigations connected with the discover of arms and ammunition depots. The said investigations are not yet finished and without any doubt will give more and more satisfactory results.

6046

REGGIO EMILIA GROUP The situation has noticeably improved and, since some times, no cheese-dairy has been assaulted by any armed gang. Attention is to be called on the arrest, made by Reggio Emilia CC.RR., of 7 Allied military, author of many robberies perpetrated into the province, who were wanted by the Allied Police as responsible of evasion.

MODENA GROUP discharged good operations of judiciary police. Of particular note is

...3/...

1023

Declassified E.O. 12065 Section 3-402/NNDC NO. 725020

that executed on November 1945 by the Arma of Medolla (Modena) that brought to the arrest of five harmful delinquents responsible with numerous robberies and extortions.

FORLI' GROUP This Group reached the highest percentages of the discovered crimes, between May 1945 and March 1946, among the Groups of the Legion. On August 1945, CC.RR. of Cesena (Forli'), helped by members of the A.N.P.I. (National Association Partisans of Italy) were able, after long and clever inquires, to arrest a harmful criminal gang composed by 17 armed outlaws who frightened the whole zone perpetrating robberies, extorbions and frouds.

LEGHORN LEGION

LUCCA GROUP Members of Lucca, Massarosa, Viareggio, and Pieve di Compito stations have particularly distinguished themselves in repressing delinquency.

Special attention should be called on the operation made by the military of Pieve di Compito station who, on 29 January 1946, caught five thieves carrying with a truck a big quantity of stolen goods robbed just a few minutes before.

Very important were the operations executed under the direction of the Group Commander, Major MAZZARELLI., for the identification and the arrest of the criminal gang working within the provinces of Lucca and Florence. This gang perpetrated two very grave robberies: once on 23rd November 1945 on the highroad Florence - Lucca, followed by murder of the well known industrial employiers of Lucca Ing. CIURLO and Rag SOCCIO; this fact arose a great impression among the population. Second robbery was made on 23rd January near Borgo Mozzano and was followed by the murder of three travellers on board of a truck.

Between 7th and 11th inst, the components of the above mentioned gang have been arrested by CC.RR. of Lucca, Massarosa, and Viareggio Stations.

LEGHORN GROUP gave a strong impulse to the preventive and repressive services of the delinquency within Leghorn Area. On March and April 1945 the military of the Group, directed by their officers, were able to deliver up to the justice 23 persons among which many military of the Italian Army who associated in order to commit crimes, responsible with many robberies and thefts perpetrated in that town and in the limitrophe zone. Arms and theft of every kind have been attached.

Moreover the Arma of Leghorn, particularly distinguished itself in preventing thefts in the numerous Allied material depots of that place.

PISA GROUP The situation is noticeably improved for the capture, since last October, of the members of two gangs committing stealths and robberies within Pisa, Lucca, Apuania area, and also for the summonery of 15 take-in.

Important services have been discharged to prevent the black market of Allied materials as coffee, sugar and rice.

6045

GROSSETO GROUP Activity of judiciary police is satisfactory everywhere. On Septe-ber 1945, after well organised services, CC.RR. of Orbetello, under the clever direction of Capt. CANDURRA Gaetano, commanding that Company, captured three harmful and audacious thieves responsible with thefts committed in that town and in other provinces.

Also the general activity of judiciary police performed by that officer is to be appreciated; particularly the investigations that brought to the discover of the murderers of three Navy officers. The Navy General Staff was very satisfied and bestowed its praise to Capt. Candurra.

APUANIA GROUP Activity of judiciary police is satisfactory. On 5 February 1946, CC.RR. of Pontremoli (Apuania), after clever and difficult inquires, captured three

...4/...

Declassified E.O. 12065 Section 3-402/NNDC NO. 795020

armed and very harmful delinquents, authors of ten robberies and assault of a truck belonging to the Italian Royal Navy, carrying civilian and military personnel among which a carabiniere who was seriously injured.

FLORENCE LEGION

FLORENCE INTERNAL GROUP Particular development was promoted to the services of judiciary police within Florence and Florence outskirts. On past July, the Group was able to arrest and summon many persons responsible with thefts of various goods of great value and to discover many robberies.

Investigative squad distinguished itself also in executing services to prevent black market of medicinales and subtraction of medicinales from the normal consumption with speculative purpose, and in identifying and arresting many gangs of cattle thieves.

EXTERNAL FLORENCE GROUP Military of Borgo S. Lorenzo Tenenza, under command of Lt. GIUSTINI, particularly distinguished themselves: on 9 November ult, they arrested a big association of delinquents, so that roads crossing Tosco Emiliano Appennine, forwards Bologna and Faenza, have been made sure. Moreover, the same military attache several times big quantities of goods stolen from S.E.P.R.A.L. stores of Firenzuola.

SIENA GROUP Commanding officer of Montepulciano Company distinguished himself, having been able, strongly helped by his soldiers, to capture a harmful delinquent responsible with three robberies, an attempted extortion and three thefts at Turrita di Siena. It is also to be mentioned Capt. MARIANI, commanding External Siena Group, who succeded, after brilliant investigations performed with a P.S. Officer also at Genova, in identifying and partially arresting the authors of a grave robbery happened at S. Gimignano.

PISTOIA GROUP All the activity to tranquilize the territory has been efficient. Particular attention must be called on the arrests made by the Arma of S. Marcello Pistoiese of the authors of a great robbery and two ingent thefts; on the capture of the men responsible of a great robbery perpetrated in via Bolognese, made by CC.RR. of Capostrada; on the capture of the authors of an attempted extortion, by Pescia CC.RR. and of the authors of three attempted robberies by Tizzana CC.RR.

AREZZO GROUP Also this group distinguished itself in repressing delinquency. On 16 March ult, the Arma of Arezzo, helped by P.S., succeeded, after difficult investigations, in identifying and arresting two officers, a M.C.O., a corporal and six parachutists responsible with three robberies, and in summoning another M.C.O., a corporal and six civilians as responsible of complicity

6044

ANCONA LEGION

MACERATA GROUP This is the Group that mostly distinguished itself, in the Legion, in repressing and preventing delinquency. Capt. VERRANO, commanding Macerata company, gave a personal impulse to these services.

The following operations are to be mentioned:

- On 8th February 1946, capture made by military of Recanati, Porto Recanati, and Loreto of four individuals authors of robberies at the cost of a driver and two tradesmen . A car and 900.00 were stolen.

...5/...

Declassified E.O. 12065 Section 3-402/NNDC NO. 725020

- On 13 February 1946, capture made by the Arma of Macerata of 6 persons members of a criminal association responsible of many crimes against the property. A portion of the theft has been found.
- On 16th February 1946, CC.RR. of S. Severino Marche, arrested three taker-in of a big quantity of clothing articles stolen to the Military Administration by Italian and Polish military. A big portion of the theft has been recovered.
- On 28 February 1946 CC.RR. of Macerata have arrested 9 persons charged with numerous offences against the property and sequestered arms, clothing, and Allied uniforms used by these delinquents. Such operation had a big resounding within that zone and has been appreciated by authority and population.
- On 22 February 1946, arrest made by Military of Esanatolia station of 6 persons responsible with printing and sale of counterfeited currency; about half a million of banknotes have been sequestered.
- On 24 March 1946, CC.RR. of Macerata arrested a gang of 6 persons specialised in thefts against granaries of the population.

ANCONA GROUP Brilliant operations have been discharged by the depending military. Among such services, the following are to be mentioned: on 14 October 1945, the Arma of Ancona discovered and arrested the authors of a theft of various materials worth 5 millions and recovered the whole theft; on 15 February, the Arma of Piano di S. Lazzaro (Ancona) captured seven delinquents members of a criminal gang and summoned eleven persons as taker-in.

ASCOLI PICENO GROUP This Group performed many successful operations. Attention is to be called on that made by the CC.RR. of S. Benedetto del Tronto with the cooperation of the Pedaso CC.RR., on 8th March ult. In such operation, some individuals, who wearing CC.RR. uniforms and carrying Mitras perpetrated robberies in many places of the Kingdom, were discovered and identifyed. Five of them were arrested and weapons and motor-car sequestered.

PESARO GROUP Activity of the judiciary police within the Group jurisdiction is rather satisfactory.

On October 1945, CC.RR. of Tavullia (Pesaro) helped by CC.RR. of Pesaro, arrested many persons responsible with an armed robbery. A portion of the theft has been found.

Resulting from my experience and contact with the 3rd Bgde I am firmly of the opinion that to abolish Bgdes, and have Legions as separate units depending entirely on G.H.Q., would serve no useful purpose, but, on the contrary, would have a derogatory effect on the present situation.

ANCONA Legion - 3.06 %
BOLOGNA Legion - 7.58 %
FLORENCE Legion - 15.76 %
LEGHORN Legion - 9.71 %

(c) Strength Return of Mobile Bns, as at 31 March 1946 - - Appx. "B"

(d) Percentage on leave
FLORENCE Bn - 2.71 %
BOLOGNA Bn - 4.78 %

The members of the Florence Mobile Bn, who were on detachment at Pisa since December 1945, have been recalled. Otherwise there is no change in the situation and far too many of the personnel are still on detachment in various localities.

2. Organisation

It is not possible to recover any more CC.RR. from extraneous duties until such time as some efficient organisation exists to take over duties of Railway Police, prison guards etc.

Another drain on the service is the number of CC.RR. engaged guarding prisoners detained in civilian hospitals. Hospital Authorities are requested to concentrate such patients in one or two wards, if practicable, to reduce number of guards, but in many instances the number of guards necessarily employed is out of all proportion to the number of patients.

Suggested that such duties be performed by Questura Agents or Special Coy CC.RR.

3. Intelligence

Relations between public and CC.RR. satisfactory. No unusual incidents have been reported in connection with ~~connection with~~ elections held to date within 3rd Bgde Area.

The holding of Municipal Elections on "staggered" dates has been of great assistance in enabling CC.RR. to effect necessary concentration of strength in the various areas as elections were held.

4. Training

No change in situation.

5. Administration

(a) Discipline
Good.

(b) Pay
No particular problem.

(c) Personnel
Major CIANO Umberto has been appointed commander of ANCONA Group in place of Lt Col. ROCCA Ottaviano. Latter at disposal of Legion Command of ANCONA.
Lt. Col DE RIENZI appointed 2IC BOLOGNA Legion in place of Lt. Col. TORTORELLA who is on leave pending discharge.

6. General Deficiencies

As previously reported.
During the period 3 Feb. to 4 March 9 trucks were allotted to BOLOGNA Legion. To date only 3 have been actually received by the Legion.
Uniform situation has improved. All members of 3rd Bgde are now provided with uniform clothing.

7. Morale

Satisfactory.

8. Public Safety Situation

In spite of many arrests made by the CC.RR. during the month there is no appreciable change in the crime situation. Ten murders have been committed within 3rd Bgde area during past month and armed robberies continue with depressing regularity. Strikes of short duration and unemployed demonstrations have occurred in many localities but no untoward incident has arisen from these.
Between 8th and 11th March the CC.RR. of Lucca and Viareggio identified and arrested 12 members of a gang alleged to be responsible for committing 9 robberies and 5 murders during the period November 1945 to January 1946.
On 13th March CC.RR. arrested several members of the gang responsible for the assault on the village of Savigno (Bologna) on 11 Dec'45.
On 16th November 1945 an armed band of 12 individuals raided the village of Montano Station (Bologna) disarmed the Carabinieri and committed many thefts.
On 20th March the CC.RR., assisted by Bologna Questura, arrested nine of the crimi als and have identified the remainder.
On 4th march the CC.RR. of Treia (Macerata) identifiad two Polish soldiers alleged to be responsible for robbery and murder of an Italian civilian. Soldiers handed over to Polish M.P.

9. General

(a) P.O.L.

Brigade and Legion Commanders favour the adoption of a coupon scheme to enable CC.RR. to obtain P.O.L. direct from C.I.P. depots for general purposes. This is not a new idea as in former years CC.RR. officers were issued with coupons for this purpose, while for general use P.O.L. was purchased direct by CC.RR. HQ. from A.G.I.P., and no difficulties were experienced.

(b) Motor-cycles for CC.RR.
To date BOLOGNA Mobile Bn has received 38 motor cycles of the 60 allotted.
FLORENCE Mobile Bn is still without motor-cycles.

(c) Maintenance and repairs
Reference CC.RR. Bulletin No 1 of 2nd April regarding permission for purchase of civilian tyres from open market. It is understood that G.H.Q. CC.RR. have cancelled this permission. (Their letter No 63/2 - C.R.M. di P/110 of 20th March refers) as they are negotiating direct with the firm PIRELLI for supply of tyres and inner tubes.

1. Strength.

(a) Strength Return, as at 15th Feb. 1946 down to Legion level Appx "A".

(b) Percentage on leave - 4.57%
Percentage on extraneous duty:

ANCONA	Legion	- 1.7%
BOLOGNA	Legion	- 1.3%
FLORENCE	Legion	-17.47%
LEGHORN	Legion	9.71%

(c) Strength Return of Mob. Bns, as at 28th Feb. 1946 - Appx "B".

(d) Percentage on leave:

FLORENCE	Bn	- 3.67%
BOLOGNA	Bn	- 3.30%

The Mob. Bns cannot be considered a very effective reserve for use in emergency, as practically 50% of each Bn. is on detachment on instructions of General Command.

2. Organisation.

Situation same as previously reported. Improvement in the efficiency of the Service depends on the provision of the various supplies which have been requested by the CC.RR.

3. Intelligence.

Relations between public and CC.RR. remain satisfactory. CC.RR. officials report that there are signs of improvement in public morale; and that the major part of the general public do not seem to be interested in politics.

CC.RR. contend that public opinion, generally is not favourable to National Liberation Committees, as in many instances latter have committed abuses and excesses similar to those of the Fascists.

5. Administration.

(a) Discipline
Good. No serious breack of discipline.

(b) Pay
General complaint that wages are too low in comparison to cost of living, more especially in the case of married men with families.

(c) Personnel
No change in appointments of senior officers. Promotions have been blocked since September 1943 and this creates some discontent among officers elligible for advancement.

6. General Deficiencies.

Please see previous fortnightly reports. Anticipated that by mid-March all members of LIVORNO Legion will be provided with uniform.

The 4000 uniforms being made locally at BOLOGNA will be completed by end April and uniform situation for this Legion will then be satisfactory.

Indents for necessary clothing and equipment have been submitted to General Command by all Legions of 3rd Bgde.

7. Morale.

Satisfactory.

8. Public Safety Situation.

There has been a slight decrease in number of crimes and offences reported to CC.RR. during past fortnight. Only two major crimes were committed.

At Castel d'Argile (Bologna) a civilian was murdered by unknown assailants. Alleged political motive.

At Bertinoro (Forlì) a civilian was murdered by unknown assailant. Motive not known.

9. General.

Detailed return of ammunition required by Legions and Mob. Bns for all purposes at Appx "C". Indents have been submitted. Understand the

The more important points relating to present day difficulties of CC.RR. have been fully dealt with in previous reports, and until it is known what policy is to be adopted regarding questions of transport, communications, etc., and the requirements of the CC.RR. in all directions have been met, these reports are likely to become a repetition as the supplies being received by CC.RR. today, while of some assistance, do not improve the general situation.

At present they are part of the authorised strength but so far as their service to the CC.RR Organization is concerned they might just as well be struck off strength. Provision of adequate, and efficient, transport is most pressing need until such time as this is made available there is not likely to be any noticeable progress in the organization, as most problems arise from present lack of transport. 3. Intelligence.

Relations between CC.RR. and public remain satisfactory. CC.RR. Officials state public morale is as good as can be espected in view of economic situation. They view the forthcoming Municipal and Government Elections with certain amount of concern and are hoping everything possible will be done before them to improve the organization of the CC.RR. In their opinion the CC.RR. are regarded as an "Instrument of the Monarchy" by extreme political

parties, and because of this they anticipate serious difficulties during the general excitement caused at election time.

4. Training.

In previous fortnightly report it was stated that monthly refresher courses were held at respective Legion HQ. It has since learned that such courses were suspended some months ago, reason being lack of experienced staff coupled with impossibility of withdrawing men from ordinary duties to attend such training courses, owing to present demands on the service, and the limiting factor of the 65.000 ceiling. Training of the Mobile Bns is stated to be proceeding satisfactorily. Apart from this it will be seen that the only training a carabiniere receives is that given by his station Commander when exigencies of the service permit. It seems safe to say that very little, if any, training, outside of the CC.RR. Schools is being given at present. A stardandised Instruction Book issued free to all members of the CC.RR. would be of great assistance in prevailing circumstances. The Instruction Book published by the 3rd Bgde is issued on payment, but it is not compulsory to purchase the book.

5. Administration.

(a) Discipline.
Improving. No serious breach of discipline. Minor offences have decreased. There is no delay in dealing with any disciplinary öffence.

(b) Pay.
Situation same as reported previously.

(c) Personnel.
Major Argenziano, Group Commander, RAVENNA, is to be suspended pending result of Screening Commission.

...../3.....

Declassified E.O. 12065 Section 3-402/NND NO. 785020

Above is estimated on basis of four for each Legion HQ. Two for each Bgde, Group, Company and "Tenenza" HQ. Three for Stations with strength up to 10 CC.RR. Five for Stations having from 11 to 25 CC.RR. and seven for each Station with strength of more than 25.
At FLORENCE Legion HQ. there are 2170 pairs of new British Army boots, sizes too large or too small for CC.RR. They have been there since Oct. 1945. On Nov. 16th 1945 the Legion communicated with General Command and instructions were given by Ministry of War to the Italian Military Depot to change the boots. On Jan. 8th 1946 latter informed CC.RR. they were unable to supply alternative sizes. At cost of 600 lire a pair plus expenses of sowing thread, these boots can be made serviceable, but the project was held up awaiting authority from Rome. In view of the urgent necessity for footwear the Legion Commander has now given instructions for 1000 pairs to be altered and has informed CC.RR. HQ. ROME according by. May latter be requested to expedite issue of authority for the boots to be altered so that they may be put into use without furter delay.

7. Morale.

Satisfactory.

8. Public Safety Situation.

Total number of all crimes and offences remains unchanged but there has been a slight decrease in number of major crimes committed.
At Funo Angelato (Bologna) on 6th inst. a civilian was murdered by unknown assailants.
At Anzola (Emilia) on 7th inst. a factory employer, exponent of Democratic Christian Party murdered by unknown assailants.
At Portoferrara di Portomaggiore (Ferrara) on 10th inst. after CC.RR. had arrested six civilians suspected of committing crime, about 200 persons assembled created a disturbance, and attempted to liberate the prisoners. CC.RR. reinforcements

CC.RR. reinforcements arrived and restored order. Some CC.RR. were slightly injured.
Unemployed demonstrations took place at Florence (4th inst.), Pescia (7th inst.) and Montecatini Terme (7th inst.). No incidents.

Undoubtedly there is a certain amount of undetected crime being committed which is not reported to the police and until the latter are more mobile and better equipped they are greatly handicapped in their attempts to improve the situation.

9. General.

Estimated that further 30% increase in supply of P.O.L. for general purposes is necessary.
Mobile Bns receiving sufficient for present needs.
No regular CC.RR. of 3rd Bgde are employed on guard duties at Allied dumps. Special CC.RR. companies are being constituted in each Legion by retaining older groups up to and including that of 1923. Total authorised strength of such companies in 3rd Bgde is 155 (Officers and men). They are not included in 65`000 ceiling.
It would be appreciated if CC.RR. Liaison Officers could be informed of all supplies that have been allotted to their respective Bgdes. This would assist in tracing reasons for delay in distribution or collection.

SUBJECT: Workshop Repairs

TO : MMIA - ROME

FROM : 7 BLU FLORENCE

Reference CC.RR. Conference Rome 29th Jan 46.

1. In 3rd Bgde CC.RR Area the only Army workshops are situated in Florence and Bologna.

2. Florence and Leghorn Legions affiliated to 7th Territorial Command; Bologna and Ancona Legions to 6th Teeritorial Command.

3. Territorial Commands have authorised the Ancona and Leghorn Legions to have all necessary repairs done at local civilian workshops. The long distance from Army workshops makes their use imracticable to these Legions.

4. In Florence and Bologna Legions major repairs are done by Army workshops, Minor repairs by civilian firms.

5. No requisitioned vehicles in possession of CC.RR, can be repaired at Army workshops or by civilian firms until such time as the War Office decides to give approval. Meanwhile all such vehciles requiring repair remain off the road.

6. Expenditure for repairs done by civilian firms in various Legions is controlled by Territorial Commands and the scale at present is:

Trucks	Up	to	10000 lire
Motor Cars	"	"	4000 lire
M/Cs	"	"	3000 lire

Special authority has to be obtained for any repairs exceeding this scale resulting in further delays. It will be appreciated that the condition of CC.RR transport today is such that most repairs estimates for vehciles exceed the authorised scale.

7. Suggested that in each Legion a CC.RR Workshop is established, capable of attending to 1st and part, 2nd line repairs. Civilian staff to be under the direction of the CC.RR. 6024

8. If above is not practicable it would appear necessary to have at least one Army workshop in each Legion Area.

SUBJECT: END/BEGINNING OF MONTH REPORT AS AT FEBRUARY 1946

TO : HQ. M.M.I.A. ROME (Attention CC.RR. Section)

FROM : 7 British Liaison Unit

REF: CC.RR./29

Florence 7 Feb.1946

CC.RR. 1457 FEB 1946

1. Strength.

(a) Detailed strength return down to Company level-Appx "A" ANCONA LEGION to follow;
(b) Location and strength of Mobile Battalions- Appx "A".
(c) 4.75% on leave. Impossible to reduce this figure without risk of deterioration in health and morale. Peace time leave ceiling 10% of total strength. Even this was considered too low in practice and as the present-day figure is only 5% it will be seen this is an absolute minimum.

Following are employed on extraneous duties.(Authority HQ. CC.RR. Rome).

Port of LIVORNO		102	Carabinieri
Port of ANCONA		19	"
Concentration Camp LATERINA		42	"
Italian State Rlys	(ANCONA	8	"
	(FLORENCE	78	"
	) LIVORNO	14	"
	) BOLOGNA	8	"

Consideration might be given to replacements by Italian Military Guards, and releasing above for normal police duties.
From 8 to 10 hours daily, CC.RR. Regulations stipulate minimum of 6 hrs and maximum of 10 hrs during the 24. All split duties.

2. Uniform Clothing.

27

FLORENCE and ANCONA Legions are in satisfactory condition, but LIVORNO and BOLOGNA are very badly off. At LIVORNO there are 350 carabinieri without any uniforms but this is in hand and it is hoped they will be provided before end Feb. Shortage of cots, kitchen equipment, bedding owing to unsatisfactory system whereby provision is made by civilian firms under Contract to Ministry of In-terior at rate of so much per man per day. Understood question of these supplies now under consideration with a view to supplying direct from Ministry of Interior.
Further detailed information to follow in subsequent report.

6. Accommodation.

(a) Lack of eccient barracks in Provinces of RAVENNA, FORLI, BOLOGNA, LEGHORN, due to war damage.
(b) Condition poor, especially barracks owned by civilians. Latter not inclured to effect necessary repairs as rents paid are too low.
(c) Barracks owned by State, or civilians. Under contract respective owners responsible for maintenance. State buildings maintained by local Authorities (Genio Civile.) High costs and lack of materials difficulty necessary to increase rents paid by CC.RR. to assist civilian owners of barracks to maintain buildings in reasonable state of repair.

(e) No spare parts. Supplied when available by Army Depots or bought on open market.
(f) All vehicles provided with regular documents. No opportunity of inspecting same.
(g) After training, CC.RR. attached to mobile Bns. are employed at HQ. offices and are a reserve in case of need, always as units.
On orders from General Command they may be used as reinforcements anywhere in the country.
At present the following are on detached service, on orders of General Command.

BOLOGNA MOB. BN

FERRARA	150	men
MODENA	50	"
REGGIO EMILIA	50	"

FLORENCE MOB. BN

LUCCA	25	men
PISA	50	"
PALERMO	112	"

(h) No opportunity of judging. Byde Commander considers they can operate efficiently but suggests substitution or armoured cars in place of tanks as latter are not suitable for public service.

9. General supplies.

Supplies are now drawn from Military Depots at Legion level. Difficulty arises from system in use at present whereby a Legion HQ receives instructions from ROME to draw from a certain Military Depot which may be anywhere in the country, often necessitating long journeys to effect collection.
An improvement in distribution enabling supplies to be made available at the nearest Military Depot to the Legion making the request would cause saving in manpower and transport of CC.RR.
Brigade Commanders should be given a free hand regarding re-allocation and distribution of supplies available within their areas. At present Legions communicate direct with Rome on question of supplies.
Recently the Bologna Legion required leather urgently. A surplus was available at FLORENCE but the Bgde Commander could do nothing it being necessary for BOLOGNA Legion to request HQ. ROME to issue a release to FLORENCE Legion. Suggested that on supply matters Legions submit requests to Bgde HQ. and latter only communicate with ROME HQ. who would still be in a position to re-allocate supplies on Brigade level when necessary. If this be

Suggested that on supply matters Legions submit requests to Bgde HQ. and latter only communicate with ROME HQ. who would still be in a position to re-allocate supplies on Brigade level when necessary. If this be possible it would obviate many of the present delays in distribution within Brigades.

10. Redundant Stations.

Brigade and Legion Commander are adamant that it is not advisable, at present stage, to consider closing any stations. They stress the necessity of reinforcing outlying stations wherever possible.

Personally I think this question could well be left in abeyance until such time as CC.RR. communications and transport have visibly improved. Owing to present condition of latter it would be impossible to close a station without seriously effecting the efficient Policing of the district concerned.

11. Training.

When exigencies of service permits all carabinieri receive tuition on all subjects, for one hour each day during their period of duty. Tuition given by respective Station Commander.
At each Legion HQ. monthly courses are held where instruction in all subjects is given by specialised staff.
8% of Legion strength attend monthly.
A book of instruction (appx "C) has been published by 3rd Bgde to assist in standardising the training within the Bgde.

12. Deficiencies.

Up to strength throughout but employment of carabinieri on extraneous duties (para 1 (c)) aggravates an already difficult situation, caused by present day demands on CC.RR.

13. Discipline.

Good. The local CC.RR. are exceptionally well turned out.

14. Pay Problems.

No particular problem but general complaint that pay for all ranks is not sufficient in comparison to present cost of living. Owing to present intricate scale of wages a great deal of administrative work is necessary. Revision and simplification of rates of pay would be a great benefit.

15. Morale.

6011

Taking into consideration present situation of CC.RR. morale, generally speaking, is good.

16. Intelligence.

Relations between public and CC.RR. in general good. In EMILIA Region (Provinces of FERRARA, RAVENNA and FORLI) certain difficulties arising from local politics and the long standing "partisan" question, as in these areas many of the latter are still employed as auxiliaries in Questura. Instances have occured recently where individuals have been arrested by CC.RR. on criminal charges and local party leaders, generally Communist, have taken the opportunity of rousing public feeling

Instances have occured recently where individuals have been arrested by CC.RR. on criminal charges and local party leaders, generally Communist, have taken the opportunity of rousing public feeling against the CC.RR. and organising demonstrations. From the public security angle the same areas present difficulties arising from the delicate political situation, and it is unfortunate that the BOLOGNA Legion should be in the worst position regarding uniform clothing etc., as it is here that a well equipped body of police is most essential. There is nothing to report regarding public security in the remainder of the Bgde area.

17. General.

It will be appreciated that there has not been sufficient time for through discussion on many of the points raised, also it has been necessary to rely on figures etc. supplied by Bgde Commander without opportunity of a spot check.
