(CAMP)

Ref. No : 10365-3

DATE : 16 Nov. 48

TO : Lead Corps and Division, 1st Army

SUBJECT : Wireless materials obtained from Isal.

Go and confirm if the materials referred to in your letter 08/07/10/1/53 - dated 21st Oct. - have not been taken from the Polish Dept of Isal.

A 4 Kw generator was delivered instead of the 10 Kw generator requested, as the 10 Kw generator is being used for the illumination of the camp.

However, it was agreed that when the Polish Dept leaves Isal they will give the 10 Kw generator to us, in exchange for the 4 Kw one, which will be returned to them.

Enclosed are copy of delivery receipt, and list of materials not available.

(sgd) P. S. J. J. J.
For Mario Szostak,
Solecki,
Chief of Staff.

SECRET

On 2nd December 1951 the materials required to improve letter GC/3410/1/55 - dated 31st Oct. - were collected from the Polish Depot at Iasi.

A 4 Kw generator was delivered instead of the 10 Kw generator requested, as the 10 Kw generator is being used for the illumination of the camp.

However, it was agreed that when the Polish Depot leaves Iasi they will give the 10 Kw generator to No. 11 exchange for the 4 Kw one, which will be returned to them.

Receipts are kept for delivery receipt, and list of materials not available.

SUBJECT: Instructional Books for Mobile Battalions.

11 British Liaison Unit.
Tel. 11393. PALERMO
CC.RR./SIC/102/8.

5 June 1946.

TO : Lt.Col. H. MIGHALL
CCRR. Section. MMIA.

CC. RR.
72

With reference to your letter CCRR/G/10/1 dated 29/5/46 I understand that the Palermo mobile Battalion is in possession of the necessary handbook for the operation of R/T.

The maintenance manual is urgently required. At present, the CCRR know little or nothing about the mechanical side of the armoured cars. I understand that although a number of CCRR have been on courses, not one from Palermo has attended a mechanical course - the courses attended have been R/T and technical. Can this be remedied please ?

As result of their lack of knowledge, a number of items already require replacement - a list of which will be forwarded later.

To : Land Forces Sub-Com. A.C.,
(M.M.I.A.)
ROME.
(CC.RR.sec.)

22 May 46.

1. The commander of 6 Bde CC.RR. has asked if he can have publications on the British system of R/T Procedure in order to assist the R/T training in the Mobile Bn.
2. The present standard of R/T training in the Mobile Bn. is very low and very much an improvisation of their own owing to the fact that no personnel capable of instructing have yet returned from R/T Courses now in progress.
3. It is suggested therefore that either a translation be made of Pamphlet No.7 Signal Training (All Arms) 1945 and automatically distributed to CC.RR. H.Qs. or that an immediate distribution be made of the R/T Procedure Pamphlet which was actually translated and issued to Italian Combat Divisions in 1944-45.
4. In view of the impending elections on 2 June and possible commitments of CC.RR. mobile Bns the immediate improvement of their R/T training is considered urgent.

General Command Garrison, ...

1. It has been agreed that the following radio sets will be released to the ...

- 144 - ...
- 150 - ...
- 140 - Not released (over)
- 70 - ...
- 10 - ...

2. It is proposed to use these sets in the following manner:-

(a) Darbhanga Garrison

Set No	Use	Total for the ...
144	...	100
150	...	24
140	...	140

(b) Darbhanga ...

Since there is a ... to ensure communication to be set up between ... and ... in the following manner:-

- ...
- ...
- ...
- ...

(c) The ...

1. It has been agreed that the following radio sets will be released to the Carabinieri.

DATE	QUANTITY	REMARKS
Nº 15 sets	144	Not assigned (over)
Nº 13 sets (4F)	108	Not assigned (over)
Nº 25 sets	148	Not assigned (over)
Nº 3 sets (SAs, SAs.1.)	70	Over
Nº 2 sets (SAs, SAs.1.)	10	Over

2. It is proposed to use these sets in the following manner:-

(a) <u>Radio Stations</u>	<u>Per each Station</u>	<u>Total for 14 sets</u>
Nº 15 sets	9	108
Nº 3 sets	36	108
Nº 35 sets	12	420

(b) Carabinieri HQs in Italy and 14 Legions outside Italy.
Nineteen Nº 2 sets (9 sets, 10 sets) to enable communication to be set up between HQs and Legions in the following cities:-

- ROME, ANCONA, NAPLES, MILAN, PADOVA, VERONA, TRIESTE, GENOVA, PALERMO, BOLOGNA, TORINO, MILANO, MODENA, PAVIA, MANTOVA, VERCELLI, ASTI, ALESSANDRIA, NOVARA, VARESE, GALLARATE, SIRMIONE, BRESCIA, BERGAMO, COMO, SONDRIO, LECCO, VIGEVANO, INTRA, VERCELLI, ALESSANDRIA, NOVARA, VARESE, GALLARATE, SIRMIONE, BRESCIA, BERGAMO, COMO, SONDRIO, LECCO, VIGEVANO, INTRA.

(c) Two Legion HQs in Italy.

Three Nº 3 sets for communication between Carabinieri HQs in Italy and the two Legions in Italy. It is not necessary to have high powered sets for these two Legions to communicate with Carabinieri HQs.

812

(d) Twenty Legion HQs.

There are twenty Legions in Italy, Libya and Tunisia and they are divided into one hundred and eleven groups, one hundred and thirty one Nº 3 sets are required for communication between Legions and groups.

(e) It is impossible to equip every Carabinieri station with wireless, but in order that radio communication may be

possible, in times of trouble and disorder, it is proposed that three No. 9. Sets be kept at Legion HQ, together with trained operators. Total required sixty No. 9. Sets.

If trouble is expected, or is occurring in a town or village, a No. 9 set could be taken out by car to the nearest Carabinieri station, and kept there whilst trouble lasts. This would enable the Legion Commander to keep in touch by radio with the station, whilst remaining in Legion HQ in some large town. The set would return to Legion HQ when the situation became normal.

4. A total of 218 No. 9 Sets are required for this plan, but only 70 No. 9 Sets are available and the difference is made up of 148 No. 19 U.S. Sets.

5. The whole of this radio equipment is at No 5 Sub-Depot, 557 S.O.D. Ponte Cagnano, near Salerno.

6. Arrangements have been made for Captain Clarke of No 10 B.L.U. at Naples (telephone Naples 55802) to accept delivery, which will commence almost immediately. The total weight is about 200 tons and it is considered that about 15 railway wagons will be required to move the whole consignment.

7. Captain Clarke will arrange for the rail transport, from Salerno to Rome, through the Italian Territorial Command at Naples.

8. Captain Clarke will require the services of one Carabinieri Officer, English speaking if possible, and a small number of Carabinieri to act as guards during the loading and the train journey to Rome. Will you please arrange for the Carabinieri Legion Commander at Naples to supply Captain Clarke with one officer and the necessary Carabinieri for guard duties at a time and date to be notified by Captain Clarke.

9. CC.M. HQ will be responsible for the distribution of these radio sets to legions after the sets have arrived in Rome.

10. CC.M. HQ will arrange in conjunction with the Italian War Ministry, and any other Italian authority which may be involved, the following:-

- (a) adequate training for the Carabinieri operators on the operation of the set.

5. The whole of this radio equipment is at No 1 Sub-Depot, 597 B.O.D. Ponte Capuano, near Salerno.

6. Arrangements have been made for Captain Clarke of No 10 B.I.U. at Naples (telephone Naples 55802) to accept delivery, which will commence almost immediately. The total weight is about 200 tons and it is considered that about 15 railway wagons will be required to move the whole consignment.

7. Captain Clarke will arrange for the rail transport, from Salerno to Rome, through the Italian Territorial Command at Naples.

8. Captain Clarke will require the services of one Carabinieri Officer, English speaking if possible, and a small number of Carabinieri to act as guards during the loading and the train journey to Rome. Will you please arrange for the Carabinieri Legion Commander at Naples to supply Captain Clarke with one Officer and the necessary Carabinieri for guard duties at a time and date to be notified by Captain Clarke.

9. CC.M. GNC will be responsible for the distribution of these radio sets to Legions after the sets have arrived in Rome.

10. CC.M. GNC will arrange in conjunction with the Italian War Ministry, and any other Italian Authority which may be involved, the following:-

- (a) Adequate training for the Carabinieri operators on:-
 - Operation of the set.
 - Procedure.
 - Maintenance.
- (b) Arrangements for inspection and repair of sets.
- (c) ~~allowance of~~ ^{allowance of} strength and frequencies.
- (d) Issue standing orders regarding times of working, except during periods of emergency.
- (e) Compulsory working periods for practice.
- (f) Arrangements for charging batteries.

11. Consideration will have to be given regarding the use of codes or any special procedure by the transmitters.

12. Each station will have to be tested thoroughly in case of difficulties or non-reception due to range, interference etc. Different articles may have to be used in some cases and sets moved to other positions due to poor reception in certain areas.

AIDS MEMORIE

SUBJECT: W/T Sets for CORR

LAND FORCES SUB-COMMISSION, AG (MUMIA)

4141

18 Apr 46

To : G. So I

Copy to Maj. H. Fielders (for action whilst DAWMAG is absent on leave).

1. Release has been approved of the following W/T Sets for CORR:

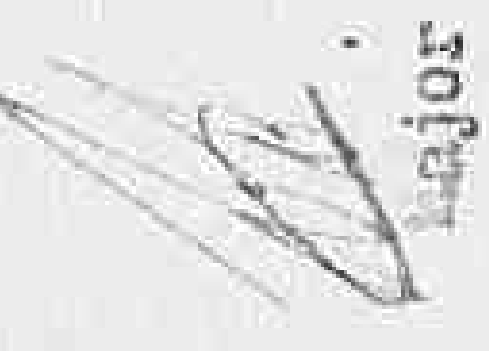

- 70 No 9
- 148 No 19 (HP)
- 15 C52
- 106 No. 19 Sets
- 144 No. 30 Sets

2. The C52 had approximately double the performance of a No 9, and the No 19 High Power has an equal performance to the No 9.

3. I have requested S.C. Sigs to hasten release notes which he has promised to do to-day.

4. When these are received, Maj. Fielders should arrange collection and distribution in conjunction with GAG CORR.

5. I have also requested instructional pamphlets from S.C. Sigs in respect of each set.

With Acct 100000

100-100000-100000-100000-100000

- 1. Reference the report from the C.I.B. ... dated April 1951.
- 2. Application has already been made to IRE for sufficient radio sets to provide each legion and group. A reply has been received with three spare sets for legion. No reply has been received and a further letter has been sent asking for the provision of radio sets for the carabinieri to be expedited as they are urgently required before the general election. So far no reply has been received.
- 3. It is understood that the difficulty is due to the fact that it has not yet been decided whether the carabinieri should have Allied, German or Italian radio sets.
- 4. In such no radio sets are envisaged by IRE for the carabinieri, this branch of ... will do every thing possible to expedite distribution and delivery to legion, but priority will be given to Paris legion.

M/T PLAN

NOTES:-

1. The 2 No 9 sets are presumably intended for use on a one to one link from Bn. H.Q. to a fixed centre. In this case it appears it appears necessary to have only one of these sets on the Bn.'s establishment.
2. If "B" Set working is not considered practicable within Arm'd Car Tps., then three more No 19 sets will be required for use as forward controls at Tp. H.Q.'s.
3. 1 signaller per set will be required.
4. Bn. Sig. Fln. consisting of Maresciallo and 40 signallers. This means that the Bn. Communications can work in toto for about 6 hrs continuously only. All battery charging and wireless repairs must be done by Territorial Command or Legion H.Q. :-

20A

REPORT - Wireless for Carabinieri.

LAMB KENNETH SUE CONSULTING, INC.
Wash., D.C.

MEMPHIS, TN.

23rd March 1966.

Lt. Col. A. NICOLA.

1. At the present time the Carabinieri have no wireless. There are wireless sets in the Regiment arranged cars, now being delivered, and operators will be trained to work them.
2. I have discussed at some length the question of wireless with Colonel SACCHI, the Carabinieri Chief of Staff.
3. The Carabinieri would like each Gruppo to be able to communicate by wireless to each Legion. There are 20 Legions and III Gruppo, and generally speaking each Legion will have 4 to 6 Groups within its area. The Gruppo HQ will usually not be more than 100 miles from the Legion HQ.
4. Sets of the 20 Legions should be able to communicate direct with the Carabinieri HQ in Rome. Headquarters in Rome would have to be able to transmit back to any of the 20 Legions.
5. The Legions are located as follows - MILAN, GORIZIA, COMO, INTRA, VERONA, PAVIA, VIGEVANO, MONZA, LEGNANO, BERGAMO, TRENTO (2), GENOVA, CASALE (2), TORINO, ASTI, CUNEO, ALESSANDRIA and SALERNO.
6. The two Legions in Rome would probably only want the same type of set as those supplied to the Group going to the other 18 Legions.
7. 143 sets would be required for those Legions and the Group.
8. 12 high power sets would be required for the Carabinieri HQ and the eighteen Legions outside Rome.
9. Col. SACCHI suggested that a further 1000 sets should be kept at each Legion HQ, with trained operators available. These sets would be taken in vehicles to places or small stations where trouble was expected. They would remain away from Legion HQ as long as trouble was expected, return with their operators, to the Legion HQ.
10. It is quite impossible to equip all the Carabinieri Legions with wireless, but if a limited number of sets were available and could be taken to places where trouble was expected, or was occurring, it would keep the Carabinieri in touch with the Legion concerned. The sets need not be fitted in vehicles.
11. This seems a most excellent idea and from a soldier's point of view

Colonel Smith, the Carabinieri Chief of Staff.

3. The Carabinieri would like each Gruppo HQ to be able to create units by wirelens to each Legion. There are 20 Legions and III Gruppo, and generally speaking, each Legion will have 4 to 6 Gruppo within its area. The Gruppo HQs will usually not be more than 100 miles from the Legion HQs.

4. Each of the 20 Legions should be able to communicate direct with the Carabinieri HQ in Rome. Headquarters in Rome would have to be able to transmit back to any of the 20 Legions.

5. The Legions are located as follows: - MILAN, BERGAMO, CREMA, GALLARATE, LEGNANO, LOMBARDIA, MONZA, PAVIA, SESTO CALENDE, VARESE, VIGEVANO, VOGHERA, ALESSANDRIA, ASTI, CUNEO, INTRA, NOVARA, TORINO, AOSTA (2), CUNEO, VERCELLI (Mantova), TRIESTE, UDINE, GORIZIA, PORDENONE, TREVISO, VENEZIA, VERONA, VICENZA, BOLZANO, TRENTO, SOUTH TYROL.

6. The two Legions in Rome would probably only want the same type of sets as those supplied to the Gruppo owing to the short distance.

7. 113 sets would be required for some Legions and the Gruppo.

8. 15 high power sets would be required for the Carabinieri HQs and the adjacent Legions outside Rome.

9. Col. Smith suggested that a further 3000 sets should be kept at each Legion HQ, with further specified available. These sets would be taken by vehicles to places or small stations where trouble was expected. They would remain away from Legion HQs as long as trouble lasted, and then return, with their operators, to the Legion HQs.

10. It is quite impossible to equip all the Carabinieri Companies with wirelens, but if a limited number of sets were available and could be taken to places where trouble was expected, or was occurring, it would help the Carabinieri in touch with the Legion Headquarters. The sets need not be fitted in vehicles.

11. This seems a most excellent idea and from a police point of view most practical. Sixty more sets would be required, and of the same type as those supplied to the Gruppo. 802

12. 10 sets would be required at Division or Brigade HQs as they are always located in the same towns as Legion HQs, and often in the same positions. The strength of each HQ and its HQ is only 10 officers and men. They are hardly concerned with the police side of Carabinieri work.

SUBJECT: Carabinieri Radio.

LAND FORCE'S SUB COMMISSION. AC.
ROMA
MILIA
CORR/C/10/1

2 March 46.

S.O. SIGS.

1. The following are the proposed Carabinieri requirements for wireless:

2. MOBILE BATTALIONS

	<u>For each Battalion</u>	<u>Total for 12 Bns</u>
No. 19 Sets	9	108
No. 9 Sets	2	24
No. 38 Sets	12	144

3. Carabinieri Hqs in ROME and 18 Legions outside ROME.

19 Partial sets are requested to enable communication to be set up between ROME and Legions in the following cities:-

- TURIN, ALESSANDRIA, GENOVA, MILAN, PADOVA, BELLUNO, VARENA, BOLOGNA,
- FLORENCE, ANCONA, BARCHINI, CHIETI, NAPLES, BARI, CATANZARO, MESSINA, PALERMO,
- CAGLIARI.

4. Two Legion Hqs in ROME.

3 No. 9 Sets are requested for communication between Carabinieri Hqs in ROME and the two Legions in ROME. It is not necessary to have high powered sets for these two Legions to communicate with Carabinieri G/HQ.

5. Twenty Legion Hqs.

There are 20 Legions in Italy, Sicily and Sardinia and they are divided into 14 Gruppi. 131 No. 9 Sets are required for communication between Legions and Gruppi.

6. It is impossible to equip every Carabinieri station with wireless, but in order that radio communication may be possible, in times of trouble and disorder, it is proposed that three No. 9 Sets be kept at Legion Hqs, together with trained operators. Total required 60 No. 9 Sets.

7. If trouble is expected, or is occurring in a town or village, a No. 9 Set could be taken out by car to the nearest Carabinieri station, and kept there whilst trouble lasts. This would enable the Legion Commander to keep in touch by radio with the situation, whilst remaining in Legion HQ in some large town. The set would return to Legion HQ when the situation became normal.

8. Total sets required for all Carabinieri purposes:

19 High Power Sets.

3. Carabinieri HQs in ROME and 18 Legions outside ROME.

19 ^ePowerful sets are requested to enable communication to be set up between ROME and Legions in the following cities:-
FLORENCE, ANCONA, REGGIO, CHIETI, NAPLES, PARI, CATANZARO, MASSIMA, PALERMO, CAGLIARI.

4. Two Legion HQs in ROME.

3. No. 9. Sets are requested for communication between Carabinieri HQs in ROME and the two Legions in ROME. It is not necessary to have high powered sets for these two Legions to communicate with Carabinieri HQ.

5. Twenty Legion HQs.

There are 20 Legions in Italy, Sicily and Sardinia and they are divided into 111 Gruppi. 151 No. 9. Sets are required for communication between Legions and Gruppi.

6. It is impossible to equip every Carabinieri station with wireless, but in order that radio communication may be possible, in times of trouble and disorder, it is proposed that three No. 9. Sets be kept at Legion HQs, together with trained operators. Total required 60. No. 9. Sets.

7. If trouble is expected, or is occurring in a town or village, a No. 9. Set could be taken out by car to the nearest Carabinieri station, and kept there whilst trouble lasts. This would enable the Legion Commander to keep in touch by radio with the situation, whilst remaining in Legion HQ in some large town. The set would return to Legion HQ when the situation became normal.

8. Total sets required for all Carabinieri purposes:

- 19 High Power Sets.
- 218 No. 9. Sets.
- 108 No. 19. Sets.
- 144. No. 58. Sets.

SUBJECT: Communications - Sardinia.

LAND FORCE'S SUB COMMISSION, 10.
SITA

OCHR/G/19/2.

4 April 1946.

Comandante Generale, Carabinieri Headquarters.

One of the difficulties of the Sardinia Legion is communication between them and the mainland, civilian services being very irregular. It is stated that an Italian cruiser leaves Naples every two or three weeks for Cagliari. It is suggested that the Ministry of War approach the Ministry of Marine for priority to be given to 30.M. for transport of such stores as may be awaited shipment at Naples. In addition, it is discovered that the Legion of Sardinia has been allotted 1.2.2 shirts, to be collected from 21.1.15. It is considered that all allocations for Sardinia should be made available at Naples.

Regarding postal facilities, correspondence between Sardinia and the mainland now takes anything up to 24 days. Ordinary air-mail - limited by available 20.M. funds for the purpose - takes about 12 days. On the other hand, there is an Italian military aeroplane service every other day. It is suggested that the War Ministry approach the Italian Air Ministry with a view to having use of this service for 30.M. correspondence.

It is recommended therefore that you take action on the lines suggested, and inform this Branch of the result.

RECEIVED 4 MAR 1946
2424.

Attached are the returns on Legion basis of CC RR Stations in II Brigade Pastrengo Div CC.RR., which are at present without means of telephonic communication.

The returns are in respect of Stations only with the exception of Verona Legion where it will be noted that the Tenenzas of Bassano del Grappa and Valdagno are also without tele-communication.

The majority of the Stations shown on the returns are the smaller posts in the Tenenzas, and the question of tele-communication being installed is obviously a point for discussion beyond the level of BLU - in view of the expense which would be incurred and the limitations of the Governmental budget.

It can not be emphasized how important it is that all Stations are connected by telephone, in the mean time however communications, are maintained by Courier m/cycle
