With reference to your letter CCLC/Q/3/1 dated 11 Jul 46, it is not clear to what Thompson SMGs are referred.

As far as I am aware the Stagbound Arm'd Cars are only equipped with three MGs , .300 Browning, and one .37 cannon.

This has been confirmed by the local Carabinieri Mobile Bn.

'THOMPSON' make.

CC RR 5. BRIGADE HQ
NAPLES
File No. 740/2

26 June 46

Major R. C. LEMBERT
Liaison Officer
NAPLES

The 'Staghound' vehicles, which have been assigned to the NAPLES and BARI Mobile Battalions, 12 for each, have also been supplied with an American tommy gun 'THOMPSON' make.

As the CC.RR. General HQ - through the MMIA - has not been able to get the necessary ammunition for said guns, I beg you to see if it is possible for the said Legions to have an assignment of necessary ammunition for the a/m weapons, in order to prevent that they be stored in a warehouse.

SUBJECT:-

BRETTA Automatic Carbines.

LAND FORCES SUB COMMISSION.AG.
MILA

CCRR/23/1

11th April 46.

Lt.Col.H.MURRAY.

1. On 6th November 1945, authority was granted by AFHQ for 10,000 BRETTA Automatic Carbines to be released to the Carabinieri (Q.130 Folio 9).

2. The release of these automatic carbines brought the total Carabinieri holdings of BRETTA Automatic Carbines to 16,110. This was sufficient to arm one in every four Carabinieri (less officers) with an automatic carbine.

3. On 8th March 46, authority was granted for 32,000 automatic carbines to be assembled at the BRETTA factory and handed over to the Carabinieri. This represented the entire stock in the BRETTA factory (see Q.130 Folio 46.).

4. In reply, a letter dated 21st March 46, was received at this office from the Italian War Ministry, (see Q.130. Folio 50) in which it was stated:-

(a) The parts for only 30,000 automatic carbines were available at the BRETTA factory as No.2. District had removed the other 2,000 to VERONA.

(b) It was proposed by the War Ministry to issue 5712 automatic Carbines to the Finance Guards and 6,642 automatic carbines to the Public Safety Agents.

5. This of course was in direct contravention with the conditions of release of these weapons (see Q.130, Folio 46 dated 8 March 46). Accordingly on 28th March 46, another letter was sent to the War Ministry (Q.130 Folio 52) stating that the automatic carbines were only released on condition they were handed over to the Carabinieri.

6. In this letter of 28th March 46 (Q.130 Folio 52) the War Ministry was instructed to hand over 10,000 automatic carbines to the Carabinieri and not 32,000 as stated in the letter of 6 March 46 (Q.130 Folio 46). The balance of 20,000 automatic carbines were to be held in Italian Army Depots as a general reserve pending consideration of the Italian Army and Carabinieri.

7. The War Ministry agreed to this course and replied by 2035 dated 30 March 46 (Q.130, Folio 54).

8. When these further 10,000 automatic carbines have been handed over to the Carabinieri, they will then possess 26,110 automatic carbines.

3. On 8th March 46, authority was granted for 32,000 automatic carbines to be assembled at the BERETTA factory and handed over to the Carabinieri. This represented the entire stock in the BERETTA factory (see Q.130 Folio 46.).

4. In reply, a letter dated 21st March 46, was received at this office from the Italian War Ministry, (see Q.130, Folio 50) in which it was stated:-

(a) The parts for only 20,000 automatic carbines were available at the BERETTA factory as No.2. District had removed the other 2,000 to VERONA.

(b) It was proposed by the War Ministry to issue 5712 automatic carbines to the Finance Guards and 6,642 automatic carbines to the Public Safety Agents.

5. This of course was in direct contravention with the conditions of release of these weapons (see Q.130, Folio 46 dated 8 March 46). Accordingly on 26th March 46, another letter was sent to the War Ministry (Q.130 Folio 52) stating that the automatic carbines were only released on condition they were handed over to the Carabinieri.

6. In this letter of 26th March 46 (Q.130 Folio 52) the War Ministry was instructed to hand over 10,000 automatic carbines to the Carabinieri and not 32,000 as stated in the letter of 8 March 46 (Q.130 Folio 46). The balance of 20,000 automatic carbines were to be held in Italian Army Depots as a General reserve pending consideration of the Italian Army and Carabinieri. 2036

7. The War Ministry agreed to this course and replied by 2035
30 March 46 (Q.130, Folio 54).

8. When these further 10,000 automatic carbines have been handed over to the Carabinieri, they will then possess 26,112 automatic carbines.

9. It will be remembered that the strength of the Carabinieri has just been raised from 65,000 to 75,000 and that the personnel for this extra 10,000 will very soon be performing duty.

10. It is now proposed that BERETTA automatic carbines should be issued to one in every two Carabinieri and that each of the Twelve Mobile Bns should have 284 automatic carbines and 107 187 as at present allowed. The alternative weapon for the personnel in the Mobile Bns is only the 1891 msket, which is not a very effective weapon.

...../2.

- 2 -

- 11. One automatic carbine for every two Carabinieri.....53,597
284 Automatic carbines for each of 12 Mobile Bns..... 5,572

36,969
- 12. A further 11,000 BBZM automatic carbines are therefore required by the Carabinieri to achieve the new proposed scale of arms. This will leave 9,000 automatic carbines still in stock as reserve when all the Carabinieri requirements have been met, out of the total of 20,000 automatic carbines to be held in reserve in the Italian Army Depots, as directed in letter dated 28th March 46 (Q.130, Folio 52).
- 13. The details of the 284 automatic carbines for each Mobile Bn are attached on a separate sheet.

Subject: Arms for Carabinieri at the Caserma
Pastrengo, Viale Romania, Rome.

LAND FORCES SUB-COMMISSION, AC (MIA)
CCRR Sec.
CCRR/4/3/1
20 May 46

To : G.H. CCRR. ROM

1. At the above mentioned caserma there are stationed 303 men and 220 horses of the Gruppo Squadron. They are said to be only armed with the 1891 musket.

2. In view of the great value of the horses, it is essential that the Carabinieri at the Caserma Pastrengo be armed up to the proper scale with Beretta automatic carbines and also Breda machine guns and hand grenades for the defence of the Caserma. Every effort should be made to increase the arms for the defence of this Caserma before the General Election on 2nd June 1946.

SUBJECT:

Ammunition for Carabinieri.LAND FORCES SUB COMMISSION.AO.
MELA
RCSI

JSA.

7 MAY 46.TO: BRANCH.

1. The Carabinieri report that their stock of ammunition for BERETTA Model.34 Cal.9 mm automatic pistols is getting dangerously low.

2. In MARCH 1946 the Carabinieri had 415,722 rounds of 9 mm pistol ammunition, where as they required, 1,770,140 rounds to supply each man with the following scale:-

Personnel: 21 Rounds per pistol
Reserve : 7 " " "

3. Since that date the position has got steadily worse owing to the non-arrival of adequate quantities of new ammunition, although authority was granted to the Italian War Ministry to manufacture 8,000,000 rounds of 9 mm pistol ammunition (Authority GHA SUB/81/3 dated 25 JAN 46).

4. It is understood that the ammunition is being manufactured at GATIA and that difficulties are being experienced with the workers at the factory who are adopting a "go slow" policy.

5. Could this shortage of 9 mm pistol ammunition please be brought to the notice of the War Ministry and every effort made to expedite delivery to the Carabinieri.

SUBJECT: Beretta Automatic Carbines.

LAND FORCES SUPPLY DIVISION, AC.
RUE.

2000/0/1

17th May 1948.

Lt. Col. A. STUBBS.

1. On 5th November 1947, authority was granted by A.P.V. for 10,000 Beretta automatic carbines to be released to the Carabinieri. (see C. 130 Folio 5.)

2. The release of these automatic carbines brought the total Carabinieri holdings of Beretta automatic carbines to 16,110.

3. The weapons have come very slowly from the factory at Brescia and the last batch to complete the 10,000 have now been received by the Carabinieri and are in the course of transmission to Legions.

4. A second release of 10,000 Beretta automatic carbines was made to the Carabinieri, see C. 130 Folio 52, dated 23rd March 1948, but so far none of this second issue of 10,000 automatic carbines have been received by the Carabinieri.

5. Perhaps the Branch could bring the matter to the notice of the War Ministry and request that the second 10,000 Beretta automatic carbines be delivered at a much greater speed.

Charles Fellers

SUBJECT:- Canister Shot Cartridge (Cartuccia a Mitraglia).

LAND FORCES SUB COMMISSION AG.,
MILIA
ROME

COM/2/5/1.

23 May 46.

Lt. Col. M. MICHAEL.

1. Reference the attached file regarding the above and the memo from Colonel A/Q.

2. The strength of the Carabinieri today is about 69,000 but it is hoped to be up to its new establishment of 75,000 in a few months. One can in every four in the Regions will be armed with a BERETTA automatic rifle and the remaining strength will be armed with the Model 1891 Masket, cal. 6.5mm.

3. Each Mobile Pn. is to have 187 BERETTA Automatic rifles and the remainder of the men will have Model 1891 Maskets, cal. 6.5mm.

4. To arm the men on this scale the Carabinieri will need 19055 BERETTA Automatic Rifles and 54495 Model 1891 Maskets. At present they do not possess sufficient BERETTA Automatic Rifles, but consignments are slowly coming from the BERETTA factory. In the meantime those men not yet in possession of an Automatic Rifle are armed with the 1891 Masket Cal. 6.5mm. The Carabinieri possess 74,624 of these maskets.

5. The Carabinieri are most anxious to retain the Canister-shot Cartridge. At present they use it throughout the Regions and Mobile Pns. for the 1891 Masket. They use three cartridges in each clip of six, placed alternatively. The Carabinieri consider the canister-shot most effective at short ranges and nearly as good as the automatic rifle. It is especially useful when attacking armed bands and armed robbers at night. They consider it more effective than ordinary ammunition for short range work.

6. Manufacture is recommended.

He is a past president of the American Society for Veterinary Clinical Pathology and a past president of the American Society for Veterinary Clinical Pathology. He is a past president of the American Society for Veterinary Clinical Pathology and a past president of the American Society for Veterinary Clinical Pathology.

1. The following Allied ammunition has been released for the expenditure of captured guns not being issued to the Reichsmarine. The ammunition is as follows and available for immediate collection.
2. 6,000,000 rounds of .300 For the machine guns in the ammunition.
3. 40,000 rounds of 37 mm ammunition H.B.
80,000 rounds of 37 mm " armor piercing
7,447 rounds of 37 mm " heavy anti-aircraft.
122,447 rounds of 37 mm ammunition.
4. This represents all the ammunition of this type available in Italy, with the exception. It is therefore suggested that some portion should be held as a reserve in Italy and possibly further quantities in Belgium and Spain.
5. The amount to be carried on each captured gun is as follows:
103 rounds of 37 mm
725 rounds of .500 (2.75 rounds of solid shot).

AIR - MEMOIRE.

Subject - AMMUNITION FOR SHOWED ARMORED CARS.

To :- Lieut-Col. R. Mighall.

Copy to Major E. Fielders (for action whilst D.L.S.M. is absent on leave.)

1. The urgency of supplying ammunition to CRR for practice purposes, in view of the forthcoming General Election and new types of weapons, has been emphasised to Lt.Col. Head, Crd. Services.
2. Col. Head states that the full entitlement will be issued in the near future, and will be released with a bulk release of 27,000 tons, which is being handed over to the Italian Army.
3. In view of the urgency with regard to training, he has arranged for an IMMEDIATE release of 300 tons .303 and 10 tons .57mm. new vehicle. The release note should be in our possession within 48 hrs.
4. When the release note has been received, CRR should be informed and arrangements made with them for IMMEDIATE collection or delivery to the 12 Mobile Bns.
5. As the Easter Holiday is imminent, it may well pay for arrangements to be made for delivery by rail. In this event, a rail bid is necessary.
6. May Mr. Fielders please make necessary arrangements with CRR, CRR, and 12.

SUBJECT: Automatic Rifles REM-UMC. Model 36.
Caliber .9 - REM-UMC

LAND FORCES THE COMMISSIONER AG.
REMA REM

OUT/4/3/4.

17 APR 56.

TO: Mr. Division Officer J.B.H. 11.

1. 10,000 new rifles, pattern as above, have been assigned to CG. 11. from the REM-UMC and Army REM-UMC. 7,000 have been distributed to units.
2. It is understood that the remaining 3,000 are sufficient of bolts or some other important mechanism and their loss is consequently delayed.
3. Please investigate this matter and render a detailed report to this HQ as early as possible.

W.H. 11/11

CCHV/Q/55

Land Forces Sub-Commission, AD.,
MFA, Rome. (CCHV Section) (2)

12 Apr 46

1. 77 Staghound Armoured Cars are now being issued to CCHV Area 5 and 11 VPs, Naples and the process is expected to be completed by 25 Apr 46.

2. The cars are new and in perfect condition, and in addition they have a rigorous inspection before issue and as far as the 77 cars here are concerned no complaint by the Italian authorities as to their condition should be entertained.

3. The equipment is very full. Each car has its table of equipment and this is handed over to CCHV with the car. A list of deficiencies is also included, but in every case these are unimportant for the operation of the cars, e.g. camouflage nets, used cartridge containers, wavy pistols etc.

4. CO 10 MIA states that GHQ have authorized 200 tons of ammunition for the cars, and information as to its arrival would be appreciated.

1. Reference the previous correspondence re 30,000 BERETTA automatic rifles assigned to the Carabinieri and the letter received by "Q" Branch, MILIA regarding these weapons from the Italian War Ministry.

2. The Carabinieri HQ have received a similar letter from the Italian War Ministry. The letter states that the Carabinieri will get approx. further 2500 automatic rifles, the Finance Guards and Public Safety Agents approx. 12,000 automatic rifles between them. The remainder of the 30,000 BERETTA automatic rifles will be held in stock by the War Ministry.

4 March 46

All CC. No. 1.0.1's

1. 10,000 "Beretta" automatic rifles (Mitras) have been made available to the Carabinieri.
2. The following distribution has been made:

1,300	"Mitras" for Sicily (Palermo and Messina Legions).
956	Left Brescia by rail for Sicily.
279	"Mitras" for Bologna Legion;
519	" " " Bolzano Legion;
622	" " " Genoa Legion;
226	" " " Turin Legion;
398	" " " Padova Legion;
	" " " Alessandria Legion;
3. The balance of 5,700 mitras will be distributed in about one month to the remaining Legions.
4. "Breda, 8.30" calibre 6.5 machine guns are also being distributed to the Legions, so that there will be one "Breda" machine gun at every Carabinieri Caserma throughout Italy. A larger number of machine guns will be held at large Casermas, such as Legion and Gruppo HQs.
5. Handgrenades are also being distributed so that each station will possess at least 20 handgrenades.
6. 8,000,000 rounds of 9 mm. ammunition for the "Beretta" automatic rifles (Mitras) have been made available to the Carabinieri. 250,000 rounds have already been dispatched by rail to Sicily and the remainder is at present being sent to the Italian Army Artillery Directorate, Territorial Commands, for distribution to the Carabinieri Legions.

Hughes 19.9

H. MICHALL, Lt. Col.
For Major General,
M. E. I. A.

the following distribution has been made:

- 2.300 "Mitras" for Sicily (Palermo and Messina Legions). Arms have already left Anversa by rail for Sicily.
- | | |
|-----|------------------------------|
| 955 | "Mitras" for Bologna Legion; |
| 279 | " " " Bolzano Legion; |
| 519 | " " " Genoa Legion; |
| 622 | " " " Turin Legion; |
| 225 | " " " Padova Legion; |
| 398 | " " " Alexandria Legion; |

3. The balance of 5,700 mitras will be distributed in about one month to the remaining Legions.

4. "Breda, M.30" calibre 6.5 machine guns are also being distributed to the Legions, so that there will be one "Breda" machine gun at every Carabinieri Caserma such as Legion and Gruppo Reg.

5. Handgrenades are also being distributed so that each station will possess at least 20 handgrenades.

6. 8,000,000 rounds of 9 mm. ammunition for the "Beretta" automatic rifles (Mitras) have been made available to the Carabinieri. 250,000 rounds have already been dispatched by rail to Sicily and the remainder is at present being sent to the Italian Army Artillery Directorates, Territorial Commands, for distribution to Carabinieri Legions.

279/44

SUBJECT:-

37 mm Gun for STCHONO Armed Cars.

LAND FORCES SIB COMMISSION, AC.
M.H.I.A.

OUR/2/3/4

2 March 46.

G(SD).

My representations please be made to AFHQ for arm to be supplied on a reasonable scale for OUR SEARCHED ARMED Cars.

The following points are given in support:

1. The purpose of the Mob Bus and their equipment is to deal with disorders of such gravity which otherwise would necessitate the intervention of troops. Therefore the utmost available striking force of the Mob Bus should be commanded, in order to avoid the use of troops.
2. Absence of arm would soon become known to potential trouble makers and the value of the bus as a deterrent would be materially reduced. To the contrary, knowledge of trouble makers of the fact that the required ammunition may be used against them would undoubtedly cause hesitation in committing trouble.
3. In the event of serious disorders armed men may take refuge in or engage in action from buildings and houses. I have reason to believe many persons are in possession of heavy arms and if they do as suggested above, 37mm ammunition will have the desired effect.
4. Greater range of the 37mm gun is of high value, particularly in STCHONO where rebels possess machine guns and mortars.
5. The use of the guns will be an Italian not an Allied responsibility.
