Sub Commission for Italian POW
ROME

N.45560 di Prot.

SUBJECT : Commander T.V. MOTTURA Carlo;
2nd. head quartermaster TRENTINI Paolo.

On the request of the families of the above mentioned officers, we beg your Sub Commission to make an investigation regarding their whereabouts.

Said families have been informed by the British Naval Command at Venice that the submarine "Zaffiro", was captured in June 1942 near Tobruk and turned over to the Greek Navy.

Her crew, composed of 47 persons, amongst whom were the officers in question and the midshipman Tristano (Engineer) Arich (attention on letter n.4926/inf. POW Bureau dated 7th September addressed to your Sub Commission) were taken prisoners and first sent to South Africa and from there to India.

In consideration of the source of this information, we beg your Sub Commission to request an investigation of this matter by the British authorities.

Not one of these 47 people, which was the entire crew of the "Zaffiro", have given any news of themselves.

We enclose a photograph of the Commander of the submarine, Carlo Mottura in order to facilitate your investigation.

Thank you.

Dott. Fausto Nitti.

Prot. n. 4066/C/14

SUBJECT : Italian POW in Camp N. 5 in Australia.

The Italian liaison officer in camp n.5.B Compound (Myrtleford - Australia) forwarded a report, for the attention of the Italian Government, through the Protecting Power on the 16th of September 1945, directed to the Commander of the Camp, to avoid that the Italian officers, prisoners in B Compound, be transferred to the Camp of Tatura (A Compound) and put together with the non Co/operators and in contact with the German prisoners of the latter camp.

The report showed very clearly the preoccupation that this transfer adopted towards these officers, had provoked, who had been considered Co/operator from the very beginning and who were temporarily given no work independent from their desires, regarding the continuation of their imprisonment relative to precedence in their repatriation: apart from the moral and material situation in which they would find themselves, in contact with those individuals who had declared themselves as being against Co/operation and in more finding themselves in the same camp as the German prisoners.

We would greatly appreciate if the Allied Commission would call this matter to the attention of the competent authorities in order to obtain the permission²²⁸⁸ that the officers in question of camp n. 5 in Australia may remain where they are and await in a tranquill state of mind their repatriation which has so long been delayed.

SUBJECT : POW DRAGHI Pietro 379680
" LIZZIO Giuseppe 37903

The Ministry of the Navy interested by this Ministry regarding the prisoners in question, informed us that following an agreement between the Italian Government and the English Government, decided that all seamen of the Italian merchant marine captured in any country of the British Empire would be considered POW and not civilian internees.

This ruling was limited however, to the moral and juridical treatment and was not extended to the financial treatment in as much the said seamen received no pay and were not required to Co/operate.

There is therefore no doubt that what is written above regards the prisoners in question who were two engineer officers and formed part of the General Staff of the ship in question.

ROME

Prot. n. 422837/RPGR

SUBJECT : Disposals in favour of Italian POW in Camp
Saida.

The Italian Government has received a report regarding the conditions of the Italian POW in French custody at Camp Saida - Algiers.

This report is a confirmation of the sad conditions in which these POW find themselves, and puts in evidence the fact that ^{they} are without clothes and food in what is now the beginning of winter.

In the aim of bettering this difficult situation of our military personnel in the various camps in Algiers, the Italian Government has decided to send clothes and food to them from Italy, with the 2nd trip of the "Duc de Aosta" who is leaving to repatriate the 1500 prisoners.

The material in question will consist of 1000 series of clothes and 8 tons of Food. Total about 11 tons

In order to carry out this program it will be necessary - as is known - to obtain the authorization

from the Allied authorities, for the transport from Naples to Opan: also to obtain the collaboration of the French authorities for the transport of said material, from the port to the camps.

We beg your Division to intervene in our behalf with the competent authorities in order that we may carry out the above program.

The Ministry of Post War Assistance is arranging, through the Ministry of Foreign Affairs, to send to Algiers two of their representatives, (Dott. Fausto Nitti - head of the POW Bureau, Ministry of Post War Assistance - son of Vincenzo, born in Rome at the 2nd September 1899 - Documents: French Pass n. 4; and the Head of the Division of the POW Bureau of Ministry of Post War Assistance; Lt Col. Picozzi, born at Pisa on the 16th February 1898 - Documents: identification card from the Ministry of War n. 449) with the orders to distribute said material and we therefore beg your Division to provide the necessary authorization of military character which will consent to their leaving for Algiers.

1. The Quadripartite Travel Board for Austria have decreed that there shall be no travel into or through Austria for personal reasons. In addition clearance for CZECHOSLAVAKIA for non Czech nationals is extremely difficult to obtain.

2. Under present conditions it is considered that the proposed travel is out of the question except by air. If the applicant can afford to travel by air this section will be pleased to endeavour to obtain the necessary clearances, though this may take considerable time.

Servizio per i Prigionieri di Guerra,
Roma.

MA/T. Annaghi, Giulio, deceased.
Death notified on the Bureau's Official List No. 98 (Part I)
dated 3.3.45 and List No. 111 (Part II) dated 30.6.45.

With reference to your memorandum of the 13th September, 1945, addressed to the Allied Commission, Sub-Commission for Italian Prisoners of War, the above-named Italian prisoner of war died in hospital in Italy on the 15th January, 1945, of Diabetes Mellitus. This information was given on List 98 (Part I) of Deceased Italian Prisoners of War dated 3rd March, 1945.

The entry referred to in your Memorandum of 13th Sept. 1945 appeared on Part II of List 111, and as the cause of death had already been given in List 98, Part I, this was not repeated on the Part II in question.

In this connexion it is pointed out that it is the Bureau's practice to notify the death of a prisoner of war as quickly as possible on Part I of the Bureau's Lists of Deceased Prisoners of War giving all available particulars. Any details received later that may correct or complete the information already given in Part I is entered on Part II of a subsequent list, with an entry in Column (11) referring to the number of the List in which the original entry was made. The original entry is, however, not repeated.

2. Forwarded herewith is a Nominal Roll compiled by the Senior Italian Liaison Officer at 356 PW Camp, in respect of Italians reported missing or killed in action.

3. The Nominal Roll has been checked by East Africa Command Bureau and it has been found that a number of names shown on the rolls are also shown on that Bureau's Records as PW registered in that Command. Due to the lack of requisite particulars submitted by SILO it has been impossible to establish in the above cases whether PW mentioned in rolls are actually the PW bearing the same name and shown on that Bureau's Records. Footnotes on the rolls refer.

4. Furthermore, certain names shown on the attached rolls, are also shown on the "General Nominal Roll" of PWIB India, as interned in that Command. Those names are marked "X" in blue pencil.

1. The letter from the Comitato Nazionale Reduci Dalla Prigionia has been drawn to the attention of the competent authority.

2. It should be pointed out that Italian prisoners of war held by other Allies are not a U.S. nor a British responsibility.

3. The request by the Comitato Nazionale Reduci Dalla Prigionia that they should be allowed to transport refugees from Germany to Italy in their own private trucks cannot be agreed. Italians are being transported from Germany to Italy regularly, and in large numbers, and the repatriation routes must not be choked with irregular convoys, which would slow down repatriation rather than speed it up.

SUBJECT : Corporal BERTAZZINI Fernando.

On request of the family, who are in great anxiety regarding the fate of their relative, the Corporal in question, we beg you to make an investigation concerning his whereabouts.

Corporal Bertazzini Fernando, son of the late Pompeo, born 1906 at Copparo (Ferrara) captured in Tunisia 1943, reported as having died of a ruptured artery on July 22nd 1943.

From information received from Soldier Melchioli who has returned from imprisonment and resides at Ostellato (Ferrara) it would seem that Bertazzini did not die because he was seen embarking for the U.S.A. together with other from imprisonment. PRISONERS

1. From time to time appeals have been made to supply food to Italian nationals in Jugoslavia awaiting repatriation at Dubrovnik. Such food, taken in the first instance from British Army Depots is repayable in kind by the Italian Government. The British Army, however, having no ultimate responsibility for these Italians, is no longer prepared to advance food for this purpose.

2. Repatriation of these Italians is delayed by the fact that stragglers collect slowly at the port. It is necessary to wait until the numbers to be moved justify the use of a vessel. The shipping authorities, however, are mindful of the problem and a suitable vessel is made available when circumstances warrant.

3. If food is required for these persons in future it must be furnished wholly by the Italian Government. Bids for shipment should be made to the shipping authorities in conformity with normal maintenance procedure.

4. The Italian Government should be informed of the provisions of this letter.

SUBJECT: Repatriation of Italian PW.

TO: Headquarters, Allied Commission, APO 394

1. The following general comments are made on the plan of the Italian Ministry of War for the reception and disposal of repatriated Italian POW. Your letters IPW/1/FOL/513 dated 19 September and IPW/53/40 of 21 September refer.

2. Transportation to Italy.

a. It will not be possible for the Allied Governments to sort out PW before embarkation and ship them to 7 ports as suggested by the plan. The requirements of the Allied Forces and the economical use of transport facilities make it essential that shipping and other types of transport continue in established runs.

b. It is probable that all available means of transport will be used to return PW to Italy. For planning purposes the most likely routes will be used are:

- From U.S. - by ship to Naples (small numbers to Leghorn)
- From Germany - by rail over Brenner as at present
- From French North Africa - by ship to Naples (if in Allied shipping)
- From U.K. - by ship to Naples or Taranto (possibly rail to North Italy)
- From Middle East, East Africa, India, etc. - by ship to Taranto

c. Advice of ETA, numbers shipped and ports of loading and arrival will be given as far in advance as possible.

d. Passenger lists of U.S. held PW are furnished the Italian Liaison Officer at 8th Port, Naples, where the greater part of repatriated Italians are disembarked. The provision of advance nominal rolls of British held PW cannot always be guaranteed; every effort will however be made to furnish them.

e. You have already been advised by this Headquarters cable FX 44795 of 21 September 45 of the planned shipment of PW from U.S. No plans are yet available for PW in British custody; steps are being taken to secure early information of proposed plans. The latest information with regard to British held PW located in U.K. is that, although repatriation in principle has been accepted, the present indication is that there is unlikely to be any substantial movement before the beginning of 1946. You are aware of the current situation with regard to the repatriation of PW from other areas in Europe and North Africa.

3. Supplies and Equipment.

a. It is believed that the Italian army will be provided with material more than sufficient to meet the requirements for reception of PW, under arrangements currently being made to equip an Italian Army of 140,000.

b. If necessary to expedite transfer, items determined by MMIA to be unavailable from existing Italian resources can be transferred on a loan basis to apply against requirements for equipping the Italian Army. This applies equally to U.S. and U.K. items of equipment.

4. Accommodation.

Accommodation in Naples and Leghorn only have been considered in view of paragraph 2(a) above. The following is the position:

a. Naples

Pizzofalcone Barracks. Almost certain this will be required by Allied Military Authority until February 46.

b. Leghorn.

Lido Calambione, Colonia Marine. After the end

1606

of this month only 2 buildings are expected to be required by 33 Station Hospital. Remainder of the buildings will be available.

5. Transportation.

a. See paragraph 3 (e) for internal camp transport.

b. Road transport for distribution of PW to and from camps will not be available from U.S. Truck Companies. If MMIA as not being sufficient, it may be possible to loan vehicles under paragraph 3 (b) less drivers who would have to be provided by the Italian Government; in an emergency it might be possible to call on transport companies available to British Districts. In this connection personnel carrying transport should only be provided when a march of more than 7 miles is involved. Baggage will of course require to be transported.

6. Based on the above and further information (chiefly in connection with the repatriation of British held PW) which will be furnished as soon as available, the Italian Government should revise their plan for the disposal of repatriated Italian PW.

NOVARA

18 October 1945

SUBJECT : Death of Ex-Prisoner of War, Italian

TO : C.O., HQ, "B" Group, Torino

1. During the transport of ex-prisoners of war from the Novara Refugee Camp to the railroad station, the following incident happened: At about 2300 hours 16 Oct. 1945, a Fiat truck, license N° NO14096 driven by Salvadori Danilo, was transporting personnel to the station. About half way there, the hinges of the tail-gate of trailer broke, dropping to the street two soldiers who were sitting on it. The truck stopped immediately to ascertain the extent of injuries. The truck driver found one badly shaken and the other apparently alright. The driver took his load to the station and came back to scene of accident to transport the injured to the Military Hospital in Novara.

2. On arrival there the injured soldier was conscious and could give details. On examination it was found he had a fractured skull and possibly a cerebral hemorrhage. On the morning of the 17th he became unconscious. A brain surgeon was called and after examination he declared it was too serious to operate. At approximately 2200 hours this camp was notified that the soldier had died. Telegrams have been sent to his parents who live in Foggia Province. Two of his friends have stayed behind to escort his body home. Arrangements have been made to transport by truck and failing this by train. Soldato De Micco Salvatori, Reg. N° 81-1-301788, fu Giacomo and mother, Martelli Maria. Home in Trinitapoli, Foggia, Age 35.

Death notified on the Bureau's Official List
No. 109 Part I dated 23.6.45 and List No. 111
Part II dated 30.6.45

With reference to your memorandum of the 8th September, 1945, addressed to the Allied Commission, sub-commission for Italian Prisoners of War, attached is a report on the death prepared by the Corps of Military Police, Central Mediterranean Force.

From this report it will be observed that the case has been handed over to the Questura for continuation of enquiries and that the latter is in possession of all original statements and of the relative medical reports.

It is not the practice of the British Authorities to furnish certificates of death, the entry on the Bureau's official List of Deceased Prisoners of War being deemed sufficient evidence of death.

Sir,

On the 29th April, 1945, at 0900 hours, information was received at this office from the 510 Provost Company to the effect that an Italian soldier, No. 201469 Pte Pasini Mario, Co-operator, 1063 Docks Operating Company, R.E. had been admitted to the 133 British General Hospital on the night of the 28th instant suffering from stab wounds and had since died.

I immediately commenced enquiries and visited the 133 General Hospital. I there ascertained that Pasini had been admitted at 2315 hours on the 28th and had died at 2340 hours the same night. He had been suffering from stab wounds, two in the chest, two in the stomach and one in the left arm. The wound in the arm had caused his death, one of the main arteries having been severed.

I then made enquiries at the 1063 Docks Operating Company R.E. and ascertained that two other soldiers were with Pasini when he received his fatal injuries. I interviewed both these soldiers concerned No. 23605 Pte Cecchi Giovanni and No. 200267 Pte Talamone Costanzo both of 1063 Docks Operating Coy. R.E.

It would appear that on the evening of the 28th instant, all three soldiers left their camp together at about 1800 hours to spend the evening in Brindisi town. Their camp is actually situated on the opposite side of the harbour to Brindisi Town. The distance by road is approximately three miles. To go across the harbour by ferry boat the distance is about a half mile.

All three, when in the town, visited a wine shop and also the brothel. At about 2215 hours they commenced to make their return trip back to camp. They were all

Sir,

On the 29th April, 1945, at 0900 hours, information was received at this office from the 510 Provost Company to the effect that an Italian soldier, No. 201469 Pte Pasini Mario, Co-operator, 1063 Docks Operating Company, R.E. had been admitted to the 133 British General Hospital on the night of the 28th instant suffering from stab wounds and had since died.

I immediately commenced enquiries and visited the 133 General Hospital. I there ascertained that Pasini had been admitted at 2345 hours on the 28th and had died at 2340 hours the same night. He had been suffering from stab wounds, two in the chest, two in the stomach and one in the left arm. The wound in the arm had caused his death, one of the main arteries having been severed.

I then made enquiries at the 1063 Docks Operating Company R.E. and ascertained that two other soldiers were with Pasini when he received his fatal injuries. I interviewed both these soldiers concerned No. 23606 Pte Greci Giovanni and No. 200267 Pte Telmono Gastano both of 1063 Docks Operating Coy. R.E.

It would appear that on the evening of the 28th instant, all three soldiers left their camp together at about 1800 hours to spend the evening in Brinisi town. Their camp is actually situated on the opposite side of the harbour to Brinisi Town. The distance by road is approximately three miles. To go across the harbour by ferry boat the distance is about a half mile.

All three, when in the town, visited a wine shop and also the brothel. At about 2245 hours they commenced to make their return trip back to camp. They were all sober. They went to the No. 6 Dock Gate with the intention of taking the ferry boat back to camp. However, they were informed by the military policeman at the dock gates that the ferry boat was not running or that it had already left. They then commenced their journey back by road. To do this they had to walk along the Via Dalle Legione. All three were walking together. After they had passed No. 5 Dock Gates, which are situated in this road, they noticed a number of civilians sitting alongside the wall not far from the Dock Gates.

Greci and Ielmore state that these civilians asked them for cigarettes. They did not stop, however, but continued to walk up the road. Pasini, however, remained behind.

After Greci and Ielmore had walked a distance of approximately 100 yards from the Dock Gates, they heard Pasini shouting for help. They turned round and saw him standing about 80 feet away with a crowd of civilians round him. They both immediately ran back to his assistance.

Ielmore saw that Pasini was injured, for he was holding his hands across his stomach, from which he could see blood pouring.

He noticed that about five civilians had knives in their hands. He ran towards Pasini and as he did so the civilians ran away. He took hold of Pasini and assisted him to the side of the road where Pasini slipped to the ground. Ielmore propped him against the wall in a sitting position and held him there. A few moments later he heard footsteps and looking round he saw a small civilian who was wearing a black hat or beret with a peak. This man appeared to be holding a knife in one hand. Ielmore spoke to him saying that he hoped he would not kill him now that he had killed his friend. He also asked him to go and bring help. This civilian made a gesture to the effect that Ielmore should go and rescue his own Mother. He then ran away.

When Greci first turned round upon hearing Pasini shouting, he states that he saw about eight civilians all standing round Pasini. He ran towards them and one of them ran towards him and struck Greci in the neck with his fist. He noticed one civilian had a knife in his hand. He heard Ielmore shouting that Pasini had been injured and that civilians all had knives.

Greci then ran towards No. 5 Dock Gates and upon arrival there he informed the military policeman and the Guardia Finanza on duty there, that his friend Pasini had been injured and that he wanted an ambulance. The policeman made a telephone call and Greci returned to the spot where Pasini was sitting.

About 15 minutes later a Military Vehicle arrived and Pasini was conveyed to the 133 British General Hospital where he later died from his injuries.

Owing to the fact that all parties concerned in this incident are Italian, the case has been handed over to the Questura for continuation of enquiries. All original statements together with copy of medical report have also been handed over to Questura for their information.

Ielmons spoke to him saying that he hoped he would not kill him now that he had killed his friend. He also asked him to go and bring help. This civilian made a remark to the effect that Ielmons should go and seduce his own mother. He then ran away.

When Greco first turned round upon hearing Pasini shouting, he states that he saw about eight civilians all standing round Pasini. He ran towards them and one of them ran towards him and struck Greco in the neck with his fist. He noticed one civilian had a knife in his hand.
