1. The following is an extract from a letter dated 11 October received from U.N.R.R.A. Greece by higher authority, and on which we have been asked to obtain your views:-

"Almost all Italians of the 'intruder' class have now left the Patras area, but there is still a small colony of pre-war residents of Italian nationality who are for the most part in difficult circumstances. Many of them the Greek Government wishes to transfer to Italy because of military services performed in the Italian Army by men among them of military age, or for other pro-Axis activities during the occupation. Some have already been removed for these reasons. - It is estimated that some 120 pre-war male residents of Patras have been taken to Italy as prisoners of war. A total of 319 persons, Italian citizens resident in Patras, have now applied to be transferred to Italy, and their request is supported, owing to the great difficulties in which they live, by M. Rossi, their local Consul, and by M. Cascel, who watches the interests of Italians in Greece from the Swiss legation in Athens. The Greek Government is anxious for their departure.

This Mission takes the view that Italians established in Greece before 1st January 1938 and still having houses here, cannot be considered as displaced persons or as intruders and cannot, in general, be sent to Italy under UNRRA auspices. This view was communicated in a letter to the Minister of Foreign Affairs in the Greek Government, and the recommendation was made in it that if it was desired, for any reason, to deport to Italy any persons with whom UNRRA was not authorised to deal, the Government should make its approaches direct to the Allied Military Authorities in that country.

The immediate problem is to unite with their husbands or other breadwinners the wives, children and other normal home-held dependents of these men who have already been deported through the prisoner-of-war machinery and who, knowing that return to Greece would for a long time be impossible, have been settling up new homes in Italy. These men have already been sending letters calling their dependents forward, and the current lists show 55 wives and children out of 77 other dependents, a total of 132 persons, ready for

have been asked to obtain your views:-

"I suspect all Italians of the 'intruders' class have not left the Patras area, but there is still a small colony of pre-war residents of Italian nationality who are for the most part in difficult circumstances. Many of them the Greek Government wishes to transfer to Italy because of military service performed in the Italian Army by men among them of military age, or for other pro-Axis activities during the occupation. Some have already been removed for these reasons. - It is estimated that some 120 pre-war male residents of Patras have been taken to Italy as prisoners of war. A total of 319 persons. Italian citizens resident in Patras, have now applied to be transferred to Italy, and their request is supported, owing to the great difficulties in which they live, by M. Kousi, their local Consul, and by M. Cecchi, who watches the interests of Italians in Greece from the Swiss Legation in Athens. The Greek Government is anxious for their departure.

This Mission takes the view that Italians established in Greece before 1st January 1938 and still having houses here, cannot be considered as displaced persons or as intruders and cannot, in general, be sent to Italy under UNRRA auspices. This view was communicated in a letter to the Minister of Foreign Affairs in the Greek Government, and the recommendation was made in it that if it was desired, for any reason, to deport to Italy any persons with whom UNRRA was not authorized to deal, the Government should make its approaches direct to the Allied Military Authorities in that country.

The immediate problem is to unite with their husbands or other breadwinners the wives, children and other normal house-held dependents of those men who have already been deported through the prisoner-of-war machinery and who, knowing that return to Greece would for a long time be impossible, have been setting up new homes in Italy. These men have already been sending letters calling their dependents forward, and the current lists show 55 wives and children and 77 other dependents, a total of 132 persons, ready for movement. The total is expected to be not more than 250/300 persons.

Authority is hereby requested from you for the transfer to Italy of the families of these men. This Mission, with the Greek Government's support, wishes to sponsor the move although the people concerned are not strictly within the categories with which UNRRA is authorized to deal.

It is suggested that you might be willing to receive these people according to the same procedure as is followed with the Greek wives of other Italian P.O.W.s. In this case the families would be dispatched after receipt of a satisfactory letter from the man in Italy calling them forward and stating his ability to support them; only total numbers and breakdown, together with description of class or category, would then be signalled to you asking for your acceptance. Where letters were not received, nominal rolls and statements of names would first be sent to you with the request that you make inquiries and signal whether acceptance was possible.

2. We shall be glad to have your views on this matter.

SUBJECT: Disposal of Italians in the DODECANESE

TO : GHQ, M.E.F.

1. Reference is made to your letter 01/3454 of 27 October 1944.
2. Consideration has been given to the proposal and the views of the interested parties sought. Whilst it is appreciated that direct repatriation of the parties enumerated in your para 2 is a reasonable solution it is regarded as inadvisable at this stage to introduce into Italy any elements who are politically unstable or who have an unstable security background.
3. It is therefore regretted that the proposal in respect of the persons enumerated in para 2 (a), 2 (c) and 2 (d) cannot be considered for immediate repatriation.
4. Regarding the 400 discharged Carabinieri these could be accepted and could after screening, probably be usefully employed. May the dispatch of these as PWs be expedited.

Nominal Rolls showing

- a) Date and place of birth
- b) Number, date and place of issue of identity documents
- c) Home address in Italy
- d) Date sent to Dodecanese
- e) Previous duty station(s) during the war period
- f) employment in the Dodecanese indicating grade

should be forwarded prior to embarkation.

5. You are invited to reopen the question of the remaining categories at a future date when the difficult situation regarding repatriates and refugees may have eased, say in Jan. 1945. Nominal Rolls as in para 4, above will be required in all cases.

1. It is our policy that Italians are to be given no part in our administration of the DOMINICAN REPUBLIC when we occupy those islands. While the future of the DOMINICAN REPUBLIC is not yet decided, it can safely be assumed that they will not be returned to Italian sovereignty.

2. There will be certain categories of Italians whom it will be most desirable to repatriate to ITALY as soon after the occupation of the islands as possible. An estimate of these is given below, but the accuracy of the figures can only be verified after occupation.

(a) Discharged Civil Servants who would be a focus for political intrigue	-	200
(b) Discharged Carabinieri etc., who have military status and are subject to treatment as PW	-	400
(c) Italians on Security Black Lists not sufficiently dangerous to justify internment	-	450
(d) Wives and families of persons in (a), (b) and (c) above	-	250
		<u>1,300</u>

A certain number of persons of various nationalities who are on the Security Black Lists will have to be interned as being dangerous to security. These are not thought likely to exceed 20, in the first instance and it is intended to intern them in the DOMINICAN REPUBLIC same their removal to another part of the REPUBLIC would involve political complications.

3. In the early stages of the occupation there will be a number of PW in the islands who will be concentrated and imprisoned in a central cage at PUERTO RICO. These PW will be evacuated to the mainland in the DOMINICAN REPUBLIC as shipping is available. It is desired to avoid a further commitment of

2. There will be certain categories of Italians whom it will be most desirable to reintegrate to ITALY as soon after the occupation of the Islands as possible. An estimate of these is given below, but the accuracy of the figures can only be verified after occupation.

(a) Discharged Civil Servants who would be a focus for political intrigue	-	200
(b) Discharged Carabinieri etc., who have military status and are subject to treatment as PW	-	400
(c) Italians on Security Black Lists not sufficiently dangerous to justify internment	-	400
(d) Wives and families of persons in (a), (b) and (c) above	-	250
		<u>1,250</u>

A certain number of persons of various nationalities who are in the Security Black Lists will have to be informed as being dangerous to security. These are not thought likely to exceed 20, in the first instance and it is intended to intern them in the DOMINICAN since their removal to another part of the MIDDLE EAST would involve political complications.

3. In the early stages of the occupation there will be a number of PW in the islands who will be concentrated and imprisoned in a central cage at HENRI. These PW will be evacuated to the mainland in the MIDDLE EAST as shipping is available, but this may take some time. It is desired to avoid a further commitment of keeping the Italians in para 2 above under restraint, and as they will ultimately have to be repatriated to ITALY, it is suggested that they should be moved by direct shipment from HENRI to ITALY as soon after occupation of the islands as possible.

4. Will you please say whether you agree to this proposal for the disposal of Italians in the DOMINICAN?
