Subject Ration Scale.

Further to recent alterations made to ~~the~~ rations with the issue of 200 gr of fresh or frozen meat(with bone)in place of 84 gr of tinned meat,this Ministry orders,with the object of making the soldiers diet as varied as possible,that during the fortnight, instead of just meat,replacement of other foodstuffs will be made and issued and namely:

for 2 days:60 gr of cheese in addition to the 24 gr laid down in the ration scale.

for 3 days:various foodstuffs to be purchased by units with the sum of 30 lire per head in addition to the 15 lire ration allowance.

During the fortnight the soldiers final ration will roughly be:
11 days of fresh or frozen meat or fish or tinned meat;
2 days of cheese
2 days free.

3123

We forward the new ration scale which will be applied w.e.f. 1 June 1946.

Concerning the above,with the object of avoiding wrong interpretation, we point out that,all instructions issued up to date regarding the drawing of rations remaining unchanged,~~the~~ this scale only applies to units,and will be issued,in order to bring it to the knowledge of the troops,through the daily orders notice board.

A seguito della recente modifica apportata alla razione viveri con la distribuzione di gr. 200 di carne fresca o congelata (con osso) in luogo di gr. 84 di carne sciolata, questo Ministero determina, al fine di rendere il più variato possibile il rancio del soldato, che nella quindicina siano distribuiti, anziché soltanto carne, anche altri generi in sostituzione e cioè:

per 2 giornate: 60 gr. di formaggio da tavola in aggiunta ai gr. 24 previsti dalla tabella in vigore;

per 2 giornate: generi vari da acquistarsi dai corpi con la somma di L. 30 pro-capite in aggiunta alle L. 15 di miglioramento rancio.

In definitiva durante la quindicina si avranno, in linea di massima, per il vitto del soldato:

- 11 giornate di carne fresca o congelata oppure pesce o carne sciolata;
- 2 giornate di formaggio;
- 2 giornate libere.

Si trasmette la nuova tabella viveri che dovrà essere applicata a decorrere dal 1° giugno p. v.

Al riguardo, nell'intento di evitare errate interpretazioni, si precisa che, ferme restando tutte le norme sin qui emanate per il prelevamento della razione viveri, la tabella stessa ha vigore soltanto nell'interno dei Reparti, e deve essere diramata, per la sua massima diffusione tra le truppe, mediante affissione nell'albo degli ordini del giorno.

1. The Director of Supplies and Transport does not control the Ration Scale of the Italian Interim Army. Owing to non-availability of P.Meat it has been necessary for the Italian War Ministry to issue M & V, Chili con Carne, etc., as alternatives and these items owing to shortage of supplies are being issued at the same scale as P.Meat. For your information there appears to be some justification for this as the calorific value of 3 ozs P.Meat is understood to approximate to an equal quantity of M & V.

2. It is hoped that in the near future the scheme which the War Ministry has formulated for provision of Fresh and Refrigerated Meat will come into force. This will tend to remedy the vexed question to which you and numerous other ALUs have drawn attention.

1. It appears that the general standard of messing for recruits in the C.A.Rs is considered good. It has been pointed out, however, that in view of the considerable amount of physical exercise undertaken by the recruits it would be an improvement if preference could be given to C.A.Rs in the issue of P.Meat in lieu of Meat & Vegetables, Chili con Carne and similar commodities which as is known do not provide 3 ozs Meat per man per day.

2. This branch therefore suggests that wherever possible this proposal is carried out as it would also be in keeping with the general policy of maintaining the highest possible standards in all matters affecting C.A.Rs.

1. The authorized scale of flour and pasta-making for the Italian Armed Forces has been established as below:

FLOUR (for bread making) 15 oz. or 424 grams
FLOUR (for pasta-making) 3 oz. or 84 grams

It has been the policy of this Headquarters in the past to permit the Ministry of War to authorize individual Territorial Commands to utilize authorized flour in proportions as desired for bread and pasta-making.

2. The Ministry of War has now authorized its units to utilize the flour ration (for bread making) in the proportions indicated below:

424 grams (15 oz.) authorized for bread making
67.4 grams flour producing : 66 grams pasta (yield 98%)
356.6 " " : 455 " bread (yield 128%;
dampness 33%) if ration is
one loaf;
: 445 grams bread (yield 125%;
dampness 32%) if ration is
two loaves.

3. With modifications indicated, para 3 above, the daily pasta and bread rations are modified as follows:

Bread: 455 grams if ration is one loaf or
445 " " two loaves.

Pasta: 150 grams (84 grams normal ration)
(66 " as para 3 above)

4. No formal amendment to the ration scale is made in that there has been no change in the basic quantity of flour authorized.

Subject Changes in Bread and Macaroni Ration.

Further to the opinion expressed by the various Mil. Terr. HQs on the advisability of changing the present bread and macaroni ration, this ministry lays down that the quantity of 424 grms of flour at present sent for bread making be split up as follows:

- 67.4 for the making of 66 grms of macaroni (98% yield)
- 356.6 for the making of:

455 grms of bread (128% yield; humidity 33%) if in rations of a single loaf

455 grms of bread (125% yield; humidity 32%) if in ration of two small loaves.

Regarding the above the daily ration of bread and macaroni will be changed as follows:

- bread: 455 grms. if in ration of a single loaf
- or

455 grms if in ration of two small loaves.

- macaroni 150 grms (84 grms + 66 grms)

File ST/ 1140

These new rations will come into effect from the 1st Feb. 1946 -

Borne in mind at the same time the time needed in order to make the greater quantity of macaroni required, we leave Mil. Terr. HQs the power to adopt, after agreement with the Comm. Directorates under your command, these new rations in such quantity as to be able to form a sufficient stock of macaroni in the various areas.

This ministry will be grateful to be informed of the starting date of the putting into effect of the instruction referred to above.

SUBJECT:- Alteration in bread and pasta rations.

As a result of opinion expressed by several Mil Territorial Commands on the opportunity of modifying the present ration scales of pasta and bread, this Ministry states that the 424 grs of flour actually fixed for bread-making be divided up as follows:

- 67.4 grs for making of 66 grs of pasta (yield 98%)
- 356.6 " " " " : 455 grs of bread (yield 128%; dampness 33%) if the ration is only one loaf;
445 " of bread (yield 125%; dampness 32%) if the ration is two loaves.

Therefore the daily pasta and bread rations are modified as follows:

- bread: 455 grs if the ration is one loaf or
445 " " " " " two loaves.
- pasta: 150 grs (84 + 66 grs)

These new rations will come into force w.e.f. 1 Feb 46. Taking, however, into account the time necessary for making larger quantity of pasta, Territorial Commands are authorised to adopt these new types of ration, after agreed with Commissariat Directorates under command, as sufficient reserves of pasta are held in various areas.

Please let this Ministry know when above instructions will be put into effect.

1. You will shortly be receiving a re-print of the Ration and Fuel Scales Booklet, which will in future be referred to as the "CMT Ration and Fuel Scales Booklet".

2. In this re-print, no attempt has been made to indicate the basis of issue of the various commodities and their alternatives, nor to include those several miscellaneous scales and authorities which have been published from time to time.

3. In all other respects, the Booklet is completely up-to-date, and supersedes all ration and fuel scales of which formal publication has previously been made.

4. In order to assist Supply Officers, it is the intention to notify periodically the ratio in which issues of basic and alternative items will be made. In view of the importance of this time of keeping balanced the theatre stocks of supplies, it is essential that all supply units do in fact issue monthly the correct number of alternatives to each commodity. Appendix 'A' shows the basis on which theatre provision is at present framed, and on which issues will be made until further notice.

5. A list of the more general temporary amendments to Ration Scales, occasioned by fluctuations in theatre holdings due to the failure of local supplies, the non-arrival of scheduled imports, or other causes, is listed at Appendix 'B'.

6. At Appendix 'C' is a list of temporary amendments designed to meet special long-term commitments which, however, do not merit inclusion in formally published scales.

7. At Appendix 'D' is a list of scales not generally required and therefore not included in the "CMT Ration and Fuel Scales Booklet".
