MEMORANDUM

SUBJECT : Macaroni for Italian Forces

TO : MMIA

1. Reference is made to your memorandum, Subject: "Macaroni for Italian Forces", File AFHQ/2554/Q(Maint) dated 22 September 1944.

2. The Commanding General, Communication Zone, NATOUSA, has requisitioned Semolina flour for the manufacture of macaroni to be issued to all Italian military forces in the U.S.-ITI and ITI-ITI classification. The first shipment of Semolina flour has arrived in the theater and distribution is now being made.

3. If there is any further question on this subject, it is requested that you contact the Quartermaster, Communication Zone, NATOUSA directly.

Subject: Macaroni for Italian Forces.

Military Mission
Italian Army,
R O M E
AQ/2/9

14 Sep 44

A.F.H.Q.

1. The Italian Ministry of War are able to make arrangements to manufacture macaroni on the mainland, in sufficient quantities to meet all requirements of the Italian Armed Forces.

2. To enable the Ministry of War to do this, it would be necessary to amend the present Italian Army ration scale, by substituting 3 ozs hard flour for the present 3 ozs macaroni.

3. As this would result in a saving of shipping space, the change is recommended by this HQ.

4. It is suggested that shipments during October for November consumption be adjusted accordingly, so that local manufacture of macaroni could start on 1 Nov 44, and initial issues be made on 15 Nov 44.

5. It is essential that hard semolina flour is shipped as soft grain flour is not suitable for macaroni. This HQ would ensure that the extra flour imported would not be issued to the troops, but transferred direct from the depot to the factory.

6. May this HQ please be informed whether the above proposal is agreed, and that the necessary adjustment in shipments can be made.

1. Latest report from SOS NATOUSA states that Semolina Flour will arrive from the states during October for November consumtion. Therefore, I doubt whether enough flour will be on hand as of October the 1st. to enable the War Ministry to begin the manufacture of Macaroni at that date. I would suggest that the ration scale not be changed from 12 ounces to 15 ounces, but that the item of Macaroni be deleted from the ration scale, and the item of flour for manufacture of Macaroni 3 ounces be added, since this item will not be issued directly to the troops but will be issued to the factory that manufactures the Macaroni.

HEADQUARTERS, SOS NATOUSA, APO 750, U. S. Army. 29 August 1944

TO: Commanding Officer, Peninsular Base Section, APO 782, U. S. Army.

1. Recommendation made in paragraph 3, preceding indorsement, is approved. Recommendation made in paragraph 5, same indorsement, is disapproved.

2. MMIA is arranging for facilities to receive cargo arriving at northern ports. It is not desired that SOS activities enter into physical handling for supplies destined for the Italian Military inasmuch as AAI has been designated by AFHQ as the controlling agency for these supplies.

3. It is anticipated that marking of each container, in accordance with cable WARX-55400 dated 24 June 1944, will be effected beginning with deliveries on late August and September convoys.

By command of Major General LARKIN:

J. V. Sheldon

J. V. SHELDON,

400.3591 EPCOS (5 Aug 44) 1st Ind.
HEADQUARTERS, PENINSULAR BASE SECTION, APO 782, U. S. Army 18 August 1944

TO: Commanding General, Services of Supply, Natousa, APO 750, U. S. Army

1. Under existing procedures PENBASE delivers each month, on an automatic supply basis, the prescribed U.S. components of the Italian Army ration based on the authorized troop strength of the Italian military. These shipments are consigned directly by PENBASE to the Land Forces Sub-Commission of the Allied Control Commission, who in turn pass the supplies directly to Italian Army Depots which operate under the direct control of that Allied agency. All containers of these rations are required to be marked "ITI" for ready identification. ACC personnel are supposed to be available for identifying this cargo on arrival at Penbase ports. Thus far all such cargo has been consigned to DUMO only.

2. Great difficulty and confusion has consistently resulted from these arrangements. Upwards of 90% of the containers are not marked "ITI,"--in spite of several requests from this Headquarters that such be done more carefully. The ration components for the Italian military are nearly always interspingled with ration components for U.S. Forces, not only on the same ships but in the same holds. The similarity of components, the intermingling of shipments, and the difficulties of clear identification at an operational port, at night-time and under other handicapping circumstances, has frequently resulted in parts of these shipments being delivered through error to wrong destinations,--either U.S. or Italian. The basic letter above and the inclosure thereto indicate the accumulation of such misdirected shipments during the past several months. The American rations which have found their way into Italian depots are rather easily identified and are promptly returned. Italian rations which get into American depots are not so easily identified, particularly when they are not adequately marked. The most logical way to correct these accumulated shortages would be to make good, out of American stocks, the difference between what has been actually received and what was actually manifested. This would be predicated on the assumptions that: the manifests were correct; and that no pilferage, damage, or other loss occurred between the port and the depot. It appears to be a U.S. responsibility to provide the proper quantity of rations for the Italian military in any case, and so such adjustment appears proper.

3. Authority is therefor requested to issue out of current U.S. stocks the quantities and types of these components as indicated in the attached table, in the column entitled "Short," and to pick up and return to U.S. stocks, the items and quantities shown in the column entitled "Over." It is not intended to make such adjustment without the approval of your Headquarters. It is further requested that permission be granted at this time to make such similar adjustments as may be verified as necessary in the future.

4. Greater difficulties in this respect can be anticipated in the future, as the center of gravity of Penbase activities moves northward, with a similar movement of the Italian troops assigned to Penbase. The Italian Army and its supervising Allied control agency have not yet established depot

CONFIDENTIAL

Declassified E.O. 12065 Section 3-402/NNDC NO. T 25020

facilities north of the Naples Area. They presumably will not be able to keep abreast with future Penbase movements to the northward. This situation will be particularly aggravated with respect to the Italian Army units on duty with 5th Army. The necessity of "diverting" certain ships, originally consigned to DUNO, to northern ports for discharge will result in these Italian stores reaching various northern ports where there are no Italian Army or MMA facilities for receiving them. It would be illogical to back-ship these stores to Naples, when they would later have to be shipped forward again for consumption by Italian Army units to the northward. The logic or necessity for these Italian ration supplies passing through several intermediary agencies between operational ports and the consumer is not apparent. It is felt that a simplification of these routines is urgently needed.

5. It is, therefor, recommended that Penbase be authorized to receive, into U.S. depots at any and all ports of discharge, all Italian ration items consigned from Penbase. It is further recommended that these supplies be consolidated with other U.S. stocks on arrival, and that no further segregation, either by count or physical storage, be required. It is further recommended that Penbase be permitted to deliver Italian ration components, up to the monthly specified aggregate totals, to the various points desired and designated by the Land Forces Sub-Commission, A.C.C., rendering appropriate monthly account therefor to SOS, for correlating with the various Allied supervisory agencies charged with delivering these U.S. supplies to the Italian Army.

For the Commanding Officer,

DONALD J. LEEHEY
Colonel, G. S. C.
Chief of Staff

ARMY SUB COMMISSION (MMIA)
NAPLES OFFICE

Subject: Shortages and overages ITI shipment-UGS-45. 5 August 1944.

To : Commanding Officer PBS, APO 782 U.S.Army (Attention G 4).

1. Attached hereto as appendix "A" is a list of Allied subsistence items for the Italian Army over and short from Manifest figures.

2. Attached hereto as Appendix "B" is translated copy of a statement from Direzione di Commissariato Militare listing items of American subsistence which were incorrectly delivered into Italian Depots. Arrangements have been completed to back-haul these items to P.B.S. QM ration depot.

3. It is desired that arrangements be made for items listed in Appendix "A" to be adjusted by issue from U.S. stocks to cover "shortages" and for "overage" items to be returned to PBS QM Class I depots. "Shortage" items to be delivered to depot N. 594. Receipts at each end should accomplished on delivery.

4. Inspections of recent shipments indicate only approximately 10% of Italian items are marked ITI.

INSTRUCTIONS FOR PREPARATION OF REQUISITION

Space «TO.»—To show the approving office to which requisition is submitted.

Space «PERIOD.»—Show period for which the supplies are required.

Space «SHIP TO.»—Full shipping address to be given. Where mail address is different from shipping address the former should also be shown, e. g., «Q. M., Fairfield Air Depot, O-born, Ohio. Mail address, Fairfield.» Except for established camps, posts, or stations, street or building address should be shown, e. g. «C. O. 328th Inf., National Guard, 456 Republic Bldg., Grand Haven, Mich.» Where the property is to be invoiced to an organization, etc., different from that to which it is to be shipped, the required information will be shown.

Space «STOCK No.»—Show stock number listed in Federal Stock Catalogue.

Space «ARTICLES.»— Include sizes required. Show purpose numbers applicable to an article or group immediately above the article or group concerned.

Space «ON HAND AND DUE.»—Show the quantity on hand plus the quantity approved on previous requisitions and not yet received.

Space «CONSUMED.»—Show quantity consumed during the previous period.

Space «REQUIRED.»—To be the quantity asked for by the requisitionist.

Space «APPROVED.»—To be the quantity approved by the approving officer.

This form may be used in lieu of Q.M.C. Forms Nos. 402, 409, and 410 by appropriate modification.

IN THE SPACE BELOW SHOW BASIS FOR REQUISITION, i. e., Strength of Command, Number of Animals, Number of Animal-Drawn and Motorized Vehicles, Armament, or such other data is may be required by instructions issued by approving authorities.

HEADQUARTERS
NORTH AFRICAN THEATER OF OPERATIONS
UNITED STATES ARMY
APO 534

AG 430/608 CM-O

4 July 1944

SUBJECT: Subsistence Supplies for the Italian Military

TO : Commander-in-Chief, Allied Armies in Italy

1. Effective with theOctober shipments of subsistence for November consumption for the Italian Military, which is the responsibility of the United States Army, the necessary subsistence will be secured by requisition instead of automatic supply. Therefore, it is requested that Military Mission Italian Army be instructed to submit requisitions four months in advance and made up in compliance with the attached example of requisition and cover sheet.

2. The following remarks are made as a guide in preparing the cover sheet and requisition:

a. Cover Sheet:

(1) Requisition Number - To be supplied by Headquarters SOS NATOUSA.

(2) Troop Strength - This is the Italian Military ration strength for the month in which rations requisitioned are to be consumed, broken down by the strength to be supplied at each shipping designation. If ports other than those in shipping designations used in the attached sample requisition are desired, they may be used.

(3) Required - This is the amount of each items required for consumption during the period from the date of the inventory used in the "On Hand" column to the end of the month for which the rations are being requisitioned, based on the approved ration scale and the average Italian Military troop strength to be subsisted during the period.

(4) On Hand - Includes the stocks in Italian depots as of the inventory date.

(5) Afloat - Ships carrying Italian Military rations which are in port but which have not been unloaded and included in the inventory.

(6) Menu - Menu used in computing requirements should be indicated here.

(7) Period - Desired month of delivery, which should be the month prior to the one during which the rations will be consumed.

4281

SECRET

Declassified E.O. 12065 Section 3-402/NNDC NO. 725020

(8) Delivery - Convoys on which shipments are desired.

(9) Remarks - Any pertinent remarks which would facilitate the editing of the requisition by New York Port of Embarkation.

b. Requisition Form:

(1) Column 1 - Number items consecutively.

(2) Column 2 - Ration components.

(3) Column 3 - Requirements from the date of inventory to the end of the month for which rations are desired for consumption, based on the average troop strength for the period and the approved ration scale.

(4) Column 4 - Inventory of depot stocks.

(5) Column 5 and 6 - To be filled in by New York Port of Embarkation.

(6) All quantities of items should be listed in net pounds except matches in boxes.

(7) A requisition form should be prepared for each destination, and a summary for all the destinations.

For the Theater Commander:

A. B. KING,
Major, AGD.
Asst Adjutant General.

2 Incls
1 - Sample Requisition
2.- Cover Sheet for Req.
