I the undersigned Pvt. CAPPELLI Michele assigned to the 6th Air Service Company, 2nd Bn. Air Service, do state the following:

On 17 July 1945, at about 2030 hrs. we left the HQ's with 2nd Lt. ROMA Aristide, inspecting Officer in the vehicle A.B.C. X HQ 67, 6x6 #2189724, driven by myself, we were going to inspect the Engineer B Dump.

It was about 2100 hrs. when we arrived at the cross road of Via Capuzzi and Corso Sicilia when I was trying to get through. I saw a vehicle coming from the opposite side. It was too dark to specify the distance of the vehicle but I thought I had enough time to cross, the American vehicle was speeding so fast that it could not stop at the cross roads. I was only traveling at about 7 or 8 M.P.H. and could not do anything to avoid the accident.

When the A.B.C. vehicle got hit it went around for a few times (45°), and was thrown about 2 yards from where it first got hit. The American truck went over the sidewalk for about 4 yards and stopped in front of the wall of Via Capuzzi.

Adriatic Base Command, APO 388.

1. On 17 July 1945, at about 2030 hrs. CAPPELLI Michele and 2nd Lt. ROMA Aristide both of the 6th Air Service Company left the HQ's stationed in Corso Mazzini with the vehicle 6x6, No. 2189724, to inspect a few guard posts.

2. They arrived at the cross road of Via Capuzzi and Corso Sicilia, where they were going to inspect the Engineer B Dump. They were hit by an American truck, G.M.C. 6x6 No. 4215785, driven by Pvt. Willie Warner of the 3822nd Q.M. Truck Company.
After the A.B.C. vehicle got hit it turned around a few times (45°), and was thrown about 2 yards from where it first got hit. The American truck was speeding so fast that at the time of the accident it hit the other vehicle and went on for about 4 yards and stopped in front of the wall in Via Capuzzi. At the time of the accident the A.B.C. vehicle was traveling at about 7 or 8 M.P.H. The driver of the American truck did not stop or slow down when he arrived at the cross road to see if any vehicle was trying to pass.

3. The American truck was not damaged. The A.B.C. vehicle was lightly damaged.

4. As above mentioned and the statement made by 2nd Lt. ROMA we think that the driver of the A.B.C. vehicle has no fault of the accident.

5. We do not have any witnesses because they were none who observed the beginning of the accident, but in case we do get a report it will be immediately sent.

1. The attached Certificate of Loss pertaining to vehicle Number 2058609 is returned for further evidence from 2d Lt Nello Cantani and Cpl Gandini Mario, passengers in vehicle driven by Capt Eberle. Definite statements should be secured from these individuals as to whether the 1/4 ton vehicle passed the 5 ton trailer truck and then stopped suddenly in front of truck as stated by Pvt Rivers or are the facts such as contained in Affidavit of Capt Eberle, namely, his vehicle had never been to the rear of the truck driven by Rivers, therefore had not passed the truck and he did not stop suddenly. If Pvt Rivers has any additional evidence to substantiate his statements, such evidence should be submitted.

2. Also the Certificate of Loss on Vehicle Number 20206207 in the amount of $283.24 is returned for change in amount of pecuniary liability. In view of the fact the Ordnance Captain certifies in exhibit E that vehicle was accepted for salvage, pecuniary liability should be determined by deducting salvage value from original cost of vehicle.

In view of the fact that the property involved in the attached Report of Investigation was damaged and not lost or destroyed, the vehicle therefore is not to be dropped from accountability of the responsible officer and the certificate of droppage under the provisions of Circular 45, MTOUSA, 1945, does not apply. This headquarters interprets Supply Directive 46, MTOUSA, 1945, as requiring the certificate when property is to be dropped from accountability.

Whether or not the lost of damaged property is required to be entered in the "Company Property Book" is not the deciding factor. Component parts of the vehicle were damaged and constitute a loss to the US Government. The Certificate of Loss is required, in each case, to establish a claim against the Italian Government.

8. Statement of the Commanding Officer of the 321st Italian Quartermaster Company, 1st Lieutenant Cesare Fortina, is attached as Inclosure #5.

9. The damage done to U.S.A. Vehicle #X-24146 was the result of negligence on the part of the driver, Private Salvatore La Porta. He did not apply the brakes in sufficient time to halt the vehicle and thus prevent it from running into the ditch. The statement of the driver indicates that instead of applying the brakes when he first saw the children on the road he attempted to swing around them rather than to try to stop the vehicle. A vehicle travelling at a speed of ten miles per hour could be stopped almost immediately. The scene of the accident was visited and it is evident that the driver had good vision and could have stopped in ample time to avoid the accident.

10. No U.S. personnel were involved or responsible.

1. In compliance with 1st Ind the following additional information is submitted:

a. The driver of subject vehicle stated that brakes were in good condition at the time of the accident.

b. Driver's statement attached (Incls #2 and #6) contains information that subject vehicle was traveling in third gear.

c. At no time throughout the investigation was a jeep involved.

2. The damage done to the vehicle was the result of the driver's negligence or incompetence. It has been stated that the vehicle was traveling at 10 m.p.h. in third gear and that the brakes were in good condition. It is my contention therefore that the vehicle could have been stopped. It is also apparent that the vehicle would not have been damaged to such an extent if it had been traveling at 10 m.p.h. as stated by the driver.
