SUBJECT: Cartons for packing Biscuits

LAND FORCES SUB COMMISSION
A.C. (M. M. I. A.) R O M E
AQ/2/25-3
27 November 1944

TO: Ministry of War

1. Reference your letter 12757/S/1 dated 24 November 1944.
2. Cardboard cartons shipped you for the use of packing Spaghetti, and Macaroni manufactured by you is not authorized for use as biscuit containers.
3. As the Italian Army uses sacks only for the packing of biscuits, and for making distribution to the troops, and storage at depots; all cardboard cartons received from Allied sources to be used for this purpose will be returned to the Allied depot. You will therefore notify this office of the quantity of cardboard cartons that you have in stock, and the quantity of wax paper, and we will inform you to which Allied depot these items will be returned to.
4. You could easily use the cardboard and wooden containers which are shipped to you from Allied sources containing canned vegetables, etc., as containers to pack biscuits in, for the forward area.

The Semolina Flour can be repaid any place you desire, that is, Naples, Bari, or one of the Islands. The cardboard cartons will not be repaid, since they are of no use to the Italian Government. They do not use them in their manufacture of Macaroni, but use sack containers for the Macaroni and Spaghetti after it is manufactured.

Please give me a report showing the number of cardboard cartons and wax paper which the Italians have in stock, showing the location of same, and I will have it turned back to the U.S. Army Depots and will give the Italian Government credit for same.

SUBJECT:- Cheese for Italian Armed Forces.

Land Forces Sub Comm. A.C.
(M.M.I.A.).
AQ/2/25-1

AFHQ (Q Maint) 2 (Q/M).

7 Nov 44.

1. It has been represented by the Italian Ministry of War that their stocks of grating cheese are almost exhausted.

2. The Ministry has therefore proposed that they be permitted to purchase cheese in Sardinia at a scale of 4 gms per man per day and forego an equivalent amount of the cheese ration supplied from Allied sources.

The requirement of Sardinian cheese is approximately 45 tons a month.

3. Food Sub Commission, Allied Commission have been approached in the matter, copy of their letter attached.

From this it will be seen that the Allied Commission require the approximate 45 tons a month of Allied cheese released vide para 2 to be turned over to the Food Sub Commission for civilian consumption on the mainland.

4. Para 1 (a) of the Allied Commission letter requires clarification in that purchases will NOT, of course, be made by MSEA, but by the Italian Ministry of War, at their own expense.

Similarly, in para 1 (b) arrangements for purchase and transport will be made by the Ministry of War.

5. Grating cheese is an important element in the Italian diet, as is emphasized by the Ministry's agreement to forego an equivalent part of the Allied ration to secure the Sardinian cheese.

The proposal appears a straight forward exchange; will you please say, therefore, if there are any objections to its implementation.

SUBJECT: Release of Sardinian Cheese to MEUA.

TO : M.N.I.A.

1. It is agreed that AGC will endeavour to make available to MEUA up to a maximum of 45 tons of Sardinian cheese monthly on the following conditions.

- (a) Purchases will be effected by MEUA only after AGC has definitely obtained agreement with Sardinia for allocation of definite amounts.
- (b) MEUA will make all arrangements, after sanction has been given, for purchase and transport.
- (c) Replacement of Tinned Cheese will be made to AGC on the mainland of Italy of amounts equal to the amounts of Sardinian cheese allotted and bought.

Behold your L-22578 SSQMC-1989 request reconsideration of decision to recover excess quantities subsistence issued ITALIAN Military. The excess will not result in a greatly accumulated stock pile but will probably last until the end of July. Ration distribution has been made to small echelons and recovery would not be economical in time labor and transportation. Recommend retention of the excess and adjustment on future issues. Local MMIA concurs with above.

AG 430 (IESQM)

7 July 1944

SUBJECT: Status of subsistence Issues to the Italian Military.

TO : Commanding General, SOS, NATOUSA, A.P.O. #750,
U.S. Army.

1. Reference is made to cables L-23352, SSQMC-2089 and LX-29101, SSQMC-2819, your Headquarters, dated 30 May and 28 June 1944, respectively, concerning the reimbursement of subsistence supplies to the United States Army and the Italian Military.

2. The Italian subsistence supplies which were received by the Mediterranean Base Section have been repaid in kind to the Italian Military in this Base Section after previous overissues had been reconciled.

3. The status of existing United States Army and Italian Military subsistence stocks precluded the possibility of cancelling completely previous receipts and issues. Consequently, the United States Army has yet to repay to the Italian Military 405,000 net pounds of flour. Likewise, the Italian Military has yet to repay to the United States Army 87,905 net pounds of sugar and 86,217 net pounds of coffee. All other subsistence items have been repaid in kind.

SUBJECT: Substitution of Rice for Pasta

TO : The President, Combined Italian Armed Forces Supply Board

1. Reference our recent conversation, it is decided that the amount of rice issued shall be increased to two ounces daily and the amount of pasta issued shall be reduced to two ounces daily. This is to reduce the large stock of rice which we have on hand to prevent it from spoiling.
2. This substitution should be put into effect at once.

8 September 1944

SUBJECT: Italian Rations, Reduction of Surplus.

TO : Commanding General, Army Sub Commission, ACC
Main Hq (MMIA), APO 394.

1. The Italian Military in Sardinia has, as an emergency measure, advanced 2,000 metric tons of flour to the A.C.C. Region VI. In view of the fact that the A.C.C. is not presently in a position to repay flour and further in view of the fact that excesses of flour presently exist in Italian Military depots, it is recommended that the above 2,000 tons be transferred to the A.C.C.

2. Based on a static strength of 60,000 officers and men for the Italian Army, Navy, and Air Corps, present stocks of certain items are as follows:

Flour	150 days
Sugar	181 days
Pasta	180 days

3. It is deemed advisable to reduce the stocks of the above items to 100 days level for 60,000 men, especially in view of the fact that the ration strength is expected to drop below 60,000.

4. The excess of these items above 100 days level reduced to pounds is:

Flour	2,250,000 lbs
Sugar	151,875 lbs
Pasta	900,000 lbs

5. The Regional Commissioner, A.C.C., Region VI (Sardinia) has indicated his desire to accept the above items.

6. Request approval of recommendation in paragraph 1 hereof and disposition, if any is to be made, of items listed in paragraph 4.
