RATIONING - ITALIAN AIR FORCE.

The Italian Air Force have pointed out that there is a great difference between the calorific value of Bully Beef and M & V., amounting to practically half. It is therefore requested that when M & V. is issued in lieu of Bully Beef the allocation be 8 oss. of M. & V. in lieu of every 4 oss. of Bully Beef.

SUBJECT : PAGANI MILITAR HOPSITAL (Food Problem)

Complains have been received by thos Ministry from Italian Military patients at the hospitals at Pagani, of insufficient food.

In the above hospital the patients come from hospitals located in combat zones which one provided with class "A" rations, and sine clas "B" rations are assigned to the bed redded at the Pagani hospit the reduction is felt very much especially to the patients who must remedy their mealness caused by sillness or ~~weakness~~ by means of abundant noureshipment.

We would be most gratefpl to the MMIA if it would intener the Higher Al ied Acuthorities to condede class "A" rations to the hospital at Pagani or at least an improvement of the "B" rations, especially as to the amount of bread.

o, per conoscenza:

ALLA SOTTOCOMMISSIONE PER L'ESERCITO DELLA
Commissione Alleata di Controllo
(allegato stesso)

LEGGI

La Sottocommissione per l'Esercito della Commissione Alleata di Controllo, con una lettera in data 25 aprile, (allegata in copia) ha richiamato la mia attenzione sulla necessità di un assoluto e rigoroso controllo sulla organizzazione della distribuzione delle razioni viveri. Sono troppo evidenti le ragioni perché l'indisponibilità che questo servizio fornisce con una serietà per la correttezza con cui gli Alleati provvedono al vettovagliamento.

Intendo che quanto richiesto dalla Sottocommissione per l'Esercito sia prontamente ed esattamente eseguito. Penso che siano dati disposizioni precise, di cui mi sarà data conoscenza, perché nessun rilievo in questo importante servizio possa venir fatto.

Sia bene precisato, nelle disposizioni di dettaglio, a chi risale la responsabilità di ogni singolo servizio, in modo da consentire un continuo controllo da parte delle autorità responsabili e rigorose sanzioni a carico di chiunque non si attenga alle prescrizioni.

LEGGERE

M.M. 4 aprile 1945. La Sottocommissione per l'Esercito della Commissione Alleata di Controllo, con sua lettera in data 25 aprile, (allegata in copia) ha richiamato la mia attenzione sulla necessità di un assoluto e rigoroso controllo sulle organizzazioni della distribuzione delle razioni viventi.

Sono troppo evidenti le ragioni perché l'indipendenza che questo servizio funzioni con una serietà pari alla serietà con cui gli Alleati provvedono al vestiario.

Intanto che quanto richiesto dalla Sottocommissione per l'Esercito sia prontamente ed esattamente eseguito.

Registrazioni che siano date disposizioni precise, di cui si avrà data conoscenza, perché nessun rilievo in questo importantissimo servizio possa venir fatto.

Sia bene precisato, nelle disposizioni di dettaglio, modo da concentrare un continuo controllo da parte delle autorità responsabili e rigorose sanzioni a carico di chiunque non si attenga alle prescrizioni.

SUBJECT: Cigarettes for Italian Armed Forces

TO : 1 - HQ AAI (Adm. Ech.)

1. With reference to our AGC/3136/10 of 15 March, ya 1025/4 3-1 of 13 March and your message 327502 of 11 April, we now communicate the following information from the Italian Minister of Finance.

2. He informs us that during the current month of April the Italian Armed Forces will be furnished with the following quantities of cigarettes by the Italian Tobacco Monopoly.

Army (on the Mainland of Italy) - Kg. 43,600 against a total requirement of Kg. 52,000.

Italian Air Force - Kg. 12,500, which is their total requirement.

Royal Italian Navy - Kg. 16,000 as against a requirement of 26,220.

3. He further states that the Italian troops in Sardinia are supplied from Cagliari and in Sicily from Palermo and Catania.

4. It is anticipated that this monthly production will be at least maintained for the month of May and, owing to the imminent arrival of further supplies of cigarette paper, will probably be increased.

5. With reference to the Army Sub-Commission's Signal A-929 of 10 Apr. addressed to you, repeated to us, we would suggest that the Army Sub-Commission be asked to get the Italian Minister of War to communicate direct with the Italian Minister of Finance with regard to alterations in amounts requested for the Armed Forces. We understand that the requisitions for the Italian Armed Forces are made every month to the Italian Ministry of Finance.

SUBJECT: Combat Rations for Italian Navy on Operational Duty, Sardinia.

TO : Army Subcommittee, Allied Control Commission, Lecce, Italy.

1. Enclosed is correspondence with the Flag Officer, Italian Navy in Sardinia, relative to the furnishing of the "Combat Ration" to those members of the Italian Navy in Sardinia who are afloat on an operational status.

2. In the event similar personnel are receiving the Combat Ration elsewhere in the theatre, it is recommended that those of this category based in Sardinia be furnished the same ration.

3. Attention is invited to the fact that, in the event the Combat Ration is authorized for the subject Navy personnel, the necessary foodstuffs composing the ration will have to be imported into Sardinia since only the Basic Ration is available and is now being imported.

21 March 1944

SUBJECT: Rations for Royal Italian Navy personnel.

TO : Flag Officer, Italian Navy in Sardinia.

1. Enclosed is copy of correspondence received through Naval Officer in Charge, Cagliari, from Comandante, Comando Marina, Cagliari, in which it is indicated that the Royal Italian Navy Ministry, acting upon advice received from the Allied High Command, has prescribed a ration for its personnel on operational duty afloat and ashore which is greater than the ration being imported into Sardinia by the Allied Powers for consumption by Italian Navy, Army, and Air Forces on the Island.

2. This headquarters has no information relative to the above other than that the greater ration referred to is the same as the "combat ration" which is being supplied certain Italian forces on the mainland. There is no advice that the "combat ration" is to be imported into Sardinia and the only ration available is that now being received, known as the "basic ration".

3. If you desire, this headquarters will forward the matter to the Allied High Command in Italy and in that event would appreciate an expression from you as Commander of all of the Italian Navy in Sardinia in order that the overall Sardinia Italian Navy picture may be presented. In this connection, it is requested that your remarks include a statement covering the number of Italian Navy personnel in Sardinia you believe would be entitled to the "combat ration", were it provided, together with their duties.

4. A copy of this letter is being furnished the Comandante, Comando Marina, Cagliari.

For the Commanding General:

SUBJECT:- Purchases of Italian Armed Forces

1. At the meeting of the Food Supply Committee of the Allied Force Local Resources (Italian) Board, held on 10 APRIL 44, the Committee was of the opinion that there appeared to be a lack of proper control over purchases of fresh foodstuffs by the Italian Armed Forces and recommended to the Board that ACC be requested to obtain an estimate of the monthly requirements of these forces and to submit this estimate to this Section 72 hours before the date of the regular monthly allocation meeting of the Food Supply Committee.
2. This recommendation was approved by the Board at the meeting held on the 12 APRIL 44.
3. The next meeting of the Food Supply Committee is on the 9 MAY 44, and it would be appreciated if you could arrange for the requirements of the Italian Armed Forces of restricted foodstuff items to reach this Section by the 6 MAY 44.

RE: A.A.I. C.M.F.

25 Apr 44.

1. Reference is made to letter AFHQ No AG 400-1 (Italy) dated 5 Jan 44.

2. Supplies received from the United States consigned to the Italian Army should be marked "ITI", and detailed on the ship's manifest.

3. An Italian Port Detachment, under supervision of an Allied Officer, is located at each port of entry for the purpose of separating from the cargo all supplies marked "ITI". When such supplies have been separated from the cargo during unloading, the supplies are then loaded on trucks supplied by and manned by Port authorities. The trucks are then dispatched to the Italian Depots by the Port authorities. The Italian Port Detachment places an Italian soldier on the truck as guard until the supplies are delivered to the Italian Depot.

4. Inspection of manifests of ships which have arrived to date indicate that a large quantity of supplies consigned to the Italian Army have not reached Italian Depots. Investigation reveals that this is a result of one or more of the following conditions:

a. A large part of cargoes manifested for the Italian Army are not marked "ITI" and are therefore not delivered to Italian Warehouses by the Port authorities.

b. Due to speed of off loading it is frequently impossible for the Italian Port Detachment to inspect physically each package, case, or sack unloaded to determine if it is marked "ITI". Especially in this case when unloading takes place at night. In this case even those supplies marked "ITI" are not always detected by Italian Port Detachment and therefore are not delivered by Port authorities to the Italian Depots.

c. Italian Port Detachments are not in each case notified that "ITI" supplies are manifested and are therefore not present during unloading to separate the "ITI" marked cargo from the remainder of the cargo. In this case the "ITI" supplies may be delivered by Port authorities to other than Italian depots as the "ITI" mark is overlooked by Port personnel.

d. Quantities actually on the ship frequently do not agree with the manifest, overages or shortages occurring.

3. An Italian Port Detachment, Officer, is located at each port of entry for the purpose of separating from the cargo all supplies marked "IFI". When such supplies have been separated from the cargo during unloading, the supplies are then loaded on trucks supplied by and manned by Port authorities. The trucks are then dispatched to the Italian Depots by the Port authorities. The Italian Port Detachment places an Italian soldier on the truck as guard until the supplies are delivered to the Italian Depot.

  - d. Quantities actually on the ship frequently do not agree with the manifest, overages or shortages occurring.
5. Differences by ship in amounts manifested and amounts actually delivered by Port authorities, are shown in schedule A, attached. The total shortage to date is shown in schedule B, attached.
6. Unless the Italian Army receives the supplies consigned, and therefore charged to it, it will not be possible to meet requirements. 3602
7. Request that action be taken to make up the deficit which has accumulated to date by a supplementary shipment from the United States or by issue from stocks under Allied control.

2.

8. Recommendations regarding future shipments are being made in a separate letter.

9. A report by ADST, MMIA, is attached.

Report on Accumulated Shortages between Despot and Acceptance of  
American Shipped Materials destined for the Italian Armed Forces  
at Ports on Mainland of Italy.

From: ADM, Army Sub Comm, Italia.

To: General Officer Commanding, Army Sub Comm, Italia.

1. INTRODUCTION.

The system of Receipt & Acceptance of American shipped supplies  
destined for the Italian Armed Forces has been operating for a  
period of approximately two months during which some 18 ships have  
been discharged. Since the results have not been entirely  
satisfactory, and have led to considerable discrepancies, the  
following report is submitted.

2. ADM letter N° AG 400-1 (Italy) (NS-AGA dated 9th Jan 44, para 1  
a. ruled as follows:

"Responsibility"

1. The Italian military will accept responsibility for all  
imported supplies made available for its use by the Allied  
forces at designated locations or at shipside, as considered  
advisable by Allied authorities.
2. Acceptance will include positive assurance on the part of  
the Italian military that the supplies received will be issued  
for the purpose intended and that they will not be bartered,  
sold or otherwise disposed of."

3. At a meeting held at ADM, Adv Adm Rep on 8 Feb 44 to discuss  
certain aspects of the maintenance of the Italian Forces it was  
ruled regarding accountability:

"Recent signals referring to accounting for services rendered  
to the Italian Army were discussed. It was decided that it was  
impracticable to make a detailed check of stores received at  
Docks or in Depots.  
Decided to refer to ADM, whether it was not possible to  
debit complete shipments as set up, against the Italian Govt."

4. In order to implement these instructions, an organization was  
set up on the Mainland of Italy.

a. The Main Supply Depot, and the Special Bulk Depots are all  
located conveniently to Ports, as follows:

|                               |                     |
|-------------------------------|---------------------|
| Main Supply Depot at TARANTO. | for NAPLES Sector.  |
| Bulk Depot at NAPLES          | for BARI Sector.    |
| Bulk Depot at BARI            | for LECCE Sector.   |
| Bulk Depot at LECCE           | for BRINDISI Ports. |
| Bulk Depot at CATANIA         | for CATANIA Sector. |

b. At each Port there is - An Italian Port Detachment consisting  
of: 1 Captain, 1 Subaltern, 3 W/Os, and from 12 to 15 ORs.

"Responsibility"

1. The Italian Military will accept responsibility for all imported supplies made available for its use by the Allied Forces at designated locations or at shipside, as considered advisable by Allied authorities.
2. Acceptance will include positive assurance on the part of the Italian military that the supplies received will be issued for the purpose intended and that they will not be bartered, sold or otherwise disposed of."

3. At a Meeting held at ARI, Adv Adm Zeh on 8 Feb 44 to discuss certain aspects of the maintenance of the Italian Forces it was ruled regarding accountability:

"Recent signals referring to accounting for services rendered to the Italian Army were discussed. It was decided that it was impracticable to make a detailed check of stores received at Docks or in Depots.

Decided to refer to AGLIS, whether it was not possible to debit complete shipments as set up, against the Italian Govt."

4. In order to implement these instructions, an organization was set up on the mainland of Italy.

a. The Main Supply Depot, and the Special Bulk Depots are all located conveniently to Ports, as follows:

|                               |                                     |
|-------------------------------|-------------------------------------|
| Main Supply Depot at TARANTO. |                                     |
| Bulk Depot at NAPLES.         | for MARLES Sector.                  |

|                               | Red from TARANTO or BRINDISI Ports. |
| Bulk Depot at CROTONE.        | for CATANZARO Sector.               |

b. At each Port there is - An Italian Port Detachment consisting of: 1 Captain, 1 Subaltern, 3 W/Os, and from 12 to 16 OAs.

- Also an Allied Port Liaison Det consisting of: 1 Captain, 1 Sergeant, 1 Junior Rank.

c. Their duties generally are:

- To liaise with Allied Movements Shipping.
- To obtain advance information of arrival of Italian Supplies.
- To see Supplies destined for Italians are correctly checked off ship.
- To see that all transport carrying Italian Supplies from Port to Warehouse is guarded.
- To obtain copies of Manifest Extracts, and obtain Receipts from Italian Authorities, for onward transmission to H. A. M. I.
- These Detachments have to work by shifts right through the night.

2.

3. In the two months that have elapsed since the introduction of this system, the following variations have taken place:

- a. The greater portion of Italian Supplies have been landed at HAPLES; slightly less at BARI; a very little at TARANTO; only supplies ex British sources at CROTONE; and almost nothing at BRINDISI.
  - b. Supplies destined for the Italians are marked with a stencilled IT, approx one inch high, and very difficult to distinguish, especially at night. Supplies from British sources destined for Indian troops are also marked IT.
  - c. In some ~~cases~~ instances all the cases are marked IT, but more often, there is approx only 10 per cent of Consignment with this marking. The remainder are unmarked. In some ships the manifest is given the code sign IT, but none of the stores are marked.
  - d. On several occasions a greater part of a consignment marked stores destined for the Italians has been discharged before the code IT is noticed. In these instances the stores have to be consigned back from the wrong destination to the Italian Depot.
  - e. The first information of arrival of Italian Supplies can only be obtained from the manifest. Manifests are mostly obtained from the Master of the ship. In some ships no manifest can be obtained. The quantities of stores, as indicated on the manifest, have little relation to the actual quantities shipped; there are both surpluses and deficiencies, which tends to increase discrepancies.
  - f. Ships carrying Italian Supplies may also be loaded with exactly similar supplies destined for American Army, French Army, or for Italian Civilians through ICC. There is, in consequence, confusion. Where only a percentage of the Italian Supplies are marked IT, only such quantities so marked are received at the Italian Depot, with the consequent big discrepancy on the manifest.
6. The system usually operative in the Port is:
- a. The Port authorities, on receiving manifest, usually notify consignees. In this case the Italian Port Det and Liaison Det, that they must be prepared to receive stores ex certain ships.
  - b. The Italian Port Dets await discharge by note on the quay. Stores are stacked according to destination, by Port Labour working under Port authority checkers on the quay.
  - c. Vehicles are loaded according to destination, with frequently very mixed commodities, under the eyes of the Italian Port Dets. The Port Checker makes out a vehicle list in triplicate (Red, Green and White in copies). This list shows vehicles

are marked.

d. On several occasions a greater part of a consignment marked stores destined for the Italians has been discharged before the code IV is noticed. In these instances the stores have to be consigned back from the wrong destination to the Italian Depot.

e. The first information of arrival of Italian Supplies can only be obtained from the manifest. Manifests are mostly obtained from the Master of the Ship. In some ships no manifest can be obtained. The quantities of stores, as indicated on the manifest, have little relation to the actual quantities shipped; there are both surpluses and deficiencies, which tends to increase discrepancies.

f. Ships carrying Italian Supplies may also be loaded with exactly similar supplies destined for American Army, French Army, or for Italian Civilians through CCC. There is, in consequence, confusion, where only a percentage of the Italian Supplies are marked IV; only such quantities so marked are received at the Italian Depot, with the consequent big discrepancy on the manifest.

6. The system usually operative in the Port is:

a. The Port authorities, on receiving manifest, usually notify consignees. In this case the Italian Port Det and Liaison Det. that they must be prepared to receive stores ex certain ships.

b. The Italian Port Dets await discharge by nets on the quay. Stores are stacked according to destination. By Port Labour working under Port Authority checkers on the quay.

c. Vehicles are loaded according to destination, with frequent: 1) very mixed commodities, under the eyes of the Italian Port Dets. The Port Checker makes out a Vehicle list in triplicate (Red, Green and White in Markings). This list shows Vehicle Number, Driver's Name and Unit, Number of Cases, Sacks, etc in vehicle. These lists are given to the Driver, who hands in one copy to Port Gate Police.

d. The Italian Port Det also make out a tally, which is given to the Carabinieri, or Guardia di Finanza escort sent to accompany the Vehicle to the Italian Depot. The escort hands him tally to the Depot Comdr. In the same way, the Driver also hands one copy of his Vehicle list to the Depot Comdr. He obtains a signature from the Depot Comdr on the triplicate copy which he returns back to the Port Authority.

17.....

7. In practice, this system sometimes fails, because:

- a. There is no manifest, or the code it is not noticed till certain quantities of Italian Supplies have already been discharged. Thus, there is no Port Det. to receive on the Quay, and Supplies are despatched to the wrong destination.
- b. The pressure of handling at the Port is so great that the Italian Port Dets are not permitted to search for their Stores, by the Port Authority.
- c. Vehicle Drivers lose their Vehicle lists, and the cross check fails.
- d. The Port Checkers, being amateurs, make mistakes, and any sort of after search through old Vehicle lists is usually quite unproductive.
- e. Warehouses, other than Italian Depots, once they have received their full quota according to manifest, take little interest as to surpluses, and thus though it may be known that certain quantities have been wrongly consigned to other warehouses, there is no proof as to in which of the other warehouses the total Italian deficiency may be found.

8. It is therefore recommended that one of the following be adopted, as soon as possible, to avoid any further losses:

- a. Either the whole of the stocks be shipped to a Port especially set aside for the Italians, i.e. PORTO MERRIMANVILLE, TARANTO on Mainland, CAGLIARI in SARDINIA and PALERMO in SICILY.
- b. That all stores destined for Italians be painted over with large clearly visible splashes of a distinguishing colour in addition to the IRI code which should be at least 6 inches in size.

Allied

- c. That all stores be consigned to one Warehouse, and thence redistributed to the Italian Depots in exact accordance with manifests.

9. A schedule, marked "A", is attached which shows exact discharge of all ships received to date. The results, in a statement marked "B" shows the exact surplus and deficiencies per ports consolidated. It should be pointed out that the shortages are so considerable that it must inevitably prejudice the provisioning of the Italian Forces.

10. It is requested that a special shipment to make good the deficiencies in addition to the normal quotas be put in hand as soon as possible.

e. Warehouses, other than Italian Depots, once they have received their full quota according to Manifest, take little interest as to surpluses, and thus though it may be known that certain quantities have been wrongly consigned to other warehouses, there is no proof as to in which of the other warehouses the total Italian deficiency may be found.

8. It is therefore recommended that one of the following be adopted, as soon as possible, to avoid any further losses:

1. As yet, the policy with regard to write off of issue Foodstuffs in the Italian Army has not been stated. The following factors and suggestions are therefore submitted for consideration.
2. It is necessary to set up a system to implement AFHQ letter AG 400-1 (Italy) GSB-400 dated 9th Jan 1944, para 4.f.(1). It is desirable that steps should be taken to ensure that Write Off procedure is used only for purposes of disposing of foodstuffs really unfit and not as a means of passing stocks to the Italian Black Market.
3. Up to 24th March the Italian Armed Forces were provisioned from British Supply Depots in Italy. These foodstuffs were issued and subsequently found unfit, they were returned to and exchanged by the British Supplying Depot, on a pound for pound, tin for tin basis. The Allied Organisation handled the subsequent write off procedure and disposal. Ref FLABSC 4042/50 dated 25 Feb 44.
4. Since 25th March the Italian Armed Forces have been provisioned from old Italian Stocks, unconsumed stocks issued through British Depots and in addition, Foodstuffs shipped to them direct from America. The procedure in para 3 above cannot now be applied. Ref. PATIMA signal 2377 dated 20 March 44, paragraphed from FRODOXW signal 66854 dated 19 March.
5. The Italian War Ministry has organised "Analysts Commissions" as follows:-
  - 1 Officer Chemist.
  - 1 Officer from Italian Comissariato.
  - 1 Officer Commanding Depot.

These will normally be located at:-

LABRE.  
TARANTO.  
NAPLES.  
MIL.  
COTRONE.  
PALERMO. (Sicily)  
CAGLIARI. (Sardinia)

3613

Unfit for consumption foodstuffs will normally be collected at these places for boarding and destruction.

6. a. The ST or GH Supervising I.O. from this Headquarters attached to each Sector will be made President of this Analyst Commission, and will have power to write off, and certify that he has witnessed the destruction of foodstuffs unfit

taken to ensure that Write Off procedure is used only for purposes of disposing of foodstuffs really unfit and not as a means of passing stocks to the Italian Black Market.

3. Up to 24th March the Italian Armed Forces were provisioned from British Supply Depots in Italy. Where foodstuffs were issued and subsequently found unfit, they were returned to and exchanged by the British Supplying Depot, on a pound for pound, tin for tin basis. The Allied Organisation handled the subsequent write off procedure and disposal. Ref FIDMEO 4012/SM dated 25 Feb 44.

4. SUBJECT: Allied Supplies to Italian troops

File-A2/2

H.Q. Armed Forces Campania have informed this S.M.R.E. that the British and American Chiefs of Staff have decided to supply Italian troops of the 1st Mobile Div. and Pack Tp. Units only with food, clothing, fuel and medicines.

All other material, not included under said headings, should be supplied by Italian Army Administration.

5th Army H.Q. have nevertheless assured H.Q. Campania Armed Forces that they will endeavour to obtain authority to continue to supply Italian troops, as a loan, with such materials of which Italian depots hold no stock at present.

This S.M.R.E. feels confident that indents for materials sent in by these units stationed in operational zone, will - as has always been the case - meet with the full understanding of M.M.I.A.

1. Information has been received that the scale of the Italian tobacco ration is 5 grams per day. This is equivalent to:-

35 cigarettes per week, or  
1 1/2 oz tobacco per week.

2. It will be left to the discretion of Army Commanders if they wish to increase this ration to the Allied Military Scale.

3. The additional issue above the Italian Armed Forces Scale will be made from Allied sources.

4. Allied Control Commissions are being pressed to increase the ration to Italian Armed Forces to equal that of Allied Forces, in order that supplementary issues from Allied sources may be discontinued.

**Abstract**—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and heart rate reserve (HRR) of sedentary middle-aged men. The subjects were divided into two groups: a control group and an exercise group. The exercise group performed a 12-week training program consisting of three sessions per week, each lasting 30 minutes. The control group did not exercise. The HR and HRR were measured at rest and during maximal exercise at the beginning and end of the 12-week period. The results showed that the exercise group had a significant decrease in HR and HRR at rest and during maximal exercise compared to the control group. The control group had no significant change in HR and HRR. The results suggest that a 12-week training program can improve the cardiovascular fitness of sedentary middle-aged men.

FROM: WAR MINISTRY - COMMISSARIAT

TO : H. M. I. A.

REF : 2073/S

DATE: 26 MAR 44

SUBJECT: Supplies for Nuns at the Military Hospitals

Nearly 100 nuns are working as nurses in the various military hospitals on the Mainland and the Islands.

In consideration of the moral assistance given by the nuns to the patients, they have always been granted the benefit of the soldier's ration.

With the present system of supply based on the strength of each particular unit, we had to stop the supplies.

We think a matter of justice that the supply be carried out, considering that the nuns are giving their assistance without any remuneration and are then unable to purchase foodstuff from the market at their own expenses.

Could you please approach the Allied Authorities concerned so they examine the possibility to continue supplying the foodstuff ration to the nuns.

/sgd/ GEORGE PELAGRA
