TO : Commanding Officer
V106 LACAD, Italian Land Forces Branch

ATTENTION: Colonel Pike

Mantova

1. Inclosed is a list of clothing which is available in indicated quantities for transfer to the Mantova Division of the Italian Army. These quantities may be implemented by stocks presently undergoing classification and by stocks which will be turned in upon phase-out of this theater.

2. Since a transfer to the Mantova Division must be effected through ARAR, it is imperative that representatives of the Italian Army take action through proper governmental channels to insure that, after clothing is released to ARAR officials in Leghorn, it will subsequently be transferred to the Division by that agency.

3. Upon receipt of confirmation that items are desired and that action has been taken by the Italian Army to insure eventual transfer to Army stocks, this headquarters will immediately release the clothing to ARAR through regular disposal procedures.

Informed Col MELCHY of visit of Major BRINER to 4 CED BASE DEPOT, U.S.A.A., and requested that confirmation be given by War Min of agreements made there i.e. acceptance of all available spares (tools & arty) and acceptance of special tools and G.P. tools available.

This was confirmed without hesitation.

Informed Col MELCHY further that a technician would have to be nominated by War Min ready to proceed to 4 CED BASE DEPOT for selection of certain items of machinery e.g. compressors latins etc. This was agreed to and Col MELCHY will forward the name of the technician soonest.

1. Pending a policy decision, we are doing everything possible, in conjunction with the Italian Defence Ministry, to ensure proper care and maintenance of the material already held on trust in Italian Depots, and to provide an efficient maintenance repair and overhaul service for all equipment ultimately transferred to them. The need for this is emphasized in paras 4 and 8 of the ACHWAR signal quoted above.

2. In this connection Lt Col McLean (ADME of this Branch) recently visited Leghorn and, after seeing the U.S. Depots, spoke with Col Blabney and Col Harding - Newman. He discussed the possibility of transferring from U.S. surpluses:

- (a) selected tank spares and special tools.
- (b) technical equipment surplus on disbandment of 86 Command H.A.S. Company.

3. It is confirmed that these contributions are urgently needed within the entitlement of the Italian Army and it is strongly recommended (strengthened by Washington's emphasis on proper maintenance) that all possible steps be taken to transfer as much of this as possible, and as quickly as possible direct to the Italian Army. Your decision and instructions on this request are invited.

4. Release of US Equipment to Italian Army - 15.4.47 0239

Handed in and discussed letter Q.023/LP dated 15 Apr 47 with Col MELONI on subject of release of US equipment to Italian Army. Col MELONI was pleased with this release but appeared perturbed about having still further different calibres and different tanks. He in-formed me that the Cabinet (Gen Supino) had been informed about this by Gen Liuzzi and would also receive a copy of the letter. Nomination of rps will be gone into.

Also discussed this letter with Gen ROSSI who was pleased with release but disappointed at having to cope with further different types of tanks. He hoped sufficient spares would also be released.

2. All tanks and SP guns transferred will be held by the Italian Army on the same conditions as those already received from the British Army, and now held at S. FELICZ.

3. You are requested to nominate representatives (if convenient from 7 and 5 Territorial Commands) at LIVORNO and UDINE to negotiate the method of transfer and storage in these areas with the USA authorities through the medium of US officers selected by this mission. The US officers selected are:-

UDINE. Lt Col W.J. BOCCARDI (attached 5 DHI)

LIVORNO. Capt W.E. JUDKINS Jr (MC MIA)

These officers will check quantities transferred and be responsible that Shipping Tickets are correctly prepared and signed.

4. It is suggested that where possible arrangements should be made to accept, and guard this material at or near its present location rather than to move it to its final destination until formal and complete transfer has been effected.

5. The financial basis of this transfer is not yet definite, but is understood to be similar to that for material already transferred.

6. Please let me have your very early agreement to this proposal.
