We hereby report on the posts held by and military activities carried out by Professor Aldo CASTELLANI.

1. Our records show that he was not Director General of Medical Supplies in Italy and that said post did not exist in the Italian Armed Forces.

He was chief medical adviser to the Supreme Command during the Italian East African campaign and in the ensuing conflict, he was ~~in~~ ^{continued} in the same post for North Africa and the Balkans.

He is permanent lecturer on clinical development of tropical and sub-tropical diseases at the Rome University.

2. No info is held which would enable us to judge the work carried out by Professor CASTELLANI in favor of sick Allied POWs.

We will send another report if we receive any important info from the Ministry for the Navy, which was approached in regard to this matter as the professor in question is a senior reserve officer in the Italian Navy.

Rations :- The necessary rations will have to be issued (on orders of the MIA) by the unit on which the Mission will depend during its stay upon the island. For the period during which the Mission is concentrated at Bari, the necessary rations must be supplied by the Military Territorial Command of that area.

Funds and Administration :- A fund will be issued to the Mission, in local currency, to an amount corresponding to the value of Lire 1,000,000., for which arrangements are being made with the Treasury.

D) PROCEDURE RELATIVE TO THE INVESTIGATIONS? GATHERING OF EVIDENCE AND SIGNATURE OF REPORTS

In all districts, will be posted, under the supervision of the Mission, a manifesto in Greek, asking all those capable of giving information about the slaughter of Italian soldiers, to present themselves to the M.C. at Argostoli.

The members of the Mission will interrogate - at the places at which it has been verified that slaughters have occurred - any of the Greek population who might have been witnesses, and who come forward voluntarily to give information.

The reports will be drawn up as statements of individual persons.

Footnote to above scale :-

- (1) Required for the reconnaissance of cisterns, from 15 to 20 metres deep, in which have been thrown numerous corpses.
- (2) On the island of Cephalonia, neither wood nor nails are to be found.

C) H.Q. OF THE MISSION - ARGOSTOLI

Billeting :- The Mission will be dependent on the Military Territorial Command of Bari, which will function as the "assembly and dispersal point" in Italy. On the island, however, the Mission will depend on a local British Command, which will be detailed, either by MIA or "Land Forces, Greece".

Rations :- The necessary rations will have to be issued (on orders of the MIA) by the unit on which the Mission will depend during its stay upon the island. For the period during which the Mission is concentrated at Bari, the necessary rations must be supplied by the Military Territorial Command of that area.

Funds and Administration :- A fund will be issued to the Mission, in local currency, to an amount corresponding to the value of Lire 1,000,000, for which arrangements are being made with the Treasury.

Future necessities which may arise, will come under review and be resolved according to the degree of urgency.

The Mission will establish its own administration for which it will render account to the Military Territorial Command of Bari.

D) PROCEDURE RELATIVE TO THE INVESTIGATIONS; OBTAINING OF EVIDENCE AND SIGNATURE OF REPORTS

In all districts, will be posted, under the supervision of the Mission, a manifesto in Greek, asking all those capable of giving information about the slaughter of Italian soldiers, to present themselves to the H.Q. at Argostoli.

The members of the Mission will interrogate - at the places at which it has been verified that slaughter have occurred - any of the Greek population who might have been witnesses, and who come forward voluntarily to give information.

The reports will be drawn up as statements of individual persons. The witness will narrate how much he knows or how much he has seen, and then will sign a text written by a clerk, under the dictation of a member of the Mission. Every report must be signed by at least two members of the Mission.

E) APPROXIMATE NUMBER OF CASES OF SLAUGHTER WHICH MUST BE INVESTIGATED AND VERIFIED AND LOCALITIES AT WHICH THE INVESTIGATIONS MUST BE CONDUCTED :-

About a hundred cases at the following localities :-
Troianata, Frangata, Capo Manto, Lakitra, Psocta, San Gerasimo, Sant'Dufemia, San Teodoro, Gardakata, Zares, Daygata, Gureklati, Zoma dei Pillaro, Divarata, Miglinata, Paracata, Procopata, Linuri, Ludata, Passo Columi, Zoma del Drapano.

- 3 -

F) DEVELOPMENT OF THE INVESTIGATIONS :-

In subsequent order, area by area.

G) DURATION OF THE INVESTIGATIONS AND A FIRST STEP TOWARDS ESTABLISHING A COUNTRY AND CRYPT.

Cannot be stated at present, as it depends upon too many elements unknown until the Mission will have reached the island and have initiated its programme of work. As indicative data, and always subject to change, a period of from 60 to 90 days could be hazarded.

H) APPENDICES FOR THE FOLLOWING UP OF THE RESULTS OF THE INVESTIGATIONS

On a basis of information received, and from the proposed documentation by the Mission, the whole question will be referred to the suitable unit for further development of the matter.

THE P.O.W. CAMP -
OSPITALE .. BONDENO

It has been possible, after conversation with a number of Italian Civilians, to obtain a certain measure of information about the above P.O.W. Camp. It appears that a camp for O.R.'s was established in the Elementary School at OSPITALE about six months ago. About three months later, a house in the vicinity known as Villa Fornasari, became a camp for Allied Officers. It does not appear that the prisoners remained long in these camps and the evidence of the civilians as well as names of prisoners and of their units which have been found written on walls establishes the fact that British, Indian, Canadian, New Zealand, Greek, U.S.A., and Italian prisoners passed through these camps.

All the civilians who have been questioned testify that the treatment of the prisoners was extremely good. An interesting fact which has come to light is the presence of two 'coloured' soldiers, said to be Indians, with the German Military personnel who supervised the camp. They were alleged to have been originally Indian soldiers captured by the enemy who later accepted service in the German Army and assumed German Military uniform. Their chief employment seems to have been the interrogating of Indian personnel captured by the enemy. To the civilians they were known as Pietro and Rami. The enclosed photograph is one of these two Indian interrogators.

The last day when prisoners were seen in the Camp was Saturday 21st April. That evening the remaining prisoners were marched away on foot. The Camp Commandant is said to have been an Austrian Major.

NAMES OF PERSONNEL

The civilians recall the presence in the Officers Camp of a British Captain a New Zealand Lieutenant, an Italian Lieutenant, and Indian Lieutenant and an Indian 2nd Lieut. A British Lieutenant whose name was given as Lieutenant CAMPBELL 2 L.I.R. 180858 passed through the camp about a week or so ago.

The names of the following O.Rs have been found on walls and gates and have often been only deciphered with the greatest difficulty:

The undermentioned, Grenadier DENTI FIORE, has made the following statement:-

On March 16th, at approximately 14.30 hrs, as soon as point 92 was occupied, Grenadier GUADAGNINI GIUSEPPE, and myself, saw a body of an Italian infantryman hanging from the main door of point 92 house.
