28 August 1945

Acting as attorney of General Renzo Dalmazzo, former Commander of the 9th Italian Army in Albania, who now is facing trial before the Military Court in Rome, I have been informed of the following :

a. that since the evening of the 9th of September 1943, General Dalmazzo contacted the English officer who were with the Albanian partisans and, particularly, Major Seymour of the Arabian Corps, at that time depending from the British Command of Cairo.

b. that the above said Major Seymour, on request of the Command of the 9th Army, contacted by radio the British Command at Cairo and informed it of a plan of resistance communicated to him by General Dalmazzo. (Such a plan included the retreat of the Italian troops towards the north-west in order to allow an Allied landing.) Major Seymour also requested the help of some units of the English and American fleet close to the shore of Durazzo and Scutari.

c. that Major Seymour, in a meeting held in Tirana with an officer of General Dalmazzo, when the Command of the 9th Army was already in captivity of the Germans, reported that the Command of Cairo had approved the plan, but no unit of the fleet could approach the Albanian coast.

For the purpose of having true evidences during the trial, I beg this Command to kindly communicate, if it is possible, whether the above said circumstance are conforming to the facts really happened or not, or which Command I should apply to in order to have the desired informations.

I would appreciate it very much, if you will let me know the address of Major Seymour, who, now, perhaps, is a colonel.

Awaiting a kind reply, I thank you and pray you to accept my kindest regards.

Statement by Major G.V. Serrone (P/58091)
The Rome Radio Facilities

I have read the statement made by Major FERRUCCIO as to my stated relationships with General DALL'ACQUA, and I have to comment on his remarks as follows, taking his letter paragraph by paragraph.

(a) I contacted General Dall'Acqua's H.Q. and in due time contacted me. I entered Tirane through an Italian officer and gave my credentials to the Italian Chief of Intelligence with whom I had a conversation. General Dall'Acqua referred to me as such.

(b) I formulated various plans in conjunction with the Italian G.P. Army Intelligence Staff only and these plans were communicated by radio to my H.Q. in Cairo. At the same time I informed the Italian Chief and that they should be prepared to act, and indeed must act, by themselves in conjunction with the Albanians.

(c) At the time of the meeting in Tirane, 1945, Staff was most definitely set, and I repeat not, in captivity. There was a good German troops in Tirane but they were for information only, the Italians. In addition there were the German Liaison Officer and a number

I have read the statement made by Mr.

FERRUCCIO as to my alleged relationships with General
DELMARZO, and I have to comment on his remarks
as follows, taking his letter paragraph by paragraph.
(a) I contacted General Delmarzo's H.Q. and in due
time contacted us. I entered Tirane dressed as an Italian
officer and gave my credentials to the Italian Chief
of Intelligence with whom I had a conversation.
General Delmarzo refused to meet me.

(b) I communicated various plans in conjunction with
the Italian G.I. Army Intelligence Staff only and these
plans were communicated by radio to my H.Q. in
Cairo. At the same time I informed the American Staff
there was with little delay of Allied reports as they came
and also they started to prepare to set a new indirect
route set, by themselves in conjunction with the Allies.

(c) At the time of the meeting in Tirane ^{English}
Staff was most definitely late, and I repeat late, in
captivity. There was a few German troops in Tirane but
they were far outnumbered by the Italians. In Italian
H.Q. there was one German Liaison Officer and a German
staff.

Throughout my discussions with the Italians I was
extremely sceptical of General Delmarzo's bona fides. To
make so that I finally sent him a most
peremptory demand amounting to an ultimatum,
to prove to me his good faith by carrying out my
instructions. He failed to do this and handed me

2.

to the Germans and work on the south by the Germans. The
Belgians to which place in have advanced (displaced) but
finally.

It was very expensive, and in 1942 I suggested was 10.00 of
that General Dullesso was 1/2 with no attempt to
carry out the plans of the Germans and finally
deserted his troops by permitting himself to be taken
prisoner either through pro-German tendencies or the old
conscience and fear of the Albanians and the discomfort
attendant on a life of guerrilla warfare in the
mountains. I further stated that I considered
General Dullesso to be a lost element, a beast
still good for the storm masses and also because of
the activities carried out by his troops against
the Albanian civil population.

A spite of repeated attempts to go on and despite
of his military arrangements for a hunting including
the measures for his securing, I never succeeded in
meeting General Dullesso. I was continuously in
touch with his intelligence staff from 10th Jan 1944.
At the time stated he was, until about the 22nd Jan.

to me, my opinion, and was, I understood very well, that
 General Dalmazzo wanted to be an attempt to
 carry out the terms of the Armistice and finally
 assisted his troops by permitting himself to be taken
 prisoner either through his German connections or through
 cordiality and fear of the Albanians and the discomforts
 attendant on the life of German in captivity in the
 mountains. I further stated that I considered
 General Dalmazzo to be a poor commander, a weak
 man for the above reasons and also because
 the Albanians looked on his troops as an
 Albanian civil population.

A note of interest consists to do so and in spite
 of my having arrangements for a hunting incident
 all weapons for his security, I have increased in
 hunting General Dalmazzo. I was continually in
 touch with his intelligence staff from 10th Sept 1944,
 but the 9th was shot by him, until about the 22nd Sept.
 When the Germans advanced from control of Albania.

DERNA PW Camp

1. Would it be possible to arrange a search of Italian War Ministry Records in an effort to identify a Captain of the BERSAGLIERI who was Commandant of DERNA PW Camp in Sep 42? He wore last war medals.
2. Most of my investigations into the many incidents which occurred in PW Camps in NORTH AFRICA are at a standstill because I can obtain no information whatever concerning Italians who were members of the Camp Staffs.
3. Many Allied PW were murdered in these Camps, and many others were disgracefully treated. You will appreciate, therefore, that I am anxious to make every effort to bring those responsible to justice.
4. It is alleged by the Italians that all files relating to NORTH AFRICA were destroyed, but I feel there must be some record of officers who were appointed to Command or as Doctors etc., in Prison Camps there. If I could trace one or two of these officers, it might be possible to obtain sufficient information to make some progress.
5. I shall be very grateful indeed if you will cause energetic enquiries to be made, in an effort to solve this problem.

Ref: 6517/100/83

SUBJECT: Persons Wanted by the Allied Authorities

TO : AFHQ (Attn: G-5 Section).

1. There has been lately a considerable increase in the number of requests for information in respect of Italian Army officers and men, believed to be connected with War Crimes against the Allies. It is understood that these requests originate with the International War Crimes Investigation Authorities, from whom they are passed via AFHQ to Land Forces Sub-Commission, Allied Commission (NMTA) for investigation by the Italian War Ministry.

2. In recent lists appear the names of several Italian Generals and senior officers who are well known to have co-operated wholeheartedly and fought with the Allied Armies in Italy since September 1943, who are still engaged with us in reorganizing the Italian Army as required by the Allied Combined Chiefs of Staff, and on whose services reliance is being placed for future co-operation and success.

3. It is realized that in many cases requests for tracing these officers are based on very scanty information and that they may be required more for purpose of evidence than actual indictment; nevertheless, such demands, particularly when made in their present form, are likely to have a disturbing effect on the morale, confidence and co-operation of the Italian Army.

4. It should also be remembered that at the same time there is going on the Italian defascistization and epuration campaign involving investigations into the former activities of most Italian officers.

5. Although this matter has not been discussed with the Ministry of War, it is clear that they are a little disturbed at these requests and it is only natural to suppose that, not knowing for what purpose the information on an individual is required, they may in some cases not pursue their investigations as energetically as they should.

6. Whilst it is obvious that enquiries must be made in respect of those reasonably suspected of crimes and justice done to those guilty, it is felt there should be some means of differentiating between these and those against whom there are no charges but who are wanted for evidence.

Subj 1010

- 2 -

7. without willing Italian co-operation in this matter we can achieve but little and full co-operation is not assured by the present procedure. It is recommended, therefore, that a full policy statement should be issued by AFHQ which can be passed to the Ministries concerned; and that when requests for tracing individuals are made, these should be accompanied by some remarks or reasons or background for the request, perhaps mentioning the nation or nations concerned who have made the request. It is felt that by so doing we shall be more likely to achieve our object and to avoid unnecessary unsettlement in Italian minds.

SUBJECT:- War Crimes - Shooting of PW - Pte. Patrick
GROGAN and Cpl. Charles BOWMAN.

Reference my signals JAG/VW/16021/3 of 24 Nov 45 and 1 Dec 45 and
your signal A 473 of 28 Nov 45.

1. You may remember that certified true copies of the Italian Documents concerning the deaths of GROGAN and BOWMAN were collected later from your office by Major SAINTY. These copies are marked "p.c.c. Il Capo Sezione - T.Col. ?" and stamped "Office of the High Commissioner for Prisoners of War". The translations made from these documents are signed "O. Donin Cpl" and he was presumably the translator.

2. The original Italian documents in these cases are now urgently required as evidence. It seems clear from the copy letter written by the Italian High Commissioner for PW reference 34023 of 2 May (translation attached), enclosed with your letter INT/121 of 7 May to AFHQ, that these original documents are still in Italian possession. Certainly they were not included in the documents handed over by Allied Screening Commission to GHQ in October this year.

3. I should be grateful if you would make further enquiries since the original letters are most important. At the same time would you be good enough to make certain that there are no other files of a similar nature, not yet handed over by the Italians.

Ministry of War, Coordination Office, - Rome.

Subject: Italian personnel in POW camps.

Reference letter Int./121, dated 19 April 1945.

1. Herewith 6 nominal rolls, with indication of rank, category, class and appointment of officers and ORs acting interpreters, on duty at the following prisoner of war camps:

- a.) No. 5 - Cavi (Alessandria)
- No. 41 - Montalto (Piacenza)
- No. 49 - Pontanellato (Parma)
- No. 51 - Altamura (Bari)
- No. 98 - S. Giuseppe Jato (Palermo)
- No. 115 - Morgnano (Perugia)

Indications concerning other camps to follow.

In order to know the actual position of these personnel, coming chiefly from released categories, the command at General Directorates of the War Office have been contacted and will inform you directly about the requested details.

b.) As far as personnel on duty in POW camps in Libya are concerned these are under admin of North Africa Headquarters (Intendency) and this office is not able to supply the requested information.

c.) POWs captured and held in Greece were under admin of Superior Headquarters Greece, which had under their administration the Averoff prison, the Larissa Camp and the Italian Court Martial.

2. Whilst checking saved records it has been possible to find documents concerning the POWs Grogan Patrick and Opl. Bowman Charles, ref. para b & h of the above letter, copy of which is attached.

Further investigations are carried out by us, but it should be pointed out that some files concerning disciplinary questions, together with index cards, are under examination at the Allied Screening Commission, 32 Piazza Augusto Imperatore, Rome.

1. There has been lately a considerable increase in the number of requests for information in respect of Italian Army officers and men, believed to be connected with War Crimes against the Allies. It is understood that these requests originate with the International War Crimes Investigation Authorities, from whom they are passed via A.F.H.Q. to Land Forces Sub-Committee A.C. (M.A.I.A.) for investigation by the Italian War Ministry.
2. In recent lists appear the names of several Italian Generals and senior officers who are well known to have co-operated wholeheartedly and fought with the Allied forces in Italy since September 1943, who are still engaged with us in reorganising the Italian Army as required by the Allied Combined Chiefs of Staff, and on whose services reliance is being placed for future co-operation and success.
3. It is realised that in many cases requests for tracing these officers are based on very scanty information and that they may be required more for purpose of evidence than actual indictment; nevertheless, such demands, particularly when made in their present form, are likely to have a disturbing effect on the morale, confidence and co-operation of the Italian Army.
4. It should also be remembered that at the same time there is going on the Italian desertification and expatriation campaign involving investigations into the former activities of most Italian officers.
5. Although this matter has not been discussed with the Ministry of War, it is clear that they are a little disturbed at these requests and it is only natural to suppose that, not knowing for what purpose the information on an individual is required, they may in some cases not surmise their investigations as energetically as they should.
6. Whilst it is obvious that enquiries must be made in respect of those reasonably suspected of crimes and justice done to those guilty, it is felt there should be some means of differentiating between these and those against whom there are no charges but who are wanted for evidence.
7. Without willing Italian co-operation in this matter we can achieve but little and full co-operation is not assured by the present procedure. It is recommended, therefore, that a full policy statement should be issued by A.F.H.Q. which can be passed to the Ministries concerned; and that when requests for tracing individuals are made, these should be accompanied by some reasons or background for the request, perhaps mentioning

Shooting of PW at PG 66 CAPUA -
Pte JACOBS, Native Military Corps, UDF

1. During April or May 1943, the above-named soldier was a PW at PG 66 CAPUA. He was shot and killed by an Italian guard while engaged on carrying Red Cross parcels to the camp. From a statement made by No 168465 Opl WILLIAMS, Frank, 'B' Coy, 2nd Military Police, South African Forces, it is evident that the action constitutes a War Crime.
2. The only description of the Italian guard responsible is that he was a member of the regular staff and had a deep scar on the left side of his forehead.
3. As much information as possible is required from the Camp records, which will show who was the guard responsible, what enquiries were made by the Camp and Military Authorities, and what steps were taken, if any, regarding punishment. If possible, it should also give the number and full name of JACOBS.

To : G.H.Q. for G-I (Br)

Reference is made to your I64I4/3/A-3 of 26 Nov.
and connected correspondence (not to A.C.).

1. There has been lately a considerable increase in the number of requests for information in respect of Italian Army officers and men believed to be connected with War Crimes against the Allies. It is understood that these requests originate with the International War Crimes Investigation Authorities from whom they are passed via AFHQ to this Mission for investigation by the Italian War Ministry.

2. In recent lists, ^{appear} the names of several Italian Generals and senior officers who are well known to have cooperated and fought with the Allied Armies in Italy since September, 1943, who are still engaged with us in reorganising the Italian Army, ^{as} required by the Allied Combined Chiefs of Staff, and on whose services reliance is being placed for future cooperation.

3. It is realised that in many cases requests for tracing these officers are based on very scanty information and that they may be required more for purpose of evidence than actual indictment; nevertheless, such demands, particularly when made in their present form, are likely to have a disturbing effect on the morale, confidence and cooperation of the Italian Army.

4. It should also be remembered that at the same time there is going on the Italian defascistisation and epuration campaign involving investigations into the former activities of most Italian officers.

5. Although I have not discussed this matter with the Ministry of War it is easy to see that they may be a little disturbed at these requests and only natural to suppose that, not knowing for what purpose an individual is required, they might in some instances not pursue their investigations as energetically as they should.

1543

6. Whilst it is obvious that enquiries must be made in respect of those reasonably suspected of crimes and justice done to those guilty, it is felt there should be some means of differentiating between these and those against whom there are no charges but who are wanted for evidence.

7. Without willing Italian cooperation in this we can achieve but little. Full cooperation is not assured by the present way of handling these questions. It is recommended therefore that a full policy statement should be issued by AFHQ which can be passed to the War Ministry and that when requests for tracing individuals are made, they should be accompanied by some remarks on the reason or background of the request, and perhaps mentioning the nation or nations concerned. It is felt that by so doing we shall be more likely to achieve our object and to avoid unnecessary unsettlement in the Italian Army.

8. Finally, it is considered that as the question is one not directly affecting the administration of the Interim Italian Army, it should properly be dealt with by the Land Forces Sub-Commission, AC through HQ, Allied Commission, rather than direct with M.M.I.A.

Riferimento lettera 6 c.m. n. A/125.-

Il Comando Deposito del 22° Rgt. Ftr. in Pisa, centro di mobilitazione del campo prigionieri di guerra n.60 - Colle di Compi - richiesto di trasmettere l'elenco nominativo del personale militare addetto al predetto campo, ha comunicato che presso quel Comando non esiste alcun documento dal quale si possano rilevare i nominativi richiesti.

Da notizie, non controllate, si é appreso soltanto che il Comandante del Campo (Col. Cione Vincenzo) ed il suo Aiutante maggiore, furono passati per le armi dai tedeschi, in occasione degli eventi del settembre 1943, per essersi rifiutati di consegnare i prigionieri di guerra internati nel Campo.-

Riferimento alla lettera INT/121 del 5 c.m.-

Questo Ministero, per ora, non può che confermare le notizie già date in merito al personale militare segnalato con l'elenco accluso alla lettera in riferimento (cfr. lettera di questo Gabinetto n.217099/II del 9 agosto u.s. trasmessa al WMD and IPOW Sub - Comm.). Notizie che ad ogni buon fine qui si ripetono :

- " - i segnalati Izzo, tenente nel battaglione SS. "della morte" e Baldassari, sergente del battaglione italiano "della morte", si identificano rispettivamente per : Izzo Mario fu Antonio e di Zana Carmela nato a Calvi Risorta (Napoli) il 13.6.1909 e Baldassari Omero di Giuseppe e di Crespi Emilia nato a Rassina il 9.11.1922. Ambedue, però, giusta comunicazione dei municipi competenti, sono morti rispettivamente : l'Izzo il 1 maggio 1945 nel comune di Sograte (Milano) ed il Baldassari il 9 novembre 1944 nella linea del fronte di Forlì;
- si soggiunge che il tenente Grassi, che avrebbe fatto parte ad Arezzo nell'agosto 1943, dello Stato Maggiore ed il Baio non sono nativi di questo capoluogo (Arezzo) e non sono qui conosciuti."

Per quanto riguarda il sergente Baldassari, fonte diversa da quella che ha dato la notizia precedente rettifica e conferma : "il sergente Baldassari si identifica in Baldassare Omero fu Giuseppe e di Crespi Emilia, nato a Castel Focognano il 4.9.1922, già residente a Grassina. Il predetto ri=

sulta deceduto nei pressi di Forlì il 9 novembre 1944 in seguito a ferita da arma da fuoco."

Pertanto, dei 4 militari segnalati nel citato elenco, 2 risultano morti (Izzo e Baldassare) e 2 ancora non identificati e per i quali sono in corso le ricerche (Grassi e Baio).

Per il rimanente personale (civili: Bartolini, Francalanci, Giabbani) è stato interessato il Comando Generale dei CC.RR., la direzione generale di pubblica sicurezza e l'ufficio informazioni di questo Ministero.
