1. An examination of the above report has revealed an error in the figure for Corned Beef, which should read as follows :

Corned Beef: Tins	1863 x 12-ozs	= 14102	lbs
	4 x 4 -lbs	= 16	"
	312 x 6 -lbs	= 1872	"

and NOT, as stated, 14990 lbs.

2. Commissariato TARANTO have requested authority to amend these figures accordingly. It is realised that these figures were agreed at the time of the Commission, but quite naturally, Officer i/c Bulk Depot requires some authority to account for the discrepancy of 1000 lbs, obviously due to an error in addition.

VERBALE CONSTATANTE LO STATO DI CONSERVAZIONE DI DERRATE ANGLO-AMERICANE DEL MAGAZZINO MILITARE VIVERI DI VIBO VALENTIA.

L'anno millenovecentoquarantaquattro, addì 13 del mese di luglio, nei locali del magazzino viveri di Catanzaro siti in Catanzaro Sala,

S I A N O T O

Che la sottoscritta commissione, in seguito a disposizione della Direzione Commissariato Militare di Catanzaro-ordine n.113 del giorno 13 luglio 1944-, si é riunita nei locali suddetti per procedere alla constatazione dello stato di conservazione di derrate anglo-americane inviate a Catanzaro dal magazzino viveri di Vibo Valentia perché presentanti segni di indubbia avaria;
Che la sottoscritta commissione, presi in attente esame detti generi, ha constatato trattarsi delle seguenti derrate:
-Biscotti - scatole varie per complessivi Kg. 149.00 in 18 latte
-~~Fagioli~~ scatolati n.12 scatole per complessivi " 5.443;
Che dall'esame ~~rimasto~~ é risultato che i biscotti si presentavano ammuffiti, acidi, con aggromeramenti, di colore alterato con zone grigiastre, e pertanto non commestibili né per gli uomini né per i quadrupedi;
Che le scatole di legumi si presentavano in parte forate, in parte rigonfie per sviluppo interno di gas in seguito ad alterazione del contenuto;
Che pertanto la commissione all'unanimità si pronunciava per la distruzione immediata dei generi avariati, distruzione che veniva effettuata a mezzo del fuoco e con successivo interramento dei residuati della combustione;
Che a parere della commissione l'avaria non é imputabile al magazzino di Vibo Valentia, ma alla vecchia data di produzione dei biscotti e a cause accidentali dovute ai numerosi trasporti subiti dalle derrate.
Dopo di che, per farconstare quanto sopra e per tutti gli effetti che ne conseguono, si é redatto il presente verbale, fatto letto chiuso e sottoscritto alla data di cui sopra.

VERBALE costatante l'ava a di derrate agglo-americ e presso il magazzino viveri di Catanzaro.-

719

L'anno millenovecentoquarantaquattro addì 13 del mese di luglio, presso i locali del Magazzino Viveri di Catanzaro sitò in Catanzaro Sala

S I A N O T O

CHE la sottoscritta commissione, in seguito a disposizione della Direzione di Commissariato Militare di Catanzaro - ordine n° 113 del giorno 13 luglio 1944 - , si è riunita presso i locali suddetti per procedere alla costatazione dello stato di conservazione di varie derrate anglo-americane riscontrate con indizi di avaria dal Magazzino Viveri di Catanzaro o restituite da reparti perchè riscontrate avariate al momento della apertura per il passaggio al consumo;

CHE la commissione, preso in attento esame le derrate, ha constatato trattarsi dei seguenti generi:

Biscotti n° 17 scatole varie per complessivi	Kg.	210,815
Carne scatolata n° 7 scatole varie per complessivi	"	11,680
Scatole salmone n° 364 da 1 libbra per complessivi	"	165,110
Fagioli scatolati N° 3 scatola da 1 libbra per compl/vi	"	1,360
Salsiccia scatolata n° 1 scatola da 24 once per compl/vi	"	0,680
Sarde salate n° 2 barattoli grandi e n° 2 barattoli piccoli, del peso lordo complessivo di Kg. 597,000		
Tara " 97,500		
Peso netto	Kg.	499,50

CHE dall'esame è risultato trattarsi di generi assolutamente non commestibili, sia per gli uomini che per i quadrupedi, presentandosi i biscotti con colore alterato, in forme di agglomerati e di poltiglia, con odore nauseabondo; mentre i generi scatolati e le sarde salate si presentano con le caratteristiche di colore e di odore delle sostanze rispettivamente in avanzata e in incipiente putrefazione;

CHE, pertanto, la commissione all'unanimità si pronunciava per l'immediata distruzione, a mezzo del fuoco, dei generi avariati, e per il successivo interramento dei residuati della combustione; al che si procedeva in presenza del sottotenente commissario Silvio Viglienghi membro della commissione;

CHE, a parere della commissione, le avarie di cui sopra non sono imputabili al magazzino di Catanzaro, trattandosi di generi di vecchia produzione (biscotti - sarde salate - salmone) o di avarie dovute a cause accidentali connesse con la fabbricazione o i molteplici trasporti subiti (perforamento o arrugginimento degli involucri, sviluppo interno di gas).

DOPO DI CHE, per far constare quanto sopra e per tutti gli effetti che ne conseguono, si è redatto il presente verbale, fatto, letto, chiuso e sottoscritto alla data di cui sopra.

VERBALE AVARIA GENERI DI PROVENIENZA ALLEATA=

L'anno millenovecentoquarantaquattro addì 14 luglio in Cosenza

S I A N O T O

che la sottoscritta Commissione, nominata dal Comando del Presidio Militare di Cosenza con fono N.492 in data 10/7/44 e N.507 del 13/7/44, si è oggi riunita nel Magazzino Presidiario Viveri di Cosenza per esaminare le state di conservazione delle seguenti derrate di provenienza alleata:

- Kg.2,491 di carne - una scatola da libbre 5 e once 8;
- " 101,019 di salmone - N.223 scatole da 1 libbra;
- " 95,400 di biscotte sciolte;
- " 7,644 di minestrone in neve barattoli da 30 once ciascuno;
- " 15 di sarde salate sciolte;

che dopo accurate esame e sentito il parere dell'Ufficiale Medico facente parte della Commissione, si dichiara all'unanimità che tutte le derrate, ad eccezione dei biscotti, sono in state di avanzata avaria e pertanto non sono adatte al consumo alimentare;
che il biscotto, invece, avendo superato di molto il periodo di conservabilità, presenta tracce di rancidità ed è dannose per l'alimentazione umana ma è utilizzabile per l'alimentazione dei quadrupedi, giusta parere espresso dall'Ufficiale Veterinario pure facente parte della Commissione;
che lo state attuale delle altre derrate dev'essere pure attribuite al già superato periodo di conservabilità, non solo ma anche alle sbattimento al quale sono state sottoposte nelle varie operazioni di carico e di scarico durante il trasporto dal luogo di produzione fino all'attuale destinazione;
che in conseguenza di quanto sopra la Commissione è unanime nel ritenere che l'avaria sia da attribuire sole a cause di forza maggiore e quindi indipendenti dalla volontà e dall'attività del Consegnatario per cui si propone che al Magazzino suddetto sia date scarico delle seguenti derrate, al cui immediate interramente viene date luogo alla presenza della sottoscritta Commissione:

MAGAZZINO PRESIDIARIO VIVERI DI COSENZA (d'ord. di reg.strez. N.67)

VERBALE CONSTATANTE L'AVARIA DI GENERI IN CARICO AL SUDETTO MAGAZZINO.=

L'anno millenovecentoquarantaquattro addì 29 luglio in Cosenza

S I A M O T O

che la sottoscritta Commissione, nominata dal Comando Presidio Militare di Cosenza con fono N.923 del 30 corrente si è oggi riunita nei locali del Magazzino Viveri Presidiario di Cosenza per prendere in esame lo stato di conservazione delle seguenti derrate di provenienza alleata:

- SALMONE - scatole da 1 libbra N.410 pari a Kg.185,730 netto
- CARNE - " " libbre 5 e once 8 N.9 pari a Kg. 22,423 netto 19.5 / 6.0 / 2.0 } 87.½
- CARNE - barattoli da 6 libbre N.6 pari a Kg.16,306 netto
- CARNE - scatole 1 da libbre 2 pari a Kg. 0,906 netto
- CHILI CON CARNE - scatole 2 da libbre 6 pari a Kg.5,436 netto
- CARNE CON VEGETALI (Minestrone) - scatole N.1 da libbre 6 e 12 once pari a Kg.3,057 netto
- CARNE CON VEGETALI (Minestrone) - scatole da 1 libbra e 14 once N.35 pari a Kg.12,740 netto } 34.14
- PATE ESSICATE - scatole 1 da libbre 17½ pari a Kg.7,927 netto
- BISCOTTO - scatole 5 da libbre 27 pari a Kg.61,155 netto

che dopo accurato esame e sentito il parere dell'Ufficiale Medico facente parte della Commissione, si dichiara all'unanimità:

1°) = che il salmone, la carne, i chili con carne, la carne con vegetali e le patate essicate sono incommestibili perchè in istato disgraziata avanzata putrefazione o invasi da muffa o da parassiti;
si ritiene il deterioramento di detto scatolame dipendente da circostanze diverse quali la scadenza del periodo di conservabilità (1942); la rottura, deformazione, dissaldamento dei recipienti di latta dovute a trasporto o fermentazione interna;
si stabilisce l'immediato interramento di dette derrate in presenza della Commissione sottoscritta; il che viene effettuato in località deserta nel greto del fiume Crati a circa Km.5 a valle dell'abitato di Cosenza;

2°) = che il biscotto, presentando caratteri organolettici sgraditi all'olfatto ed al gusto, probabilmente dovuti all'irrancidimento del burro o margarina in esso contenuta, irrancidimento imputabile all'avvenuta scadenza del periodo di conservabilità (1942), non è commestibile per i militari ma è alibile ai quadrupedi, giusta parere del Veterinario facente parte della Commissione;
che la Commissione è del parere che l'avaria non sia da attribuire ad incuria del Consegnatario per le ragioni di forza maggiore su esposte indipendenti dalla volontà e dall'attività di esso, anche perchè dette derrate risultano pervenute a questo Magazzino non anteriormente al 15 corrente e subito poste in distribuzione nel corso della quale si ebbe a constatare la necessità di sottoporle all'esame di apposita Commissione;
che pertanto si propone che al Magazzino suddetto sia data scarico delle derrate riconosciute avariate ed interrate nella seguente quantità:

- Categ.IV° N.6 rosso - Carne scatolata Kg.45,073
- " IV° " 24 " - Carne con vegetali (minestrone) Kg.15,797

VERBALE DI AVARIA DI DERRATE DEL MAGAZZINO MILITARE VIVERI DI CATANZARO

—==oOOOo==—

L'anno millenovecentoquarantaquattro addì 21 del mese di agosto, nei locali del Magazzino Viveri di Catanzaro siti a Catanzaro Sala

S I A N O T O

-che la sottoscritta commissione, per disposizione della Direzione di Commissariato Militare della Calabria - ordine del giorno n° 150 del 19 agosto 1944 - si è riunita nei locali suddetti alle ore 8 per procedere all'accertamento delle condizioni di abilità di derrate varie, segnalate come avariate dal magazzino viveri di Catanzaro;
-che la commissione, prese in attento esame le derrate, ha constatato trattarsi di derrate di provenienza anglo-americana, nelle specie e nei quantitativi seguenti:

	libbre	chilogrammi
-biscotti - latte di vario formato.....	131. Biscuits	59,570
-carne scatolata = n.94 barattoli da 6 lbs., più n.2 barattoli da 12 once.....	565. Meat, ma	256,177
Chili con carne = n.4 barattoli da 6 lbs., più n.4 barattoli da 6 lbs.1/2....	56 Chili con Carne	25,368
-carne tritata = n.1 barattolo da lbs.6.3/4	6.3/4 Corn Beef Hash	3,058
-carne con vegetali = n.36 barattoli da once 30..	67.1/2 Mut	30,577
-salsiccia scatolata = n.11 barattoli da lbs.1.1/2	16.1/2 Sausage	7,474
-salmone scatolato = n.947 barattoli da lbs.1....	947 Salmon	428,991
-legumi scatolati = n.36 barattoli da lbs.1.....	36 Vegtbl	16,308
-conserve pomodoro = n.3 barattoli da lbs.6.....	18 Tom Catsup	8,154

Dette lattine e barattoli si presentavano in parte forati per rugine ed azione meccanica, presumibilmente in seguito ai numerosi trasporti e spostamenti, in parte coi fondelli rigonfi per sviluppo interno di gas.

In particolare i numerosi barattoli di salmone presentavano segni evidenti di presenza interna di gas; procedutosi all'apertura di alcuni barattoli, ne fuoriusciva il gas e il contenuto si presentava alterato.

I biscotti erano alterati nel colore e nell'odore, si presentavan raggrumati, con presenza di muffa e di vermi.

I barattoli di conserva avevano il contenuto essiccato e alterato, ~~essendosi~~ presentando i barattoli una lieve dissaldatura.

-Che pertanto la commissione, all'unanimità, dichiarava le derrate viziate non commestibili né per gli uomini né per i quadrupedi, e ne disponeva l'immediata distruzione, che avveniva alla presenza della commissione col fuoco e col successivo interramento dei residui;
-Che, a parere della commissione, le avarie di cui sopra erano da imputarsi alla vecchia data di produzione, agli agenti climaterici ed atmosferici ai quali le derrate erano state sottoposte nei diversi spostamenti, a cause comunque non imputabili al consegnatario, per cui lo scarico relativo era da considerarsi quale scarico normale.

Dopo di che, per fa constare quanto sopra e per tutti gli effetti che ne conseguono, si è redatto il presente verbale, fatto, letto, chiuso e sottoscritto alla data di cui sopra.

SUBJECT:- Foodstuff Damage Reports.

We enclose, for examination and decision, the enclosed foodsuff damage reports in three originals -Nos 731, 732, 60 and 67, of 13, 13, 14, and 23 July 44 respectively, pointing out that the Directorate of Military Commissariat of Catanzaro to whom were returned similar reports regarding the same foodstuffs as they were not edited in conformity with the arranged plan, in recompiling them in conformity with the orders in force, has made it know that, it not having been possible to have the new repots signed by Capt Newton, has enclosed with them those formely in Italian bearing the signature of the said officer.

We likewise forward, for examination and decision, 4 foodstuff damage reports compiled on the 5, 21, 21, and 23 August 44, respectively, by a commission composed of Italian members, ther being no liaison officers in the Catanzaro area during that period.

The said reports were in fact compiled during the time which elapsed between the moving of the MMIA detachment from Catanzaro and the assignment to that area of the Taranto L.O.

We take this opportunity of stating that the above mentioned Directorate of Commissariat has notified that the reporting and destruction of the damaged foodstuffs resulted in the necessity of the clearing out from the stores the malodorant, decomposing materials which in the height of summer, would have caused serious inconvenience from a hygienic point of view.

Si trasmettono, per l'esame e le decisioni, gli acclusi verbali di avaria derrate in tre originali - n. 731, 732, 60 e 67 rispettovamente in data I3, I3, I4 e 23 luglio I944 significando che la Direzione di Commissariato Militare di Catanzaro, alla quale furono a suo tempo restituiti analoghi verbali riguardanti le medesime derrate perché non redatti in conformità del prescritto schema, nel ritrasmetterli ricompilati in conformità delle disposizioni in vigore, ha reso noto che, non essendo stato possibile far sottoscrivere i nuovi verbali dal Cap. Newton, ha allegato ad essi, quelli a suo tempo redatti in lingua italiana, recanti la firma del detto ufficiale.

Si trasmettono altresì, per l'esame e le decisioni, n. 4 verbali di avaria derrate compilati rispettivamente in data 5, 21, 21 e 23 agosto I944 da una commissione composta di membri italiani, dato che in tale periodo non esisteva nella circoscrizione di Catanzaro alcun ufficiale di collegamento.

Detti verbali risultano infatti compilati nel tempo intercorso fra lo spostamento del distaccamento di Catanzaro della M.M.I.A. e l'assegnazione a tale circoscrizione dello stesso ufficiale di collegamento di Taranto.

SUBJECT:+ Condemned Food-stuffs.

Foodstuffs shown in para c, d and f of report no. 200 dated 1st Jan, although it has been admitted that they were condemned owing to stock date, bad cannings or travel damages, have not been credited to the Italian Government because it has not been possible to define their conditions at the time when they had been handed over to the Italian Government.

1) Bearing in mind that probably the delay in reporting that a/m foodstuffs were condemned, is due to the fact that the first receiving depot had not the possibility of controlling the condition of the foodstuffs because damages appeared only on opening the cases or boxes.

2) Bearing in mind, moreover, that the Commission (one of whose members was the local LO) have agreed that a/m motives are the one and only causes of the damages.

This Ministry, having enough reasons to maintain that these causes are prior to the handing over of a/m foodstuffs to the Italian Government begs MMIA kindly to examine the possibility of crediting same foodstuffs to the Italian Government.

The War Ministry asks moreover credit for items as at para.from (a) to (1) of reports no. 208 and 199, dated 23 Dec 44 and 1 Jan 45.

At the same time we would like to be informed if credit for items as at para (5) of report no. 192 dated 30 Dec 44 has been granted or not.

Le derrate di cui alle lettere c, d, ed f del verbale n.200 in data 1° gennaio c.a., sebbene siano state riconosciute avariate in dipendenza dell'età dello stok o della cattiva inscatolazione oppure dei possibili danni in transito, non sono state accreditate al governo italiano in quanto non è stato possibile stabilire le condizioni in cui si trovavano al momento della loro consegna al governo italiano.

Considerato che la ritardata segnalazione dell'avaria deve, con tutta facilità, essere stata determinata dal fatto che il primo magazzino ricevente non ebbe la possibilità di accertarsi subito dello stato delle dette partite di viveri essendo l'avaria risultata soltanto all'atto dell'apertura dei colli o delle scatole;

LAND FORCES SUB COMMISSION
A.C. (M. M. I. A.) R O M E
AQ/2/17-60
16 January 1945

TO : Ministry of War

1. We have your letter of 15 January 1945, Ref. No. 781/S/2, concerning food found unfit for human consumption, but fit for animal consumption.

2. Your letter has been considered by this office, and our orders from higher authorities have been reviewed concerning credit given Italian Government for such supplies. Therefore, we regret to inform you that under existing regulation, that we will be unable to give you credit for any food that is found unfit for human consumption, but fit for animal consumption.

3. Therefore, our instructions which have already been issued covering the matter will govern.

Supplies Branch. Ref No. 781/S/2

TO: MMIA DATE: 13 Jan. 45

SUBJECT: Goods thought fit for animal consumption.

The damaged goods thought fit for animal consumptionare not, as is known, ever credited to the Italian Government.

For this reason, perhaps, the commissions charged with the examination of these foodstuffs do not think it necessary to pronounce about the time when the damage took place and to be precise whether the damage was caused or not before the goods were handed over to the charge of Italian Depots.

Now it seems to this Ministry that for the eventual counter-value credit to the Italian Government, it is necessary to find this out, even in the hypothetical case mentioned above.

As there is infact reason to believe that the debit price for such goods will be inferior to that established for those fit for human consumption, this Ministry would think it advisable to take notes of those stocks for which the Italian government will have to pay a minor price. If the MMIA is of this same opinion, would she be so kind as to instruct the L.C.'s accordingly.

The following discrepancies were noted on the Analysis Report dated 29 November 1944. Refer to ST/77 dated 2 October 1944.

(1) Paragraph 3 - the word item is used for ditto. You are requested to use English abbreviations and not Italian.

(2) Stocks of British origin are not to be included with U.S. stocks.

(3) Paragraph 7 - asks for the responsibility and/or negligence contributed by Commission. The insertion of the word "nil" means absolutely nothing. The Commission should state if there was responsibility and/or negligence, or state that the items are in such a condition through the fault or neglect of no one concerned.

(4) Paragraph 9 - asks whether Credit to the Italian Government is recommended, and reason why. The insertion of the word "nil" reveals nothing. Since the Commission acts in an advisory capacity to the reviewing authority, it is necessary that a recommendation be made one way or the other. Hedging serves no purpose.

(5) The signature of the Commission should appear on the Analysis Report, as well as on the Destruction Certificate.

TO MMIA 17 Date 15 Sept.

SUBJECT: Report on spoiled and destroyed foodstuffs.

Ref. A3/2/15 dated Aug 29.

From an examination of report No. 70 sent here together with the a/mentioned letter, it appears that the quantity of foodstuffs mentioned in d) and e) have not been as credited to the Italian military adminstration, inasmuch as we are dealing of old Allied stocks, which have been handled very much and which were damaged during transit of the ship "TORE IARL" -

As in previous similar occasions the quantities of foodstuff, which were spoiled for the same reason, have always been accredited to this Administration, please consider the possibility of an eventual accrediting also for said quantity of foodstuffs.

7. Responsibility and/or Negligence attributed by Commission.

There is evidence that both commodities were received in a bad condition: their condition deteriorated unnecessarily because Major ALPARANO did not ask for an Analytical Commission to order how they should be disposed of.
It is considered that Capt. CERVINARA, being unable to separate the barley in accordance with the recommendation of the Commission held on 28 June 44, was also negligent in failing to ask earlier for an Analytical Commission, as set up by MMIA.

8. Disposal action recommended by Commission.

(a) To be issued to local units for beds for horses: Veterinary officer to be present at all issues in order to supervise separation of unsuitable straw, which will be burnt (b) For feeding pigs chickens and sheep.

9. Whether Credit to Italian Government recommended and reason why.

Not recommended in either case: evidence is not conclusive that forage was actually bad on receipt .

ANALYSIS.

Item .. : Straw
Total amount .. : 90 quintals (approx)
Sample taken from the LECCE repositories by the undersigned officers.

Result of analysis .. : Straw was minced, decomposed by several moulds (mildew), pulverised and in some parts completely damaged through excessive humidity in the stores especially along the walls and in corners.
It is considered toxic and unfit for consumption by quadrupeds.
Two thirds could be used for bedding and the rest destroyed.

As to 19867 lbs straw (Italian)

Until 30 June 44 I was commanding Lecce D.D. For approximately 1 year prior to May 44, I was receiving straw into my forage depot from various Italian Depots. Some of the straw was considered to be unfit for consumption by horses, and I had it separated from the good straw. I considered it was so unfit because it was wet and mouldy. I found the floors of the wagons were wet. The wet straw was put in the same magazine as the other, but in a separate section. Sometimes I told BARI Commissariato that it had arrived wet. I do not remeber whether I said it was mouldy as well. I had a verbal order from BARI to issue, whether wet or dry. It was, however, mouldy as well, and I considered I should not issue it to horses. The amounts arriving in such condition were small amounts arriving at different times, and I did not think it worth reporting the matter until such amounts became bigge enough for action to be taken. I was going to ask the Ufficio Commissariato at Lecce to hold a Commission when the amount became big enough. Infact, I never asked for a Commission this was because I was very busy and had a small staff. During the year ending May 44 I dealt with as much as 1000 tons of straw.

As to 55408 lbs Barley (Allied)

I received all of this in one consignment in May 44. It came from an Allied Depot. In my opinion it was all unfit for consumption as forage, because it was worm-eaten and pulverised. I did not take any steps to heve it condemned because I believed that Commissariato BARI knew of its condition and sent it to me with that knowlege (It had been reconsigned by BARI). I did not think of asking for a Commission.

I took over Lecce D.D. on 1 July 44, from Maior ALFARANO. The take-over started in March. I found the Depot in a bad condition. ~~Infix~~ I first noticed that some straw and barley was bad, on 25 June. The good and bad forage were in the same magazine, but separate. I was not willing to take on charge this bad forage. I reported it to the Ufficio Commissariato LECCE, and an Italian Army Commission was held on 28 June.

I produce a copy of the proceedings. In [illegible]ance of the Commission's recommendations, I gave 4 quintals of straw for soldiers' beds, and 34 quintals for horses' beds. As to the remaining straw: I asked the local Riding School if they wanted it for horses' beds. They took some of it, and as it was the only local unit, I held the rest of it at their disposal, in my depot. They have been regularly supplied with this straw, and I hope to get rid it in about 3 months.

I found the Barley impossible to separate.

I first heard of MMIA analytical Commissions on ~~12 Aug~~ 31 July I was not aware that on the 3 July a Commission was held at LECCE Bulk Depot, even though 150 lbs of dehydrated meat from my depot was considered by such Commission. This was because I had refused to take any bad food

(b) BARLEY (All.)	"	-	55408	-	-

4. Cause of Damage.

Rain in transit, storage in damp place for excessive length of time

5. Technical Analysis Findings.

See attached Reports.

6. Condition of Supplies as assessed by Commission.

See Analyst's Report attached.

7. Responsibility and/or Negligence attributed by Commission.

There is evidence that both commodities were received in a bad condition: their condition deteriorated unnecessarily because Major ALFARANO did not ask for an Analytical Commission to order how they should be disposed of.
It is considered that Capt. CERVINARA, being unable to separate the barley in accordance with the recommendation of the Commission held on 28 June 44, was also negligent in failing to ask earlier for an Analytical Commission, as set up by MMIA.

8. Disposal action recommended by Commission.

(a) To be issued to local units for beds for horses: Veterinary officer to be present at all issues in order to supervise separation of unsuitable straw, which will be burnt (b) For feeding pigs chickens and sheep.

9. Whether Credit to Italian Govermant recommended and reason why.

Not recommended in either case: evidence is not conclusive that forage was actually bad on receipt .
