For information:
H.Q.
RTC ICF.

1. In June of this year 43.500 kgs of flour were found to be infested with weevils at 319 Italian Bakery RTC ICF.

2. This flour was sifted by a civilian contractor under the supervision of the O.C. Bakery. 30.1500 kgs were recovered, the balance of 13.350 kgs of siftings being unfit for use were destroyed inthe presence of the O.C. Bakery.

3. This destruction was irregular in so far as a properly constituted board of officers including the MMIA LO and analysist was not convened. The irregularity has been pointed out to H.Q. RTC ICF.

4. It is requested therefore that the attached Analysis Report, although necessarily incomplete, may be approved.

SUBJECT: Report of Damage

This Mission has forwarded to the Dir. of Com. of Bari, the enclosed Analysis Report No 257 Reg. dated 28-3-45 (copy attached) in respect of a consignment of bad flour issued to dependent stores and unloaded from the ships "BACON" and "SALOMON" in the period Sept - Oct 1944.

In view of the fact that para 9 of the same report stated that credit was not granted to the Italian Gov't to cover the said loss, we think it opportune to point ou the following.

As can be seen from the context of the report, the damage must be attributed to the fact, that during the unloading, the Allied Port authorities, although it was raining heavily, employed lorries without covers in order to transport from the port to Italian stores.

This fact, which was quickly reported through the Allied Liaison Office of the a/n Directorate to the Ministry (copy 2), in turn brought a strong protest from the MMIA Branch, Bari who forwarded the Port Commandant the letter included (copy 3).

The unloading completed, the Allied Officer who is concerned with foodstuffs supplied from Allied sources to our F.F.A.A. Capt K. FREELAND, gave instructions for resacking all the good flour putting on one side the encrusted sacks, and the spilt flour.

In the attached analysis report, mention of these orders has been made.

A short time after, the a/n Capt Freeland was transferred to another MMIA branch and he was replaced by Capt. GUTHRIE. The latter notwithstanding the repeated urgent telephone calls made by the Allied Liaison Office of Dir. Comm. and written instructions forwarded periodically by MMIA branch reformed the Analysis Comm. for definate enquiries on 28-3-45. The commission recognized unanmously that the foodstuff was unfit for human consumption and the A/N Capt. GUTHRIE proposed the crediting of the spilt quantity to the Italian Government, as Italian Units or Italian officers could not be blamed for the damage. Because of tais damage report was made out, and at the same time the whole quantity of the foodstuff was destroyed.

Your mission has now however reached the decision of not crediting the Italian Gov't with the value corresponding to the flour concerned.

Since, as said, form the results of the enquiry, no responsibility can be attributed to Italian Units or officers, we beg you to ff kindly re-examine the case and come - if it is agreed, to a decision possibly conforming to the conclusion already reached by the Analysis Comm. crediting to the Italian Gov't the value of the amount of flour spilt.

Subject Report of Damage.

This Mission has forwarded to the Directorate of Commissariato at Bari, the enclosed analysis report no 257 Rg. dated 28/3/45 (copy attached), in respect of a consignment of bread flour issued to defendant stores and unloaded from the ships "BACON" and "SALMON" in the period Sept.-Oct 1944.

In view of the fact that
Under at para. 9 of the same report stated that credit was not granted to the Italian government to cover the said loss, we think it opportune to point out the following.

As can be seen from the context of the report the damage must be attributed to the fact, that during the unloading, the allied port authorities, although it was raining heavily, only layed a number withdrawn covers in order to transport from the port to Italian stores.

This fact, which
was quickly reported through the Allied Liaison Office of the A/C Directorate to this Ministry (copy 2), which in turn brought a ring protest from the A.A.I. Branch, Bari, who forwarded the Port Commandant the letter included (copy 3)

The unloading completed, the allied officer who is concerned with food stuffs withdrawn from allied [redacted] sources to our F.A.A. Capt. K. FRIEDLANDER, gives instructions for unloading

all the good flour "falling on one side the enamelled sacks, over the shailt flour.

In the attached analysis report, mention of these orders has been made,

A short time after, the A/N Capt. Freeland was transferred to another U.N.R.R.A. branch and he was replaced by Capt. GUTHRIE.

The latter, notwithstanding the repeated urgent telephone calls made by the Allied Liaison office of Dir. Comm. and written instructions forwarded immediately by the U.N.R.R.A. branch of Analysis Comm. for definate enquiries on date 28/3/45.

The commission recognised unanimously that the foodstuff was unfit for human consumption and the A/C Capt CUTHRIE proposed the annulating of the fault quantity to the Italian government, Italians unit or Italian officers

as was ~~responsible~~ could not be blamed for the damage. Because of this

the damage report was made out, and at the same time the whole quantity of the foodstuff was destroyed.

However the commission has now reached the decision of not annulating the Italian government with the value corresponding to the flour concerned,

Since, as said, from the results of the enquiry, no responsibility can be attributed to Italian units or officers, we beg you to kindly re examine the case and come to - if it is agreed, a decision possibly conforming to the conclusion already reached by the

Come può rilevarsi dal contesto del rapporto, l'avaria deve attribuirsi al fatto che durante lo scarico le autorità portuali alleate, nonostante la pioggia dirotta, impiegarono, per il trasporto dal porto ai magazzini italiani, autocarri senza copertoni.-

Tale circostanza, di cui l'Ufficio Collegamento Alleati della sopraindicata Direzione diede tempestiva comunicazione a questo Ministero (allg. 2) provocò a suo tempo una energica protesta del Distaccamento M.M.I.A. di Bari, che indirizzava al Comandante del porto la lettera che si acclude in copia (allg.3).-

A scarico ultimato, l'Ufficiale alleato che si occupava dei viveri di provenienza alleata forniti alle nostre FF.AA., capitano R.FREELAND, dava disposizioni per l'insaccamento di tutta la farina buona mettendo da parte i sacchi inzuppati e la farina avariata.-

Nel verso del rapporto di analisi allegato è fatta menzione anche di tale disposizione.-

Poco tempo dopo il suddetto capitano FREELAND passò ad altro Distaccamento M.M.I.A. e venne sostituito dal Capitano GUTHRIE. Quest'ultimo, nonostante le ripetute sollecitazioni telefoniche fatte dall'Ufficio Collegamento Alleati della Dir.Comm. Bari e le segnalazioni scritte trasmesse periodicamente al Distaccamento M.M.I.A., riuniva la commissione di analisi per gli accertamenti definitivi in data 23/5/1945.-

La commissione all'unanimità riconosceva la non [illegible] della derrata ed il predetto capitano GUTHRIE proponeva l'accreditamento del quantitativo avariato al Governo Italiano, dato che la responsabilità dell'avaria non poteva imputarsi ad enti od ufficiali dell'Esercito Italiano.-

In tali sensi,infatti, veniva redatto il rapporto di avaria e, contemporaneamente,distrutto l'intero quantitativo della derrata.-

Tuttavia, cotesta Missione è ora venuta nella determinazione di non accreditare al Governo Italiano il valore corrispondente al= la farina di cui trattasi.-

Poichè, come si è detto, dai risultati dell'inchiesta è emerso che per l'avaria nessuna responsabilità può attribuirsi ad enti od Ufficiali dell'Esercito Italiano, si prega cotesta Missione di com= piacersi riesaminare la pratica ed emettere - ove nulla osti - una decisione possibilmente conforme alla conclusione cui era già pervenu= ta la commissione di analisi, accordando al Governo Italiano l'accre= ditamento del valore della partita di farina avariata.

Subject Unloading of foodstuffs "ITI" from the ships "BACON" and "SALOMON"

Ref. to the 25 of the last month the unloading of the 2 A/N ships processed in this port; they brought, amongst other goods, 173,000 pieces of foodstuffs marked "ITI" for our ZZAA (Q 61.980).
On the 5/10/44 the ship "FRANCIS LEE" arrived with another 52,000 pieces (Q. 8,752)

While in the port constant fine weather has favoured these operations. As a/m unloading ~~is~~ was carried out under almost continuous rain, attenuated by rare forms that makes the work of protecting the goods difficult because they are unloaded on to the wharf irrespective of weather conditions.

Through such reason, notable quantities of sacks and boxes have reached and are reaching our depots completely soaked.

For respect of these boxes that leave the front already in such condition owing to unloading which raining and drawn from stores provided temporally or whatnes in the open, the port superintendent has made known through the rear branch, that he cannot modify the general working conditions.

For those boxes that, leaving the port in good condition arrive at the store through having transhipped in uncovered wagons

as convicts, this has been received thanks to the energetic work
of Maj. MURCELL Chief officer Mov. Th. I.A.
Wagons have now almost always arrived with tarpaulins in order to
protect the load during the rain and while awaiting unloading,
about 5,000 sacks of flour, more than 200 of rice and vegetables and
a considerable number of cartons of macaroni are still reaching the
port, and some damaged from the beginning
Maj. MURCELL Mov. officer Mov. Th. Ed. Capt FREELAND inspecting officer
and Capt GUTHRIE, C.O Allied Port Branch have always been
quickly informed about these things, each one for his concernation.
It has been arranged that when these wet sacks arrive that
the flour is spread out and passed in priority to bread making.
We have requested to local competent Allied units
every so often the reasons that often make the regular working
of such a branch of activity difficult.
Among this is particularly the irregular grant of convicts and
horse drawn carts assigned to transport goods marked "U.T."
from the port to our depots.
While in fact there pass many hours and often whole days of
complete inactivity owing to the lack of transport (that does not
exclude the necessity of keeping the various depots and offices
open and manned, checkers labourers etc.). afterwards comes
suddenly the loading and unloading of some 10 convicts and
wagons sent to the numerous stores where

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

(2)

all the different foodstuffs are stored in their various packages.

The stevedores of the theatre then the work of checking and loading, (involving the responsibility of custody and acceptance by the Port Branch) as well as unloading and engining at depots (that commences at the administrative responsibility of the services) and also all the inconveniences owed to the congestion, whether because the labour staffs is suddenly inadequate and cannot be improvised (one because the private trade is completely absorbed by the allies ~~unless~~ the entrances to stores are limited and very often so busy then better) inadequate as it is nearly always a case of new buildings formally requisitioned by the allies in the last few days. By the help of the U.S. T.A. officers we have been able, after overcoming many difficulties, to clear two sheds occupied by General Stores, in Via Valeriano 185, others are under way but have not been able to store the greater part of foodstuffs from the 2 A/N foodstuffs.

After repeated attempts we have obtained the rent premises held by the 9th Quartermaster Reg. (who are consigning some ten other Americ other more or less unserviceable) ~~in the area of the~~ the A/N sheds.

It is called stone the foodstuffs from the "FRANCIS LEE" in the A/N sheds. But it is natural that if foodstuffs should continue to arrive at the present rate, it has not been so high, and if on the other hand the railway strike is prolonged (for some weeks the railway centage has been suspended) we shall find ourselves unable to cope with the situation

DTO 5151

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

The reason in fact does not allow for ofen and storage, and on the other hand the possibility of requisitioning any other premises is practically excluded.

We have not therefore the necessity of allotting as soon as possible the estimated railway requirements, and we are awaiting any instructions concerning this.

Oggetto: Scarico derrate "IFI" provenienti piroscafi "BACON" e "SALOMON"

AL MINISTERO DELLA GUERRA - D.P.S.S.A. P.M. 151

Dal 28 dello scorso mese procedono in questo porto le operazioni di scarico dei due piroscafi in oggetto che portano, fra le altre merci, n.175.000 colli di derrate "IFI", destinate alle nostre TT.AA. (Q.li 61.900).-

E' inoltre annunciato per il giorno 5 corr. l'arrivo del piroscafo "FRANCIS LEE" con altri 52.000 colli (Q.li 18.752).-

Mentre nel passato periodo il bel tempo costante ha favorito tali operazioni, gli scarichi in oggetto si stanno svolgendo sotto pioggia quasi persistente, alternata con acquazzoni torrenziali che rendono difficile il lavoro di protezione delle merci il di cui carico sulle banchine continua ininterrotto, indipendentemente dalle condizioni atmosferiche.-

Per tale motivo, notevoli quantitativi di sacchi e cartoni sono giunti e stanno giungendo ai nostri Depositi completamente bagnati.-

Per quei colli che partono dal porto già in tali condizioni, sia perché sbarcati sotto l'acqua e perché tolti da stive create provvisoriamente sui moli, all'aperto, il Sovraintendente del Porto ha fatto conoscere, tramite Distaccamento Portuale Alleato, che non poteva far nulla per modificare le condizioni generali del lavoro.-

Per quei colli che, partendo in buone condizioni dal porto, arrivavano bagnati ai Magazzini perché trasportati a mezzo traini o autocarri scoperti, si è potuto invece porvi rimedio grazie anche all'energico interessamento del maggiore MURCELL, Capo Ufficio della M.M.I.A. (alleg. n. I).-

I trasporti partono ora quasi sempre muniti di copertoni che ne proteggono il carico durante il percorso e nell'attesa per lo scarico.-

Circa cinquemila sacchi di farina, più di duecento fra riso e legumi e un numero considerevole di cartoni di pasta sono tuttavia finora giunti bagnati, e taluni di incipiente avaria.-

Della cosa sono stati sempre e tempestivamente informati il Maggiore MURCELL, Capo Ufficio "MMIA", il Capitano FREELAND, Ufficiale di sorveglianza e il Capitano GUTHRIE, Comandante il Distaccamento Portuale Alleato, ciascuno per la parte di sua competenza.-

Si è proceduto, e si sta procedendo, al travaso dei sacchi bagnati e all'abburattamento della farina, che viene passata in precedenza alla panificazione.-

Lo scrivente ha fatto di nuovo presente agli organi locali competenti Alleati ogni qualvolta se ne sono presentate le circostanze, gli altri più notevoli motivi che rendono spesso difficile il regolare andamento di tale branca di attività.-

Lo scrivente ha fatto di nuovo presente agli organi locali competenti Alleati ogni qualvolta se ne sono presentate le circostanze, gli altri più notevoli motivi che rendono spesso difficile il regolare andamento di tale branca di attività.-

Fra questi è particolarmente quello derivante dall'afflusso irregolare degli autocarri e dei carretti a cavallo assegnati per il trasporto delle derrate "ITI" dal porto ai nostri magazzini.-

Mentre infatti qualche volta trascorrono lunghe ore e spesso intere giornate di assoluta inattività per mancanza di mezzi di trasporto (ciò che

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

non esclude la necessità di tenere aperti e costantemente efficienti, di giorno e di notte, i vari Magazzini ed Uffici, gli spuntatori, le scorte e la manovalanza) si presentano poi improvvisamente al carico ed al successivo scarico, varie decine di autocarri e traini, avviati alle numerose banchine ove sono stivate le derrate e le più diverse negli imballaggi i più vari.-

Avviene così che tanto il lavoro di spunta e caricamento al porto (che coinvolge la responsabilità di controllo ed accettazione da parte del Distaccamento Portuale), quanto quello di scarico e accertamento ai magazzini (che da inizio alle responsabilità amministrative dei Consegnatari) subiscono naturalmente tutti gli inconvenienti dovuti al congestionamento, sia perché la manovalanza viene ad un tratto a trovarsi inadeguata nè si può improvvisare (anche perché la migliore disponibilità di essa è completamente assorbita dagli Alleati che la pagano meglio), sia perché le porte di accesso ai magazzini sono limitate e spesso irrazionali, trattandosi quasi sempre di vecchi locali reidiuati dalle requisizioni degli Alleati.-

In questi ultimi giorni per l'appoggio degli Ufficiali della "Sanità" si è potuto, superando non poche difficoltà, far sgomberare due capannoni occupati dai Magazzini Generali, in Via Valenziano 187, di cui al foglio scrivente è parte. Non si sarebbe potuto altrimenti immagazzinare gran parte delle derrate dei due piroscafi in oggetto.-

Si è anche maturata, dopo ripetuti e finora vani tentativi l'occupazione di un vasto locale tenuto dal 2° Reggimento Genieri (che vi conservava alcune decine di vecchi autocarri, più o meno inefficienti ecc.) compreso nel perimetro dei due accennati capannoni.-

Si potrà così sopperire alla necessità d'introdurre delle derrate annunciate col piroscafo "FRANCIS LEE" di cui sopra.-

Ma è naturale che se l'afflusso di altre merci dovesse continuare con l'attuale cadenza, che non è mai stata così elevata, e se d'altra parte si prolungasse la crisi dei trasporti ferroviari (da alcune settimane le spedizioni ferroviarie sono praticamente sospese), ci si verrà a trovare tra breve tempo nell'impossibilità di fronteggiare adeguatamente ma situazione. La stagione infatti consente meno che mai lo stivaggio all'aperto, e d'altra parte è ormai esaurita ogni altra possibilità di requisizione di altri locali idonei allo scopo.-

Si prospetta pertanto la necessità che al più presto siano ripresi i normali previsti movimenti ferroviari e si resta in attesa delle istruzioni in merito.

DECLARATION

I declare that at moment in which I signed the analysis report n.35 para.9 stated that the value of the damage was to be accredited to the Italian government, which is in accordance with para.7
In the same report, now returned to me with the decisions of M.Al.I.A. Rome, para. 9 is completely changed through the cancellation of the previous writing and substituting other words by which is stated the opposite to that signed by me. This modification has therefore been made after I had signed the report and without my knowledge.

Dichiaro che al momento in cui firmai il verbale di analisi n. 35 il paragrafo 5 stabiliva che l'importo del danno doveva essere accreditato al Governo Italiano. Ciò infatti, quale conseguenza di quanto dichiarato nel precedente paragrafo n. 7.-

Nello stesso verbale, ora restituitomi con le decisioni della C.M.A.A. di Roma, il paragrafo 5 risulta totalmente cambiato mediante cancellatura della precedente scritta e sovrapposizione di altre parole con le quali si afferma il contrario di quello che risultava al momento della mia firma. Questa modifica è perciò stata fatta dopo che io avevo firmato il verbale e a mia insaputa.

Subject Damaged Goods.

A considerable quantity of foodstuffs in sacks and boxes from the ships "BACON" and SALOMON have reached Italian Depots completely soaked.

The uncovered hatches were open while raining awaiting watchmen, although the watchmen are in possession of the shores, they do not use them, and have refused to make use of them although they have been requested by various depots.

This negligence not only brings about serious loss to host country them to be only half-loaded, while a complete load is necessary.

It has been ~~discovered~~ observed to-day that over 800 sacks of wet flour reached Italian depots in the night from 30 Sept. to 1st Oct.

Will you ensure that foodstuffs in sacks or boxes are covered before leaving the front.

Oggetto - Derrate avariate.-

Un considerevole numero di derrate in sacchi e cartoni provenienti dal piroscafo "BACON" e dal piroscafi "SAICHON" sono giunte ai Deposito Italiani completamente bagnate.-

Gli autocarri scoperti usati anche quando piove arrivano senza copertone.- Per quanto, i copertoni siano in possesso degli autisti, questi non se ne servono e hanno rifiutato di farne uso sebbene ne siano stati richiesti dai vari Depositi.-

Questa negligenza provoca non solo gravi perdite ma costringe a tener scarichi degli autocarri mentre è necessaria una completa utilizzazione.

E' stato riferito allo scrivente che oltre 800 sacchi di farina bagnata sono giunti ai depositi italiani nella notte dal 30 settembre al 1° ottobre.-

Vogliate dare assicurazione che le derrate in sacchi o in cartone siano coperte prima di lasciare il porto.-

SUBJECT: Inspection of Canned Food.

MMIA pointed out that the quantities of canned food and especially canned meat in 12 Oz. tins reported to the Analysis Commission for distruction, are continuously increasing.

During an inspection of stocks of canned meat held in a Distribution Depot, the said Commission noted, among other things in opening the more rusty and discoloured tins that, while the upper part of the meat seemed to be slightly discoloured, the contents of the tins was found to be edible after an accurate examination.

Having stated the above, it is believed that units do not carry out a sufficient accurate inspection of the opened tins and, therefore, it is probable that, on seeing the slightly discoloured at the upper part of the tin, the whole of the quantity is set aside to be reported to the Analysis Commissions.

Naturally, in the meantime, the whole of the food set aside becomes bad and the said Commissions cannot but condemn it.

In order to eliminate the above inconvenience which is practically a serious waste of edible food ~~which is practically a serious waste of edible food~~ and which is also harmful to the nation in the present moment, the addressees are requested to instruct all units under their command so that the examination of canned food, which appear to be bad, be carried out by an expert officer who will decide whether or not the food is edible.

La Sottocommissione Alleata per l'Esercito ha rilevato che i quantitativi di generi alimentari in scatola e più specialmente di scatole di carne conservata da 12 once,presentati alle commissioni d'analisi per la loro distruzione,vanno continuamente crescendo.-

Durante un'ispezione alle giacenze di carne conservata esistenti in un Magazzino distribuzione viveri la predetta autorità ha peraltro notato,nell'aprire i peggiori esemplari di scatole arrugginite e scolorite,che mentre la parte superiore della carne appariva leggermente scolorita,da un accurato esame il contenuto sottostante risultava niente affatto alterato e perfettamente alibile.-

Tutto quanto innanzi fa ritenere che i reparti non procedono ad una ispezione sufficientemente accurata delle scatole aperte: è probabile cioè che,osservato l'aspetto leggermente scolorito della parte superiore della derrata,tutto il quantitativo viene scartato e accantonato per essere presentato alla commissione d'analisi.-

Nel frattempo accade,com'è naturale,che tutto il genere viene a decomporsi,sì che la Commissione predetta deve deliberarne la distruzione.-

Allo scopo di eliminare l'inconveniente succennato,che si risolve praticamente in uno sciupio dannoso di derrate perfettamente alibili,cosa peraltro deprecabile nel particolare momento che la Nazione attraversa,si invitano i c/di mil.in indirizzo a dare disposizioni a tutti i reparti dipendenti perchè l'esame di generi alimentari in scatola di qualità dubbia venga accuratamente eseguito da un ufficiale,particolarmente esperto,il quale dovrà decidere se la derrata sia o meno adatta al consumo.-

1. Several instances have occurred in the proceeding of Analysis Commissions for the condemnation of determined foodstuffs wherein certain food has been found unfit for human consumption; however, the foodstuff may be put to other use.

2. Normal procedure for disposition of foodstuff found unfit for human consumption is destruction by fire or other means. The primary purpose of this procedure is to ensure that condemned foodstuff does not become available for human consumption or the black market.

3. Authority is delegated to the MMIA HQ or Allied officer member of the Analysis Commission to authorize that condemned foodstuffs be sold to civilian contractor for utilization of fat content of foodstuff or for use as animalfeed.

4. No credit will be given to the Italian Government for foodstuffs disposed of in this manner.

5. Italian military authorities involved must certify that the foodstuff will be disposed of in the manner agreed by the Analysis Commission and that the foodstuffs will not be utilized for human consumption. This certificate will accompany the report of the Analysis Commission.

1. During the period 26 Feb to 2 June 45 quantities of Corned Beef were found to be unfit by the Campo Attendato (Reception Regiment) RTC ICF. This Regiment had not been informed by HQ RTC ICF as to the correct procedure for the condemnation of foodstuffs. As a result the preserved meat found unfit for consumption was condemned and destroyed locally on the certificate of the Italian Officer Commanding and the Medical Officer, without notification to HQ RTC ICF or to this HQ.

2. The total nett weight of corned beef found unfit and destroyed amounts over the period to 1,008 (one thousand and eight) lbs. In order to regularise this matter the attached Analysis Report in quadruplicate is submitted for approval, please. The final certificate of the Commission is left blank and the relevant condemnation and destruction certificates by the unit concerned are attached.

3. All units have now been informed as to the correct procedure and will return all food considered unfit for consumption to the Distribution Centre where it can be examined by the weekly board of Officers.
