4) = Causes of deterioration : abnormal fermentation of tins, defect of sterilization, tinning, varnishing, of tin used.

5) = Rations are uneatable; the examined rations are not even fit for animals; not even the fats countained are possibly used.

6) = Condition of foods checked by Commission : as above-said, they smell very badly being in a very serious putrid state.

7) = Responsability or carelessness from the part of the commission: none; it is a question of defect of production.

8) = Suggest of the Commission : burial of them previous disinfection.

9) = Suggestions of Commission as for the credit to the Italian Army and reasons: being a question of original defects the is not responsible and thus the crediting is suggested.

TRANSLATION

"IL LAVORO NUOVO"

28th November 1945

The readers write to us the following:

Black-market sugar.

The IV Section of GENOA Commissariat Directorate has put on sale large quantities of essential food commodities which have been damaged during the alluvion of a month ago.

The selling will be by auction and the invitation has been sent only to a few traders by personal letter, while the notice should have been published on news-papers.

What will happen is very clear: these traders will purchase the a/m commodities, among which are 40 quintals of refined sugar, that the civil population has been missing during several months, paying a higher price than that paid by the Military Administration and then they will sell it at the black-market. So a double illegittimate speculation will take place: first on the H. part who should have sold the commodities to the SEPRAL at under-cost price, for they were damaged (or at least at the same price); secondarily on the part of the purchasers who certainly will not renounce a large profit.

The population will pay the expenses, for they will remain without sugar, but with the consolation of seeing the windows of the confectioners filled by sugar-plums, cakes, candied-fruits etc.

This we are in a position to produce by documents.

COPIA

" IL LAVORO NUOVO "

28 Novembre 1945

I lettori ci scrivono :

Zucchero a borsa nera.

La IV. Sezione della direzione di Commissariato del Comando Militare Territoriale di Genova ha messo in vendita forti quantitativi di derrate alimentari di prima necessita' che andarono avariate durante l'alluvione di un mese fa. La vendita avverra' all'asta e l'invito e' stato diramato a pochi commercianti a mezzo di lettera privata, mentre avrebbe dovuto essere publicato sui giornali . E' chiaro cio' che succedera' : Quei commercianti acquisteranno le predette merci, fra cui figurano 40 quintali di zucchero bianco, di cui la popolazione e' priva da molti mesi, pagandolo un prezzo superiore a quello che fu pagato dall'Amministrazione Militare e le rivenderanno alla borsa nera. Verra' cosi a determinarsi una doppia illecita speculazione : La prima da parte del Comando che avrebbe dovuto cedere le derrate in questione alla Sepral a prezzo di sotto costo, trattandosi di merci avariate, (o tutt'al piu' allo stesso prezzo); la seconda da parte degli acquirenti, che non rinunceranno certo ad un congruo guadagno. Chi ne fara' le spese sara' la popolazione, che continuera' a rimanere a bocca asciutta, con la consolazione pero' di vedere le vetrine dei pasticcieri colme di confetti, pasticcini, canditi, ecc.
Tanto siamo in grado di documentare.

Un gruppo di lettori.

Ref. your letter 5588/Sit, subj. "Analysis Report No. 273 of 4 June 1945", dated 18 Sep. 45

1. Analysis Report No. 273 of 4 June 1945 reflected only the total net pounds involved and not the net weight of each tin. The Analysis Report was signed by three Italian officers and one Allied officer from this Headquarters as being true, correct, and just. Therefore, we cannot take any action to make any correction on this Analysis Report, since the items involved have already been destroyed or otherwise disposed of.

(1) Q It would appear that an error in calculation has been made on Analysis Report dated 4th June 45. Total weights for items 1.2.4.8 and 12-16 should read as per statement made by War Ministry letter dated 18 Sept 45.

Please advise further action.

(2) A. So far as Q1 branch is concerned figures in Analysis Report accepted by Italian Representatives Standard.

Reference the above subject, give further to information already to hand Col Tucci has produced original Statement of Stops imported for Confirmation at his Depot on 4 June 45. It would appear quite evident that a miscalculation of total weights has been arrived at for insertion in the Analysis Report. Capt Cortina the Movest Rep is not available for his references but Lt Beazley remembers the occasion and was present when the confirmation took place. In view of these features may (1) a new report be submitted quoting the obviously correct figures or (2) the balance added 5594 quoted for the next Analysis Report submitted?

SUBJECT :- Analysis Report no. 273 of 4 June 1945.

The 8th Military Food Distribution Depot Rome has pointed out that, in Analysis Report no.273, the number of pounds under heading " net weight in lbs " does not correspond to the weight of each tin multiplied by the number of tins.

In order to enable M.M.I.A. to verify the above, hereunder are quantities of damaged commodities, as from findings of s/s Depot.

		No of tins	Weight of ea tin	Total
A 1)	Meat and Veg Mash	51	6 lbs 12 ozs	331 lbs 4 ozs
