2. (a) Owing to difficulties in obtaining accurate information the total holding (as submitted by the Gruppo) was shown in the first instance;

(b) The vehicles listed appear to have been brought from 8th Army when the G.I.B. returned from the line. No definite information has been given to this branch regarding any previous rendition of census.

(c) Training vehicles had not been drawn when this list was submitted.

3. The whole question of vehicles was being tackled by M.T.A.A. who called for a return of all vehicles held, showing classifications;

4. In the absence of a Staff Capt. R.E.M.E. it has not been possible to classify vehicles for disposal purposes, and all the vehicles shown on present "B" Vehicle Census return are surplus to present entitlement, as no release apart from Training vehicles has been made:

5. Every endeavour is being made to render returns at proper dates, but reorganisation and language difficulties present rather a problem in this respect.

(c) Captured weapons must be shown, stating calibre, type, (including makes) and country of manufacture.
(d) Major differences between current and previous returns will be shown in "General Remarks" Section.
(e) Wastage during the month should show the quantity of items written off charge during the month.
(f) ONLY THE PRINTED FORMS WILL BE USED.
(g) British equipment held by British employed Italian Units must be included in the census.
(h) WEBLEY AND ADAMS PISTOLS. No.2 Mk.1 or Mk. 1x will be shown against item No.3 "Pistol Revolver .38 in. No.2 Mk.1 or Mk. 1x" on census form 45B.
(i) INSTRUCTION No.3 on census form 45B is not being followed by all units. Where details of marks, types, etc. are called for, they must be given on the form. Examples of this are :

Item No.	Designation.	Additional Information called for.
7	Pistol Revolver .38 Colt.	State length of Barrel and Mk of Arm.
229/235	Charging Sets 300 Watt	State type of engine and generator.
...	etc. ...	

(j) In certain cases, units holding Gun, 3 in M stores only report the quantity of barrels held. The holding of mountings by marks must also be given.
(k) Inf Bns are constantly reporting holdings of :
Vickers .303 Mk.1 using Mk.VII Amn. and
" " Mk.VI " Mk.VIIIZ Amn.
as: Vickers .303 Mk.VI and
" " Mk.VII
Units appear to confuse the mark of the Amn. with the mark of the M.M.G. and do not realise that Vickers Mks VI and VII are Tank weapons.
(l) Units are not correctly reporting holdings of Hand Throwers 2 in by the particulars marks.
(m) INSTRUCTION No. 9 - 45B. In application thereof, equipment which has been removed from A.F.V. and is held on unit charge must also be included, and a remark added to the effect that it is held as A.F.V. kit.
(n) INSTRUCTION No. 8 on 45B is not being sufficiently followed, necessitating the raising of observations with units. It is requested that C.O.'s of units pay greater attention to this.
(o) AMENDMENTS TO PRINTED FORMS. Units must not make alterations to the printed nomenclatures on Census Form 45B. The reason for this is that the returns are compiled by mechanical means which identifies the items by code numbers printed on the forms.
If the nomenclature of a particular item is not printed on the form it must be entered under the heading "Other Types".

(d) TWO COPIES of pro-forma are forwarded. One can be retained by unit. NIL Return required.
(e) Particulars of unit strength must be given at the top of the form.

9. IMPORTANT. To ensure that all units are covered by this census, distribution of blank forms is sometimes unavoidably duplicated, and forms received by units from more than one ADOS or DADOS. It is important that units already submitting returns through HQ's of their Company, AD's OS or DAD's OS another Area, or who for any reason cannot compile the blank forms circulated by this Office, should bring the facts to the notice of this office AT ONCE by completing attached pro-forma and returning it to A.D.O.S. 56 Area.

This figure should read 3 instead of 8 leaving the surplus in column 6 as 1. Please see Appendices to our letter Q/7/22 of 5 Dec 44.

It is confirmed 1 15cwt Water Truck is held in lieu of a Water-trailer. This will be included in the next Census.

It is noted no training vehicles are allowed. Our original instructions from DMT were that certain "training vehicles" were to be issued to BLUs and hence the showing of these in our returns.

Q/7/33

On completion of the drawing of vehicles under the Release Notes already sent to you, all British Vehicles formerly held except those referred to in our Q/7/32 of 31 Dec will become surplus and will have to be handed in.

Final instructions for the handing in have not yet been received but a Warning Order has been given by AFHQ.

Of the vehicles to be handed in, there will presumably be some which, though not in good condition, will be runners and able to do local administration work in rear areas. AMLA are anxious to obtain any such vehicles for the use of the Reggimento di Complimenti.

Will you please, therefore, submit a return of all British vehicles formerly held by you showing:-

(a) the vehicles you are retaining under our letter Q/7/25 of 31 Dec 44.

(b) which of the remaining vehicles are roadworthy and runners.

(c) other vehicles not roadworthy.

The return should show Make, Type, and WD Number of each vehicle.

May this return please be submitted by 3 Jan so that the necessary arrangements can be made with AFHQ and AMLA.

Major,

1. It is noted that in some instances units of the LEGNANO Combat Group are rendering census returns under a unit designation which is not in accordance with the official designation under which the unit was formed. Attached at Appendix "A" is a list of such differences.

2. This is causing a great deal of confusion in compiling census records. Will you please ensure that units in future use their correct designation.

3. Should it be desired to change the designation of a unit, application for authority to do so should be made through the usual channels.

Ref your AG/2/49 of 2./2./45.

Orders have been given to all units under our command that they must rigorously adhere to the designations laid down in the attached list, as this, are the Official ones.

We should like to point out the difficulties that our units would meet with in using unit designations in the English language, apart from the fact that some of these lists in Appendix 'A' of AFHQ/6510/13/G(AF) are not precise - those referring to the Special Inf Regt, the 99 T Bty & the 34th Territorial Section.

Please could the matter please be referred to AFHQ in order to attempt to get an authorisation of the Italian Army to use designations in the Italian language.

Il Capo di Stato Maggiore

Oggetto : Nominativi.

ALLA 52ª BRITISH LIAISON UNIT S E D E .

Rif. f. AQ/2/49 del 21/2/1945.

Sono state date istruzioni ai dipendenti reparti affinchè essi si attengano scrupolosamente ai nominativi elencati nell'allegato, che sono quelli ufficiali.

Si rappresenta poi la notevole difficoltà che incontrerebbero i reparti nell'adoperare nominativi in lingua inglese, a prescindere dal fatto che alcuni degli indicativi elencati nell'appendice "A" al f. AFHQ/6510/13/Q(AE) non sono esatti, e precisamente quelli attribuiti al Reggimento Fanteria Speciale, al Reparto Trasporti e Rifornimenti ed alla 99ª Sezione Mista CC.RR.

Si prega quindi di interessare l'AFHQ nel senso che i reparti dell'Esercito Italiano siano autorizzati ad adoperare nominativi in lingua italiana.

Ref GHQ No Q(AE)4/1006/45 of 15 Sep 45.

A thorough investigation has already been carried out regarding the present location of the carriers referred to on instruction from MMIA in their letter Q/03/11/1 of 30 July addressed to all MU's Italian Group, copy to Q(AE)4 AMHQ.

This investigation had negative results since no registered numbers of vehicles of the V A/Tk Group CRE are held by the LEGNANO Group. It is known however that all vehicles were handed in to HQ Compagnia Armed Forces on disbandment.

N. 01/3889 di prot. P.M. 155,li 20 settembre 1945
OGGETTO: addestramento presso le scuole di Cesano.

^^^^^^^^^

Con riferimento al questionario del B.L.U. della Scuola di Cesano si comunica quanto segue :

1.- SCUOLA ISTRUTTORI PER TUTTE LE ARMI

a)- Nell'attuale situazione in cui i reparti devono disimpegnare vari servizi di carattere territoriale e provvedere all'addestramento dei complementi non vi è la possibilità di aumentare il numero dei frequentatori specie, tra il personale ufficiali.

b)- Impiego istruttori. Tutto il personale che ha frequentato i corsi veniva impiegato presso i reparti quale istruttore. Attualmente le esigenze di guardie ai depositi e per ordine pubblico non consentono di tenere presso i reparti.

c)- Corsi "Cura del Soldato". In merito ai detti corsi si esprime parere sfavorevole. Essi potrebbero risultare efficaci, solo se presso i reparti si disponesse di mezzi adeguati.

d)- Programmi dei corsi. La durata attuale dei corsi non è tale da poter ampliare i programmi. La trattazione degli argomenti citati risulterebbe peraltro utile ed efficace sempreche si prolungasse la durata dei corsi stessi.

e)- Opinione sui corsi. I corsi presso la S.I.V.A. sono di molta utilità specie per gli ufficiali e sottufficiali che vengono assegnati ex novo ai gruppi di combattimento. Detto personale dovrebbe essere inviato a frequentare i corsi prima della assegnazione per metterlo in condizioni, giungendo ai reparti, di essere prontamente impiegato.

2.- ARTIGLIERIA.

Non vi sono attualmente ufficiali disponibili.

3.- GENIO.

I)- Collegamenti.

a)- Si.

b)- Guardiafili:

. stendimento e manutenzione linee telefoniche

- Centralinisti:

. servizi centralini.

- Marconisti:

. trasmissione e ricezione R.T. e servizi di stazione.

- Fullerphonisti:

. servizio di stazione fullerphoni.

c)- Non si hanno istruttori disponibili da inviare.

II)- Artieri (zappatori).

Segnalazione negativa.

4.- SCUOLA ELETTRICISTI MECCANICI.

a)- Segnalazione negativa.

b)- Corsi sulla manutenzione autoveicoli. Sono del parere che i corsi predetti sarebbero di grande utilità. Occorre peraltro tener presente la convenienza di estendere i programmi per istituire dei veri i propri corsi automobilistici onde poter disporre di almeno un ufficiale competente per compagnia. Attualmente gran parte degli inconvenienti circa la manutenzione e la conservazione degli automezzi sono conseguenza della ignoranza in materia di quasi tutti gli ufficiali di fanteria, ignoranza che non è loro imputabile.

5.- FANTERIA.

a)- Corsi specialisti di battaglione. Sarebbe utile inviare ai corsi elementi per la specializzazione quali istruttori di carriers e di pionieri.

b)- Corsi allievi graduati. Si ritiene più conveniente che i corsi per graduati vengano svolti presso i corpi. Quello che interessa è di avere ufficiali e sottufficiali addestrati in numero adeguato.

c)- Istruttori allievi graduati. Sarebbe molto utile istituire speciali corsi per la formazione di istruttori allievi graduati.

- "Addestramento pionieri per attacco posizioni fortificate".

ANSWERS QUESTIONAIRE

1. SIVA (All arms instructors school)

(a) The present system of allocating students is suitable. Due to the present situation, in which all units have to carry out the misc duties of a ~~xxxxxxxx~~ territorial nature and provide for the training of reinforcements there is no possibility of increasing the number of students who can be sent, especially as far as officers are concerned.

BLU Comment: ~~A (a)~~ Agreed;
~~A (a)~~ Whilst the group is inclined to regard their guarding of dumps and internal security as an excuse, there is no doubt that the demands on their officers over such a wide area are fairly great. Nor do they mention the further drain of officers on leave. It must be remembered that at the present time, some of these duties which would be performed by an NCO in a British Unit still require an officer in the Italian Army. It is our ambition to correct this in course of time.

(b) Use of Instructors: All personnel who have attended courses have been employed as instructors in units. At the present time the exigencies of guard duties and public security duties do not make easy the holding of courses within units.

BLU Comment: NIL

(c) "Man Management" Courses: An unfavourable opinion is expressed on these courses. They might be efficacious only if the adequate means were available within the units.

BLU Comment: Agreed. If training is required by the Group in this direction, I strongly recommend the attachment of officers to Units of a British formation. They would learn far more by this method.

(d) Programmes of Courses: The length of courses is not sufficient for amplifying programmes. Treatment of the subjects mentioned would be useful only if the length of the courses themselves were prolonged.

BLU Comment: Agreed. But I think it would be a mistake to lengthen the course. I strongly recommend however that some of the purely ~~xxxxx~~ tactical instruction be cut out and the subjects you suggest be included in their place. This would be of the greatest possible benefit. The "training and handling of NCOs" could also be included with advantage.

(e) Opinion on Courses: The courses held at the SIVA are of great value, especially to officers and NCOs who are being posted for the first time to Gruppi. They should be sent on these courses before being posted in order to fit them to be employed as soon as they join their units.

BLU Comment: NIL

(f) It is not possible to increase the number of officers to be sent on any series of courses, but it might be possible to increase the percentage of Arty and Genio Officers within the original allotment to the Gruppo.

BLU Comment: NIL

2. ARTILLERY: At present there are no officers available.

BLU Comment: Vide para 1 (a) above.

3. ENGINEERS:

(a) Signals

(i) Yes

(ii) Linesmen - laying and maintenance of telephone lines.
Exchange Operators - Exchange Duties.
Wireless Operators - Transmission and reception of R.T. and station duties.
Fullerphone Operators - Fullerphone Station Duties

(iii) There are no instructors available for sending.

(b) Sappers:- Nil return at present.

BLU Comment: As there is now no SORE in the BIU Establishment I must accept the opinion of the Gruppo.

4. E & M School:

(a) Instructors not available.

BLU Comment: After an intensive drive by us in this direction, Commanders are at last acutely conscious of the importance of this subject. If therefore the few instructors available are taken from them now, They will throw their hand in i.e. Instructors cannot be spared at present.

(b) Vehicle Maintenance Course: I am of the opinion that these courses would be extremely useful. In addition it is necessary to bear in mind that it would be of great value to extend programmes in order to include a proper MT Course so that at least one trained officer per company could be available. At the present time a large percentage of the difficulties which are being met with in maintenance and conservation of MT is due to the technical ignorance of nearly all Infantry officers, ignorance which is not their own fault.

BLU Comment: I could not aggee more.

5. POLICE SCHOOL

(a) The Carabinieri who have attended the courses at CESANO are suitable for all military police duties. They have no weak points.

BLU Comment: Agreed.

838

(b) It is not considered necessary to hold a regimental police course because they are sufficiently adept in this branch. Each course considerably affects the strength of the 2 CCRR sections which at the present time are only just able to supply men for all duties.

BLU Comment: The trouble lies in the inflexibility of the Gruppo Carabiniere Establishment, which is not large enough to permit of reserves to facilitate a turn over in training. The ideal solution is that authority be given for additional personnel to be held in CSRR Excess of Establishment (There are no Regimental Police in the Inf Bn Establishment).

6. INFANTRY

(a) Battalion Specialist Courses: It would be useful to send men on courses for specializing as Pioneer and Carrier Instructors.

BLU Comment: Agreed.

(b) Courses for prospective Junior NCOs : It is considered more convenient that these courses be carried on within units. What concerns us is to have an adequate number of trained Officers and NCOs.

BLU Comment: Yes it is more convenient, but the Courses run by Units themselves cannot be up to the standard of those run at the School. Hence the general weakness of NCOs.

(c) Instructors for Prospective Junior NCOs : It would be very useful to start special courses for Instructors of Junior NCOs.

BLU Comment: In view of (b) above, I strongly recommend their suggestion provided that these Instructors to attend the course are officers i.e. what is needed is a Course to train Unit Officers how to run NCO Cadres.

(d) Publications: It is proposed that the following publications be translated into Italian:-
- Training in employment of Carrier Platoon.
- Training of Pioneers for Attack on Fortified Positions

BLU Comment: I would like to add :-
- Duties in Aid of the Civil Power.
