1. Your reference AQ/57/39 dated 8th March '46.

2. The information contained in your a/m letter is correct. The material in question having been claimed by the Jugoslavs as War Booty and having been agreed to, as such, by the British War Booty Committee.

3. It was therefore released on 30th Nov.'45 (Release Note: No 14, Item No 177) and was transported to Jugoslavia by rail.

4. During the discussions as to whether this material was War Booty or not: civilian claims were made against E.I.E.R. but claims were disallowed as the stores had been requisitioned by the Italian Army.

5. Also at this date, under War Booty legislation, Italian material claimed by Jugoslavs was legitimized - if agreed to - but for your information; the new ruling decrees that all Italian material claimed, will be frozen - whether agreed as War Booty or not.

As known, stores at present in the engineer store at Trieste the property of the Military Administration and the E.I.E.R. private enterprise,are at present under control of the local C.M.A. until the important international questions are settled concerning the treatment which is to be accorded to Italy.

We point out the above in order that you take the necessary measures, should it be possible, to ensure that the materials remain in the engineer store at Trieste, until we have been informed of the settling of the a/m question.

1. Under A.F.H.Q. letter AG.386.3/Q(AC)-0 dated 2 October 45, as amended by AG.386.3/Q(CSS)-0 dated 8 February 46, disposal of all ammunition of Italian origin in the case of the provinces of Udine and Venezia Giulia will be as decided by the Allied Military Government. Subject:- C.E.M. - Italian Arms and Ammunition.

5 BLU H5

Land Forces S[illegible] Commission A.C.
(M. M. I. A.) ROME.
Q.150
5 February, 1946.

To:- 3 BLU, Milan.

Reference your Q/37/17 of 28 Jan 46 and Q/37/15 of 30 Jan 46.

"Reference your AFHQ/5067E/Q(CEMS) dated 24 Jan 46.

1. The statement that "Supply of Arms and Ammunition now that hostilities have ceased is not considered to constitute maintenance" is not understood. A separate communication is being addressed to your H.Q. seeking clarification on this point. The reorganisation of the Italian Army and CC.RR, and the active steps being taken to give the CC.RR units priority in re-equipment inevitably demand the supply of small arms ammunition.

2. Reserves of certain natures of small arms ammunition are dangerously low and it has been necessary to approve manufacture under authority GHQ ESD/81/3 of the 23 January 46 of the following:

9 mm Pistol	8,000,000
7.65 mm	500,000
10.35 mm	1,400,000
6.35 mm	1,100,000

3. It was understood by the War Ministry and by this H.Q. that arms and ammunition of Italian manufacture located in dumps of C.E.M. in the north of Italy would be released, after identification, to the Italian Army, under the terms of the AFHQ Directive of the 2 October 45. These dumps, however, are under the control of H.Q. 2 District, and pursuant to the policy explained in your letter under reference, 2 District refuse to grant permission for Italian ammunition to be withdrawn by the Italian Army, thus seriously hampering the War Ministry in their task of re-equipping units of the CC.RR and further reducing stocks of available ammunition.

4. In accordance with the last sentence of paragraph 3 of your letter quoted above, the immediate release is requested of the following ammunition to the Italian Army:

Serial No.	Location	Calibre	Quantity.
1	SOLBIATE OLONA	9 mm	8,000 rounds
2	SOLBIATE OLONA	8 mm	500,000 rounds
3	LEON BEAUX Factory Milan	7.65 mm	9,000 rounds"

1. The above copy of Q.125 of 5 Feb 46 to AFHQ is forwarded for your information.

2. Every effort is being made to secure for the Italian Army, possession of Italian Arms and ammunition wherever located. Meanwhile, it is necessary to obtain a separate release from GHQ for such items as are allocated and demanded. Demands will be initiated by the BLU concerned at the request of the local Territorial Command, and after confirmation by the War Ministry, will be transmitted by this H.Q. to G.H.Q.

Four medium calibre shells were found on a loading ramp, it is suggested that these be reported to the RAOC for necessary action, since they cannot be delt with by this unit.

To: E ELU.

Further to our 6211/S/9/7 of 18 Dec.,we report that yesterday 28 Dec. the comission,composed of three civilians and this time accompenied by a Slovene named DOMAC,reported to the Novigo Workshop and Dump.in order to remove ex-German and Italian M.T.stores which had already been "frozen" and bore the notices two examples of which I/had forwarded you.

The comission,on being approached by Magg. BOTTARI,our head of our Provincial Recovery Office,showed an authorisation by Maj.TRIVW 2 Dist.Chief of Economics Office.

Maj.Bottari did not allow the comission to remove anything because he did not believe that the documents shown were valid as Novigo comes under command of this Comiliter.

Can you please tell me who is competent to give a permit to recover shellcases and abandoned enemy material. There is a dealer in that sort of thing here - Goi Giovanni of Tolmezzo and I am fairly certain that he is not in order in recovering this sort of material, but neither he nor I can discover who is the competent authority.

I should be grateful if you can indicate to me who is.
