GRUPPO DI COMBATTIMENTO " LEGNANO. "

The medical services of the Gruppo are functioning in their usual efficient manner although the demands on their services are not very great as the sickness rate is small. Serious cases are admitted to the Military Hospitals at Milan and Brescia, where there are more facilities available.

Soldiers of the Sezione Sanita, such as stretcher bearers etc. are being employed on general duties within the Gruppo in order that their time may be fully occupied.

There is nothing further to report.
