CONFIDENTIAL

Communications -
52 Div

HQ 2 District GP
2006/4 G(C)

1 Sep 42

G1

1. On 3 Aug 42, the War Establishment Committee reduced the Signals establishment on Vol II of a Bde to the following:-

1 Sjt R Signals
2 Telephone Operators (any sex)

2. Orders have now been received for the resultant reduction in Signals personnel to be made, and it would therefore be necessary to close down the wireless link to your HQ and the fullerphone link to 59 Area Signal Office.

3. In order to avoid this very drastic reduction in communications, which would leave you wholly dependent on the telephone, the fullerphone will remain working for the present, and operators from W & L or G Signals are being attached to 59 Sig Sy to man it.

4. The trunk Express Letter Service will call once daily in each direction at 52 Div. Other services will have to be provided by station DRs from the Group if required.

5. It is appreciated that your communications will not be as satisfactory as in the past, but they should prove sufficient and in view of the increasing shortage of R. Signals personnel the situation must be accepted.

SUBJECT : Unclassified Messages - Transmission in Clear

To:- All Units under Cmd

Copy of AFPQ AG311.5/215 GBI-O dated 20 July 45 is forwarded for information and action.

Major
GS

KW/ajn

JC/wp

ALLIED FORCE HEADQUARTERS
APO 512

20 July 1945

AG 311.5/215 GBI-O

SUBJECT : Unclassified Messages - Transmission in clear

TO : All concerned.

1. It has been decided that outside the zone of operations in the Pacific - War Area, certain subjects may now be treated as unclassified, and messages concerning them may be sent in clear by any means, including radio.

2. The operational zone is defined as the area bounded on the west by Longitude 60° E and on the east by the Pacific coast of the North and South American continent. The zone includes for example India Command, Burma, Australia, SEAC, SWPA and US operational commands in the Pacific.

3. Effective 0001Z hours 20 July 1945, subjects listed in Appendix "A" may be treated as unclassified and messages relating to them may be sent in clear by any means including radio, subject to the provisions of paragraph 7, below.

4. Appendix "A" is issued as a guide to originators and in no way prevents them from giving a message a higher classification if considered desirable. The responsibility for the correct security classification of a message rests entirely with the originator. Where doubt exists, the message should be classified.

5. Originators of messages will continue to be guided by US Army Regulations 380-5 and by War Office pamphlet "Classification and Handling of Protected Documents, 1944" to which Annex "A" will be considered an amendment.

826

6. No relaxation of existing rules is permitted in messages to any part of the operational zone, or the subject matter of which concerns the war against Japan. When one or more of the addressees of a multiple address message is located in the zone of operations the whole message will be governed by the security rules applicable to the operational zone and will accordingly be dispatched in this manner to all addressees, including those they may be in the non-operational zone.

...../2

0502

Declassified E.O. 12356 Section 3.3/NND No. 785020

7. An unclassified message referring to a previous ciphor message will quote only the reference number and date (but NOT the time of origin) of the ciphor message. The text of such an unclassified message will consist only of one of the following stereotyped phrases :

a. Acknowledged.
Agreed
Approved
Confirmed
Noted
Received
Taking action
Under consideration
Yes or No

b. A request for a reply to be expedited.

NOTE : When an unclassified message refers to a previous ciphor message encipherei in "One Time Pad/Systen", the restrictions in 5 (g) paragraph will NOT apply.

8. No restriction is placed on the employment of unclassified messages which are covered by the provisions of this instruction. The provisions of US Army Regulations 380-5, paragraph 51 b (2) and of War Office pamphlet "Classification and Handling of Protected Documents, 1944" paragraph 17 (b) and (c) still apply to messages which could normally be classified but which are of such urgency that the delay caused by ciphering cannot be tolerated.

9. Originators of unclassified messages will include the instruction "UNCLASSIFIED" as the first word of the text. This instruction authorises transmission in clear by any means including radio and commercial agencies. "Signatures" will not be used in the texts of unclassified messages.

10. Documents as well as messages relating to subjects listed in Appendix "A" may similarly be treated as unclassified. Such documents, however, need not bear the instruction "UNCLASSIFIED".

BY COMMAND OF FIELD MARSHAL MONTGOMERY:

(signed) C.W. CHRISTOPHERSON,
Colonel, AAG
Adjutant General

0503

Subject: Abbreviation of Correspondence. 52 British Liaison Unit, [illegible].

[illegible]

[illegible]

To [illegible] Greece.

1. It appears that there have been some cases in recent weeks of correspondence being forwarded direct by [illegible] Greece to higher authority without passing through the [illegible], although in fact the letters have been addressed for example :-

" c/o 52 Area (Troodos 52 [illegible])"

2. The following are known cases in point :-

(a) Your letter 01/529 dated 13 June 45 - to [illegible] Greece
(b) " " 02/652 " 14 July 45 - to [illegible] Greece
(c) " " 02/653 " 16 July 45 - to [illegible] Area
(d) " " 02/660 " 18 July 45 - to [illegible] Area.

3. The first indication that the [illegible] of these letters was when either (a) an officer of [illegible] Greece came over to the [illegible] to enquire about one of them, and it was found that the [illegible] had never received it;
or (b) the letter was re-directed back to the [illegible] some days later by [illegible] Area.

4. In order to avoid delays and inconvenience in future, and to comply with Note 1 of Appx 'B' to this [illegible] letter G/6/17 dated 27 July 45 (this was originally an Appx to [illegible] District letter 2019/G(O) dated 25 July 45), it is recommended that all correspondence (less personal and PO letters) should be addressed, both in the letter and on the envelope, to [illegible] 52 [illegible].

It is of course the responsibility of the [illegible] to ensure that, when necessary, translations of enclosures from [illegible] letters are passed on for the information or decision of higher authority.

5. It may well be that in the instances quoted in para 2 above the fault lay with the clerk responsible for addressing the envelopes.

[illegible]
Lieut-Col.
GS.

319.1-V

18 July 1945

SUBJECT: Relations with Italian Combat Groups

TO : See Distribution

1. A number of Italian Combat Groups are now being used in the Fifth Army area under the orders of Fifth Army principally for guarding captured enemy dumps, searching out abandoned enemy material etc. Each of these groups has attached to it a British Liaison Unit as follows:

BLU	Combat Group
50 BLU	FRIULI
51 BLU	CREMONA
52 BLU	LEGNANO
53 BLU	FOLGORE

2. It has been standard Army practice that all relationships between other American and British units and these Italian Groups should be channeled through the respective BLU's. In a few instances this practice has been ignored by AFF officers in the field and on occasions some embarrassment has resulted.

3. You are therefore directed to make all contacts with these Italian Groups through the respective BLU attached except in cases of emergency requiring immediate action where the appropriate BLU cannot be reached in time.

FOR THE ASSISTANT CHIEF OF STAFF, G-5:

Thomas J. Miggs

THOMAS J. MIGGS,

SIGNAL OPERATION INSTRUCTIONS

EFFECTIVE: 0200B, 3 September 1944

PREARRANGED PANEL IDENTIFICATION CODE

1. The following Prearranged Panel Identification Code is used for the identification of Headquarters. The numerals assigned to the Divisions will be used in conjunction with the Prearranged Panel Identification Code to definitely identify a Headquarters of a division or regiment within II Corps.

2. Numerals will be made as shown in C.C.B.P. 8, but when used with this Prearranged Panel Identification Code will serve only as an identification of a unit.

3. A pilot wishing a Headquarters to display its identification panels will gun the motor three times over the C.P.

 HQ OF A BRIGADE RCT OR COMBAT COMMAND	 HQ OF A CORPS OR A CORPS COMMAND POST	 ENEMY RESISTENCE OR BOMBING TARGET. POINT OF V POINTING DIRECTION OF ENEMY
 HQ OF A DIVISION OR DIVISION COMMAND POST	 DROP SUPPLIES HERE. ON ORDER OF G-4 OR S-4 OF THE UNIT ONLY. TAIL OF "Y" POINTING INTO WIND.

811

0521

Declassified E.O. 12356 Section 3.3/NND No. 785020

PREARRANGED PANEL IDENTIFICATION CODE (Continued)

4. The primary means of air-ground identification will be:

a. Yellow or White star markings on vehicle and aircraft.
b. Pyrotechnics (See S.O.I. Item No. 2r).
c. Special panel arrangements, size color and material, depending upon the situation, may be used as shown on Sheet No. 1 only.
d. Yellow smoke and/or yellow panels will habitually indicate friendly troops and friendly front lines.

5. The following assignment of numerals will be used for Division Headquarters Identification. The numeral will be displayed approximately ten feet below the division identification panel.

UNIT	ASSIGNMENT
34th Infantry Division	39
85th Infantry Division	09
88th Infantry Division	19
91st Infantry Division	29

6. The following block assignment of numerals will be used within the division for Regimental Headquarters identification. A number from this block will be assigned to each Regiment by the Division. When a Regiment is requested to display its identification panel, the numeral assigned to them will be displayed approximately ten feet below the base of the Regimental identification panel.

UNIT	BLOCK ASSIGNMENT
34th Infantry Division	31 to 38
85th Infantry Division	01 to 08
88th Infantry Division	11 to 18
91st Infantry Division	21 to 28

HEADQUARTERS II CORPS

ITEM No. 2r-1
Sheet No. 1 of 2
20 March 1945

SIGNAL OPERATION INSTRUCTIONS

EFFECTIVE: 0100A, 25 March 1945

PYROTECHNICS CODE

1. COLORED SMOKE GRENADE SIGNALS.

a. Friendly Troops - Yellow smoke.
b. Other colors may be used for specific missions.

2. COLORED SMOKE SHELL SIGNALS.

a. Colored smoke shells will NOT be fired into friendly areas.
b. Yellow smoke shells will not be used. Any now in hands of units will be returned to an ordnance ammunition dump.
c. Red and Orange will be used interchangeably due to the difficulty of distinguishing between the two colors.
d. White may be used in combination with colored smoke.
e. Infantry boundaries will be marked by three successive rounds of one or more colors fixed at an interval of from 40 to 50 seconds.
f. Infantry objectives will be marked by a four or more round volley of one or more colors fired simultaneously.
g. Targets will be designated to ground or air OP observers by two rounds of one or more colors, fired successively at an interval of from 5 to 10 seconds.
h. Spotting and Adjusting rounds will be single rounds with candles of one or more colors.
i. No signal will be repeated at an interval of less than two minutes.
j. All signals designating infantry boundaries or objectives and any other signals which may confuse other units will be coordinated laterally and information sent to the common higher headquarters. Responsibility of coordination rests with the unit using the signal.

3. AIR TO GROUND PYROTECHNIC SIGNALS.

a. Display identification - Green Verey from aircraft.
b. Request for friendly troops to show yellow smoke - White Verey light from aircraft.
c. For acknowledgement aircraft will waggle its wings.
d. Ground to air recognition will be yellow smoke grenades or flares (Br.) T.R. yellow. Yellow flares or smoke will not be used for any other purpose.

4. GROUND PYROTECHNIC SIGNALS.

a. Lift your fire from this point. You are firing too close to friendly troops - Signal Ground M19A-1, Green Star Para. 1 (1)

b. Tank to Infantry - cannot advance, need Infantry - GREEN Smoke Grenade, M-16.
c. Infantry to Tank - cannot advance, need Tanks - RED Smoke Grenade, M-16.

CONFIDENTIAL

0523

Declassified E.O. 12356 Section 3.3/NND No. 785020

PYROTECHNICS CODE (Continued)

5. Commanders of subordinate units may prescribe the use of any other pyrotechnic signals of any type, color, and meaning as required. Pyrotechnic Signals will be changed periodically for security reasons. Naval and/or Air Forces operating in the vicinity should be notified in advance of changes.

HEADQUARTERS II CORPS

SIGNAL OPERATION INSTRUCTIONS

EFFECTIVE: 0001A, 17 October 1943

APPOINTMENTS CODE

1. In order to avoid disclosing the nature of a headquarters by referring to specific staff sections, the following standard code names are for use throughout the ground forces (Signal Instruction #49, AFHQ) for radio conversations and messages and will apply to all types of headquarters.

BRITISH	U.S.	CODE NAMES
Commander	Commanding Officer or CG	SUNRAY
	C of S or Exec Officer	SUNRAY MINOR
"G" Staff	G3 or S3	SEAGULL
"A/Q" Staff	G1 or S1	MOLAR
"I" Staff	G2 or S2	ACORN
Signals Adviser	Signal or Communication Officer	PRONTO
RA	Arty.	SHELDRAKE
RE	Eng	HOLDFAST
S & T	G4 or S4	PLAYTIME
R E M E	Ord	BLUEBELL
Med	Surgeon	STARLIGHT
O.S.	Quartermaster	RICKSHAW

2. The second in command, or any other representative of an officer designated by a code name will be referred to as "Sunray Minor", "Seagull Minor" etc. No further distinction between representatives is permissible.

SIGNAL OPERATION INSTRUCTIONS

SOI ITEM 32-1
EFFECTIVE 0100A
7 JAN 45

INSTRUCTIONS FOR THE USE OF THE MAP REFERENCE POINTS CODE

1. THIS MAP REFERENCE POINTS CODE WILL BE USED WITHIN THE DIVISION ONLY.

2. BASIC PRINCIPLE: THE LOCATION TO BE ENCODED IS EXPRESSED AS BEING A CERTAIN DISTANCE AND DIRECTION FROM A FIXED REFERENCE POINT.

3. THE FIXED REFERENCE POINT IS SELECTED FROM A LIST OF PRE-DETERMINED REFERENCE POINTS ISSUED TO ALL HOLDERS OF THE CODE. THE INDIVIDUAL POINT THAT IS SELECTED IS USUALLY DETERMINED BY ITS CONVENIENCE OF LOCATION IN REGARD TO THE MAP COORDINATE THAT IS TO BE ENCIPHERED. THIS LIST OF REFERENCE POINTS IS BROKEN INTO "AREAS" EACH AREA HAS A DISTINGUISHING LETTER ALLOTTED TO IT AND A MAXIMUM NUMBER OF 26 REFERENCE POINTS. EACH OF THE REFERENCE POINTS IN A GIVEN "AREA" IS DESIGNATED BY A DIFFERENT LETTER OF THE ALPHABET.

4. THE DISTANCE IS MEASURED IN TERMS OF NUMBER OF TENTHS OF KILOMETERS HORIZONTALLY AND VERTICALLY FROM THE CHOSEN REFERENCE POINT TO THE LOCATION. A TENTH OF A KILOMETER IS THE DISTANCE THAT IS EXPRESSED IN THE THIRD AND SIXTH FIGURE OF A SIX FIGURE MAP REFERENCE. THUS 4.8 KILOMETERS EAST AND 21.6 KILOMETERS NORTH OF THE REFERENCE POINT 4050 (OR 400500) WOULD BE THE MAP COORDINATE 448716.

5. THE DIRECTION IS EXPRESSED BY THE FOUR POINTS OF THE COMPASS (N,E,S,W) WHICH ARE ENCODED BY MEANS OF A LETTER SUBSTITUTION CODE THAT IS CHANGED DAILY.

6. THE ENCODED MAP REFERENCE MUST CONTAIN THE FOLLOWING INFORMATION WHICH FOR CONVENIENCE IN ENCODING AND DECODING, IS SENT IN THE FOLLOWING FORM:

BR N15 H25 (SEE DIAGRAM JUNE 1)

WHERE:-

B - THE LETTER DESIGNATING THE AREA.
R - THE LETTER DESIGNATING THE REFERENCE POINT ITSELF.
N - THE HORIZONTAL (E OR W) DIRECTION OF THE LOCATION FROM THE REFERENCE POINT, ENCODED BY THE DIRECTION ENCODING TABLE.
15 - THE HORIZONTAL DISTANCE FROM THE REFERENCE POINT TO THE LOCATION.
H - THE VERTICAL (N OR S) DIRECTION OF THE LOCATION FROM THE REFERENCE POINT, ENCODED BY THE DIRECTION ENCODING TABLE.
25 - THE VERTICAL DISTANCE FROM THE REFERENCE POINT TO THE LOCATION.

0528

Declassified E.O. 12356 Section 3.3/NND No. 785020

7. THE FOLLOWING IS A SAMPLE COPY OF A MAP COORDINATE CODE. THE CODE LETTERS FOR AREAS AND REFERENCE POINTS ARE USED FOR THE DURATION OF THE CODE, BUT THAT A NEW DIRECTION ENCODING TABLE IS USED EVERY DAY.

SAMPLE REFERENCE POINTS CODE

MAP SECTOR "Q"

AREA LETTER	POINT COORDINATES	CODE LETTER
B	3955	R
B	4253	E
J	4554	N
A	3848	T
G	4550	C

52 Bn Signal Memorandum No 3. CONFIDENTIAL

Periods of Radio Activity and Silence Copy No 4

1. This memorandum contains extracts of various signal instructions issued by AFHQ and Headquarters Fifth Army, and, as required by those formations, outlines the procedure to be adopted for the use of radio within Legnano Group and 52 BIU.

2. A schedule of radio activity and silence will be issued by this office from time to time, covering periods of one month. The schedule of radio activity and silence for the period 27 Mar 1945 to 30 April 1945 is attached at Appendix 'A'.

3. It should be noted that there are two categories of radio silence applicable to all units within Legnano Group :-

(a) Normal Silences (Silent periods shown on schedules of radio activity and silence) - To afford training in operating without radio and to deceive the enemy as to the implications of our radio silence. During these normal silence periods no radio transmission of any kind, including tuning and testing will be made except in an emergency as authorised by the commander concerned. Such an emergency must include the complete failure of line communication. It will be noted that discretion to break normal radio silence is left "to the commander concerned"

and (b) Special Operational Silences - Will be silent periods imposed as necessary for operational reasons. Such silences will in no circumstances be broken by the units and formations concerned without specific authority of the headquarters having ordered them. Operation instructions ordering such silences will specify "Special Operational Silence".

4. It has been laid down by Headquarters 91st Inf Div that the follo - wing radio nets of Legnano Group will conform to, the Radio Silence and Activity schedule :-

804 -

Legnano Group Command net
11 Arty Regt Command net
68 Inf Regt Command net
Specials Regt Command net

i.e. Radio nets from and forward of Bn and Bty need not conform to the schedule.

5. During ACTIVE periods, a traffic load will be put on the radio nets concerned. Traffic will not be removed from other circuits to provide

0531
Declassified E.O. 12356 Section 3.3/NND No. 765020

(a) Normal Silences (Silent periods shown on schedules of radio activity and silence) – To afford training in operating without radio and to deceive the enemy as to the implications of our radio silence. During these normal silence periods no radio transmission of any kind, including tuning and testing will be made except in an emergency as authorised by the commander concerned. Such an emergency must include the complete failure of line communication. It will be noted that discretion to break normal radio silence is left "to the commander concerned"

and (b) Special Operational Silences - Will be silent periods imposed as necessary for operational reasons. Such silences will in no circumstances be broken by the units and formations concerned without specific authority of the headquarters having ordered them. Operation instructions ordering such silences will specify "Special Operational Silence".

4. It has been laid down by Headquarters 91st Inf Div that the follo - wing radio nets of Legnano Group will conform to, the Radio Silence and Activity schedule :-

804

Legnano Group Command net
11 Army Regt Command net
68 Inf Regt Command net
Specials Regt Command net

i.e. Radio nets from and forward of Bn and Bty need not conform to the schedule.

5. During ACTIVE periods, a traffic load will be put on the radio nets concerned. Traffic will not be removed from other circuits to provide radio circuit loads as it may cause delays in the transmission of actual messages. Instead dummy traffic will be prepared for use during active periods. The indicator "DUMMY" will be inserted in the first half of the text and will be enciphered with the text. Messages will be composed of clear text words, but will be in meaningless sequence. A suitable method of preparing such traffic is to select every third or fourth word in a newspaper or magazine article, reading right to left. Messages will be enciphered by the normal means used for traffic between the headquarters concerned. Classification and priority will be placed on all dummy traffic in accordance with normal ratios of each classification and priority.

0533

Declassified E.O. 12356 Section 3.3/NND No. 785020

6. If in the opinion of a commander, the period of activity or silence might jeopardise or fail to conform with the tactical situation a request should be made via this HQ for modification or suspension of the schedule for a specified time.

7. The Legnano Group headquarters is required by HQ 5 Army to have at least one receiver monitoring its radio nets to see that procedure rules and security measures are observed. Cryptographic security officers will check depth of cryptographed traffic to ensure that security of systems is not jeopardised.

8. Please acknowledge on substitute AF A16 below.

SIGS/

HQ IRCUK
Prepare for Continental

1. It is understood that the following scales of Allied telephones and switchboards U.S.10 are held by the various units of Legano Group.

(a) Telephones Dmk V

Units	S.E.L. scale	Actually held
51 Sig Coy	56	52
56 Inf Regt	24	37
Specials Regt	24	37
11 Arty Regt	72	82

(b) Telephones P B X

Unit	S.E.L. scale	Actually held
51 Sig Coy	30	30

(c) Telephones "F"

Unit	S.E.L.scale	Actually held
51 Sig Coy	Nil	6

(d) Switchboards U.S.10

Unit	S.E.L. scale	Actually held
51 Sig Coy	8	8
56 Inf Regt	3	6
Specials Regt	3	6
11 Arty Regt	6	10

797

2. An additional sixty (60) telephones "F" have today been issued to 51 Sig Coy.

3. It is suggested that a re-distribution be effected on the following lines. Total number of telephones only, are stated, the actual mark or type of instrument issued to units to be decided as operational experience indicates :-

Unit	S.B.I. scale	Actually held
51 Sig Coy	26	26
2d Inf Regt	24	37
Specials Regt	24	37
11 Arty Regt	72	82

(b) Telephones L.M.S.

Unit	S.B.I. scale	Actually held
51 Sig Coy	30	30

(c) Telephones "gn"

Unit	S.B.I.scale	Actually held
51 Sig Coy	11	6

(d) Switchboards U.C.10

Unit	S.B.I. scale	Actually held
51 Sig Coy	8	8
2d Inf Regt	3	5
Specials Regt	3	5
11 Arty Regt	8	10

897

2. An additional sixty (60) telephones "gn" have today been issued to 51 Sig Coy.

3. It is suggested that a re-distribution be effected on the following lines. Total number of telephones only, as stated, the actual mark or type of instrument issued to units to be decided as operational experience indicates:-

(a) To each of the four Forward Infantry Bns - 26 telephones and 2 switchboards U.C.10.

(b) To each of the two Bns in reserve - 12 telephones and 2 switchboards U.C.10.

(c) To each of the two Signal Platoons of 51 Sig Coy attached to Infantry Regt - 20 telephones and 3 switchboards U.C.10.

SECRET

CO-OPERATION INFANTRY AND TANKS - INTERCOMMUNICATION AND LIAISON

1. Some fmns have expressed a desire to have a standard layout providing standard two-way radiocomm between tks and Inf during ops down to the level of pl and the tk tp. It must be recognised that the following practical difficulties would probably prevent this being reliable in the pressure of battle.

(a) There is a limit to the number of stations that can be effectively worked on one net, and at present an Inf bn comd's net normally includes as many stations as can be operated effectively.

(b) In the stress of action one junior comd is not likely to be able to give his attention to more than one radio net.

2. The provision of 38 sets in addition to the 19 sets in the tks operating with Inf does make it possible, if a frequency is available, to net in a tk tp to an Inf pl or coy with whom it is working. This is useful if two units are working together more or less independently, but it should not be regarded as a reliable link when the units have also to be working on the nets of their comds.

3. Liaison and intercomm on the level of the Inf bn and coy must however, be provided, and the personnel and sets allotted for this must be exclusively for this purpose so as to guarantee the link. The method recommended for this is shown in the diagram att. In each case the liaison offr must have a first rate intelligent operator and driver operator with him. The liaison offr remains with or near the Inf comd and listens in on the Inf 38 net, except when his duties require him to communicate with the tk unit comd. When this is necessary the operator will listen in for him on the Inf net.

4. The provision of a second 38 set on the Inf net is for the purpose of enabling the liaison offr to accompany the Inf comd with a "rover" set should he wish to move away from his HQ layout. Should the Inf comd desire to use a tk for such moves, the liaison offr should travel with him so that they can use either or both nets when required.

5. By far the most satisfactory method of intercomm between Inf pl and tk is by personal contact between the comds. The first essential is to have prearranged points of contact, and for each to know the others posn at any time. The second is to have a prearranged signal whereby either can indicate to the other that he wishes to come and speak. Under enemy fire this is not always easy, but each should detail an observer to watch for such signals from the other. Where open ground makes contact under cover from fire impossible, it is a matter for judgement whether it is better for the tk to move to the Inf pl, or vice versa. If the movement of a tk draws Arty fire, it will often be best for the pl comd to go to the tk which does afford a measure of protection. A telephone is being provided at the rear of each Churchill and Cruiser Inf tk. An Infantryman taking this telephone could ride into the battle on the

790

0548

Declassified E.O. 12356 Section 3.3/NND No. 765020

(b) In the stress of action one junior comd is not likely to be able to give his attention to more than one radio net.

2. The provision of 38 sets in addition to the 19 sets in the tks operating with Inf does make it possible, if a frequency is available, to net in a tk to an Inf pl or coy with whom it is working. This is useful if two units are working together more or less independently, but it should not be regarded as a reliable link when the units have also to be working on the nets of their comds.

3. Liaison and intercomm on the level of the Inf bn and coy must however, be provided, and the personnel and sets allotted for this must be exclusively for this purpose so as to guarantee the link. The method recommended for this is shown in the diagram att. In each case the liaison offr must have a first rate intelligent operator and driver operator with him. The liaison offr remains with or near the Inf comd and listens in on the Inf 38 net, except when his duties require him to communicate with the tk unit comd. When this is necessary the operator will listen in for him on the Inf set.

4. The provision of a second 38 set on the Inf net is for the purpose of enabling the liaison offr to accompany the Inf comd with a "rover" set should he wish to move away from his HQ layout. Should the Inf comd desire to use a tk for such moves, the liaison offr should travel with him so that they can use either or both nets when required.

5. By far the most satisfactory method of intercomm between Inf pl and tk is by personal contact between the comds. The first essential is to have prearranged points of contact, and for each to know the others posn at any time. The second is to have a prearranged signal whereby either can indicate to the other that he wishes to come and speak. Under enemy fire this is not always easy, but each should detail an observer to watch for such signals from the other. Where open ground makes contact under cover from fire impossible, it is a matter for judgement whether it is better for the tk to move to the Inf pl, or vice versa. If the movement of a tk draws Arty fire, it will often be best for the pl comd to go to the tk which does afford a measure of protection. A telephone is being provided at the rear of each Churchill and Cruiser Inf tk. An Infantryman taking this telephone and speaking into it can be heard on the intercomm set and the tk comd can speak to him if the circumstances preclude dismounting. The telephone should be replaced before the tk moves.

Declassified E.O. 12356 Section 3.3/NND No. 785020

53 [illegible] Instruction No. 1.

W/T Link between 53 D.L.U. and M.M.I.A.

53 D.L.U.
Ref. 12 - 3
5 Dec. 44

To : Land Forces Sub Area A.C. (MMIA)

52 D.L.U. —
MMIA IA
— Trg. Team (Lif)
G
A/Q
RA
RS
R.SIGS
SI
Ord
RE&S
Engrs

1. The link operates daily from 0800 - 2200 hrs. MMIA is the control and 53 D.L.U. the outstation.

2. There are hourly calls, at which control and outstation offer any traffic they may have for one another. Once traffic is passed the link closes till the next hourly call.

3. 52 D.L.U. also use this link, as their own W/T link with M.M.I.A. has closed.

4. Officers wishing to send messages should draft them on the normal message form and hand them to the 53 D.L.U. clerks office.

5. All messages have to be translated into high-grade cipher before transmission. To avoid delay and congestion of the link they should therefore be kept as brief as possible - maximum 50 words of text.

6. Messages may be handed in at any time, but as communication deteriorates after nightfall it is not possible to guarantee that messages handed in during the evening will be transmitted before the following morning. There should nonetheless be a considerable saving of time by comparison with the D.R.L.S.
