He appears an able and efficient officer. 4 Reparto Rifornimenti - The kitchen situation is very poor. In the previous inspection Col. The ST Liaison Officer with 4 BLU visited the u/m Depots on the dates indicated.

The following remarks are extracted from his report and are forwarded for your information and such action as you consider necessary.

5 Bulk Depot Mestre 14 Mar 46.

1. The general state of the depot was considered very satisfactory a fact which reflects credit on the ability of the O.C. Capt. Grieco. It is understood that this officer is due to be released from the Army but is willing to defer his release.

2. It is considered that steps should be taken to provide recreational facilities for the Depot staff as none are stated to be available.

73 Distribution Depot Mestre 15 Mar 46.

1. Repairs to the surface of the courtyard are due to be carried out.

2. The cleanliness of the cookhouse and latrines could be improved. Application has been made for repairs to the flushing system in the latrines.

3. The depot was considered to be in a satisfactory state with the exceptions noted above.

u) inspecting officer's general opinion of the depot, suggestions etc. for improvement: On this visit the depot was found clean and tidy but the general stock control was not satisfactory. It is considered absolutely essential that the O.C. is replaced as soon as possible by a fit and experienced officer. The present O.C. has no knowledge of supply work apart from being sick and too old. The other Officer S/Ten. Normile is young and has only a very slight knowledge of Supply work but it is understood he is due to go on a Supply course in Feb.
