SUBJECT : Reorg of SMC

26 JUN 1945

112

MAIN HQ EIGHTH ARMY CMF
M 206 SD2

24 Jun 45

ALL BRANCHES MAIN AND REAR

1. Staff Message Control at Main HQ Eighth Army is to be reorg and will assume additional responsibilities. Details of this reorg are given below.

2. SMC, a branch of the General Staff of this HQ, will be under the direct supervision of G(SD) Branch.

3. At present the SMC only distributes 'incoming' signals. In future all 'outgoing' signals will also pass through the SMC. This will enable the General Staff to keep a check on outgoing signals to ensure :-

(a) No diplomatic or military security lapses occur, due to incorrect security grading.

(b) No gross errors are made in priorities given to messages by originators.

4. Officers of the SMC will be empowered to upgrade the security classification given to a signal, if they consider it necessary. Should the officer on duty in the SMC receive a signal which he considers incorrectly graded for security or an unnecessarily high priority, he will refer it to the originator.

5. Changes in method of despatch of signals etc resulting from this reorg, in so far as they affect branches, are shown at Appx 'A'.

6. The above reorg will take effect from 0600 hrs 25 Jun 45. The organisation and functions of the SMC at Rear HQ remain unchanged until Main and Rear HQs amalgamate.

Appx 'A' to M 206 SD2
Dated 24 Jun 45

1. SMC in the present leaguer will be located next to the Sig Office.

2. Number of copies of "outgoing" messages required

(a) "TOPSEC" Messages

Two clear copies (one for SMC, one for ciphers) and skeleton copy for Sig Office.

(b) Other Messages

One for each addressee plus one for SMC and one for Sig Office.

3. (a) All messages for despatch will be delivered by branch orderlies to SMC.

(b) All "incoming" messages except those of priority "IMMEDIATE" and above, will be collected by branches' orderlies from SMC.

(c) Messages of priority "IMMEDIATE" and above will be delivered to branches by SMC orderlies.

(d) Branches who have sigs for internal distribution within the HQ, may use the SMC as a distribution centre, by placing such sigs in the pigeon holes of the branches concerned for collection by their orderlies.

Liaison Officer,
Land Forces Sub Comm. AC,
(L.M.I.A.),
c/o Rear HQ, Eighth Army.

Q Rear Eighth Army.

MM/115
20 June 45

Copy to:
Pro, Rear Eighth Army.

Ref your R 2011/2 Q dated 18 June.

1. Italian Police or Carabinieri Reali (CC.RR) fall into two categories, total strengths of which are governed by ceilings agreed between the Italian Ministry of War and MMIA ROME.

(a) Military CC.RR attached to HQs Combat Gps and Adm Divs or on other purely military duty.

(b) Territorial CC.RR - all other items - adm and clothing etc through AMG.

2. Present ceilings for ITALY are as under and have been reached :-

(a) 1865 all ranks.

(b) 53135 all ranks.

55000 Grand Total.

3. Territorial CC.RR, within the framework of their authorised org, owe allegiance through appropriate Gp and Legion HQ to a Central HQ in ROME.

4. Mil clothing, stores and eqpt are issued to the Mil CC.RR (para 1(a) above) in exactly the same way as now functions for Combat and Service Tps a/c Army.

5. At Appx is shown the Terr CC.RR org authorised for VENEZIA GIULIA but as far as I know, not yet functioning. Perhaps the requirements of 13 Corps could be met by obtaining authority for the implementation of this set-up.

Major,

SUBJECT:- Leave - Officers - GRADO.

Rear HQ EIGHTH Army, CMF.
Tel Ext 210.

R 24151 A.

12 Jun 45.

All Branches, Main & Rear Eighth Army.

1. 13 Corps have made vacancies available for officers of this Headquarters at the NEW HELVETIA HOTEL, GRADO.

2. The period of leave is 3 days. Officers can however stay 6 days by taking up two vacancies.

3. There is a messing charge of 50 lire per day.

4. Personnel must arrive between 1000 hrs and 1100 hrs on the day of intake. Each officer must be in possession of a pass signed by the head of the Branch concerned. On production of the pass at the reception desk rooms are allotted. If it is desired that an officer stays for 6 days the period should be clearly marked with the words "double period" in brackets after the date.

5. Officers leave by 1000 hrs on the day of departure. Officers must check out as failure to do so causes considerable administrative inconvenience.

6. Beds, bedding and mosquito nets are provided by the hotel.

7. Full anti-malarial precautions must be taken.

8. Personnel report in unit transport which must return at once as no facilities exist for parking over leave periods.

9. Will Branches please notify this Branch soonest of their requirements as bids must be submitted to 13 Corps 7 days in advance of allotment desired.

ALL BRANCHES.

H.Q. 13 Corps have stated that considerable delay is caused in sorting correspondence for distribution to Branches and Services, as no central registry staff is held on a Corps H.Q.

Branches are therefore requested to address all correspondence to the appropriate Branch or Service of 13 Corps.

Lieut.
Chief Clerk H.Q.

MILITARY FORWARDING ORGANIZATION

You wish to send your kit Somewhere?

and

You wish to know how to go about it?

HERE IS THE DRILL:

PACKING AND LABELLING

See that your kit is securely packed and clearly labelled (preferably stencilled) with the address at which you wish the kit delivered. Secure packing means suitcases, boxes and trunks should be roped, and valises and packs sewn up in hessian.

WEIGHT

Weight limitations are 22 lbs minimum, and the maximum is normally 56 lbs; however, in the case of officers' kits you may send individual packages weighing up to, say, 90 lbs, but *NOT* heavier, PLEASE, as we just haven't the facilities for handling heavy weights.

METHOD OF DESPATCH

Having complied with above, take the kit to the nearest MFO Depot and you will be given a receipt. You will find a Depot in ANCONA, AREZZO, BARI, FLORENCE, NAPLES, [redacted] ROME and TARANTO. This list may be extended. If in doubt, consult your nearest RTO. If you are in the AFHQ area, the kit should be handed to the Military Forwarding Officer, NAPLES (or his representative).

That is all - we'll do the rest

TRAFFIC VIA MFO TO THE UNITED KINGDOM

If your kit is destined for the UNITED KINGDOM, it will be necessary for you to complete Customs Declaration Notice 2B (which forms are obtainable either from MFO, G-4 (Mov & Tn), AFHQ, or ANY Military Forwarding Officer), in order to facilitate clearance of the baggage through Customs in the UNITED KINGDOM.

For the transmission of kit *via* MFO to addresses in the UNITED KINGDOM from CMF, only a very small charge is made, and this by the British Railways for the conveyance of the items from the port of discharge to the address as shown on the packages. Charges are payable on delivery at the address in the UNITED KINGDOM.

We must point out that you are *NOT* permitted to send *via MFO* to the UNITED KINGDOM such articles as clothing (new, as presents, etc.), valuables, arms and ammunition, foodstuffs or similar amenities, all of which should be despatched under private arrangements. SORRY—*NO* whisky, paintings, bronze heads, model schooners, swords and the like—no fuses (live or dead)—in fact, *NO* presents of any kind—not even souvenirs—ONLY your authorized surplus kit or unaccompanied baggage *within your entitlement*. YOUR ENTITLEMENT? — Well, it works out at from 2 to 4 cwts—dependent upon your rank—covering both accompanied and unaccompanied kit.

If you wish souvenirs or presents to reach the UNITED KINGDOM you must take them with you as personal luggage and declare them to the Customs Authorities at the port of disembarkation. We believe the Customs fellows err on the lenient side when it comes to permitting small items of a dutiable nature to pass into the UNITED KINGDOM.

INSURANCE

Even in the best regulated circles things sometimes go wrong. We *DO* advise you to take advantage of the insurance facilities available to you under A.C.I. 54 of 20 Jan 45, as repeated in G.R.O. 297 of 6 Apr 45. The procedure to effect insurance is simplicity itself and the premium is well within your means. The completed coupon constitutes the contract between yourself and the insurance company chosen and no further policy is issued.

WE WANT TO HELP YOU

SUBJECT:- Allied Officers Hotel Lido VENICE.

Hqrs [illegible] EIGHTH Army, CMF.
Tel Dit 210.

4 JUN 1945

R.24139 A.

3 Jun 45.

All Branches, Main & Rear HQs Eighth Army.

Copy to:- Commandant, 55 Rest Camp.

1. The Palazzo Al Mare, LIDO, VENICE opens on a limited scale as an Allied Officers Leave Hotel for 200 Officers on 7 Jun 1945. Five officer vacancies are available for this HQ each week.

2. The hotel is a large peacetime luxury hotel. It will be run by a civilian staff supervised by a small British and American staff.

3. There will be in addition to the usual amenities a resident orchestra and dancing nightly. The hotel has its own private beach and there are facilities for tennis and golf. There are cinemas and an ENSA theatre on the LIDO.

4. The period of stay will be 7 nights giving six clear days. First parties will arrive on 7 Jun and depart on 14 Jun. Second parties will arrive on 14 Jun and depart on 21 Jun and so on each 7 days thereafter.

5. There is a messing charge of 30 lire a day.

6. Personnel report at Main Jetty PIAZZALE ROMA VENICE (opposite 86 (Army) Area where Regimental Police will direct them to the Hotel. Parties are required to report after 1200 hrs on the day of intake to avoid overlapping with previous intake.

7. Transport cannot remain in VENICE and must report back after picking up returning personnel.

8. It is requested that bids for vacancies are forwarded to reach this Branch by 1200 hrs each Tuesday commencing 5 Jun 45.

SUBJECT:- Allied Rest Centre - AQUILA.

Rear HQ EIGHTH Army, C&F.
Tel.Ext. 209.

R.24050 A

26 May 45

27 MAY

A Main HQ 5 Corps
A Main HQ 13 Corps
C.G. 11 US Corps.
A Rear HQ 2 Polish Corps
HQ 25 Armd Engr Bde
HQ 2 A A Bde
HQ 12 A A Bde
HQ 86 (Army) Area
HQ 201 Sub Area.

Copy to:- All branches Tac Main and Rear EIGHTH Army.

1. The Allied Rest Centre at AQUILA opens fully during the week beginning 29 May 45.

2. As travel to the Centre is by road this Headquarters has not accepted any vacancies for the present time.

3. The Rest Centre caters for 150 Officers and 450 O.Rs. of both sexes of the British and American Armies. The atmosphere of the town which is far from all concentrations of troops, is that of a holiday resort and provides a complete change from military life. No personnel should be sent to AQUILA who want to go to ROME where the attractions are quite different.

4. The officers are accommodated in the Grande Albergo. All rooms have hot and cold water. The games room is equipped for billards and table tennis. An orchestra plays daily in the hotel and films are shown three times a week.

5. Male other ranks are accommodated in the COLONIA MONTANA which holds 400. A ferry service runs into the town. Blankets and mosquito nets only are required. Spring beds with mattresses sheets and pillows are provided. There are hot and cold showers. The usual amenities are provided. There is an indoor cinema and an open air theatre.

6. Other Ranks of the Women's Services are accommodated in the ALBERGO ITALIA which holds 50. It has the usual hotel facilities.

7. In AQUILA there are swimming baths, sports facilities, theatres, cafes, bars, and Gift Shop. Horses for hacking are likely to be available.

8. Transport which conveys parties to the Camp is retained during the leave period and will be at the disposal of O.C. Rest Centre. Drivers will NOT count against leave vacancies as they will be available for duty. Officer's vehicles may return to Units.

9. Leave personnel are NOT required to carry out any fatigues or duties.

Subject:- POSTAL VOTING INSTRUCTIONS

Rear HQ EIGHTH ARMY, CMF.
TELE EXT 203
R 637 Camp
22 May 45

1. AF's B2645 and 2639 are now available for issue in bulk to Branches from Camp Office. Branches will please indent, and collect, for ALL RANKS from Camp Office for above forms between 1600 hrs and 1800 hrs today, 22 May 45.

These forms will be completed and returned to Camp Office NOT LATER THAN 1800 hrs 24 May 45.

IF YOU WISH TO VOTE BY POST

2. If you are 21 years of age or over by 15th March 1945, and your Armed Forces Declaration Card (AF B2626 or AF B2644) has been received before that date, you can apply to vote by Post at a General Election held after 31st March, 1945. You should make application on AF B 2639 as soon as possible in the manner indicated below.

3. If you reach the age of 21 years after 15 March, 1945, but before 1 July, 1945, and your Armed Forces Declaration Card is received before 1 July, you can make application on AF B2639 to vote by Post on reaching the age of 21. This will entitle you to vote by Post at a General Election held on or after 1 October.

THE APPOINTMENT OF A PROXY IS AN ADDITIONAL SAFEGUARD

4. If you have appointed a Proxy you can nevertheless apply to vote by Post. If your Postal Vote is received, the vote given by your Proxy will not be counted, but in case a Ballot Paper does not reach you, or your vote is not received, or received too late to be counted, your Proxy vote will count and you should, therefore, keep your Proxy appointment in force.

HOW TO FILL UP AN AF B 2639

5. You make application to vote by Post by completing AF B2639. You must give all the particulars required and must take care to state, in the space provided for the purpose, the address in the UK which you gave on your Armed Forces Declaration Card. If you have changed your name since completing your Armed Forces Declaration Card you must write your previous name in brackets after your present name.

6. AF B2639 is printed on the back of an envelope and with it you will be given a blank double label perforated across the middle. On this label your must write twice (that is once on each half) your name, your service number, your rank, and your present service address. This should be written very clearly as these labels will be stuck on the envelopes contain-

If you have changed your name since completing your Armed Forces Declaration Card you must write your previous name in brackets after your present name.

6. AF B2639 is printed on the back of an envelope and with it you will be given a blank double label perforated across the middle. On this label your must write twice (that is once on each half) your name, your service number, your rank, and your present service address. This should be written very clearly as these labels will be stuck on the envelopes containing the Ballot Papers, the election addresses of the candidates, and the instructions how to vote.

7. When you have written your address twice on the label, put it unfolded into the envelope and seal down the flap.

8. On the address side of the envelope write the post town and county of the address in the UK which you gave on your Armed Forces Declaration Card if that address is in England or Northern Ireland. If the address is in Scotland you should write in "Edinburgh".

COMPLETED AF B2639 TO BE RETURNED TO CAMP OFFICE .....

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

COMPLETED AF B2639 TO BE REURNED TO CAMP OFFICE

9. When you have completed the application form, which you should do as soon as you receive it, hand it in to Camp Office. No postage stamp is required. Any delay in handing in the completed application form may result in you not getting a Ballot Paper in time.

IF YOU CHANGE YOUR UNIT

10. If you change your unit after making application to vote by post you should apply to the unit orderly room or office at the new unit for a fresh copy of the application and fill it up, writing your new address twice on the label. A later application stating a fresh address will automatically cancel an earlier address received.

PREVIOUS COMPLETION OF AF B2626 (OR AF B2644) ESSENTIAL

11. An application to vote by post is not valid unless the person making that application has completed an Armed Forces Declaration Card.

* 3 District		9	for 2 HLI and Lovat Scouts
	42	964	

2. This allotment is based on the Eighth Army Order of Battle as at 13 May 45 including any units not appearing on Eighth Army Order of Battle who are nevertheless in addressees geographical area and is subject to any exceptions made in para 1 above. The allotment is made on the basis of strengths at that date except that addressees marked with an asterisk are given double allotment. All cases of doubt in respect of responsibility of addressees for any unit or formation will be referred to this HQ.

3. Individuals eligible for PYTHON or within 6 months of PYTHON on 25 May 45 are ineligible unless authority is granted by this HQ which will only be done in very exceptional cases in respect of personnel who have relinquished or intend to relinquish PYTHON.

4. Addressees are responsible for ensuring that all attached personnel are taken into account when making such allotments unless otherwise stated in this letter.

5. Any sub-allotments made by addressees to units and/or formations not now under command or who subsequently pass from command will be notified to the formation under whose command the unit or formation has passed or will pass.

1,17

6. Allied Commission personnel now receive a separate allocation from AFHQ and should be omitted from any sub-allotments

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

*	2 Cdo Bde	1	11	
	2 AA Bde	1	18	incl all 53 LAA Regt
	12 AA Bde	2	49	incl 523 S/L Bty and 1 and 28 vacancies for 1 RMA, 15 Fd Regt, 24 Fd Regt, 142 Fd Regt, 85 Mtn Regt, 54 Super Hvy Regt and 80 Med Regt.
*	2 MGRA		8	For HQ, 74 Med Regt and 102 Med Regt.
*	3 District		9	for 2 HLI and Lovat Scouts
		42	964	

2. This allotment is based on the Eighth Army Order of Battle as at 13 May 45 including any units not appearing on Eighth Army Order of Battle who are nevertheless in addressees geographical area and is subject to any exceptions made in para 1 above. The allotment is made on the basis of strengths at that date except that addressees marked with an asterisk are given double allotment. All cases of doubt in respect of responsibility of addressees for any unit or formation will be referred to this HQ.

3. Individuals eligible for PYTHON or within 6 months of PYTHON on 25 May 45 are ineligible unless authority is granted by this HQ which will only be done in very exceptional cases in respect of personnel who have relinquished or intend to relinquish PYTHON.

4. Addressees are responsible for ensuring that all attached personnel are taken into account when making such allotments unless otherwise stated in this letter.

5. Any sub-allotments made by addressees to units and/or formations not now under command or who subsequently pass from command will be notified to the formation under whose command the unit or formation has passed or will pass. 1/17

6. Allied Commission personnel now receive a separate allocation from AFHQ and should be omitted from any sub-allotment.

7. All officers on Indian RATES of pay are now excluded and receive separate allocations. This includes British Service Officers attached or permanently attached to the Indian Army when within WE.

8. Vacancies will be allotted in accordance with principles already laid down. Attention is drawn to GROs 1013/44, 1054/44, 83/45, and Adm Instructions for LIAP forwarded under this HQ M 9061 A of 16 Apr 45.

Subject:- Telephone Conversations.

Rear HQ Eighth Army, CMF.

Tel Ext : 218

R 2595 Q

3 May 45

All Branches Rear Army.

The Rear Eighth Army telephone switchboard is being overworked to such an extent that the efficiency of the operators will fall off rapidly unless there is a considerable reduction in the number of calls made.

As the best means of controlling operations the telephone service must be kept at a high level of efficiency and it is in the interests of all officers to help to cut out all non essential use of it.

It is essential that all officers at Rear Eighth Army observe the following procedure :

(a) Ask yourself "Is your call really necessary".

(b) Try to save up your points for one call rather than ring up every time you have an idea.

(c) Make notes of the points you want to discuss.

(d) If time permits walk across to another branch in the leaguer rather than make a telephone call.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

SUBJECT : Training - Italian Soldier Cooks.

Rear HQ Eighth Army,
CMF.
Tele Ext 270

R 601/3 CA

21 Mar 45

MMIA (for attention Major Carew Hunt)

1. Many visits have now been made to Italian formations, and from all the reports to hand, it seems quite obvious that Italian soldier cooks will benefit greatly from a short course of instruction in cookhouse organisation.

2. It is proposed to open as soon as possible an Eighth Army Italian School of Cookery. The siting of this School will depend on the wishes of GOC 228 Italian Div. It is suggested, however, that it be placed at Italian Combatant Troops Transit Camp, PESARO.

3. It is requested that GOC 228 Italian Div be asked to supply 1 Junior English-speaking Italian Officer and 2 Senior NCOs. These 2 NCOs must be experienced in Italian methods of cooking, and be thoroughly au fait with Italian rations.

4. It is intended that a weekly course be started as soon as possible, 20 cooks being drawn weekly from forward formations. It is suggested that the calling forward of these personnel is effected by Catering through BLUs.

Spoke to ACA's clerk Pigeol a/4

Everything all set, but the Junior English-speaking Officer is not yet available; still searching.

C.W.E. Carew Hunt. Major,
Army Catering Adviser,
for Brigadier D.D.S.T.

SUBJECT:- Italian Co-operators

Liaison Officer,
Land Forces Sub Comm. AC,
(M.M.I.A.),
c/o Rear HQ, Eighth Army.

MM/115
6 Apr 45

G(SD), Main Eighth Army.
A, Main Eighth Army.

Ref Main Army letter M 660 SD2 dated 6 Apr 45.

It is noted that the Italian Adm staff is designed to be composed of "Co-operators."

May I call your attention to the fact that "Co-operators" are Italian PW on parole whose treatment, pay and general conditions of service are still infinitely preferable to those obtaining in the Italian Army in Italy.

If this Adm staff is to be formed of Italian military personnel they should be found by 228 Div in the normal way; the employment of "Co-operators" in the Army Area would be untimely.

Agcd

Major,

All Branches & Services
Main & Rear Eighth Army (excl RA, RE, Sigs, Ord, REME, MED)

1. It is desired to bring the contents of the attached letter to the notice of all RASC personnel serving with this HQ, and to arrange for the collection of subscriptions for the period 1944-45.

2. With this end in view it is suggested that responsibility for collection, consolidation and submission of subscriptions should be delegated to Warrant Officers and NCO's of the RASC employed as Chief Clerks of Branches and Services and it is requested that, subject to the approval of Branches and Services, arrangements are made accordingly.

3. Subscriptions should be collected on the basis per capita of 1/- as laid down in para 3 of the attached letter and forwarded direct to this Branch for onward transmission to the RASC Regimental Assn. Proformae in accordance with para 7 of the attached letter should accompany each Branch and Service contribution.

4. The voluntary nature of subscriptions is stressed.

5. Efforts should be made to forward all subscriptions by 10 Apr 45.

1. Units in Eighth Army subscribed £674.3.6d. for the period 1 Oct 43 to 30 Sep 44 to the RASC Regimental Association - a very fine response.

2. A call is now due for the period 1 Oct 44 to 30 Sep 45. It is hoped that a similarly generous response will be made, particularly as the end of the War in Europe obviously draws near.

3. The General Committee of the RASC Regimental Association permitted all serving RASC personnel to be Members of the Association by payment of reduced annual subscription of a shilling on their behalf by units through commands. This is a convenient method to make unit subscriptions, and render all personnel Members.

4. Subscriptions are voluntary but in order to obtain conformity and ease in documentation, it is requested that units under your command be asked to pay their subscriptions based on strengths as at 1 Mar 45.

5. Where RASC personnel are serving with units other than RASC as in the case of HQs and Medical units, arrangements should be made by the senior ST representative concerned for the collection and payment of any subscriptions.

6. Payment by units from either PRI funds or actual subscriptions should be made to the nearest Field Cashier not later than 7 Mar 45, for the credit of the RASC Benevolent Funds, No. 2 Account, RASC Regimental Association, Westminster Bank Ltd., 62 Victoria Street, London, S.W.7. and the following authority should be quoted: Regimental Association 43/44 dated 1 Oct 43.

Alternatively crossed cheques may be forwarded to this HQ on any PRI a/c which has funds banked in U.K.

7. Proforma as under should be used for the certification of payment of subscriptions, whether made through a Field Cashier or by cheque. This

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

9. Where a unit makes a deduction on the grounds that certain personnel are Life Members, a nominal roll of such Life Members will be attached to the proforma.

10. Your attention is also directed to the purely Benevolent aspect of the Association to which remittances are always welcome apart from Membership subscriptions. A number of units have from time to time set apart part of Canteen or Entertainment profits as a constructive method to deal with accumulating funds. Any such payments may be dealt with similarly to Membership subscriptions.

11. I know I can rely on you to give full support to the Association and I would be grateful if you would ensure the attention of all Unit Commanders.

NOTE PER I CHIRURGI MILITARI ITALIANI.

I. PECULIARI CONDIZIONI DELLA CHIRURGIA DI GUERRA.

1. La chirurgia delle ferite di guerra è differente da ogni altra specie di chirurgia; è differente dalla chirurgia traumatica civile; è differente dalla chirurgia per ferite da attacco aereo.

2. Queste grandi differenze è dovute alle particolari condizioni in cui la chirurgia di guerra si applica, per cui si impone il seguente trattamento per tutte le ferite di guerra:

(a) il ferito spesso non arriva al chirurgo che dopo alcune ore da che è stato ferito - 3 o 4 ore -, qualche volta perfino dopo 2 o 3 giorni.

(b) Accusa di ciò egli soffre freddo, spossatezza, sete e fame, e queste devono essere trattate prima che egli sia pronto per l'intervento.

(c) L'alloggiamento e l'equipaggiamento nelle zone avanzate deve essere molto semplice.

(d) poichè è necessario per i Nuclei chirurgici tenere dei letti disponibili per i feriti successivi, il chirurgo deve essere preparato a mandare i ricoverati al più presto possibile. Questa urgente regola militare soccorisce al chirurgo quello che egli possa o non possa fare - vi sono date formule di trattamento che egli userebbe nella pratica civile ma che si dimostreranno pericolose date l'influenza traumatizzante di un lungo viaggio in ambulanza su strade cattive.

3. Tutti i chirurgi trovano che essi devono modificare i loro sistemi quando operano per la prima volta nelle zone avanzate. Si spera che queste poche note, basate sulla lunga esperienza di molti chirurgi militari, saranno di aiuto a coloro i quali stanno per intraprendere per la prima volta questa forma di chirurgia.

II. AZIONE TRAUMATIZZANTE DEI VIAGGI IN AMBULANZA.

Un viaggio in ambulanza è un fattore traumatizzante, anche se l'ambulanza è guidata con cautela; il viaggio su strade cattive, gli sbandamenti lungo le superfici di strade in pendenza e le curve strette delle diversioni, tutto questo contribuisce ad agitare il paziente ed ad aggravare le sue ferite. L'esperienza insegna che i seguenti casi viaggiano male:

(1) tutte le ferite con sutura. Le ferite non dovrebbero mai essere suturate al primo trattamento.

(2) [illegible]

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

seguente trattamento per tutti i feriti di guerra:

(a) il ferito spesso non arriva al chirurgo che dopo alcune ore da che è stato ferito - 3 o 4 ore -, qualche volta perfino dopo 2 o 3 giorni.

(b) Accusa di ciò egli soffre freddo, spossatezza, sete e fame, e queste devono essere trattate prima che egli sia pronto per l'intervento.

(c) l'alloggiamento e l'equipaggiamento nelle zone avanzate deve essere molto semplice.

(d) poichè è necessario per i Nuclei chirurgici tenere dei letti disponibili per i feriti successivi, il chirurgo deve essere preparato a mandare i ricoverati al più presto possibile. Questa urgente necessità militare suggerisce al chirurgo quello che egli possa o non possa fare - vi sono dati formedi trattamento che egli userebbe nella pratica civile ma che si dimostreranno pericolose data l'influenza traumatizzante di un lungo viaggio in ambulanza su strade cattive.

3. Tutti i chirurgi trovano che essi devono modificare i loro sistemi quando operano per la prima volta nelle zone avanzate. Si spera che queste e che note, basate sulla lunga esperienza di molti chirurgi militari, saranno di aiuto a coloro i quali stanno per intraprendere per la prima volta questa forma di chirurgia.

II. AZIONE TRAUMATIZZANTE DEI VIAGGI IN AMBULANZA.

Un viaggio in ambulanza è un fattore traumatizzante, anche se l'ambulanza è guidata con cautela; il viaggio su strade cattive, gli sbandamenti lungo le superfici di strade in pendenza e le curve strette delle diversioni, tutto questo contribuisce ad agitare il paziente ed ad aggravare le sue ferite. L'esperienza insegna che i seguenti casi viaggiano male:

(1) tutte le ferite con sutura. Le ferite non dovrebbero mai essere suturate al primo trattamento.

(2) E' ben noto che è pericoloso sgomberare i feriti addominali prima di 10 - 12 giorni dall'operazione. E' meno ben conosciuto che, anche trascorso questo tempo, i casi in cui l'incisione laparotomica è settica si può sviluppare un ileo, una peritonite diffusa, o una peritonite saccata, qualora il ferito sia sottoposto ad un viaggio in ambulanza - questi casi dovrebbero essere tenuti fin quando l'incisione è guarita.

(3) i casi di ustioni estese per più di 1/3 della superficie del corpo viaggiano male, ed un certo numero è morto poco dopo aver raggiunto l'ospedale di destinazione. L'esperienza insegna che non è prudente muoverli dopo 48 ore, e di conseguenza è necessario che ciascun caso venga fatto pervenire entro tale termine a quell'ospedale ove riceverà il trattamento definitivo.

/Sheet 2. Solo pochi...

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

Solo pochi casi sono così gravi da rendere necessario che siano trattenuti presso i Nuclei chirurgici avanzati in cui vennero ricevuti.

(4) I feriti al torace spesso sono seriamente aggravati dai viaggi in ambulanza, e in qualche occasione un rapido emotorace è stato causa di morte. Come regola generale è meglio non evacuare i feriti al torace dalle unità chirurgiche avanzate finchè non siano passati 3 o 4 giorni dall'operazione.

(5) Ferite estese dei muscoli e amputazioni traumatiche spesso danno considerevoli disturbi generali - vomito, delirio, agitazione e disorientamento - durante le prime 48 - 72 ore. Tali casi non dovrebbero essere sgomberati durante questo stadio.

III. FATTORE TEMPO.

Principio fondamentale del trattamento della ferite di guerra è l'intervento chirurgico immediato, e a parte il tempo impiegato nelle essenziali e preliminari rianimazioni, non è consentito dilazione; anche per le piccole ferite se la escissione è necessaria, si deve procedere senza dilazione. Ragioni di questa urgenza sono:

(a) è stato dimostrato che l'infezione in una ferita contaminata rimane nella superficie dei tessuti per circa 6 ore ma che dopo questo periodo i microorganismi hanno accesso ai tessuti sottostanti. In queste condizioni è più facile rendere sterile una ferita mediante intervento durante le prime 6 ore che non più tardi, ed è dovere di coloro che sono preposti al controllo, di disporre il trattamento chirurgico entro detto periodo o al più presto possibile.

(b) per quanto la cancrena gassosa è generalmente associata alle ferite massive dei muscoli, esso si è verificata anche in qualche caso di piccola ferita interessante il muscolo. Il più importante fattore nell'impedire la infezione clostridiale consiste in un immediato intervento chirurgico.

(c) Tutti sono daccordo che un pronto intervento è un atto che salva la vita nei casi gravi come nelle ferite penetranti dell'addome, nelle ferite ampie del torace, nelle ferite degli arti con lesioni delle ossa e dei muscoli, però è anche essenziale, per il recupero degli uomini, che le ferite meno gravi ricevano un trattamento tempestivo.

(d) il trattamento delle ferite penetranti nei muscoli si svolge in due luoghi - escisione nella zona avanzata e ritardata prima sutura nell'ospedale di destinazione. Il successo o meno di questa sutura dipende interamente dalla efficienza della chirurgia al fronte, e l'efficienza della chirurgia dipende grandemente dall'es-

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

so danno considerevoli disturbi generali - vomito, delirio, agitazione e disorientamento - durante le prime 48 - 72 ore. Tali casi non dovrebbero essere sgomberati durante questo stadio.

III. FATTORE TEMPO.

Principio fondamentale del trattamento delle ferite di guerra è l'intervento chirurgico immediato, a parte il tempo impiegato nelle essenziali e preliminari rianimazioni, non consentito dilazione; anche per le piccole ferite se la escissione è necessaria, si deve procedere senza dilazione. Ragioni di questa urgenza sono:

(a) è stato dimostrato che l'infezione in una ferita contaminata rimane nella superficie dei tessuti per circa 6 ore ma che dopo questo periodo i microorganismi hanno accesso ai tessuti sottostanti. (d) il trattamento delle ferite penetranti nei muscoli si svolge in due luoghi - escisione nelle zone avanzate e ritardata prima sutura nell'ospedale di destinazione. La successo o meno di questa sutura dipende interamente dalla efficienza della chirurgia al fronte, e l'efficienza della chirurgia dipende grandemente dall'esecuzione dell'intervento in tempo debito dal ferimento. La sutura ritardata potrebbe essere eseguita dopo 3 o 5 giorni.

IV. SANGUE E PLASMA NELLE ZONE AVANZATE.

...

Dal complesso delle esperienze fatte in tutto il mondo emergono certi fatti i quali insegnano che la trasfusione ha le sue limitazioni e che esiste un "optimum" di tempo e di metodo per effettuarla.

(1) il sangue non mantenuto in una ghiacciaia o refrigeratore si deteriora rapidamente e diventa pericoloso. Questo fatto limita la quantità che può essere tenuta dagli enti più avanzati degli ospedali da campo.

/Sheet 3. Le vene...

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

(2) Le vene di un ferito in stato di shock è non spesso in uno stato di attiva contrazione - quale azione compensatoria alla fatica, disidratazione o perdita di sangue - e può essere difficile o impossibile inserire l'ago nella vena, specialmente in un congestionato posto avanzato o in cattive condizioni di luce.

(3) La terapia intravenosa è solo una parte della rianimazione e - eccetto che per le gravi disidratazioni o forti emorragie - è necessario somministrare calore, liquidi per bocca, bendaggio e immobilizzazione, morfina e riposo, onde mettere in condizione il ferito.

(4) Quando sia stato perduto molto sangue solamente il sangue può compensare una circolazione deficiente, e può essere necessario effettuare la trasfusione celermente ed in grande quantità ($1\frac{1}{2}$ - $2\frac{1}{2}$). Ma in ciò vi è una difficoltà, cioè che un ferito rianimato da una sola trasfusione - anche se abbondante - può durante - il viaggio ricadere, ed una ulteriore trasfusione non lo rianima. Si è constatato un maggiore beneficio mediante più modesto ma continuo trasfusioni, ed il migliore trattamento consiste nel trasfondere il primo 3/4 di litro (o anche $1\frac{1}{2}$ nei casi gravi) subito ed il resto a goccia fluente come (si usa) nelle ambulanze. Tali quantità di sangue non possono essere opportunamente custodite dagli enti avanzati. Comunque essi sono dotati di plasma, e normalmente possono essere mandate due o tre bottiglie entro un recipiente isolante ai sezioni di sanità. La cosa più urgente è l'invio del paziente al chirurgo con la minore dilazione possibile. In mancanza di sangue da trasfusione il plasma è un buon succedaneo e sarà comunemente usato per mettere in grado un ferito grave di raggiungere il posto di medicazione ove potrà essere fatta la trasfusione di sangue. Essa può pure essere continuata mediante goccia fluente come (si usa) nelle ambulanze.

(5) La disidratazione per stanchezza, mancanza di cibo e di acqua, non casi veramente gravi il perfetto trattamento è il plasma o la soluzione cloruro-glucosata (pure in dotazione ai reparti avanzati).

Riepilogando:-

(a) La trasfusione di sangue è necessaria solo quando se vi sia stata perdita di sangue - proporzione relativamente piccola.

(b) Quando la perdita di sangue sia stata veramente notevolve, i prima 3/4 o le 1/2 litro potranno essere dati come prima di su ed il rimanente con apparecchio a goccia cadente. Tali casi sono in modesto numero.

(c) Se non fosse disponibile del sangue potrà usarsi plasma.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

(4) Quando sia stato perduto molto sangue solamente il sangue può compensare una circolazione deficiente, e può essere necessario effettuare la trasfusione celermente ed in grande quantità ($1\frac{1}{2}$ - 2#). Ma in ciò vi è una difficoltà, cioè che un ferito rianimato da una sola trasfusione - anche se abbondante - può durante - il viaggio ricadere, ed una ulteriore trasfusione non lo rianima. Si è constatato un maggiore beneficio mediante più modeste ma continue trasfusioni, ed il migliore trattamento consiste nel trasfondere il primo 3/4 di litro (o anche $1\frac{1}{2}$ nei casi gravi) subito ed il resto a goccia fluente come (si usa) nelle ambulanze. Tali quantità di sangue non possono essere opportunamente custodite dagli enti avanzati. Comunque essi sono dotati di plasma, e giornalmente possono essere mandate due o tre bottiglie entro un recipiente isolante di sezioni di sanità. La cosa più urgente è l'invio del paziente al chirurgo con la minore dilazione possibile. In mancanza di sangue da trasfusione il plasma è un buon succedaneo e ad esso comunemente usato per mediare in grado un ferito grave di raggiungere il posto di medicazione ove potrà essere fatta la trasfusione di sangue. Essa può pure essere continuata mediante goccia fluente come (si usa) nelle ambulanze.

(5) La disidratazione per stanchezza, mancanza di cibo e di acqua, nei casi veramente gravi il perfetto trattamento è il plasma o la soluzione cloruro-glucosata (pure in dotazione ai reparti avanzati).

Riepilogando:-

(a) La trasfusione di sangue è necessaria solo quando se vi sia stata perdita di sangue - proporzione relativamente piccola.

(b) Quando la perdita di sangue sia stata veramente notevole, i primi 3/4 o 1/2 litro potranno essere dati come prima Caso ed il rimanente con apparecchio a goccia cadente. Tali casi sono in modesto numero.

(c) Se non fosse disponibile del sangue potrà usarsi plasma.

(d) Prima e più importante provvedimento deve essere quello di inviare il ferente al più presto possibile al chirurgo, il solo unico trattamento dello shock è quello chirurgico.

(e) Il collasso derivante da fatica, dolori e privazione è dovuto a disidratazione, e gli ordinari mezzi di rianimazione sono sufficienti. In casi eccezionali è necessario il plasma o la soluzione cloruro-glucosata, la trasfusione di sangue. La "stanchezza del viaggio" non deve essere confusa con shock.

/Sheet 4. (f) inutile [illegible]....

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

(f) E'inutile la trasfusione nei casi di shock derivanti da ferita al cervello. Una rapida trasfusione è pericolosa in caso di ferita interessante i polmoni (embolismo grassoso).

Trasfusione a goccia nelle ambulanze.

La pratica di continuare la trasfusione in ambulanza mediante lo apparecchio a goccia è utile onde prevenire le ricadute che si verificano dopo le trasfusioni isolate. Sfortunatamente un numero di feriti arriva a destinazione con l'apparecchio non in funzione poichè l'ago è sfuggito dalla vena, a causa del movimento lungo la strada sia dell'ambulanza che del ferito.

Per impedire ciò:-

(a) Scegliere una vena nel terzo medio o inferiore dell'avambraccio piuttosto che alla piegatura del gomito.

(b) Se l'inserizione dell'ago nella vena non è sufficiente esso si potrà inserirlo fino al cono.

(c) Fissare l'ago ed il tubo con aderente bendaggio o leucoplasto, o se questo non è disponibile con filo di alluminio.

V. Escissione delle ferite.

Il metodo di eseguire una adeguata escissione nelle Zone Avanzate, o di fare seguire la suturazione presso l'Ospedale di destinazione dopo quattro giorni, di risultati sempre più soddisfacenti.
Se qualche cosa non funziona è perchè il chirurgo non è stato sufficientemente drastico. Ciò accade particolarmente quando una estesa lesione muscolare è sottostante ad piccolo foro di entrata.
Non si deve aver timore di effettuare una generosa escisione - che potrà essere suturata all'arrivo - ed essa dovrà sempre essere sufficientemente larga onde permettere l'inserizione dei divaricatori, cosicchè si potrà effettuare una completa ispezione ed anche una escissione dei muscoli non sanguinanti e non contrattili.
La imperfetta rimozione dei muscoli necrotici porta al pericolo di cancrena gassosa ed in ogni caso alla sepsi e, di conseguenza, la ferita non può più essere rapidamente suturabile. Se vi sia pure ferita di uscita essa pure dovrà essere escisse onde permettere una soddisfacente ispezione dei sottostanti tessuti.

VI. Steccatura delle ferite del tessuto molle.

Alcune ferite di tessuti molli arrivano dalla linea ancora non ostesati ed una alta percentuale di esse arrivano deliranti. Ciò specialmente se la ferita interessa il muscolo. Il traumatizzante effetto di un viaggio in ambulanza deve essere sempre tenuto presente, ed ogni ferita d'una certa entità e ciò se non è inter-

Declassified E.O. 12065 Section 3-402/NNBC No. 785020

Per impedire ciò:-

(b) Se l'inserizione dell'ago nella vena non è sufficiente esso si potrà inserirlo fino al cono.

(c) Fissare l'ago ed il tubo con aderente bendaggio o laccolasto, o se questo non è disponibile con filo di alluminio.

V. Escissione della ferita.

Il metodo di eseguire una adeguata escissione nelle Zone Avanzate, e di fare seguire la suturazione presso l'Ospedale di destinazione dopo quattro giorni, ha risultati sempre più soddisfacenti.
Se qualche cosa non funziona è perchè il chirurgo non è stato sufficientemente drastico. Ciò accade particolarmente quando una estesa lesione muscolare è sottostante ad piccolo foro di entrata.
Non si deve aver timore di effettuare una generosa escissione - che potrà essere suturata all'arrivo - ed essa dovrà sempre essere sufficientemente larga onde permettere l'inserizione dei divaricatori, cosicchè si potrà effettuare una completa ispezione ed anche una escissione dei muscoli non sanguinanti e non contrattili.
La imperfetta rimozione dei muscoli necrotici porta al pericolo di cancrena gassosa ed in ogni caso alla sepsi e, di conseguenza, la ferita non può più essere rapidamente suturabile. Se vi sia pure ferita di uscita essa pure dovrà essere escisa onde permettere una soddisfacente ispezione dei sottostanti tessuti.

VI. Steccatura della ferita del tessuto molle.

Alcune ferite di tessuti molli arrivano dalla linea ancora non stecsati ed una alta percentuale di esse arrivano doloranti. Ciò specialmente se la ferita interessa il muscolo. Il traumatizzante effetto di un viaggio in ambulanza deve essere sempre tenuto presente, ed ogni ferita d'una certa entità a cui no no è interessato il muscolo dovrà essere protetta da una struttura leggera di gesso comprendente la sottostante giuntura. Il filo di alluminio è troppo elastico e non impedisce il dolore, e tende a scivolare da una parte dell'arto.

VII. Tronchi di amputazione.

E' molto diffusa la pratica di avvicinare i lembi mediante uno o due punti, ma i chirurgi degli Ospedali Generali riferiscono che spesso tra i due lembi si raggruma del sangue. E' questa una fonte di possibile infezione, e senza dubbio in vista di un viaggio in ambulanza, il lasciare completamente aperti i lembi offre il minore rischio; potranno essere suturati in un secondo tempo, ma a breve scadenza.

/Sheet 5. 8. Amputa....

Declassified E.O. 12065 Section 3-402/NNDC NO. 785220

VIII. ANURIA.

Casi di Anuria si incontrano spesso, specialmente nei casi addominali, come pure nei casi di rilevanti agli arti con lacerazioni dei muscoli. Per il passato molti di questi casi erano dovuti ad eccessive trasfusioni di sangue. Altri casi presentano una reazione alla trasfusionr asprezza, emolisi ed eruzioni - l'urina diventa scura e torbida, la lingua secca, e presenza di urea nel sangue. Puó darsi che il soggetto guarisca, come puó darsi che sviluppatasi una completa anuria esso muoia dopo 6 o 8 giorni. La cura é difficile ma vale la pena di tentare il seguente trattamento:-

(a) Citr.Soda gm. 8 Stat. o gm. 4 q.h.

(b) 3% Soda Citr. in 5% Glucos. - come in trasfus. a goccia.

(c) 100 cc. di Gluc. 50% dato in lenta intravenosa.
Ciò é basato sul principio di una disidratazione dell'organo edmato per soluzione ipertonica.

IX. GESSATURA.

La gessatura Tobruk III (Appendico A.) é diventata la gessatura favorita per femore e ginocchio. E' necessario curare i punti che richiedono speciale attenzione nell'applicarla - il gesso non dev'essere piú di tre pollici sotto il tallone; é importante la gessatura a "SHELL" fatta in maniera da comprendere la coscia e l'anello in maniera tale da fermare la gessatura. La Tobruk III é una gessatura che non é bisogno di essere aperta prima dello sgombero.

Le fratture dell'omero viaggiano meglio con la gessatura toraco-brachiale, ma in ogni caso ogni ferita di arti superiori dev'essere bendata al tronco prima dello sgombero con ambulanze.

Il 15° C.C.S. Mobile il quale sgombra per via aereo circa 5000 casi, dá i seguenti avvertimenti in merito all'efficienza delle varie forme di trattamento:-

(a) Ferite penetranti del ginocchio, anche ben gessate, viaggiano male se non trattate fino alla coscia. Ciò si ottiene benissimo con le stecche Tomas, per esempio il Tobruk Splint.

(b) L'ingessatura spesso rimane soffice a causa dell'umiditá atmosferica. Utili saranno a questo propsito batuffoli di cotone.

(c) Tutte le ferite del tessuto molle si prestanto meglio alla steccatura, e quando ne é interessato un muscolo ciò diventa indispensabile. Essa comprenderá la sottostante giuntura.

X. FERITE DELLA TESTA - FACCIA E MANDIBOLARI.

Declassified E.O. 12065 Section 1-402/NNDC NO. 785020

la cura è difficile ma vale la pena di tentare il seguente trattamento:-

(a) Citr.Soda gm. 8 Stat. e gm. 4 q.h.

(b) 3% Soda Citr. in 5% Glucos. - come in trasfus. a goccia.

(c) 100 cc. di Gluc. 50% dato in lenta intravenosa.
Ciò è basato sul principio di una disidratazione dell'organo edmato per soluzione ipertonica.

IX. GESSATURA.

La gessatura Tobruk III (Appendico A.) è diventata la gessatura favorita per femore e ginocchio. E' necessario curare i punti che richiedono speciale attenzione nell'applicarla - il gesso non dev'essere più di tre pollici sotto il tallone; è importante la gessatura a "SHELL" fatta in maniera da comprendere la coscia e l'anello in maniera tale da fermare la gessatura. La Tobruk III è una gessatura che non è bisogno di essere aperta prima dello sgombero.

Le fratture dell'omero viaggiano meglio con la gessatura toracobrachiale, ma in ogni caso ogni ferita di arti superiori dev'essere bendata al tronco prima dello sgombero con ambulanze.

Il 15° C.C.S. Mobile il quale sgombra per via aereo circa 5000 casi, dà i seguenti avvertimenti in merito all'efficienza delle varie forme di trattamento:-

(a) Ferite penetranti del ginocchio, anche ben gessate, viaggiano male se non trattate fino alla coscia. Ciò si ottiene benissimo con le stecche Tomas, per esempio il Tobruk Splint.

(b) L'ingessatura spesso rimane soffice a causa dell'umidità atmosferica. Utili saranno a questo propsito batuffoli di cotone.

(c) Tutte le ferite del tessuto molle si prestanto meglio alla steccatura, e quando ne è interessato un muscolo ciò diventa indispensabile. Essa comprenderà la sottostante giuntura.

X. FERITE DELLA TESTA - FACCIA E MANDIBOLARI.

Poichè queste ferite abbisognano di particolari strumenti; organizzazioni ed ambulatori, sono stati disposti speciali centri presso i quali tutti i casi di tal genere si manderanno. Questi Centri sono presso il 66 (Br) Ospedale Generale presso Rimini, e a menoche questi casi non siano troppo aggravati per potersi muovere o non presentino altre ferite richiedenti urgente trattamento, essi saranno inviati al 66° (Br) Ospedale Generale con la debita tabella "Testa" oppure "Maxillo-facciale" per la prima operazione.

/Sheet 6. FERITE AL PETTO...

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

XI. FERITE AL PETTO.

I seguenti punti sono importantissimi:-

(a) La ferita al petto dovrà essere profondamente come la ferita all' arto; particolare attenzione sarà fatta all'asportazione dei frammenti staccati della costole e scapole. Se durante tale asportazione di costole in una ferita non penetrante in cavità pleurica, capita che la pleura debba essere intaccata poiche i frammenti vi son penetrati, ciò non importa. Il muscolo dovrà essere immobilizzato in maniera di aver una chiusura ermetica. E' ugualmente importante asportare i frammenti dello sterno fratturato o delle cartilaggini di coniugazione.

(b) L'emotorace dovèssere accuratamente controllato. Quando sia disponibile uno specialista esso dovrebbe essere incaricato di effettuarlo o di controllarlo. Il controllo mediante raggi X é necessario.

(c) Quando di faccia lo sgombero per via aerea, ammesso che il paziente sia disponibile per viaggiare entro le migliori condizioni di tempo (4 o 5 giorni dopo l'operazione) egli dovrebbe essere sgomberato al Centro-raccolta toracici.

(d) Quando non é possibile sgomberarlo a questo Centro entro tale periodo di tempo, egli dovrebbe essere inviato ad uno degli ospedale per la primaria sutura ritardata, e per continuare la cura medica dell'emotorace. A ciò fa eccezione una MHB di mezzo pollice o più mostrate dai raggi X entro i tessuti della cavita pleurica. Tali casi dovranno andare al Centro raccolta toracici senza alcuna dilazione, poichè l'esperienza insegna che un certo numero di essi a sofferto di infezione - questa decisione sarà pressa dall'Ospedale Generale.

(e) Non e sempre apprezzato che un emotorace può svilupparsi come una conseguenza di una emoraggia reattiva. I casi di petto lo devone essere esaminati giornalmente perche altrimenti tali conseguenze si possono sviluppare. Molti casi anno viaggiato malamente. Ciò è dovuto attualmente ad un non diagnosticato emotorace o ad uno che si sviluppa durante il viaggio. E' importantissimo prevedere questi pericoli, ed i casi di petto dovranno essere sgombrati prima che siano trascorsi 3 o 5 giorni dall'operazione.
Anche quelli che sono stati sottoposti ad interverto conservative dovranno essere trattenuti nei Centri avangati finchè non si sia certi che sono diventati stabilizzati.

(f) Qaundo un membro superiore é ferito contemporaneamente al petto si propone di usare una ingessature torace-brachiale, e l'apparecchio sarà fenestrato nella parte postero-laterale del

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

chiusura ermetica. E' ugualmente importante asportare i frammenti dello sterno fratturato o delle cartilaggini di coniugazione.

(b) L'emotorace dev̀essere accuratamente controllato. Quando sia disponibile uno specialista esso dovrebbe essere incaricato di effettuarlo o di controllarlo. Il controllo mediante raggi X é necessario.

(c) Quando di faccia lo sgombero per via aerea, ammesso che il paziente sia disponibile per viaggiare entro le migliori condizioni di tempo (4 o 5 giorni dopo l'operazione) egli dovrebbe essere sgomberato al Centro-raccolta toracici.

(d) Quando non é possibile sgomberarlo a questo Centro entro tale periodo di tempo, egli dovrebbe essere inviato ad uno degli ospedale per la primaria sutura ritardata, e per continuare la cura medica dell'emotorace. A ciò fa eccezione una MFP di mezzo pollice o più mostrate dai raggi X entro i tessuti della cavita pleurica. Tali casi dovranno andare al Centro raccolta toracici senza alcuna dilazione, poichè l'esperienza insegna che un certo numero di essi a sofferto di infezione - questa decisione sarà pressa dall'Ospedale Generale.

(e) Non e sempre apprezzato che un emotorace può svilupparsi come una conseguenza di una emoraggia reattiva. I casi di petto lo devone essere esaminati giornalmente perche altrimenti tali conseguenze si possono sviluppare. Molti casi anno viaggiato malamente. Ciò e dovuto attualmente ad un non diagnosticato emotorace o ad uno che si sviluppa durante il viaggio. E' importantissimo prevedere questi pericoli, ed i casi di petto dovranno essere sgombrati prima che siano trascorsi 3 o 5 giorni dall'operazione.
Anche quelli che sono stati sottoposti ad intervento conservativo dovranno essere trattenuti nei Centri avanzati finchè non si sia certi che sono diventati stabilizzati.

(f) Qaundo un membro superiore é ferito contemporaneamente al petto si propone di usare una ingessature toraco-brachiale, e l'apparecchio sarà fenestrato nella parte postero-laterale del torace per permettere l' aspirazione dell' emotorace, se ciò é necessario.

CSJ

Declassified E.O. 12065 Section 3-402/NNDG NO. 785020

Appendice A.

Dettagli dell'apparecchio gessato "Tobruk"

(1) Applicare cerotto da trazione esattamente al disotto della ferita.

(2) Prèparare su di una stecca Thomas con fascia di flanella un bendaggio fissato con spilli di sicurezza. Le fascie devono essere messe in modo che un terzo dell'arto giaccia al di sopra delle sbarre della stecca, e due terzi dell'arto stiano al disotto delle stesse sbarre. Per maggior commodità di trasporto il ginocchio dovrà essere piegato a dieci gradi. Ciò si potrà ottenere o curvando la stecca o usando una stecca dritta con un buon tampone al disotto del ginocchio.

(3) Proteggere il malleolo e la regione del tendine d'Achille con feltro adesivo o feltro ortopedico o cotone grezzo.

(4) Imbottire tutta la superficie anteriore dell'arto con molto cotone, specialmente sopra la rotula e sopra la cresta tibiale. L'imbottitura dovrà estendersi molto verso i lati dell'arto e dovrà impedire che la parte superiore della gessatura ferisca la cute; mettere due imbottiture tra la faccia esterna della coscia e l'anello della stecca in modo da tenere l'anello stesso lontano dal perineo.

(5) Adattare l'anello contro la tuberosità ischiatica; per mantenere questa posisione mentre si prepara l'apparecchio gessato un assistente dovrà sostenere l'anello.

(6) Fissare il cerotto di trazione all'estremità distale della stecca.

(7) Avvolgere la stecca e l'arto con bende gessate. All'estremità prossimale la fasciatura gessata deve ricoprire le due imbottiture protettive da includere parte del tratto esterno dell'anello. All'estremità distale la fascia gessata dovrà fermarsi circa tre pollici al disopra del malleolo. Fare aderire bene le fascie gessate alle sbarre della stecca; ciò appiattisce la gessatura intorno all'arto, e rende questo più stabile nell'apparecchio gessato.

(8) Adattare la pianta del piede alla stecca con un cerotto adesivo. Imbottire bene la pianta del piede con mollicatura o con cotone grezzo in modo che essa sia bene appoggiata. Imbottire con cotone il dorso del piede. Tenere il piede in giusta posisione mediante fasciatura gessata o fascie di flanella. Tutte queste separatamente dalle gessature delle gambe. I vantaggi dell'

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

essere messe in modo che un terzo dell'arto giaccia al di sopra delle sbarre della stecca, o due terzi dell'arto stiano al disotto delle stesse sbarre. Per maggior commodità di trasporto il ginocchio dovrà essere piegato a dieci gradi. Ciò si potrà ottenere o curvando la stecca o usando una stecca dritta con un buon tampone al disotto del ginocchio.

(3) Proteggere il malleolo e la regione del tendine d'Achille con feltro adesivo o feltro ortopedico o cotone grezzo.

(4) Imbottire tutta la superficie anteriore dell'arto con molto cotone, specialmente sopra la rotula o sopra la cresta tibiale. L'imbottitura dovrà estendersi molto verso i lati dell'arto e dovrà impedire che la parte superiore della gessatura ferisca la cute; mettere due imbottiture tra la faccia esterna della coscia e l'anello della stecca in modo da tenere l'anello stesso lontano dal perineo.

(5) Adattare l'anello contro la tuberosità ischiatica; per mantenere questa posizione mentre si prepara l'apparecchio gessato un assistente dovrà sostenere l'anello.

(6) Fissare il cerotto di trazione all'estremità distale della stecca.

(7) Avvolgere la stecca e l'arto con bende gessate. All'estremità prossimale la fasciatura gessata deve ricoprire le due imbottiture protettive ed includere parte del tratto esterno dell'anello. All'estremità distale la fascia gessata dovrà fermarsi circa tre pollici al disopra del malleolo. Fare aderire bene le fascie gessate alle sbarre della stecca; ciò appiattisce la gessatura intorno all'arto, e rende questo più stabile nell'apparecchio gessato.

(8) Adattare la pianta del piede alla stecca con un cerotto adesivo. Imbottire bene la pianta del piede con medicatura o con cotone grezzo in modo che essa sia bene appoggiata. Imbottire con cotone il dorso del piede. Tenere il piede in giusta posizione mediante fasciatura gessata o fascie di flanella. Tutto questo separatamente dalla gessatura della gamba. I vantaggi dell'apparecchio "Tobruk" sono:

(1) Minore quantità di gesso rispetto agli altri apparecchi.
(2) Maggiore speditezza a farsi.
(3) Maggiore facilità di rimozione, se necessario.
(4) Commodità e praticità per il trasporto dei fratturati del femore o dei feriti della articolazione del ginocchio.

SUBJECT:- Leave - Officers.

Rear HQ Eighth Army, CMF.

Tel Ext: 207.
K 2/ACC A.

10 Mar 45.

All Branches,
Main and Rear HQ Eighth Army.

In view of the present demand by officers of this Headquarters for leave vacancies, it is thought that information on the facilities available might be of interest. The following table shows the establishments at present catering for officer leave in the Eighth Army:

Location.	Leave Centre.	Intake days.	Remarks.
(a) ROME.	Various Hotels (BOSTON, EDEN etc.) 51 Rest Camp. (7 miles South of ROME on route 7).	Wednesdays and Fridays of each week. Mondays of each week.	Period of leave - six clear days. Actual allocation made by Town Major (Er) ROME on presentation of pass. Period of leave - six clear days. Accommodation secured on presentation of pass at Rest Camp. Accn consists of houses in which each officer has his own room. Beds, bedding and batmen supplied by Rest Camp. Trams pass the Camp and there is a 5 minute lorry service to town.
(b) FLORENCE.	SAVOIA Hotel.	Wednesdays, Thursdays, Fridays and Saturdays of each week.	Period of leave - six clear days. Accommodation secured by presentation of pass to Military Manager. Single and double rooms. Full restaurant service. Tea dances every Wednesday and Saturday evening.
	HELVETIA Hotel.	Every four days commencing 8 Mar 45.	Period of leave - three clear days, or two periods to make six clear days. Small number of vacancies placed at disposal of Eighth Army by HQ 13 Corps. A charge of 50 lire per day is made. Passes issued by this office.
(c)	SAVOIA Hotel.	As notified.	Period of leave - six clear days. A mountain ski-ing resort. Officers taking up vacancies at this resort should be prepared for six days strenuous exercise. Ski equipment available at hotel. A certain number of women officers are allotted vacancies on each intake.
(d) SARNANO. (Near MACERATA)		Wednesdays of each week.	Period of leave- six clear days. A mountain winter sports centre. Snow suitable for ski-ing up to the end of March. A small number of vacancies allotted to this [illegible] 13 Corps.

1662

Subject:- Loss of Hay & Straw CC3/60/807/A

Rear H.Q. 8th Army, CMF

A claim is being investigated by this office, in which it is alleged that a "Capt LUBIANO (mixed Group), IV Reparto Salmerie" was involved.

The incident occurred on the 10 Oct 44 at PALAZZUOLO DI ROMAGNA: Map Ref.:- M 0406

From enquiries made it is believed that the a/m may be a "Mule/Supply Coy" working with the 8th Army.

It is agreed that the a/m details are very "flimsy", but any information that you can give as to the exact designation of the unit to whom this officer might belong, would be greatly appreciated.

MINISTERO DELLA GUERRA
Direzione Generale di Sanita Militare

Ref: 141/ML di prot. 27 Jan 45.

To: All Medical Directorates

Copy: MMIA for information

Subject:- Medical Procedure where Patient is Ordered Rest in Barracks or Light Duties

Units recently have reported a large number of cases where the soldiers are given Attend 'C' (Excused Duty) or Attend 'B' (Light Duty) for periods up to 30 days.

As regards to this we judge necessary to establish some ruling to be applied by the Medical Directorates, Military Territorial Commands, Heads of Medical Offices of Divisions and C.Os. of units, each in the scope attributed to them, they also will carry out the preparation and posting of those rules and see that they are carried out.

The Army regulations do not fix a maximum duration of periods for which the soldier might be given Attend 'C' or Attend 'B' because it is implicit that those cases should be of short duration as the patient can only suffer from slight ailments curable at the unit.

Notwithstanding, we judge advisable to issue the following instructions to avoid any further repetition of those cases and also uncertainty in the action of young medical officers.

The maximum duration of period for which the soldier is given Attend 'C' is hereafter fixed at 4 days, after the days the soldier reports sick, after which, should the soldier still suffer from his ailment, he will be sent to the Company M.I. Room or sick bay unless he can be given a further period of Attend 'B' for another 4 days following the period he was granted Attend 'C'.

The period of sickness of a soldier for slight ailments or slight wounds which would cause the Attend 'C' or Attend 'B' rules to be applied, must not exceed 8 days, after which, if the soldier should still suffer, he will always be sent to the Corps M.I. Room for admission.

The Attend 'C' or Attend 'B' cases will be visited daily by medical officer until the end of their cure either owing to recovery or admission to Corps sick bay.

The above principles will be applied taking into consideration the availability of beds, the transport and location of the unit.
