SUBJECT:- Accommodation - Zone "A".

HQ., 5 Territorial Command.

Confirming conversation Majors HERMAN - FERRARI of even date.

1. In Zone "A" there is a considerable amount of accommodation earmarked and being reserved by Town Majors for the Italian Army.
A certain amount of this property is already vacant and caretakers are being employed, and paid from British funds, to prevent looting or occupation by civilians.
On "H" Day all British requisitions cease to be effective, and together with the fact that the accounts of Town Majors also become non-effective, it will not be possible for the British to continue to employ, or pay, these caretakers.

2. In view of the fact that the Italian Army, so far, has not been granted the power to requisition property, will you kindly state what your policy with regard to this problem is going to be, in order that Town Majors can be informed of the method to be employed in the disposal of properties at present on their charge.

3. If caretakers are going to be employed, it is suggested that the ones at present working for the British should continue. The Town Majors concerned have promised to submit lists, showing who is employed, together with Identity Card No's etc., for your information.
They further advise that if the properties are left vacant, for any period, they consider that these will be quickly occupied by civilians, who will require a lot of force to eject them.

4. Will you kindly take immediate action to clarify this problem, and inform this HQ accordingly on any decisions taken.

Ref. your HQ letter 6278/TAV/V dated 8 August '47, and subsequent correspondence, in respect of the Bunker at Punta di Grado.

Article 48 of the Peace Treaty clearly states that all fortifications in Italy within 20 Km of the Italo-Jugoslav frontier shall be destroyed.

The Bunker in question is well inside this limit, and there would, therefore, appear to be no objection to its destruction, or in fact to any other in this locality.

Subject:- Accommodation for the Italian Army

Reference your 217256/II dated 12 July 1947.

1. It is understood that, while it was the intention of the Italian Cabinet to confer powers of requisitioning on the Italian Army, a decree to confirm this has not, and is not likely to be, promulgated.

2. The conferment of powers of requisitioning would in any event not have enabled the Italian Army to requisition in what territory at present governed by AMG VENEZIA GIULIA until 'R' Day. It was therefore agreed that until 'R' Day vacated properties required by the Italian Army would be held under Allied requisition and guarded by civilian caretakers employed by the Army, Italian troops not being allowed into the frontier areas until 'R' Day.

3. If however the Italian Army is not going to be given powers of requisitioning the Allied Authorities consider the civilian properties should be handed back to their civilian owners.

A suggestion has been made by the MANTOVA DIV, that as they are not allowed to occupy TREVISO Bks, GORIZIA, that these Bks be handed back for occupation by an allied unit, thus possibly releasing accommodation elsewhere for the Italian Army.

The FERRUCCIALE Bks, MANTOVA was mentioned as a specific case.

Hey this proposal be examined please.

Ref. to letter Q/001/L.F. dated 5 July 1947 of your A.F.H.Q. (copy attached for Udine Mil Terr Command and General Engineer Directorate).

This Ministry fully agrees on the advisability of handing over of the premises already requisitioned by Allied troops, be made to the offices of the Military Engineer for the requirements of the Italian troops.

It has been found, however, that the derequisition of some of the premises in question has been notified by Allied Commands in the Veneto not only to the Offices of the Italian Military Engineer but also to owners, and that the latter were authorised to occupy them before the taking over of the Italian Engineer.

Please issue detailed instructions to the Commands in the Veneto not to inform the owners of the derequisitioning of a/m premises, and not to allow these to be occupied by them or by civilians, but to hand over the empty premises to the offices of the Engineer.

SUBJECT: Accomodation for the Italian Army

TO: HQ CB (US) Inf Div (2)

Further to para 4 of this GH letter of even number dated 25 Jun 47.

1. 5 Italian Territorial Command have now submitted, through 5 MMU, lists of properties in GORIZIA and GORIZIA, which they wish to take over on derequisition by Allied Forces. Copies of the lists are attached at Appendices 'A' and 'B'.

2. Permission has not yet been granted for Italian troops to enter the zone immediately to the west of the proposed new Italian frontier; in which GORIZIA and GORIZIA lie. Approval has however been given by this GHQ for the safeguarding of vacated properties in this zone by civilian caretakers employed by the Italian Army.

3. Should a day be indefinitely postponed, which seems likely, the policy of allowing properties evacuated for the Italian Army to remain vacant will be reviewed.

1. The inspection kindly allowed by this B.L.U. to the representatives of this HQ on 13 Jul. at the "Spaccamela" Bks was very useful.
A large quantity of material has been ascertained to belong to the Italian Army.

2. We beg now this BLU to take interest so that a satisfactorily solution is made in respect to the material.

3. In fact :

a) Machinery in the 1st hut of the western part of the Bks. It belongs to Detached Arty Sect as per appended documents. It is necessary that it can be removed. No difficulty is done by the Capt. consignee as the machinery is of no use for him.

b) Various Italian material in the Easter part of the Bks. All the beds belong to the Italian Army.

Kind interest of 5 B.L.U. is asked for so that removal of that material is allowed as the Italian Army needs it actually.

Our thanks.

By order,

- Ufficio Territoriale ed AA.VV. -

Udine, lì 16 LUG. 1947

Pa. 5745 Tav/V di prot.

OGGETTO: Udine - caserma "Spaccamela".=

AL 5º B.L.U. SEDE

^^^^^^^^

1º- La ricognizione che la cortesia di codesto B.L.U. ha concesso ai rappresentanti di questo Comando il giorno 13 corrente nella caserma "Spaccamela" è stata molto utile.
Moltissimo materiale e macchinario sono stati riconosciuti come appartenenti all'Amministrazione Militare Italiana.

2º- Si prega ora l'interessamento di codesto Ufficio per ottenere una soddisfacente soluzione delle questioni sorte ed attinenti ai materiali stessi.

3º- In particolare :

a) macchinario esistente del 1º capannone del lato ovest della caserma. Appartiene-come da documentazione annessa - alla Sezione Staccata Artiglieria.
E' necessaria la sua rimozione per la quale il capitano consegnatario non ha alcuna difficoltà in quanto il macchinario non gli è necessario.

b) materiale vario italiano. Esistente nel lato est della caserma.
Tutte le brande, quasi tutte le reti metalliche appartengono all'Amministrazione Militare Italiana.
Pregasi il premuroso interessamento di codesto B.L.U. affinchè sia ora consentita la rimozione di tale materiale estremamente necessario ai bisogni dell'Esercito.

Si ringrazia e si confida in un concreto risultato dell'azione svolta.=

'Q' Branch
G.H.Q. C.M.F.

Ref my AQ/79/181 dated 25 Jun 47 (to which a reply is still awaited) and in particular para 2 (iv).

1. The following cases are quoted.

(i) 'X' Ord Stores. On 12 Jul Italian representatives were permitted to visit 'X' Ord Stores. They discovered a considerable quantity of material (beds, tent poles, vehicle covers etc) which was undoubtedly Italian Army property. As it was known by this HQ that the stores were shortly to be handed over to C.D.C., an immediate Signal was sent to ORD GHQ asking if the Italians could recover their property. A reply was received on 17 Jul saying that this would not be possible.

(ii) La COMINA Eng Stores. These Stores were handed over to C.D.O. on or about 10 Jun 47. It was known that certain machinery, - Italian Military property was included in the handover. This machinery will presumeably be passed on to ARAR, the only chance of recovery that the Italian Army will then have, will be to buy back their own property from ARAR!

2. I feel that it is my duty to bring these cases to your notice, as undoubtedly the Italians consider that we are using pretty sharp methods, it would appear that they have reason to think so.

3. In the 761 REME Wksps UDINE and the R.E. Dump UDINE, there is a considerable amount of undisputed Italian Army machinery. I would like to give an assurance to the Italians that this machinery will be returned to them and not handed over to ARAR.

4. There may be other places in which Italian Army property is located. I feel that the Italians should be given an opportunity to inspect such places and make claims on these items which they consider that they have a right to. These inspections to be made sometime before the property is handed over to the CDO.

5. I would be glad if this whole question can be given some thought, as it is evident to me that the Italians are some what dissatisfied.

Italian Army have approached this Unit pointing out that in the LA CAMPA Camp there are a number of Italian Army property Stores, mostly permanent fixtures. They fear that when you have finished there, you will hand the whole Camp to A.R.A.R. who will promptly snap up and sell these stores.

I am therefore writing to tell you that an Italian Officer will visit you in the near future. I will be grateful if you will allow him to recognize and point out to you the Italian Army Stores there in order that, when you leave, these stores are handed back to the Italian Army - NOT to A.R.A.R. please.

Subject:-Derequisitioning of Accommodation

Reference is made to your letter 210890 of 5 May

1. The Allied Authorities prefer that the present procedure whereby on de-requisitioning properties are released by the Allied Authorities to the Genio Militare should continue. The present procedure is well known to all concerned and a change may lead to delay and confusion.

2. It is suggested, therefore, that the Italian Military authorities take up directly with the Genio Militare their requirements in property now held under Allied requisition.

3. The Allied Military Authorities will cooperate with the Udine Military Territorial Command and keep it informed of intended dates of derequisitioning so as to enable it to notify the Genio Militare of its requirements in ample time.

Further to verbal communication, it is made known as follows:

Because of late slow warning, the handing over of the concerned huts happened when civilians and ARAR had already occupied them.

Later on, a guard was arranged by this Comd; then ARAR took away some mobile materials and put them into its own depots.

The results, due to the slow notice of the Barracks being vacated, are as follows :

- This Comd ordered a guard service to watch materials, which were later taken by another administration.

- The Military Administration will now have to purchase from this Administration and at their prices said materials, which were in its own huts.

In order to avoid the recurrence of such inconveniencies, please inform Allied Comds that a further communication has to follow the preliminary notice of removing. This is in the interest of both Italian and Allied Administration and as agreed between both central Authorities.

A seguito comunicazione verbale si rende noto quanto segue:

Causa tardiva segnalazione la restituzione dei capannoni in oggetto è avvenuta dopo che civili e l'ARAR erano entrati nell'immobile.

Successivamente fu posta da questo Comando una guardia; poi furono portati via materiali mobili che l'ARAR incamerò nei propri depositi.

Quanto brevemente esposto - conseguenza della tardiva segnalazione dello sgombero della caserma - ha fatto sì che:

- questo comando dovette disporre di un servizio di guardia per materiali che vennero successivamente incamerati da un'altra amministrazione;
- l'Amm.ne Militare dovrà poi acquistare tali materiali, che si trovavano nei propri fabbricati, da un'altra Amm.ne, ai prezzi stabiliti da quest'ultima.

Ad evitare inconvenienti simili - che si basano sempre su un equivoco - si prega avvertire i comandi alleati che il preavviso di sgombero di una settimana, come vien fatto ora, dev'essere seguito da una successiva comunicazione e questo nell'interesse delle due amministrazioni italiana ed alleata e come stabiliscono gli accordi fra le autorità centrali dei due paesi.-

AMG UDINE report that they have complied with the CinC instruction that no more bunkers on the GRADO Coast will be destroyed. They point out however that unauthorised civilians will very quickly complete the destruction of these bunkers unless they are properly guarded.

It is suggested that you provide guards to safeguard them. Moreover if any organised body of workers still attempts to destroy or remove material, names and particulars can be taken by your guard and AMG will deal with the offenders accordingly.

Ref your TM/44/UD/Reg 104 of 14th June and your even ref of 21st May. An attempt has been made to check tools and materials against the list forwarded, but the list is not explicit and renders it impossible to check with accuracy. I sugest that a representative of the italian authorities visit this workshop on a Saturday afternoon or Sunday with a view to making a phiysical check against the list.

SUBJECT: Accommodation for the Italian Army.

TO: 88 (US) Inf Division

1. A letter, a copy of which is attached at Appendix 'A' has been received from Italian Land Forces Branch AFHQ asking that civilian property requisitioned and occupied by Allied Forces in North East ITALY be handed over to the Italian Army when vacated.

2. It is not proposed by this GHQ to hand over such property direct to the Italian Army on account of the probable political repercussions. It has been agreed, however, and instructions have been issued accordingly, that in the case of civilian property occupied by British Units, Town Majors should inform the Italian Army of the date of de-requisitioning in order that the Italian Army may have the opportunity of re-requisitioning the property immediately. It is requested that you should take similar action in the case of properties requisitioned on American account.

3. A list of properties in UDINE Provinces at present occupied by units under your command, which the Italian Army wishes to re-requisition for its own use when they have been vacated by the present occupiers is attached at Appendix 'B'. If you are in agreement with the proposal at para 2 above, will you please arrange to give advance notice of the dates of de-requisitioning to 5 British Liaison Unit.

4. A list of properties in future Italian territory in VENEZIA GIULIA is in course of preparation, and a list of American-held properties will be forwarded to you for similar action in due course.

'Q' Branch

1. This HQ is not entirely familiar with the policy regarding the disposals of surplus stores, equipment etc. The Italian Army are vitally interested in this question and frequently ask us for information, which we are not always able to give them.

2. The following examples illustrate our difficulties.

(i) It is known that the Italian Army is obtaining a very large amount of Stores (incl vehicles) from B.T.A. The Stores are usually consigned to the C.O. this Unit and on arrival by rail at UDINE are disposed of by my C.O. in accordance with information received from the Italian Territorial Command. The Stores are presumeably on repayment.

(ii) Periodically information is received from I.L.F.B. A.F.H.Q. to the effect that certain items (usually Artillery Equipment) has been released to the Italian Army from 'X' Ord Stores. We arrange collection and disposal.
These Stores are again presumeably paid for by the Italians.

(iii) From time to time information is received from various sources, that items of equipment, Stores or machinery of Italian origin are available for the Italian Army. There are in some cases normal C.E.M. and in others property which has at one time been requisitioned by the Allies.

(iv) The Italian Army frequently quote cases of Italian property being located in various British dumps and have hinted that this is being disposed of to ARAR (?) etc, while in fact is the Status of Stores etc which have been requisitioned by the Allies? It is obvious that expendable stores, eg cement cannot be returned, but what is the form on, say, machinery etc? Presumeably it should be returned to the rightful owners :- who decides who are the rightful owners ? - disputes sometimes arise as to whether the are the Italian Army, Air Force or even a Civilian Firm.

(v) It is known that B.L.R.d vehs go to ARAR. Is there any chance of the Italian Army acquiring any of these vehicles if they want to prior to disposal to ARAR.

(vi) What other types of stores, equipt etc go to ARAR? How does the Ministry of Supply come into it ?

HQ 3 ACRA

1. 5 Territorial Command UDINE state that machinery the property of the Italian Military Administration for the working of wood, iron and leather is at present located at "Spaccamela" Barracks.

2. With the large influx of Italian Units in this area it is now desired to know whether this machinery can be returned to the Italian Army.

3. It will no doubt be appreciated that this particular type of machinery cannot now be duplicated from commercial sources and the needs of the new Italian Army in this respect are daily becoming a matter of serious concern.

4. Will you please look into the matter and inform this HQ as soon as possible in order that a definite answer may be given to the Italian Command.

In conformation of conversation JOHNSTONE - Lt Col De LORENZO today.

1. The house of Count PUPPI at VILLANOVA. It is much regretted that it has been found that the A.M.G. ruling that this house and barns is not to be used for billetting of troops of any nationality is unfortunately well founded. The only exception to the above is that the Alpini HQ of Tolmezzo Bn there, can remain there, until such times as its task on the west Bdy of V.G. is finished. The reason is that the two barns required by 2 Coys of 1/114 Regt and indeed all the available buildings are required for the stored grain. Cutting commences in the very near future. As food is Top priority it is much regretted therefore that these buildings will not be available.

2. Caserma Funzionale - PALMANOVA. It now seems certain that an internment will probably not be required for these barracks when the QUEENS R.W.S move out.

3. Fortnightly Location Statements. Now that there are many Italian units and frequent small changes, B.L.U. has to forward accurate Location Statements fortnightly to Allied Formations. Please therefore furnish the next with Map references on 14th June. Please also add Army barracks handed over to Italian Army during the previous fortnight, for example Visco Barracks near PALMANOVA etc etc.

OGGETTO: Parco di Casarsa.-

AL COMANDO DEL 5° B.I.U. S E D E

Il Maggiore Johnstone di codesto Comando ha comunicato che il 18° Park, lasciando i locali di Casarsa, toglierà tutta la recinzione perimetrale e porterà inoltre via tutti i mezzi di illuminazione elettrica compresi i gruppi elettrogeni.-

Come è noto, presso il predetto parco saranno prossimamente accantonati tutti i mezzi automobilistici provenienti dall'Austria ed i carburanti e lubrificanti di scorta della Divisione "Mantova".-

Questo Comando prega vivamente codesto perchè si compiaccia intervenire presso la competente Autorità Alleata affinchè sia lasciato al Comiliter il parco di Casarsa con la recinzione ed i mezzi per fornire l'illuminazione elettrica per il campo stesso.-

BUNKERS F.C.

Dear Johnstone,

Thanks for trace map though on too small a scale to be of much use.

I have inspected all the sites.
The local firm has been instructed to carry on work only on the "bunkers" already partly destroyed.

In Belvedere only three untouched bunkers discovered.

Marano has only one bunker left, two others dismantled by unauthorized persons.

Lignano three bunkers seen, one already completely removed by unauthorized persons.

Grado is outside the competence of this HQ.

Yours sincerely

Dear Watkin.

1. Your AQ/79, 31 May 47, reached me today.

I have seen G5 who have promised me to write GHQ asking them to arrange for Italian Army rep to be present before property is returned to the Owner.

The local Military Commander appears to possess sufficient powers to then ensure the Italiam Army takes over what they need.

This is the best we can do as GHQ are not going to hand over direct to the Italian Army the property of Italian civilians.

2. I have explained your views re Bradley and your W.E. to Col A/Q.

TO : - 5 B.L.U. - UDINE

Direzione Lavori e Servizi Genio has informed that the a/q Depot is going to be evacuated by the British Troops (on 5 June) and handed over to the Italian Air Force.

In that Depot there are large quantities of Genio material (material for bridges, electric engines, other engines, pipes, wood a.s.o. ).

It is therefore requested that the part of the Depot where the material is stored be passed to Genio Militare & not to I.A.F. as the material was given to the Allied Authorities by Genio Militare.

La Direzione Lavori e Servizi Genio ha segnalato che l'ex Deposito del Genio ferrovieri di La Comina (Pordenone), sta per essere sgomberato dagli Inglesi (15 giugno) e passato all'Aereonautica Italiana.-

Nel predetto deposito esistono ingenti quantità di materiali del genio (elementi di ponte, motori elettrici ed a scoppio, tubazioni, legname ecc.)

Si prega pertanto compiacersi disporre che la parte del deposito ove giacciono i materiali sopracitati, sia passate in consegna al Genio Militare, che già ne era consegnatario anzichè all'aviazione, dato che a suo tempo il Genio dovette cederli all'Autorità Militare Alleata.-

SUBJECT : - Handing over of requisitioned premises to the Italian Army Adm.

TO : - 5 B.L.U. - UDINE

Ref. your AQ/79 of 28 May and 6638/Q 2 of GHQ CMF dated 11 May

The dispositions taken by Presidence of the Minister Council(sent to this BLU with our 1553/OA of 18 May) have the purpose of resolving urgently in the simplest way the situation in respect of lodging of several Units in this territory.

The dispositions have not yet had the official statement of the laws but it is supposed that they will have it because of their very high military importance.

On the other side this Comd cannot agree with the GHQ suggestion as every possibility of requisition by the Italian Military Admin is stopped by the laws w.e.f. 31 May 47.

It is therefore necessary, in order to avoid difficulties with the owners of houses requisitioned, that requisitions made by the Allies are hold on and handed over through the Town Major to the Italian Military Administration.

The Town Majors could inform the Civil Authorities about the handing over in order to state that w.e.f. the date of transfer, the expenses of requisitions will be sustained by the Italian Army.

Le disposizioni prese dalla Presidenza del Consiglio dei Ministri e rese note con foglio n. 1553/O.A. del 18 corr. indirizzato a codesto B.L.U., nella loro forma e spirito, hanno lo scopo di poter risolvere d'urgenza e nel modo più semplice la situazione derivante dalla necessità di sistemare nel territorio i numerosi reparti qui destinati.

Per quanto le disposizioni non siano state perfezionate in decreto legge, tuttavia, dato il darattere di necessità militare che rivestono, vi è fondato motivo per ritenere che esse debbano divenirlo entro breve tempo.

Da'altra parte questo Comando non può attenersi al suggerimento del G.H.Q. in quanto, per disposizione di legge, è decaduta entro il 31 c.m. ogni facoltà di requisizione da parte dell'Amministrazione Militare Italiana.

Pertanto, onde non incontrare opposizioni da parte dei proprietari degli immobili requisiti, è necessario che la requisizione in atto da parte alleata venga mantenuta e passata - tramite i Town Majors - al rappresentante dell'Amministrazione Militare Italiana.

Di tale passaggio - che, come già detto, sarà in avvenire sanzionato - i Town Majors potranno avvertire le Autorità Civili precisando loro che dalla data di consegna degli immobili all'Amministrazione Militare Italiana questa dovrà sostenere direttamente l'onere della requisizione.=

Dear ,

A question which has rather come to a head since you were up here is that of requisitioning property by the Italian Army. Your Q001/LF of 10 May refers.

G.H.Q. state that they cannot take any action on this until instructed by G 5 A.F.H.Q. G 5 have apparently taken no action. G.H.Q. maintain that they must still stand by their policy outlined in their 6630/2 dated 11 Apr (Copy to you) until advised by G 5 to the contrary.

Can you get on to G 5 and ask him to pass on the necessary information to G.H.Q.

One point in your letter "Subject - and Copy to" Venezia Giulia doesn't really come into it, as that province is in Zone "A".

Yours Alan

SUBJECT:- Handing over to Italian Military Administration of Requisitioned premises.-

5 B.L.U. - U D I N E -

We have been informed by our Liaison Officer at the Allied Command that the Town Majors of the 86 Area have received no dispositionx regarding the handing over of derequisitioned premises to the Italian Military Administration.

The consequence is that the Town Majors ( particularly the Treviso Town Major) derequisition premises without obeying to the dispositions of the Ministers Council Presidency.

We would be very grateful if this B.L.U. could intervene in regard to the above.

AL 5° B. L. U. SEDE

'^'^'^'

Da una comunicazione in data 24 maggio pervenuta dall'Ufficiale superiore da questo Comando incaricato di prender in consegna gli immobili che vengono lasciati liberi dalle truppe alleate, risulta che i Town Major dipendenti della 86^ Area (Venezia) non hanno disposizioni relative al passaggio delle requisizioni di immobili da parte Alleata all'Amministrazione Militare Italiana.

Ne consegue che detti Town Major -( in particolare quello di Treviso)- continuano a derequisire immobili senza tener conto di quanto disposto dalla Presidenza del Consiglio dei Ministri a beneficio delle truppe che affluiscono in zona.

Sarebbe gradito un cortese intervento di codesto BLU. al riguardo.-

3. The fact remains however, that the most that Zone Majors or Allied Formation H.Q. can do is to give early warning in advance to the Italian Army that buildings will be de-requisitioned. They cannot handover the requisition to Italian Army. They must, first de-requisition to the Civilian owner. It is up to the Italian Army therefore, having had prior warning, to requisition the property the very next day.

Reference attached report from 5 BDU.

1. It is requested that you will investigate this matter and report. It is important that when a unit vacates accommodation it is properly handed over and where necessary guarded. When the accommodation is an Italian barracks the Italian Army is usually only too glad to guard it even if it is not yet available for final handing over to them.

2. Your attention is directed to GRO No... advance copy of which is attached.

1. The following facts are brought to your notice.

(i) On 7 May a Platoon of 958 Coy RASC without notice vacated their accommodation at [redacted] Barracks PALMANOVA. [redacted] Barracks is also occupied by 13 Corps Troops REME W/Shops, although the part occupied by the RASC was separate to and entirely cut off from that occupied by REME. In fact personnel of the REME W/Shops had no idea that the RASC had vacated until some hours later.

(ii) The result of this vacation without warning, was an immediate invasion by civilians. My G.I. visited the Barracks and has reported that, the buildings were stripped, doors, window frames, stoves, electric light fittings etc having been removed wholesale.

2. It will be appreciated that incidents such as that quoted above, together with others of a similar nature which have been reported to this HQ do little to improve the relations between the British and Italian Armies.

TO: 5 ELU

Reference Minute 10 of the Minutes of the Chief of Staff's Conference held in TRIESTE on 2 Apr 47.

1. It is considered that some clarification of this minute is required. You will appreciate that it is not possible for the British authorities to transfer a requisition to the Italian Army. When a property is no longer required by the British Army it is disposed of by the Commando Genio Militare in accordance with Italian Government policy.

NO USE DON'T ?

2. British HQs can, however, keep the Italian Army authorities on the spot informed of the date on which any particular property will be de-requisitioned on British account, thus enabling the Italian Army to bid for it in good time. If you will inform the appropriate Formation/ Area HQ of British held property the Italian Army is anxious to acquire, the HQ concerned will arrange to notify you when the property is to be de-requisitioned, giving all possible notice.

SUBJECT: Accommodation Italian Army

TO: 'Q' Branch, CHQ CMF.

1. A question which is causing the Italian Authorities some concern is the disposal by British Units of furniture, accommodation Stores etc., immediately prior to vacating a barracks.

2. It is extremely difficult to state anything concrete, but furniture is undoubtedly being disposed of either by selling to civilians or by being removed by a Unit which is going to another location. Territorial Command claim that some of these items are of Italian Army origin, e.g. bedsteads, benches, etc. Equally a Unit can claim that furniture has been brought from unit funds and is Unit property. On the other hand some of the items may be Ord Stores of local pattern, ASC property or loot.

3. When cases of this nature are reported to this HQ (the report is always vague and arrives some days after the Unit has left) I usually feel that my reply is not very convincing. I am therefore bringing the matter to your notice in case 5 Territorial Command should decide to refer the matter to the War Ministry.

SUBJECT: - Italian Army Coast Defences.

G (Ops) GHQ

During the war, the Germans built a number of small concrete coast defence Bunkers & Pill boxes on the coast between TRIESTE & VENICE.

A few months ago, unauthorised local civilians started to dismantle some of these bunkers in order to sell the iron and ferro-concrete in them to the highest bidders.

A few bunkers had already been rendered useless in this way when it was discovered by Italian Army that this was being done.

Instructions were accordingly given to Carabinieri to stop this looting at once.

This however Carabinieri cannot now do, because the UDINE & TRIESTE have authorised the organised dismantling of the bunkers to specific firms.

Com. Command have therefore represented the matter to this Unit.

They point out that these bunkers are the coast defences of Italy & may be of value as such in future years.

A.M.G. have authorised the dismantling of the bunkers, mainly, it is thought, for the following reasons:

(a) A good way of finding temporary employment for civilians in an area where there is much poverty and unemployment.

(b) Because civilians had started to dismantle the bunkers already and would continue to do so unless guarded.

(c) Because it is thought that if these coast defences were considered so necessary by Italians, surely they would have built them and not the Germans.

The Italian Army does not agree. They wish the dismantling of these bunkers to be stopped.

The groups of bunkers in particular, which they wish to be left intact are as per attached trace.

May a ruling be given please.

Col.DE MARINO c/o Distretto TREVISO for the territory West of S.CILE.

These Officers will no doubt be calling on you within the next three or four days; I will be glad if you would give them every assistance possible.
