HQ MAINTA Div

5 Terr Command

1. As a result of the conversation between Gen MONTEZEMOLO and Lt Col WARD regarding the possibility of obtaining some tables and chairs for Canteens and Clubs, this HQ wrote to the E.F.I. (RAAFI) Branch of G.H.Q. I am afraid that their reply is not very satisfactory.

2. E.F.I. say that owing to the protracted delay in the closing down of the theatre all furniture is becoming very dilapidated and the small quantity which has any further life is being transferred to AIRFRA. The balance is being disposed of as salvage, as and when it becomes available, some of this is fit for further use after repair and renovation.

3. If you are interested in this type of furniture, it is suggested that you contact the Officer i/c Salvage HQ E.F.I. A.P.O. 3 145 C.M.F., who will be able to advise when quantities are available for disposal and will also let you view the items in question.

ALPINI REGT. - "Tolme..." Bn. Command

N. 9819/I.D. 10 Jun. 47

SUBJECT:- Attack to Allied car.

5 B.L.U. - UDINE -
Ref. our tele n. 67 dated 9 Jun 47.

At about 1930 hrs in a place between the house at the border of 'A' zone and the destroyed houses of Arpit (North of Stupizza) an American jeep coming from Caporetto has been attacked.

An American Lieutenant, a driver and a woman were on that car and they were going back to Tarcento. The woman had light wounds of splinters on her right foot; she received the first medical assistance at the Stupizza Road Post. The Officer and the woman went to S. Pietro al Natisone by their car and then they were accompanied to Cividale on a vehicle of 2 Alpini Coy.

The two left tyres of the jeep were broken and the body received 3 bullets on the left side and one on the back.

American troops located at Tarcento, agents of S.P. and C.I.C. of Cividale made to-night and in the morning a particular inspection in the zone of attack. No trace has been found. The two Americans could not state the precise place where they were attacked. The soldiers of Stupizza Road Post have helped the inspections of the Allies during the night and during the day. On the car a bullet has been found and sent to C.I.C. Cividale. It has been ascertained that the bullet was of Beretta sub-machine-gun.

The attack was not made by people of the two nearest villages as the men were all at home. Probably they were pro-slavs of 'A' zone or people escaped. "Josko" from Osgnetto - S. Leonardo - Tito Officer and the murderer of Penasa- Bledig husband and wife, born in Merso di Sopra - S. Leonardo, whose presence has been reported in the last days.

Purposes of attack could not be ascertained, but as half an hour before a civilian car passed through the Road Post directed to Caporetto, without reporting any accident, it is supposed that the attack has been done for political reasons.

In confirmation of conversation JOHNSTONE - Lt Col De LORENZO today.

1. The house of Count PUPPI at VILLANOVA. It is much regretted that it has been found that the A.M.G. ruling that this house and barns is not to be used for billetting of troops of any nationality is unfortunately well founded. The only exception to the above is that the Alpini Bn of Palmanova in there, can remain there, until such time as its task on the west Bdy of V.C. is finished. The reason is that the two barns required by 2 Coys of 1/14 Regt and indeed all the available buildings are required for the stored grain. Cutting commences in the very near future. As Prod is Top priority it is much regretted therefore that these buildings will not be available.

2. Caserma Funicolare - PALMANOVA. It now seems certain that an Italian guard will probably not be required for these barracks when the GURKHAS move out.

3. Fortnightly Location Statements. Now that there are many Ital Mn units and frequent small changes, B.A.M.G. has to forward accurate Location Statements fortnightly to Allied Formations. Please therefore furnish the next with Map references on 14th June. Please also add Army barracks handed over to Italian Army during the previous fortnight, for example Vieco Barracks near PALMANOVA etc etc.

I regret being unable to afford any information on the subject matter.

It must be appreciated that during the year 1945, large quantities of materials surrendered, seized or found were generally dealt with as booty of war in the absence of any other form of identity. An item such as a motor cycle would in all probability be handed over to the Corps of Military Police for delivery to C.M.P. of the Allied Military Area or District in which seized.

To memorise any particular item from lists each showing hundreds of miscellaneous items, submitted almost daily during the year 1945, in the absence of some outstanding feature, would be an impossibility for me.

Evacuation etc - PANTELLERIA.

These Ack will be evacuated by a British unit, the second Day's, towards the end of June. Instruction has now been received however that these Ack will still be retained by the Allies and should therefore be handed over to Italian army yet.

It is possible that a small Italian army Guard may be required there for civil duties purposes.

Details later.

C.S.F.

The Italian Army, which is in the process of moving two divisions into N.W. Italy, find themselves extremely short of furniture for messes, clubs, etc. The principal items which they are looking are Chairs (straight - backed) and small tables. They have asked this Unit if we can help.

With the exception of C.S.F., it is thought that you will be wanting to dispose of some of your club furniture. The Italian Army will be quite willing to purchase.

I am very anxious to do what I can to help the Italian Army. They are encountering a great many difficulties, and anything that we can do to assist them, will be very much appreciated.

3. A very large area has to be covered by officers of this Unit, mileage has recently been increased and will continue to increase owing to the arrival of the "Hanover" and "Volpes" Elec. A reduction in Tpt would definitely sabotage the work of the Unit.

4. On various occasions Fmn. Comd have come to our assistance in the matter of Tpt, but their own position is extremely precarious. I also feel that the unit requests for the loan of Italian Tpt is not good sales talk for British vehs.

File No. 3.62/3 Lorraine 25 May 47

SUBJECT : - Control at the Road Posts on the Frontier Line.

TO : - 5 B.I.U. - UDINE

Hereunder are the results of an investigation recently made by the undersigned at the VILLA/A, ZOUFFALLO, BRUZZA & DOGANA Road Posts :

a) The clandestine passengers cross generally the frontier line on Allied vehicles.
b) Often it happens that persons rejected by Italian soldiers wait for an Allied vehicle on which they cross the frontier, making thus difficult the duty of the Italian soldiers at the Road Posts.

This is due to the order of the Allied Command which forbids to stop the Allied vehicles even if carrying civilians.

In order to overcome said difficulties and to regulate the new line will be B.I.U. Posts were interned so that once in a while personnel of the Allied military police will control the traffic of the Allied vehicles at the Italian Road Posts.

Reference conversation Major GRAY/Capt YOUNG.

It is desired to lodge a strong objection to the presence of the Fair Ground situated at the junction of Via della Rosta and Via Carducci for the following reasons:

It is considered that the Fair constitutes a public nuisance. It has been in the present location for the past three months, which is a residential area. It attracts an extremely undesirable element and causes disturbances in the early hours of the morning.

It is insanitary and becoming obnoxious with the advent of the hot weather, since there are no properly constituted Latrines or Urinals and no running water to service the fair.

It is strongly recommended that it be removed to a more suitable site immediately.

1. HANDOVER TO ITALIAN ARMY.

(i) Recces.

During the first week of the month, Gen CAPPA made an extensive tour of his Command. This included visits to Hqs 88 Div, 3 AGRA (Fd), 2 Arm'd Bde and numerous Bks occupied by Allied Troops. He was gratified at the reception received and the trouble taken by officers in showing him round.

At the commencement of the last day of his tour he said to the G I "Is it necessary for me to day to see the Cookhouses and latrines as I have already seen nearly every cookhouse and latrine in N.E. Italy?"

(ii) Visits by Allied Officers.

(a) Maj Gen GOULBURN, Director, and Col FISKE, Deputy Director I.L.F.B. visited the Command on 19/20 May. They had useful talks with Officers of Terr Comd as well as with the Comd Gen 88 (US) Div, C of S GHQ, Comd 3 AGRA and Prov Commissioner (UDINE Prov)

(b) C of S GHQ visited Terr Comd on 30 May and had a short talk with Gen CAPPA and his C of S.

(iii) Barracks.

A good deal of accommodation has been handed over to the Italians during the month. With the result that practically the whole of the MANTOVA Division is now in the Area. A detailed Location Statement as at 31 May is attached.

(iv) Guarding of empty Barracks.

With two unfortunate exceptions (PIAVE Bks UDINE and EDERLE Bks Palmanova - which are being investigated) the various arrangements for guarding Bks are satisfactory.

(v) Arrival of Italian Units.

In many cases units have arrived in the Area with little or no warning. This is largely due to the fact that all moves are ordered by the War Ministry, who act on probable dates of availability of Bks. This HQ

1. HANDOVER TO ITALIAN ARMY.

(i) Recces.

During the first week of the month, Gen CAPPA made an extensive tour of his Command. This included visits to HQs 88 Div, 3 ARA (PG), 2 Arm'd Bde and numerous Bks occupied by Allied Troops. He was gratified at the reception received and the trouble taken by Officers in showing him round.

At the commencement of the last day of his tour he said to the G I "Is it necessary for me to day to see the Cookhouses and latrines as I have already seen nearly every cookhouse and latrine in N.E. Italy?"

(ii) Visits by Allied Officers.

(a) Maj Gen GOULBURN, Director, and Col FISKE, Deputy Director I.L.F.B. visited the Command on 19/20 May. They had useful talks with Officers of Terr Comd as well as with the Comd Gen 88 (US) Div, C of S GHQ, Comd 3 ARA and Prov Commissioner (UDINE Prov)

(b) C of S GHQ visited Terr Comd on 30 May and had a short talk with Gen CAPPA and his C of S.

(iii) Barracks.

A good deal of accommodation has been handed over to the Italians during the month. With the result that practically the whole of the MANTOVA Division is now in the Area. A detailed Location Statement as at 31 May is attached.

(iv) Guarding of empty Barracks.

With two unfortunate exceptions (PIAVE Bks UDINE and EDERLE Bks Palmanova - which are being investigated) the various arrangements for guarding Bks are satisfactory.

(v) Arrival of Italian Units.

In many cases units have arrived in the Area with little or no warning. This is largely due to the fact that all moves are ordered by the War Ministry, who act on probable dates of availability of Bks. This HQ periodically supplies Terr Comd with a forecast as to the availability of accommodation. Unfortunately the Italians always take this information as being firm with the result that units often arrive and find that there is in fact no accommodation available for them.

(vi) De-requisition of Civilian Property.

This is a question which is causing the Italians considerable concern. They have produced a letter from the Council of Ministries (copy of which was forwarded to GHQ by ILFB Q 001/LF dated 10 May 47) the gist of which is that the Italian Military are allowed to take over existing requisitions direct from the Allies without the intervention of the owner. The GHQ Policy is that property must be de-requisitioned to the owner and afterwards the Italian Army can take what action they like. If it

(vi) If it is possible for CMG to bring their police into line with those of the Tenderer, [illegible] to a B.L.U. will be made [illegible].

(v) Disciplining Italian troops.

No cases of ill discipline have been recorded. Our information is that in those areas where a mixed Allied and Italian military population is located, friendly relations exist. It is known that in each case courtesy visits have been exchanged between the Commanders concerned.

Four Bdes have been asked to provide Military Police patrols in certain towns and these often work side by side with Allied Patrols.

The Carabinieri are also used on any particular objection to U.K. Disciplining.

2. GRD AND OTHER STORES.

(i) A considerable quantity of Brit Grd Stores have been received from Austria.

(ii) Four wagon loads of machinery (Italian origin) have also been received from Austria.

(iia) The Engr Dump at Villa Vicentina has been cleared. The one at MaSTRE is in process of being cleared.

(iv) The greater part of the holdings of 12 C.A.C. have been handed over to the Italian Army. Three forts only in the MESTRE area remain for handing over.

3. V.G.FRONTIER CONTROL.

(i) In spite of allegations from ZONE VENEZIA GIULIA (not confirmed by F.S.See under whom the Bn operate) it is thought that the ALPINI are functioning satisfactorily.

(ii) Term Grd proposes to increase the number of Carabinieri at each Post. This will be of assistance to the ALPINI and will also give the Carabinieri practice in Frontier Control.

(iii) The ALPINI are somewhat annoyed by the following trick which is frequently played on them :- a civilian is turned back owing to the pass not being in order, the civilian then walks down the road and in sight of the sentry 'thumbs' a ride on an Allied vehicle, then sails past the sentry cocking a snook - just too bad - so near!

(iv) The mountain posts have again been quiet.

(v) A shooting incident took place recently at BELVEDERE (GARDO) Check Post, full details have not yet been received.

4. BRI - UK SEARCHLIGHT UNIT.

Much to the relief of the B.L.U. this unit has been disbanded.

H.Q. Disciplined.

2. ORD. AND ENGR STORES.

(i) A considerable quantity of Brit Ord Stores have been received from Austria.

(ii) Four wagon loads of machinery (Italian origin) have also arrived from Austria.

(iii) The Engr Dump at Villa Vicentina has been cleared. The one at MESTRE is in process of being cleared.

(iv) The greater part of the holdings of 12 C.A.C. have been handed over to the Italian Army. Three forts only in the MESTRE area remain for handing over.

3. V.C.FRONTIER CONTROL.

(i) In spite of allegations from ZONE VENEZIA GIULIA (not confirmed by F.S.See under what the Da operate)it is thought that the ALPINI are functioning satisfactorily.

(ii) Town Comd proposes to increase the number of Carabinieri at each Post. This will be of assistance to the ALPINI and will also give the Carabinieri practice in Frontier Control.

(iii) The ALPINI are somewhat annoyed by the following trick which is frequently played on them :- a civilian is turned back owing to the pass not being in order, the civilian then walks down the road and in sight of the sentry 'thumbs' a ride on an Allied vehicle, then calls past the sentry cocking a snook - just too bad - so that!

4. ENGR - ITL SEARCHLIGHT UNIT.

Much to the relief of the B.L.U. this unit has been disbanded.

5. ENTERTAINMENTS.

(i) On May 8 Officers of the B.L.U. gave a Cocktail Party in honour of Gen C.PPA ; all the local notabilities were invited.

(ii) On the occasion of the visit of Gen GOUBAUD a lunch party was given by the Officers of the B.L.U. Gen C.PPA and his combat Staff Officers were invited together with local British V.I.Ps.

(iii) On 23 May the OC. 513 Engr Combat Bn gave a Cocktail party for the Officers of the It lian Units stationed in CIVIDALE. Gen C.PPA and his staff were invited as were also officers of the B.L.U. The Italian Officers, although unaccustomed to drinking cocktails at

cocktails at 3.30 in the afternoon (this also goes for the B.L.U.) very much appreciated the American gesture.

6. OWN OFFICER SITUATION.

This question is becoming very serious. Major KITCAT has been struck of strength on assuming an appointment in UK. Majors JOHNSTONE and THRUPP, both of whom are long overdue PYTHON are now desirous of posting to the M.E.

7. ITALIAN OFFICERS.

During the month Lt Col PIGNATINI (D C of S) 5 Corps Comd, left on promotion. This Officer is probably one of the most pro-allied Officers in the Army, and his loss will be keenly felt by this B.L.U. He has always been extremely sympathetic and is one of the few Officers who can get things done quickly.

8. PRESENTATION OF GOLD MEDAL TO UDINE (EXERCISE PATTICAKE).

(i) Close liaison was maintained by this HQ with HQ 3 Mot Div and the UDINE.

(ii) Arrangements were made for the doubling of the Prison Guard, for a Bn to stand by in PIAVE Bks, and for elements of the Venice Bde to be at short call from PALMANOVA. In addition PALMANOVA Div Carabinieri were patrolling the town.

(iii) 1 Bn 114 Regt took part in the Procession and also provided Guards of Honour for the Defence Minister. They had a good reception from the population and their turn-out and bearing was good.

(iv) The whole proceedings went off smoothly and good humouredly, so far as is known there were only a few minor incidents.

(v) The Italian soldiers as a whole appeared to behave very well.

(vi) The Provincial Commissioner ...M.G. gave a reception to which senior Italian Officers were invited. This was a good thing, as it enabled high ranking Military and Civil Officers to fraternise.

Further to my G/119 dated 22 May and in reply to your 1723/OA dated 27 May.

1. G.H.Q. have now decided to reinforce the Alpini Posts at FIERIS and VILLANOVA by the addition of one or two V.G. Police.

2. It would appear to be an excellent idea to strengthen the Alpini Posts by the addition of Carabinieri, as this will be very good training for the Carabinieri in their future role. There are no objections to the proposal as far as this HQ is concerned.

3. Please inform this HQ in due course of the numbers and locations of the additional Carabinieri.

SUBJECT:- Control at the Road Posts on the Frontier Line

To :- 5 B.L.U. - UDINE

Hereunder noted are the results of an inspection recently made by the undersigned at the VILLANOVA, PONTE PIETRA, RUPIZZA and BELVEDERE Road Posts.

a) The clandestine passengers cross generally the Frontier Line on Allied vehicles.

b) Often it happens that persons rejected by Ital. Soldiers wait for an Allied vehicle on which they cross the Frontier, making thus difficult the duty of the Italian soldiers at the Road Posts.

This is due to the order of the Allied Commands which forbids to stop the Allied vehicles even if carrying civilians.

In order to overcome said difficulties and to regulate the service will the B.L.U. please take interest so that once in a while personnel of the Allied Military Police control the traffic of the Allied vehicles at the RUPIZZA, PONTE DI PIETRA and BELVEDERE Road Posts.

2. This Unit has both written and sent officials to speak with Town Majors in order to emphasise the need for early warning of any impending de-requisitions, mentioned in Para 2 of the directive.

3. The fact remains however, that the most that Town Majors or Allied Formation HQs can do is to give early warning in advance to the Italian Army that buildings will be de-requisitioned. They cannot handover the requisition to Italian Army. They must, first de-requisition to the Civilian owner. It is up to the Italian Army therefore, having had prior warning, to requisition the property the very next day.

1. It is considered that some clarification of this minute is required. You will appreciate that it is not possible for the British authorities to transfer a requisition to Italian Army. When a property is no longer required by the British Army it is disposed of by the Commando Genio Militare in accordance with Italian Government policy.

2. British HQs can, however, keep the Italian Army authorities on the spot informed of the date on which any particular property will be de-requisitioned on British account, thus enabling the Italian Army to bid for it in good time. If you will inform the appropriate Formation/Area HQ of British held property the Italian Army is anxious to acquire, the HQ concerned will arrange to notify you when the property is to be de-requisitioned, giving all possible notice.

SUBJECT..... TRAFFIC ACCIDENT Date..26th APR 47.....

Read & Submitted.

Capt.

Distribution.

Sir,

I have to report that at MONFALCONE on the 26th April 1947 about 1730 hrs, I was informed by the V.C.POLICE that an accident had occurred in VIA PRINCIPE DI PIEMONTE, MONFALCONE, involving a BD M/CYCLE and a CIVILIAN M/CYCLE.

I proceeded to the scene where I saw that a BD B.S.A. M/CYCLE No, C4639960 ridden by No,14356462 Cpl DALE.C.T. of 5 British Liaison Unit, UDINE, had collided with a 250 cc SERTUM M/CYCLE No, TS 4861 ridden by CONSIGLIO GIUSEPPE of No,22 VIA PASCOLI, TRIESTE.

Apparently Cpl DALE had, whilst overtaking an ITALIAN LORRY and TRAILER No, TS 16571 driven by PELOS DANTE which at the time was turning into the Oil Factory, LUZZATO, collided with the c/m ITALIAN M/CYCLIST both of whom had been thrown from their machines and had been conveyed to the CIVILIAN HOSPITAL MONFALCONE before my arrival.

Both machines involved were then re oved by me to the C.R.M.POLICE DETACHMENT, MONFALCONE where they were later handed over to their respective owners.

I then proceeded to the MONFALCONE CIVILIAN HOSPITAL and on being informed as to the injuries Cpl DALE had sustained I immediately made arrangements for him to be removed to the 13 LIGHT FIELD AMBULANCE from where he was later conveyed to the 8 C.C.S.UDINE and is now detained at the 154 BR. GEN. HOSPITAL, MESTRE.

The Civilian involved, CONSIGLIO GIUSEPPE, after having received treatment at the MONFALCONE CIVILIAN HOSPITAL was allowed to return home.

Remarks.

MEDICAL REPORTS from the CIVILIAN HOSPITAL state that the following injuries were sustained: -

Cpl.DALE : - CONTUSED ABRASIONS OF NOSE AND CHIN.
SLIGHT SHOCK.

CONSIGLIO GIUSEPPE : - CONTUSED ABRASIONS OF THE FACE.
LACERATED CONTUSION TO HIS LEFT TESTICLE.

Damage to vehicles :- B.S.A. M/C :-EXHAUST PIPE BENT. BENT FRONT MUDGUARD STAY BENT.

CIVILIAN M/C: -FRONT WHEEL BUCKLED, RIGHT LEAD FORK TWISTED HEADLAMP PUSHED B.C. 3D BROKEN, RIGHT LEG SHIELD BUCKLED, ONE FOOT PUMP BROKEN.

ROAD STATE : - The road at the scene of the accident is a 1st Class Metalled road, 36 Ft wide and at the time of the accident was dry.
Visibility was good. There were no skid marks. There is a 20 MPH SPEED LIMIT in force on this section of road.

I was informed by the 8 C.C.S. UDINE that at the present time it was impossible to obtain a statement from Cpl DALE.

I questioned PELOS DANTE driver of the LORRY and TRAILER and who is employed by the a/m OIL FACTORY but was unable to obtain any information which could throw any light on the cause of the accident.

STATEMENT by Cpl D.J.S., 5 B.L.U., regarding a traffic accident on 26 April 47.

On 26 April 47 at approximately 1710 hrs I was proceeding in the direction of UDINE from TRIESTE on BSA M/C No.....

I was approaching the fork-rd leading to GORIZIA just outside MONFALCONE and travelling at about 30 mph when I noticed a 20 mph speed limit sign and startled gradually to slow down, passing over the railway level crossing at about 25 mph(see sketch).

At this point I observed a blue lorry and trailer entering a gate 300 yds in front of me on the right-hand side of the rd. A group of people were standing around the gate and in the centre of the road where the lorry had turned off.

I approached this crowd travelling now at 20 mph and continuously sounding my horn. Just as I was passing the group of people a man emerged from the gate at the right and started to cross the road immediately in front of me. At this point I also observed a motorcycle coming towards me from the opposite direction and travelling almost in the centre of the road.

As the pedestrian paid no attention to my signals and continued crossing the road in front of me, I was compelled to swerve towards the left of the road to avoid him. This made it impossible for me to regain my proper side of the road before passing the oncoming motorcycle.
I therefore had no choice but to swerve even further to my left in an attemp to avoid the motorcyclist who, by this time, had moved over to extreme right. This made the collision inevitable.

I was not under the influence of drink.

A sketch of the accident is attached below.

G (ope) Ops

During the war, the Germans built a number of small concrete coast defence Bunkers & Pill boxes on the coast between TRIESTE & VENICE.

A few months ago, unauthorized local civilians started to dismantle some of these bunkers in order to sell the iron and ferro-concrete in them to the highest bidders.

A few bunkers had already been rendered useless in this way when it was discovered by Italian Army that this was being done.

Instructions were accordingly given to Carabinieri to stop this looting at once.

This however Carabinieri cannot now do, because ACC UNRRA & TRIESTE have authorized the organized dismantling of the bunkers to specific firms.

Gen. Command have therefore represented the matter to this Unit.

They point out that these bunkers are the coast defences of Italy & may be of value as such in future years.

A.A.C. have authorized the dismantling of the bunkers, mainly, it is thought, for the following reasons:

(a) A good way of finding temporary employment for civilians in an area where there is such poverty and unemployment.

(b) Because civilians had started to dismantle the bunkers already and would continue to do so unless guarded.

(c) Because it is thought that if these coast defences were considered so necessary by Italians, surely they would have built them and not the Germans.

The Italian Army does not agree. They wish the dismantling of these bunkers to be stopped.

The groups of bunkers in particular, which they wish to be left intact are as per attached lines.

May a ruling be given please.

5 TERRITORIAL COMMAND

The Allied Police authorities in Venezia Giulia state that they consider that there has been an increase recently in illegal traffic to and from Venezia Giulia. They have suggested that one means of stopping this, is to increase the strength of the Black Forts by addition of one or two V.C. Policemen to work in conjunction with the Carabinieri and Italian Soldiers of the Fortezze Nn.

V.G. Police Force would of course make all the necessary arrangements for accommodating and feeding their men. This H.Q. sees no objection to the proposal, but before the scheme is put into force, I would be glad of your views on the subject.

This system of "Regimental Police" has been working efficiently at the 56/13 C.C.R. for the last 6 months or so.

2. The arrival of the 88/3CVa Div will also entail an increase of motor vehicles in the area. The Allied authorities here for some time have been concerned at the high rate of traffic accidents and they fully appreciate that Allied drivers are far from blameless in this respect. Very severe disciplinary action is taken against an Allied driver who is considered to be to blame for an accident. It is therefore suggested that this question of traffic accidents be brought to the notice of 88/3CVa Div and that all vehicle drivers be warned of the danger of excessive speed on the roads.

1. Para 3:- the tyre in question has been B.L.R'd and an indent submitted for a replacement. This is not likely to be forthcoming for a week or 10 days.

2. Para 4:- this would appear to accord up with the remarks made by Lt-Col RICHARDSON at the 3 of 5 Con'ference on 14 May. However it is pointed out that the Bn is supervised in its task by G.H.Q. Tac GHQ and as far as the operational command is concerned, this B.L.O. is merely responsible for passing orders (G (Ops) GHQ letter 5790/G dated 22 Oct 1946 refers). This tardy letter No G/119/202 dated 23 Apr addressed to your H.Q. and to which an answer is awaited, explained some of the difficulties of the Black Posts.

1. The following facts are brought to your notice.

(i) On 7th May a Platoon of 958 Coy R.A.S.C. without notice vacated their accomodation at EUBLE Barracks PALMANOVA. EUBLE Barracks is also occupied by 13 Corps Troops R.E.M.E. Wkps, although the part occupied by the R.A.S.C. was separate to and entirely cut off from that occupied by R.E.M.E. In fact personnel of the R.E.M.E. Wkps had no idea that the R.A.S.C. had vacated until some hours later.

(ii) The result of this vacation without warning, was an immediate invasion by civilians. My G.II. visited the Barracks and has reported that, the buildings were stripped, doors, window frames, stoves, electric light fittings etc having been removed wholesale.

2. It will be appreciated that incidents such as that quoted above, together with others of a similar nature which have been reported to this HQ do little to improve the relations between the British and Italian Armies.

Ref your 3552/TAV/V of 10 May. Damage to Barracks PALMANOVA.

1. PRINCIPE Di PIEMONTE Barracks. Regretted, but it is pointed out that these Barracks were guarded by an Italian Guard at the time and who should therefore have prevented the removal of the stores.

2. EDERLE Barracks. G.II. this Unit has visited this shed and found that your statement is correct. The civilians have looted this building. The name of the small Unit who vacated this shed without informing the B.L.U. or indeed any other formation, has been noted. The B.L.U. is representing this case most strongly to G.H.Q. It was a case of direct contravention of GHQ orders, this in order to ensure that Units do not in future vacate Italian Barracks without informing the B.L.U. in advance.

3. Shed in question is still required by Allied Units but may probably be released to you on Friday 16th or Sat 17th.

COMANDO MILITARE TERRITORIALE DI UDINE
Ufficio Benessere del Soldato alle Armi -

PROMEMORIA DI SERVIZIO PER IL SIG. MAGG. KITCAT.-

Verso le ore 19 del giorno 7 maggio, l'autocarro targato 4238030, guidato da un militare dell'esercito Americano con a bordo altri militari (credo prigionieri tedeschi) transitava a velocità pazzesca per la strada di riva destra Natisone, che da Cividale porta a Gruppignano, diretto a Cividale. Nei pressi della località "Cason" frazione di Rualis di Cividale, appunto per effetto della velocità troppo forte, sbandava e andava a cozzare contro il cancello di una casa colonica e abbatteva una colonna di cemento e danneggiava anche una autovettura che transitava in direzione opposta.-

La macchina investitrice non sopportava alcun danno apparente, nè le persone.

Alle rimostranze del proprietario della casa colonica l'autista lo minacciava e lo impauriva, poi si allontanava.

E' da tener presente che la strada in questione attraversa abitati di campagna davanti ai quali, specie nell'ora in cui l'incidente è avvenuto, sostano i contadini che tornano dal lavoro e bambini.-

Sono stato presente al fatto e lo segnalo alla S.V. perchè veda se è possibile rintracciare il militare onde richiamarlo a una maggiore prudenza e perchè al colono, cui fu inflitto il danno, possano essere rifuse le spese di sistemazione.-

1. A question which is causing the Italian Authorities some concern is the disposal by British Units of furniture, accommodation Stores etc. immediately prior to vacating a barracks.

2. It is extremely difficult to state anything concrete, but furniture is undoubtedly being disposed of either by selling to civilians or by being removed by a Unit which is going to another location. Territorial Command claim that some of these items are of Italian Army Origin, e.g. bedsteads, benches etc. Equally a Unit can claim that furniture has been bought from Unit funds and is Unit property. On the other hand some of the items may be OKD Stores of local pattern, E.N.S. property or loot.

3. When cases of this nature are reported to this HQ (the report is always vague and arrives some days after the Unit has left) I usually feel that my reply is not very convincing. I am therefore bringing the matter to your notice in case 5 Territorial Command should decide to refer the matter to the War Ministry.

TO: Commanding Officer, 350th Infantry Regiment, APO 88, US Army.

1. Directive.

2. Facts.

B. The 5th British Liaison Unit trasmitted a letter to the 88th Infantry Division requesting that the incident be reviewed and inferred an investigation be made, and that that Headquarters be informed in due course.-

C. The responsible Officer Commanding the troops in that Area in which the alleged incident took place hasstated that the manner and motive in which the tiling was taken by his troops was misconstrued insofar as the material in question was not stolen but coverted in a different use from that which it was originally intended.-

D. The roof tiling, allegedly stolen from the Italian Government by American troops, is still under direct control, and in possession of the Italian Government.-

1. Directive.

Pursuant to 2nd indorsement, this Headquarters, dated 19 April 47, re Ugovizza- Barracks damage, I have investigated the incident in which it has been alleged that a specified amount of material has been stolen from the Italian Government by American troops.

2. Facts.

A. The Italian Military affairs section trasmitted a letter to the 5th British Liaison Unit stating that fifteen (15) square metres of roof tiling were stolen from the Italian Government by American troops.-

D. The roof tiling, allegedly stolen from the Italian Government by American troops, is still under direct control, and in possession of the Italian Government.-

3. Discussion.

A. Although the Italian Military Affairs Section does state specifically that an act of theft has been committed, it furthe: states that the material alleged to have been stolen may have been used to "Cover small huts built in the yards of the barracks", thereby cotradicting the alleged charge of theft, inasmuch as theft, or larceny, is defined under the 93rd A.W. as being committed with the intent to permanently deprive the owner of his property.-

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

B. The responsible Officer of the troops in question has explained the use to which the allegedly stolen material was diverted.

C. The final disposition of the material is substantiated by the statements of that Officer and this investigating Officer in that said material is still in the possession of the rightful owner(s)

4. Findings.

No person or persons in the Military Service of the United States are responsible for any damage or losses incurred in the occupation of the Ugovizza Italian Military Barracks by American troops insofar as pertains to the loss or theft of fifteen (15) square metres of roof tiling, as claimed by the Italian Military Affairs Section.-

5. Recommendations.

A. That a line of duty investigation be made. No.

B. That a report of survey be made. No.

C. That disciplinary action be taken. No.

1. Town Major MESTRE states that there are in MESTRE area the following Italian Army units occupying premises held under Brit requisition: -

(a) Sezione Commissariato Militare occupying a house at Via F.lli Bandiera, Marghera (Town Major Serial 437).

(b) Posto Ristoro occupying a villa at Via Verdi, Mestre (Town Major Serial 399).

(c) Mil Police Post (CC?) occupying a suite of Offices at Piazza Matter 25, Mestre (Town Major Serial 455).

(d) Mine sweeping Unit occupying part of an ex fascist building at Via XXIV Maggio, Mogliano (Town Major Serial 95).

(e) Sig Unit occupying accomodation at Via Piave 107, Mestre (Town Major Serial 219).

2. The origin and function of Serial (e) above seems nebulous. They claim to be working under British Army orders yet can give no proof of this. HQ 86 Area has no knowledge of their existence.

3. Town Major Mestre wishes to remove the British requisition from all these properties as soon as possible and request that 5 Comiliter be instructed either to remove the units occupying them or to take them over under an Italian Army requisition.

4. If the latter course is decided upon Town Major Mestre will do all in his power to assist in dealings between the owners and the Italian Army representatives. He does not deal requisition to the Comitato Alloggi.

1. Those two officers are from Folgore Div. Their most urgent need is to find accomodation in TRAVISO for Div HQ and Div SERVICE. The Prefettura there whom they've seen is prepared to give them the large building which he at present occupies. Provided that he can get a smaller and now empty building derequisitioned by the Allies for him to move to.

2. Will you please help them by asking 06 Area if this smaller building can be derequisitioned? for the Questura to move to and thus free accomodation for HQ Folgore Div.

3. I've told Major Petiti to produce the addresses for the buildings concerned.

Your AG/47/416, dated 26 Apr. 47 refers.-

1. The vehicles to which you refer,(formerly in the possession of the Leo Scagliani Partisans Brigade, Cividale), were assigned by Recovery Office, Prefettura, Udine, in May, 1945, as follows:

Isotta Fraschini	2603	to	Co-operativa Trasp.	Cividale.

Fiat 626	004106	"	"	"	Manzano
Lancia 3/RO	5364	"	"	"	"
Bianchi Miles	7995	"	"	"	"

This took place upon strong recommendation from Partisans HQ., Udine, (C.V.L.) before the two Co-operatives had been formed, (as, in fact, they have never been).

Vehicles were left lying about unguarded and seen being driven about by anyone who took a fancy to do so.

2. It so happened that the two vehicles of Co-operativa Cividale were seized by M.P.s of the X Mountain Inf. Div., U.S.A., in July, 1945. In August; 1945, the vehicles of Co-operativa Manzano were found over the border of Venezia Giulia without permits and were seized by 91st M.P. Platoon; Cormons.

3. Recovery Office, Udine, were informed of the facts on the 20th Sept. 1945, and enquires were made by that office on how to recover the vehicles, with no result whatsoever.

4. In October, 1945, Recovery Office was informed disbanded following our orders and all matters relevant to that office were handed over to

1. On the formation of MMIA it was agreed by AMG, that Officers of the Mission would not be made available as Members of Courts Martial, Courts of Inquiry etc. The reason given being

(a) that Officers of the Mission were performing duties out of the ordinary as compared to Officers of a normal British Unit.

(b) that Officers of the Mission are graded as Staff Officers, and according to the usual practice are not normally detailed for duties of this nature.

2. However it is appreciated that you must often find difficulty in raising suitable Officers for Courts Martial Duty and I am therefore quite prepared to release Officers as Members should they be available at the time you require them. I must however point out that the Officers in question are "Service" Officers. I am not anxious to release any Grade II Staff Officers as Presidents.

Dear Walker,

You may remember I asked you about some assistance for our open air Opera Season.

I am glad to say the difficultion about the stage have now been completely overcome but I am sorely in need of a closed vehicle in which to transport my artistes.

Could you possibly do anything to help me get the loan of a coach for say 25 - 30 persons on loan to 5 B.L.U. for the period of the Operas (June and July next).

If possible I should want it to report here about the 23 May 47.

Will be most grateful for your assistance.

Congratulations on your Orchestra Show here. The only criticism I can fairly make is that your Udine Programme was not one of my particular choice. Regards.

Yours Sincerely,

Gray

1. HANDOVER TO ITALIAN ARMY.

(i) Recces. Brig HOPE, BGS, ILFB, accompanied by Gen [redacted] Asst Min of War and Gen BAULI A/Comd 5 Terr Comd visited Barracks etc in the area during the period 16 - 19 April. Apart from internal talks, conversations were also held with Comd Gen 88 (US) Div and G I (Ops) GHQ. In these talks the points of view of both sides were expressed and much was done to clear the air.

(ii) Barracks handed over during the month. The following have been handed over :-

(a)	"29 October"Barracks CODROIPO		(one Bn)
(b)	Ossopo Barracks TOLMEZZO	(1 May)	(one Bn)
(c)	Lucchi Bks CIVIDALE		(one Tank Bn)
(d)	Monte Vodice Bks VILLA VICENTINA		(one Coy)
(e)	Cavalry Bks PALMANOVA	(1 May)	(one Coy)

The following observation is made in connection with the handover of Barracks :- in two cases the first intimation this HQ had of the imminent release of Bks came from Italian sources and in one case from the occupying British Unit. It would be appreciated if this HQ could obtain the information of pending release of accommodation direct from GHQ or from the administering Formation concerned.

(iii) Accommodation requirements - Italian Army. This HQ letter G 144 of 6 Feb 47, addressed to G (Ops) gave a detailed list of Barracks required by the Italian Army. As a result of Recces and a further study of the problem various amendments have been made. An up to date list will be forwarded within the next few days.

(iv) Guarding of empty Bks. Approval has now been obtained for Bks in Zone "A" to be guarded by Civilians. The intention is that the civilians should be selected by the VG Police. It is understood that this matter has not been finally settled as VG Police are having difficulty in finding suitable personnel.

(v) Tentage. Ample tentage has now been received from AMMA. The difficulty however is the lack of "Camp Equipment" - Soyer Stoves, Camp Kettles, Latrine Buckets etc. The stocks within the Command are

(v) Tentage. Ample tentage has now been received from AUSTRIA. The difficulty however is the lack of "Camp Equipment" - Super Stoves, Camp Kettles, Latrine Buckets etc. The stocks within the Command are practically nil. It is believed however that a considerable amount is to be released to the Italian Army; 5 Terr Comd have been advised by this HQ to make a bid on the War Ministry for their requirements.

2. NEW G.O.C.

Gen CAPPA arrived on 21 April. Shortly after his arrival he addressed all Italian Officers in UDINE and district and created a very favourable impression. He is shortly making an extensive tour of the Frontier Areas. His first major decision was to postpone indefinitely the move of his HQ to PADOVA - this shows the right spirit.

3. .....2/..

3. FRONTIER CONTROL - V.G. WESTERN BDY.

(i) Little to report and as far as is known, the Bn is functioning satisfactorily.
(ii) The various types of pass, and the different authorities who are allowed to issue them, has caused some confusion amongst the Alpini Sentries (many of whom are probably illiterate) Tac HQ has been asked if a more simple system can be evolved.
(iii) The decision of 88 Div to withdraw their R/T sets has been postponed; this is fortunate, as otherwise communications would be difficult.
(iv) The 1924 Class has been released and the new batch of recruits will not be fit for guard duties for another six weeks or so. Consequently the Bn will be hard pushed to find the Bdy and Prison (UDINE and PORDENONE) Guards. It is certain that some of the posts will have to be decreased in strength. However, the situation will not be serious as most of the mountain posts were increased in strength at the beginning of the winter.
(v) Normally during a month half a dozen or more "incidents" are reported from the Mountain Posts. It may or may not be significant that no "incidents" have been reported during the month of April.
(vi) It is disappointing to learn that sufficient funds are not likely to be made available in order to show the TOLMEZZO Bn our appreciation of their work.

4. WELFARE.

During the month an assorted consignment of second-hand Welfare goods was obtained from Army Welfare Services - which included a good selection of English Classics. (This is not an attempt to be humorous :- it was found that quite a few ex Italian POW had, during their captivity, developed a liking for the best English Literature.)

5. "BRITT" SEARCHLIGHT UNIT.

Owing chiefly to the inadequacy of the equipment, it is doubtful whether this unit is fulfilling a useful purpose. Representations have been made to 3 AFRA with a view to reducing the strength of the unit or disbanding it altogether.

6. MISCELLANEOUS POINTS.

(i) An International Skiing Competition was held at SELLA NEVEA on 20 April. A civilian team was first, 8th Alpini second and 6th ALPINI third. This run is reputed to be the most difficult in Europe, an opinion with which an Officer of this B.L.U. concurs!

(ii) G I (Ops) visited the C.R on 26 April. This was noteworthy as, as far as is known, this was the first occasion since VE Day on which a British Officer (other than one from MMI.) has visited an Italian Unit.

1. Forwarded herewith is claim of subject civilian for recovery burial and miscellaneous expenses for her husband CHIACIG Antonio and any other indemnities which may be granted.

2. It is believed that a prior claim may have been submitted and it is understood that an unknown Medical Officer of the U.S. Army disallowed the claim because of the civilian hospital's diagnosis of "meningite purulenta" as the secondary cause of death.

3. From the facts now available as recounted in my investigation, if the claim was disallowed, as described in par 2 above, it would appear to be a gross injustice to the widow. The attack on the man by the unknown soldier for the purpose of robbery appear to have been such an unmitigated case of lawless vandalism that some sort of amends should be made to the widow in the form of financi relief and assistance.

4. Request your assistance in determining the validity of the claim and in processing it for prompt settlement if it is considered favorably.

SUBJECT: CHIACIG Christina,
S. Leonardo Province of Udine

10 April 1947

I, the undersigned, Civil Affairs Officer AMG of Cividale, have investigated the case of Chiacig Christina whose husband died 19 Oct 1945 as a result of head wounds received at the hands of an unknown American soldier on 14 Oct 1945 and find the following facts.

1. Chiacig Antonio, son of Giuseppe, aged 37 years, resident of S. Leonardo, was a soldier in the 8th Alpini Regt (Italian). He was on leave at his home and was visiting friends in a nearby small town on the 14 Oct 1945. Upon returning to his home 2300 hrs accompanied by an American soldier from a Unit believe to be Co A 350 Inf and stationed in S. Leonardo, Chiacig was set upon by the soldier and beaten on the head until unconscious with a club which the soldier was carrying. The motive of the beating is alleged to be robbery. In any event Chiacig was robbed of his papers, wrist watch valued at 10.000 Lire and some money - amount unknown.

2. Later Chiacig was found beside the road unconscious and taken to the civilian Hospital Cividale where he remained until his death on 19 Oct 1945. (see Hosp report attached as Ex D).

3. Although an affirmed diagnosis of purulent meningitis was made by the civilian hospital authorities, it is believed the man died as a direct result of the wounds he received at the hands of the soldier. (see attached letter from three disinterested medical Officers marked Ex E and statements of his health prior to accident from fellow townsmen attached as Ex "G", "H", "I" and "J").

4. Two days after Chiacig was admitted to the hospital a soldier was brought into his presence by Military Police and Chiacig positively identified the soldier as his assailant. Chiacig's widow was present at this identification.

5. In order to pay the costs of burial of her husband, it was necessary for Chiacig's widow to sell a cow for 37.000 Lire. Funeral expenses amounted to about 20.000 Lire.

The hospital bill of 2700 Lire and a floral wreath (value unknown) were paid for by some American Soldiers - the widow thinks by friends of her husband's assailant.

6. Chiacig's widow, Christina Chiacig, has as dependents her mother aged 72, and four children aged 12, 9, 7, and 3 years, she herself is 31 years old. She has about three hectares of land on which to raise their livelihood. One child, a girl, aged 7 has been placed in a convent by the Italian Assistance Society to help the widow. I have personally visited the family and find them living in complete poverty, requiring public assistance.

7. The widow has made no specific claim - merely asking for assistance. It is this officers belief that the widow should be reimbursed for:

1.	Wrist watch valued at	10.000 Lire
2.	Funeral expenses totalling	20.000 Lire
3.	Other personal possessions of her husband stolen by the American soldier and estimated at possibly a value of	10.000 Lire

3.	Other personal possessions of her husband stolen by the American soldier and estimated at possibly a value of	10.000 Lire
	Total cash	40.000 Lire

and further, a settlement to her for the death of her husband. Since he was not injured or killed while in the Italian Army, the widow is unable to obtain assistance as widow of a war veteran. I am unable to estimate how much this payment should be.

COMMUNE OF SAN LEONARDO
UDINE PROVINCE

OFFICIAL REPORT of TESTIFIED DEPOSITION

This day 18 Oct 1945 at San Leonardo in the City Hall Office, before the undersigned Mayor, appeared the young Chiacig Alessandro son of Giuseppe, 22 years old, living at Altana No, 19, who spontaneously asked that they take in consideration his following declarations regarding the misfortune occurred to Chiacig Antonio of Giuseppe, 37 years of age, living at San Leonardo; last Sunday 14 October. I was at Tainich where a dancing party was held. At about 1100 hours I was going to the buffet when I was rejoined by an American soldier who asked me to have a walk with him. So I staterd walking together the soldier for about 20 steps. I immediately preceived that the soldier was a little drunk, even I thought that he wasn't feeling too good and for that reason I followed him. Meanwhile the soldier asked me what the time was.

I was going back when it happened that the named Chiacig Antonio of Giuseppe came nearby asking me to go ahead returning home.

I followed him. He arrived near the soldier who asked again what was the time to Chiacig. Chiacig looked immediately the watch he had on his wrist, while the soldier was making light with a cigarette- lighter.

The one Chiacig answered that it was 11 o'clock. We then departed (all three) towards Altana. While we were walking, I saw that the soldier was carrying a club, which I had already seen when I met him. While walking the stick fell several times on the ground and he picked up it every time it fell down.

When we arrived at Altana I advised that I was arrived home, and before to leave them I offere them a drink, they didn't accept and the soldier said to me "Buona Sera" and then they kept going on towards San Leonardo.

The day after I knew what had happened, I was out and have seen that some men of this town were passing each other a bloody club from hand to hand. I then recognized the stick, it was the same one that that soldier had last evening with whom I returned from Tainich with Chiacig Antonio.

Faithfully,
Signed: Chiacig Alessandro

I. It is planned to turn over the 18 Displaced Persons Centre from Allied Forces Headquarters Control to the Provincial Committees of Assistance of the Post Bellica on I May 1947.-

II. At this critical period of the transfer of the Camp, it is necessary to disturb the administration as little as possible. The Officers and soldiers from your Command now actively in charge of the Camp have performed a most commendable task and are considered highly competent.

III. I am therefore anxious that the present Italian Army Staff consisting of:- 2nd Lieutenant Manon Nino and 2nd Lieutenant Moore Lorenzo with the present strength of twenty soldiers, be retained in the administration of the 18th Displaced Persons Centre.-

IV. I should be very glad of the Commander's assurance that this Staff may continue to administer the Camp from the 1st May 47.-

1. There are two Italian S/L crews who, in theory, operate S/L to illuminate 'X' Ordnance Dump and the sidings at [illegible] Rly Stn. This came about at the request of the Allies.

2. Originally both S/L were at the Rly Sidings, but in Dec, one was moved to 'X' Ordnance Dump.

3. These S/L crews have been in a curious position. The Italian army regard them, rightly, as being under command and working in the interests of the Allies, therefore practically "wash their hands of them". Not a great deal of interest is taken in them by the Allied Units "employing" them, and this HQ, in the capacity of Liaison Unit, can do no more than bring to the notice of the "employing" units any shortcomings in the conditions of the crews or the technical efficiency of the S/Ls. They are, in effect, "nobody's baby" and it is a constant struggle for this unit to keep anyone interested in them. For instance :-

Practically speaking, not since December have both S/L been in action, one or both Lorries generating the current for them, have been in W/shop awaiting replacement. For the last two months assurances have been given by AMG that replacements will be made any day. About 14 days ago one S/L projector was taken away by a Staff Sjt, origin unknown, who said it would be returned the next day. So far nothing more has been heard of the S/L.

4. No anxiety has been shown by either "employing" units about the absence of their S/Ls, so the question arises, are they really necessary? The crews themselves feel they are not particularly wanted, and this would seem to be the case.

5. It is suggested that if these S/L were dispensed with, it would save everyone a good deal of trouble.

1. Various alterations to the regulations about issuing these passes have been made from time to time, and consequently there is frequently confusion amongst the Block Post Guards. They are also frequently confronted with permits issued by formations not authorised to issue permits.

2. We is up to date, clear concise and simple instructions a copy be issued for information of the Block Post Guards, with, it is suggested, copies to ADC V.S. and [illegible] and GS (I) Div.

3. Meanwhile will you confirm that the following is correct: -

i) Civilian passes are issued by ADC
ii) Italian Military passes are issued by 5 B.L.U.
iii) Other Foreign Military passes by GS(I)
iv) Vehicles themselves do not require passes - only the occupants
v) Block Posts will not stop Allied Military vehicles whoever they contain.
vi) No passes other than above are valid.

4. Quite by chance, it has been brought to the notice of this HQ that authority has been given by GS(I) (A) to ADC for the [illegible] - UNRRA - UNRRA to issue passes w.e.f. 26 April. It is also understood that PWB are involved in the issue, to what extent it is not clear i.e., does the pass have to have an PWB stamp on it. As no official indication of this has been received in this office, will you please clarify. Meanwhile the Italian Soldiers on the Block Posts will naturally regard as invALID any passes which do not conform to the present orders. If the PWB at the Frontier issue any different Instructions, it is difficult to reconcile this procedure with that laid down in the various orders from GS(I) about the chain of command, viz "all orders will be issued to the TOMMY 20 in through 5 B.L.U. "

5. A further cancellation is passed for UNRRA. According to GS(I)(B) GRQ 175/2/1 (B) of 26 Nov. the V.S. Police are authorised to issue permits. This is in contravention of any other orders so far received.

6. It will be appreciated [illegible]

It is also understood that PSS are involved in the issue, to what extent it is not clear i.e., does the pass have to have an PSS Stamp on it. 6. It will be understood that under the present circumstances, the Allied soldiers on the Block Posts can hardly be blamed for some irregularities in interpreting the orders, which occasionally form the subject of complaints to this HQ.

ILFD AFHQ ROME

Ref your 5967/42 dated 15 Apr 47.

1. There has never been any suggestion that the boat should be returned to anyone other than its original owners - the Italian Army. Neither has there been any doubt that the Italian Army are in fact the rightful owners.

2. This HQ interpreted AFHQ letter G5 30637F dated 25 Sep 46 as meaning that "there was no Allied objection to the boat being handed over to the Italian Army". It consequently, in good faith put the necessary machinery in motion to obtain a release. Our view that this action was correct is evidently supported by MMIA, Rear XIII Corps and AG VENEZIA GIULIA all of whom were kept informed.

3. At no time has this HQ participated in the dispute between the Italian War Ministry and the Firm COSIMA. Terr Cmd have however supplied us with the following information :-

(i) COSIMA made a claim for 1,577,777 Lire on account of salvage. The Italian Navy was consulted and asked to give an opinion on the amount claimed. The Navy opinion was that the amount was grossly excessive. The Italian Army thereupon offered Lire 500,000 which was at first accepted by COSIMA. At a later date however they backed out of their agreement.

(ii) Between the date of salvage of the boat Apr 45 and the date of handing over COSIMA had full use of the boat and it is believed made a considerable sum of money. The rent apparently of a tug of the DIAMONI type is as much as Lire 10,000 a day. It would appear therefore that COSIMA had done pretty well out of the tugboat - however this is no concern of ours.

Report as per H.Q. 13 Corps Troops R.E. letter CTE/S/1/984 dated 15.4.47.

Subject:- Electricity supply installation.-

The original lighting supply for the Depot Workshops came from a transformer cabin adjacent to VILLA VICENTINA Station and was supported for a distance of approx. 500 yds by insulators attached to intermediate buildings.

These buildings suffered quite extensively from bombing including considerable damage to a/m insulators.

Subsequent to these buildings being taken over for W.D. use, a new line was erected using appox. 7/029 insulated copper wire but taking a different route from the original.

Parts of the original wiring and insulators are still in position but there is no evidence that it has been complete at any time during W.D. occupation.

It is pointed out that the present wiring is carrying out the identical function to the original installation.-

1. It is realised that you hold a permanent Pass to enter Zone 'A' and therefore of course may do so, when you wish.

2. Allied Formations concerned however, American 88 Div, or British 2 Armed Bde, still wish to know when you go on official business to their Zones, in the same way as all other Italian officers. This is solely in order that they may inform Units and their police patrols, and prevent misunderstandings.

3. Please therefore kindly inform the B.L.O. in advance when you wish to go on Allied business to Zone 'A' in order that we can inform the Allied Unit concerned in advance.

4. It is emphasized that it is in no way desired to restrict official visits to Anglo-American occupied Venezia Giulia of Italian officers.

5. I telephoned U.S. 88 Div re your visit to GORIZIA, (you had put in a pass for your driver) and they particularly asked for a little more warning in future as far as possible we do get from other officers of 5 Territorial Command. I hope you will not mind my writing this note.

Ref. your AG/53/325 of 27 Feb. 47 and AG/53/331 of 12 Mar. and our 1348/Tav/V of 27 Feb. 47.-

1. "Monte Grappa" barracks are almost completely occupied by British troops and German POWs, there are no civilians refugees, only a part clearly closed is occupied by the military prison of Italian Army.-

2. The surveillance service is made:
- for the military prison by sentries' detachment of 8 Alpini Regt. who has a precise duty in respect of military personnel in the prison.-
- for the other part of the barracks by Italian civilian guards who are on duty during the day hrs. (from 0500 to 2100 hrs.) and are encharged to look after the buildings maintenance only.-

3. Removals, complained by this Command with his letters 1049 of 15 Feb. 47, have been made to the premises by British troops and German POWs (and letter 1347 of 27 Feb. 47)

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

In order to complete the previous remarks we communicate the results of further enquiries:

a) abatement and removal of scaffolding of a big hut of the barracks:

24 Jan. 47, 1000 hrs. removed by lorry WD No. L 5650039 - 3260 Ger.-

12 Feb. 47, 10,45 hrs.

b) abatement and removal of wooden scaffolding of a shed.-

11 Jan. 47, 1000 hrs.-

c) Removal of 70 cuirasses complained by the D.L.O. (ref. Q/121/1 of 24 Feb. 47 of HQ. 86). The matreial is not part of premises of the barracks and therefore is not subject to the surveillance of the guards who have to look after the building only.-

4. Nothing is to remark on the prison's sentries behaviour as they do their duty in the enclosure (wall and wire fence) which separates the prison from the barracks.-

The same has been ascertained for the other guards which have accomplished thar duty(in respect) and intervened against civilians who removed material. Said guards were not able to accomplish their duty in respect of Allied personnel and German POWs.-

The above quoted informations are reported to this D.L.O. in order to state the responsability and also to take the opportune action at the Allied Military Authorities in Padua.-

Il materiale non fa parte degli immobili della caserma e pertanto non e' oggetto della vigilanza del personale di guardia preposto, cui e' affidata soltanto la tutela del fabbricato.

4) - Nulla si puo' osservare sul comportamento delle sentinelle del carcere, le quali svolgono la loro funzione nell'interno del recinto (muro e reticolati) che separa il carcere dal resto della caserma.

Altrettanto si e' accertato anche per le guardie giurate, che hanno assolto il loro incarico con impegno, intervenendo contro i civili italiani sorpresi ad asportare materiali.- Dette guardie pero' non hanno avuto modo di fare osservare la loro consegna da parte dei militari alleati e dei prigionieri tedeschi.-

Quanto sopra si porta a conoscenza di codesto B.L.O. non solo per definire le responsabilita', ma altresi' per quell'azione che riterra' opportuna di svolgere presso le autorita' militari alleate di Padova.
