1. As a result of Ministry of Marine letter 250/30 of 8 May 1945, the Navy Sub-Commission has reviewed the investigations that were completed by Allied Military Personnel in regard to the deaths of Leading Writer CHIRICO and Infantryman CAPANNA. It is unfortunate that in spite of the investigations made, it was not possible to identify those responsible for the killings or to obtain definite information concerning the method in which the crime was perpetrated.

2. While the Navy Sub-Commission is in complete accord with the Ministry of Marine concerning the serious nature of the aggression, it is regretted that no new investigation can be undertaken by Allied Personnel.

nella caso e cui voi vi ritenete è stato rigorosamente indegno dal S.L.D. ne con rispetti completamente negativi per quanto concerne il personale alleato. P.º) P. Innes, Lt. Col. A.A. & Q. H.G. 52 Area".
5. È evidente che la richiesta data dal Comando della 52<sup>a</sup> Area non può costituire sanatoria ad un fatto di notevole **1349**, tant'è di aggressione vera e propria contro pacifici individui. D'altra parte, si può pensare che le persone rese responsabili di un tale delitto possano unicamente commettere atti sanguinari che contrastano con i più elementari principi di giustizia, libertà e civiltà.

ARGOMENTO: Uccisione del S.Capo P.I.R. CHIRICO Salvatore e del Tenente CARLUCCIO Augusto ad opera di militari francesi.

1. In data 3 Agosto 1944 venne per l'esponente tre settimane al brigadier Gen. CALWBELL, e per conoscenze all'Amir. MOREAU, la lettera che si trasmette in copia (allegato 1), relativa all'uccisione dei militari in argomento, avvenuta ad opera di soldati francesi.

Ibriggiunti prigionieri, in tale occasione, un adeguato indennizzo pecunioso.
4. Il 7.4.1945 è stata ricevuta al Comando in Capo di Taranto una prima comunicazione da parte dell'HQ 52 Area (oggetto A.35/3) così concepita:  
nun il caso a cui voi riferite è stato rigorosamente indagato dal S.I.B. ma con risultati completamente negativi per quanto concerne al personale allegato. 2<sup>o</sup>) 2. Thomas, Lt. Col. A.A. & Q. M.G. 52 Area".
5. E' evidente che la risposta data dal Comando della 52<sup>a</sup> Area non può costituire sanatoria ed un fatto di notevole **1549**, tenendosi di aggressione vera e propria contro pacifici cittadini. Né, d'altra parte, si può pensare che le persone resesi responsabili di un tale delitto possano impunemente commettere atti sanguinari che contravvano con i più elementari principi di giustizia, libertà e civiltà.
6. Dato che queste considerazioni non possono che essere condivise pienamente da codesta S.Commissione Nevale, si prega voler disporre perché la pratica sia ripresa in esame, allo scopo di in-

dividuare e quindi adeguatamente punire gli autori del malfatto,  
e deve assegnare, ove creduto opportuno, un congruo indennizzo alla  
famiglia delle vittime.

IL CAPO DI GUBETTO  
C. di V. VASSILINI

Le circostanze che hanno portato a questo malfatto sono state  
indagate con particolare cura e si è provveduto a tutte le misure  
possibili per rintracciare gli autori del delitto. I risultati di queste  
indagini sono stati così esaurienti che non si è potuto stabilire  
con certezza se il delitto fu compiuto da un solo individuo o da  
due o più persone. Tuttavia, si è potuto stabilire con sicurezza  
che il delitto fu compiuto da persone che avevano un  
obiettivo specifico e che il delitto fu compiuto con  
un gran disprezzo per la vita umana. Si è anche potuto  
stabilire che il delitto fu compiuto con  
un gran disprezzo per la vita umana.

Ci sono due obiettivi possibili per questo malfatto:  
(1) Un obiettivo politico, che consiste nel  
distruggere una persona che è considerata  
una minaccia per la sicurezza dello Stato.  
Questo obiettivo è stato raggiunto.  
(2) Un obiettivo economico, che consiste nel  
distruggere una persona che è considerata  
una minaccia per la sicurezza dello Stato.  
Questo obiettivo è stato raggiunto.

Subject: Lt. Naval Engrs. (Temp.) Antonio CALDERONI.

Towards the end of August, the above - who had been detained at Forte a Mare, Bindisi at the disposal of the Counter-Espionage Sub Centre at Taranto, because he was involved in a Fascist organization and thus subject to be called to Tribunalfa Taranto to answer charges under Art. 89 of the War-Time Military Penal Code - was taken to be interrogated by Allied Security Authorities at Bari. Since then he has not been handed back to our Naval Authorities.

2. On 21st August Tribunalfa Taranto sent documents relative to the penal proceedings against this Officer to the Allied Commission at Taranto. Said documents have not been returned.

3. Royal decree No. 112 of 13th April last states that anyone committing acts detrimental to the war effort or rendering assistance to the enemy is to be tried by Italian Courts in accordance with Italian Penal Laws.

It is also stipulated that Allied Military Courts may judge a case should they so decide. In this event, they would adopt their own procedure but apply Italian Penal Laws.

4. For reasons of a disciplinary nature it would be well if the CALDERONI case could be ventilated as soon/ as possible, and therefore we suggest your Command informs as to any decisions taken on the matter by Anglo-American Authorities concerned.

In the event of Tribunalfa Taranto being declared competent, CALDERONI should be transferred to Taranto immediately and the documents relative to the proceedings returned to the Military Court in that base.

5. F.O.L.I. is requested to kindly inform in regard to any decision hereon.

2. This Sub-Commission is willing in a suitable case to permit the release of a prisoner to enable him to join one of the services: but this is not a suitable case. For one reason, the crime was one of great gravity.

For another, the allied military and naval authorities have been much worried in the past by the number of attacks on allied service personnel particularly around BARI and TARANTO and have frequently been pressing to have such cases tried by an Allied Military Court (as was the D'ISANTO case): and if a person convicted of killing an allied soldier and sentenced to 13 years imprisonment is released after a few months to return to duty with the navy, the deterrent effect of a trial by an Allied Military Court will be seriously prejudiced.

The Legal Sub-Commission has informed me of the extremely valuable cooperation they have received from both the Ministry of Marine and your sub-commission in setting up the Military Tribunal for Northern Italy.

I understood that without your help it would have been impossible to find a sufficient number of officers to allow this court to function with any degree of efficiency.

I am personally very grateful to you for having understood so readily the importance of the work this court is going to perform and for the generous assistance you have given to the Legal Sub-Commission in this matter.

Subject: Personnel for Italian Military Courts.

1. In October 1944 the Land Forces Sub-Commission, AC authorized an establishment of 250 Italian Military personnel to staff the various Italian Military Courts in Southern Italy.

2. In December the Legal Sub-Commission, AC requested the Procuratore Generale Militare to arrange for the establishment of a circuit of Italian Military Courts for Northern Italy. The Procuratore Militare Generale and the Italian Ministry of War, both have agreed that there will be need for such a circuit of courts in Northern Italy, however, they have indicated that it would not be possible to adequately staff such a circuit with personnel presently available. The Land Forces Sub-Commission, while in favor of the proposed court organization for Northern Italy, has stated that it cannot authorize an increase in the number of Italian Army officers who are assigned for duty with the military Courts.

2. As many of the cases that are brought before the Italian Military Courts in Southern Italy involve members of the Italian Navy and Italian Air Force, it is considered that the Ministry of Marine and Ministry of Air should supply an appropriate proportion of Military Court personnel. The Legal Sub-Commission estimates that a total of 80 Navy and Air Force officers will be required.

3. The Navy Sub-Commission is prepared to authorize the assignment of Italian Navy personnel to Military Courts so that the Italian Navy may assume an equitable share of Military court work. It is requested that the Navy Sub-Commission be informed of the views of the Ministry of Marine in this regard at the earliest possible date in order that measures may be instituted by appropriate agencies to implement the existing military Court organization.

SUBJECT : Personnel for Italian Military Courts.

TO : Navy Sub-Commission  
~~Air Forces Sub-Commission~~.

1. This subject has already been brought to your notice. The position is as follows :

In October 44 MIIA at our request authorized an establishment of 250 personnel to staff the various Italian Military Courts operating in Southern Italy. These Courts are situated in towns such as Naples, Bari, Palermo, Taranto etc and deal mostly with cases affecting Allied interests.

2. In December this Sub-Commission requested the Procuratore Generale Militare to prepare a project of decree for the establishment of a circuit of Italian Military Courts for Northern Italy. The fact that in all probability the whole Italian judicial system in these regions would collapse at the result of Allied occupation made the setting up of Military Courts imperative.

It was obvious that Allied Military Courts would not be either equipped or numerous enough to cope with all the cases affecting directly or indirectly Allied interests. Political offences had also to be considered.

3. Both the Procuratore Militare Generale and the Italian War Office agreed that the proposed organisation of Courts for Northern Italy would serve a most useful purpose, but pointed out that it would be impossible to provide an adequate establishment for these Courts out of the authorized ceiling without seriously affecting the work of the tribunals already in function. They therefore requested an increased establishment.

4. MIIA on being consulted, were in favour of the setting up of such Courts but could not agree to augment the numbers of Army officers earmarked for the Military Courts. It was pointed out however that, as many cases tried by the Military Courts of Naples, Palermo, Bari, Taranto etc concerned Italian Naval and Air Force personnel, it would be only fair if members of these Courts were supplied not solely by Land Forces but also by the Regia Marina and Regia Aeronautica. It was calculated that 80 members in all would be required, who could be supplied proportionally by both Services concerned.

5. Could this Sub-Commission have your views on the above proposal at your early convenience. We are most anxious to set up the organization of the Circuit Courts for Northern Italy without delay.

PERSONNEL FOR MILITARY COURTS

With reference to your AC/4086/3/1 dated 16th January, the necessity of Allied Military Courts emphasized in your letter is fully realized and any help which this Sub-Commission can give in the matter of personnel for establishment of Courts in Northern Italy will be gladly given.

2. It is noted that para 4 of your letter states that 90 members in all are required and that these could be supplied proportionally between the two services.
3. This is not quite understood, does this mean that A.I.A. would not supply any bodies for the new circuit? Because proportionally this figure would be very much reduced if A.I.A. were sharing this new burden.
4. May this Sub-Commission also be advised of the qualifications necessary for these appointments in any further communications on this subject.

Copies of the letter complained of and of a translation of the letter to which it is a reply are attached for your information.

Subject: Trials for Offences against the Allied.

I refer to your letter of 10/1/45 TM/L-

On the day in question no trials were conducted for offenses against the Allies because this Tribunal was under the necessity of settling more urgent and important cases.

I beg to advise you that no case touching Allied interests is pending without being set down for trial with the exception of six, in which it is at the moment impossible to go to trial, for procedural reasons.

In order to avoid unnecessary correspondence in the matter between your office and this tribunal, your Excellency, when in doubt, may examine into the status of the cases in the files of this chancery.

DEPUTY CHIEF OF NAVY SUB COMMISSION.

The attached correspondence regarding the relations between the Legal Officer, Taranto and the Military Tribunal, Taranto is referred.

2. In my opinion, the Legal Officer's letter TEL/4, of 19th January, 1945, is couched in terms calculated to infuriate and antagonise a foreign co-belligerent. I further consider that the letter is quite uncalled for and that the President of the Tribunal, Admiral Quentins, has done nothing to deserve such discourteous treatment.
3. There was never any such trouble with Major German's predecessor and I consider that by his unjustifiable attitude Major German is doing much to injure our hitherto good relations with the Italians.
4. I shall be glad if you will take this matter up with the Head of the Legal Sub Commission. My personal opinion is that Major German should be relieved by an officer less antagonistic to the Italians.

ARGOMENTO: Corrispondenza del Legal Officer Taranto al Presidente  
del Tribunale Militare di Taranto.-

RESERVATA PERSONALE

In data 10 corrente il Legal Officer di Taranto chiedeva al  
Presidente del Tribunale Militare di Taranto perché nessun pro-  
cesso in danno degli Alleati era stato fissato per l'udienza del  
10 Gennaio.-(*affig. 3*)

In data 10 stesso con prot. n° 1360 il Presidente del Tribu-  
nale rispondeva con la lettera allegata in copia, nella quale do-  
po di aver informato il Legal Officer che nessun processo di in-  
teresse per gli Alleati era pendente, informava che ad evitare un  
superfluo carteggio il Legal Officer poteva, quando lo credeva  
opportuno, prendere visione nella Cancelleria udienze delle state  
dei processi.-

A questa lettera il Legal Officer di Taranto replicava in da-  
ta 19 corrente con la lettera T.B.L./4 che allego. Nella sua let-  
tere il Legal Officer definisce la risposta dell'Ammiraglio QUEN-  
TIN "scortese, insultante e dimostrazione di mancanza di buone ma-  
niere", fa una serie di apprezzamenti assolutamente ingiustifica-  
ti e finisce per informarlo che il tono della lettera dell'Ammira-  
glio è talmente "disgustante" che egli si propone di mandargli  
Quartier Generale copia completa della corrispondenza con la ri-  
chiesta di far nominare un nuovo Presidente del Tribunale.-

Sta di fatto:

RISERVATA PERSONALE

In data 10 corrente il Legal Officer di Taranto chiedeva al Presidente del Tribunale Militare di Taranto perchè nessun processo in danno degli Alleati era stato fissato per l'udienza del 10 gennaio. - (affig. 2)

In data 10 stesso con prot. n° 1360 il Presidente del Tribunale rispondeva con la lettera allegata in copia, nella quale dopo di aver informato il Legal Officer che nessun processo di interesse per gli Alleati era pendente, informava che ed evitare un superfluo carteggio il Legal Officer poteva, quando lo credeva opportuno, prendere visione nella Cancelleria udienze della stato dei processi. -

A queste lettera il Legal Officer di Taranto replicava in data 19 corrente con la lettera T.B.L./4 che allego. Nella sua lettera il Legal Officer definisce la risposta dell'Ammiraglio QUENTIN "scortese, insultante e dimostrazione di mancanza di buone maniere", fa una serie di apprezzamenti assolutamente ingiustificati e finisce per informarlo che il tono della lettera dell'Ammiraglio è talmente "disgustante" che egli si propone di mandargli Quartier Generale copie complete delle corrispondenze con la richiesta di far nominare un nuovo Presidente del Tribunale. -

Sta di fatto:

- 1º) - Il Presidente ed il personale del Tribunale non hanno mai indirizzato corrispondenza né avuto relazioni con impiegati od altre persone dell'ufficio del Legal Officer. -
- 2º) - Tutto il personale del Tribunale segue scrupolosamente gli ordinai e le direttive da me impartite circa la precedenza da dare ai processi e la severità delle condanne per i reati in danno degli Al-

lesti. Non si comprende a quali casi specifici si riferisca la lettera del Legal Officer.-

3°) - Per l'udienza del 10/1/44 erano fissati i processi indicati nell'allegata nota ed è mancata la urgenza e l'importanza delle loro definizioni.-

4°) - Non si può imputare a difetto del Tribunale se alla data del 19 corrente vi erano soltanto 63 processi completamente istruiti da celebrare.-

Gli statunitensi che vengono periodicamente rimessi al Legal Officer dimostrano che anche nel mese di Gennaio sono stati definiti tutti i processi in danno degli Alleati e che non esiste alcun esperimento né pendente ingiustificata.-

5°) - Dalla nota complessiva dei procedimenti definiti e di quelli assolti risulta che a quelli che interessano gli Alleati viene sempre data la precedenza anche se a scapito dell'importanza dei processi in danno agli interessi italiani. Non sembrano quindi giustificati i numerosi richiami e domande di spiegazioni che da qualche mese il Legal Officer fa al Tribunale: d'altra parte le risposte fornite dal Tribunale sembra siano sempre state esaurienti poiché il Legal Officer non ha avuto occasione di fare ulteriori rilievi.-

6°) - L'invito al Legal Officer di voler in caso di dubbi, verificare personalmente presso il Tribunale lo stato dei processi, non pare possa essere in nessun caso interpretato come "scortesia, insulto o esibizione di buone maniere" poiché il predecessore del Maggiore GERMAN si riceveva frequentemente al P.M. La per esaminare in accordo col Procuratore del Re o col Presidente del Tribunale casi sui quali aveva dubbi od osservazioni da fare.-

Gli stessi che vengono periodicamente rimessi al Legal Officer dimostrano che anche nel mese di Gennaio sono stati definiti tutti i processi in danno degli Alleati e che non esiste alcun arrestato nè denuncia ingiustificata.-

Con riferimento alla mia precedente lettera n° 5092/RP in data 18 novembre 1944 pressherei T.S. di voler esaminare la particolare situazione che si è creata tra il Legal Officer ed il Tribunale Militare di Taranto, poichè non ritengo che il procedere del Maggiore GERMAN sia tale da contribuire a quella attiva collaborazione che tanto importanza i miei dipendenti ci sforniscono di realizzare nel migliore modo possibile.

## LEGAL OFFICE

TARANTO

Taranto, 19/1/45.

Ref: TEL/4.

From: Legal Officer, A.C. Taranto.

To: PRESIDENT - TRIBUNALE MILITARE, TARANTO.

Subject: Cases affecting Allied Interests.

Your Ref:Prot. N°1360.

I am in receipt of your letter of the 16th January on which I have the following observations to make:-

(1) I consider your letter discourteous, insulting and an exhibition of lack of manners.

(2) It is not the habit or intention of this office to address correspondence to clerks or to any person other than the head of the department concerned. If any correspondence has in the past been addressed by your Court to any of my clerks, orders should be given for such practice to cease immediately.

(3) The cases affecting Allied Interests are of the maximum importance as you have been informed by your own superiors on more than one occasion. There are no cases that exceed them either in the matter of urgency or importance, and this fact should be well known to you by this time.

(4) I have checked that 63 cases have been set down for hearing between the present date and 12 February. I trust that these cases will be actually heard and that adjournments will only be granted in exceptional circumstances e.g. not on the grounds of unchecked medical certificates or on a plea by an avvocato that he is engaged in another court. I also trust that where possible attempts will be made to fix for hearing during the same period any other cases that may reach the Tribunale as 63 cases is a comparatively small total for a period of 24 days.

(5) I observe that in your last complaint to Admiral Morgan you raised objection to letters of this nature being written by an officer of my rank to an officer of your rank. I am unable to view the matter in this light. At the present moment - quite irrespective of rank - your duties are as President of the Tribunale Militare <sup>and</sup> my duty (among others) is to supervise the working of that Tribunale. Until such time as that work is carried out satisfactorily and in accordance with the instructions that I received from my superior officers, I am unable to agree that any correspondence is a waste

of paper the object of which is either to ensure that the wishes of my superiors are complied with or to secure the provision of officials willing to co-operate with this purpose in view.

(6) The whole tone of your letter is so distasteful that I propose forwarding to my H.Q. a complete copy of the relative correspondence with a request that - in view of the clearly defined attitude adopted on your part - in conjunction with your Ministry the advisability of appointing a new President for the Tribunale be very seriously considered.

Subject: Indictments for acts to depriment of the Allies.

With reference to your letter TBL/4 dated 10.I.45

No indictment for acts to depriment of the Allies was passed on the mentioned day because this Court had to settle more urgent and important actions.

No action concerning Allies is pending (not pointed) except for six in no, for which it is not yet possible to fix the proceedings owing to reason of procedure.

To avoid superfluous correspondence in this matter between your office and this Court, if doubtful, you may call at this office and take acknowledgement of the state of affairs in this "Cancelleria Udienze" branch.

T A R A N T O

ARVOLTO: Giuseppe Angelo.

In risposta alla questione del 16 gennaio 2015:

Al Capo dello Stato: Consegue la seguente domanda:  
- Al dottor Angelo Vanni sono minacciate condizioni di salute.  
- E' segnata di ulcera duodenale con conseguenti perdite  
- Beninteso per le circostanze; e il suo stato può talmente gravare  
- sul tempo del distillante che quest'ultimo si troverebbe in sede assai  
- pericolosa insomma. La proposta di sommarsi  
- a fare questo e alle stesse circostanze (confermata dal  
- dottor Tommaso Giudiceandri del 13/12/44).

Per il provvedimento di apposizione si provvede così:  
- Provvidenza della Commissione di salute: sono  
- rivisitate le sole condizioni di salute certificando  
- che non sono alcuna ragione, né diretta, né indiretta  
- per il ricovero.

- Ricordato che l'industriale Vittorio Ugozzi di Novate, con la  
- licenziamento di 15 dipendenti nel 1944, ha perso da molto tempo  
- ormai il suo posto di lavoro, trovandosi in un  
- vuoto di settantasei giorni prima di quella condizione  
- di salute, e presentato perché non poteva più lavorare.  
- Il quale avendo presentato caratteristiche di gravità  
- avendo bisogno di cure periodiche di assistenza, è stato assunto  
- in un altro officina e eventualmente sfruttazione.

Da questo risulta che avvista una comune esistenza  
- tra le persone prese in calo connesso a tutte le cause anche all'  
- esito dei fatti seguenti in base a tutte le cause anche all'  
- delle cui attivita' sono state tracce grandi  
- come dimostrazione.

In most medical evidence being allowed to touch a patient  
counselor should "signify" his consent to such contact  
regarding his condition or sentence?

What recognition of medical certificates already issued this  
state? When the patient is holding a certificate of health,  
he does should be called and consulted and his

Non si permette con l'autorizzazione del magistrato un piano  
ridicoloso "scillies" visto che questa data principale è stata  
valida per la sequenza di due sentenze?  
L'esecuzione dei certificati medici non dovrebbe essere  
un puzzle - le autorizzate sono esemplificare,  
I medici devono essere consigliati e non  
consentire nulla che possa danneggiare la salute  
finché non si allontani la procedura inutile della Sua Corte  
questi sport sono oggi il triste segnale dell'ingenuità

HEADQUARTERS, ALLIED COMMISSION  
Navy Sub-Commission APO 394

NSC/1589  
31 January 1945

**From:** Navy Sub-Commission, HQ. Allied Commission.  
**To :** Ministry of Marine - ROME.  
**Subject:** Captain (A.N.) Sergio VANZINI.

1. Reference is made to Ministry of Marine letter B.206 of 8 January 1945.

2. The Navy Sub-Commission has been informed by the Legal Sub-Commission that it is not possible to supply a copy of the "sentenza" of Captain VANZINI, as Allied Military Court procedure does not provide for the preparation of such a document.

3. A brief summary of the record of the case which is exceedingly long is as follows:

- (a) The 16 year old servant of the accused's family told the accused that she had been talking to an escaped German prisoner in a nearby copse. Whether such a remark was made seriously or in jest is in dispute.
- (b) The accused found the man in the copse and took him to his house allegedly to give him a glass of water. The man was in fact an American Sergeant of good military repute and who was properly dressed and absent from his Command with a regular leave pass. The accused admitted at the trial that he saw and recognized the Sergeant's American dress.
- (c) On arrival at the house the accused told his brothers that he had found a German. While one of the accused's brothers fetched a rope the accused obtained a pistol (the possession of which was in itself an offence in the circumstances in which he had it) and for some inexplicable reason and without warning or provocation shot the American Sergeant from behind and thereby killed him.
- (d) The accused then removed from the dead man the sum of 16,000 lire, leaving behind a much smaller sum, presumably to divert attention from the fact that any money had been removed.

4. The accused was sentenced to 20 years imprisonment for killing an Allied soldier and a further 7 years for theft from the dead soldier. The salient feature of the case is that there was no possible ground for thinking that the man was a German, indeed there was every reason for thinking to the contrary. the man for investigation had he entertained any doubts as to his identity.

5. The Legal Sub-Commission has stated that under the circumstances the sentence is not thought to be excessive. But for the fact that the Court was satisfied that the accused was mentally unstable, it is possible that the sentence might have been one of death.

6. The sentence of the court has been considered at Headquarters, Allied Commission and affirmed.

SUBJECT : Captain Sergio VANZINI, Italian Navy,  
Sentence by Allied Military Court.

TO : Navy Sub-Commission.

Reference your NSC/1511 of 16 Jan. 45 addressed to Deputy Chief Civil Affairs officer via Legal Sub-Commission and subsequent telephone conversation in which it was explained that this Sub-Commission would supply all available information.

1. It is not possible to comply with the Ministry of Marine's request to supply a copy of the sentence, the word "sentence" being a translation of the Italian word "sentenza", a technical term denoting the written statement prepared by the Italian Courts; and there is no corresponding document in Allied Military Court procedure.

2. The record of the case is extremely long. Put very briefly the facts were:-

- (a) The 16 year old servant of the accused's family told the accused that she had been talking to a man in a nearby copse who was an escaped German prisoner. Whether such remark was made seriously or in chaff is in dispute: but there was no truth whatever in it, and no ground for any such suspicion.
- (b) The accused found the man in the copse and took him to his house to give him a glass of water.
- (c) The man was in fact an American Sergeant, properly dressed in fatigues: and the accused admitted at the trial that he saw and recognised

1499

FILE  
W/W

that the man was so dressed.

- (d) On arrival at the house, the accused told his brothers that he had a German at the house, and the brothers then agreed that while one of them fetched a rope, the accused would keep him covered with his pistol.
- (e) While the one brother searched for the rope, the accused went and fetched a pistol (the possession of which was itself an offence in the circumstances in which he had it) and for some inexplicable reason without warning and without provocation shot the man in the head from behind and thereby killed him.
- (f) The accused then removed from the dead man the sum of 16.000 lire, leaving behind a much smaller sum, presumably to divert attention from the fact that any money had been removed.

3. The accused was sentenced to 20 years imprisonment for killing an allied soldier and to a further 7 years for the theft from the dead soldier.

4. The salient feature of the case is that there was no possible ground for thinking that the man was a German: indeed, there was every reason for thinking to the contrary. The accused, with complete and utter negligence and without making any enquiry chose to believe the ridiculous (and perhaps joking) remarks of a young girl of 16 and to assume that the man was a German, and therefore decided without any reason or justification to shoot him.

As it turned out the man who was killed was an American Sergeant of blameless character, of good military repute who was out on regular day pass.

Needless to say, the accused would not have been justified in this cold blooded killing even if the man had been an escaped German prisoner of war: at the house there were the accused and his two brothers (all adults, one a captain in the Italian army) and the ~~man~~ could easily have been detained pending investigation: and a civilian (including therein ~~military~~ <sup>an</sup> ~~any~~ personnel away from duty) has no right to kill an enemy prisoner of war or even a suspected enemy agent, unless, of

1498

course, in self defence or for some other reason sufficient in law to make the killing a justifiable homicide.

5. The sentence is long: but in the circumstances it is thought that it is not excessive. Indeed, but for the fact that the Court was satisfied that the accused ~~was~~ mentally unstable (but not insane, as the defence tried to establish) it is possible that the sentence might have been one of death. The sentence of the court has been considered at this HQ and has been affirmed.

## MEMORANDUM

From: Navy Sub-Commission, A.C.  
To: Air Force Sub-Commission, A.C.  
Subject: I. A.F. Boats Detained in Turkey.

1. Reference is made to the attached memorandum (It-Lion Air Ministry, 12419/611/Coll) regarding Italian Air Force craft detained in Turkey.

2. Due to the lack of full details in regard to the various craft, it is impossible to conclusively determine what action, if any, should be taken by United Nations representatives. The following pertinent comments are forwarded, however, as an aid in considering the problem involved.

3. In view of the fact that Turkey has been neutral throughout the war, it would appear that Italian and their property would have been interned at anytime that they entered Turkish waters or land areas.

4. Article 14 of the Italian Surrender, dated September 9, 1943, requires that "all Italian merchant shipping and fishing and other craft" be made available to the United Nations by the "competent Italian authorities". Article 14 further states that "Transfer (of such craft) to enemy or neutral flags is prohibited."

5. Even assuming that all craft mentioned in the attached memorandum were interned due to an inability of the operators to take any other course of action and that their owners and operators acted in good faith in permitting the internment, it would appear that the matter is one that can be decided only between the Turkish and Italian Government.

6. From the information contained in the attached memorandum, it appears that the vessels mentioned in paragraphs 1, 2, and 7 all clearly violated article 14 of the Surrender Terms by reaching Turkey on 17 November over one month after the surrender had been signed. The other craft reached Turkey between 10-15 September which indicates that they too are probably guilty of a similar violation.

7. There seems to be little need to determine the status of the craft under United Nations agreements as the question of taking action for violation of the Surrender Terms is not presently involved. However as the matter of effecting the release of the craft is undoubtedly dependent on the attitude of the Turkish Government, and as there appears to be a possibility that the craft have violated the Surrender Terms it does not seem ~~to~~ <sup>that</sup> the Italian Government can achieve a useful purpose in pursuing the matter through Allied channels.

We would thus be saved the necessity of answering in broad generalities, and at the same time would be better equipped adequately to answer your questions.
3. We assume, although you do not so state, that your questions have only to do with acts committed in Italian Government territory (that is to say, in territory under Italian administration in contrast to Military Government territory), and what follows is therefore limited thereto.
4. All crimes committed in Italian Government territory will normally be tried under Italian law and by Italian Courts. The Allied Forces, however, have reserved to themselves the right to hold Allied Military Courts in Italian Government territory for the trial of persons (civilian or military) who commit acts seriously hostile to the Allied Forces and to punish them in accordance with the Italian Penal Code. The reservation of this right is not for the purpose of encouraging the trial of persons by Allied Courts, but to enable them to deal with the most serious offenses against Allied personnel or property which cannot be properly dealt with by the Italian Courts. If such an offense has been committed, the military authorities should give a full statement of the facts to the local representative of the ACC with the request that an Allied Military Court be convened to hear the charges.
5. Consequent upon the power to try such persons, there is reserved to the Allied Forces the power to arrest persons who are believed to have committed such offenses. High ranking Italian officials and officers of the Italian Armed Forces should, however, only be arrested in collaboration with the appropriate Italian official (e.g., the Prefect or the Commanding Officer of the officer concerned). In all cases of arrest the agreement of

1490

the local ACC officer must be first obtained, except in an emergency, when he should be informed immediately after the arrest.

6. On the subject of arrests generally I enclose a copy of memorandum of HQ No. 2 District CMF dated 6 May 1944 and attached papers which was based on a memorandum prepared by this sub-commission somewhat earlier setting forth the duties of legal officers in Italian Government Territory in this general regard.

SUBJECT: Execution of Document D for Transfer of Territory.

TO : Headquarters, Allied Control Commission.

Reference is made to Document D of the instruments for the transfer of territory to the administration of the Italian Government. By that document the Chief of the Italian Government undertook to take certain action of a legislative or administrative character, including as far as might be necessary the implementation of Documents A and C. While an examination of the Gazzetta Ufficiale makes it apparent where certain of the requisite decrees have been enacted, other requirements, called for action only "if necessary," "in so far as not already provided," etc. The actual situation is thus in some matters not known to this Section, which has been requested by the Civil Affairs Division, War Department General Staff, to advise on the matter. Accordingly the Allied Control Commission is requested to make a report to this Headquarters showing exactly what has been done to execute the various conditions of the transfer of territory to Italian administration.

TO : V.D. Admin. Section.

16 Mar 1944

1. Reference is made to the letter of A.M.C. 387.4-2 of 3 May 1944.  
A survey of Italian legislation implementing the terms of the above documents together with the corresponding provisions of the said documents is set out below.

2. By virtue of para 2 of Document D the Italian Government undertook to publish in the official Gazette before the date of restoration the following decree:

(a) "a decree stabilizing wage rates, maximum prices, charges for services; maximum quantities of grain to be held by anyone; as existing at the date of restoration and pending the future policy being agreed upon between us, products allowed to be kept remain likewise unchanged."

In compliance with this obligation the Royal Decree Law No. 32 of 11 Feb. 1944 was published in Gazzetta Ufficiale No. 7, Art. 1 of which reads as follows:

"The wages of private employees, the fixed maximum prices of all kinds of goods and the maximum tariffs for services in effect in the territories restored to the Italian Administration on February 11 at 0000 hours, remain in force without change. The regulations regarding the maximum quantities of rationed products allowed to be kept remain likewise unchanged."

Subsequently the Italian Government, in agreement with the respective branches of the Allied Control Commission, has passed a number of decrees changing rationing rules of certain goods and the prices of certain products and regulating the quantities of grain to be retained by certain classes of persons, (the last by the Ministerial Decree of 2nd May 1944 on Regulations for collecting grain and barley harvested in 1944, published in G.U. No. 24 of 3 May 1944). The particulars of the changes effected in this field may be obtained from the respective subcommissions.

(b) "a decree to implement paragraph 5 of document A providing for the establishment of Allied Military Courts to try offences entailing any hostile act against the Allied Forces and empowering any member of the Allied Forces to arrest any person whom such member had reasonable grounds for believing is concerned in such an act, except in the case of an Italian officer or an Italian high official in which case the Italian Government or the local superior authority concerned should be asked to cooperate in any action." 1476

The Italian Government fulfilled this undertaking by publishing the Royal Decree Law of 11 Feb. 1944 No. 31, Art. 3 which in its original form read as follows:

A Survey of Italian Legislation Implementing the Terms of the Armistice  
together with the corresponding provisions of the said documents is set out  
below.

2. By virtue of para 2 of Document B the Italian Government undertook to publish in the official gazette before the date of restoration the following decrees:

- (a) A decree stabilizing wage rates, maximum prices, charges for services; maximum quantities of grain to be held by anyone; as existing at the date of restoration and pending the future policy being agreed upon between us.  
11 Feb. 1944 same published in Gazzetta Ufficiale No. 7, Art. 1 of which reads as follows:

"The wages of private employees, the fixed maximum prices of all kinds of goods and the maximum tariffs for services in effect in the territories restored to the Italian Administration on February 11 at 0000 hours, remain in force without change. The regulations regarding the maximum quantities of rationed products allowed to be kept remain likewise unchanged."  
Subsequently the Italian Government, in agreement with the respective branches of the Allied Control Commission, has passed a number of decrees changing rationing rules of certain goods and the prices of certain products and regulating the quantities of grain to be retained by certain classes of persons. (The last by the Ministerial Decree of 2nd May 1944 on Regulations for collecting grain and barley harvested in 1944, published in G.U. No. 24 of 9 May 1944.) The particulars of the changes effected in this field may be obtained from the respective subcommissions.

- (b) A decree to implement paragraph 5 of document A providing for the establishment of Allied Military Courts to try offences entailing any hostile act against the Allied Forces and empowering any member of the Allied Forces to arrest any person whom such member had reasonable grounds for believing is concerned in such an act, except in the case of an Italian officer or an Italian high official in which case the Italian Government or the local superior authority concerned should be asked to cooperate in any action. 1/76
- \* The Italian Government fulfilled this undertaking by publishing the Royal Decree Law of 11 Feb. 1944 No. 31, Art. 3 which in its original form read as follows:

"Whoever within the liberated Italian territory commits a hostile act or offence against property to the prejudice of the Allied Military Forces or of any member thereof or of any functionary, representative or agent of United Nations, or whoever takes part in seditions, demonstrations against the Allied Forces or commits any act which in whatever way may hamper the war effort or help the enemy, shall be punishable under Italian penal law and shall be tried in Allied Military Courts according to their own procedure.  
In the case contemplated by the preceding paragraph 1 any member of the Allied Armed Forces can effect the arrest of any person who may be reasonably believed to be implicated in acts hereinabove set out, except where an

Italian officer or high Government official is concerned, in which case the Italian Government or the appropriate superior local authority will be requested to cooperate in the premises to the extent necessary.

Upon request of the Allied Control Commission this Article was amended by R. Decree Law No. 112 of 13 April so as to permit the Italian Courts to take jurisdiction over the offences against Allied interests unless the Allied authorities direct otherwise. The new Art. 3 reads:

"Whoever within the territories restored to Italian administration commits any hostile act or offence against property to the prejudice of the Allied armed forces or of any member thereof or of officials, representatives or agents of the United Nations or is guilty of any seditious demonstration against the Allied Forces or of any action whatsoever that impedes the prosecution of the war or aids the enemy, shall be tried by the Italian Courts according to the Italian penal laws.

However the jurisdiction of the Allied Military Tribunals is acknowledged in all cases which they shall decide to retain for their own jurisdiction. In such cases the Allied Military Tribunals will follow their own procedure but will apply the Italian penal laws.

"In such cases as set out in the first paragraph any member of the Allied Armed Forces may arrest any person whom there are reasonable grounds for suspecting him to be implicated in any act therein set out, save only in the case of an Italian officer or high Italian official.

"In such a case except in matters of special urgency the Italian Government and the competent superior local authority shall be requested to take all necessary steps."

In the opinion of this Subcommission the Italian Government has fully complied with their obligation in this respect.

3. Furthermore, the Italian Government gave their assurance "to proceed with all possible expedition to pass decrees dealing with the following matters" (para 3 of document D).

(a) To implement so far as may be necessary the terms set out in Document A and the terms of the proclamation (Doc. C).

(1) Doc. A. The general clause affirming the continuance in full effect of all armistice terms throughout all Italian territory obviously does not need any implementation and is binding upon the Italian Government as part of the restoration agreement under International law.

The specific rights reserved for the United Nations in Doc. A stated below in an abbreviated form of headings together with an indication whether or not the obligations of the Italian Government arising out of each reserved right were embodied into a rule of municipal Italian law:

1. Right to use facilities, installations, etc. No legislative provision enacted. Army, Navy and other Subcommissions concerned can supply information as to whether administrative regulations were issued.

2. Right to quarter troops. No legislative provision issued. The Interior, Army Subcommission might supply particulars as to admin. instructions.

or agents of the United Nations or is guilty of any sedition, demonaization, aggression against the Allied Forces or of any action whatsoever that impedes the prosecution of the war or aids the enemy, shall be tried by the Italian Courts according to the Italian penal laws.

However the jurisdiction of the Allied Military Tribunals is acknowledged in all cases which they shall decide to retain for their own jurisdiction. In such cases the Allied Military Tribunals will follow their own procedure but will apply the Italian penal laws.  
"In such cases as set out in the first paragraph any member of the Allied Armed Forces may arrest any person when there are reasonable grounds for suspecting him to be implicated in any act therein set out, save only in the case of an Italian officer or high Italian official.  
"In such a case except in matters of special urgency the Italian Government and the competent superior local authority shall be requested to take all necessary steps."

In the opinion of this Subcommission the Italian Government has fully complied with their obligation in this respect.

3. Furthermore, the Italian Government gave their assurance "to proceed with all possible expedition to pass decree dealing with the following matters" (para 3 of document D).

(a) To implement so far as may be necessary the terms set out in document A and the terms of the proclamation (Doc. C).

(1) Doc. A. The general clause affirming the continuance in full effect of all armistice terms throughout all Italian territory obviously does not need any implementation and is binding upon the Italian Government as part of the restoration agreement under International law.  
The specific rights reserved for the United Nations in Doc. A stated below in an abbreviated form of headings together with an indication whether or not the obligations of the Italian Government arising out of each reserved right were embodied into a rule of municipal Italian law:

1. Right to use facilities, installations etc. No legislative provision enacted. Army, Navy and other Subcommissions concerned can supply information as to whether administrative regulations were issued. 1475
2. Right to quarter troops. No legislative provision issued. The Interior, Army Subcommission might supply particulars as to admin. instructions.
3. Right to hold or require the Italian Government to hold in custody PWS and civilian internees. No legislative provision issued. For administrative instructions see Army and public safety Subcommissions.

4. Right to declare any area to be a military zone and to exercise there-in the right of an occupying power or enforce such other controls as may be determined by the Allied Commander in Chief.  
In compliance with this term the ROL 11 Feb. 1944, No. 31 contains the following provision:  
Art. 4. Whenever military zones are established in liberated Italian territories by Allied Armed Forces, such forces will retain also all police powers within said zones, including the power to issue and enforce rules and regulations.

5. The right to convene Allied Military Tribunals for the trial of any person violating any order or regulation issued by the Allied Military Authorities and of any person otherwise doing any act hostile to the Allied Forces.

Art. 3 and 4 of RDL No. 31 set out above under 2(b) and 3(e) 1 and 4 respectively, were issued in compliance with this term.

6. The right to try offences committed before restoration in violation of AMG Proclamations or orders then in force.  
This term was implemented by Art. 2 of the RDL No. 31 which provides as follows: "Proceedings in the Allied Military Courts for offences heretofore committed contemplated by the Proclamations and orders mentioned in Art. 2 (Note, should read "in Art. 1") shall be continued and disposed of by said Courts in accordance with the provisions of said Proclamations and Orders.

7. No removal of AMG appointed officials without consent of C.I.G.

In this respect Art. 1 para 2 of the RDL No. 31 states as follows: "The efficacy of the acts undertaken by the Allied Military Authorities ... shall remain in force including the appointments and dismissals of public or private officials, which shall be recognized in every case as having full and valid legal effect as if they had been made by the Italian Government. The legal and financial status of those who have been placed in public office by the Allied Military Government will be regulated by the rules of Italian law.  
In addition to the above an exchange of correspondence took place between the Chief Commissioner and the Chief of Government in which the latter confirmed the necessity of previous consent by the A.C.C. to any change in the status of officials appointed by the AMG in the restored territory (Marshal Badoglio's letter of 19 March 1944 No. 759). As far as this Subcommission is concerned the Minister of Justice gave his assurance to adhere to this agreement in respect to judicial officials in a meeting held on 21 March 1944.

8. The right to requisition property or services. No legislation on this subject was published and no difficulties seem to have arisen. Interior Subcommission and the Army Subcommission may supply information as to administrative instructions.

9. The right to requisition supplies. No legislation on this subject was published and no difficulties seem to have arisen. Interior Subcommission and the Army Subcommission may supply information as to administrative instructions.

10 & 11. Right of import, export and distribution of civilian supplies for civilian population without duty and right of import and export of military and other supplies necessary for reorganization of E.R.  
Most probably arrangements have been made in this respect between Finance Subcommission and other Subcommissions concerned on one side and the Italian Government on the other. These Subcommissions will be able to furnish particulars.

12. Free movement and immunity from taxation for an representative of the United Nations.  
No legislative provisions published. There might be some administrative directives issued in agreement with Interior and Finance Subcommission.

1474

as follows:  
committed contemplated by the proclamations and orders mentioned in Art. 2  
(Note; should read "in Art. 1") shall be continued and dispensed of by said  
Courts in accordance with the provisions of said Proclamations and orders.

7. No removal of AMG appointed officials without consent of C in S.

In this respect Art. 1 para 2 of the T.D.L No. 31 states as follows: "the  
efficacy of the acts undertaken by the Allied Military Authorities . . . shall  
remain in force including the appointments and dismissals of public or private  
officials, which shall be recognized in every case as having full and valid  
legal effect as if they had been made by the Italian Government. The legal  
and financial status of those who have been placed in public office by the  
Allied Military Government will be regulated by the rules of Italian law.

In addition to the above an exchange of correspondence took place  
between the Chief Commissioner and the Chief of Government in which the  
latter confirmed the necessity of previous consent by the A.C.C. to any  
change in the status of officials appointed by the AMG in the restored ter-  
ritory (Marshal Padoiglio's letter of 13 March 1944 No. 759). As far as  
this Subcommission is concerned the Minister of Justice gave his assurance  
to adhere to this agreement in respect to judicial officials in a meeting  
held on 21 March 1944.

8. The right to requisition property or services. No legislation on this  
subject was published and no difficulties seem to have arisen. Interior  
Subcommission and the Army Subcommission may supply information as to admin-  
istrative instructions.

9. The right to reoccupation of Italy and steps necessary for intersection of  
frontier and distribution of civilian supplies  
No need for legislation on this point has arisen.

10 & 11. Right of import, export and distribution of military  
and other supplies necessary for prosecution of war.  
Most probably arrangements have been made in this respect between  
Finance Subcommission and other Subcommissions concerned on one side and the  
Italian Government on the other. These Subcommissions will be able to furnish  
particulars.

12. Free movement and immunity from taxation for any representative of  
the United Nations  
No legislative provision has arisen; to this Subcom-  
mission's knowledge the Italian authorities scrupulously avoided any claim of  
jurisdiction over United Nations personnel.

13. Immunity of the representatives of the United Nations from the jurisdiction  
of Italian courts.  
No need for a legislative provision has arisen; to this Subcom-  
mission's knowledge the Italian authorities scrupulously avoided any claim of  
jurisdiction over United Nations personnel.

14. Costs of maintaining Allied Troops within the Occupied Territory  
chargeable to the Italian Government. This matter was dealt with by the Financial Subcommission which will  
be able to supply particulars.

(ii) Document C. The terms contained in Document C were all put into effect by RDL No. 31. The terms of Document C are stated below together with the corresponding Articles of RDL No. 31:

Document C

RDL No. 31

1. Military Government in the territory restored having been terminated by the Allied Military Government, all powers of government and jurisdiction in the territory restored and over its inhabitants, and fiscal administrative responsibility, subject only to the rights reserved to the United Nations, are vested in the Government of Italy.

2. All proclamations and orders heretofore issued by the Military Governor or under his authority by its delegates in the said territory and which have been terminated therein by the Military Government as from its restoration, are hereby recognised by the Italian Government as having been validly issued during the time they were operative and are declared to be of the same legal effect as if they had been made before issued by the Italian Government in accordance with Italian law, and they will be so recognised by all Italian Courts and officials.

3. All acts done by any member of the Allied Forces in pursuance of such proclamations or orders, and all official action of any nature taken by the Allied Military Government in pursuance thereof including all appointments to and removals from any office, public or private, will be recognised by all Italian Courts and officials as legal, valid and binding.

4. All sentences imposed by Allied Military Courts are hereby recognised by the Italian Government as valid and legal and of the same effect as if imposed by an Italian Court and will be so recognised by all Italian Courts and Italian officials unless set aside or modified by or with the consent of the Allied Control Commission or with the consent of the said Commission.

ART. 1. Allied Military Government, having been terminated, all proclamations and orders heretofore emanating from the Military Governor General of the Allied Forces or from His delegates lose their validity in the territories formerly under the jurisdiction of the Allied Military Government.

The efficacy of the Acts undertaken by the Allied Military Authorities, referred to in the preceding paragraph, by virtue of the said proclamations and orders shall remain in force including the appointments and dismissals of public and private officials, which shall be recognised in every case as having full and valid effect as if they had been made by the Italian Government.

The legal and financial status of those who have been placed in public offices by the Allied Military Government will be regulated in accordance with the rules of Italian law. (see also above 3(a)(1)7)

ART. 2. The sentences pronounced by the Allied Military Tribunals shall remain in force and shall in all respects be recognised as though pronounced by Italian Tribunals, unless revoked or modified by the Allied Control Commission or with the consent of the said Commission.

1473

(b) Document D enumerates under the heading "financial matters" a series of steps to be taken by the Italian Government i.e.:

1. Rescinding by decree, if necessary, the terms of Banco No. 61, Art. 21

served to the United Nations, are vested in the Government of Italy.

Jurisdiction of the Allied Military Government.

2. All Proclamations and orders here-tofore issued by the Military Governor or under his authority by its delegates in the said territory and which have been terminated therein by the Military Government as upon its restoration, are hereby recognised by the Italian Government as having been validly issued during the time they were operative and are declared to be of the same legal effect as if they had been issued by the Italian Government in accordance with Italian law, and they will be so recognised by all Italian Courts and officials.

The efficacy of the Acts undertaken by the Allied Military Authorities, referred to in the preceding paragraph, by virtue of the said proclamations and orders shall remain in force including the appointments and dismissals of public and private officials, which shall be recognised in every case as having full and valid legal effect as if they had been made by the Italian Government.

3. All acts done by any member of the Allied Powers in pursuance of such proclamations or orders, and all official actions of any nature taken by the Allied Military Government in pursuance thereof including all appointments to and removals from any office, public or private, will be recognised by all Italian Courts and officials as legal, valid and binding.

4. All sentences imposed by Allied Military Courts are hereby recognised by the Italian Government as valid and legal and of the same effect as if imposed by an Italian Court and will be so recognised by all Italian Courts and Italian officials unless set aside or modified by or with the consent of the Allied Control Commission.

The legal and financial status of those who have been placed in public offices by the Allied Military Government will be regulated in accordance with the rules of Italian law. (see also above 3(a)(1)7)

ART. 2. The sentences pronounced by the Allied Military Tribunals shall remain in force and shall in all respects be recognised as though pronounced by Italian Tribunals, unless rejected or modified by the Allied Control Commission or with the consent of the said Commission. 1473

(b) Document D annexates under the heading "Financial matters" a series of steps to be taken by the Italian Government i.e.:

1. Regulating by decree if necessary the terms of Banco No. 61 A.C. of 21 Sept. 1942 in relation to notes or exchange of Allied Military Currency. Banco No. 61 was published in the Gazzette Ufficiale, Special Series, No. 1/b, 18 Nov. 1943 and the Finance Subcommission has not requested its republication in form of a decree.
2. Barring transactions in lands and buildings so far as necessary to prevent inflation.  
In agreement with the Finance Subcommission the policy of imposing limitations upon the above transactions has been abandoned.

SECRET

3. "If necessary and in so far as not already provided for in existing legislation; (forbidding?) except as permitted or licensed by the Minister of Finance, all transactions in foreign exchange, import or export of coins, currency, securities or gold or silver bullion and barring financial, commercial or other transactions involving trade or communication with any person outside the territory actually administered by the Italian Government except as between such territory and Italian territory still occupied by the Allied Military Forces and except transactions, imports and exports for the Allied authorities authorized by them."

This term was implemented by para 1 Art. 2 of the above mentioned RUL No. 32 which reads as follows:

"For the purpose of the prosecution of war the Chief of the Government is given authority to impose in the aforesaid territories (i.e. territory restored to the Italian administration), in agreement with the competent Ministers and as the cases may arise, special directives for or limitations upon the exercise of any products or commercial activities and also to fix the zone in which such activity may be conducted."

The Finance Commission should be consulted as to administrative instructions in point.

4. Authorizing the competent Ministers in their discretion as a war measure to prohibit the entering into or carrying on of any type of business except upon such terms or in such areas as they may prescribe, and authorizing them to require any property in which there are reasonable grounds for believing that any enemy or fascist interests, direct or indirect exist, to be delivered to any agency designated by them to be blocked or to become subject to some other form of control; and providing that subject to the terms prescribed by the Minister of Finance property now held in a blocked account shall remain in its present status, and further providing that financial institutions holding blocked accounts are to make semi-monthly reports to the Minister of Finance showing any dealings in these accounts.

This term was embodied partly in para 1 of Art 2 of RUL No. 32 set out above under 3, partly in para 2 of the same Art 2 which reads as follows:

Furthermore the Minister of Finance is given authority:

(a) to sequester or provide for any other form of controlled administration under the supervision of the Ministry of Finance of any property or undertaking in which fascists or enemy nationals, be they physical or judicial persons, hold any direct or indirect interest.

(b) to keep frozen the values and bank deposits already affected by such measure, to determine the respective procedures and likewise to provide that the banking institutions holding such values or deposits report every 15 days all effected operations to the Ministry of Finance."

5. Requiring all future initial openings of safe deposit boxes and delivery of contents to be made only in presence of representatives designated by the Minister of Finance. The Financial Subcommission should be requested to supply information on administrative instructions issued on this subject.

(c) under the heading "United Nations and enemy property" Document D imposed? 2 upon the Italian Government the duty to pass a decree conferring administrative powers upon the Allied Director of Property Control in relation to the property of any of the United Nations or of any national of the United Nations including property of Prince and French Nationals?

As a result of extensive and at times difficult negotiations a machinery

is given authority to impose in the aforesaid territories (i.e. territory restored to the Italian administration), in agreement with the competent Ministers and as the cases may arise, special directives for or limitations upon the exercise of any productive or commercial activities and also to fix the zone in which such activity may be conducted."

The Finance Commission should be consulted as to administrative instructions in point.

4. Authorizing the competent Ministers in their discretion as a war measure to prohibit the bringing into or carrying on of any type of business except upon such terms or in such areas as they may prescribe, and authorizing them to require any property in which there are reasonable grounds for believing that any enemy or fascist interests, direct or indirect exist, to be delivered to any agency designated by them to be blocked or to become subject to some other form of control; and providing that subject to the terms prescribed by the Minister of Finance property now held in a blocked account shall remain in its present status, and further providing that financial institutions holding blocked accounts are to make semi-monthly reports to the Minister of Finance showing any dealings in these accounts.

This term was embodied partly in para 1 of Art 2 of RDL No. 32 put out above under 3, partly in para 2 of the same Art 2 which reads as follows;

Furthermore the Minister of Finance is given authority:

- (a) to sequester or provide for any other form of controlled administration under the supervision of the Ministry of Finance of any property or undertaking in which fascists or enemy nationals, be they physical or judicial persons, hold any direct or indirect interest.

- (b) to keep frozen the values and bank deposits already affected by such measure, to determine the respective procedures and likewise to provide that the banking institutions holding such values or deposits report every 15 days all effected operations to the Ministry of Finance."

5. Requiring all future initial openings of safe deposit boxes and delivery of contents to be made only in presence of representatives designated by the Minister of Finance. The Financial Subcommission should be requested to supply information on administrative instructions issued on this subject.

(c) Under the heading "United Nations and Enemy Property" Document D [initials] upon the Italian Government the duty to pass a decree "concerning administrative powers upon the Allied Director of Property Control in relation to the property of any of the United Nations or of any national of the United Nations including property of France and French nationals."  
As a result of extensive and at times difficult negotiations a machinery has been designed which met the wishes of the Director of the Property Control in respect to the above term. Administrative instructions have been issued to the Prefects and a draft decree is ready for publication which repeals the restricting Italian regulations regarding property owned by the United Nations, France and their respective citizens. The particulars can be obtained from the Property Control Subcommission.

SUBJECT: Execution of Document D for Transfer of Territory.

TO : Headquarters, Allied Control Commission.

Reference is made to Document D of the instruments for the transfer of territory to the administration of the Italian Government. By that document the Chief of the Italian Government undertook to take certain action of a legislative or administrative character, including as far as might be necessary the implementation of Documents A and C. While an examination of the Gazzetta Ufficiale makes it apparent where certain of the requisite decrees have been enacted, other requirements, called for action only "if necessary," "in so far as not already provided," etc. The actual situation is thus in some matters not known to this Section, which has been requested by the Civil Affairs Division, War Department General Staff, to advise on the matter. Accordingly the Allied Control Commission is requested to make a report to this Headquarters showing exactly what has been done to execute the various conditions of the transfer of territory to Italian administration.
