1. Information has been furnished this office to the effect that approved personnel strength tables are established setting forth the maximum permitted strength, for the armed forces.

2. Since the payment of salaries and allowances, food, clothing and other items based on personnel strength are controlled by monthly budget estimates, a more effective control, to the mutual benefit of all, can be effected if the information set forth in paragraph 1 is furnished to this office.

3. In the absence of knowledge of the period covered by each approved personnel strength table, the information should be maintained as current with notification of each amendment.

4. Your cooperation is requested.

ITALIAN NAVAL STRENGTH.

FROM.. FLAG OFFICER TARANTO AND ADRIATIC.

DATE.. 12th April, 1944. No.T.A.1156.

TO .. HEAD OF NAVAL SUB-COMMISSION, ALLIED CONTROL COMMISSION, SALERNO.

With reference to your letter No.101/44 of 31st March, it is requested you will inform the Commission that I do not consider any reduction in the strength of the Italian Navy is justified. The percentage of the Italian Navy employed operationally is far greater than that of the other two services which greatly outnumber the navy. Even so the Italian Navy has been called upon to provide port labour and I.W.T. companies. The latter has been made possible by drawing men from Naval A/A and coastal defence batteries on the mainland which are at present being substantially reduced. The reduction of batteries in Sardinia is now under review.

2. Apart from these commitments, the Italians are gradually taking over certain duties at present carried out by Allied Naval personnel and are opening up minor ports in Sicily.

3. At first sight it may appear that the number of personnel victualled on shore at Taranto is excessive. It is pointed out however that Taranto is a Military Maritime Province and all military administrative work is carried out by the Navy. If the number were to be reduced, it would merely mean that essential military services such as guard and local defence duties would have to be taken over by the Army.

4. The Minister of Marine is being requested to prepare a detailed statement, but until that is received and studied, no forecast of Italian naval strength can be given. In fact, it may well be necessary to effect an increase in the present numbers as we advance northwards.

G. N. Morgan.

TO .... ALLIED CONTROL COMMISSION.

With reference to your two signals (copies attached) I shall have to ascertain the figures of Italian Naval strength in Sicily and Sardinia from the Minister of Marine and cannot, therefore, give you an immediate reply. The figures for Italy and ships operating from Italian ports are reported to FLAMBO every ten days.

2. With regard to the second signal referring to technical units, drivers etc., it seems at the moment improbable that many of these will be found from naval sources. I will send a reply after further investigation.

To : The Chief Commissioner.

Date : 21st February 1944. No D.64 / 44.

Employment of Italian Personnel.

The Naval Officer in Charge Naples, informs me that he employs the following Italian Naval ratings:-

Sentries, Guard Duties etc	100
Coastal Force and Guard Duties	250
W/T. Ratings	10
Hospital Staff	20
Italian Admiralty House	20

2. The civialian personnel employed in the Dockyard is approximately 6.000.

3. Admiral Casardi is believed to have some four to five thousand men on his books and pay rolls, but where they are no one seems to know, as they are not accommodated. The civilian employees receive the usual mid-day meal.

4. I understand that in Sardinia there are approximately some 10,000 sailors, with several Officers, including some Admirals. What they are doing no one seems to know.

5. F.O.W.I.T. is investigating, with Admiral Casardi, the whereabouts and employment of the four to five thousand men on his books: and will check with Flambo. It is appears that there is a considerable discrepancy, which should be rectified immediately.
