Declassified E.O. 12356 Section 3.3/NND No. 785020

File No.
F29-1.

Serial: 56 7 March 1945.

From: Senior U. S. Naval Liaison Officer, ITALY.
To: Commander United States EIGHTH Fleet.

Subject: Maddalena, U. S. Navy Equipment at.

Enclosure: (A) Copy of list of U.S.Navy equipment at Maddalena.

1. The Italian Ministry of Marine requests information whether there is any possibility that the United States Navy equipment reported to be at Maddalena could be transferred to the Italian Navy.

2. It is understood that all United States Navy activities at Maddalena are being terminated. In that event, it is highly probable that the equipment is required for other purposes.

3. Confirmation is requested in order that the Ministry of Marine may be informed that the transfer of equipment cannot be effected.

4. The return of Enclosure (A) is requested.

H. W. ZIROLI.

AVAILABILITY REPORT NO. 7

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be born in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirious of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer AC concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

REMARKS :

0705

Declassified E.O. 12356 Section 3.3/NND No. 785020

COPY

FROM: Madrid

DATE: 20 Jan 45 SUBJECT: Italo-Spanish Trade.

No. 94: The following telegram must be passed to the Ministry of Marine: With dispatches 96557/452 of 29 Nov last year and --- 3306 of 22 Sept 1944 to the Ministry of Marine I gave details of type and characteristics of the material urgently requested.

In the absence of new directives I understand that the quantity must approximately as indicated in your dispatch without number of January 1944.

(Reference to several reports)

The Commercial Commissioners are of the opinion that it may be possible to have part of the frozen funds liberated and also that it is the interest of the Spanish Authorities to favor exportations of woollen material.

Before initiating negotiations --- which will be done by the Commercial Commissioners please inform me of your decision ---- if they have to proceed on those lines it is necessary that they conclude the negotiation indicated in my report 4418 of 11 Nov 1944. Italian Naval Attache in Madrid.

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be born in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirious of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer, AC concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

HEADQUARTERS, ALLIED COMMISSION
Navy Sub-Commission APO 394

NSC/1616
2 February 1945.

From: Navy Sub-Commission, Hq. Allied Commission.
To : Ministry of Marine - Rome.

Subject: Requisitioning of Materials by Allied Authorities at TARQUINA.

References: (a) Ministry of Marine ltr 523/FO of 19 August 1944.
(b) Ministry of Marine ltr 913/FO of 7 November 1944.
(c) Navy Sub-Commission, AC, ltr NSC/1158W of 12 November 1944.

1. In accordance with references (a) and (b) and as the Ministry of Marine was informed in reference (c), the Navy Sub-Commission caused an investigation to be made for the purpose of regularizing the status of the material alleged to have been requisitioned by Allied authorities.

2. It is regretted that it is necessary to inform the Ministry of Marine that in spite of a determined effort by the Allied commands concerned, it has not been possible to secure specific information concerning any materials that may have been taken. The Ministry of Marine will realize the difficulty of tracing such material through operational military units, particularly in view of the extremely limited information that the Navy Sub-Commission could furnish by way of assistance.

3. As stated in reference (c), the matter has been brought to the attention of appropriate Allied authorities and an effort has been made to achieve wide promulgation of the approved requisitioning procedure among Allied commands. It is hoped, therefore, that there will be no repetition of such practices in the future.

SUBJECT: Removal of Property from Italian Naval Depots, Tarquina, Italy.

TO : Commanding Officer, 133d Field Artillery Battalion.
Thru: Commanding General, ETOUSA, APO 887.

1. The Navy Sub-Commission of the Allied Commission in a letter dated 12 November 1944, reports that certain materials and articles of equipment were removed from the POLVERI and AZOTO Plants of the Italian Navy at TARQUINA, ITALY, by personnel of the 133d Field Artillery Battalion.

2. It is reported that subject equipment and material was removed during the period 9 June to 13 June 1944, and that no receipt for items removed was given to the plant custodians. Further, the plant custodians report that they were not permitted to make a record of the subject items.

3. It is requested that this headquarters be furnished with an itemized list of the property alleged to have been removed and all available information as to the disposition of such property so that proper records may be furnished the Italian Ministry of Marine.

1. Investigation of this allegation was handicapped by failure of basic letter to specify the type of materials and equipment which had been removed from the Plants in question. The following items were reported to have been removed:

a. Two bed springs from a bunk room which had been used for a German Military Billet. Abandoned in Italy.

b. One midget Fiat automobile which was used by the Hq. Battery to replace a Jeep. Turned over to an unknown Ordnance Company for repairs.

2. Two members of Hq. Battery report that an Engineer Company (designation unknown) removed a cement mixer during the period in question.

3. Further investigation can be made only on receipt of more detailed information regarding the materials and equipment which it is alleged was taken.

NSC/1157W

12 November 1944.

From: Navy Sub-Commission, Hq, Allied Commission.
To : Commanding General, Mediterranean Theater of Operations, U.S.A.

Subject: Requisitioning of Italian Materials by Allied Militatary Units.

1. The Navy Sub-Commission has received information from the Italian Ministry of Marine that while at TARANTO, personnel from the following Allied Military units removed materials from the ARSENALE and POLVERI plants of the Italian Navy without receipting for them and without allowing local Italian custodians to obtain a record of the materials removed.

DATE:	UNIT:
9 June - 11 June	133 Field Artillery Bn.
12 June - 13 June	Hq. Battery, Rear Echelon 133 Field Artillery Bn.
14 June - 19 June	Hq. CG. Fifty Army.
20 June - 20 July	Hq. Fifth Army PRU, Photo Center

2. In view of the Allied policy that Italian Government material in possession of the Italians at the time of the armistice is considered Italian material and is reserved for their use under the direction of the Allied Commission, it is requested that an effort be made to obtain a record of the items removed by the above units so that proper notification may be given to the Ministry of Marine.

From: Ministry of Marine (Cabinet)
To: F O L T - Rome
Date: 19.8.44
Ref.: 523/20

Subject: Plants at Turquinia and Orbetello - Requisitioning of Materials by Allied Authorities.

1) The NOBEL C° - S.G.E.M. - via Salandra 13, Rome has built for account of I.R.N. or in conjunction with the Administration the plants at Turquinia and Orbetello (the former is not yet completed), to be used for the production of gunpowder and charges for underwater weapons, respectively.

2) The Company informed on 27th ultc. that the Allied Authorities, who occupied these Establishments after the German evacuation, had taken away considerable quantities of materials from same, without allowing the Company's personnel to carry out any check or furnishing any receipt.

3) In view of the fact that these materials must be considered as being wholly or in part the property of I.R.N. (in accordance with what is set out in Para.1), we shall be glad if you will kindly approach the Allied Authorities concerned with the object of stopping these withdrawals, also conforming with the instructions issued by Allied Forces H.Q. Italy, communicated in letter MSO/530 of 12th June 1944.

Declassified E.O. 12356 Section 3.3/NND No. 785020

From: MINISTRY OF MARINE (Cabinet)
To : F.O.L.I. - Rome
Date: 7.11.44
Ref.: 913/FO.

Subject: Plants at Tarquinia and Orbetello - Requisitioning of Materials by Allied Authorities.

1) In reply to your letter L. 1/4/1 of 22nd Aug. 1944 and further to letter N° 913/FO. of 15th Aug. last from this Ministry, we give you the particulars in regard to Allied Forces detachments who have billeted in or occupied at different times the two establishments at Tarquinia "AZOTO" and "POLVERI":-

- From 9th June to 11th June detach. 133 FA-bn - ep
- " 12th " " 13th " " HQ. 5TH REAR ECHELON
- " 14th " " 19th " " 133 FA -bn
- " 20th " " 20th July " By order CC-fifth Army (HQRS)
- " " " " " " G-HQ-5th Army-Photo Centre

2) Personnel of the above detachments have taken materials away from the works without signing for them; moreover, during their stay there, personnel from other detachments have drawn materials, also without giving a receipt for them.

3) Subsequently:
- from 21st July to 24th August, HQ 53d. Troops Carrier Wing were billeted at "AZOTO".
- from 21st July to 3rd Sept. , 307 Air Base Security Bn were billeted at "POLVERI".
- from 24th Aug. 21 Service Group have taken over "AZOTO"

4) It has not been shown, up to the above-mentioned dates, that these latter detachments have taken away materials. However, during their stay, other Allied units have done so, on a smaller scale, most of which have handed in proper receipts.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Ref. : AC/5630/INT 30 November 1944

SUBJECT : Silurificio Plants.

Notes for Colonel Densmore.

1. The Silurificio Plants were installed, partly with British capital, to manufacture torpedoes based on British designs, for the Italian Navy.

2. These plants have been active during the present war in producing torpedoes for the purpose of sinking the British and Allied Navies.

3. The Germans blew up the buildings and the Silurificio management managed to retrieve from under the wreckage certain machine tools and materials. The British Navy assisted in cleaning up the Bois Plant, which they occupied and utilised. Certain machines were requisitioned by various branches of the Allied services for urgent needs.

4. The British Royal Navy agreed to release the plant to AC. - AC transferred the control to PWB, for utilisation of the plant and premises in the repair of armoured fighting vehicles. There is a huge back log of this work. It was agreed that facilities should be allowed Silurificio to continue the repair of 700 torpedoes for the Italian Navy. Admiral Morse (FOWIF) confirms by letter 17 Aug. 44 to Admiral Cassardi, Chief of Italian Naval Base Naples, that he is satisfied that AMMI is implementing this agreement.

5. AMMI denies

a) that workpeople are unemployed - they have had to search Naples for suitable labour owing to local shortage and to use precious transportation to bring them to work and to return them to their homes;

b) that Silurificio could carry out their work satisfactorily under the firms own management. AMMI insist on retaining control.

6. It is certain that for security reasons and to avoid sabotage or shoddy workmanship, which would endanger British or American lives, AMMI would not agree to A.F. V's being repaired by Italian workpeople without direct military supervision and control. It is certain that raw materials, power and newplant imported by AMMI to strenghten the equipment would not otherwise have been made available to this firm.

6382

0739

Declassified E.O. 12356 Section 3.3/NND No. 785020

7. It is considered more than probable that Naval C.in. C.Med. possesses a directive that the production or reconditioning of Italian naval equipment has no priority.

8. The proper procedure for the Silurificio directors is to present their case for derequisitioning of their premises in quadruplicate on the attached forms, 3 copies to the Italian Ministry of Industry, Commerce and Labour and one copy to Industry Sub-Commission AC. - The application will then be presented by Industry Sub-Commission to the Industrial Coordination Committee APLIS for decision.

9. No delegations of industrialists, or others with an axe to grind should be allowed to trouble the President or Chief Commissioner of AC, but should be referred to the Italian Ministry of Industry, Commerce and Labour.

10. It is of interest to note the "lobbying" performed by the Silurificio Company and to record that Industry Sub-Commission has eventually had to deal with all their applications, as they have naturally all in the end, been referred to AC. - The following have been approached:

A.C.
H.E. Bonomi
Admiral Casardi
Marshal Badoglio
Ministry of Marine
Admiral Morse
British Ambassador.

11. The undersigned is at your disposal for the interview with the Silurificio delegation on Friday next.

TOILET ARTICLES FOR ITALIAN NAVY

The conversations with the other Allied Armed Services relative to the supply of certain toilet articles for the Italian Armed Forces referred to in the Commander-in-Chief, Mediterranean's signal timed 1734 of 29th August, 1944, have proved abortive. If, however, the Italian Ministry of Marine is unable to provide the personnel of the Italian Royal Navy with essential toilet articles, the possibility of unilateral action to assist in the supply of these articles will be examined provided the Commerce Sub-Commission Allied Control Commission confirm in writing that the articles required are unobtainable from local resources.

2. It is requested therefore that you ascertain from the Italian Ministry of Marine what essential toilet articles they are unable to provide for the personnel of the Italian Royal Navy and the estimated quantities required for initial issue (in the case of permanent articles), and maintenance (in the case of consumable articles).

3. No firm undertaking to supply can be give until requirements have been examined.

Sgd. L. H. Phillips

for ADMIRAL.

FLAG OFFICER LIAISON, ITALY,
ALLIED CONTROL COMMISSION,
HEADQUARTERS,
ROME.

22nd August, 1944.

No. L. 193/1.

MINISTRY OF MARINE,
ROME.

RE-QUISITIONED TINMETAL AT THE "NAVALMECCANICA" CO's WORKS AT CASTELLAMMARE.

With reference to your letter No. 19158 of 14th August, it is requested that information be given as to the exact amounts of tinmetal required in each of the bases you mention. Furthermore, more detailed information is required as to the need for this material i.e. type of work for which it is required etc.

2. It has been noted that when demands for controlled material are forwarded by the Ministry of Marine, sufficient information to justify the demand is seldom given. When obtaining the release of materials, it is necessary to provide the fullest possible information in order to decide how best to allocate the available material among the various authorities requiring it.

3. When requesting materal, the following information should invariably be given :-

1. Commodity.
2. Quantity required,
   (a) Now.
   (b) Next month.
   (c) Second month.
   etc.
3. Justification for demand.
4. Particulars of source of supply (if known).
5. Address at which material should be delivered.

Tel : Rome 377-191
2nd October 1944.

The Secretary,
Italian Ministry of Marine,
Rome.

Dear Sir,

This Unit has recently moved to this area, and is in need of certain items of furniture. It is understood that your Department has in store certain office and other furniture which might be available on loan/purchase.

We should be very glad to know whether you feel able to loan or sell to this Unit the following :

6 Chairs
2-Office desks
2 Tables

from the furniture which we understand is at present in store.

Yours faithfully

...

Officer in Charge,
Friends Ambulance Unit.

PUBLIC RELATIONS BRANCH
ALLIED CONTROL COMMISSION

17 August, 1944

PRB/R2

Subject: Newsprint for Italian morale sheets

To : Navy Sub-Commission, Air Force Sub-Commission

At the meeting of the Allied Publications Board on 11 August it was agreed that the APB should not in future supply Italian morale sheets with newsprint.

These papers should be advised to derive their stocks from regular navy or air force sources, through the Navy or Air Force Sub-Commission.

This is really a matter of bookkeeping. If you will apply to Major Green, Industry and Commerce Sub-Commission, he will, I think, be able to arrange for necessary stocks of paper to be supplied to the morale papers in question.

Ref.: SM.3103

Subject: Release of Red Lead Paint.

On 1st Dec.1944 (Release Note N°1432), I.R.N. obtained 1 1/2 tons of red lead paint from Adriano CLOCHETTI C°., Civitanova.

I.R.N. Centre at Ancona, who were to draw this paint, have informed that the above Company state that all available supplies were drawn by British Naval Command, Ancona on 26th Nov. 1944. There is only enough left to carry out work in hand for Water Transport, Ancona.

As it has not been possible to draw the paint in question, request F.O.L.I. kindly approaches Allied Authorities concerned with a view to obtaining, if possible, a new release order for red lead in favour of I.R.N.

AVAILABILITY REPORT NO. 8

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees an has been compiled from miscellaneous reports recently received in thi office.

3. It must, however, be born in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirious of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer, AC concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

...actual cases that information about T.N.T., whether in regard to materials or operational and organical questions, should be asked from the Ministry of Marine, which is the only body competent to make such authorizations to applying Commands. This procedure has been followed up to now with full reliable film to both parties and there have been almost no deviations from same.

2) The situation now arises, and will become accentuated as the industrial areas in N. Italy are liberated, of those firms who worked for and supplied materials to I.N.F. I consider that even in this field it is of the greatest importance that the information re. and the materials themselves be treated as per the same procedure, to obviate any intentional confusion ("misdirection") and the removal of materials without the required authorization.

3) I.N.F. Office at Florence has forwarded two letters from the PIGNONE Co (see copies attached) from which it appears that two U.S. Navy Officers have made direct enquiries to the Company re. weapons and materials concerning I.N.F. I consider that as the Ministry had had no communication in regard to any mission entrusted to the above Officers, I.N.F. Command at Florence has acted correctly in pointing out the request made and in notifying the Allied Officers making the enquiries.

4) I must also mention that it would appear that Lieuts. (U.S.N.) ARTERI and MARZILLO had arranged for the withdrawal and despatch of an I.N.F. night periscope which was ready at the "Galileo" Co at Florence; perhaps it would have been better if the authorization had been arranged with the Ministry of Marine.

5) I shall be glad if you will let me have your views regarding Para. 2) and any information re. matters mentioned in Paras. 3 and 4.—

Ministero della Marina

GABINETTO

Al F.O.L.I. - ROMA

INDIRIZZO TELEGRAFICO: MARINA - ROMA

Prot. N.° 812/Fo Allegati

ARGOMENTO: Notizie su materiale da guerra.

1°) - Le norme concretate con il F.O.L.I. stabiliscono che le notizie sulla R.Marina Italiana sia nei riguardi del materiale che su questioni organiche ed operative, devono essere richieste al Ministero della Marina che è il solo Ente riconosciuto per il rilascio di tali autorizzazioni ai Comandi periferici. Tale procedura è stata finora seguita con piena soddisfazione da ambo le parti e le infrazioni alle norme sono state praticamente nulle.

2°) - Ora si presenta la situazione, che si andrà acuendo man mano che saranno liberate le zone industriali dell'Italia Settentrionale, delle ditte che lavoravano e fornivano materiali alla R.Marina: ritengo che anche in questo campo sia della più grande importanza che le notizie ed i materiali stessi siano trattati secondo la stessa procedura per evitare indiscrezioni e sottrazioni di materiali senza la preventiva autorizzazione.

3°) - L'Ufficio della R.Marina a Firenze ha trasmesso due lettere della Ditta "Pignone" (vedi allegate copie) dalle quali risulta che due ufficiali della Marina degli U.S.A. hanno richiesto direttamente a detta Società notizie su armi e materiali interessanti la R.Marina: ritengo che, non avendo avuto il Ministero comunicazioni di incarichi affidati a detti ufficiali, correttamente ha agito il Comando R.Marina di Firenze segnalando la richiesta e informandone gli ufficiali alleati richiedenti.

4°) - Devo segnalare anche che risulterebbe avere i T.V. U.S.A. Navy ALFIERI e MARZOLLO disposto il ritiro e la spedizione di un periscopio notturno della R.Marina pronto presso la Ditta "Galileo" di Firenze: forse sarebbe stato più opportuno che fosse stata ordinata autorizzazione preventiva al Ministero della Marina.

Il Ten.Vascello della U.S. Navy Sigg. Marzullo e Alfieri accompagnati dal Ten. di Lella, si sono recati al nostro stabilimento di Rifredi ed hanno richiesto notizie sulle varie armi e congegni in corso di studio o di esperienza presso questa Società .

E' stato preparato un elenco dei vari argomenti con brevi cenni generici, esaminato il quale i predetti ufficiali si riservano di chiedere le monografie di quelle di loro interesse.

Chiediamo pertanto a cotesto Ministero l'autorizzazione a conseguare tale elenco ed eventualmente le indicate monografie.

In attesa ci segnamo con osservanza.

Flag Officer, Taranto and Adriatic.
Flag Officer, Western Italy.)

The quantity of quinine available on the station is adequate to meet naval needs. In view of the world shortage of these products, it is suggested however, that the question of transfer of this stock to the United Kingdom for later use in other theatres of war should be investigated by the Allied Control Commission.

OFFICE OF THE ENGR, VII AVN ENGR AREA, C/o Serv Gen 62, APO 520, 25 July 1944.

TO: Senior U. S. Naval Officer, Italy, Navy 618.

1. This area does not anticipate any future needs for pipe or other material from Italian Naval sources. If it should become necessary to requisition materials, the requisitions will be submitted through proper channels. All Engineer units assigned to this area are being instructed to discontinue drawing material from the Italian Navy without proper authority.

2. Reference Par 4, Inclosure C, indicates pipe was procured. Available additional information indicates an unknown quanity of pipe of this description was received. Paragraph 4, Inclosure B, dated 17 April, makes reference to Inclosure A, dated 27 June 1944. Paragraph 2, Basic communication states requisitioning of 2700 lineral feet of pipe was regularized.

3. It is not clear if a requisition is desired from this office for the 2700 feet of pipe or the additional amount refered to in Inclosure A. If information in Par 1, 3rd Ind., is insufficient request this office be communicated with directly.

4. It is regretted that this inconvenience has been caused your Head quarters.

17 April 1944

To : Commanding General, XV Air Force Service Command, U.S.Army, APO 520

Subject: Unauthorized procurement of material.

Enclosure: (A) Copy of letter, No 20805, from Royal Italian Arsenal, Taranto, dated 11 April 1944, with translation.

1. There is forwarded herewith a copy of a letter, and Translation, received by this office from the Royal Italian Arsenale, Taranto, regarding the unauthorized taking of material belonging to the Italian Navy.

2. It is desired to invite your attention to the fact that the material in question is the property of the Italian government and as such should be properly requisitioned. Requisitions for material should be submitted through the proper authority, in this case the Flag Officer Tarantoand Adriatic Liaison Italy, Navy House, Taranto.

3. It will be appreciated if you will arrange for orders to be issued that no more material, property of the Italian Navy, be taken until appropriate requisition has been submitted, through the proper channels, and approved.

4. Please advise of action taken in order that reply to Enclosure (A) may be prepared by this Command.

VII AVIATION ENGINEER AREA
ARMY AIR FORCE IN CENTER COMMAND MTO (PROV)
APO 528

10 May 1944

SUBJECT: Request for permission to Requisition Steel Pipe from the Italian Navy.

TO : Flag Officer, Taranto and Adriatic Navy House, Taranto.

1. Near the village of Talsano on the Talsano-Foggia road is a stock of 400 mm. steel pipe belonging to the Italian Navy.

2. There is urgent need for this kind of pipe to be used in drainage of airfields in this area.

3. It is requested that 2700 linear feet be released to this office for this work.

4. The pipe has been collected.

HEADQUARTERS
ALLIED CONTROL COMMISSION
Navy Sub-Commission
APO 394

NSC/756-A

23 August 1944.

From: Naval Sub-Commission, Hq. ACC.
To : Ministry of Marine,
Rome.

Subject: Matches.

1. The contents of a recent Allied Control Commission directive regarding the distribution, rationing, and pricing of matches is quoted below for information.

"1. Arrangements have been completed for the distribution of matches by and through the national organization of Consorzio Industrie Fiammiferi, C.I.F. which is the monopoly for the distribution of all matches for Italy, including all those domestically produced and imported from abroad.

Distribution System

2. The Headquarters of C.I.F. is located in Rome, under the direction of Sig. Galgani.

3. Primary distribution from the various factories and ports is channelled through main agencies with warehouses.

a. These main warehouses are listed for the various Regions as follows:

Region	City	Address	Director
1	Palermo	Via Roma, 489	Simoncini Guido
1	Catania	Via Vittorio Emanuel 8	Ruggeri Francesco
2	Bari	Via Ventuno Aprile 121	Fiorino Adamo
2	Potenza	Stazione Inferiore	Addone Cav. Bettino
3	Napoli	V. Stadera Poggioreale 177	Ferro Ettore
4	Roma	V. Reggio Emilia 56	Diomedi Mario
8 Army	Jesi	SAFFA Factory	Parri Orazio
5	"	" "	" "
6	Sassari	Piazza Castello 2	Briasso Benito
8	Firenze	Via Maso Finiguerra 4	Taviani Dino
9	Bologna	Via Giuseppe Mazzini 96	Cinlling Renato

7128

b. In the event of any problems arising regarding matches in their areas, Regional officers should contact these officials directly.

4. From these primary warehouses using C.I.F. transporation matches in bulk will be moved to secondary warehouses and distributors located in provinces and communes who will deliver to the licensed retail vendors.

0 3 1 5

Declassified E.O. 12356 Section 3.3/NND No. 785020

BEST COPY POSSIBLE

0816

Declassified E.O. 12356 Section 3.3/NND No. 785020

e retail vendors are usually tobacco or other monopoly shops. Lists of e locations and names of the agents for the secondary distributors for ach Region are available upon request, from the Commerce Sub-commission, dQ ACC, but can be obtained from the primary agencies directly in greater detail.

5. Responsibility for distribution of matches and all operations concerned therewith will be in the hands of the C.I.F. organization. ACC/AMG offices need only supervise their operations in the areas concerned.

Rationing

6. Rationing and determination of issue will be the functions of C.I.F., advised by Commerce Subcommission, HQ ACC, and approved by the Italian Government.

7. Matches are issued to all Italians through C.I.F., including Italian armed forces, special groups such as railroad employees, and so on. Requests for matches by special groups for additional supplies should be transmitted upward through C.I.F. and not through ACC/AMG channels.

8. The present ration of matches will be at the rate of 25 matches per person per month. Matches will be collected on the bread ration card.

a. Consumers will present themselves to their nearest licensed match shop, usually tobacconist, who will make up sales lists, prenotating ration cards accordingly, so that purchases are made from their assigned vendor. Ration cards are stamped when purchases of matches are made.

b. These assignments and prenotated cards form the basis of issue from distributors and central shources.

c. Upon request further details of the rationing procedures will be supplied by the Commerce Subcommission HQ ACC.

d. At the present time it is estimated that a three months supply of matches is on hand. The limiting factor is the scarcity of raw materials for production. These have been requisitioned from abroad. Based upon the results of the first distribution, increase in civilian rations is contemplated. 1/27

Prices

9. The official prices to be charged to the civilian purchaser, as approved by the Italian Government and ACC, for the various types of matches are as follows:

Declassified E.O. 12356 Section 3.3/NND No. 785020

Subject: Matches.
(Prices - continued)

Type	Container	Matches per container	Lire per unit.
Cerini	Box	100	2.00
Svedesi	"	50	1.00
Minerva	Booklet	28	0.80
Minerva	"	48	1.30
Minerva	" (U.S.Imp)	20	0.60
Solferati	Box	100	1.00

10. All matches, including imported matches, are handled only through C.I.F. They will be stamped for tax purposes. Unstamped matches are contraband.

General

11. C.I.F. has been directed to proceed at once with distribution as outlined above.

12. Matches are now being moved from stocks to the warehouses and vendors as rapidly as possible".

Flag Officer, Western Italy.)

The quantity of quinine available on the station is adequate to meet naval needs. In view of the world shortage of these products, it is suggested however, that the question of transfer of this stock to the United Kingdom for later use in other theatres of war should be investigated by the Allied Control Commission.

1. No 3 Italian I.W.T. Port Operating Company will move from Taranto to Ancona on 27 Aug 44.

2. It is reported that this Unit is deficient of certain items of messing equipment. A list of these is attached.

3. A.A.I. has approved a scale of equipment for the I.W.T. Port Operating Companies (G.1098 No 346/1/Q(AE)) which includes all the items required. These items should be obtained from Italian sources, but if they are not available from Italian Naval or Military Depots or by requisition from civilian sources, A.A.I. will give authority for issue from Ordnance Stores.

4. Army Sub Commission (M.M.I.A.) have been approached, but they state that they cannot arrange for provision from Italian Army Stocks as the unit consists of Naval personnel.

5. It is therefore requested that you should arrange for the release of such items as are available from Italian Naval Stocks, reporting which items, if any, are not available.

6. May this matter be treated as urgent in view of the date of the move of the Unit.

STATE MONOPOLIES; QUININE PRODUCTS.

1. For your information, I am informed that Quinine Products, totalling 4,261,734 grams are lying in the "deposito" at the Volterra Saline or Salt Works (Map 1: 200,000 Sheet 13 M.R. Q 4224). The quinine is the property of the State Monopolies.

2. The Senior Financial Officer, 5th Army has been instructed to "block" these goods pending instructions as to their disposal. May I be informed as soon as practicable, whether these medical supplies are required for use by any Allied Naval activities. If the quinine is not required by Allied Forces, the Financial Sub-Commission, ACC, has requested authority to release the stores to the Public Health Sub-Commission, ACC, for civilian use.

3. Tax free prices for Allied use or export can be fixed if necessary.

P13-5

Serial: 456

26 July 1944.

From: Senior U.S. Naval Liaison Officer, Italy.
To : Commanding Officer, 62nd Service Group, APO 520

Subject: Withdrawal of Tubing.

Reference: (a) Headquarters, Allied Control Commission, R.C. & M.C. Section, 161/86/CA dated 15 July 1944.

Enclosure: (A) Copy of reference (a).

1. Flag Officer Liaison Italy has received a letter from Commander in Chief, Ionian and Lower Adriatic, informing him that: "On 13th inst. an American N.C.O. (or P.O.) under orders of Captain GREEN of G. Field A.A.F.A.P.O. 520 Command at Grottaglie; accompanied by several American Servicemen and some Italian workers, presented himself (without any forewarning) at the A.S.N. Works of Marinarmi's No. 3 Sub-Magazine, and in spite of R. Italian Carabineer N.C.O.'s objection, supported by one of the workers, commenced to dismantle several lengths of tubing, etc. forming part of the hydro assembly of the above mentioned Works".

2. This action is in conflict with established procedure, as restated, subsequent to the event, in reference (a), copy of which is enclosed for your information.

3. It is requested that the tubing referred to in para.(1), an essential element of the installation, be returned as soon as possible.

1. The Italian Armed Forces are fighting and working as co-belligerents with the Allies in Italy. Their help can, however, only be effective if they have the means to administer and maintain themselves.

2. Cases have occurred (particularly in ROME and other newly occupied localities) where porperty, transport and materials belonging to the Italian Forces have been removed from them without proper authority and when the operational need for such action no longer existed.

3. In future no buildings, real estate, transportation or other materials belonging to the Italian Armed Forces or in the possession of effective units of the Italian Navy, Army or Air Forces, will be occupied, requisitioned seized or made use of without prior reference to this HQ. This does not, however, preclude the rights of operational commanders to make such use of the items mentioned as may be necessary for operational reasons.

7098

4. The Italian Commanders concerned have been authorized to place notices on their property indicating its ownership. These notices will be respected.

25 July 1944

SUBJECT: Lumber

TO : Naval Subcommission, HQ ACC

1. The attached form MAT 10 of the 18th of June for lumber refers.

2. The following is a list of mills which, so far as known to this Subcommission, are at present working for Allied Services:

a. Santa Maria Capua Vetere.

Owner - Rauso Luigi, Corso Umberto No. 10.
" De Rosa Carlo, V. Colatina No. 5.
" Rauso Giuseppe, Vicolo Rauso No. 5.
" Caliento Enrico, V. San Gennaro No. 29.
" Russo Pasquale, Piazza 1st Ottobre II.
" Sparino Domenico, Casso Umberto 1st No. 137.
" Iannone Cipriano, Via Appia No. 90.
" Fr. Di Rienzo, V. Garibaldi No. 18.

b. Caserta.

Owner - Cuccaro Vincenzo, Via Milano 5.
" Rendano Anna, V. Ricciardi No. 6.
" Schisano Filippo, S. Carlo No. 90.
" Mittoli Antonio, Via Delle Ville.
" De Lucia Vincenzo, Via Renella No. 66.

3. It is suggested, that, as lumber is not a controlled material, with the exception of that detailed in Schedule No. 1 AFLR(I)B of 7 July 44 (copy attached), inquiry be addressed to these mills regarding your requirements.

SCHEDULE No. 1, AFLR(I)B.

A. MATERIALS UNDER CONTROL OF ENGINEERING MATERIALS COMMITTEE, AFLR(I)B.

I Metals: Ferrous

1. Billets and Ingots.
2. Cable and Wire.
3. Machine and tool steel.
4. Structural Steel.
5. Steel of all kinds.

I Metalli: Ferrosi

1. Verghe e Lingotti.
2. Cavo e filo.
3. Acciaio da macchina e da arnese.
4. Acciaio profilato
5. Acciaio di ogni genere

II Metals: Non-Ferrous

6. Aluminum
7. Antimony
8. Brass
9. Copper
10. Chromium
11. Lead in all forms.
12. Pure Mercury.
13. Molybdenum
14. Monel metal
15. Nickel
16. Solder
17. Tin
18. White metal for bearings.

II Metalli: Non-Ferrosi

6. Alluminio
7. Antimonio
8. Ottone
9. Rame
10. Cromo
11. Piombo
12. Mercurio puro
13. Molibdeno
14. Metallo monel
15. Nichelio
16. Saldatura
17. Stagno
18. Metallo bianco per cuscinetti.

III. Timber

1. Standing Timber in Calabria and in the Gargano Promontory.
2. Bulk Timber, over 6" x 6"
3. Constructional Timber, smallest dimension 3" up to 6" x 6".
4. Structural material, smallest dimension under 3"
5. Logs. 6. Plywood
7. Sleepers or RR Ties.

III. Legname

1. Legnami da sostegno in Calabria e nel Promontorio di Gargano.
2. Tronchi di legno, oltre 6" x 6".
3. Legname da costruzione, la dimensione minima da 3" fino a 6" x 6".
4. Materiale strutturale, la dim. min. sotto 3"
5. Ceppi 6. Legno compensato
7. Traverse o vincoli FF.

IV. Other Building Materials

1. Cement 3. Paint
2. Varnish 4. Pigments for Paint.
3. Linseed & Linseed Oil,

IV. Altri materiali da costruzione

1. Cemento 3. Colori
2. Vernice 4. Pigmenti per colori.
5. Seme di lino & olio di seme di lino.

V. Electrical Materials

1. Accumulators
2. Batteries
3. Copper & Alum. Conductors
4. Electric Light Bulbs
5. Electric Light Fittings
6. Insulators
7. Jointing Composition

V. Materiale Elettrico.

1. Accumulatori
2. Batterie
3. Conduttori di rame e di alluminio
4. Lampedine elettriche
5. Guarnitura di luce elettrica
6. Isolatori
7. Composto per unire

WAR MATERIALS DISPOSAL SUB COMMISSION,
REAR HEADQUARTERS, A.C.C.
A.P.O. 394.

TO : Navy Sub-Commission. 4 April, 1944.

In examination with H.Q., Royal Navy Western Italy, it would appear that the questions raised in Admiral Casserto's letter dated 22 Dec, 1943, have already been clarified.

In directive from A.F.H.Q. numbered AG 400.93-1 GEC-AGM dated 2 Dec 1943, all materials held in Italian Depots and Installations was to be reserved for use of Italian units and was not to be used for other purposes until surpluses existed.

Materials, stores, etc. held by the Italians required by Allied services should be requested through Allied channels or direct with the Italian service concerned. Should the materials, stores, etc not be made available the matter should be referred to higher Authority.

SUBJECT : Derequisition of Premises.
Alfonso Curci & Figlio - Naples.

TO : AFLMS RAAC C.M.F.

1. Attached is copy of a report on the a/m firm, manufacturers of lighthouse and lightbuoy equipment, prepared at the instigation of this H.Q.

2. It appears that the occupation by P.B.S. Engineers has been terminated, but that the premises have not been derequisitioned.

3. It is requested please that the derequisition of this firm be favourably considered, on the grounds:-

(a) That they hold contracts from the Ministry of Marine for Coastal Signalling Equipment.

(b) That demands for supplies are inconsiderable.

For the Acting Chief Commissioner:-

J. S. E. TODD

Ref.: ACC/5611/IND. 15 September 1944

SUBJECT: Report on: Alfonso Curci & Figlio - Mechanical shop - Naples.

TO : Acting Director - Industry Sub-Commission.

Introduction : Mr. Curci accompagnied by his local rappresentative Mr. Luria paid a visit to this Sub-Commission with the scope of ascertaining whether his firm would be entitled to resume work. They mentioned that the firm is on the Admiralty list for the manufacture & Supply of machinery for Coastal Signalling Systems light-houses, etc.-

Location of works: Naples, Via G. Ferraris 146.

Area : Covered 2500 mq.
Total 3800 "

Situation : The works have been requisitioned by "The Engineers Service Peninsular Base Section APO 782 Naples (Torretta)" on Nov. 1943 who installed machinery for the production of oxygen and acetylene.
On August 1944 the previously installed machinery, has beann removed.
Actually a certain quantity of empty cylinders is stored in the premises.

Machinery : Installed before requisition: 7050
N. 1 Rectifying machine
N. 1 Planning "
N. 2 Vertical Drills (for tools up to 20 mm)
N. 1 " " (" " " " 10 mm)
N. 1 Parallel lathe with motor.
N. 1 Multiple " (for threading)
N. 1 Grinding machine with motor.

Stock : Part of the pre-existing stock has been removed by the Requisitionning Authority. Hereunder is listed what has been left behind:

1) Iron plates	Kg.	13.603,240
2) Flat iron	"	2.444,780

37) 6 " " plattforms
38) 4 " " " (small)
39) 5 " " " (large)
40) 8 curved plates for lights
41) 5 " " " openings
42) 1 cast iron ring for same

Various other material as: galvanised iron containers, handles, keys, valves, piping, etc.-

7049

Production : 1) Kerosene lamps
2) lights
3) Lanterns for lights of any type
4) Timing apparatus
5) Buoys fitted with lights
6) Flashing apparatus for light buoys.
7) Dissolved acetylene apparatus
8) Structural part of light houses & ships
9) Repairs.

Orders : The Ministry of Marine, department for Coastal Signalling have passed orders for the supply of various items now urgently needed for the re-activation of the Coastal Signalling System under their Control.

Credits : 1): Totalling 255115.80 Lit due to the firm for the supply of appliances to the Ministry of Marine.
2): Totalling 4778956.84 Lit for supplies to the Ministry of Aeronautics

Connection : The firm was a costomer of the following foreign concern:
1) Chance Bros & Co Ltd Lighthouse Works - Birmingham.
2) Gas Accumulator Co Ltd - London (B.O.C.)
3) Corning Glass works - Corning U.S.A.

Consumption : Installed Power 98 KW
Monthly Consumption 3000 KWH Power force
170 " light
3170 KWH total

Declassified E.O. 12356 Section 3.3/NND No. 785020

Coal (annual)		10 Tons.
Acetylene	"	1500 mc.
Oxygen	"	3000 "
Water	"	30000 "
Lubricants	"	200 Kg.
Greases	"	80 "

Labour : Usually 85 hands are employed
Clerks 12.

Conclusion and Recommendation : The firm has been asked to draw out a report of which the above is an extract. Their desire is that their shop be set free and authorised to resume work in orders already booked from the Ministery of Marine. The claim appears reasonable as Allied Authorities seem to have no further interest in the plant.

Il Colonnello G.N. BORDOLI che è stato 4 anni alla Corderia di Castellammare di Stabia riferisce:

a) I macchinari della corderia sono di fabbricazione inglese della Ditta Lowson e della Ditta Robb;

b) La Ditta Robb ha anche una fabbrica a Casalecchio sul Reno (Bologna);

c) I pezzi di rispetto chiesti dalla Corderia di Castellammare possono essere forniti esclusivamente dalle Ditte di cui sopra;

d) Non risulta che le due sopraddette Ditte abbiano rappresentanze in Italia.

File No. 177 S.

Inclosures 2

for information:
To MARI DEPART - Liaison Offcr - Naples
FOURT - Liaison Offcr - Naples

Subject: Hemp supplies for the Navy Rope factory.

1. We wish to inform you that according to agreements made with the Hemp Control Committee the production of Twine at this Rope Factory has been oriented upon two products, namely:

— Sail Twine (TRANSLATOR'S NOTE: Italian dictionaries do not include the word "VELAIO", but the root word "VELA" means a sail, and the terms may be used for the instrumental purpose.)

— Common Twine.

2. We state further that our total daily production now at present amounts to an average of 100-120 Kg. since there is a frequent interruption of electric power and the machinery is not in perfect working condition. When operations have been and outside causes of work stoppages shall have been eliminated we may count upon a daily output of 150 Kg. of finished product.

7043

Declassified E.O. 12356 Section 3.3/NND No. 785020

PARKER DEPARTMENT - Liaison Officer - Naples

FOWITT - Liaison Officer - Naples

Subject: Hemp supplies for Italian Army Rope Factory

1. We wish to inform you that according to agreements reached with the Hemp Cattle Committee the production of twine at Army Rope Factory has been limited upon two products, namely.

— Sail Twine (TRANSLATOR'S NOTE: Italian dictionaries do not include the word "VELAIO", but the root word "VELA" means a sail, and the twine may be used for that manufactured purpose -)

— Common Twine.

2. We state further that total daily production at present amounts to an average of 100-120 Kg. since there is a frequent interruption of electric power and the machinery is not in perfect working condition. When operational defects and outside causes of working stoppages shall have been eliminated we may count upon a daily output of 150 Kg. of the finished product.

7043

3. The amount of combed hemp (No. 1 fiber) for the above production would be 10-12 Tons per month. Whereas the amount of hemp on hand allows for production until the end of June, it is necessary, in order to avoid work stoppages, that your office authorize the H.C.C. to release to our Rope Factory a monthly supply of 10-12 Tons, starting in June. It would be well if the Factory could

Declassified E.O. 12356 Section 3.3/NND No. 785020

receive the first lot between the 10th and 20th of June.

4. - Repairs to machinery for the medium product section are under way (small items and ropes up to 14 cm circumference). So that said work may be completed, materials listed in Inclosures A) and B) will be needed. Whereas your office is aware that production in the above lines is of particular interest to the Royal Navy, we beg you to hasten the delivery of said material, which this office, despite all search to date, has been unable to acquire.

5 - Once these materials are on hand we assure you that the small rope section can start production within 10 days of delivery, as per Inclosure A), starting from the end of May, because the last repairs to electric motors will be completed by that date.

6. - Once, however, items indicated in Inclosure B) are delivered, said section may enter the productive phase 10 days after delivery, starting from the end of July, because repair work to electrical installations will end at that date.

7. - With production started in the medium product section, the monthly raw (hemp) material supply, needed besides that used for tarring, is as follows:

~~Bandage~~ Hemp for medium rope	60	Tons
Combed " " small production	30-35	"

8. - There has been an increase in the request for raw materials, over those set forth to H.C.C in File No. 154/S dated 17 April 1944, ~~for~~ for the reason that since

Declassified E.O. 12356 Section 3.3/NND No. 785020

scarcely to date, has been limited to emergency

5.- Once these materials are on hand we assure you that the small rope section can start production within 10 days of delivery, as per Enclosure A), starting from the end of May, because the last repairs to electric motors will be completed by that date.

6.- Once, however, items indicated in Enclosure B) are delivered, cord section may enter the productive phase 10 days after delivery, starting from the end of July, because repair work to electrical installation will end at that date.

7.- With production started in the medium product section, the monthly raw (hemp) material supply, needed besides that used for twine, is as follows.

Bandage Hemp for medium rope	60	Tons
Combed " " small production	30-35	"

8.- There has been an increase in the request for raw materials, over those set forth to H.C.C in File No. 154/S dated 17 April 1944, for the reason that since I may the workers put in two extra hours of work daily.

SUBJECT: Leather belting for Italian Navy.

TO : Navy Sub-Commission, Rear ACC-HQ, Salerno.
Attention: Commodore Palmer.

1. In accordance with conversation between Commodore Palmer and Lt. Col. Reiter this request for leather belting is being despatched by courier for your information, approval and justification for getting D.D.W. to permit diversion of leather and operations to make this belting.

2. D.D.W., Capt. Mackenzie, indicated in phone conversation today that he had no knowledge of this transaction, that the prices were high, and that DDW had orders ahead for three months, with leather itself under control of the Allied Forces Local Resources Board.

3. If you will return these papers with the information requested in para. 1, we will carry on with DDW in procuring the belting.

4. Only the 17 meter 200 x 15 mm belt is requested.

F. M. REITER
Lt. Colonel,
Chief, Local Resources Section.

From .. Ministry of Marine. Cabinet .
Date .. 8th July 1944. N°:19264/1727/Oo.
To .. F.O.I.I.

REQUEST FOR CAUSTIC SODA FOR SOAP-MAKING.

This Ministry is doing its best to produce the soap distributed monthly to the ships' crews, by utilising the stocks of caustic soda in the stores of the subordinate Maricommi TARANTO.

As this stock is nearly exhausted, and in prevision of the impossibility of continuing the issue of soap, a factor which would have serious consequences from the hygienic point of view, it is requested that F.O.I.I may supply a first quantity of 250 (two hundred and fifty) quintals of caustic soda, to enable this Ministry to provide for the production of the soap necessary for the cleanliness of the personnel.

It is further requested that the Allied Control Commission may be approached on the subject.

for the Minister
The General Secretary
Bruto ERIVANESI
VICE ADMIRAL.

TARANTO.

17th July 1944.

No. T.A. 1031/84.

MINISTER OF MARINE,
MARISTAT, PALAZZO RESTA,
TARANTO.

CAUSTIC SODA.

With reference to your letter No. 1926/1727/00 of 8th July, 1944., the latest monthly stock list shows that Marlboost has a stock of about 22,500 kilograms of Caustic Soda. It is suggested that a proportion of this stock is transferred to Maricomi.

2. It is requested that before Allied authorities are asked for materials in future, care is taken to ensure that these materials do not in fact exist in Italian Naval stores.

ARGOMENTO: Richiesta soda caustica per saponificazione.=

Con una modesta scorta di soda caustica già esistente nei magazzini della dipendente Maricommi Taranto, questo Ministero stà provvedendo nel miglior modo a far produrre del sapone da distribuire mensilmente agli equipaggi.-

Poichè tale scorta è presso ad esaurirsi, ed in previsione della impossibilità a continuare la distribuzione del sapone agli equipaggi, ciò che comporterebbe un grave danno ai fini igienici, si prega codesta Commissione di volere cortesemente disporre una prima assegnazione di almeno 250 (duecentocinquanta) quintali di soda caustica onde questo Ministero possa fare produrre il sapone occorrente per la pulizia del personale.-

Si prega, pertanto, di volere interessare la competente Commissione Alleata di Controllo.=
