Ref.: SM/16855

Subject: Requisitioning by Allied Authorities of craft at Venice.

The I.R.N. Centre at Venice has drawn it to our notice that the local Allied Authorities have ordered the use for their purposes exclusively of a large number of small vessels which were engaged in carrying personnel and goods on the lagoon at Venice.

It being that the number of craft available at present in that port has been reduced considerably as the result of the exceptional losses suffered in past years, and that a further reduction would worsen the living conditions of the population, it is requested that the Allied Authorities concerned should limit as far as possible the use for their exclusive purposes of the craft at Venice in order that the requirements of the city's lagoon traffic may be met.

Prot. N. SM/16855 *Allegati*

ARGOMENTO: Requisizione da parte delle Autorità Alleate, dei natanti di Venezia.-

Il Comando del Centro R. Marina di Venezia ha fatto presente che le locali Autorità Alleate hanno disposto l'impiego per loro esclusivo uso di numerose piccole navi che erano adibite al trasporto di persone e di cose nella laguna di Venezia.-

Nella considerazione che il numero dei galleggianti attualmente disponibili in quella Sede è già molto ridotto a causa delle perdite eccezionali subite negli scorsi anni, e che una ul= teriore riduzione causerebbe un aggravamento delle condizioni di vita della popolazione, si prega voler interessare le competenti Autorità Alleate a limitare per quanto possibile l'impiego per loro esclusivo uso dei natanti di Venezia, per andare incontro alle esigenze del traffico lagunare della città.=

Lt.Comm.Thomas.

Italian tanker motor vessel "UGO FIORELLI".

I spoke with Capt.Bate(Tanker Sec.MWTR Med) this morning on the subject of spare parts etc.for this merchant vessel.

He said the gear was 'on order' but, off hand, he was unable to say whether it had yet been manufactured. Several enquiries on this subject had been made in the U.K. and he was initiating another today, following on this enquiry. He will let us know when there is something new to report.

Date: 23.3.45
Ref.: SM.5755 - 2 Encls.

Subject: Spare Parts for M/Tankers "FIORELLI" and "ZANIBONI".

1. Since 26th May 1944 Italian M/Tank. "Ugo Fiorelli" has been used by American Petroleum Section at Bizerte as a towed tanker - and therefore subject to greater wear and tear - instead of her using her own power on account of lack of spare parts for engines, auxiliary engines and an anchor which was loaned to M/T. "Vittorio Zaniboni".

2. As will be seen fromattached lists, spare parts etc. for both these Tankers were to come out from England in accordance with Mr. Mac Donald's (M.W.T. Surveyor, Bizerte's) demand forwarded in July last, and which were to arrive at Bizerte last February.

3. As above spare have not arrived yet and it is urgently necessary for "Fiorelli" to leave her present duties, request that you ask D.M.W.T. Caserta to:

a) Provide official information in regard to shipment of these spares from England;

b) Inform if same did arrive at some port in February, or estimated date of arrival;

c) Name of M/V. in which they were shipped;

d) Where unloaded;

e) From which manufactures they were ordered;

f) Confirm ordering of Ansaldo type anchor, weight 1260 kgs.; holding resistance 24,820 Kgs.; with seven lengths of cable, and estimated date of despatch.

g) Confirm ordering of all spares listed which, apart from reconditioning these Tankers, would also serve as additional spares for same.

ARGOMENTO: Pezzi di ricambio per le motocisterne FIORELLI e ZANIBONI.-

I. - Dal 26 Maggio 1944 trovasi a Biserta la M/c italiana "Ugo Fiorelli", impiegata dalla Petroleum Section Americana come cisterna rimorchiata e perciò soggetta a più intenso logoramento, anzichè come nave viaggiante, mancando alcuni pezzi della macchina, dei motori ausiliari ed un'ancora ceduti alla M/c "Vittorio Zaniboni".

2. - Come risulta dagli uniti documenti i pezzi di ricambio mancanti e pezzi di rispetto sia per la M/c "Fiorelli" che per la "Zaniboni" furono richiesti in Inghilterra, nel luglio 1944, dal Sig. Mac Donald, Surveyor del M.W.T. di Biserta e se ne prevedeva l'arrivo a Biserta nel febbraio scorso.

3. - Poichè finora non risulta avvenuta la fornitura di detto materiale e urge provvedere per la rimozione della motocisterna "Ugo Fiorelli" dall'attuale impiego, si prega di richiedere al D.M.W.T. a Caserta 2662

a)- notizie ufficiali della comunicazione d'invio dei pezzi dall'Inghilterra;

b)- conferma loro eventuale arrivo in febbraio, o data prevista;

c)- piroscafo su cui sono stati imbarcati;

MEMORANDUM FOR THE ALLIED COMMISSION

Subject: Danish s/s MARIT MAERSK -

1. The Danish Legation at Rome have requested the Ministry for Foreign Affairs to inform them if the Danish s/s MARIT MAERSK, at present in Greece, could be placed in dry-dock in an Italian port in order to undergo the following repairs: cleaning and repainting the hull with two layers of anticorrosive and boottop, more one layer of antifouling, and replacement of the propeller-shaft.

2. The Vessel displaces 1894 tons, is about 300 feet long and has a moulded breadth of about 44,6 feet. It will be returned in about 4-6 weeks.

3. The Danish Legation has requested to be advised of the price of the aforesaid repairs and of the time necessary to carry them out.

4. The Ministry for Foreign Affairs would be very grateful if the Allied Commission would kindly interest in the question the Mediterranean Shipping Board and would much appreciate an early reply in the matter.

Reference your letter 21st Oct. (NCS 3819), regret your earlier letter was not received by our Naples office.

We can however quote the following from our records:-

"Owners, La Columbia Soc. Marittima per Trasporti di Petroli Derivati of Genoa, vessel was sunk, now raised and lying at Savona.

As "La Columbia" is said to be an Italian branch of the Socony Oil Company of New Jersey, it is suggested that one of the American Oil experts here in Rome may be able to supply more information on the ship's status."

Should a report on the vessel's condition at present be required, we could probably produce one.

A.J. Harvey.

Subject : Motor-tanker "SPLENDOR"

Further to my 1571/UT of 19th August 1945 the following additional particulars known to the undersigned are passed for information :

1. The motor-tanker "SPLENDOR" is the former R.L. HAGUE owned by the "LA COLUMBIA" Maritime Company of Genoa - carriers of petroleum and its products - which was formed in 1942 by the General Italian Petroleum Combine (A.G.I.P. Rome).

2. On 9th September 1943 the ship was sunk by its crew in Savona harbour to prevent its being used in any manner whatsoever by the German forces. It was salvaged by the German Navy in the first half of 1944 and turned over again to A.G.I.P. (after payment of salvage expenses) since the ship suffered further damage from Allied air action during the work. Hit once more by Allied bombs the ship sank again in Savona harbour where it was found when the town was liberated.

In June 1945 it was salvaged by an Italian Advance Salvage Party.

The Italian Naval Authorities in Genoa have been requested to give information concerning the present state of the tanker. These particulars will be communicated when received.

MARIMERCANT
Date: 19 August 1945
Ref.: 1571/O.T.

Subject: Motor-tanker "SPLENDOR".

The above tanker, of 18249 tons gross was at Savona on 9th September 1943 and was scuttled by her crew in order to prevent the German forces making any possible use of her.

The ship was salvaged in 1944 but following Allied Air attacks again sank and rested on the bottom. It was found in this condition when the Allied Armed Forces reached Savona harbour.

Subsequently the ship was refloated by the advanced Italian Salvage Party, but the Chief Inspector - Mr. SMITH - and the Regional Inspector - Mr. HOWIE - of the Ministry War Transport have raised certain doubts concerning the ship's precise status in law.

In order to clarify this question I wish to point out that the ship is Italian; it was scuttled in order that it should not be used by the German, as did indeed happen.

Consequently it is requested that the necessary instructions may be given to the regional authorities concerned for the vessel under discussion to be released to its legitimate owners, it being always understood that it will be employed in the Allied Pool, after the repairs necessary to return it to service have been effected.

0933

Unclassified E.O. 12065 Section 3-402/NNDC NO. T 85020

FROM A.V. Pile, SPLENDOR

Twin Screw Motor Tanker.

Inspected at Savona on the 9th June, 1945.

This vessel has not operated since June 1940 and was sunk by the crew to prevent falling into German hands, on the 1st September, 1943. It was eventually salved by the Germans on the 20th May, 1944 and subsequently bombed by the Allies in June and August, 1944 and February, 1945 and has recently been lifted and is now lying alongside in Savona.

Extensive damage has been caused in the mid-ship pump room. All movable gear, lead and copper pipes, have been dismantled and taken away, steering gear and all electrical control motors appear to have been stolen. Some steering gear out of action. Motor head bearing indicated the rudder stock or after end of the ship distorted by explosion.

Engine apparently in good order.

All uptakes above air heaters are blasted away and the top of the funnel blown off.

In addition to the damage already indicated by air bombing, the Germans at some time or another used the hull as a target, leaving a large number of holes to be patched or welded.

While I am of the opinion she is still a repairable propomition I do not consider any priority should be given and I suggest that the vessel be handed over to the Italian Authorities to carry out repairs which can be carried out at Savona (apart from the underwater repairs.)

The following gentlemen paid me a visit while I was in Savona, they maintained that they represent the Owners and requested that the vessel should be handed over to them for repairs and ultimately to operate:-

Navy Sub-Commission APO 394

NSC/3637
24 September 1945.

From: Navy Sub-Commission, Hq. Allied Commission.
To : Air Forces Sub-Commission, Hq. Allied Commission.

Subject: Motor Launches Berlina R.A.M. 59 and R.A.M. 601.

1. Reference is made to Air Forces Sub-Commission letter AFSC/27/AIR of 4 September 1945 which enclosed a request from the Italian Air Ministry for the recovery of subject two motor launches.

2. It has been determined that motor launch R.A.M. 601 is at present being used by the Allied Military Port Manager of Bari. He has stated that it is essential for motor launch R.A.M. 601 to remain at Bari for port duties. A representative of the Flag Officer Italy and Liaison has confirmed that motor launch R.A.M. 601 is still required at Bari due to the extreme shortage of motor launches at that port.

3. The Navy Sub-Commission has been informed by the British Naval Control Service Officer, Bari that he has been unable to discover any trace of motor launch R.A.M. 59 in Bari. The Flag Officer Italy and Liaison likewise has no record of that motor launch. In the event that the Air Forces Sub-Commission can supply additional data as to the requisition and present location of motor launch R.A.M. 59 to the Navy Sub-Commission, it would be pleased to initiate additional inquiries concerning its status.

MOTOR LAUNCHES BERTINA R.A.N. 59 AND R.A.N. 601

Enclosed is a request from the Italian Air Ministry for the recovery of two motor launches now in use by the Navy House, Bari.

2. At the time the boats were requisitioned, the I.A.F. had no urgent needs for them. However, now that seaplanes are being operated at Braccisno and Venice, in addition to the seaplane bases in the south, the request of the Italian Air Ministry seems reasonable.

3. These seaplane bases are being provided mainly for air sea rescue work, which is being run more for Allied purposes than for the Italian Air Force. It is therefore requested that favourable consideration be given to the Italian Air Ministry request.

MOTOR LAUNCHES BERLINA R.A.M. 59 AND R.A.M. 601

On the 11th October 1943 2 motor launches, the Berlina RAM 59 and the RAM 601 were upon request given in consignment by the 4th AAF Command to the Navy House Manager Pori.

As the I.A.F. is hard put for providing motor launches urgently needed for the Venice and Bracciano Seaplane bases it would be very much appreciated if the Navy house 15 in a position to dispose of the motor launches in reference that the addressee may take the matter in hadn and have these motor launches restituted to the I.A.F.

2927

15 SEP 1945

10947

Declassified E.O. 12065 Section 3-402/NNDC NO. T 85020

From: MINISTRY OF MARINE (Inspectorate of Maritime Services.)
To : N.S.C. - Rome
Date: 10th September 1945
Ref.: 1245

Subject: Repairs to the S.S."USTICA".

The "La Meridionale" Co. with Head Offices at Palermo, which has charge of the sea communications with the Island of USTICA, operated the Palermo-Ustica route at four-weekly intervals using the S.S."USTICA" which also ensured the water supply to the Island as it carried a water-tank of 100 tons capacity.

Since the ship has suffered considerable damage to its hull its engines and its boilers as a result of the war, the Meridionale Co. came to an agreement with the American Naval Base Command at Palermo which requested an advance payment of 1,200,000 after having ascertained what repairs were required: this was paid on 4th August 1945.

The repairs were begun on 28th June 1945 and have been completed as regards the hull and the engines, while with respect to the boilers the said Command has informed the proprietary Company that their repair must be deferred as a result of other previous commitments.

In consideration of the importance of the service ensured by the S.S."USTICA" it is strongly requested that the N.S.C. may take the matter up with the Command of the American Naval Base at Palermo in order to obtain the early execution of the necessary repairs to the boilers of the above ship, repairs which can not be carried out at other shipyards in Palermo owing to the lack of equipment.

The opportunity is taken to note that water is at present supplied to the Island of Ustica by the S.S."Lampedusa" the only vessel available, which is quite incapable of satisfying the needs of the island's population and of the prisoners' colony there as its tank is of only 30 tons capacity.

The favour of your acknowledgement of the above communication would be appreciated. 2126

ISPETTORATO SERVIZI MARITTIMI

Divisione 1245 Sez. •

Prot. N.° Allegati

Risposta al f.° del
Div. Sez. N.°

Roma, 10 SET 1945 A.

A/LA NAVY SUB COMMISSION

R O M A

OGGETTO : Lavori P/fo "USTICA"

La Società "La Meridionale" con sede in Palermo, cui sono affidati i collegamenti marittimi con l'isola di Ustica, esercitava normalmente la linea Palermo - Ustica, con periodicità quadrisettimanale, a mezzo del piroscafo "USTICA", il quale, disponendo di una cisterna capace di 100 tonn. d'acqua, assicurava anche il rifornimento idrico dell'isola.

Poichè la nave ha subito, per eventi bellici, considerevoli danni allo scafo, alle macchine ed alle caldaie, la Società Meridionale si è accordata per le riparazioni col Comando Base Navale Americana di Palermo, il quale, presa visione dei lavori, richiese il pagamento di un acconto di £.1.200.000, eseguito il 24.8.45.

I lavori, iniziati il 28.6.45, sono stati portati a termine per quanto riguarda le riparazioni allo scafo ed alla macchina mentre per quelli delle caldaie il predetto Comando ha informato la Soc. Armatrice di doverli differire a causa di altri impegni assunti in precedenza.

Ora in considerazione della delicata importanza del servizio assicurato dal P/fo "Ustica" si prega vivamente codesta Sub Commissione di voler efficaciemente intervenire presso il Comando Base Navale Americano nel senso di ottenere la sollecita esecuzione dei lavori necessari, alle caldaie di detto piroscafo, lavori che

...

10944

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

per mancanza di attrezzatura, non possono essere effettuati da altri cantieri palermitani.

Con l'occasione si fa presente che l'approvvigionamento idrico dell'isola di Ustica viene attualmente effettuato dal piroscafo «Lampedusa», l'unico disponibile, il quale essendo dotato di una cisterna capace di sole 30 tonn. di acqua, risulta assoluramente inidoneo a soddisfare i bisogni della popolazione dell'isola e della Colonia dei confinati che ivi si trovano?

Si gradirebbe un cortese cenno di assicurazione in proposito.

p. IL MINISTRO
Mattei

DEC 7 1945

To Admiral Ellery W. Stone
Allied Commission
R o m e

Motor sailing-boat 'ALESSANDRO'

As one of the owners of the 'Alessandro' of the Viareggio Maritime Compartment, of about 550 Tons, I take the liberty of bringing to your notice a situation which seems worthy of particular attention.

On September 8th, 1943, the 'Alessandro' was in Albania; taken by the Germans, she was loaded and sent to the Egean Sea, however, she spontaneously changed her course, and towards the middle of September 1943, she reached Brindisi where she put herself at the disposition of the Allies, with all her cargo.

Immediately after that, she went to save some Italians on the opposite coast of the Adriatic, and several hundreds of the, were thus able to escape German emprisonment.

Later on, for one thing or another, she has always been in the service of the Allies, till September 19th, 1944, when it was requisitioned by the Navy Department (Italian) and allocated to the Allies who now send her on trips from Puglia to Albania and Greece.

Ever since September 1944, neither compensation, nor before-hand payment were granted for the said requisition. I heard that, a few days ago, the Shipowner was informed that the compensation (we don't know when it is to be paid) will amount to about 4000 L (four thousand) a day.

If this is correct, I wonder how such compensations have been fixed, and why reality has been completely disregarded.

Such being the position, I must appeal to Your Excellency, and trust that we may receive the just treatment we have been so long waiting for; all the steps I took with the Italian Authorities proved useless.

This is a particuler case: after the armistice, the 'Alessandro' never hesitated for a moment to joinnthe Allies, and later on did more than her duty. She therefore deserves a special treatment; a courageous soldier is decorated. The 'Alessandro' should also be rewarded and returned to her owners who lost all their ships during this disastrous war.

2905

Thus she could make enough money to pay for her expensive repairs and for the necessary maintenance (many other ships are allowed to do so, including those who worked for the Germans till April 25th, 1945, and yet this cannot be considered as a particular merit).

0 9 7 2

Declassified E.O. 12065 Section 3-402/NNDC NO. T25020

I hope you will forgive my writing to you, and I shall greatly appreciate whatever you may do for the 'Alessandro'.

Sincerely,

s. Giuseppe Tomei

From: MERCANTILE MARINE COMMISSARIAT FOR N.ITALY.
To : Allied Military Command
Date: 11 August 1945
Ref.: 5125

Subject: Italian Ships in French ports.

At the time of the liberation the undermentioned Italian ships were in the French Atlantic ports of Bordeaux and Nantes :-

At Bordeaux : M/V. "FUSIJAMA" - M/V. "HIMALAYA" - S.S."CAPO LENA" and the tankers: "BURANO", "CLITIA", "FRISCO".

At Nantes : S.S. "CAPO ALGA".

Other vessels of which the exact names are unknown for the moment were in French Mediterranean ports.

With regard to the ships in the abovementioned French Atlantic ports it appears that they were sunk as block-ships by the Germans before the area was liberated by the Allied Armies; however, it seems that nearly all - or most - of them can be salvaged.

At Nantes the work of salvaging the S.S."CAPO ALGA" is taking place by the orders of the French Governments upon the presumption that the vessel is to be considered a prize of war.

As it would appear that the French Authorities are considering the possibility of salvaging the other ships too, with similar intentions, the legitimate owners have requested the aid of this Commissariat in order that their rights may be recognised since they have proper legal title to the private ownership of these ships, which were requisitioned by the command of the German Administration on 8th September 1943 in order to subject them to its control.

Consequently it is requested that the A.M.G. may intervene with the Allied French Government in order to define the present status of Italian Ships remaining in French territorial waters and to explain the salvage operations now being undertaken, it being noted as already indicated that no change has taken place which affects their ownership by their respective proprietors.

OFFICE OF A.C. LIAISON OFFICER
PALERMO SICILY
APO 394

18 May 1945.

FILE: PANT/10

SUBJECT: Communications with the AMG Islands and Malta.
TO : HQ, Allied Commission, APO 394

1. This office has long been receiving complaints from the ALCOM Officers stationed at Pantelleria and Lampedusa concerning difficulties of transportation and communication between these Islands and Sicily. Mail is sometimes delayed as long as a month in going between these Islands and Palermo. At present both mail and personnel are dependent on slow and irregular voyages of privately-owned motor schooners.

2. Officers on the Island have no means under their own control to leave the Islands nor to communicate with Sicily or Malta. An officer having occasion to visit either Island for even the briefest duty could rarely go and return in less than two weeks. Indeed such a trip might require the greater part of a month. Absolutely no means of secret communication is available. A regular and reliable means of communication between the above-mentioned centres for the transport of Allied personnel, the supply of rations, and the carrying of mail and other messages is therefore urgently needed.

3. It is suggested that the possibility be explored of securing a small naval craft for this purpose. The vessel should preferably be manned by Allied personnel. In view of the fact that Malta is in British hands it would seem desirable that the boat be under Royal Navy control. If the Craft were based on Malta it could easily touch all necessary ports at least once each week. The recommended trip (Malta-Lampedusa-Pantelleria-Porto-Empedocle-Malta) could be made in four days and the remaining two or three days could be spent in Malta. The departure could be made from Malta on a regular weekly schedule unless an emergency called for a special trip to one or the other of the two Islands. The Liaison Officer at Palermo should be given authority to call on the Naval Command at Malta for such exceptional trips when necessary.

4. If Allied Commission Headquarters approve of the plan, the Liaison Officer at Palermo would be willing to assume responsibility for working out its details. In order that the Naval Commander at Malta may know of the nature of this proposal (in case Allied Commission desires to consult Malta concerning its feasibility from Royal Navy's point of view) a copy of this letter is being mailed directly to Malta for information only.

Subject: M/V "SATURNIA" - Recovery of accounts documents and cash registers

Reference your communication 12615 of 15th October 1945 and formers.

The following is a transcription of the communication received from the Head Office of the S.A.N. "Italia", in Trieste, relative to the above subject :

"With regard to the possibility of recovering the accounts documents "and cash registers left on board the M/V "SATURNIA" by the service "personnel repatriated from New York by the ss. "EDWARD", the follow- "ing is copy of a letter received from Comandante Manlio NICOLINI, "dated New York, 13th October 1945 :

.....Omissis.....

"Service crew : Upon sailing from Taranto, this comprised the Naval "Officer Commanding, Commander ARCADIPANE, one Petty Officer, one "Leading rate, and four signalmen. I put Cdte. ARCADIPANE ashore at "Greenock hospital on 6th November 1943 and subsequently he was sent "to the Glasgow Mental Institution. The W.S.A. had to pay the "expenses, since the British and American Authorities will have "nothing to do with Naval Commandants or Paymasters, and they considered "him as a member of the Crew. I disembarked the Petty Officers and the "lower rates with the assistance of the U.S.Navy on 12th January 1944. "The Navy arranged for their repatriation.
"Money was advanced from the Ship's Fund to the Naval Commandant and "the personnel were paid monthly from the Ship's Fund in accordance "with the calculations made by the Naval Commandant which - without "doubt - were incorrect."

.....Omissis.....

2886

.....

(21)

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

"Upon instructions from the W.S.A. I paid up the crew entirely
"each month, at an exchange rate of 100, naturally.
"The books of administration were closed each month and deposited,
"together with the vouchers, in 5 chests which were entrusted to
"the care of American Export Lines."

.....Omissis.....

From information received recently it appears that Cdte. NICOLINI and the crew are about to be repatriated and may be in transit already.

We hope that the said officer may have been able to bring the 5 cases of administrative documents with him and, in that event, we will forward to you at an early date the documents in respect of the naval personnel embarked at that time on the M/V "SATURNIA" or, if otherwise, we will apply for the return of the five chests in question.

..... Omissis .....

Da notizia pervenutaci recentemente sembra che il Comandante Nicolini e l'equipaggio siano prossimi ad essere rimpatriati e, forse, siano già in viaggio di rimpatrio.

Speriamo che il predetto Comandante abbia potuto portare con sè le 5 casse delle gestioni ed, in tal caso, vi faremo pervenire sollecitamente tutti i documenti riguardanti il personale militare imbarcato allora sulla M/n "SATURNIA" od, in caso contrario inizieremo le pratiche per il ricupero delle cinque casse in questione.

M/V "SATURNIA"

Gentlemen:

We acknowledge receipt of your letter of April 25th, 1946, with respect to account books and cash registers on the M/V "SATURNIA".

This is to advise that all account books and payrolls pertaining to the Italian personnel of the M/V "SATURNIA" were taken to Italy by Mr. Empoldi, the Italian Purser, in boxes provided him for that purpose. Upon arrival at Trieste, it was his intention to contact the Italian Ministry of Marine in order to acquaint them with all the transactions he performed as Purser and from personal contact with the gentleman, he seemed very anxious to get clearance as soon as possible.

For your information Mr. Empoldi's address is:

THE FLAG OFFICER, ITALY AND LIAISON.

MACHINE GUNNING AND CAPTURE OF ITALIAN MOTOR FISHING VESSELS.

With reference to the attached correspondence received from the Flag Officer, Taranto, Adriatic and Liaison, Italy, it is considered that the matter is one for arrangement between the Jugoslav and Italian Governments. The Minister of Marine may be informed, however, that the Commander-in-Chief, Mediterranean, in view of his being in operational control of the Adriatic, and in consequence responsible for the safety of law-abiding shipping, is prepared to allow an Italian fishery protection vessel to operate occasionally in the Lower Adriatic, subject to the following provisos:-

(a) The Jugoslav and Italian Governments reach an agreement with regard to fishing restrictions and regulations in the Lower Adriatic, which must be subject to the further restrictions and regulations in Mediterranean Temporary Memorandum No.475.

(b) The Jugoslav Government be informed by the Italian Government that an Italian fishery protection vessel may be stationed in the Lower Adriatic under the operational control of the Commander-in-Chief, Mediterranean, for the purpose of protecting Italian fishing craft and ensuring that they xxx adhere to the restrictions and regulations agreed by the two Governments.

(c) The fishery protection vessel in (b) will be under orders to ensure that no fishing by other than authorised craft of whatever nationality occurs in waters placed under Italian, or joint Jugoslav-Italian, control in accordance with (a).

(d) The fishery protection vessel will carry a British officer in the capacity of observer who will be under orders to report matters of interest to the British authorities.

THE COMMANDER IN CHIEF,
MEDITERRANEAN,
MALTA.
(Copy to: The Flag Officer,
Liaison, Italy).

Submitted, for consideration.

2. There is no evidence of any fishing vessels having been molested in the Northern Adriatic and it is considered that the presence of armed Italian Naval vessels patrolling on Medri routs 15/17 and 15/1 would tend further to aggravate the present delicate political situation.

3. As the policy regarding the use of Italian Naval vessels in operations of this nature is not known, advice on this matter would be appreciated.

SUBJECT: Watch duty on sea - for the protection of our Motor Fishing Vessels.

SECRET CONFIDENTIAL PERSONAL.

It has been reported to this Command that M.F.V.s who went out fishing in the Central Adriatic, have not returned to the base. Also a M.F.V. who left S. Giorgio di Nogaro on 7th March bound for Venice, has not yet reached this base.

Considering that weather conditions have never been sich as to justify the loss of so many M.F.V.s, and also that if accidents owing to anchored or floating mines had occurred, some sort of news about it would have leaked out, it cannot be excluded that the M.F.V.s may have been compelled by unknown strangers to enter some port not subject to Italian or Allied jurisdiction and retained there for unascertainable purposes.

This state of things reasonably alarms the mass of fishermen who thus see one more threat added to the danger of mines which still practically exist in all the waters of Central and Northern Adriatic.

It is therefore necessary to take action as far as possible, about the matter, at least as far as to give our fishermen the sensation that on the sea and in the areas in which they carry out their fishing, a watch is maintained by armed vessels capable, if necessary, of preventing eventually ascertained violent actions.

2. I accordingly dispose that this Command take action to displace a M.L. to Ancona in order to join other M.L.s of that Base, in the above mentioned watch duties. Two vessels shall go out to sea in turns, at alternate intervals of about one week, remaining out for 24 hours.

In the performance of these operations following instructions will be adhered to by you (and by the M.L. of Ancona - Ancona Navy):-

(a) DAY AND TIME OF DEPARTURE:
Any and always different days in the week for the M.L. of Venice; departure 1300 hours - return 1300 of the following day.
Any day of the following week for the M.L. of Ancona; Departure 1300 hours and return 1300 hours of the following day.

2855

(b) CRUISING SPEED:
The slowest possible for the exploration of the area, with eventual

Any day of the following week for the M.L. of Ancona; Departure 1300 hours and return 1300 hours of the following day.

2855

(b) CRUISING SPEED:
The slowest possible for the exploration of the area, with eventual pauses at sea, if the condition of the sea will permit it, also using the least possible quantity of oil and fuel.

(c) AREAS TO BE EXPLORED:
For the M.L. of Venice; Route Venice - Ancona to the 44° parallel (MEDRI route 15/16 - 15/1 - 15/4 with short deviations on the 15/17 not over the parallel of Cittanova. For the ML of Ancona; Routes East and South-Eastward from Ancona (MEDRI routes 15/5 - 15/7 - 15/2 - 15/1 to the junction Torre Saccione - Isola Caxza, withcut however following the route which joins the terminal positions of routes 15/5 and 15/7 and route 15/3.
In the areas declared free from minefields and especially visited by

./.

COPY.

fishermen, the two MLs may leave the routes and re-enter them when their task has been accomplished. They shall not approach the Eastern Adriatic coasts more than 12 miles off, and on no account enter a radius of 3 miles from them, except in the route Venice - Ancona - Venice - Trieste in the position which runs along the Istrian coast. Asong these portions of the route the ML of Venice shall never be allowed to stop, but only, if necessary, to sail at slow speed.

(d) VISITS TO THE SUSPECT VESSELS.
Visits to the suspect foreign flags vessels are only allowed within the radius of territorial waters 3 miles from the coast under the jurisdiction of the Italian Government.

(e) WATCH TASK.
Watch duty will turn to violent action only if the captain of the ML at sea should notice craft of any nationality accomplishing violent actions
Only in case of actual use of weapons being ascertained, will the M.L.s answer using their own weapons.

(f) ENTRANCE IN EASTERN ADRIATIC PORTS.
On no account shall the MLs enter Eastern Adriatic ports.

(g) WIRELESS SERVICE.
The wireless apparatus of the MLs on watch duty must be perfectly efficient and listening on board during the 24 hours sailing, must take place in the first quarter of each hour.
As to the working wave and the message transmission procedure, the directions in force must be adhered to. If unrepairable damages should happen to wireless station, in receiving or transmission, the vessel must immediately return to the Base.

3. I am convinced that the presence of our vessels at sea will prove sufficient to prevent further unfortunate incidents of the kind reported.
I trust however that the Captains of the vessels at sea will accomplish their task with intelligence, bearing in mind on one side, the present difficult international situation of our country and on the other the necessity for our countrymen to be personally assured that the Navy will not leave anything undone in order to protect them from illegal actions against the people's right.

4. The present disposition will come into force on.... 2854

5. I request the 1 Flotmas and Ancona Navy to acknowledge receipt of this letter.

SUBJECT :- Ex-German Coasters under construction in Italian Shipyards.

TO :- Foil

1. Attached is a copy of a letter from Ing. Mario Cosulich addressed to this Sub-Commission regarding a proposal to purchase two ex-German coasters (K.T.Class), apparently considered "war booty".

2. These vessels, 700 T.D.W. originally planned as war transports, are on the slipways of the Ansaldo Shipyards in Genoa in an advanced state of construction, assembled with prefabricated parts supplied by a German firm.

3. According to the applicant's letter, neither the Navy-Sub-Commission nor the War Material Disposal Board consider themselves competent in dealing with this matter.

4. It is believed that similar cases exist also in other ship-yards in Northern Italy and, being a type of vessel particularly valuable for coastwise traffic, it is requested that a decision be made about the correct channel for disposal of ships under construction and ex-German property.

5. The Legal Sub-Commission in their AC/4014/4/L of 8 November considered the War Disposal Board would be the proper department to deal with the sale of such vessels, but this is not confirmed by the applicant's letter.

29 November, 1945

To:- Allied Commission H.Q. - Transportation Sub Commission
for attention of Italian Officer - Ministry of Marine

Subject:- on German vessels.

1. On the slipways of the Ansaldo Shipyard in Genoa-Sestri there are two vessels of the "K.T." Class - 5/6 built, assembled with pre-fabricated parts supplied by the German Firm Deutsche-Werft, Hamburg.

2. These ships, originally planned as "war transports" with reciprocating engines, could be easily converted into Diesel driven vessels of 900 I.H.P. approximate, that is, the most suitable type of vessel for Mediterranean waters, so scarce to-day.

3. I understand that the afore mentioned vessels are considered war booty and consequently the shipyard hesitates in carrying out completion works.

4. It is my desire to purchase the two vessels and to start in this way to rebuild a destroyed fleet.

5. I have already applied at the Navy Sub-Commission and at the "War Material Disposal Board" and both of them claimed not to be competent in this matter

6. The above considered, I beg the Transportation Sub-Commission to kindly inform me to which Allied Authority a bid for purchase of the two vessels should be addressed.

POLITICAL ADVISER
to the
ALLIED COMMANDER IN CHIEF

Mediterranean Theater

HQ AMG 13 Corps
Trieste, Italy
July 3, 1946

Dear Mr. Black:

With reference to your letter of June 21 to Mr. Greene, regarding construction of contracts No. 1384 and 1385 in the Monfalcone C.R.D.A., I am quoting below a memorandum I have received from the Chief Industry and Utilities Officer of AMG:

"Both ships, built to the order of German owners, were the subject of war booty claims (by the Jugoslavs).

"In order to give employment, without waiting for settlement of these claims, AMG instructed C.R.D.A. to proceed with their construction including repairs to war damage. At the same time a separate account was to be kept of all expenses incurred, these expenses to be charged to the concern awarded the ships as a result of the war booty claims.

"No one has, therefore, in the normal sense, taken over the contracts. As you suggest AMG is holding the line and taking over the opportunity to give employment presented by the incompleted state of the vessels."

I am also enclosing a copy of a memorandum prepared by the management of C.R.D.A., dated June 27, giving the history of the two contracts in greater detail.

If there is anything further that I can do in connection with this matter please feel free to call on me.

Sincerely yours,

CANTIERI RIUNITI DELL'ADRIATICO
DIREZIONE

Trieste, 27 June 1946

NEW BUILDING FOR THE "KONTINENTALE OEL TRANSPORT A.G." OF BERLIN

By contract dated 25 March 1942, the above firm ordered to C.R.D.A. the construction of 2 motor tankers of 9,000 tons D.W.

The first of these constructions, named "Konstanz" (No. 1384), was launched on the 8/5/1944, and the second, yet without name (No. 1385), is on the building berth.

The two constructions are now advanced respectively 94 and 68%.

Both vessels have been hit by bombs, the second was particularly heavily damaged.

The total price of the two vessels was Lire 92,600,000, payment to be effected part with materials (Lire 65,600,000) and part for cash (Lire 27,000,000). For this second part, it was agreed a clause of revision of price.

About 80% of materials were effectively supplied; it has already been paid for cash, by installments as stated in the contract, the sum of Lire 18,900,000, and Lire 7,290,426.60 for increases in prices.

From the "List of War Booty Items", obtained from the Naval War Booty Sub-Committee on November last, the C.R.D.A were informed that the two constructions are claimed by the Jugoslav authorities as war booty, but as far they have no notice of a final decision in this connection.

From the A.M.G. the C.R.D.A. were recently verbally authorized to proceed with the constructions.

C.R.D.A. made already full reservation to A.M.G. for payments of all disbourstments already made and now in course (including cost repairs for war damage) over and above those amounts indicated above which has been paid by the Kontinentale Oel Transport A.G.

14th June, 1946.

Ref: GAB/551/46/R.17e.

To Navy Sub Commission, H.Q. Allied Commission
From Ministry of Transport Representative (Italian Area)
Subject: German Merchant Ships Traced in Italy.

Reference is made to your letter of 15th May (NSC/5025) and further to your letter of 24th April (NSC/4935/2) 1946:

The Ministry of Transport, London, point out that unless the vessels which are described in your letters referred to above as Rhone tankers are genuine German flag vessels, they may be French or other Allied Flags which had been requisitioned by the Germans. In the latter case, these Allies would have to be given an opportunity of identifying those which were formerly their craft.

The Ministry ask whether the K.T. ships mentioned in your letter are not Naval craft and subject to disposal by the Admiralty.

As regards the "LORENZ L-M Russ" and "OTTO LEONHARDT" which appear to be captured ships, the Ministry understand they are being sold by the Admiralty Salvage Department.

As regards the balance, the Ministry are not clear whether these fall into the category of "captured" or "surrendered" vessels. If the latter is the case, and the ships are salved, there will be an obligation to submit them to the Tripartite Merchant Marine Commission. The Ministry ask whether further information should be obtained about their status.

It would be much appreciated if you could enable me to reply to the points raised by the Ministry.

To H.Q. ALLIED COMMISSION (NAVY SUB COMMISSION)
From MINISTRY OF TRANSPORT REPRESENTATIVE (ITALIAN AREA)
Subject: German Merchant Ships Traced in Italy.

Reference is made to your letters of 24th April (NSC/4935/2) and 11th May 1946, (NSC/5011).

According to information received from the Ministry of Transport Surveyor in Trieste, two 9,000 ton tankers are being completed at Monfalcone for Lloyd Triestino and A.G.I.P., who are said to be the original owners, although both tankers were commenced during the German occupation.

Apparently these are the only vessels of the 9,000 ton tanker class under construction at Monfalcone and the information received from Trieste as to their Italian ownership is submitted to you, in view of your letter of 11th May in which they are classified as German vessels.

MEMORANDUM FOR THE ALLIED COMMISSION

Subject: Italian boats on the Danube.

1. At the end of 1944 the following Italian boats, all be= longing to the S.I.N.D.A. Corporation in Rome, were sailing on the Danube, restricting their course to waters other than Ru= manian:

- Barge "GIOVANNA" - (1112.5 tons - length m.60,20 - breadth m.8.72 - height m. 3.20 - draught m. 2.87).

- Barge "MILANO" - (892 tons - length m.48.80 - breadth m.8.72 - height m.3.38 - draught m.3.05).

- Barge "FIRENZE" - (944.4 tons - length m. 72.75 - breadth m. 10.02 - height m.2.35 - draught m. 2).

- Barge "PALERMO" - (944.4 tons - length m.72.75 - breadth m.10.02 - height m. 2.35 - draught m. 2).

- Barge "MAFALDA" - (1289.2 tons - length m.55.55 - breadth m.10.43 - height m.3.11 - draught m. 2.78).

- Tug "PIEMONTE" - (H.P.800 - length m.53.80 - breadth m.8.23 - height m.1.58 - draught m. 1.42).

2212

2. According to more recent information, it seems that last June the five barges were in the Vienna area, in the employ of

p.t.o.

1065

Declassified E.O. 12065 Section 3-402/NNDG NO. T 25020

the Soviet Military Authorities. No further news has reached this Ministry either on the barges or on the tug.

3. The Ministry for Foreign Affairs would be grateful if the Allied Commission could approach the competent Authorities with a view to obtaining information on the present state and whereabouts of said boats, as well as of the other Italian vessels that might be sailing on the same waters.

In this connection the Ministry for Foreign Affairs beg the Allied Commission to take the necessary action to the effect of safeguarding the Italian property rights on these units, the names and data of which are listed as above, in order to facilitate enquiries should the Italian flag or name have been changed on the vessels.

Rome, June 28, 1946

My dear Admiral,

With reference to your letter of May 10, 1946 (file no. 130/5009), regarding the request of the Ministry of Foreign Affairs for information with respect to a list of Italian barges and tugs in the Danube area alleged to be in the employ of the Soviet military authorities in Austria, may I suggest that if the Soviet representative on the Allied Commission is unable or unwilling to obtain the information from his Government the Italian Ministry of Foreign Affairs be advised to take up the question with the Government of the U.S.S.R. through the Soviet Embassy here or the Italian Embassy at Moscow.

Sincerely yours,

/s/ David McK. Key

Rear Admiral Ellery W. Stone,
Chief Commissioner,
Allied Commission,
Rome.

My dear Admiral

Thank you for your letter NBC/5009 of the 10th May about the Italian barges said to be in Soviet use on the Danube.

I note the Russian Representative's suggestion, but if he himself is not willing or able to obtain the required information from Moscow, then I would suggest that the right person to do so the Italian Ambassador there. It is, after all, the Italian Government that is enquiring.

Yours very sincerely

/s/Noel Charles

10 May 1946

My dear Sir Noel:

In December last, information was requested by the Ministry of Foreign Affairs of a list of barges and one tug which were alleged to be in Austria in the Vienna area in the employ of the Soviet Military Authorities. The particulars of the vessels in question are as follows:

Barge GIOVANNA - 1112.5 tons; length m.60.20; breadth m.8.72; height m.3.20; draught m.2.87.

Barge MILANO - 892 tons; length m.48.80; breadth m.8.72; height m.3.38; draught m.3.05.

Barge FIRENZE - 944.4 tons; length m.72.75; breadth m.10.02; height m.2.35; draught m.2;

Barge PALERMO - 944.4 tons; length m.72.75; breadth m.10.02; height m.2.35; draught m.2.

Barge NAPARDA - 1289.2 tons; length m.55.55; breadth m.10.45; height m.3.11; draught m.2.78.

Tug PERGHTE - H.P. 800; length m.53.80; breadth m.8.23; height m.1.58; draught m.1.42.

Whereabouts and condition of the above named vessels, including any other vessels of Italian origin in the area is requested.

The Russian Representative to the Allied Commission states the information may be obtained through the appropriate British representative in Moscow, from the Ministry of Armed Forces U.S.S.R.

It is respectively requested that such inquiry be placed.

Yours very truly,

/s/ ELLERY W. STONE
Rear Admiral, USNR
Chief Commissioner.

Sir Noel Charles, Bt., KCMG
British Ambassador
Rome.

Date: 19th December 1945
Ref.: 30813/C.A.

Subject: Trawler "PEGASO".

Reference is made to letter NSC/3133 dated 3rd August 1945.

The above trawler, requisitioned by the I.R.N. since 1940, was captured by the enemy subsequent to the Armistice and was recovered at Genoa in an almost unharmed condition after the liberation of that town.

In August last, when it was about to be transferred to Naples to be derequisitioned and to be fitted for fishing, following the letter referred to above, it was placed at the disposal of the British Navy which then hired it.

As this vessel belongs to a Company which has lost many other trwlers, and in view of the need to augment as much as possible the supply of fish in order to meet the requirements for the supply of food to the country, it is requested that you may examine whether - in view of the changed requirements of the British Navy - it may be no longer necessary to employ the "PEGASO" as at present - she is now at Taranto awaiting orders - and whether it may be possible to release her.

ARGOMENTO Piropeschereccio " PEGASO " .-

Si fa riferimento al foglio N.S.C/3I33 in data 3 Agosto I945.-

Il Piropesca in argomento, requisito dalla R^ Marina fin dal I940, venne in seguito all'armistizio catturato dal nemico, e fu ritrovato quasi incolume nel porto di Genova dopo la liberazione di quella città.

Nell'Agosto u.s., mentre stava per trasferirsi a Napoli per esservi derequisito e per venire adibito alla pesca, in seguito al foglio in riferimento, fu messo a disposizione della Marina Britannica che ne procedé al noleggio.

Trattandosi di Unità appartenente a Società Armatrice che ha perso molti altri Piropeschereccì, in considerazione della necessità di incrementare il più possibile la produzione ittica per venire incontro alle necessità di alimentazione del Paese, si prega esaminare se, in relazione alle mutate esigenze della Marina Britannica, non sia più necessario l'attuale impiego del "PEGASO", che trovasi attualmente a Taranto in attesa di ordini, e la possibilità che venga lasciato libero.=

Subject: PEGASO and GIAMPAOLO - release of.

Reference: (a) Ministry of Marine (Interlat) ltr. 7207 of 6 May 1946.

1. The release of the PEGASO, as requested in reference (a), is not possible at this time. It is expected that it will be possible to release this vessel in the near future.

2. The GIAMPAOLO, now en route to Tarento with stores will be released to the Italian Navy on discharge of her cargo.

ALLIED FORCE HEADQUARTERS,
OFFICE of Director of Harbour Craft,
Western Mediterranean.

19th April 1945.

MEMORANDUM : Allied Commission, Navy Sub-Commission, Rome.

SUBJECT : Floating Cranes operated by Italian Navy.

1. The records of floating cranes in the Western Mediterranean are in the process of being brought up to date.

2. It is understood the Italian Navy operate a number of floating cranes in Sicily, Sardinia and the Italian mainland ports.

3. A copy of Sections 1 and 2 of Memo FC 1512 is attached and it is requested that the Italian authorities compile a similar list with full details of all cranes, 10 tons lifting weight and over, being operated by them.

4. The completed list should be returned to this office as soon as possible.

Arnaquer
f/ Director of Harbor Craft.

Enclosure: (A) Copy CINCMED Min. II Med.45/937/7/3 of 22 June '45.
(B) Copy CINCMED Min. II Med.45/937/7/3 of 4 Sept.'45, including Ministry of Marine lists of Merchant Vessels numbers (1) and (2).
(C) Copy Ministry of Marine ltr. SM/22791 of 17 Oct.'45

1. Enclosures (A) and (B), which are communications from the Commander-in-Chief, Mediterranean, direct that Italian merchant vessels in the Mediterranean which carry Italian armament manned by Italian Naval personnel are now to be disarmed.

2. List number (1), attached hereto with enclosure (B), represents those vessels whose employment was known to the Italian Ministry of Marine and which the Ministry of Marine directed be disarmed upon receipt of the instructions contained in enclosure (A). Enclosure (B) approves the disarmament of ships in list number (2) whose employment was not known to the Ministry of Marine.

3. Enclosure (C) now has been received from the Ministry of Marine and indicates that local Royal Navy Authorities in Sicily are not acquainted with the instructions of the Commander-in-Chief, Mediterranean, which permit Italian merchant vessels to be disarmed. It would be appreciated if appropriate action could be taken to acquaint Royal Navy Authorities as necessary with these instructions.

From: MINISTRY OF MARINE (Maristat)
To N.S.C. - Rome
Date: 17th October 1945
Ref.: SM.22791

Subject: Disarming of Italian Merchant Vessels.

Reference is made to your letter NSC/3506 of 10th September 1945.

The I.R.N. Headquarters in Sicily has informed us that when the Italian SS. "MONTECUCCO" arrived at Augusta the necessary application was made to disembark the ship's defensive armament in accordance with the agreement already reached with the Navy Sub Commission. The local Allied Authorities (R.N.O. Augusta and S.N.O.E.S.Y. at Messina) did not authorise the disembarkation of her arms, however, stating that they had not yet received the relative instructions.

The above is communicated in order that the Navy Sub Commission may issue such instructions as it considers desirable.

Riferimento foglio NSC/3506 del 10 Settembre c.a.

Il Comando Militare Marittimo Autonomo in Sicilia ha comunicato che in occasione dell'arrivo ad Augusta per Piroscafo Italiano "MONTECUCCO" sono state iniziate le pratiche per lo sbarco dell'armamento difensivo secondo le disposizioni emanate da questo Stato Maggiore in accordo con codesta Sotto Commissione Navale. Le locali Autorità Alleate (R.N.O. di Augusta e S.N.O.E.S.Y. di Messina) non hanno però concesso l'autorizzazione allo sbarco delle armi comunicando di non avere avuto ancora istruzioni in merito.

Si comunica quanto sopra per le disposizioni che codesta Sotto Commissione Navale riterrà opportuno impartire.=

INTER OFFICE MEMO /gs

Our Ref :- AC/558/33/Tn.3. 3 Aug. 1945

SUBJECT :- Venice Ferryboats (ACNIL)

TO :- Navy Sub/Commission

1. The Regional Commissioner is anxious that improved ferry services should be available in Venice. A contributory cause is that 4 of the large ferries and 6 of the smaller ones are dispersed in Southern Italy.

2. It is understood that, excepting "Aquileia" which is operating on the service Ischia-Naples under Italian Ministry of Marine, the other wine vessels are in the service of the Allied Authorities.

3. The names and locations of the ferries have been notified as follows :-

1 -	m/m	AQUILEIA	- at Napoli.
2 -	"	ALTINO	- at Toulon
3 -	"	RIALTO	- at Taranto
4 -	"	LIDO II	- at Taranto
5 -	m/t	CA'CORNER	- _____
6 -	"	CA' CONTARINI	at La Maddalena
7 -	"	CA' DONA'	- at Cagliari
8 -	"	CA' GIUSTINIA NI	- at La Maddalena
9 -	"	CA' MOCENIGO	- at Cagliari
10 -	"	CA' MARCELLO	- _____

4. It is requested that consideration be given to the vessels being returned to Venice for use in the port, if they are not at present being fully utilized by Allied Authorities.

1. It is requested that the Ministry of Marine inform the Navy Sub-Commission at an early date concerning the status of the following ferry boats which formerly were used at Venice and which now are believed to be in the ports indicated:

VESSEL	PRESENT LOCATION
Motonave "AQUILEIA"	Naples
Motonave "ALTINO"	Tolone
Motonave "RIALTO"	Taranto
Motonave "LIDO II"	Taranto
Motoscafo "CA' CORNER"	UNKNOWN
Motoscafo "CA' CONTARINI"	Maddalena
Motoscafo "CA' DONA"	Cagliari
Motoscafo "CA' GIUSTINIANI"	Maddalena
Motoscafo "CA' MOCENIGO"	Cagliari
Motoscafo "CA' MARCELLO"	UNKNOWN

2. It is particularly desired that information be furnished regarding each vessel's present occupation as well as the arrangement under which it is being operated.

3. It is reported that the AQUILEIA is under the control of ITMARE and is on the ferry service between Ischia and Pozzuoli.

TO : Navy S/C.

1. Herewith copy of letter from C.A.O.Venice to Provincial Commissioner Venice, dated 14 July, on the subject of the Venice Ferry Boats.

2. It is understood that all the vessels mentioned are requisitioned by various NOIC in the ports indicated, with the exception of m/v "AQUILEIA" which is on a ferry service between Ischia and Pozzuoli, and is managed by ITMARE.

3. Will you please inform this S/C whether steps can be taken to have the vessels derequisitioned and returned to Venice.

For the Director :

M.P.LARAMAN
Major RE.
Mov. Div.Shipping Branch

To : Provincial Commissioner
From : C.A.O.Venice
Subject : ACNIL Ferryboats
Pro/137 Cart/21

1) The ferryboat service, which is so essential to the life of the Comune, is not at all satisfactory.

2) One important contributory cause of such inefficient service is that four (4) of the large ferryboates and six (6) of the small are dispersed in southern Italy.

3) The director of ACNIL was sent down to Rome by me to present a request for the return of these boats to the Ministro della Marina on 6 June 45.

4) It would be very much appreciated if the urgent need for the return of these boats could be emphasized in the appropriate quarter.

5) The list of the boats in question is here-with submitted:

1°)	Motonave	"Aquileia"	at present in Naples
2°)	"	"Altino"	at present in Tolone
3°)	"	"Rialto"	at present in Taranto
4°)	"	"Lido II"	at present in Taranto
5°)	Motoscafo	"Ca' Corner"	
6°)	"	"Ca' Contarini"	at present at La Maddalena
7°)	"	"Ca' Donà"	at present in Cagliari
8°)	"	" Ca' Giustiniani"	at present at La Maddalen
9°)	"	"Ca' Mocenigo"	at present in Cagliari
10°)	"	"Ca' Marcello"

DOCKYARD, TARANTO.

DATE:- 8th October, 1945. No. 20/Z/1/2304.

TO :- THE FLAG OFFICER, ITALY AND LIAISON.

REPAIRS TO MOTOR BOATS.

The attached request from Marinarsen, Taranto, is forwarded for consideration.

2. The Engines referred to in paragraph 3 would have to be have been supplied from American Sources under Lease-Lend auspices. In addition, the Engines are completely devoid of spares and the Italians would soon be in the same position as they are at present.

FLAG OFFICER ITALY & LIAISON
Date 12 OCT 1945
No F.359/1131
ROME

COMMODORE SUPERINTENDENT,
TARANTO.

Enclosure:-
Marinarsen, Taranto's No.16926,
dated 25th September, 1945.

C O P Y.

FROM:- MARINARSEN, TARANTO.
DATE:- 25th September, 1945. Ref. No.16926.
TO :- COMMODORE SUPERINTENDENT, Taranto.

REPAIRS TO MOTOR-BOATS.

The present situation of the motor-boats for the pursuit and recovery of torpedoes belonging to Marisub, Taranto, is growing worse and worse, due to the lack of spares and timber fit for repairs tom motor-boats M.C.492 and M.C.423: they are available and fit to the purpose, but have no motors.

Will you please see to the possibility of letting us have two motors, either Chrysler or Ford V8 or any other make suitable for the two motor-boats, as this would facilitate a very important service.

for The Commander,

Rear Admiral,

(Sgd) ROUSELLE.

Subject: I.R.N. and Requisitioned Ships Interned in Turkey.

As you are aware, the following Ships (and Craft) are interned still in Turkey :-

a) I.R.N. Ships :-

- Minelayer "AZIO"
- M.A.S. 520
- M.A.S. 421
-

b) I.R.N. Boats :-

- Motorboat belonging to "VOLTA"
- Motorlaunch I.A.N. 1165 belonging to "VOLTA"
- 8 - oar boat " " "VOLTA"
- Diesel launch D.N. 15 ex Captaincy of the Port at Vathy (Samos).

c) Requisitioned Vessels:

- R. 20 M/Fish.V. "AUDACEMENTE"
- R.173 M/Fish.V. "LEDA"
- R. 25 M/Fish.V. "SQUALO"
- R. 5 M/Fish.V. "MARIA SANTISSIMA DEI MARTIRI".

While informing you that Ministry for Foreign Affairs has been asked to forward to the Turkish Government a request for their repatriation, we shall be glad if you would approach Allied Authorities concerned to support said request so as to obtain a quick release of these vessels which otherwise are subject to further deterioration.

The Ships in question could be very usefully employed 1624
in Italian waters, especially in view of the present lack of craft for auxiliary services.

COPY

From: Naval Attache Ankara

Commander in Chief, Mediterranean
through Flag Officer Levant & Eastern Mediterranean

Date: 10th February, 1945
Reference TY/I/B

Copy to Admiralty for D.N.I

With reference to my signal 02/1108 January, the purport of which was sent to you in Flag Officer Levant & Eastern Mediterranean's 28/2114, I now enclose some further proposals from the Italian Naval Attache in Turkey concerning the disposal of all units of the Italian Navy at present interned in Turkey.

2. The proposals of the Italian Naval Attache were discussed with me early in January, and I fully concur with them. The "AZIO" was slightly damaged during operations in the Aegean and is still awaiting repairs, she is otherwise quite serviceable. As regards the fishing craft, they were employed in pre war days in carrying fish from Turkey to Italy, they might be of considerable value for fishing now; they are all reported as being in good condition. The Harbour craft, as can be seen, are all ships' boats or boats for use in harbour only, and are of no fighting value whatever.

3. The original letter from the Italian Naval Attache is being forwarded in the same bag to the Italian Ministry of Marine, as this correspondence.

(Signed) M.L. JACKSON

Rear-Admiral

R.25 " " " " "SQUALO"	at Izmir
R.5 " " " " "MARIA SANTISSIMA DEI MARTIRI"	at Izmir
Caique "BASSILICHI"	at Izmir

The following ratings are on board the above mentioned units: 1615

Pilot 2nd Class	BEFO MAURO Domenico	matr.43220
2nd Chief Mechanic	RAVA Egidio	matr.30900
2nd Chief Mechanic	VALENTINI Leonardo	matr.80886
Under " "	ABATI Renzo	matr.54424
Under " "	MANFRIN Leone	matr.53527
Specialist from the firm Isotte Franechini	FRANZINI Bruno (For the M.A.S.)	

The Under Secretary of State of the Navy in Turkey, in order to avoid the deterioration of these units, arranged that they should be put in dry dock at the National Dockyard at Izmir.

In addition, in order to ensure better up-keep and to guarantee even more their safety, this Embassy and this Office have asked the Ministry of Foreign Affairs and Etat Major General to transfer the units that are in Kulluk to Izmir.

Declassified E.O. 12065 Section 3-402/NNBD NO. 165020

In spite of the long period of internment, the above units are still in good condition and every unit could put to sea after affecting a few indispensable repairs that could be done in the above-mentioned National Dockyard at Izmir.

It is doubtless that if the period of internment is prolonged the units will suffer the consequences of gradual deterioration and the expenses incurred by the Turkish Government for the care and maintenance, which will in the end, have to be paid by the Italian Government, will go on increasing.

2. In view of the above, I consider it necessary to submit for the consideration of the Ministry of Marine, proposals for the disposal of the units which are interned in Turkey.

In my opinion, the two following solutions might be taken into consideration:-

(a) Send all the units back to Italy

(b) Send only the fishing boats (motor trawlers) back to Italy, and discuss with the Turkish Government the sale to them of the "AZIO", M.A.S. 520 and 521 and the Harbour craft of the Italian Navy.

I put forward this question to the Italian Charge d'Affaires in Turkey, in order to obtain his opinion. He agreed that we should make no approaches to the Turkish Authorities without obtaining the point of view of the Ministry of Marine beforehand.

I am therefore not in a position to furnish any information as to the reception that the Turkish Government could offer for the sale of the units of the Italian Navy. Nor, on the other hand, do I know what opposition against the two solutions already proposed, would be raised by the Allied Authorities in virtue of the conditions of the Armistice.

I think that on the base of the Treaty of Alliance that unites Turkey with the Allied Nations, the Turkish Government would not raise objections to the interned Italian units being released, just as it did not raise objections to the three M.A.S. belonging to Leros and interned here, being released.

3. I have already informed you of the necessary personnel required to complete the crews of these units in my letter No. 924 of 2nd Sept. 1944. Naturally, in the event of the decision to return these units being made, the personnel to send here should be reduced to the strict minimum required to ensure safe navigation.

Chief, Navy Sub-Commission A.F.H.Q. Rome)

From: M.W.T.R. Med.- Naples.

S.S. "MARY CLAIRE" & "PASMAN"

With reference to Senior Naval Officer (East Sicily) 16/7/206 of 19th inst. I attach hereto a copy of Ministry of War Transport Charter Party T.98A which set out the terms and conditions under which the "MARY CLAIRE" has been operating.

JAMES H. HENDERSON
For M.W.T.R.Med.

T.90A Government Demise.

Charter Party

It is this day mutually agreed between
of
Owners of the STEAMSHIP/MOTORSHIP called the
of tons gross register and the MINISTRY OF
WAR TRANSPORT on behalf of His Majesty, Charterer.

Period, Time for Delivery. Port of Delivery. Fit for Service.

1. The Owners agree to let, and the Charterer agrees to hire, the said ship for such period as the Charterer may require but, unless otherwise agreed, not extending beyond the expiration of six months from the cessation of hostilities, hire to commence on and from the day (not being a Sunday or a legal holiday unless taken over on either) the ship is placed at the disposal of the Charterer provided written notice of readiness has been given by the Owners or their representative and accepted by the Charterer or his representative before noon, otherwise hire to begin on and from the next day, at a port designated by the Charterer in such dock or at such wharf or place, immediately available, where she may lie safely always afloat, she then being tight, staunch, strong, and in every way fit for service. For the purpose of this Clause the conclusion of a general armistice not followed within a period of six months by the resumption of hostilities shall be deemed to be a cessation of hostilities.

Rate of hire.

2. The Charterer agrees to pay hire for the ship at the appropriate monthly rate calculated according to the provisions of Form No. T.775. In computing hire for part of a month the days shall be taken as fractions of a month of 30 days.

Payment of hire.

Hire shall be paid in Great Britain and net monthly in advance.

Hire paid in advance

Any hire paid in advance and not earned shall be refunded to the Charterer.

Claims, how to be rendered.

Claims for hire shall be rendered to the Accountant General, Ministry of War Transport, on Form T.401.

The Charterer shall in addition be liable for all expenses reasonably incurred by the Owners for the purpose of complying with the directions of the Charterer as to placing the vessel at his disposal at the port of delivery.

1612

Inventory

3. An agreed inventory of all stores on board, both consumable and non-consumable shall be made by the Charterer in conjunction with the Owners or their representative on delivery and again on discharge of the vessel. In the case of consumable stores (including fuel) the inventory shall

Declassified E.O. 12065 Section 3.402/NNDC NO. 165020

hostilities, have to commence on and from the day (being a Sunday or a legal holiday unless taken over on either) the ship is placed at the disposal of the Charterer provided written notice of readiness has been given by the Owners or their representative and accepted by the Charterer or his representative before noon, otherwise hire to begin on and from the next day, at a port designated by the Charterer in such dock or at such wharf or place, immediately available, where she may lie safely always afloat, she then being tight, staunch, strong, and in every way fit for service. For the purpose of this Clause the conclusion of a general armistice not followed within a period of six months by the resumption of hostilities shall be deemed to be a cessation of hostilities.

Rate of hire.

2. The Charterer agrees to pay hire for the ship at the appropriate monthly rate calculated according to the provisions of Form No. T.775. In computing hire for part of a month the days shall be taken as fractions of a month of 30 days.

Payment of hire.

Hire shall be paid in Great Britain and will monthly in advance.

Hire paid in advance

Any hire paid in advance and not earned shall be refunded to the Charterer.

Claims, how to be rendered.

Claims for hire shall be rendered to the Accountant General, Ministry of War Transport, on Form T.401.

The Charterer shall in addition be liable for all expenses reasonably incurred by the Owners for the purpose of complying with the directions of the Charterer as to placing the vessel at his disposal at the port of delivery.

1612

Inventory

3. An agreed inventory of all stores on board, both consumable and non-consumable shall be made by the Charterer in conjunction with the Owners or their representative on delivery and again on discharge of the vessel. In the case of consumable stores (including fuel) the inventory shall be a valued one and the Charterer shall pay the Owners the value of the fuel and stores so taken over and on the discharge of the vessel from the said service the Owners shall likewise pay the Charterer the value of the agreed quantities of fuel and consumable stores remaining on board at the time of re-delivery. In the case of non-consumable stores payment for these shall not be made by the Charterer except in so far as at the termination of the said service there may be deficiencies in the quantities shown in the inventory.

/Removal

Declassified E.O. 12065 Section 3-402/NND NO. 765020

4. The Charterer may at any time at his expense remove or alter all or any of the fittings or arrangements on board the vessel and may erect any new fittings which may be required by the Charterer. — Removal of Owners' Fittings.

5. The said ship shall while she is on hire as aforesaid, be at the absolute disposal and under the complete control of the Charterer. — At the disposal of the Charterer

6. If the ship be lost, hire shall be paid up to and inclusive of the day of loss, or, if missing, up to and inclusive of the day last spoken. Should the vessel become a constructive total loss, such loss shall be deemed to have occurred and hire under this Contract shall cease as from the day of the casualty resulting in such loss. — Ship lost or missing

7. The ship (unless lost) shall be re-delivered (on a day not being a Sunday or a legal holiday unless taken over on either) at a port designated by the Charterer or at such other port as may be mutually agreed on the expiration of this Charter in the same good order as she is delivered to the Charterer - fair wear and tear and depreciation excepted. — Port of re-delivery. Time for re-delivery

8. The provisions relating to loss of or damage to vessels carrying on the conditions of T.90A see form No. T.774 the provisions of which are herewith incorporated. — Risk of expense.

Dated this day of 194 .

Signed on behalf of the Owners.

Signed by authority of the
Ministry of War Transport.

an Assistant Secretary of the Ministry

Attention: Captain H. St. John Butler

Dear Sir:

We refer to our letter of August 1.

We are now in receipt of advice from our Washington office indicating that there is no record in Washington of either the SS JOHN W HAMMOND or the SS ISAAC SHELBY having been assigned to the Greek Government. Consequently, we do not know the source of the information received by the Greek official involved.

Yours very truly,

Robert Nicol

Vs. riferimento | Vs. lettera del | Ns. riferimento

Oggetto: s.s. motor ship-vessel "DIANA C.".

In my capacity as owner of the above-mentioned motor ship-vessel, I beg to submit the following statement of facts for your kind consideration:

The above mentioned vessel "DIANA C." of 120 tons, which was requisitioned at Bari by the Royal Italian Navy during the war of liberation, was subsequently handed over to the Allied Military Authorities on January 31, 1944 and under date of February 1, 1946, she was placed at the service of the British Navy and Admiralty under bareboat charter.

The requisition under "Legge 1938" contract stipulated the option of the "C-I-M-A".

This being so, the object of the present letter is to enquire:

1°) Am I still at liberty to dispose of the vessel as having been released or "de-requisitioned", in this account that the Italian Naval authorities had already given to the owners that the "ship would be restored to her owner on the cessation of hostilities",

2°) the ship was not fully built as a ship-vessel; as a matter of fact, she was only built as a lighter, the requisitioning committee of which not be completed, but being given back to the owner of the Naval Authorities, and, moreover, in view of the impossibility of installing that of coal equipment in the engine room of the vessel, it is customary for having the vessel, by the time themselves of other vessels, conversion is to be necessarily made for navigation to use the vessel for the carriage of cargoes, instead of employing her for floating purposes?

3°) May I be permitted to point out that I am informed by the owner of four similar floating-vessels, two of which are sunk in the port of Genoa, whilst the above-mentioned vessel "DIANA C." and her sister-ship "CAMILLA C." ex "Piccolo" are still being employed in the service of the British Navy.

4°) The amount of compensation as fixed by the "C-I-M-A" for the use of the ship is the same as for being employed under the usual terms of freight rates relating to trading in the Mediterranean during the time of Suez and Gibraltar. - Taking into account, however, that the vessel was transferred to the U.S. under British flag and employed in general service by order of the Admiralty, application is hereby respectfully made for the award of a more adequate compensation for the undertaking of

Oggetto: m/v "Lydia C." -

In my own capacity as owner of the above-mentioned motor vessel, I beg to submit the following statement of facts for your consideration:

The motor fishing-vessel "Lydia C." of 120 tons, which was requisitioned at first by the Royal Italian Navy during the war and subsequently incorporated into the Axis navy by force, was eventually released on January 31, 1944 and returned to me at Genova, on February 1, 1944, and placed in the service of the [illegible]

She was chartered under a "time bare" contract at a monthly hire of Lit. 60.000.-.

This being so, the object of the present letter is to enquire:

1°) If it will be at all possible for me to regard the vessel as having been requisitioned by "de-requisition", taking into account that the Italian Naval authorities had placed the vessel at the direct disposal of the "Ally will be restored to the owner on the cessation of hostilities";

2°) The ship was originally built as a fishing-vessel; however, when in "time charter", i.e. on the 1st of May, 1943, she had already been used as cargo-carrier by order of the Naval authorities, and, moreover, in view of the particularly insurmountable difficulties then encountered in the purchase of new fishing plant, of repairs for re-fitting same, of the high charges for having the fishing vessels themselves put afloat again, and of the heavy restrictions made for conversion to use the vessel for the carriage of cargoes, instead of [illegible] fishing purposes;

3°) May I be permitted to point out that I was virtually the owner of two similar fishing-vessels, two of which were lost in the port of Genova, whilst the above-mentioned vessel "Edoardo C." and her sister-ship "Za Xlad C." or "Lavoratore" are still being employed in the service of the Italian Navy.

4°) The amount of compensation as fixed by the "C-C-A" for the use of the ship is the same as being awarded under the usual "time charter" freight rates relating to trading in the Mediterranean within the limits of Suez and Gibraltar. - Taking into account, however, that the vessel was transferred to the U.K. under British flag and employed in special service by order of the Authority, application is hereby respectfully made for the award of a more adequate compensation for the chartering of the

Vs. riferimento Vs. lettera del Ns. riferimento

Oggetto: -vessel "ex I. 2." ex "Ercole".

I.

I beg to submit the following statements of facts for your kind consideration;

The motor fishing-vessel "ex Ismir 2.", of 165 tons, was built [illegible] by the undersigned at his Riva Trigoso yard and launched in [illegible] 1939 for account of the Italian Navy, and subsequently commanded by the late Admiral Ivaldi (" ID", deceased), when she was refitted and became known under her present name of "Ercole", which was eventually changed to "Lydia C.".

That ship is, the subject of the present letter to you, while:

1°) she was to be made available for war purposes, and the vessel is being used employed on "de-magnetization";

2°) The vessel was originally built as a fishing-vessel; however, owing to "force majeure" i.e., to the outbreak of war, the [illegible] could not be completed, the hull-engines [illegible] the Naval authorities, and, moreover, in view of the practically insurmountable difficulties that are being experienced in the matter of manufacturing [illegible] of a suitable boiler, it has not been possible, as yet, to complete the vessel for the purposes of a yacht, which is hereby respectfully made for permission to use the vessel for the carriage of cargoes, instead of merely for fishing purposes;

May I be permitted to add, in this respect, the fact that I am already the owner of two similar fishing-vessels, two of which were sunk in the port of Genoa, whilst the above-mentioned vessel "ex I. 2." and her remaining sister-ship "EXAMO C." are still being employed in the service of the British Navy;

F 1608

3°) On September 8, 1943 the vessel was lying at the shipbuilding yard [illegible] at La Spezia, and had been ordered to proceed to La Spezia for completion of her war outfit for account of the Italian Royal Navy.

War developments, however, made it impossible for her to proceed on her voyage, the result being that she has transferred to Allied service on February 3, 1944 without her being able to comply with the prescribed formalities of [illegible] ation purposes.

This being so, and should the vessel - as I am led to presume - be at present employed in short time services in the Gulf of Naples (not of an urgent military character), may I enquire whether permission could be granted

[illegible].

ELECTRIC ARK.

The following report of the capabilities and shortcomings of the ELECTRIC ARK prepared in conjunction with Elect. Lieut Commander Sime is submitted in accordance with Commander in Chief, Mediterranean's No. 45/231/2/4 dated 13th June, 1945.

2. The ELECTRIC ARK has three diesel-driven generating sets on board.
One known as the large TOSI
One known as the small TOSI
One known as the GANZ.

(a) Large TOSI - Rated KVA 350, at 500 V, at 50 cycles. The engine cylinders are so badly worn that it is only possible to obtain 250 KVA output.

Other defects are:- One cylinder head is cracked. After several hours of running there is a considerable amount of fume and oil leakage due to the worn cylinders.

(b) Small TOSI - The generator of this machine is rated at 130 KVA at 500 V, at 50 cycles but the maximum output of the engine is only 70 KVA.

The valve operating mechanism is very badly worn on this engine but the condition of the cylinders and pistons is fair, there being no excessive leakage as in the case of the large TOSI.

(c) GANZ - This set, the most modern of the three, is rated at 220 KVA at 230 V, at 45 cycles. In general the condition of this set is good, but the valve springs are giving trouble by breaking and replacements are difficult to obtain.

3. Switchgear. This is the most modern part of the installation and with it the machine voltages are stepped up to 9000 V for outside supply.

4. The two TOSI engines were old and well used before they were installed in the ELECTRIC ARK. It is only due to the fact that at Leghorn where reasonable repair facilities exist, these two engines have been maintained in running condition.

1599

5. It is understood that consideration has been given to sending the ELECTRIC ARK to Ischia to boost up the supplies of power there. The fact that the voltage of the high tension distribution system in Ischia is 3000 V as

Declassified E.O. 12065 Section 3-402/NND No. 765020

The following report of the capabilities and shortcomings of the ELECTRIC ARK prepared in conjunction with Elect. Lieut Commander Sime is submitted in accordance with Commander in Chief, Mediterranean's No.45/231/2/4 dated 13th June, 1945.

2. The ELECTRIC ARK has three diesel-driven generating sets on board. One known as the Large TOSI
One known as the small TOSI
One known as the GANZ.

(a) Large TOSI - Rated KVA 350, at 500 V, at 50 cycles. The engine cylinders are so badly worn that it is only possible to obtain 250 KVA output.

Other defects are:- One cylinder head is cracked. After several hours of running there is a considerable amount of fume and oil leakage due to the worn cylinders.

(b) Small TOSI - The generator of this machine is rated at 130 KVA at 500 V, at 50 cycles but the maximum output of the engine is only 70 KVA.

The valve operating mechanism is very badly worn on this engine but the condition of the cylinders and pistons is fair, there being no excessive leakage as in the case of the Large TOSI.

(c) GANZ - This set, the most modern of the three, is rated at 220 KVA at 230 V, at 45 cycles. In general the condition of this set is good, but the valve springs are giving trouble by breaking and replacements are difficult to obtain.

3. Switchgear. This is the most modern part of the installation and with it the machine voltages are stepped up to 9000 V for outside supply.

4. The two TOSI engines were old and well used before they were installed in the ELECTRIC ARK. It is only due to the fact that at Leghorn where reasonable repair facilities exist, these two engines have been maintained in running condition.

1599

5. It is understood that consideration has been given to sending the ELECTRIC ARK to Ischia to boost up the supplies of power there. The fact that the voltage of the high tension distribution system in Ischia is 3000 V as against 9000 V of the ELECTRIC ARK and that Ischia does not have the same repair facilities as exist in Leghorn would appear to make the ELECTRIC ARK unsuitable for this purpose.
