Firstly, with regard to reference (a) the following information is being passed on to the Ministry of Marine :-

a) The supply of olive oil to the Ministry of Marine by the Ministry of War is an interministerial matter. The Ministry of Food releases olive oil requirements of the three services to the Ministry of War for further distribution to the Ministries of Air and Marine. There is no Allied Agency concerned after issue to the Ministry of War.

b) A request has been initiated to [illegible] for a release of Hospital Diet Items from British sources for the Italian Navy. The demand has been based on an average strength of 800 patients daily in accordance with the Ministry of Marine's signal 150900 February. If the release is made, it will be for February maintenance, a similar demand will be made for March maintenance.

2. Secondly with regard to reference (b) the following information is being passed on to the Ministry of Marine :-

a) The Ministry of War has been advised to release cheese from its depots to the Italian Navy. Due to delay in receiving cheese from Italian sources which have been released by the Ministry of Food, the Ministry of War has been unable to transfer this stock from Northern Italy (where cheese was released) to Southern Italy (transfer point to Italian Navy).

Subject: Supply of foodstuffs to the I.R.N. - table cheese.

1. The I.R.N. Authorities who are responsible for the collection of provisions from Naples and Bari have notified us that the Italian Army Depots are not issuing table cheese, and say that they have none available.

2. Maricomri Naples has not even received any for the period 21st December 1945 - 31st January 1946.

3. Since this issue from Italian Army sources was laid down explicitly in the M.M.I.A.'s instructions as conveyed to this Ministry by the Navy Sub Commission, and since table cheese constitutes an essential item of a seaman's ration, it is requested that you may take action with the appropriate Authorities in order to examine the possibility of supplying the Italian Navy with this commodity, also, from the British depots at Naples and Bari.

Subject : Maintenance Italian Navy.

Forwarded for information and necessary action, with reference to the Ministry of Marine's signal timed 311900 December, 1945.

2. Arrangements can now be made for the withdrawal of provision items from Italian Army depots as per schedule attached to Minute I. As soon as authority for release of the quantities to be supplied from the British depots at Naples and Bari is received, it will be communicated to the Ministry of Marine in order that withdrawing action may be initiated.

3. With regard to the 15 days reserves which are to be held in Italian Navy Depots, the Navy Sub Commission wish to clarify the principles of maintaining these reserves, as there appears to have been some misunderstanding on this point in the past. It is therefore stressed that the reserves are only held against an emergency, and that if it is found necessary to draw on them, then replacement should be effected as early as possible from supplies received for normal monthly maintenance. Furthermore, it should be ensured that these reserves are turned over frequently in order to prevent wastage that may be incurred by deterioration.

This request also includes demands which will bring up the Italian Navy's present reserve holdings to a level of 15 days on the basis of a ceiling of 65,000 all ranks.

2. The February maintenance is based on a ceiling of 62,000 all ranks. Copies of correspondence between GHQ and NAVY Sub Commission relative to Navy ceilings are attached for information.

N30/3663.
4th October, 1945

FROM : Navy Sub Commission. Hq, Allied Commission

To : Allied Force Headquarters.

Subject : Feeding Strength - Italian Navy -

1. With reference to Allied Force Headquarters letter No.AFHQ/2393/1/9 (Maint), dated 22nd September, 1945, the ration Strength figures of approximately 53,000 rendered for July, 1945, showed a decrease of approximately 10,000 as compared to the May and June approximative figures of 64,000 and 60,000 respectively.

2. This was explained by the Ministry of Marine as being due to discharges and exceptional leave granted to personnel residing in Northern Italy. The Ministry of Marine also pointed out that owing to the new recruiting and the return of men on leave, in due course, the future ration strength would rise again to former figures.

3. Further information has recently been received from the Ministry of Marine to the effect that, as the recruiting of the remaining groups of the 1924 class is now in progress, and as, particularly in the northern areas, there is a continuous inflow of ex-prisoners of war and of disbanded men who belong to those classes still under arms, for a brief period there will be an overlap between this inflow and the ratings of the 1921 and 1922 classes who are still to be discharged. As a result, the present strength, which has increased to about 58,000 in September, may still mount up in the coming two months to approximately 62,000 men, and then gradually decrease by February next to about 54,000.

4. In view of the above therefore, and observing that the ration strength would further be increased by about 2,000 in the event of the return of Italian Royal Navy units to Italy from abroad, it is considered that, for the present, the feeding strength calling of the Italian Navy may safely be lowered to 65,000.

5. While the future strength of the Italian Royal Navy is dependent upon decisions which may be reached at the Peace Treaty with Italy, the matter will, however, be brought up in six months time with a view to a further reduction being made.

1. At the present moment, we are provisioning for the Italian navy on its ceiling of 75,000 : its ration strength during Sep has been approximately 53,000.

2. With the present shortage of food we are most anxious not to indent for more rations than we actually require.

3. With this object in mind, you are requested to review the estimated future feeding strength of the Italian navy in the MTO, and inform AFHQ whether we may safely provision on a lower figure that the ceiling quoted above.

Subject: Provision of foodstuffs to the Italian Royal Navy.

With reference to the Ministry of Marine's letters 3/25756 dated 15th May, 1946 and 26356 dated 17th May, 1946, the Ministry of Marine is informed that an enquiry has been made into the matter, and as a result, the Food and Agriculture Branch, of the Allied Commission, have confirmed that the Italian High Commissioner for Food is in a position to meet the requirements of the Italian Royal Navy in respect of preserved meat and fish for the month of June, 1946.

2. It is understood that the High Commissioner for Food has a large quantity of preserved foodstuffs most of which is earmarked for the civilian population however, but from which, the Italian Royal Navy requirements may be drawn in accordance with paragraph 3 of the Minister of Agriculture and Forest's letter dated 12th April, 1946 to the Director of the Food and Agriculture Branch, Allied Commission, copy of which is attached for information. It is considered furthermore, that the supply of preserved meat and fish to the operational minesweepers of the Italian Royal Navy should have priority over issues to the civilian population.

3. While it is regretted therefore, that no issues of the items in question can be made from British depots, it is suggested that a further representation on a high level be made to the High Commissioner for Food in order to obtain an allocation of preserved meat and fish, and authority to purchase direct on the free market fresh provisions including meat, fish and cheese.

4. It must be borne in mind however, that ;

(a) Canned provisions should only be drawn for and issued to small ships, such as minesweepers, which have limited refrigerator storage space and cooling facilities on board, when at sea, and isolated lighthouses, signal and D/F stations in exceptional circumstances.

Please consider our request, made in the above mentioned letter so far as it concerns the provision of sugar, cancelled, since the necessary supplies have been obtained from the High Commissariat for Food.

We confirm, however, our requests regarding meat, fish and cheese, urging you to consider the grave position the Italian Navy would find itself in for victualling its personnel, especially with meat, were it not be able to obtain an adequate supply of tinned meat.

Subject: Supply of provisions to the Italian Royal Navy

1. With reference to the para. 7 of enclosure of letter from Navy Sub Commission No.4891 of 11th April 1946, the High Commisseriat for Food has been asked for the allocation of provisions to the Italian Royal Navy for the month of June.

2. The above-mentioned Authority has informed us today, through the Liaison Officer, that these allocations are being provided with the following limitations :

a) - the dehydrated vegetables will be available only for June, and not in the following months;

b) - no allocation will be made of meat or fish or cheese;

c) - flour will be allocated instead of rice;

d) - the allocation of sugar can not, at least for the moment, be decided upon.

3. Attention is drawn to the fact that while the Navy will be able to supply itself with vegetables by means of direct purchases, and will be able to accept the substitution of flour for rice, it will be in grave difficulties over meat, fish, cheese and sugar.

As regards the meat situation, there being no canned product on the market, fresh meat would have to be distributed, which presupposes a vast auxiliary organisation which does not exist and would take a long time to build up. Besides, it would not be available for small units or small ships which have no cooking arrangements on board.

4. In view of these difficulties we request the Navy Sub Commission to examine the possibilities of providing for the Italian Royal Navy, out of Allied stocks, the three items (meat or fish, cheese and sugar) necessary for the requirements of June.

5. In case of a favourable answer we offer for precise information the figure of 650,000 rations of each item for an estimated strength of 55,000 men.

ARGOMENTO: Rifornimento viveri alla R.Marina.-

URGENTISSIMO

1.- In relazione al punto 7 dell'allegato al foglio di codesta Sottocommissione n.4891 dell'11.4.46, sono state richieste allo Alto Commissariato per l'Alimentazione le assegnazioni di viveri necessari alla R.Marina per il prossimo mese di giugno.-

2.- La predetta Autorità ha oggi comunicato a mezzo dell'Ufficiale di collegamento, che tali assegnazioni sono in corso, ma con le seguenti limitazioni:

a)- i legumi secchi saranno assegnati soltanto per il mese di giugno, e non più per i mesi successivi;

b)- nessuna assegnazione sarà fatta per carne o pesce e per formaggio;

c)- al posto del riso verrà assegnata farina;

d)- l'assegnazione dello zucchero non può essere, almeno per il momento, decisa.

3.- Al riguardo si deve far presente che mentre la Marina potrà provvedere con acquisti diretti a rifornirsi di legumi e può accettare la sostituzione del riso con la farina, si troverà in serie difficoltà per la carne o pesce, per il formaggio e per lo zucchero.

In particolare per quanto concerne la carne, non esistendo sul mercato nazionale alcuna disponibilità di prodotto scatolato, bisognerebbe ricorrere alla distribuzione di carne macellata fresca, il che presuppone una vasta organizzazione capillare che non esiste e che richiede molto tempo per poter essere realizzata.

./.

Inoltre essa non è attuabile per le sedi minori, per i posti staccati e per il naviglio minore che non ha possibilità di cucina a bordo.

4.- In vista di tali difficoltà si pregherebbe codesta S.Commissione di voler esaminare la possibilità di cedere alla R.Marina, dai depositi Alleati, i tre generi suindicati (carne o pesce, formaggio e zucchero) necessari al fabbisogno di giugno.

5.- Per il caso di favorevole accoglimento di tale richiesta si precisa che i quantitativi occorrenti dovrebbero essere commisurati a n.1.650.000 razioni per ciascun genere data la forza preventivata di 55.000.uomini.

Rome. 12 April 1946.

Dear Colonel,

With reference to your telephone call, I can give you full assurance on the regularity of the supply of foodstuffs to the Armed Forces.

The Food Bodies, following the decisions made at the last meeting of the Committee, have prepared a plan for purchasing the foodstuffs, and the plan has already been passed, for action, to the Saccrdoti mission.

In the meantime, supplies are drawn from stocks earmarked for the civilian population or authorising direct purchases on the free market. I have been assured that up to now no difficulties in the supply have arisen.

Yours very sincerely,

3. It will be observed that the demand for cheese at BARI is unbalanced and as mentioned in previous correspondence this is due to the fact that a small portion will be met ex remainder of British provided stocks still held in War Ministry depots. When the Italian War Ministry have met this demand they will have no further liabilities of this particular nature.

4. It will be appreciated if authority for the release of commodities detailed above can be issued as early as possible to enable distribution to be effected to schedule.

29th August, 1945.

From : Navy Sub Commission, Hq., Allied Commission.

Subject : Provisions for Boats in Upper Tyrrhenian.

The contents of the Military Maritime Command Spezia's letter No.5547 of 14th August, 1945, forwarded to this Sub Commission under cover of Ministry of Marine's letter No.17521/2 dated 22nd August, 1945, is noted.

2. The arrangements made for drawing the rations, and the number of rations drawn, for Leghorn, Piombino and Elba are, however, not understood. The drawing of rations direct from Allied Depots at Leghorn would appear to be contrary to the spirit of Navy Sub Commission letter No. NSC/3192 dated 9th August, 1945, and the number of rations stated to be drawn per month would appear to be the number of rations drawn per man per day.

3. It is requested that a clarification of these statements may therefore be elicited from the Military Maritime Command Spezia and the Navy Sub Commission informed of the result in due course.

It has not been possible fully to apply the instruction of MMIA, concerning the procedure for the distribution of food rations in circular No. 10957/S/1 dated 1 June 45, because of the particular situation of some of the food distribution depots.

In order to carry out this procedure with uniformity, and having received communication from MMIA, we lay down the following procedure for the distribution of rations :

a) Normally rations must always be withdrawn on a basis of requirements for 15 days.
b) In exceptional circumstances, units of large strengths, through an agreement with the Allied LO may be authorised to withdraw for a shorter period than 15 days (e.g. five or ten days).
c) As a rule, withdrawals must be made for the fortnights commencing on the 6th and 21st of each month, according to a roster to be compiled by the Military Territorial HQ's.
d) Should it not be possible to supply rations according to the procedure and on the days laid down in the proceeding paragraph c), owing to the number of units to whom rations have to be issued, the Territorial HQ's addressed as above are authorised to order that the rationing be made even in fortnightly periods other than those dealt with in paragraph c).

The units, then, although withdrawing their requirements for a fortnight will be permitted to draw on different days or fortnights as per a roster to be established according to indications on the attached sheet.

BRITISH ALLIED COMMISSION
Navy Sub Commission APO 394

BSC/3663.
4th October, 1945.

From : Navy Sub Commission, H.Q., Allied Commission.
To : Allied Force Headquarters.

Subject : Italian Navy - Italian Navy.

1. With reference to Allied Force Headquarters letter No.AFHQ/2543/1/G1 (Main), dated 2nd September, 1945, the radian strength figures of approximately 51,000 reckoned for July, 1945, showed a decrease of approximately 10,000 as compared to the May and June approximative figures of 61,000 and 60,000 respectively.

2. This was explained by the Ministry of Marine as being due to discharges and exceptional leave granted to personnel residing in Northern Italy. The Ministry of Marine also pointed out that owing to the new recruiting and the return of men on leave, in due course, the future nation strength would rise again to former figures.

3. Further information has recently been received from the Ministry of Marine to the effect that, as the recruiting of the remaining groups of the 1926 class is now in progress, and as, particularly in the northern areas, there is a continuous influx of ex prisoners of war and of disbanded men who belong to these classes still under arms, for a brief period there will be an overlap between this inflow and the outflow of the 1924 and 1922 classes who are still to be discharged. As a result, the present strength, which has increased to about 58,000 in September, may still mount up in the coming two months to approximately 62,000 men, and then gradually decrease by February next to about 54,000.

4. In view of the above therefore, and observing that the nation strength would further be increased by about 2,000 in the event of the return of Italian Royal Navy units to Italy from abroad, it is considered that, for the present, the feeding strength ceiling of the Italian Navy may safely be lowered to 66,000.

5. While the future strength of the Italian Royal Navy is dependent upon decisions which may be reached at the Peace Treaty with Italy, the matter will, however, be brought up in six months time with a view to a further reduction being made.

Estimates in respect of the Ration requirements for the I.R.N. in the next Six months.

Personal.

As requested of me verbally during the last meeting held at the N.S.C. on 25.9.1945, the following particulars are communicated:-

1. The present strength of personnel having right to rations totals about 58,000 men.

2. As the recruiting of the remaining ~~formations~~ groups of the 1921 class is now in progress, particularly in the Northern areas, and as there is a continuous inflow of ex-P.O.W. and of disbanded men who belong to those classes still under arms, for a brief period there will be an overlapping between this inflow and the retirement of the ~~1920~~ 1921 and 1922 classes who are still to be discharged. Consequently, the said strength, which has already increased ~~by~~ by about 4000 in September, may still mount up in the coming two months

as far as 62,000 men, and then gradually decrease by February next to about 54,000.

3. In consequence it is expected that the total ration requirements for the coming six months will be approximately 350,000 rations, except for variations which cannot be foreseen and which will appear in any case in the Victualling Estimates which you require and which are forwarded fortnightly.

4. In the above calculations account has not been taken of approximately 2000 ratings embarked on ships in foreign waters and victualled directly by the Allies, who would increase the strength indicated above in the event of their repatriation taking place in the six-month period under consideration.

ARGOMENTO: Previsioni relative al fabbisogno di razioni per la Marina italiana nei prossimi sei mesi.

PERSONALE

Come richiestomi verbalmente durante la riunione tenuta alla N.S.C. il 25.9.1945, Le trasmetto le seguenti informazioni:

1. La forza attuale del personale che ha diritto alla razione ammonta a circa 58.000 uomini.

2. Essendo in corso il reclutamento dei residui scaglioni della classe 1924 e verificandosi un continuo afflusso di reduci dalla prigionia e di sbandati, specie nelle regioni del Nord, che appartengono a classi tuttora in servizio, si produrrà per qualche breve periodo, nei prossimi sei mesi, un accavallamento di tale afflusso con i militari delle classi 1921 e 1922 da congedare. Pertanto tale forza, che è già aumentata nel mese di settembre di circa 4.000 unità, potrà ancora salire, nei prossimi due mesi, fino a 62.000 uomini per poi ridursi gradualmente, entro il prossimo febbraio, a 54.000 circa.

3. Si prevede quindi che il fabbisogno totale di razioni per i prossimi sei mesi sia di circa 350.000 razioni, salvo imprevedibili oscillazioni che del resto risulteranno dai prescritti preventivi di vettovagliamento che vengono trasmessi ogni quindicina.

4. Nel calcolo di cui sopra non è stato tenuto conto di circa 2.000 militari imbarcati su navi all'estero e vettovagliati direttamente dagli Alleati, i quali andrebbero in aumento alla forza su indicata nel caso che se ne verificasse il rimpatrio nel periodo dei sei mesi considerati.

TO :- Naval Sub Commission,

1. At the present moment, we are provisioning for the Italian navy on its ceiling of 75,000: its ration strength during Sep has been approximately 53,000.

2. With the present shortage of food we are most anxious not to indent for more rations than we actually require.

3. With this object in mind, you are requested to review the estimated future feeding strength of the Italian navy in the MTO, and inform AFHQ whether we may safely provision on a lower figure than the ceiling quoted above.

Date: 17th December 1945
Ref.: SM/28113 - Encl. No.4

Subject: Victualling estimate for period 21st December 1945 to 31st January 1946.

In forwarding the victualling estimate for the above period it is considered necessary to state that upon the basis of the strength under arms at present it should have corresponded to the actual total of 63,922 rations - due to the overlap between the recruits of the 1924 class with the men of the 1922 class now being released, to the return of vessels from foreign waters and to the disbanded men and P.O.W. who, having returned, are entitled to be re-entered in the service.

Since the Ministry of War had notified us, however, that the Land Forces Sub Commission Allied Commission had laid down that no more than 60,000 rations should be turned over to the I.R.N. daily, the estimate has been reduced to that figure from which another 120 daily rations for 42 days have been deducted; these correspond to an additional allocation of 5000 rations in the estimate for period 6th - 20th December 1945 to meet an emergency which had arisen at Trapani.

Efforts will be made to avoid the above defiency of 4000 rations having any effect by increasing the rate of release and by adopting all other measures by which to reduce the victualling strength.

Furthermore it is requested that these circumstances may be borne in mind in case it becomes necessary to have a larger quantity of foodstuffs at disposal at some future date, despite the adoption of the aforesaid measures.

ARGOMENTO: Preventivo di vettovagliamento per il periodo dal 21.12.45 al 31.1.46.

URGENTE.

Nel trasmettere il preventivo di vettovagliamento per il periodo suindicato, si ritiene necessario precisare che in base alla forza attualmente presente alle armi esso avrebbe dovuto essere riferito all'effettivo ammontare di 63.922 razioni, dovuto all'accavallamento delle nuove reclute della classe 1924 con quelle del 1922 in corso di congedamento, al rientro delle unità dall'estero ed agli sbandati e prigionieri rientrati che hanno titolo alla riammissione in servizio.

Avendo però il Ministero della Guerra, col dispaccio che si allega in copia (23383 del 3 corr.) comunicato che la Land Forces Sub Commission A.C. ha stabilito di non consegnare alla R.Marina più di 60.000 razioni giornaliere, per il periodo suindicato, il preventivo è stato ridotto a tale cifra dalla quale sono state dedotte altresì 120 razioni giornaliere che corrispondono, per 42 giorni, ad una assegnazione suppletiva di 5.000 razioni anticipata nella quindicina 6-20 dicembre c.a. per fronteggiare una situazione di emergenza prodottasi a Trapani.

Alla deficienza delle 4.000 razioni circa che si verifica per effetto di quanto sopra si cercherà di ovviare accelerando i congedamenti ed adottando ogni altro possibile provvedimento inteso a ridurre la forza da vettovagliare.

Si pregherebbe peraltro di voler tener conto di tale situazione per il caso che, malgrado l'adozione delle misure anzidette, si rendesse necessaria una futura maggiore disponibilità di viveri.-

Subject : Victualling estimate for I.R.N. Personnel.

Forwarded herewith are 3 no. victualling statements for I.R.N. personnel in respect of the fortnight from 6th to 20th December 1945.

The opportunity is taken of confirming the information given in our letter SM/26145 of 22nd instant, and while a full monthly statement will be forwarded in due course it is drawn to your attention that on 20th instant (p.m.) the reserve stocks of the undermentioned depots were as indicated :-

Napoli	0	"	"	" 10
Augusta	2	"	"	" 10

Applications made to date to the Ministry of War to re-establish the reserve at Naples have had no result.

ARGOMENTO: Preventivo di vettovagliamento del personale della Marina.-

Si trasmettono, in allegato, n.3 statini del vettovagliamento del personale della R.Marina, relativi alla quindicina dal 6 dicembre al 20 dicembre 1945.-

Con l'occasione, a conferma di quanto segnalato col foglio SM/ 26145 del 22 corrente e con riserva di trasmettere il completo rendiconto mensile, si fa presente che alla sera del 20 corrente le scorte di riserva dei sottoindicati magazzini erano le seguenti:

Taranto - Brindisi	giornate	8	invece	di	15
Napoli	"	0	"	"	10
Augusta	"	2	"	"	10
La Spezia	"	1	"	"	15

Pratiche finora svolte col Ministero della Guerra per ottenere il reintegro delle scorte di Napoli hanno avuto esito negativo.

Si rinnova quindi preghiera a codesta S.Commissione Navale di voler intervenire nel senso proposto col citato foglio 26145.-

Subject: Victualling estimate for I.S.N. Personnel.

We send you attached 3 in N° victualling estimates for I.S.N. personnel covering the period 6 - 20 July 1945.

It is pointed out that the variation of about 6,000 in N° units in this estimate compared with the previous one and about 10,000 as compared with estimate for 30 June last is due to discharges and exceptional leave granted to personnel whose families are up to North.

As discharges will be compensated in part by new recruiting and the return of men now on leave, it should be borne in mind that future victualling estimates will again rise in ration strength to former figures.

ARGOMENTO: Preventivo di vettovagliamento del personale della R.Marina.

Si trasmettono, in allegato, n.3 statini del vettovagliamento del personale della R.Marina, relativi alla quindicina 6 - 20 Luglio 1945.-

Si reputa opportuno far presente che la differenza di circa 6.000 unità di questo preventivo rispetto al precedente e di circa 10.000 unità rispetto a quello al 20 Giugno u.s., é dovuta ai congedamenti ed alle licenze eccezionali attualmente in corso per il personale che ha famiglia nell'Italia del Nord.

Poiché i congedamenti saranno in parte compensati da nuovi reclutamenti ed i turni di licenza di esauriranno, si deve prevedere che nel futuro la forza da vettovagliare risalirà verso le cifre dei precedenti preventivi.
