MEMORANDUM FOR : HQ. AC (for Brig.Lush)

SUBJECT : UNRRA Priority

Reference your 8255/176/3C of 13 Apr. 46.

1. This matter has been under careful consideration at this HQ and it is felt that the following paraphrase of a signal despatched on 7 May 46, and addressed, as you suggested, to the Combined Chiefs of Staff, will serve as a reply to the above quoted letter :-

"Subject equipment and maintenance of interim Italian Army.

1. I understand your policy with regard to the interim Italian Army is to be that the Italian Government should control and maintain a small but efficient army including Carabinieri.

2. In accordance with FAN 621 control of the Italian Army passed to the Italian Government on 15 November 45 and your policy in paragraph 7 to 9 of that cable was then implemented.

3. Since the handover was effected there has been a marked deterioration in the efficiency of the Italian Army largely because it is NOT obtaining the equipment vehicles and spares required. Marked lack of determination on the part of the Italian Government to make Italian Army efficient is also apparent: this although everything possible has been done by this Headquarters to impress the importance of a well equipped and trained Italian Army without appearing to dictate to the Italians.

4. The 5 Gruppi were originally equipped completely with British weapons equipment and vehicles. Review of British and US surpluses in January showed that US surpluses of weapons were NOT sufficient to meet requirements of whole Italian army. Therefore in order to attain some degree of standardisation our policy has been to equip:

(A) Carabinieri Civil Police and similar armed bodies from indigenous resources in so far as that source permits. 1988

(B) Remainder of the Italian Army with British weapons and equipment other than vehicles.

5. Policy in paragraphs 7 and 8 of FAN 621 has NOT proved effective for following reasons :-

(a) (Your paragraph 7 A) provides a very limited source of supply. Equipment is largely inferior obsolete and of such variety that little standardisation is possible.

(a) (Your paragraph 7 A) provides a very limited source of supply. Equipment is largely inferior obsolete and of such variety that little stardardisation is possible.

(b) (Your paragraph 7 B) would theoretically provide nearly all requirements. The Italian Government however diverts very little of the surpluses declared through disposal agencies to War Ministry because of priority of civil rehabilitation. requirements. Large numbers of vehicles have been made available to Italian Government from British and US surpluses but few have been diverted to the Army. US vehicle declarations are complete on present surpluses making 8000 now available for sale to the Italian Government. Sufficient British vehicles of reasonable classification will soon be declared surplus and should cover the essential needs of the Italian Army.

(c) (Your paragraph 7 C) in practice provides a negligible source of supply owing to the fact that supplies imported for

(rehabilitation)

rehabilitation of the country by United Nations Relief and Rehabilitation Administration can NOT be used for military equipment or supplies.

(d) Direct transfer from SACMED to Italian Military authorities of lethal warlike equipment only has been effected in accordance with paragraph 8 your FAN 621.

6. In order to provide standardisation of equipment both warlike and non-warlike and because there are sufficient British stores on hand it has been decided that equipment for the Italian Army normally should come from British sources. Any equipment required from US sources can be handled within the present US channels for disposal.

7. It is now apparent that the only method of achieving desired result is for direct transfer from British military authorities to the Italian War Ministry of all warlike and non-warlike equipment and vehicles (excluding maintenance) surplus to Allied Military requirements which are required by the Italian Army as approved by SACMED or his successors. In anticipation of your approval we are now proceeding to make initial issues on loan under military arrangements without channeling through British disposal agencies pending agreement between British and Italian Governments of method of financial settlement.

8. Maintenance for vehicles including tyres is required up to end of 1947 approximately when Italian Government anticipates sufficient production from Italian sources to re-equip Army with indigenous transport. Maintenance for other equipment probably required indefinitely. Further supply of all above maintenance by direct transfer is now impracticable owing to Theater rundown. However quantities of spares will be transferred to the Italian Government through normal disposal channels. Resulting scaling will be small and unbalanced. Propose therefore to impress on Italian Government the necessity for demanding the continuance of maintenance from Ally supplying equipment. This maintenance can NOT however be handled by Allied Military installations in Allied Headquarters territory.

9. Financial considerations are presently firm from the US viewpoint. Additional representation will be made on the part of the General Headquarters Central Mediterranean Forces directly to the War Office concerning British financial prosedure.

10. Based on experience of the past 5 months when the Italian Government has been responsible for the control of its Army I request :-

(a) Your approval of paragraph 4 above.

(b) Your approval that in the interest of standardisation weapons and ammunition be British supply and other equipment and vehicles (for the remainder of the Army) including all spares be of British supply so far as British surpluses permit.

(c) Your confirmation be given to paragraph 7 above.

(d) Your approval to paragraph 8 above.

11. I most strongly urge that the US and British Governments be informed of the necessity of forming and maintaining an effective Italian Force as a prerequisite to both internal security and security of the Italian frontier. In the case of food, clothing, medical supplies, petrol, oil and lubricants steps must be taken to ensure that the requirements of the Italian Government for its Armed Forces are met by producer countries."

UNITED NATIONS RELIEF AND REHABILITATION ADMINISTRATION-PRIORITY.

In reply to the Navy Sub Commission, Headquarters Allied Commission's letter No.NSC/4933 dated 23rd April, 1946, it is pointed out that no further surpluses of stores will be declared in Italy except for Trieste, and by the time this base closes it is presumed there will be a peace treaty.

2. It is noted that the surpluses of stores at Taranto, Naples and Leghorn were dealt with satisfactorily and it is presumed that disposal of stores at Messina has been dealt with similarly.

2. The following remarks are submitted:-

(a) The Italian Government is provisionally assuming the responsibility for feeding the Italian Navy on 1st June, 1946 and therefore, the supply of sufficient food required to meet this new committment should be ensured. The British and American Government's policy to be followed, contained in the Embassies' "Notes verbales" to the Italian Ministry of Foreign Affairs would appear to be detrimental to the Italian Governments efforts in maintaining her Armed Forces. Paragraph 2 of enclosure (b) refers.

.....over.....

(b) In accordance with the Combined Chiefs of Staff policy laid down in C.C.S. 315 dated 19th March, 1944, the United Kingdom is primarily responsible for the repair, maintenance and supply of Italian Navy vessels in the Mediterranean. It is therefore considered essential that the Italian Ministry of Marine should have first refusal of all surplus stores reported to the Chief Disposals Officer, from Royal Navy Bases in Italy, in order that the dispatch of Naval Stores from the United Kingdom be curtailed to the minimum. In view of the fact that U.N.R.R.A. have priority over Italian military requirements for the disposal of surplus property however, the Italian Navy is not getting the full benefit from Royal Navy surpluses turned over to the Italian Government through the agency of the Chief Disposals Officer. Paragraph 5 of enclosure (b), and enclosure (d) refer. This the transfer of Royal Navy Stores at Taranto, Naples and Leghorn to the Italian Royal Navy has been satisfactorily accomplished through the Chief Disposals Officer, it is considered that the procedure, in respect of any Naval Stores that may become available for transfer in the future, be clearly established in favour of the Italian Ministry of Marine. To this end, it is suggested that the procedure outlined in paragraph 1 of enclosure (d) which is considered cumbersome, be amended in order that Royal Navy Stores be turned over direct to the Italian Navy, details of the transfer being reported to the Chief Disposals Officer by the Royal Navy Authority concerned for accounting action; the Italian Ministry of Marine reserving the right however, of obtaining any other British Stores, if required, from the Azienda Rilievo Alienazione Residuati.

(c) The present procedure for the supply of British coal and petroleum products to the Italian Royal Navy is through the Italian Government import programme. If no assurance can be given as to the flow of military supplies, then the repatriation of Italian Prisoners of War for whose transportation the Italian Ministry of Marine is responsible, and the Italian Royal Navy share in mine-sweeping in the Mediterranean may well be prejudiced. Paragraph 6 of enclosure (b) refers.

FOR CHIEF COMMISSIONER.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

Ref. : 8255/176/DO

13 April 1946

SUBJECT: UNRRA Priority

TO : G-5, AFHQ

1. I wish to invite your attention to two almost identical notes verbale which were sent to the Italian Government by the United States and British Embassies on procurement by the Italian Government for its Armed Forces. In the notes the subordinate position of the Italian Government vis-a-vis UNRRA is clearly defined.

2. I feel no concern about the subordination of the Italian Government's procurement because of the previous difficulties which have occurred when the Italian Government has undertaken to provide rations for the Army. In general their ability to provision for their Army has been delayed by difficulties in procurement and transportation, as well as the non-availability of supplies in the countries of source. These difficulties have been further enhanced by the non-availability for Armed Forces of such supplies as those shipped by FEA/UNRRA, lacking special arrangements for repayment. You will recall that advances have been made to the Italian Government from Allied military stocks.

3. The notes, stating the views of the two Governments, stipulate that supply must be accomplished from:

(a) Indigenous sources;
(b) Allied surpluses;
(c) Italian Government purchases abroad with that Government's foreign credits.

4. I anticipate no priority difficulty with supply from indigenous sources.

5. With respect to Allied military surpluses, it is to be noted that while this source is listed prominently as available to the Italian Government, the reliability of the source is reduced by the higher priority assigned to UNRRA. It is believed that the Italian Government, in its procurement for the Armed Forces, should have an equal, if not a higher priority position than UNRRA in procuring from Army surpluses. This belief is supported by the necessity for an efficient and effective military establishment to maintain peace and order in the country, which are prerequisites to UNRRA operations.

6. The assignment of an over-riding priority to UNRRA for the procurement of imported supplies might have unfortunate effects. UNRRA in

Declassified E.O. 12065 Section 3-402/NNDC NO. T85020

doubtless a dominant factor in the markets of the supplying countries, as well as in the use of transport facilities. With such a priority there is the possibility that procurement agents of UNRRA, in the supplying countries, might assert their priorities to such an extent that the ability of the Italian Government to procure would be prejudiced.

7. Insofar as the Italian Mission of UNRRA is concerned I do not anticipate any difficulties, because that Mission is fully cognizant of the Italian needs and will aware of the necessity for leaving the Italian Government free to procure for the segments of the population for which its funds are not eligible.

8. In view of the considerations above, I suggest submission of a recommendation to the Combined Chiefs of Staff that they represent to the two Governments the desirability of placing the Italian Government on a higher priority in its procurement of supplies for the Armed Forces.

TO : Brig. M. S. Lush - Executive Commissioner

1. It has been learned from MMIA, Colonel Kerr that AFHQ has taken cognisance of the notes verbale on the over riding priority of UNRRA versus Italian Government procurement for the Armed Forces. According to Col. Kerr AFHQ is to make representation to the CCS opposing the arrangement.

2. After further discussion with the Service Sub - Commission it was unanimously agreed that representations to AFHQ at this time would serve no useful purpose.

3. It is therefore recommended that no further action be taken at this time on the notes verbale.

Transfer of Stores in Italy through Chief Disposals Officer.

Reference your F.O.I.T. 443/10 dated 16th March, 1946.

It is correct to say that in general UNRRA have top priority in all stores offered for transfer through this Mission. Stores required by the Italian Navy should be obtained through A.R.A.R. (Azienda Rilievo Alienazione Residuati), the Italian agency receiving British surpluses.

A similar enquiry has been made by the NMIA (Military Mission to the Italian Army) in relation to the Italian Army, and in this connection an NMIA representative has been attached to G.H.Q. to watch for surpluses being passed to A.R.A.R. so that these can be asked for by the Italian Army.

SUBJECT OF STORES BY ITALY THROUGH UNRRA MISSION OFFICERS

It has been brought to my notice that United Nations Relief and Rehabilitation Administration have top priority in all stores offered for transfer through the Disposal Mission, and in view of the fact that it is important, and in some instances essential for the Italian Navy to have first refusal of all stores offered from Royal Naval bases in Italy, confirmation is requested that arrangements can be made to implement this request.

NOTE VERBALE

His Majesty's Embassy present their compliments to the Royal Ministry of Foreign Affairs and have the honour, under instructions, to communicate the views of His Majesty's Government in the United Kingdom on certain points related to the maintenance of the Italian Armed Forces:-

(1). Italian military requirements should, as far as possible, be provided from indigenous Italian resources.

(2). All imports, including tyres and tubes, should be purchased by the Italian Government through their own resources in accordance with existing arrangements for supplies outside the basic programme.

(3). UNRRA supplies may not be used by the Italian Army.

(4). Italian military requirements should be subordinate to UNRRA for the disposal of surplus property in Italy.

(5). The maximum use should be made of Allied Army surpluses to meet the requirements of the Italian Army.

(6). Requirements for Italy sponsored by UNRRA must have priority over requirements for the military forces.

(7). Supplies in Category A. of the civilian import programme should not be used for military purposes except where the Allied Commission believes it impracticable to establish a separate line of supply for specific items outside that programme.

(8). No specific additional tonnages should be included in the Category A programme for Italian military requirements.

(9). No assurance can be given as to the flow of military supplies.

NOTA VERBALE

The Embassy of the United States of America presents its compliments to the Royal Ministry of Foreign Affairs and, under instructions from the State Department at Washington, has the honor to communicate the views of the United States Government with regard to the following questions related to the maintenance of the Italian Armed Forces:

(a) Priority as between Italian Army and UNRRA in obtaining surplus property;

(b) Priority as between Italian military requirements and civilian requirements in Italian import program;

(c) Question of assurances to be given concerning furnishing of supplies in the civil import program;

(d) Whether specific additional tonnage shall be included in civil import program for military purposes;

(e) Whether tire and tube equipment can be supplied through civilian import program.

On these questions, the views of the United States Government are as follows:-

1. We agree that Italian military requirements should, in first instance, be taken from Italian indigenous resources, and secondly, from surplus United States and United Kingdom stocks in Italy.

2. UNRRA should have priority over Italian military requirements in the disposal of surplus property in Italy.

3. Items including tires and tube requirements which cannot be supplied locally or from surplus should be purchased by Italian Government through its available foreign resources. Italian Government should determine relative priority of military and civilian requirements in making its purchases.

4. UNRRA supplies cannot be used for military purposes.

5. Supplies in category A, civilian import program, should not (repeat not) be used for military purposes except where Allied Commission believes it impracticable to establish separate line of supply for specific items outside that program. No specific additional tonnages should be included in category A program for Italian military requirements.

N30/4979.
3rd May, 1946.

From : Navy Sub Commission, Hq., Allied Commission.
To : Ministry of Marine, Rome.

Subject : Flour for month of April, 1946.

With reference to the Ministry of Marine's letter 19268 dated 4th April, 1946, the matter was referred to the competent authority in the Allied Commission who discussed the question with a representative of the High Commissioner for Food.

2. The Navy Sub Commission has now been informed to the effect that the Ministry of Marine assertion that only a yield of 118% can be obtained from 91% milled flour would appear to be incorrect, and that providing care is taken, a suitable size loaf can be made, and by using yeast (which is now readily available) if necessary, a yield of at least 125% can be obtained.

3. In any event, it is regretted that no extra flour can be issued at this juncture in view of the present world shortage.

Reference your letter NSC/4934 of 26 April 46.

1. The question of yield of flour has been referred to the Food and Agriculture Branch, Economics Section A.C. and the following comments are quoted :

" 1. Reference NSC/4934 and attached translation of letter from Ministry of Marine, Paras 1, 2 and 3 have been discussed with the Office of the High Commissioner for Food.

2. The assertion by the Ministry of Marine that they can only get a yield of 118% from 91% milled flour is quite incorrect. Providing care is taken, a suitable size loaf is made and if necessary yeast is used (this is now readily obtainable) a yield of at least 125% can be obtained and possibly more. In any case at this juncture no extra flour could be issued. It is pertinent that no complaint has been received from either the Ministry of War or of Air.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

From : Ministry of Marine
To : N.S.C.
Date : 4th April, 1946 .
Ref. : 19268.

Subject : Flour for the month of April, 1946.

1. The flour for bread issued to the I.R.N. by the Food Commission for the month of April, through arrangements made by N.S.C., is ~~19%~~ 91% bolted; that for "pasta" is 80% bolted.

2. As the above supplies are issued by the afore-mentioned Food Commission against restitution of stocks of white flour received in their turn from the Allied Authorities, it is judged opportune to inform N.S.C. that with flour at 91%, the yield of bread will not be in the region of 130% as previously prescribed, but will reach, at its maximum, 118% with a consequent reduction in the bread ration to be distributed to the men.

3. In view of the above, it is requested that N.S.C. may inform us if it is possible that the Food Commission may be instructed to supply the supplementary quantity of flour to the I.R.N. necessary to keep the bread ration at the same level; that is, an increase of 10% above the allocation already made.

4. At the same time, it is confirmed that, further to our letter of 11th March, 1946, the Food Commission demands immediate payment (threatening non-delivery in default) for all the commodities, in addition to vegetables, which it delivers to the I.R.N. against repayment in kind from the stocks received direct by the I.R.N. from the Allied authorities.

5. In this connection, we renew our request to be informed whether this procedure is not the cause of duplicate payment for such goods by the I.R.N., i.e. to the afore-mentioned Food Commission and to the Allied Authorities, in the total account of all commodities allocated by them for the supplying of the I.R.N.

ARGOMENTO: Farina per il mese di aprile 1946.-

1.- La farina da pane assegnata alla R.Marina dall'Alto Commissariato per l'Alimentazione per il corrente mese di aprile, in base alle disposizioni impartite da codesta Sottocommissione Navale, è abburattata al 91%; quella da pasta è abburattata all'80%

2.- Poichè detto genere viene consegnato dal predetto Alto Commissariato in conto restituzione delle partite di farina bianca ricevute a suo tempo dalle Autorità Alleate, si reputa opportuno informarne codesta S.Commissione Navale, facendo presente che con la farina al 91% il rendimento in pane non potrà essere più ottenuto in ragione del 130% come ora prescritto, ma raggiungerà al massimo il 118% con conseguente diminuzione della razione di pane da distribuirsi al personale. 3263

3.- In vista ci ciò si pregherebbe codesta S.Commissione di far conoscere se ritiene possibile ottenere che all'Alto Commissariato per l'Alimentazione venga ordinato di consegnare alla R.Marina il suppletivo quantitativo di farina necessaria per mantenere invariata la razione di pane, e cioè il 10% in più rispetto all'assegnazione già fatta.

4.- Con l'occasione, a seguito del foglio SM/ 13326 dell'11.3.46, si conferma che l'Alto Commissariato, oltre che per i legumi, anche per le altre derrate che consegna alla R.Marina in conto restituzione di quelle ricevute dalle Autorità Alleate, richiede lo

immediato pagamento senza del quale si rifiuta di effettuare le consegne stesse.

5.- In proposito si rinnova la preghiera di far conoscere se tale procedimento non sarà causa di duplice pagamento di talli merci da parte della R.Marina, e cioè al predetto Alto Commissariato ed alle Autorità Alleate nel conto totale di tutte le darrate da essi cedute per l'approvvigionamento della Marina.-

Subject is Subsistence Requirements Italian Interim Force.

1. Italian Government through Interministerial Committee for Reconstruction has agreed to use of YT Fund for purchase of subsistence requirements for Italian Interim Army and Carabinieri (Total 205,000) for period from December 1, 1945 to June 1, 1946. It is understood that action is being taken to block remainder of YT Fund necessary to cover this.

5. For your further information it is understood that Italian Govt. is planning subsistence requirements for Interim Army as well as for Navy of 40,000 and Air Force of 31,000. Calculations for all three Forces planned on daily ration scale as submitted by Ministries, with a 19 percent increase for eventual losses. 7. Question of financing and procurement for this general subsistence plan for all Forces is acute as YT Funds are insufficient to cover it and as indigenous stocks cannot meet it without impairment of existing civilian ration and surplus military stocks available are insufficient.

Ref.: SM.26145

Subject: Provision stocks in I.R.N. Depots.

M O S T - U R G E N T

1. As you will have been able to observe, this Staff has always taken the greatest care to avoid any excess in the reserves of foodstuffs by ordering the prompt elimination of surpluses upon every occasion that they have become manifest.

However, there is no equally effective way in which to replace the stocks consumed, which - if they should not exceed the established quantities - neither should they remain below them unless they are to fail in the purpose for which they were authorised.

2. In practice it occurs that when the reserve of ten or fifteen days authorised by the Navy Sub Commission is reduced or exhausted owing to increases in strength or to issues to ships which could not be foreseen in making the fortnightly estimate (which is known to be compiled a considerable time beforehand), it is impossible to replenish it, and all applications made for this purpose to the Italian Army Authorities or to the M.M.I.A. are in vain.

3. Maridipart Taranto has now notified us that the local I.R.N. Provision Depot is in the most serious difficulties owing to lack of reserves and it is foreseen, should it prove impossible to reconstitute this stock, that the victualling of personnel will not be ensured.

Similar circumstances are appearing at certain other bases, and in particular at Naples.

4. The position at Taranto is especially difficult since supplies to that, the most important, I.R.N. base now come from the Italian Army Store at Bari and rail consignments of allocated foodstuffs are subject to notable delays owing to the difficulties of transportation (delays in allocating trucks, derailings, bottlenecks and other rail incidents).

/23

.....

Declassified E.O. 12065 Section 3-402/NNDG NO. 785020

These difficulties, and also the possibility of strikes or disorders which must be taken into consideration, unfortunately, compel that it be considered essential to maintain a full 15 days' supply, and therefore to re-establish it whenever it falls below this limit.

5. This could be effected by a request from this Staff to the Navy Sub Commission for the reserve to be built up again upon any occasion of its being reduced. It is considered, however, that this procedure would result in noticeable delays and that the necessary arrangements could not be made with the speed indispensable at such a time.

6. In consequence it is proposed that M.M.I.A. Liaison Officers, who control fortnightly allocations according to the state of stocks at the various stores, should be empowered to grant allocations - upon request by the store concerned - to complete the reserves upon every occasion of their falling below the limit, in the same way that they reduce the said allocations in case of there being a surplus.

7. In view of the present serious situation and of communications from external authorities upon the subject, it is requested that you may refer the matter in the above sense to the appropriate Allied Authorities in order that these regrettable inconveniences may be disposed of at an early date, and particularly at Taranto and Naples where the traffic of naval vessels is heavier.

ARGOMENTO: Scorte viveri di riserva presso i magazzini della R.Marina.-

URGENTISSIMO

1.- Come codesta S.Commissione avrà potuto rilevare, questo Stato Maggiore ha sempre provveduto con la massima diligenza ad evitare ogni eccedenza nelle scorte dei viveri di riserva ordinando la pronta eliminazione delle eccedenze ogni qualvolta esse si sono verificate.

Non si ha però alcuna possibilità di provvedere altrettanto efficacemente a reintegrare le scorte consumate le quali, se non debbono essere superate, non dovrebbero neanche restare mai al disotto del previsto senza che venga meno lo scopo per il quale vennero autorizzate.-

2.- In pratica si verifica che quando la scorta di riserva di giorni 10 o di giorni 15 autorizzata da codesta S.Commissione, viene a ridursi o ad esaurirsi per effetto di aumenti della forza o rifornimenti a navi che non si erano potuti prevedere nel preventivo quindicinale (che com'è noto si compila con notevole anticipo), non esiste alcuna possibilità di ricostituirla e tutti i tentativi che si fanno in tal senso presso le Autorità del R.Esercito o della M.M.I.A. restano vani.-

3.- Viene ora segnalato da Maridipart Taranto che il locale magazzino viveri della R.Marina si trova in gravissime difficoltà per deficienze di scorta di riserva e che prevede, ove non possa al più presto ricostituire tali riserve, di non poter assicurare il vettovagliamento del personale.

./.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

Analoga situazione si verifica in qualche altra sede ed in particolare a Napoli.

4.- La situazione di Taranto è particolarmente difficile considerato che il rifornimento di quella sede, che è la più importante della R.Marina, viene attualmente effettuato dal magazzino del R.Esercito di Bari e che le spedizioni ferroviarie dei viveri assegnati subiscono notevoli ritardi per le difficoltà dei trasporti (ritardo nell'assegnazione dei carri, deragliamenti, ingorghi ed altri incidenti ferroviari).

Tali difficoltà ed anche l'eventualità di scioperi o disordini, che purtroppo deve essere tenuta presente, impongono di considerare come indispensabile che la scorta di 15 giorni sia sempre mantenuta integra e quindi ricostituita tutte le volte che si riduca al disotto di tale limite.-

5.- Ciò potrebbe essere ottenuto attraverso richieste da parte di questo Stato Maggiore a codesta S.Commissione Navale per l'integrazione delle scorte ogni qualvolta esse risultino ridotte.

Si ritiene però che una tale procedura implicherebbe notevoli ritardi e che i provvedimenti relativi non sarebbero attuabili con la sollecitudine che talvolta è indispensabile.

6.- Si proporrebbe quindi di disporre che gli Ufficiali di collegamento della M.M.I.A., i quali controllano le assegnazioni quindicinali in relazione alla situazione dei vari magazzini, come già provvedono a ridurre le assegnazioni stesse in caso di scorte eccedenti, siano incaricati altresì di concedere assegnazioni integrative ogni qualvolta le scorte risultino al disotto del limite consentito e su richiesta dei magazzini interessati.

7.- Data la gravità della situazione attuale e delle segnalazioni che in proposito pervengono dalla periferia, si pregherebbe di voler intervenire con cortese sollecitudine nel senso

suindicato presso le Autorità Alleate competenti per ottenere che l'inconveniente lamentato sia tempestivamente eliminato ed in modo particolare a Taranto ed a Napoli dove più intenso è il traffico delle unità navali.-

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

From : MINISTRY OF MARINE (Maristat)
To : N.S.C. - A.C.H.Q.
Date : 30th July, 1945.
Ref. : SM.15453.

Subject : Account of rationed foodstuffs.

Further reference is made to our No.11109 dated 4 June, 1945.

1. On the evening of 20th June last the balances of foodstuffs in store signalled by the various areas were as follows :-

	Rations	Equal in days to	Instead of
Taranto-Brindisi	804.339	27	15
Bari	35.881	19	10
Naples-Rome	164.917	12	10
Sicily	134.664	~~12~~15	10
Sardinia	126.415	31	15

Since these stocks were in excess of the maximum established recently, instructions were given for an investigation into the reasons for this - from which it emerged that the reduction of previous reserves had not been completed and, on the other hand, the amount of the reserves had been effected considerably by the decrease in strength which had taken place in preceding weeks.

2. On the evening of 20 July last the position was as follows :-

	Rations	Equal in days to	Instead of
Taranto-Brindisi	693.705	26	15
Bari	45.591	30	10
Naples-Rome	176.715	13	10
Sicily	64.196	13	10
Sardinia	128.943	34	15

From the above it is evident that the prescribed figures have not yet been reached. This is to be attributed in the main to further decreases in numbers since the 20th June and to the impossibility of making the estimate correspond to current requirements, since it has to be calculated long in advance.

It has been ordered specifically, therefore, that, after prior agreement with the M.M.I.A. Liaison Officer, certain bases shall reduce (and if necessary omit altogether) their fortnightly demands, made in accordance with the Ministry's allocation which is based upon its estimates, in such a way that the amount of the reserve-stocks may be reduced at the earliest possible to within the established limits.

ARGOMENTO: Rendiconto delle razioni viveri.-

Si fa seguito al foglio di questo Stato Maggiore n.11109 del 4.6.45.

1.- Alla sera del 20 giugno u.s. le rimanenze di viveri in deposito segnalate dalle varie zone erano le seguenti:

Taranto - Brindisi	raz.	804.399	pari a	giorn.	27	invece	di	15
Bari	"	35.881	"	"	19	"	"	10
Napoli - Roma	"	164.917	"	"	12	"	"	10
Sicilia	"	134.656	"	"	28	"	"	10
Sardegna	"	126.415	"	"	31	"	"	15

Poichè le riserve risultavano eccedenti rispetto a quelle massime recentemente stabilite, furono disposti accertamenti dai quali è risultato che le operazioni di riduzione delle precedenti scorte non erano state ultimate e che, d'altra parte, aveva influito sensibilmente sulle rimanenze la riduzione della forza verificatasi nell ultime quindicine.

2.- Alla sera del 20 luglio u.s. la situazione è risultata la seguente: 3225

Taranto - Brindisi	raz.	693.705	pari a	giorn.	26	invece	di	15
Bari	"	45.591	"	"	30	"	"	10
Napoli - Roma	"	176.715	"	"	13	"	"	10
Sicilia	"	64.196	"	"	13	"	"	10
Sardegna	"	128.943	"	"	34	"	"	15

Si rileva quindi che l'assetto prescritto non è stato ancora raggiunto.

Ciò si deve attribuire principalmente alla ulteriore riduzione della forza verificatasi dopo il 20 giugno ed alla impossibilità di far coincidere i preventivi, da calcolarsi con molto anticipo, con il fabbisogno effettivo all'atto dei prelevamenti.

Declassified E.O. 12065 Section 3-402/NNDG NO. T85020

E' stato perciò tassativamente disposto che le singole sedi, previ opportuni accordi con gli Ufficiali di collegamento locali della M.M.I.A., riducano i prelevamenti quindicinali rispetto alle assegnazioni disposte dal Ministero della Guerra sulla base dei preventivi e, se necessario li omettano addirittura, in modo che le scorte rientrino al più presto possibile entro i limiti stabiliti.-

F.O/3769.
13th October, 1945.

From : Navy c/o Secretariat, H.Q., Allied Commission.
To : Ministry of Marine, Rome.

Subject : Provision for Naval units in transit in Sardinia.

With reference to the Ministry of Marine's letter No. [illegible] dated 27th September, 1945, owing to the shortage of shipping, there are not ample facilities for the shipment of food to Sardinia. To offset this, a system control has been instituted to curtail the issues of food rations in Sardinia as much as possible, and it is considered that the Italian Naval Navy could materially assist if Italian warships calling at Sardinian ports, whilst observing the right to draw rations in cases of emergency only, did not draw provisions there, but obtained a sufficient quantity of victuals for the round trip from the mainland.

2. The procedure for the issue of victual rations to Italian warships in transit at Sardinian ports followed by the Military Liaison Italian Navy Liaison Officer ordains, therefore, has the approval of the Land Forces Sub Commission (M.L.F.S.C.) and the full concurrence of the Navy Sub Commission, Allied Commission, observing that the period a ship is away from the mainland on a trip to Sardinia, is normally under a week, for which rations can easily be issued from the mainland, thereby avoiding any delay that may be incurred in sailing the ship should she have to draw rations, and avoiding any further accounting mentioned in paragraph 4 of the Ministry of Marine's letter under reference.

From: MINISTRY OF MARINE (Maristat)
To : N.S.C. - Rome

Ref.: SM.21223

Subject: Provisions for Naval Units in transit in Sardinia.

1. With reference to your letter No. NSC/2924 of 12th July last, forwarded herewith are copies of the communications received from Maricommi La Maddalena, from which it appears that the M.M.I.A. in Cagliari not only requires to give prior authorisation for every issue of provisions to warships in transit at Sardinia ports but also gives notice that in future approval will be given only in cases of emergency.

2. Since one of the principal reasons for authorising I.R.N. Provision Stores to hold a reserve stock is to make possible the provisioning of naval vessels in transit it would be appreciated if the Navy Sub Commission would take up the matter with the M.M.I.A. in order to obtain the withdrawal of the restrictions imposed by the M.M.I.A. Office at Cagliari, thereby avoiding the resulting inconveniences and the delay which may be caused in the ships' itineraries.

3. In respect of the above it is considered desirable to observe that the provisioning of vessels in transit is a normal occurrence, and not an emergency, since those ships in particular which have no store of provisions, being authorised to retain on board only the stock necessary for their time at sea, must necessarily embark provisions in other ports than that on which they are based and on the victualling estimates of which they are normally included.

4. On the other hand, in the following fortnight the base to which their provisions are allocated. deducts those stores which were allocated to it and which were not issued to the ship owing to its sailing, and thus does not form a surplus reserve which it is not permitted.

ARGOMENTO: Viveri per unità navali di transito in Sardegna.=

1.- Con riferimento alla lettera di codesta Sottocommissione nº NSC/2924 del 12 luglio u.s. si trasmettono in copia le allegate segnalazioni pervenute da Maricommi La Maddalena dalle quali risulta che la M.M.I.A. di Cagliari non solo prescrive la sua preventiva autorizzazione per ogni distribuzione di viveri alle unità navali da guerra in transito nei porti sardi, ma avverte che per l'avvenire non potrà autorizzare ulteriori distribuzioni salvo casi di emergenza.=

2.- Poiché uno degli scopi principali dell'autorizzazione concessa ai magazzini viveri della R.Marina di tenere una riserva é quello di provvedere al rifornimento delle unità navali di transito, si gradirebbe l'intervento di codesta S.Commissione Navale presso la M.M.I.A. onde ottenere che le restrizioni imposte dall'ufficio M.M.I.A. di Cagliari siano rimosse, evitando l'intralcio che esse producono ed i ritardi che possono causare nell'itinerario delle navi.=

3198

3.- Al riguardo si reputa opportuno chiarire che il rifornimento delle unità in transito é un evento normale e non di emergenza poiché, specie le navi sprovviste di deposito viveri, essendo autorizzate a tenere a bordo soltanto la scorta necessaria per la navigazione, debbono necessariamente, quando compiono missioni, rifornirsi in sede diversa dalla loro base di assegnazione nel cui preventivo di vettovagliamento sono normalmente comprese.=

4.- D'altra parte, la base di assegnazione preleva in meno, nella quindicina successiva, i viveri che le erano stati assegnati e che non ha distribuiti alla nave a causa della sua partenza, senza di

Reference is made to despatch no. 35805/S of 21st August 1945 addressed to Marisardegne and forwarded to us for information and compliance under cover of letter 28897 of 2nd instant.-

1. With regard to the instructions contained in the above-mentioned letter I have to inform you that :
a) the store controlled by this office is supplied with provisions from the general store at Cagliari, which receives its issuing orders from the M.M.I.A.
b) the rations allocated to this base correspond to the numbers victualled.
c) there is a 15-days reserve for the actual strength, to be used in the event of a delay in supply and for distribution to ships on passage. In the latter case, however, it is necessary to have the covering approval of the M.M.I.A. since the latter would not otherwise allow a readjustment and would order the recovery of the stores (see M.M.I.A.'s letter R 3 of 2nd June 45, copy of which is attached).
d) should this section issue provisions to ships in transit and then request their replacement from the Italian Army general store at Cagliari, it is considered that, notwithstanding the Ministry of War's despatch no. 13960/S of 10th August, the M.M.I.A. would not authorise the issue.

2. The following particular instance is brought to your attention :-
a) the IRN ship "ALISEO", which makes trips between Genoa and La Maddalena, requested on 30th August ten days rations for a strength of 150 persons. Upon being approached through Marina Cagliari, the M.M.I.A. first authorised the issue of three days rations for 150 persons, totalling therefore 600 rations.
b) On the subsequent voyage. on 2nd September, the "ALISEO" requested 3 days provisions (450 rations) : M.M.I.A. authorised this issue as an exceptional case, giving notice that such authorisations would no longer be granted (see signal no. 2762 of 2nd Sep 45, copy attached).

3. Since it is expected that the ALISEO will make further trips Marisardegna drew the attention of Maristat to this, and by signal no. 45003 of 4th inst. the latter has informed us that M.M.I.A. in Rome has given authority for Marina Genoa to supply provisions to the ALISEO.

4. Since the instructions from the Ministry of War seem to be at variance with those of M.M.I.A. Cagliari, it is requested that further instructions may be given in the matter, by telegraph if possible.

I°) - In relazione a quanto disposto con il dispaccio cui si fa riferimento, comunico:

a)- il dipendente magazzino viene rifornito di viveri dal magazzino misto di Cagliari, dipendente dalla Direzione di Commissariato Militare di quella Sede, che riceve gli ordini di distribuzione dalla M.M.I.A.;

b)- le razioni assegnate a questa Sezione sono commisurate alla forza da vettovagliare;

c) -esiste una scorta di giorni 15 commisurata alla forza attuale da servire in caso di ritardo nei rifornimenti o per somministrazioni a navi di passaggio. In quest'ultimo caso però occorre la preventiva autorizzazione della M.M.I.A. poiché in caso contrario questa non ne autorizzerebbe il reintegro e ne ordinerebbe il ricupero (vedi foglio della M.M.I.A. R.3 del 2 giugno 1945 che si allega in copia.-

d)- qualora questa Sezione distribuisse viveri a navi di passaggio e ne richiedesse poi il reintegro al magazzino misto viveri R.Esercito di Cagliari, questa Sezione ritiene, che, nonostante il dispaccio del Ministero della Guerra n.13960/S del 10 agosto, la M.M.I.A. non ne autorizzerebbe la somministrazione.-

2.) Nel caso specifico faccio presente quanto segue:

a)- La R.Nave Alisео, che esegue viaggio fra Genova e La Maddalena, il 30 agosto ha chiesto giorni 10 di viveri per una forza di 150 persone. Interessato la M.M.I.A. di Cagliari (tramite Marina Cagliari, questa ha autorizzato prima la somministrazione di n°3 giornate pari a n°150 razioni, per un totale quindi di 600 razioni.-

.....

It has happened that Naval vessels in transit at ports where there is no Naval provision store, or forced by bad weather to put in to those ports for a few days, have found difficulty in obtaining provisions since Italian Army Stores were not intended, according to current instructions, to issue more than the allocated rations to the I.R.N. Headquarters there.

It being that these are exceptional cases, and in view of the need to arrange for the provisioning of ships in these circumstances, Supply Offices, in agreement with the M.M.I.A. OGGETTO: Viveri per Unità Navali di transito.-

e, per conoscenza:

AL MINISTERO DELLA MARINA = D.C.C.M.M. ROMA

Si è verificato il caso che unità Navali di transito in porti sprovvisti di Magazzini Militari della R.Marina o costrette a sostare per alcuni giorni nei porti stessi a causa di cattivo tempo, hanno incontrato difficoltà; per il rifornimento viveri perchè i magazzini del R.Esercito non intendevano, giusta le disposizioni vigenti, di somministrare al Comando Marina del posto, viveri in più di quelli assegnati.-

Trattandosi di casi eccezionali e considerata la necessità di provvedere in casi simili al rifornimento delle Unità Navali, le Direzioni di Commissariato, previ accordi con l'Ufficiale di Collegamento della M.M.I.A. disporranno per la somministrazione delle razioni che per i motivi suddetti saranno richieste dai Comandi Marina in più di quelle assegnate, comunicando a questo Ministero il numero delle razioni distribuite onde poterne richiedere il reintegro al Ministero della Marina.=

Subject: Surplus Rations in Italian Navy Depots.

With reference to the Ministry's letter No. 05.8103 of the 24th April, 1945, information has been received that a reduction of reserves of rations is essential in view of the general European food shortage, and that the minimum stocks should be held in reserve.

2. The following reserves were held by the Ministry on the 1st April, 1945 :-

AREA	SURPLUS (OVER) RATIONS	RATE
Taranto & Brindisi Area	54,929	15%
Bari Area	40,460	19%
Naples and Rome Area	184,224	14%
Sicily	89,695	23%
Sardinia	115,052	25

To reduce these surpluses, undertrends should be made so that normally, not more than ten day's reserves are held at any time; as exceptional cases, however, 15 days rations may be held in the Brindisi Area and Sardinia. Therefore, rations are to be drawn in bulk from Italian Army Depots on a 15 day cycle.

3. The Ministry of War has issued the necessary instructions in conjunction with the Liaison Officers of the Military Mission to the Italian Army.

With reference to your letter G/2/3 dated 17th September, 1945, information is requested as to when the instructions regarding the accounting procedure in respect of M.F.I. supplies made to the Italian Armed Forces may be expected, observing that supplies to the Italian Royal Navy have been held up pending Allied Force Headquarters' instructions on the matter.

2. The proposal made in paragraph 3 of Air Forces Sub Commission's letter AF30/945/GEN. dated 30th October 1945 appears to be satisfactory, and the accounting system for the Italian Navy could be modulated on these lines, with the exception that the Italian Navy personnel strength return could be sent direct to the M.A.A.F.I. bulk depots concerned, with a copy to Allied Force Headquarters if necessary.

E.F.I. Supplies for Italian Air Force.

1. A.F.H.Q. by letter AFHQ/252/Q(MAINT) dated 26th August, 1945, authorised the issue of certain E.F.I. supplies to certain categories of the Italian Armed Forces. One of these categories was "that part of the Italian Navy and Air Forces which is a British feeding contingent. This, in effect, authorises issue of E.F.I. supplies to 25,500 men of the Italian Air Force.

2. The method of accounting for these E.F.I. issues was not, however, clearly laid down and is at present the subject of correspondence between M.M.I.A. and A.F.H.Q. Army District Commanders have recently issued their own instructions on the subject and issue to Italian Army personnel are now being made. As the issue of E.F.I. supplies to the Italian Air Force, on the other hand, has now been held up for over two months awaiting A.F.H.Q.'s decision on the method of accounting it is desired to avoid further delay by putting up the following proposed system of issue to I.A.F. units for A.F.H.Q.'s approval.

3. As a result of changes in the system of issuing rations to the Italian Armed Forces, Italian Air Force ration depots are being opened up at Milan, Padua, Rome, Bari, Naples, Cagliari and Palermo and will draw rations in bulk from Italian Army depots. It is suggested that these depots should draw E.F.I. supplies in bulk from Bulk MAAFI/NAFI stores in accordance with the scale laid down in A.F.H.Q.'s letter at para 1 for numbers of personnel as shown in the Italian Air Force monthly Order of Battle. This Sub Commission would forward, each month, certified strength figures for the area supplied by each of the above I.A.F. ration depots to A.F.H.Q. These figures would then be circulated to Bulk R.A.A.F.I. depots concerned.

4. E.F.I. supplies for I.A.F. personnel serving with R.A.F. units would be drawn on their behalf by the parent I.A.F. unit on a separate indent suitably endorsed.

5. It is considered that this system would be the simplest both for case of accounting and distribution and it is requested that a copy of this letter may be forwarded to A.F.H.Q. for agreement and issue of the necessary instructions.

Reference is made to your CEFI/3/17.15 dated 28 Sep 45.

1. Under reference C/2/3 dated 31 July, all concerned were notified by this H.Q. that the procedure then in use for the supply of E.F.I. goods to Italian soldiers, authorised under AFHQ/2554/Q(Maint) dated 21 Mar 45 would cease with effect from 1 Sep 45. No issues on credit should, therefore, have been permitted after that date.

It is, however, observed that in some cases vouchers are being received, and every endeavour will be made to clear these and to collect payment from the War Ministry.

You are, therefore, requested to issue instructions which will avoid a further issue of E.F.I. goods on credit to Italian Soldiers.

2. A.F.H.Q. under their 255/Q(Maint) dated 26 Aug 45, authorised the purchase of E.F.I. commodities by Italian soldiers belonging to one of the following categories:-

(a) Combat Troops.
(b) ITI-ITI Service Troops.
(c) Personnel of the Italian Navy and Air Force who are a British feeding commitment.

3. The effective date of this decision was left to the discretion of District etc. Commanders, who subsequently issued their own instructions on the matter.

All such purchases should be on a cash basis, which, as you state, can be the only substitute for the procedure described above, whereby . . I.A. were responsible for collecting payment. This H.Q. has never agreed to accepting this responsibility for Categories 2 (b) and (c) above.

4. It is assumed the issue of E.F.I. goods to Combat troops will cease in the near future when these are absorbed into the ITI-ITI category. Meanwhile, they should continue on cash basis only.

3173

The procedure whereby indents of Italian units are endorsed by a British officer should be as directed by the District etc. H.Q. concerned.

It is therefore requested that your instruction to Bulk Issue Stores should leave the details of this arrangement to be arranged by the local British Admin. H.Q. who will be governed by the procedure laid down in each case by their District.

1. The original method of accounting cannot be made applicable to Italian formations and unit which have no British Liaison Unit and it is obviously undesirable to have two different methods of accounting.

2. In view of this, it is suggested that the MMIA proposals be adopted and your agreement is requested.

Subject: Cigarette Supply for Italian Armed Forces.

With reference to Commander-in-Chief, Mediterranean's letter No.Med.45/20160/30 dated 31st July, 1945, addressed to the Flag Officer, Italy and Madsen, since the first rate issue of 50 cigarettes per man per week concerns all Italian Armed Forces, i.e. Navy, Army and Air Force, it would appear that this new cigarette ration scale is automatically applicable to the Italian Navy.

2. In any event, upon receipt of a copy of the instructions referred to in paragraph 3 of Allied Force Headquarters letter AFHQ/2554/4 (Maint) dated 19th July, 1945, from Land Forces Sub Commission (M.M.I.A.), the Ministry of Marine was informed accordingly, and have already taken action to supply Italian Royal Navy personnel with free issue cigarettes in accordance with the new ration scale.

M.M.I.A. ADMINISTRATIVE INSTRUCTION NO. 22

1. OBJECT.

The object of this instruction is to clarify the scales, sources of provision and method of distribution for certain supplies to the ITALIAN Army.

2. AUTHORITY.

This instruction is issued consequent to APHQ orders contained in Signal FX29188 of 18 Feb 45 and in conjunction with the Instruction Number 3630/SI of 20 Feb issued by the ITALIAN Ministry of War.

Except where specifically otherwise indicated, this Instruction applies to BR-ITIS (Combat and Service tps) and any tps of other categories which may be temporarily maintained through BR-ITI channels. The scales given are applicable to all categories of tps.

4. ADM DIVS.

In order that Combat tps may not be worried in unnecessary adm details in the rear and to enable BR-ITIS to be self supporting with the minimum Br assistance, it has been decided that the BR-ITI Adm Divs shall take adm responsibility as far as possible for all BR-ITI tps (Combat and Service Tps).

5. RATIONS.

(a) The standard ration scale for the Italian Army (all categories) is:-

Allied provided Items.

Flour	15 oz.
Dried vegetables	2 oz.

The special allotment of salt for use in breweries set out in MMIA letters AQ/2-30 of 8 Jan 45 and AQ/2-35 of 20 Feb 45 remains unchanged. The provision of this extra salt is an ITALIAN provided item.

(i) In Fifth Army, Eight Army and One District.

Indent, provision and issue is through normal ST channels to Unit.

(ii) In remainder of ITALY - SICILY - SARDINIA.

MMIA indent on ST for issue into Italian Main Depots. Issue from Italian Main Depots to Units is through Italian channels.

(c) Indent, provision and issue of the ITALIAN provided portion to BR-ITIS.

(i) In Fifth Army, Eight Army and One District.

ST indents on MMIA who will instruct the Italian Government to make available to ST Base Depots (normally 1st CRASC). Delivery from ST Base Depots to unit is through ST channels.

When considered desirable by ST, local purchase is made under ST arrangements and necessary vouchers sent to MMIA for a cash claim to be made against the Italian Government.

(ii) In remainder of ITALY - SICILY - SARDINIA.

The provision and issue is an ITALIAN responsibility through ITALIAN channels.

6. CIGARETTES.

(a) (i) FREE ISSUE: Scale is 5 cigarettes per man per day for ALL tps of all categories.

(ii) ADDITIONAL FREE ISSUE: An additional free issue has now been authorised for certain tps on a scale of 5 per man per day. At the time this new scale was announced the Italian Government had NOT taken any provision action and did NOT have stocks available. It is estimated that supplies will have been distributed to meet this new commitment by 7 Mar 45. Any issue made prior to that date will correspondingly prejudice the March issues. This issue is authorised for

(a) ALL tps fwd of Fifth and Eight Army Rear Boundaries.

(b) FRIULI, CREMONA, LEGNANO, FOLGORE AND MANTOVA Combat Groups, wherever located.

(c) CESANO Combat Group Rfts Centre.

Date: 21st September 1945
Ref.: SM. 20625 - Encl. No.1

Subject: Victualling of CC.RR. Personnel placed at the disposal of the I.R.N.

1. The signal of which a copy is attached has been received from the Ministry of War, with reference to the victualling of CC.RR. personnel placed at the disposal of the various armed services.

2. This Staff has no information whether the extension to the I.R.N. of the instructions concerned - which refer to the Royal Italian Air Force - is due to a similar interpretation given to them by the Ministry of War or to a specific definition from the M.M.I.A.

Howsoever, in the second event it is requested that the N.S.C. may intervene in order to prevent the alteration of the present system, which lays upon the I.R.N. the direct victualling of the CC.RR. personnel placed at its disposal.

3. In support of this request the following considerations are brought to your attention :

- The CC.RR. Branch belonging to the I.R.N. consists of 710 ratings dispersed among the various Departments at the Naval Bases and Establishments in the Peninsula and on the islands. In practice these ratings are outside the complement of the service to which they belong and are administered on the ledgers of the I.R.N. There is no relationship of an administrative nature between the CC.RR. of the I.R.N. and the Territorial Legions of the CC.RR. Service.

The I.R.N. Victuals the CC.RR. sections placed at its disposal through the Provision Stores at the various bases.

In applying the Ministry of War's instructions it would result that a CC.RR. section would receive the pay of one service (the Navy) and the victualling of another (the Army) which are accounted differently: this would lead to inconveniences in administration (when, for example ratings temporarily have to receive their rations in pay (I.R.N. funds) instead of in kind) (Army issue). Furthermore, difficulties of a practical nature would be encountered in collecting and transporting the provisions, since the CC.RR. of the Navy are not always based on the same places as the corresponding branch of the territorial service.

Declassified E.O. 12065 Section 3-402/NNDC NO. 795020

The CC.RR. of the Royal Italian Air Force, being administered by the Territorial Legions of the CC.RR. Service, are not subject to the same conditions, administratively, as those of the I.R.N.

4. I should appreciate information of the decision adopted by the N.S.C. in respect of the above.

INDIRIZZO TELEGRAFICO: MARISTAT - ROMA

Rif. N. Sm 20625. Allegati Uno

ARGOMENTO: Vettovagliamento CC.RR. a disposizione della R.Marina.-

1.- E' pervenuto dal Ministero della Guerra il telegramma che si unisce in copia relativo al vettovagliamento dei CC.RR. a disposizione delle varie forze armate.-

2.- Questo S.M. ignora se l'estensione alla R.Marina delle disposizioni di cui trattasi, relative alla R.Aeronautica, sia dovuta ad interpretazione analogica data dal Ministero della Guerra ovvero a specifica precisazione della M.M.I.A.-

Tuttavia, nella seconda ipotesi, si pregherebbe codesta S. Commissione di voler intervenire per evitare che venga modificato l'attuale sistema, il quale attribuisce alla R.M. il vettovagliamento diretto dei CC.RR. posti a sua disposizione.-

3.- A sostegno di tale richiesta si prospettano le seguenti considerazioni:

Il Comando CC.RR. per la R.Marina comprende 710 militari della Arma dislocati in vari reparti presso le Basi Navali e Stabilimenti della penisola e delle isole. Detti militari, praticamente fuori organico per l'Arma, sono amministrati sul bilancio della Marina. Nessuna relazione di carattere amministrativo esiste fra i reparti CC.RR. della Marina e le Legioni territoriali dell'Arma dei CC.RR.-

La Marina provvede a vettovagliare i reparti CC.RR. posti a sua disposizione, tramite i magazzini viveri delle varie Basi.

Applicando le disposizioni impartite dal Ministero Guerra, si verificherebbe che un reparto CC.RR. riceverebbe le paghe da un Ente (Marina) ed il vitto da altro Ente (Esercito) di diverso bilancio: ciò produrrebbe inconvenienti amministrativi (ad esempio quando i militari debbono ricevere temporaneamente la razione in contanti (fondi della Marina) in sostituzione della razione in natura (distribuita dall'Esercito). Si incontrerebbero inoltre difficoltà pratiche per il prelevamento e trasporto dei viveri, dato che non sempre i reparti CC.RR. della Marina hanno la stessa sede dei corrispondenti reparti dell'Arma territoriale.-

I CC.RR. dell'Aeronautica, essendo amministrati dalle Legioni territoriali dell'Arma CC.RR. non si trovano nelle stesse condi

SUBJECT: Surplus Rations Held by Italian Navy.

TO : Commanding General, Land Forces Sub Com A.C. (MMIA).

1. Prior to receiving your RT/6 dated 11 May this office had contacted the Navy regarding the surplus rations they were holding in stock. This date they advised this office, effective 6 May, they had approx 40 days rations except rice and oil for the Navy personnel stationed in Sardinia. We did not issue the Navy any rations for period 6-20 May. They claim this excess was accumulated due to the Ministry of Navy directing them to draw a certain number of rations and their strength did not warrent the number authorized.

2. Due to shipping facilities and lack of AF the Italian Navy here request they be authorized to issue 30 days rations at one time to personnel stationed a great distence from Cagliari. The greatest number of Navy personnel this effects is at Maddalena Island, approx 5400. Recommend approval.

3. They further request to hold at Maddalena 15 day surplus stock of rations due to lack of available scheduled shipping facilities and to supply emergency ships not based at Maddalena but due to bring rerouted requires rations. Recommend approval.

4. Recommend that no surplus stock of rations be held by the Navy at Cagliari for emergency ships, and no such ships be supplied with rations at Maddalena or Cagliari without authorization from MMIA through this office. Request this office be authorized to act in such cases where lack of communications or time does not permit contacting MMIA, however, MMIA would be fully advised of any such action taken.

5. All rations thus, drawn in par 4 above, be supplied from the Cagliari Bulk Depot to Navy under usual procedure.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

6. Recommend that Italian Navy underdraw rations until the above conditions are met.

7. From 11 October to 30 December 1944 the Navy drew approx 440 rations for a battalion 236 Infantry stationed at Maddaloni doing guard duty. We are checking to determine that the Regiment did not draw rations for this personnel.

Subject: Distribution of coffee substitute.

The Allied Sub Commission for the Army, having been informed of the considerable stocks of coffee substitute obtained from the stores of the armed forces of the so-called Social Republic, has instructed that these shall be distributed, until reserves are exhausted, to all the Italian Armed Forces without distinction to the amount of 6 grammes per man per day, in place of an equal quantity of coffee.

In consequence this Ministry has given instructions to that effect and has ordered - in order to hasten its consumption - that the existing quantities of substitute shall be redistributed among all the depots in the northern areas, including those of Leghorn, Florence and Ancona.

While noting the content of the above letter this Ministry regrets that it can not exclude Italian Air Force Units from the distribution, as it is not considered fair that only Army and Navy Units should partake in consuming a supply of this kind, since also the latter have been subjected to restrictions similar to those suffered by Air Force units in order to liquidate stocks in their own depots.

La Sottocommissione Alleata per l'Esercito, venuta a conoscenza della esistenza di notevoli giacenze di surrogato di caffé provenienti dai depositi delle forze armate pseudo repubblica sociale ha stabilito che tale derrata debba essere distribuita, fino ad esaurimento delle scorte, a tutte indistintamente le FF.AA. Italiane nella misura di grammi 6 giornalieri per uomo, in sostituzione di pari quantitativo di caffé.-

Conseguentemente questo Ministero ha emanato istruzioni in tal senso ed ha disposto, allo scopo di accelerarne il consumo, che i quantita ivi di surrogato esistenti siano ripartiti frabtutti i magazzini dei settori del Nord, compresi quelli di Livorno, Firenze e Ancona.

Pur tenendo conto di quanto comunicato col foglio in riferimento, questo Ministero é spiacente di non poter escludere dalle distribuzioni di surrogato i reparti dell'Aeronautica, non ritenendo equo che al consumo di tale genere debbano concorrere i soli reparti dell'Esercito e della Marina che pur essi in passato sono stati sottoposti, come noto, a limitazioni analoghe a quelle subite dagli enti dell'Aeronautica per poter smaltire le giacenze nei propri depositi.=

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

Following is a precis of the SIB Report:-

On 29th May two SIB Sgts and a member of the Questura found 1289 lbs of Dehydrated carrots (value £170) in the house of FORNARI Vincenzo, MASSERIA - CITARELLIA, Via Statte Taranto.

FORNARI stated he had bought this for 2500 Lire from OC 1st Gp A.A. Ital. Royal Navy TARANTO - he did not hold a receipt.

On 30 May a receipt, signed by OC of the a/m unit, was handed to SIB office. This intimated that the carrots were not fit for human consumption.

OC 1st Gp A.A. Ital R. Navy said it was issued to his unit for human consumption from Ital R. Navy Food Issue Store. As his men did not like it he sold it to FORNARI for 2500 Lire. He stated this money was later used to purchase sweets for his men.

Major Rose, Pathologist, 45 UK Hosp said in his opinion the carrots were fit for human consumption.

Carrots have been returned to DID and receipt held by 63 Sec SIB

1. Attached report SIB/63/A/45/115 dated 1 Jun 45 is forwarded for info and action considered necessary and retention.

2. It is submitted that the circumstances as revealed in the report, call for some action by the Italian Naval Authorities, which it is suggested should be prompted from Area HQ, and for which purpose, one copy of the report in Italian is attached.

3. It has been ascertained that the chain of supply was - 28 or 46 BSD (BARI) to Central Food Depot, MONTE CATINI (Nr TARANTO) to Italian R. Navy Food Issue Stores to unit. It is suggested that S & T Branch could confirm which BSD, and supply any info required prior to that stage.

4. The following points are submitted for your consideration:-

(a) The Italian Unit should have no authy to dispose of Allied rations for cash or kind.

(b) The reason given for disposal by sale, is disproved by British pathologist's report.

(c) If the brand of foodstuff was not liked or required, it should have been returned to issuing unit, or a substitute, if available, drawn in lieu.

(d) The action of the OC Italian Unit, and the disposal of the money, should be further investigated by the Italian Authorities.

(e) That the civilian was not to blame, and would normally consider his purchase to be in order.

(f) That the civilian should be re-imbursed by the Unit.

No ship of this name figures amongst those requisitioned by R.I. Government and serving with I.R.N.

In Oct. 1939 I.R.N. requisitioned the "Etiopia", a M/V. with Register N°1404, Genoa - owned by ROSASCO, Alberto of Genoa. However, this Vessel caught fire and sank at Tobruk on 6 Nov. 1942.

It is requested therefore that further particulars in regard to this Vessel be communicated, specifying if she is a salvaged Ship, her present position, if flying Italian Flag, if Crew and Management is Italian, which would appear to be so from the fact that this Ministry has received a request for reimbursement.

ARGOMENTO: Nave italiana "ETHEOPIA".

Sono state trasmesse a questo Ministero, dalle Autorità Alleate, alcune ricevute relative a viveri forniti alla nave italiana "Etheopia" di passaggio da Suez il 3 ottobre 1944.

Fra le unità requisite dal R.Governo che prestano servizio per la R.Marina, non ne figura attualmente alcuna, con il predetto nominativo.

Nell'ottobre del 1939 la R.Marina requisì, col nominativo "Etiopia" il piroscafo inscritto al n. 1404 delle matricole di Genova - armatore ROSASCO Alberto di Genova. Detta unità risulta però incendiata ed affondata a Tobruk il 6 novembre 1942.

Si prega quindi di voler fornire maggiori chiarimenti sull'unità in argomento, specificando se trattasi di unità ricuperata e dando notizie sulla sua attuale posizione di nave con bandiera italiana, equipaggiata e gestita da nazionali, quale risulterebbe dalla richiesta di rimborso spese presentata a questo Ministero.

3. In the early months .....

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

3. In the early months of the occupation of Naples it was arranged verbally with D.A.D.L. Labour, Allied Armies in Italy, that no charge should be made for the rations issued by the Royal Navy. This was based on the following reasons :-

(a) It had been necessary to devise a ration scale and make issues almost from the outset of the occupation of Naples, and no charge for these rations had been exacted. The introduction of a compulsory charge for the rations would therefore tend to cause discontent.

(b) The Naval scale was less comprehensive than that being issued to the Army Schooners' crews and less adapted to the Italian palate.

(c) A number of Italian civilians were engaged on particularly arduous and in some cases dangerous duties on salvage work etc.

4. It is considered undesirable to adopt the Army Scale owing to the additional accounting difficulties that would be involved and the difficulty of ensuring safe custody and correct issuing procedure of such items as wine, olive oil, etc. It is recommended, therefore, that a uniform Royal Naval Schooner Ration Scale should be adopted, for which no charge should be made.
