SUBJECT : OICOM claim in Pantelleria.

TO : Studio Vassalli.

1. The opinion of the Naval Sub-Commission in regard to this claim is attached herewith.
2. Arrangements will be made to have an Allied representative check with a member of the firm the inventory sent by you in order to assess the damages and loss if any.
3. This Sub-Commission is of opinion that the whole matter lies on a question of issue of regular requisition papers and the responsibility for settling the claim will eventually be borne by the Italian Government under the terms of the armistice.

ARGOMENTO Sblocco di cemento occorrente alla R. Marina.

URGENTISSIMO

Prosecuzione foglio 8791 di questo Maristat in data 2 maggio c.a.

1. - Dato il carattere di assoluta urgenza della fornitura di q.li 6000 di cemento alla Sede di Brindisi, è di grande interesse conoscere le determinazioni prese in merito dagli Alleati.
2. - Nel caso che la fornitura in questione non sia stata ancora definita dalla competente Autorità, si prega vivamente promuovere una pronta decisione prospettando le difficoltà e il maggior dispendio in cui incorrerebbe la R. Marina nel caso dovesse rivolgersi alla speculazione privata.

FILE

Subject : Cement.

With reference to Commander-in-Chief, Mediterranean Station's Minute II No. Med. 45/607/4/7 of 23rd May, 1945, (to Navy Sub Commission only) and paragraph 4 of Allied Force Local Resources Section, Allied Force Headquarters' letter No. LRS/310 of 17th May, 1945, the Ministry of Marine have been approached regarding the availability of cement in Sicily and Sardinia and the position would appear to be as follows :-

SICILY.

(a) All requirements for Sicily might be met from Villafranca's cement works, provided the necessary supplies of coal were forthcoming and the present inadequate supply of electricity augmented.

SARDINIA.

(b) In Sardinia, the requirements could be met from local sources.

3. It is understood that orders are being given by the Ministry of Marine to Italian authorities concerned in both Sicily and Sardinia to contact local Allied authorities regarding the difficulties at present being encountered in obtaining cement supplies.

Subject: Cement.

Reference your letter NSC/2495 of 26 May '45.

1. As asked, we bring to your notice, the following facts :-

- a) For Sicily the whole need might be furnished by Villafranca's Cement works only in the case that it might be possible to obtain the necessary supply of coal, besides, it would be necessary to overcome the difficulties caused by the insufficient electrical energy.
- b) For Sardinia the cement is obtainable from the local sources.

2. Orders will be given for the Royal Italian Navy in Sicily and Sardinia to contact the Allied Authorities in the above Islands in order to remove the difficulties regarding the obtaining of Supply cement from local Sources.

17th May, 1945.

1. At the meeting of Engineering Materials Committee held on 16th May 45 you demanded 3700 tons Cement for the Italian Navy.

2. Your representative gave the places where the Cement is required as follows:-

TARANTO	1900 tons
BRINDISI	600 "
NAPLES	700 "
MESSINA	200 "
CAGLIARI	100 "
LA MADDALENA	100 "
ROME	<u>100 "</u>
	3700 tons

3. It has been arranged that this will be supplied from the following Works:-

Monopoli	2500 tons	(to cover TARANTO & BRINDISI, as the Cement Works at TARANTO are not producing at present)
Bagnoli	700 tons	(to cover NAPLES)
Guidonia	<u>100 tons</u>	(to cover ROME)
	3300 tons	

4. Regarding the lots for MESSINA, CAGLIARI, and LA MADDALENA, although there is no definite information here it is thought that the Cement should be available in SICILY and SARDINIA respectively, and it is suggested that you advise the Italian Navy to obtain there. Kindly advise the result of this.

5. Release Notes for the 3300 tons allocated to the Mainland will reach you shortly, but meanwhile it was thought best to give you the

BRINDISI	600	"
NAPLES	700	"
MESSINA	200	"
CAGLIARI	100	"
LA MADDALENA	100	"
ROME	100	"
	<u>3700</u>	tons

3. It has been arranged that this will be supplied from the following Works:-

Monopoli	2500 tons	(to cover TARANTO & BRINDISI, as the Cement Works at TARANTO are not producing at present)
Bagnoli	700 tons	(to cover NAPLES)
Guidonia	<u>100</u> tons	(to cover ROME)
	<u>3300</u> tons	

4. Regarding the lots for MESSINA, CAGLIARI, and LA MADDALENA, although there is no definite information here it is thought that the Cement should be available in SICILY and SARDINIA respectively, and it is suggested that you advise the Italian Navy to obtain there. Kindly advise the result of this.

5133

5. Release Notes for the 3300 tons allocated to the Mainland will reach you shortly, but meanwhile it was thought best to give you the names of the Works which will supply, so that the necessary bids can be made for rail movement.

7 July 1945.

From: Navy Sub-Commission, Hq. Allied Commission.
To : Industry Sub-Commission, Hq. Allied Commission.
Subject: Allocation of Locally Produced Controlled Materials for Merchant Navy. FILE

1. A request has been received from the Ministry of Marine concerning the procedure to be adopted for obtaining "controlled" materials for shipyards working for the Italian Merchant Marine.

2. Although the operational control of the Italian Merchant Navy is, under present circumstances, an allied naval responsibility, it is considered that the supply of controlled materials to private shipyards working potentially for the Italian Merchant Marine does not constitute a naval commitment and it is therefore proposed to reply in the following terms:-

"Demands for controlled materials for shipyards working for the Italian Merchant Marine, should be forwarded through the Ministry of Industry, Commerce and Labour to the Industry Sub-Commission, Hq. Allied Commission and not through the Navy Sub-Commission.

Demands for non controlled items should, of course, continue to be met by either contract with the manufacturer concerned or by local purchase."

3. It is requested that the Industry Sub-Commission will forward remarks on paragraph two above.

(Sgd) J. R. S. HAINES
for ADMIRAL

HEADQUARTERS ALLIED COMMISSION
Navy Sub Commission APO 394MSC/2762.
6th July, 1945.

From: Navy Sub Commission, Hq., Allied Commission.
To: The Ministry of Marine, Rome.

Subject: Supply of Civil Engineering and Building Materials for use by the Ministry of Marine on works for the Italian Royal Navy.

With reference to paragraph 2 of Commander-in-Chief, Mediterranean Station's letter No. Med. 45/954/3/4 of the 1st June, 1945, forwarded under cover of Navy Sub Commission letter No. MSC/2617 of the 11th June, 1945, it is now considered desirable to effect arrangements whereby the requirements of restricted or controlled materials for works undertaken by the Royal Italian Navy during the period 1st June to 31st December, 1945, may be reviewed.

2. It is requested therefore that the enclosed forms may be despatched to the respective Senior Italian Naval Officer at all ports under Italian control, requesting them to render a completed form for each projected work, both new construction and maintenance, which they anticipate will be undertaken during the above named period. Completed forms should be returned as soon as possible through the Ministry of Marine to the Navy Sub Commission who will attempt to obtain the release of the necessary materials where possible.

3. On receipt, however, of the schedule from the Ministry of Marine showing the estimated total of controlled items required for works in all Italian ports, it is intended to commence bidding for the release of such materials in advance of the return of the various forms, so that urgent requirements can be met without undue delay.

4. It will be appreciated that the above system can only apply to works undertaken under the provisions of paragraph 2 of Commander-in-Chief, Mediterranean Station's letter No. Med. 45/954/3/4 of the 1st June, 1945.

The Senior Naval Officer, Eastern Sicily
The Commodore Superintendent, Taranto
The Naval Officers in Charge, Taranto, Ancona, Venice, Trieste,
Naples, Leghorn, Genoa.)

SUPPLY OF CIVIL ENGINEERING AND BUILDING MATERIALS FOR USE BY
MINISTRY OF MARINE AND GENIO MARINA ON WORKS FOR THE ROYAL
ITALIAN NAVY

With reference to your NM/22/1 of 4th May, 1945 (not to all) it is regretted that the Royal Navy cannot accept any of the responsibilities envisaged in paragraph 2 of your letter either through the Commander-in-Chief, Mediterranean, Flag Officers or local Officers in Charge of Works, since they would involve placing upon the Royal Navy Civil Engineering Department a constantly increasing amount of work in connection with schemes for the Royal Italian Navy coincident with reduction and ultimate complete withdrawal of Royal Navy Works staff.

2. Responsibility for obtaining stores for works being executed by Genio Marina and the Ministry of Marine for the Royal Navy and the Royal Italian Navy is defined as follows:-

(1) Royal Navy will arrange through existing channels for supply of requirements on all works under the supervision of an R.N. Officer in Charge of Works whether they are actually being executed by the Royal Navy or by GENIO MARINA.

(2) GENIO MARINA and the MINISTRY OF MARINE will be responsible for arranging (through the Navy Sub-Commission in the case of restricted or controlled materials) for supply of requirements on all works not under the supervision of an R.N. Officer in Charge of

5195

Page 2 of the Commander-in-Chief, Mediterranean's Med. 45/954/3/4 of
1st June, 1945.

Since supplies as paragraph 2 (ii) are for works executed on behalf of the Italian authorities, it follows that such works would be classed as maintenance or approved re-habilitation, and bids placed with the Allied Force Local Resources (Italian) Board should be described accordingly so that they may be given the appropriate priority.

4. In the case of uncontrolled items, it is the responsibility of the Ministry of Marine to make their own arrangements for procurement of supplies.

5. It is requested that you bring the above procedure to the notice of the Ministry of Marine for GENIO MARINA. R.N. Officers in Charge of Works are being informed accordingly.

Subject: Supply of Building Materials to the Italian Ministry of Marine.

The Ministry of Marine have recently made requests for the supply of small quantities of building materials for various purposes and attempts are being made to meet these requirements by arrangements with Naval or Army Authorities in the vicinity of the place at which work is to be undertaken.

2. It is, however, likely that Italian demands for building materials will increase and a recognised procedure for handling these requests would appear desirable. It is suggested, therefore, that the Ministry's requirements, together with an explanation of the purpose for which materials are necessary, be forwarded to The Flag Officer Taranto, Adriatic and Liaison, Italy, or Flag Officer, Northern Area, Mediterranean for examination and action by the Officers in Charge of Works on their respective Staffs. Alternatively it may be considered desirable that arrangements for supplies be centralised in the office of The Commander-in-Chief, Mediterranean Station. Instructions are requested.

 To : N.S.C. - Rome
 Date: 6 ~~Aug~~ 1945
 Ref.: SM.16125

Subject: Materials for repairs to the cruiser
"MONTECUCCOLI".

1. The repair and maintenance work which is being carried out now on the Cruiser "Montecuccoli" in the Taranto Dockyard, is proceeding slowly and with difficulty owing to the lack of necessary materials, and above all of Burgman (card-) board and of asbestos. The Dockyard has no stock of either of these, which are supplied in very small quantities by the Allied Authorities locally, there being practically none on the Italian market.

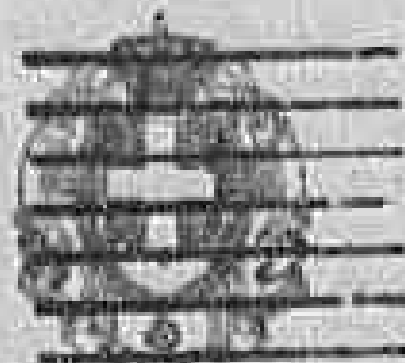

2. If this material is not obtained, there will be great difficulties in completing the repairs to this cruiser and the present small supply will lead to long delays in the repair not only of the "Montecuccoli", but also of all these vessels which are known to be busily employed both for Allied needs and for the imperative transport of refugees and military personnel which cannot be deferred. Therefore, it is requested that you will examine the possibility of making a larger allocation of these materials.

Prot. N. 1615 Allegato

ARGOMENTO: Materiali per lavori Incrociatore "MONTECUCCOLI".-

1. - I lavori di manutenzione e riparazione che l'Incrociatore "MONTECUCCOLI" esegue attualmente nell'Arsenale di Taranto, procedono con grande lentezza e stentatamente a causa della mancanza dei materiali necessari e principalmente del cartone Burman e dell'amianto, dei quali l'Arsenale è completamente sprovvisto, e che vengono forniti in esigue quantità dalle locali Autorità Alleate mentre praticamente non ne esiste sul mercato nazionale.-
2. - In considerazione che non trovandosi tale materiale vi saranno serie difficoltà a portare a termine i lavori dell'Incrociatore e dato che questa scarsità di forniture porterebbe inevitabilmente forti ritardi nell'approntamento non solo del "MONTECUCCOLI" ma di tutte le Unità che sono, come è noto, anche adesso intensamente impiegate, sia per necessità Alleate che per gli indispensabili ed indilazionabili trasporti di militari e profughi, si prega esaminare la possibilità di una maggiore assegnazione dei suddetti materiali.=

Date: 21st December 1945
Ref.: SM/28727

Subject: Utilisation by the Allies of wood set aside for the use of the I.R.N.

1. Reference is made to letter NSC/3499 of 7th September 1945, with further reference to our letter SM/17789 dated 28th August 1945.

2. Having been invited by this Naval Staff to furnish more detailed information concerning the removal from the Serra S. Bruno of a considerable amount of wood belonging to the I.R.N. the Command of the I.R.N. Dockyard at Taranto has advised us as follows :

"On 5th February 1945 Lieutenant BECCHETTI, proceeding on duty in the service of Maricost, discovered that about 1000 cubic metres of fir logs, belonging to the I.R.N. and stored in the area, were being cut into planks by the Allies at the "La Foresta di Serra San Bruno" Sawmills.

The above Officer drew it to the attention of the British Lieutenant, whose name is unknown to him, that this wood belonged to the I.R.N., but he was told that the orders had been given by Major Crawford of No. 3 Det 93 EBM SAEC, whose office was at Crotone.

On 8th February Lieutenant BECCHETTI went to Major Crawford's office at Crotone in order that he might have an explanation of the matter, but as the latter was absent for the moment he did not succeed in obtaining the desired particulars".

ARGOMENTO. Utilizzazione da parte Alleata di legname accantonato per uso della R. Marina.-

1. - Riferimento al foglio NSC/3499 in data 7 Settembre c.a. e prosecuzione foglio SM/17789 in data 28 Agosto 1945 di questo Maristat.
2. - Il Comando Arsenale di Taranto invitato da questo Maristat a fornire più dettagliati ragguagli circa il noto prelevamento in località Serra S. Bruno di un considerevole quantitativo di legname di proprietà della R. Marina, ha riferito quanto segue:

- " Il 5 Febbraio c.a. il tenente Becchetti, in missione di R. Servizio per conto della dipendente Maricost, riscontrava presso la segheria La Foresta di Serra San Bruno, che circa 1000 metri cubi di bordonali di abete, di proprietà della R. Marina e accantonati nella zona, venivano segati in tavole dagli Alleati.

Il predetto Ufficiale fece osservare al tenente inglese, di cui non conosce il nome, che detto materiale era di proprietà della R. Marina, ma gli fu risposto che gli ordini erano stati dati dal maggiore Crawford n° 3 DET 93 BW SAIO dell'Ufficio di Grotone.

Il tenente Becchetti il giorno 8 Febbraio si recava a Grotone all'ufficio del maggiore Crawford per avere schiarimenti in merito, però essendo questo ultimo momentaneamente assente non gli riusciva di ottenere le precisazioni volute. ="

TO:- H.Q., Allied Commission,
Navy Sub-Commission,
A.P.O. 394.

Reference your NSC/1982 dated 30 March 1945, addressed to CC 274 Wks Sec RE, forwarded to this office under reference 253/75 dated 10 Apr 1945.

I have investigated and have to report that 570 metre cube of Travi found in the forest of SERRA SAN BRUNO, was removed by 95 ERA SAEC and utilised in the production of sawn timber for military needs.

The Commune of SERRA SAN BRUNO was paid for the Travi removed, by :-

- (1) FRATELLI FRIGERANO (of Bovalino Marina)
- (2) PATERIOSTRO FRANCESCO fu Domenico (of Normanno Marina)

in partnership, but no payment has been made by this office to the above.
