Reinforced Concrete.

The GHIRA Coy., Rome prior to the Armistice constructed for I.R.N.'s account 37 in N° buoys of 2.50 and 3 mts. and 346 in N° mooring anchors and single-fluke anchors of 400 to 2,000 kgs. in reinforced concrete.

This material is still at the Company's Works and there is a heavy demurrage charge for its storage which impedes the execution of other works.

I.R.N. does not need this material; moreover, in view of the present difficult transport situation, it is impossible to transfer it to other Bases.

Before proceeding to break up said material, we shall be glad to know as soon as possible if Allied Navies are interested in it.

La Ditta GHIRA di Roma ha costruito per ordinazione della Marina, in data anteriore all'armistizio, n°37 boe da mt.2,50 e 3 e n°346 ancore e ancorresse da 400 a 2000 kg. in cemento armato.

I materiali sono tuttora giacenti presso la Ditta che richiede un forte indennizzo giornaliero per la loro giacenza che impedisce l'esecuzione di altri lavori.

La Marina non ha necessità di detti materiali e d'altra parte l'attuale crisi dei trasporti non permette di sposterli in altre sedi.

Prima di procedere alla loro demolizione, si gradirebbe conoscere con cortese urgenza se possono interessare le Marine Alleate. =
