HEADQUARTERS, ALLIED COMMISSION
Navy Sub-Commission APO 394

NSC/3742
10 October 1945.

From: Navy Sub-Commission, Hq. Allied Commission.
To : Ministry of Marine, Rome.

Subject: Cantieri Navali Ruiniti at Palermo - Workers returned from the North.

Reference: (a) Ministry of Marine ltr. B.9826 of 14 August 1945.

1. With regard to reference (a) the Navy Sub-Commission has been informed by the Commandant, U. S. Naval Operating Base, Palermo that it is their policy to employ the civilian force of the Shipyard at Palermo to the maximum extent consistent with efficiency and to make every effort to obtain for the Yard enough work to keep it comfortably loaded. The present civilian working force is composed of generally efficient and faithful men and it is considered that it would be extremely undesirable deliberately to discharge any of them in order to employ the workers mentioned in reference (a).

2. It is regretted, therefore, that it will be impossible to comply with the request of the Ministry of Marine relative to reference (a) unless a considerable increase in the work load for the Shipyard is realized within the near future.

(Sgd) G. L. WEBER

Navy Sub-Comm., Hq. Allied
Comm. ltr. NSC/3352
dated 24 August 1945.

From: Commandant, U.S. Naval Operating Base, Palermo, Sicily.
To: Commander U.S. Naval Forces, Northwest African Waters.

Subject: Cantieri Navali Riunti at Palermo - Workers Returned from the North.

1. Returned.

2. It is the policy of the Commandant to employ the civilian force of the Shipyard at Palermo to the maximum extent consistent with efficiency and to make every effort to obtain for the Yard enough work to keep it comfortably loaded. However, the current situation as regards work load is such that within the next week it will be necessary to layoff approximately fifty (50) civilian employees, and it is anticipated that further layoffs will become necessary.

3. The present civilian working force is composed of generally efficient and faithful men and it is considered that it would be extremely undesirable deliberately to discharge any of them in order to employ the workers mentioned in the basic letter.

4. It is regretted, therefore, that it will be impossible to comply with the request of the Ministry of Marine relative to the employment of these workmen unless a considerable increase in the work load for the Shipyard is realized within the near future.

Enclosure: (A) Translated copy of Ministry of Marine ltr. B.9826 dated 14 August 1945.

1. Enclosure (A) is forwarded herewith for information and any possible action deemed advisable.

2. The above enclosure is a request from the Ministry of Marine that some sort of employment be found for about 120 specialized shipyard workers who were sent by the Ministry of Marine to Northern Italian ports and who, having now returned to Palermo, are unable to maintain their families because of lack of employment. The Ministry of Marine suggests that perhaps they can be used for general repair around the shipyard at Cantieri Navali Ruiniti, Palermo, in work where a minimum quantity of material would be required.

3. The Navy Sub-Commission would like to make reference to NSC/3291, dated 21 August 1945, in order to inquire if the above men could be utilized for the work requested therein.

V

Subject: CANTIERI NAVALI RIUNITI at Palermo - Workers returned from the North.

The Navy Sub Commission has informed us, in letter No.3123 of 2nd August, that it is useless to put forward further requests for the return to the Piaggio Co. of the CANTIERI NAVALI RIUNITI at Palermo, as already proposed.

This Ministry, while accepting of necessity the reasons for which this restitution cannot be effected, is unable to overlook the truly tragic situation of those workers who were sent by the Company at the order of the Ministry, to work in North-Italian ports and who, having now returned to Palermo, are unable to maintain their families because the American Naval Authorities by whom the Shipyard is controlled have stated that they can not employ them.

These variously-specialised workers number about 120. They are experienced and could render considerable services/ one solution would be to authorise repairs to the shipyard for which it has been confirmed to us that only the smallest quantities of materials would be required, already to be found in the Shipyard.

2. It would be appreciated if - in the spirit of collaboration which has inspired the relations between the Allied Navies and the Italian Navy for nearly two years - the N.S.C. would examine favourably the proposals contained in the above paragraph and agree to them if possible.

ARGOMENTO: Cantieri Navali Riuniti di Palermo - operai rientrati dal Nord.

Con il foglio n.3123 in data 2 agosto c.a., codesta N.S.C. ha comunicato che, almeno per ora, è inutile avanzare ulteriori richieste per la già proposta restituzione dei Cantieri Navali Riuniti di Palermo alla Società Piaggio.

Questo Ministero, pur dovendo convenire con i motivi per i quali la richiesta restituzione non può essere concessa, non può però esimersi dal prospettare la situazione veramente tragica di quegli operai che dalla Società, e per ordine del Ministero, furono a suo tempo inviati a lavorare nelle sedi del Nord Italia e che oggi rientrati a Palermo non sanno come provvedere al sostentamento dei familiari e proprio perchè le Autorità Navali Americane che gestiscono i Cantieri hanno dichiarato di non poterne assumerli.

Si tratta di circa 120 lavoratori delle varie specialità, provetti operai e che molto potrebbero rendere: una soluzione potrebbe essere quella di autorizzare i lavori di riparazione del Cantiere per i quali è giunta assicurazione non essere necessari che quantitativi minimi di materiali, esistenti in cantiere.

2°)- Si sarà grati a codesta N.S.C. se, nello spirito di quella collaborazione che da quasi due anni ha presieduto ai rapporti tra le Marine Alleate e la Marina Italiana, la proposta di cui al precedente paragrafo verrà benevolmente esaminata e possibilmente accolta.

TRANSLATION

From: Ministry of Marine
To : Commodore Ziroli, Navy Sub-Commission.
Ref.: 1057/Mv.
Date: 11 August 1945.

Subject: Repair Work to S. S. "Luigi Rizzo".

The S. S. "Luigi Rizzo" of the Soc. Eolia, normally assigned to communications between Milazzo, Lipan and Stromboli, was sunk by active war, was salvaged and it is at present at Messina awaiting repairs to put it back in active service.

The owning company has applied to the Cantieri Navali Ruiniti at palermo for the repairs to be carried out and has received information from the IRI Liaison Office at Palermo that NOB can only accept their request for these repairs in 2 or 3 months time.

It being in the interest of the service that the S. S. "Luigi Rizzo" should be used at the earliest possible time thereby also helping to release for other use the ship at present taking the place of the "Luigi Rizzo", I beg to apply directly to you that you may kindly expend the necessary interest in order, so far as possible, to hasten the commencement of these repairs by the Cantieri Navali Riuniti at palermo.

But thould it not be possible to carry out this work immediately at Palermo, I earnestly beg that you may arrange for their execution by the Defesa Marittima of Messina or at some other shipyard.

I thank you in anticipation of your efforts on behalf of the Sea Transport Service and I should appreciate the honor of an early reply.

FOR THE MINISTER.

From: MINISTRY OF MARINE (Maristat)
To : F.O.L.I. - Rome
Date: 13 June '45
Ref.: SM.11855

Subject: Floating Sheers G.A. 96.

1. Marisardinia has pointed out the urgent need for above pontoon to enter dry-dock or go on the slips as she has not been careened since 1937.

The leaks sprung are getting worse, although stopped-up with cement, and it is feared that she may sustain serious damage.

2. As her size does not allow her to be careened in Sardinia, request you approach Allied Authorities concerned with a view to this pontoon being towed to Naples and dealt with there.

It is pointed out that the floating sheers position is difficult as many have been sunk and there are numerous demands for their services in connection with salvage.

= R O M A =

1. - Marisardegna ha fatto presente l'urgente necessità di provvedere alla immissione in bacino o alaggio su scalo del pontone in argomento, il quale non esegue carenamento dal 1937.

Attualmente si verificano con sempre maggior frequenza delle vie d'acqua, temporaneamente tamponate con cemento, che destano preoccupazioni data la possibilità dell'improvviso verificarsi di gravi avarie.-

2. - Poichè le dimensioni del pontone non consentono il suo alaggio sugli scali della Sardegna, si pregherebbe interessare le competenti Autorità Alleate perchè il pontone in argomento possa essere rimorchiato a Napoli ad eseguirvi i lavori necessari.-

Si fa presente che la situazione dei pontoni bi a è difficile essendone stati affondati moltissimi ed essendo numerose le richieste per i pochi ricupero.=

From: MINISTRY OF MARINE (Maristat)
To : F.O.L.I. - Rome
Date: 5 June '45
Ref.: 8397/O.A.

Subject: Transfer of Ships to Castellammare for repairs.

1. This Maristat has been informed that the Navalmeccanica Works at Castellammare di Stabia have an excess number of workmen who will have to be suspended unless repair work is made available there.

2. In view of the above and to ease the position at Taranto (which is overloaded), we suggest that Cruiser SCIPIONE, a Torpedoboat and a Corvette be sent to Castellammare for repairs.

3. Request F.O.L.I.'s approval to above transfer, and would add that F.O.N.A.N. has expressed his approval to one light Vessel being sent up there.

HEADQUARTERS, ALLIED C[illegible] COMMISSION
Navy Sub-Commission APO 394

NSC/2560
6 June 1945.

From: Navy Sub-Commission, U.K. Allied Commission.
To : Industry Sub-Commission, Allied Commission.

Subject: Machinery and Equipment, British Royal Navy Dockyard Ancona.

Enclosure: (A) List of machine tools and equipment belonging to Cantieri Navali Riuniti Ltd., Ancona and which were evacuated to Northern Italy.

1. Enclosure (A) is a list of machine tools and equipment belonging to Cantieri Navali Riuniti Ltd., Ancona which were evacuated to Northern Italy.

2. As the Cantieri Navali Riuniti Dockyard in Ancona is now under the control of the British Navy, the Allied Naval Commander-in-Chief, Mediterranean has requested the Allied Commission to assist in, and give authority for, the return of the equipment to the Dockyard at Ancona. All of the machinery and equipment listed in enclosure (A) was deposited in various areas of Northern Italy for security during hostilities. Each machine has been dismantled and crated for light and easy shipment. Accurate records are held by the Management of the Cantieri Navali Riuniti, Ancona as proof of ownership. The machines are all of modern manufacture and would be of great assistance in hastening naval repair work.

3. The larger proportion of the machines now in use at Ancona was requisitioned from the Railway Wagon Works at Civitanova Marche, who it is understood have twice made representations to the Allied Commission for the return of their property in order to expedite the rehabilitation of the Italian State Railways. The British Naval Officer-in-Charge, Ancona considers that by the return of the machinery listed in enclosure (A) to Ancona, it will be possible to take favorable action on the request for the return of some equipment for the use of the Italian State Railways. Also, he has stated that if release for this machinery is given, a large proportion can be transported by vehicles now available at the Ancona Dockyard.

TRIPLICATE.

Office of N.O.I.C.,
Navy House, Ancona.

7 Nov. 1945.

Ref.No. 25/573.

THE FLAG OFFICER, TARANTO, ADRIATIC
AND FOR LIAISON, ITALY.

MAINTENANCE AND EQUIPMENT - R. N. DOCKYARD, ANCONA.

The Management of Cantiere Navali Riuniti, Ancona, now under the control of the Royal Navy, have submitted a request that assistance be given them to recover the large amount of valuable machine tools and materials deposited in various areas of Northern Italy for security during the hostilities. Accurate records are held by the firm as proof of ownership. From these it has been possible to assess their value for Royal Naval Dockyard work. The machines are all of modern manufacture and would be of great assistance in the speedy turn round of Naval repair work.

2. The larger proportion of the machines now in use at Ancona were requisitioned from the Railway Repair Works at Civitavova Marche, who, through the Allied Commission at Rome, have twice made representations for the return of their property to expedite the rehabilitation of the Italian State Railways.

3. It is submitted that, by the return of this machinery, two essential Italian industries may be put back into working order again, as well as greatly improving the Naval services.

4. As indicated by the attached list, each machine has been dismantled and crated for light and easy shipment. If the release for this machinery is granted, a large proportion can be transported by the Dockyard vehicles now available.

FLAG OFFICER
TARANTO & MID-ADRIATIC
DATE 15 MAY 1945
No.

Sgd. C.V. Jack

(C.V. Jack),
COMMANDER,
NAVAL OFFICER-IN-CHARGE.

Hull repairs and fitting O.F. Tanks	971	0	0	£ 971	0	0
Installation of Admiralty Pattern Merryweather Boiler with full equipment	943	6	0	£ 943	6	0
TOTAL				£4329	16	4
Cost of towage from Ischia to Naples				150	0	0
GRAND TOTAL				£4479	16	4

2. The sheerlegs was found at Ischia on the occupation of the island by Allied forces in October 1943. It was afloat but in a bad state of repair and it was subsequently towed to Naples and repairs put in hand to make it serviceable for salvage purposes. It was finally requisitioned in this connection.

From: The Base Supply Officer, Leghorn.

Date: 1st. April, 1946.

No. 326/1.

To: Flag Officer Italy Liaison
(Copy to :- Chief Disposal Officer, Rome.

Receipts for Surpluses

The attached receipt for declared surpluses have been obtained from the representative of the Chief Disposal's Officer Rome.

2. The item enumerated are still in situ at the Accademia Navale Leghorn, and have been removed from charge in the Naval Stores Account of R.N. Base Leghorn, by a copy of the receipted S.549. The keys of the store have been handed over to the Chief Disposal's Officer (Italy) representative.

3. Earlier instructions had been received to hand these items over to U N R R A, but, as delay was experienced in the arrival of a representative of U N R R A at Leghorn, the Chief Disposal Officer nominated an Officer of the Regia Marina to sign for and accept the Stores on his behalf.

DISPOSAL OF STORES AT LEGHORN.

The attached declarations of stores for disposal are forwarded in triplicate.

2. It would be appreciated if a very early arrangement could be made to implement transfer, in view of the impending closure of this base.

(signed) S.A. BLACKBURN

for REAR-ADMIRAL.

Enclosures:-
6 lists of stores (3 copies of each to Chief Disposals Officer, 1 copy of each to Navy Sub-Commission.)

Chief Disposals Officer (Italy)
Surplus Stores Division
Ministry of Supply
British Embassy
R O M E
APO-CMF

23rd March, 1946.

Transfer of Stores in Italy through Chief Disposals Officer.

Reference your F.O.L.I. 443/10 dated 16th March, 1946.

It is correct to say that in general UNRRA have top priority in all stores offered for transfer through this Mission. Stores required by the Italian Navy should be obtained through A.R.A.R. (Azienda Rilievo Alienazione Residuati), the Italian agency receiving British surpluses.

A similar enquiry has been made by the M.M.I.A. (Military Mission to the Italian Army) in relation to the Italian Army, and in this connection an M.M.I.A. representative has been attached to G.H.Q. to watch for surpluses being passed to A.R.A.R. so that these can be asked for by the Italian Army.

Colonel

TRANSFER OF STORES IN ITALY THROUGH CHIEF DISPOSALS OFFICER.

It has been brought to my notice that United Nations Relief and Rehabilitation Administration have top priority in all stores offered for transfer through the Disposal Mission, and in view of the fact that it is important, and in some instances essential for the Italian Navy to have first refusal of all stores offered from Royal Naval Bases in Italy, confirmation is requested that arrangements can be made to implement this request.

Signed G. L. W[illegible]RN.

DECLARATION OF SURPLUS NAVAL EQUIPMENT.

With reference to the Commander-in-Chief, Mediterranean's letter No. Med.45/596/18/27 dated 10th December, 1945, the stores enumerated on the enclosed Declaration Forms Ref. Nos. NAPLES/NS/21 to 28 (Inclusive) and supporting Statements are Surplus Naval Equipment.

2. In accordance with Chief Disposal Officer's letter No. 00490 dated 28th December, 1945 (not addressed to Navy Sub Commission), all material has been transferred to the Italian Governmen. for disposal by sale and accepted by them in situ.

3. On each Declaration Statement, receipts have been furnished by Captain Umberto Adolfo of the Royal Italian Navy who was delegated by Ispettore Capo Riviera Alberto of the Italian Government and Ten. Col. Capo Navale D'Adamo Gaetano of the Royal Italian Navy to conduct the transfer negotiations. The batch of forms NAPLES/NS/27 which are not yet formally receipted show stores which are still required by the Royal Navy, but will be turned over on the final closing of the Offices concerned. My letter No. 185/272/2 dated 14th January, 1946 addressed to F.O.L.I. refers.

4. Two copies of each statement have been forwarded for information to Capt. Umberto Adolfo.

Ref.: SM/8730

Subject: Messina - Naval Base

Reference is made to your letter NSC/4504 of 28th January, 1946.

In order that part of the workshops of the former Naval Base at Messina may be kept active in accordance with the desires of the Commander-in-Chief, Mediterranean, it is necessary that when the British Authorities return those workshops to the I.R.N. they should also turn over the materials, tools and in particular at least part of the costly British-owned materials present there, such as copper, bronze, tin and white metal. oakum, rags, paint, packing materials in wrapping and board form, graphite-bearing grease, and similar items.

It is requested, therefore, that the possibility may be examined of releasing the above, with the inclusion of the following :

- No.2 Fiorentini motor cranes (Italian owned)
- No.6 medium capacity lorries, all of the same type, with tyres, spare parts and tools (to be loaned temporarily)
- No.2 motor fire pumps with all relative equipment (hoses, ladders, nozzles, extinguishers, charges etc).

ARGOMENTO Messina - Base Navale.=

Riferimento foglio NSC/4504 del 28 gennaio u.s.-

Per poter mantenere in vita una parte delle officine della soppresse Base Navale di Messina, in armonia con gli intendimenti del Comando in Capo del Mediterraneo, occorrerebbe che all'atto della restituzione delle officine stesse da parte delle Autorità Inglesi fossero ceduti alla Marina Italiana i materiali, gli utensili, e in particolare almeno parte dei materiali pregiati, ivi esistenti di proprietà Britannica, quali rame, bronzo, stagno e metallo bianco, stoppa, stracci, pitture, materiali per guarnizioni in cartoni e baderne, grassi grafitati e simili.

Si prega pertanto esaminare la possibilità di tali cessioni comprendendo in esse:.

- n.2 autogrù Fiorentini (di proprietà italiana);

MATERIALS FOR REPAIR WORK.

With reference to NSC/4147 of 3rd December, 1945 arrangements have already been made for wide ranges of stores to be offerred to the Italian Government through the Chief Disposals Officer ex stocks at Taranto and Naples and the Ministry of Marine should be informed accordingly and instructed to ensure that such stores are allocated to the Italian Royal Navy by the Italian Government.

2. From the list attached to the Ministry of Marine's letter it would still appear that little interest in the development of local resources is being taken by the Ministry as supplies to meet Allied Naval requirements in Italy of certain of the items have until recently been met from Italian resources, e.g. certain M/S material, structurals, canvas, cordage.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

From: MINISTRY OF MARINE (Maristat)
To : F.O.I.L. - Rome and for Info. : N.S.C. - Rome
Date: 7th January 1946 MARIDIPART - Taranto
Ref.: SM.816 MARINARSEN - Taranto

Subject: Cession of surplus at Taranto to Italian Navy.

1. Reference is made to your signal of 29th December 1945 (T.O.O. 291702 A Dec) to the Ministry of Marine, concerning the surplus material from the Taranto Dockyard.

2. In order to simplify the procedure for the transfer of the above material from the British Authorities to the Italian it is suggested that it would be desirable to nominate the Officer in Charge of the Taranto Dockyard and his immediate subordinate as representatives of the Italian Government.

3. The two representatives should have the power to name the trusted Officers chosen by them from among those at Taranto to carry out the practical work of taking charge of the material.

4. This procedure would avoid the incovenience of confusing or suspending the operation of handing-over the material because of the absence of one of the officers designated in the letter of credentials.

5. Should there be no objection on the part of the Navy Sub Commission to the acceptance of the above proposals you are informed that the names of the two representatives to whom the credentials should be issued are :

Rear Admiral	CORREALE	Gaetano
Captain	ROUSELLE	Umberto

for CHIEF OF STAFF.

(Translator's note : Use of word "SURPLUS" suggests that it has not been understood by the Ministry of Marine).

HEADQUARTERS ALLIED COMMISSION
Navy Sub Commission APO 394

N3C/4147.
3rd December, 1945.

FIRST ENDORSEMENT on
Ministry of Marine's letter No.
B.13415 dated 8th November, 1945.

From : Navy Sub Commission, Hq., Allied Commission.
To : Commander-in-Chief, Mediterranean Station.
(Copies to :- Flag Officer Italy and Liaison, Rome.
Captain in Charge, Taranto.
Naval Officer-in-Charge, Naples.)

Subject : Materials for Repair Work.

Forwarded for favourable consideration.

2. While it is fully recognised that Naval Stores from British sources have already been supplied to the Italian Navy, it is considered that any Naval stores, found surplus to Royal Navy requirements on the withdrawal of British technical staffs at Taranto and Naples, which are turned over to the Italian Navy, would serve a useful purpose and would be very much appreciated by the Italian Ministry of Marine.

3. Should the proposal in Minute 1 meet with the Commander-in-Chief, Mediterranean Station's approval, therefore, it is suggested that arrangements for turn-over be made between the British and Italian Navy technical officers concerned at these ports, and that a report of all the items thus turned over be submitted to the Naval Store Officer, Taranto for accounting action in accordance with A.F.O. 1047/44.

6 DEC 1945

(Sgd) C. L. WARREN
REAR ADMIRAL,
CHIEF, NAVY SUB COMMISSION,
FOR CHIEF COMMISSIONER.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

From: MINISTRY OF MARINE (Cabinet)
To : N.S.C. - H.Q. - A.C.
Date: 8th November 1945
Ref.: R.13415

Subject: Materials for Repair Work.

Reference is made to F.C.I.L.'s letter No.486/2 of 8th October 1945.

With the imminent departure of the Allied Authorities from the Taranto Arsenal and from the principal Italian ship-repair yards, the I.R.N. will find itself in serious difficulties in the coming months with regard to the execution of work upon Naval vessels.

While this work has presented no serious difficulty hitherto, in view of the existence of reserves of materials and the aid of equipment and machines supplied by the Allies, for the future the only source of supply would be the national market, from which the available supplies are very much reduced - and in the case of certain materials non-existent.

In view of the requirements for work in the coming months, this Ministry has prepared a list of indispensable materials which it is proposed the Allies should leave in Italian custody at the time of their departure; quantities have not been defined since they depend upon the amounts available in store.

Should the Navy Sub Commission agree in the necessity to effect the release of these materials the detailed agreements can be reached between the local technical offices of the respective navies.

Prot. N° B. 13415 Allegati

Roma, - 8 NOV. 1945

Al NAVY SUB-COMMISSION
HEADQUARTERS, A.C.

ARGOMENTO: Materiali per lavori di riparazione.-

Riferimento foglio n.486/2 in data 8 ottobre 1945 del F.O.I.L.-

Con l'imminente partenza dall'Arsenale di Taranto e dai principali cantieri di raddobbo italiani delle Autorità Alleate, la R.Marina Italiana verrà a trovarsi nei prossimi mesi in serie difficoltà per l'esecuzione di lavori alle unità navali.

Mentre per adesso detti lavori non hanno presentato grandi difficoltà data l'esistenza di scorte di materiali e l'ausilio di attrezzature e macchinari fornite dagli Alleati, per l'avvenire la sola fonte di rifornimento sarebbe il mercato nazionale le cui disponibilità sono ridottissime, e, per certi materiali, nulle.

In vista delle esigenze di lavoro dei prossimi mesi, questo Ministero ha preparato un elenco di materiali indispensabili che si proporrebbe fossero lasciati dagli Alleati nei magazzini italiani, all'atto della loro partenza; non sono state precisate quantità poichè esse dipendono dalle disponibilità dei magazzini.

Qualora codesta N.S.C. convenisse sull'opportunità di dar corso alla cessione di tali materiali, gli accordi di dettaglio potranno essere presi localmente dagli Organi Tecnici
