NAVAL MESSAGE

TO ADMIRALTY (R) CINC MED,COMNAVMED,COMNAVEU,FOLI,NOIC TRIESTE.
FROM BAD WASHINGTON.

Restricted.

Admtymessage 031610 and CinC Med's 061246(Neither to all). The position is as stated in OFLC letter of January 6th,1947 copy of which was forwarded to Treasury and list of which is contained in BAD's 072131 Jantary(to Admty only). Under this arrangement BYMS in the Mediterranean would be disposed of by OFLC either by local sale(vessels to be offered for sale promptly) or failing this by abandonment to the U.K. authorities???. The Question of sailing them to USA would thus not arise. This has been pointed out to Navy Department and discussions with them and OFLC are continuing in order to confirm beyond doubt that all concerned agree that there is no question of returning vessels to USA and also with the object of expediting completion of negotiations regarding BYMS at the Med. Further developments will be reported by signal.

ADMTY INFO FOLI B.A.D. NOIC TRIESTE FROM...CINC MED.

RESTRICTED DEFERRED.

A.M. 051610. Request was contained in COMNAVMED's 020725/Dec: that twelve BYMS should be kept at Trieste until result of sale negotiations were known. This was complied with although BYMS would have otherwise sailed for Malta to pay-off about 4th: December.

2. COMNAVMED's 040222/Dec: stated that location of craft at Trieste or Malta immaterial, but few days only required for completion of sale negotiation. BYMS were therefore left at Trieste and crews reduced.

3. NSC later requested through FOLI that BYMS be sailed to Venice for inspection to expedite completion of negotiation, FOLI 281127A/Dec: refers. This was done but inspection did not start until early January and included dry-docking and steaming trials. On arrival at Venice crews were further reduced to meet other commitments.

4. Inspection and negotiations have been protracted, and in CINCMED's 251558A/Jan: COMNAVMED was requested to arrange for Italians to take over custody of BYMS as it would be necessary to withdraw remaining 54 British Naval ratings about 7th: February.

5. It is now understood that Italians are not (R) not buying these BYMS but are hoping to borrow them.

6. It would be difficult to storm BYMS from Venice to Malta, now more than two steaming crews being available. BYMS are not fit for Winter Atlantic crossing. Considerable refitting work would be necessary to make them fit for even the Summer crossing, and crews could not be provided from Station resources.

7. Signals quoted not to all.

Date: 31st October 1946
Ref.: 52564

Subject: Supply of separators for electric accumulators on ex British minesweepers

Further to our letter 48272 dated 6th October 1946.

As, from information received, it appears that the material requested will not reach Italy before next March, and in consideration of the further period of time necessary for the execution of the work to return the MMS's batteries into a state of efficiency, it is considered that the material in question would only serve a useful purpose when, according to the estimates, the magnetic mines will already have been rendered safe.

It is therefore requested that you should consider our application in the above letter cancelled.

ARGOMENTO: Fornitura di separatori per accumulatori elettrici dei dragamine ex britannici.

Prosecuzione dp.48272 del 6 ottobre 1945.

Poichè dalle informazioni assunte risulta che il materiale richiesto non potrà giungere in Italia prima del marzo prossimo, e tenuto conto dell'ulteriore periodo di tempo per l'esecuzione dei lavori da farsi dopo tale data allo scopo di rimettere in efficienza le batterie degli MMs, si ritiene che il materiale in oggetto avrebbe utile impiego press'a poco quando, secondo le previsioni, le mine magnetiche posate saranno già inattive.

Si prega pertanto ritenere nullo quanto richiesto col foglio citato.

Ref.: 48272

Subject: Supply of separators for electric accumulators on ex-British minesweepers

For the repair of the electric accumulators on the MMSs. ceded by the British Navy to Italian Navy, it is necessary to change a certain number of wooden separators.

As the Italian industry is not in a position to supply them because of lack of raw materials, it would be appreciated if the cession on payment would be possible from this Authority, of 14.000 wood separators.

This number would enable the damaged separators of 3 MMS to be repaired, and a reserve of spares for future necessities to be maintained.

Subject : Minesweeping stores for ex-British M.M.S.

With reference to paragraph 1 of Navy Sub Commission's letter N30/4809 dated 28th March, 1946, after an exchange of correspondence, confirmation has now been received from the Naval Officer-in-Charge, Trieste that the L.L. and S.A. minesweeping stores in question were dispatched to Venice by road on 14th April 1946, in cases marked TNST/167/1-2, and that the receipts are still awaited.

2. It would be appreciated, therefore, if the Italian Naval Authorities at Venice could be asked to expedite the forwarding of the completed receipts to Naval Officer-in-Charge, Trieste, through the Resident Naval Officer, Venice.

To : Naval Officer-in-Charge, Trieste.
(Copy to: Resident Naval Officer, Venice.)

Subject : Magnetic and Acoustic Dredging Material.

With reference to your letter No. 7954/170 dated 17th May 1946, there appears to be a misunderstanding regarding the nature of the material in question due to a translator's error. The material referred to, is "minesweeping" and NOT "dredging" material, and it is requested that all reference to "dredging material" be amended accordingly.

2. The stores referred to in the Italian Navy Command, Venice's letter dated 30th April 1946, are the LL/3A minesweeping stores detailed in the enclosure to the Commander-in-Chief, Mediterranean's letter Med. 46/520/B/1A dated 19th March 1946, and the Navy Sub Commission's Minute II thereon, N30/4810 dated 27th March, 1946, neither to the Resident Naval Officer Venice, in which the supply and despatch of LL/3A minesweeping stores to the Italian Royal Navy Base, Venice, is requested. The Commander-in-Chief, Mediterranean's letter Med. 46/517/2/3 dated 10th April 1946 not to the Resident Naval Officer, Venice, also refers.

3. In this connection, information is requested as to when details of despatch requested in paragraph 1 of Navy Sub Commission's letter under reference may be expected.

4383

HEADQUARTERS ALLIED COMMISSION
Navy Sub Commission APO 394.

NSC/4809.
28th March, 1946.

From : Navy Sub Commission, Hq., Allied Commission.
To : Ministry of Marine, Rome.

Subject: L.L. and S.A. Stores for Motor Mine Sweepers being transferred.

Enclosure (A) : List of Mine Sweeping stores to be dispatched to Venice, by Naval Officer-in-Charge, Trieste.

Enclosure (B) : List of Mine Sweeping stores expected shortly in Malta to be shipped to Italy when received.

H
24/3

With reference to paragraph 2 of my signal timed 2811Z March, 1946, the stores detailed in enclosure (A) are being dispatched by the Naval Officer-in-Charge, Trieste to Venice, consigned to the Commanding Officer, Italian Royal Navy Base, Venice, and it is requested that arrangements for discharge and onward routeing, if necessary, be made accordingly. Details, regarding their dispatch and expected date of arrival at Venice, will be communicated when received.

2. The stores shown in enclosure (B) are not at present available for supply from Malta. They are however, expected in Malta shortly, and will be shipped to Italy as soon as received. Details of shipment will be communicated at a later date.

3. With regard to the remaining items detailed in the enclosure to Navy Sub Commission's letter, NSC/4565 dated 6th February, 1946, it is regretted that they are not now available for transfer to the Italian Royal Navy, from Royal Navy resources in the Mediterranean. In the event therefore that these stores are required by the Ministry of Marine, it is suggested that they be obtained from Italian indigenous sources or otherwise that they be demanded by the Ministry of Marine in the Italian Government's overall import programme.

MTE NAVY SUB-COMMISSION
(Copies to:-
The Captain Minesweeping, Mediterranean
The Commodore Superintendent Malta (without enclosure))
(Minute II No. DAC 49/5/23 of 2nd March, 1946.)

Forwarded for information with reference to Med. 46/520/8/1 dated 18th January.

2. As regards the items not available from Malta, a copy is attached of Med.46/520/8/1A of 19th March, 1946, to the Naval Officer-in-Charge, Trieste giving instructions for the transfer from stocks at that base of certain items, and it is requested that you will arrange direct with the Naval Officer-in-Charge, Trieste for the transfer of these stores to the Royal Italian Navy.

3. The remaining items detailed in Column C of the schedule to the Captain Minesweeping's letter No. 1861 X/99/2 dated 8th January are not available for transfer from R.N. Station resources and, it is suggested, should be demanded if required by the Ministry of Marine in the Italian Government's overall import programme.

HEADQUARTERS ALLIED COMMISSION
Navy Sub Commission APO 394.

NSC/4565.
6th February, 1946.

From : Navy Sub Commission, Hq., Allied Commission.
To : Ministry of Marine, Rome.

Subject: Minesweeping Stores for Italian Royal Navy.

Further to Navy Sub Commission letter NSC/4402 dated 10th January, 1946, the Commander-in-Chief, Mediterranean Station has approved the despatch from Malta to the Italian Royal Navy, Naples, of the minesweeping stores shown in the enclosures hereto.

2. It is requested that arrangements be made to take these stores over on their arrival at Naples. Further details regarding their shipment and expected date of arrival at Naples will be forwarded to the Ministry of Marine when received.

9 FEB 1946

G. F. MENTZ,
CAPTAIN, U. S. NAVY,
FOR REAR ADMIRAL,
CHIEF, NAVY SUB COMMISSION.

Enclosure:- List of Minesweeping Stores.

MINESWEEPING STORES FOR ROYAL ITALIAN NAVY.

1. It is requested that items shown in Column C of the enclosures to the Captain M/S Mediterranean's letter No. 1861/95/2 of the 8th January, 1946 (copy without enclosures attached for Commodore Superintendent Malta, copies already sent to other addressees) may be forwarded to Naples for the Royal Italian Navy and that Navy Sub Commission will arrange for the stores to be taken over.

2. Details of any items which cannot be spared from Malta stocks should be reported.

Peter Cazalet

for ADMIRAL

SUBJECT: "LL" AND "SA" STORES (FOR MOTOR MINESWEEPERS TRANSFERRING).

FROM: THE CAPTAIN, MINESWEEPING, MEDITERRANEAN.

DATE: 8th January, 1946.

No.1861/95/2.

TO: THE COMMANDER-IN-CHIEF, MEDITERRANEAN.
(Copy to:-
The Flag Officer, Italy and Liaison.
The Superintending Naval Store Officer, Malta.
The Naval Officer-in-Charge, Naples.
The Navy Sub. Commission, Allied Commission, Rome.)—

Further to my letter No.1763X/95/2, dated 11th December, 1945, the attached schedule of "LL" and "SA" Stores is proposed for transfer to the Italian Navy. These will make, with those stores already transferring in accordance with Commander-in-Chief, Mediterranean's 2916/21A a complete initial supply which is intended to enable 16 Motor Minesweepers to operate from two bases for a period of at least six months.

2. The attached schedule gives the following information:-

Column "A". Allowance under relevant C.A.F.C. for a base operating 16 Motor Minesweepers.

"B". Proposed initial supply.

"C". Quantities which remain to be supplied.

3. If the transfer of these additional stores is approved it is requested that the Superintending Naval Store Officer Malta may be asked to supply in accordance with Column "C" of the appended schedule. Where insufficient stocks are held at Malta it is suggested that the Naval Officer-in-Charge Trieste should be asked to supply from the considerable quantities held by that base.

R.L.V. Ross,
C.B.E.

CAPTAIN R.N.

Enclosure:

Declassified E.O. 12065 Section 3-402/NNDC No. 185020

Italian Navy. These will make, with those stores already transferring in accordance with Commander-in-Chief, Mediterranean's 291621A a complete initial supply which is intended to enable 16 Motor Minesweepers to operate from two bases for a period of at least six months.

2. The attached schedule gives the following information:-

Column "A". Allowance under relevant C.A.F.O. for a base operating 16 Motor Minesweepers.

"B". Proposed initial supply.

"C". Quantities which remain to be supplied.

3. REFERENCE SHEET.

From :

(Suptg) Naval Store Officer,
H.M.Dockyard,

MALTA.

To :

B.N.L.O.
H.M.S. LAGGARIS

The Supply Notes detailed overleaf are forwarded for Naval Store accounting purposes.

It is requested that the receipt may be completed and the form returned to this office at the earliest possible date.

When "supply notes" are received in the ship, they are to be compared with the corresponding "advance notes", and in the event of the descriptions or quantities not being in agreement, the matter is to be reported immediately (R.N.R., Article 12, para 3). If from any other cause a receipt cannot be given within 21 days, it is requested that the facts may be communicated hereon, accompanied, if necessary, by the pertinent vouchers and documents.

It is essential before reporting non-receipt of rail-borne freight that all possible enquiry of the Railway Authorities at the receiving end should be instituted. In case of damage or loss the report should state whether the containing package was received in good order and condition externally.

(Sgd) G.P.A. Weston.
(Suptg) Naval Store Officer.

HEADQUARTERS ALLIED COMMISSION
Navy Sub Commission APO 394.

NSC/4402.
10th January, 1946.

From : Navy Sub Commission, HQ., Allied Commission.
To : Ministry of Marine, Rome.

Subject : "LL" and "SA" stores held at Naples for transfer to Italian Navy.

The Ministry of Marine is informed that the Commander-in-Chief, Mediterranean Station, has approved the transfer to the Italian Royal Navy of an initial supply of British "LL" and "SA" stores, in order to ensure the operation, as "LL" and "SA" sweepers, of the 4 Motor Minesweepers turned over to the Italian Navy at Naples.

2. The stores in question will be made available by the British Naval Store Officer at Naples, and necessary action will be taken by the Naval Officer-in-Charge, Naples, to effect this transfer to the Italian Royal Navy through the agency of the Chief Disposals Officer, Rome.

TO: THE COMMANDER-IN-CHIEF, MEDITERRANEAN.
(Copy to:-
The Naval Officer-in-Charge, Naples.
The Flag Officer, Italy and Liaison.
The Superintending Naval Store Officer, Malta.
(Letter only.))

In order to operate the Motor Minesweepers, transferred to them as "LL" and "MS" vessels, the Italian Navy will require an initial supply of "LL" and "MS" stores.

It is considered that the LL/MS stores at present held by the Naval Store Officer, Naples could form the nucleus of such a supply, and be transferred simultaneously with the 4 Motor Minesweepers at Naples.

Items in excess of requirements and not required for the ships transferred will be returned to the Superintending Naval Store Officer Malta.

2. A complete schedule of LL/MS stores which it is considered will be required by the Italians and to make this initial transfer into a complete outfit will be submitted shortly.

3. If approval is given it is requested that instructions may be given for the items contained in the attached lists (S.331) to be transferred to the Italian Navy, with the exception of those marked for return to Malta.

4. Replacements thereafter should presumably be demanded in bulk every 6 months direct on Admiralty after screening by the Commander-in-Chief.

Office of the Flag Officer,
Italy and Liaison,
ROME.

4th February, 1946.

No: F.O.I.L. 671/1.

MINISTRY OF MARINE, ROME.
(Copy to: Navy Sub-Commission,
H.Q., Allied Commission).

TRANSFER ON LOAN OF MINESWEEPERS TO THE ITALIAN ROYAL NAVY.

The Commander-in-Chief, Mediterranean Station, has communicated that before the Minesweepers being transferred on loan are handed over, the following procedure will be carried out:-

(a) a joint survey will be made at the port of transfer and a report signed by a representative of the Royal Navy and the Italian Royal Navy, stating therein the agreed condition of the minesweeper at the time of the transfer. This survey will include an examination of (i) Hull, (ii) Rigging and deck fittings, (iii) W/T equipment, (iv) Machinery, (v) LL battery, (vi) Buoyant cable.

(b) The vessles will be handed over in all respects complete with fuel and normal stocks of naval, medical, and victualling stores, but without armament or armament stores.

(c) A joint muster of stores, spares, minesweeping stores and ships fittings will be made and redeipt and supply notes exchanged on all lists of items.

(d) On receipt of the documents referred to in (a) and (c) a receipt will be obtained from the Italian Officer taking over the minesweeper stating acceptance on the condition agreed and all documents forwarded to the Commander-in-Chief, Mediterranean Station.

2. It is intended that the minesweepers should be handed over in minesweeping operational condition complete with sufficient minesweeping stores and spares to enable them to commence operations

Admiralty F.O. 12065 Section 3-402/RNEC No. 185020

The Commander-in-Chief, Mediterranean Station, has communicated that before the Minesweepers being transferred on loan are handed over, the following procedure will be carried out:-

(a) a joint survey will be made at the port of transfer and a report signed by a representative of the Royal Navy and the Italian Royal Navy, stating therein the agreed condition of the minesweeper at the time of the transfer. This survey will include an examination of (i) Hull, (ii) Rigging and deck fittings, (iii) W/T equipment, (iv) Machinery, (v) LL battery, (vi) Buoyant cable.

(b) The vessels will be handed over in all respects complete with fuel and normal stocks of naval, medical, and victualling stores, but without armament or armament stores.

(c) A joint muster of stores, spares, minesweeping stores and ships fittings will be made and receipt and supply notes exchanged on all lists of items.

(d) On receipt of the documents referred to in (a) and (c) a receipt will be obtained from the Italian Officer taking over the minesweeper stating acceptance on the condition agreed and all documents forwarded to the Commander-in-Chief, Mediterranean Station.

2. It is intended that the minesweepers should be handed over in minesweeping operational condition complete with sufficient minesweeping stores and spares to enable them to commence operations without delay.

3. Replenishments of stores, spare gear and equipment will be the responsibility of the Italian Government and should be effected through the country's overall import programme, except in so far as supplies are permitted under existing arrangements. Demands for Minesweeping Stores should be forwarded to the Mediterranean Zone Mine Clearance Board in the first instance.

No. 3496/Med.45/00235/5
THE SECRETARY OF THE ADMIRALTY

POST WAR MINESWEEPING.

In continuation of my submission No. 2377/Med.45/0020/10, dated 26th May 1945, be pleased to lay before Their Lordships the following remarks on Post War Mine Clearance with special reference to the future employment of Trawlers and Motor Minesweepers in the Mediterranean.

2. At the present rate of progress it is anticipated that the essential main traffic routes and the approaches to important ports in the Mediterranean will be cleared of mines by the end of this year. This includes the minefields surrounding Malta, but does not include the Skerki Channel and the minefields between Sicily and Cap Bon.

3. It will then remain for the numerous minefields covering the fishing grounds, coastal routes and approaches to small ports to be cleared. This task can conveniently be divided broadly into six areas:

(i)	Gibraltar and Casablanca The South of France and Corsica (Admiral Mediterranee, Algiers)	Western Mediterranean
(ii)	The West Coast of Italy and Sardinia.	Central Mediterranean
(iii)	The East Coast of Italy and the Adriatic Sea	
(iv)	The Skerki Channel, Sicily, and the Minefields between Sicily and Tunisian Coast	
(v)	The Aegean Sea and West Coast of Greece	Eastern Mediterranean
(vi)	The coasts of Libya and Egypt	

4. To clear these areas expeditiously it is desirable that the number of ships at present employed in these areas (shown in Appendix "A") should not be appreciably reduced but, in order to save British Manpower, it is considered that some of these minesweepers should be manned and maintained by other nations.

Declassified E.O. 12065 Section 3-402/NNDC No. 183020

Cap Bon.

3. It will then remain for the numerous minefields covering the fishing grounds, coastal routes and approaches to small ports to be cleared. This task can conveniently be divided broadly into six areas:

(i)	Gibraltar and Casablanca The South of France and Corsica (Admiral Mediterranee, Algiers)	Western Mediterranean
(ii)	The West Coast of Italy and Sardinia.	Central Mediterranean
(iii)	The East Coast of Italy and the Adriatic Sea	
(iv)	The Skerki Channel, Sicily, and the Minefields between Sicily and Tunisian Coast	
(v)	The Aegean Sea and West Coast of Greece	Eastern Mediterranean
(vi)	The coasts of Libya and Egypt	

4. To clear these areas expeditiously it is desirable that the number of ships at present employed in these areas (shown in Appendix "A") should not be appreciably reduced but, in order to save British Manpower, it is considered that some of these minesweepers should be manned and maintained by other nations.

5. It is therefore suggested that action be taken to arrange for the transfer to the Royal Hellenic Navy and Italian Royal Navy of a total of twenty-four Admiralty Isles Class trawlers and twenty-four motor minesweepers in order that they may have ships with which to clear the less important minefields on their own coasts. The ships would be required for this purpose for about two years.

6. The minesweeping forces at present manned by the Greeks consists of six Greek Yard Minesweepers and six Motor Launches. It is suggested that these forces should be increased by the addition of eight trawlers, two Motor Launches and eight Motor Minesweepers. It will be noted that the transfer of six trawlers (with a possibility of a larger number) and the two Motor Launches was advocated in paragraphs 6 and 7 of submission No. 3109/Med.45/0065/4 of 9.7.45

The ships would be required for service under the Greek Navy as early as possible and not later than 1.3.46 in order to permit the release of R.N.P.S. Ratings by 1.4.46.

Declassified E.O. 12065 Section 3-402/NNBC No. 785020

POST WAR MINESWEEPING
(Commander in Chief Mediterranean's No. 2496/Med.45/00235/5 dated 3rd August 1945).

-two-

7. The Italian minesweeping forces at present consist of eight Minesweepers fitted with Divergenti (Italian form of Oropesa), nine V.A.S. Boats fitted with German S.D.4 and approximately forty fishing vessels fitted with 'B' type sweep (British 'A' sweep in 'B' formation, but employing hemp rope instead of sweep wire).

A further twelve Divergenti and four V.A.S. boats are in course of preparation.

Endeavour is being male by the Italian Royal Navy to fit out one of twelve estcort Corvettes with German S.D.4 equipment, but it is felt that this will meet with little success, owing to the difficulties in operating the gear without a suitable winch. For this reason a proposal to supply them with Oropesa Mark II star equipment was also rejected. The Italian Poyal Navy have no means of sweeping ground mines.

8. It is quite obvious that the Italian Poyal Navy, therefore, can only take a small part in the clearance of the fifty thousand odd mines around their coast unless they have the ships and equipment to do it. Until these minefields are cleared, restrictions in fishing and local movements of shipping will continue to threaten the livelihood of the population.

9. The minefields around the Italian coast, particularly North of Leghorn on the West coast, and North of Ancona on the East coast consist largely of a mixture of moored and ground magnetic and acoustic mines. It is therefore suggested that sixteen Isles Class Trawlers and sixteen Motor Minesweepers be manned by the Italian Royal Navy by 1st. March 1946.

10. It is considered that a few Italian Officers and key ratings could be instructed to operate these Motor Minesweepers efficiently with the aid of a simplified LL/SA handbook, which could be confined to information on sweeping the German ground mines fitted with normal units i.e. excluding MA2, AA2, and DM 1. Areas thought to contain any of these more complicated units would have to be swept by British sweepers.

11. No additional transfer to the French have been suggested as it is considered they have sufficient forces to clear the mines in their own areas. Similarly no transfers to the Jugoslavs have been considered for political reasons, and it is proposed that clearance of mines on the Jugoslav coast

Declassified E.O. 12065 Section 3-402/NNDD No. 785020

reason a proposal to supply them with Cropesa Mark II star equipment was also rejected. The Italian Royal Navy have no means of sweeping ground mines.

8. It is quite obvious that the Italian Royal Navy, therefore, can only take a small part in the clearance of the fifty thousand odd mines around their coast unless they have the ships and equipment to do it. Until these minefields are cleared, restrictions in fishing and local movements of shipping will continue to threaten the livelihood of the population.

9. The minefields around the Italian coast, particularly North of Leghorn on the West coast, and North of Ancona on the East coast consist largely of a mixture of moored and ground magnetic and acoustic mines. It is therefore suggested that sixteen Isles Class Trawlers and sixteen Motor Minesweepers be manned by the Italian Royal Navy by 1st. March 1946.

10. It is considered that a few Italian Officers and key ratings could be instructed to operate these Motor Minesweepers efficiently with the aid of a simplified LL/SA handbook, which could be confined to information on sweeping the German ground mines fitted with normal units i.e. excluding MA2, AA2, and DM 1. Areas thought to contain any of these more complicated units would have to be swept by British sweepers.

11. No additional transfer to the French have been suggested as it is considered they have sufficient forces to clear the mines in their own areas. Similarly no transfers to the Jugoslavs have been considered for political reasons, and it is proposed that clearance of mines on the Jugoslav coast should be done only at the request of the Jugoslavs by German minesweepers under British or International Minesweeping Organisation direction.

12. It will probably be necessary to supply some minesweeping stores to both the Italians and the Greeks, more especially the LL/SA stores. Local manufacture in Italy is already producing a quantity of Cropesa Minesweeping stores and this could probably be extended if the supply of raw materials was arranged.

13. It is also considered desirable that, if, as is envisaged, two flotillas of British Fleet Minesweepers and two flotillas of British Yard Minesweepers are withdrawn from the Mediterranean at the end of this year, German Minesweeping flotillas be allocated to replace them for 1946.

ADMIRALTY, S.W.1.

M.07885/45. 12th November 1945.

The Commander-in-Chief, Mediterranean.

I am to refer to your submission No.3496/Med.45/00235/5 of the 3rd August and to inform you that Admiralty approval is given for the loan of minesweepers to the Italian and Greek Navies. I am to request that in drawing up the agreement for the Italian Loan the following points may be stressed:-

(1) The British Admiralty and the Italian Naval Authorities agree upon British minesweepers being lent for incorporation in their Navy for the purpose of minesweeping in the Mediterranean Zone.

(2) That the vessels shall be under the operational control of the Mediterranean Zone Board.

(3) The minesweepers will be lent free of charge and shall be handed over in good seagoing condition.

(4) Minesweepers incorporated in the Italian Navy shall be maintained by the Italian Naval Authorities at the same standard of efficiency as corresponding vessels of the Royal Navy. 5225

(5) The minesweepers on loan shall remain the property of the Government of the United Kingdom and at the termination of the mine clearance in the Mediterranean Zone or at any earlier date which the British Admiralty may decide they shall be returned to the Government of the United Kingdom in a condition, as regards equipment, stores and seaworthiness, equivalent to that at the time of the loan.

(6) In the event of a minesweeper while on loan being stranded or wrecked it shall be for the British Admiralty to decide whether any attempt at salvage shall be made

(7) In the event of a minesweeper while on loan being lost or damaged beyond repair, no claim for the vessel will be made against the Italian Naval Authorities concerned but any sums derived on the sale or salvage of the vessel will accrue to the British Admiralty.

(8) Should one of the minesweepers while on loan be lost or damaged in circumstances in which a third party is liable for damage sustained by the vessel, any compensation received from that third party shall be payable to the British Admiralty.

(9) In the event of one of the minesweepers while on loan causing damage in respect of which compensation may be payable to a third party, any such

Declassified E.O. 12065 Section 1-402/NNDC No. 785020

(3) The minesweepers will be lent free of charge and shall be handed over in good seagoing condition.

TRANSFER OF HIS MAJESTY'S MOTOR MINESWEEPER 185 TO THE ITALIAN ROYAL NAVY.

6215

The Admiralty has given approval for the transfer on loan to the Italian Royal Navy of His Majesty's Motor Minesweeper 185, to be employed in the giving of de-gaussing protection to vessels in Italian ports. The terms of the transfer are to be similar to those covering the thirty-two minesweeping vessels being handed to the Italian Royal Navy, and I send you herewith a copy of the text of the formal agreement which it is intended should be signed.

2. It is desired that the transfer should take place at the earliest opportunity and I would therefore be grateful to have very early information as to the date on which arrangements can be made for the signature of the formal document by yourself and two witnesses. I shall sign the document on behalf of the Commander-in-Chief, Mediterranean Station.

Declassified E.O. 12065 Section 1-402/NNDC No. 185020

(Copy to:- Navy Sub Commission, HQ Allied Commission.)

TRANSFER OF HIS MAJESTY'S MOTOR MINESWEEPER 185 TO THE ITALIAN ROYAL NAVY.

6217

The Admiralty has given approval for the transfer on loan to the Italian Royal Navy of His Majesty's Motor Minesweeper 185, to be employed in the giving of de-gaussing protection to vessels in Italian ports. The terms of the transfer are to be similar to those covering the thirty-two minesweeping vessels being handed to the Italian Royal Navy, and I send you herewith a copy of the text of the formal agreement which it is intended should be signed.

2. It is desired that the transfer should take place at the earliest opportunity and I would therefore be grateful to have very early information as to the date on which arrangements can be made for the signature of the formal document by yourself and two witnesses. I shall sign the document on behalf of the Commander-in-Chief, Mediterranean Station.

(signed) [illegible]

for REAR ADMIRAL.

Enclosure:-
Copy of Text of Formal Agreement.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

AGREEMENT OF BETWEEN THE BRITISH ADMIRALTY AND THE ITALIAN AUTHORITIES CONCERNING THE TRANSFER ON LOAN OF HIS MAJESTY'S MOTOR MINESWEEPER 185 TO THE ITALIAN NAVY.

It is hereby agreed by the Commander-in-Chief, Mediterranean Station on the one part and the Ministry of Marine on the other part, that:

Article (1) The British Admiralty and the Italian Naval Authorities agree upon His Majesty's Motor Minesweeper 185 being lent for incorporation in the Royal Italian Navy for the purpose of giving degaussing protection to vessels in Italian waters.

Article (2) Motor Minesweeper 185 will be lent free of charge and shall be handed over in good seagoing condition. £210

Article (3) Motor Minesweeper 185 shall be maintained by the Italian Naval authorities at the same standard of efficiency as corresponding vessels of the Royal Navy.

Article (4) Motor Minesweeper 185 shall remain the property of the Government of the United Kingdom and at any time which the British Admiralty may decide it shall be returned to the Government of the United Kingdom in a condition, as regards equipment, stores and seaworthiness, equivalent to that at the time of the loan.

Article (5) In the event of Motor Minesweeper 185 while on loan being abandoned or wrecked it shall be for the British Admiralty to decide whether any attempt at salvage shall be made.

Article (6) In event of Motor Minesweeper 185 while on loan being lost or damaged beyond repair, no claim for the vessel will be made against the Italian Naval Authorities concerned, but any sums received on the sale or salvage of the vessel will accrue to the British Admiralty.

Article (7) Should Motor Minesweeper 185 while on loan be lost or damaged in circumstances in which a third party is liable for damage sustained by the vessel, any compensation received from that third party shall

Article (1) The British Admiralty and the Italian Naval Authorities agree upon His Majesty's Motor Minesweeper 185 being lent for incorporation in the Royal Italian Navy for the purpose of giving degaussing protection to vessels in Italian waters.

Article (2) Motor Minesweeper 185 will be lent free of charge and £210 shall be handed over in good sweeping condition.

Article (3) Motor Minesweeper 185 shall be maintained by the Italian Naval authorities at the same standard of efficiency as corresponding vessels of the Royal Navy.

Article (4) Motor Minesweeper 185 shall remain the property of the Government of the United Kingdom and at any date which the British Admiralty may decide it shall be returned to the Government of the United Kingdom in a condition, as regards equipment, stores and accommodation, equivalent to that at the time of the loan.

Article (5) In the event of Motor Minesweeper 185 while on loan being stranded or wrecked it shall be for the British Admiralty to decide whether any attempt at salvage shall be made.

Article (6) In event of Motor Minesweeper 185 while on loan being lost or damaged beyond repair, no claim for the vessel will be made against the Italian Naval Authorities concerned, but any sum derived on the sale or salvage of the vessel will accrue to the British Admiralty.

Article (7) Should Motor Minesweeper 185 while on loan be lost or damaged in circumstances in which a third party is liable for damage sustained by the vessel, any compensation received from that third party shall be payable to the British Admiralty.

Article (8) In the event of Motor Minesweeper 185 while on loan causing damage in respect of which compensation may be payable to a third party, any such compensation shall be paid by the Italian Government.

Article (9) The British Admiralty reserve the right to terminate the loan at any time whatsoever.

U R G E N T

Reference is made to your signal of 24th instant on the above subject.

1. You are informed that, as previously agreed, four crews are ready at La Spezia and three at Venice to take over and man the first seven British MMS to be loaned temporarily to the I.R.N.

2. Preparation is progressing of the crews for the remaining MMS release of which is expected; definite particulars concerning this will be given as soon as it is known where the motor-minesweepers will be handed over, and the approximate date upon which this will be take place. The same information is required in order to arrange crews for the 16 trawlers (F.O.I.L.'s letter 671/1 of 30th October last); in this respect it is requested that you will notify us of the present British table of complement of these vessels.

3. In brief, you are assured that it will be possible to provide crews for all the minesweepers (i.e. 16 MMS and 16 trawlers) and particulars are awaited as requested in para two above in order that we may give information upon the future preparation of crews.

Argomento: Cessione dragamine britannici alla Marina Italiana.=

U R G E N T E

Riferimento telemessaggio in data 24 c.m. all'argomento sopra indicato.

1. - Si comunica che, come da precedenti accordi, sono pronti n° 4 equipaggi a La Spezia e 3 a Venezia per rilevare ed armare i primi 7 motodragamine britannici temporaneamente ceduti alla R.Marina Italiana.

2. - E' in corso l'approntamento di altri equipaggi per i rimanenti motodragamine delle quali è prevista la cessione: si fa riserva di comunicare elementi precisi in merito a tale approntamento appena saranno note le località ove i motodragamine verranno consegnati e le date approssimative in cui avrà luogo tale consegna. Gli stessi dati occorrono per predisporre gli equipaggi dei I6 trawlers (foglio 671/1 del 30 ottobre u.s. del FOIL): in merito si prega voler specificare l'attuale tabella di armamento delle predette unità con personale britannico.

3. - Riassumendo, si dà assicurazione circa la possibilità di armare tutti i dragamine, ossia I6 motodragamine e I6 trawlers, e si rimane in attesa di sapere i dati richiesti al precedente 2° comma per fornire le indicazioni relative ai successivi approntamenti di equipaggi.

HEADQUARTERS ALLIED COMMISSION
Navy Sub Comcission APO 394

NSC/3452.
2nd September, 1945.

From : Navy Sub Comcission, Hq., Allied Commission.
To : Ministry of Marine, Rome.

Subject : Request for Miner's detonators.

With reference to the Ministry of Marine's letter No. SM. 16219 dated 8th August, 1945, as a result of an investigation carried out by the Navy Sub Comcission in conjunction with the Allied Force Local Resources Section, it has been revealed that the following three firms, all of whom have been making fuses and detonators, are in a position to satisfy the Ministry of Marine's requirements :-

(a)	Fratelli BORLETTI, Via Washington, Milan.	Works partly damaged - still capable of producing.
(b)	"NOBEL" Società Anonima Generale Esplosivi e Munizioni at Taino in Varese Province	Only slightly damaged- production not seriously effected.
(c)	Società Anonima Arturo JUNGHANS, Cuidecca, Venice	Originally Clock manufacturers have been producing time and electrical fuses and detonators.

2. The Allied Force Local Resources Section recommend the second of the above mentioned firms observing that this firm's normal rate of production of Electric Mining Detonators was reported to be 250,000 per month.

Subject: Request for miner's detonators.

The present reserve of electric mining detonators in I.R.N. stores has become very small owing to the inability of Italian industry to produce them.

2. Since these detonators are of extreme importance in clearing mines from ports and also in exploding mines found drifting or beached, it is respectfully requested that the I.R.N. may obtain an early supply of 6000 ELECTRIC MINERS' DETONATORS directly from Allied sources.

for CHIEF OF STAFF

Mod. 39

Stato Maggiore della R. Marina

Rep. M.D.S. Uff C.R.A.

INDIRIZZO TELEGRAFICO: MARISTAT - ROMA

Prot. N. SM/16219 Allegati

Roma, 8 AGO 1946 19 A

Al NAVY SUB COMMISSION
ROMA

ARGOMENTO: Richiesta di spolette per minatori.-

1. - A causa della impossibilità di produzione delle industrie nazionali, le attuali scorte di spolette (detonatori) elettriche, per minatori, nei depositi della R. Marina sono divenute scarsissime.

2. - Poichè le dette spolette sono di preminente importanza per le operazioni di sminamento dei porti, nonchè di brillamento delle torpedine ricuperate alla deriva o in ispiaggia, si prega di svolgere un cortese interessamento affinchè la R. Marina possa ottenere direttamente dagli Alleati l'urgente fornitura di N° 6000 SPOLETTE (detonanti) ELETTRICHE, per minatori.
