De-classified E.O. 12065 Section 3-402/NNDC NO. 725020

From: MINISTRY OF MARINE (Cabinet).
To : N.S.C. - H.Q., A.C.
Date: 1st February, 1947.
Ref.: 2356/2.

Subject: Baulks of Timber.

With reference to the letter dated 7th November, 1946, from the "Assistant Naval Store Officer, Taranto" which is enclosed, you are informed that the timber is now in the possession of the Ministry of Marine but it is not possible to dispose of it as the destination is unknown.

The "Assistant Naval Store Officer" of Taranto, approached on the subject by the H.Q. of the Taranto Dockyard, has stated that the timber was received from Malta with instructions to be forwarded to the Naval Mission in Rome.

The Navy Sub-Commission is therefore requested to approach the competent Authorities in Malta for further clarification onthe destination of the material in question.

N30/5235.
5th July, 1946.

From : Navy Sub Commission, Hq., Allied Commission.
To : Ministry of Marine, Rome.

Subject : Naval Stores for Italian Navy.

With reference to the Ministry of Marine's letter SM/16227 dated 8th August, 1945, in confirmation of the verbal information already given Lieutenant Colonel Ruggolo of Maricost, the bulk of the Italian Navy half-yearly requirements for July-December, 1945, have been met from the large quantity of material turned over by the Royal Navy to the Italian Navy at Taranto.

2. Of the outstanding items which could not be met from stocks transferred at Taranto, it was agreed with a representative of the Ministry of Marine that the only stores required at present were teak in baulk and India Rubber insertion as the remainder could be met from Italian sources.

3. The 200 cu.ft. of teak in baulk has now been shipped from Malta to Taranto on the 29th June, 1946 in the schooner "QUO VADIS" under package M.I.S.17. Admiralty's approval has been requested for the supply of the India Rubber insertion from the United Kingdom, observing that this item could not be made available from stocks in the Mediterranean. Subject to Admiralty approval therefore, the Ministry of Marine will be informed in due course of details of dispatch from the United Kingdom of this last remaining item.

HEADQUARTERS ALLIED COMMISSION
Navy Sub Commission APO 394.

NSC/1893.
10th April, 1946.

From : Navy Sub Commission, Hq., Allied Commission.
To : Commander-in-Chief, Mediterranean Station.

Subject : Supply of Naval Stores to Italian Ships and Bases
Half Yearly Demand July - December, 1945.

The Italian Navy half yearly requirements of Naval Stores unobtainable from Italian resources, for the period July - December, 1945, originally submitted to the Navy Sub Commission on the 8th August, 1945, has now been reduced to the following items :-

SUBHEAD	PATTERN	DESCRIPTION	DEN. OF QTY.	QUANTITY
A.	——	Teak in Baulk	cu.ft.	200
E.2	85	I.R. Insertion 1/32"	lbs.	1120
		1/16"	lbs.	1120
		1/8"	lbs.	1120
		3/16"	lbs.	1120
		1/4"	lbs.	1120

2. After careful sorcening, the requirements were forwarded to the Captain Superintendent, Taranto for further scrutiny, for translating in accordance with the Naval Stores Rate book, and for onward transmission to the Director of Stores, Admiralty, through the Commander-in-Chief, Mediterranean Station.

3. On the 27th December, 1945, however, the Naval Stores Officer Taranto, reported through the Captain Superintendent that except for certain items listed, the bulk of the demand after screening, could be met from stocks which would eventually be turned over to the Italian Navy on the withdrawal of the Royal Navy Base, Taranto.

4. While the supply of the remaining items could not be met by the Chief Disposals Officer, Italy, and the Naval Officers-in-Charge, Naples, Leghorn and Trieste, it was agreed with a representative of the Ministry of Marine that the only stores at present unobtainable in Italy are those listed in paragraph 1 above.

17 APR 1946 .....

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

5. This demand is considered very fair and reasonable, and it is requested that consideration be given to the early supply of these stores from Royal Navy sources, either on the station or from the United Kingdom.

ROME

TARANTO,
31st December, 1945.

CAPTAIN SUPERINTENDENT.

DATE: 7th January, 1945.
FROM: FLAG OFFICER ITALY & LIAISON.
TO : NAVY SUBCOMMISSION, [illegible]

FORWARDED FOR APPROPRIATE ACTION

for REAR ADMIRAL.

7302

TARANTO.

27th December, 1945.

CAPTAIN SUPERINTENDENT.

SUPPLY OF NAVAL STORES TO ITALIAN SHIPS AND BASES.

The second six-monthly bulk demand for naval stores for Italian ships and bases has been received in office and carefully screened to determine quantities considered reasonable in the light of past expenditure and taking into account the stocks already held by the Italian Depts. at Taranto.

2. N.T. Navy Sub-Commission, H.Q. Allied Control Commission's letter NSC/3335 dated 23rd. August, 1945 to Commodore Taranto stated that the Ministry of Marine's requirements of locally produced timber, leather articles, tin and white metal could be obtained through the Allied Force Local Resources Section. No action, therefore, has been taken for supply of these items.

3. 10,000 gallons of petroleum spirit No. 3 for M/T have been requested but this item should be demanded by M. of M. from the Italian Ministry of Industry, Commerce and Labour (Liquid Fuels Office) in accordance with C. in C. Med.'s Med.45/908/6/7 dated 6/12/45.

4. The bulk of the demand after screening can be met from stock on the assumption that stocks will be handed over to the Italian Navy in situ (see Capt. in Charge's signal to F.O.I.L. (R) C. in C. Med. 201156A December).

5. The items shewn on the enclosure are not available from naval stocks at Taranto nor stated to be available from local resources (see para 2 above). It is submitted that F.O.I.L. may be informed accordingly in order that supply may be arranged from elsewhere, if the policy of supplying naval stores in bulk to the Italian Navy is to continue. It is suggested that some of the items shewn on the enclosure may be available in other allied surplus store dumps being reported to the Chief Disposals Officer, Rome. If this is not practicable, the list should be forwarded to C. in C. Med. for action by Assistant Director of Stores, Med.

6. In view of the prospective closing of the R.N. Base at Taranto on 31st. January, materials sent to Taranto for the Italian Navy should be

Declassified E.O. 11905 Section 3-402/NSC NO. 185020

2. N.T. Navy Sub-Commission, H.Q. Allied Control Commission's letter NSC/3335 dated 23rd. August, 1945 to Commodore Taranto stated that the Ministry of Marine's requirements of locally produced timber, leather articles, tin and white metal could be obtained through the Allied Force Local Resources Section. No action, therefore, has been taken for supply of these items.

3. 10,000 gallons of petroleum spirit No. 3 for M/T have been requested but this item should be demanded by M. of M. from the Italian Ministry of Industry, Commerce and Labour (Liquid Fuels Office) in accordance with C. in C. Med.'s Med.45/908/6/7 dated 6/12/45.

4. N.T. The bulk of the demand after screening can be met from stock on the assumption that stocks will be handed over to the Italian Navy in situ (see Capt. in Charge's signal to F.O.I.L. (R) C. in C. Med. 201156A December).

5. The items shewn on the enclosure are not available from naval stocks at Taranto nor stated to be available from local resources (see para 2 above). It is submitted that F.O.I.L. may be informed accordingly in order that supply may be arranged from elsewhere, if the policy of supplying naval stores in bulk to the Italian Navy is to continue. It is suggested that some of the items shewn on the enclosure may be available in other allied surplus store dumps being reported to the Chief Disposals Officer, Rome. If this is not practicable, the list should be forwarded to C. in C. Med. for action by Assistant Director of Stores, Med.

6. In view of the prospective closing of the R.N. Base at Taranto on 31st. January, materials sent to Taranto for the Italian Navy should be consigned to "MARICOST, R.M. ARSENALE, TARANTO for ITALIAN NAVY", and if supplied from Royal Navy Sources, charged direct to the Italian Navy in accordance with A.F.O. 1047/44.

The Commanding Officer
for R.I.
H.M.S. "G. GARIBALDI"

The Supply Notes detailed overleaf are forwarded for Naval Store accounting purposes.

It is requested that the receipt may be completed and the form returned to this Office at the earliest possible date.

When "supply notes" are received in the ship, they are to be compared with the corresponsing "advance notes" and in the event of the descriptions or quantities not being in agreement, the matter is to be reported immediately (RR.4, Article 12, para 3). If from any other cause a receipt cannot be given within 21 days, it is requested that the facts may be communicated hereon, accompanied, if necessary, by the pertinent vouchers and documents.

It is essential before reporting non-receipt of rail-borne freight that all possible enquiry of the Railway Authorities at the receiving end should be instituted. In case of damage or loss the report should state whether the containing package was received in good order and condition externally.

Subject : Fittings for Gyro-compasses at Marinarsi La Spezia.

1. Reference is made to your letter NSC/4053 of 19th instant.

2. From enquiries made with regard to the transfer of fittings for Gyro-compasses belonging to Marinarsi La Spezia which was effected some time ago, the following information has been gathered:

- During the first ten days of May 1945 Lieutenant CDR. GARIBBO, interpreter to the "Base Supply Officer", Commander Wilson, received orders from the said Commander to go to No.1 Via Angelo Carrara, Sturla, the Villa of an Englishwoman by name O'Neill in order to accompany an English gentleman (civilian), who had come from Malta, to collect the keys of the Gyro-compass workshop (formerly German), which is situated in the basement of that villa, and to list the material which the Englishwoman considered it desirable to send to Malta.

It appears that Mrs. O'Neill had come to an agreement with the Germans at one time in order to save the premises from devastation.

Subsequently this equipment was transferred to the Storehouse at the Molo Vecchio belonging to Mr. Bauer (Engineer), formerly store-housekeeper of the German Command and also employed by the B.S.O.

1st Lieutenant (Harbourmaster) Alessandro CORRI went to Commander Wilson and asked for an explanation in an effort to save as much as possible. Cdr. Wilson replied in a firm and decided manner that in accordance with orders which he had received all the material was to be considered as Prize of War, and he ordered its despatch to Malta. To send this 21 packing cases were used. The list of materials sent is attached.

Subsequently the Base Electrical Officer (British) received authorization from the B.S.O. (Cdr. Wilson) to collect such electrical equipment from the Sturla depot as he considered necessary for his use. The materials remaining in the store were handed over to the Salvage Dept. of the T.E.M. Centre.

INDIRIZZO TELEGRAFICO: MARISTAT - ROMA

Prot. N. 2/25843 Allegati 1

Roma, 22 DIC. 1945 19

Al NAVY SUB COMMISSION

ARGOMENTO: Attrezzature per girobussole di Marinarmi La Spezia.-

1. - Riferimento al foglio NSC/4053 del 19 corrente.

2. - Dalle indagini esperite in merito al trasferimento, effettuato a suo tempo a Malta delle attrezzature per girobussole di Marinarmi La Spezia, si sono raccolte le seguenti informazioni:

- Nella prima decade di maggio 1945 il Tenente CREM. GARIBBO interprete presso il "Base Supply Officer", Commander Wilson, ricevette l'ordine dal predetto comandante di recarsi a Sturla, Via Angelo Carrara n.1, nella Villa della Signora inglese O'Neill per accompagnare un signore inglese (civile), venuto da Malta, a ritirare le chievi dell'officina delle girobussole (già tedesca) situata nel sottosuolo della Villa medesima, e per fare l'elenco del materiale che la signora inglese riteneva opportuno inviare a Malta.

Risulta che la signora O'Neil aveva a suo tempo presi accordi con i tedeschi per preservare i locali dalla devasta

Declassified E.O. 12065 Section 3-402/NNDC NO. 185020

vare quanto era possibile. Il Comandante Wilson rispose in modo fermo e deciso, che tutto il materiale, come da ordini ricevuti, doveva considerarsi preda di guerra e ne ordinava la spedizione a Malta. Per la spedizione furono impiegate nº 21 casse d'imballaggio.Si allega l'elenco dei materiali spediti.

In seguito l'Ufficio inglese B.E.O. (Base Elettrical Office) ricevette autorizzazione dal B.S.O. (Comandante Wilson) di prelevare dal magazzino di Sturla il materiale elettrico che riteneva necessario per suo uso. I materiali che rimasero nel magazzino furono consegnati all'Ufficio Ricuperi del Centro Marina.»

No. 185/272/2.
THE FLAG OFFICER ITALY AND LIAISON,
ROME.

TRANSFER OF SURPLUS STORES TO ITALIAN GOVERNMENT.
(FOOL 1011/14 January, 1946).

A conference was held on 12th January between the Base Supply Officer and the Italian representatives empowered by the Chief Disposals Officer (Italy) to discuss details of the disposals plan outlined in his memorandum GC 90 of 28th December, 1945 already agreed with the Base Supply Officer.

2. The representatives (for the Italian Government Chief Inspector Alberto RIVERA, and for the Italian Navy Colonel Gaetano D'ADAMO) were accompanied by Captain Alfonso DUMARTO of the Italian Navy, and after inspecting the premises and stores they gave Captain Dumarto joint written authority to take over the Naval Stores building and conduct all further negotiations.

3. The following arrangements were made:
(a) In the first instance the Italian Government will take over stores for disposal, and any supply to the Italian Navy will be made afterwards.
(b) As soon as British ratings cease to use the Naval Stores premises the Italian Government to be responsible for security. Since stores for Malta are still being crated and returned from departments closing on 15th January will continue, this may be towards the end of January.
(c) All stores for disposal (except the steel plate in various custody in the Port area) to be moved into the Naval Stores premises. In the case of some victualling stores which may in the end go to U.N.R.R.A. (Worn clothing, chocolate, local purchase glass and crockery) a separate stowage in British custody may have to be maintained; a Nissen hut can be used.
(d) So far as possible, stores for transfer to be crated with packing notes; the extent to which this can be done depends on the time and

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

(... 12th January, 1946).

A conference was held on 11th January between the Base Supply Officer and the Italian representatives empowered by the Chief Disposals Officer (Italy) to discuss details of the disposals plan outlined in his memorandum GS 90 of 28th December, 1945 already agreed with the Base Supply Officer.

2. The representatives (for the Italian Government Chief Inspector Alberto RIVERA, and for the Italian Navy Colonel Gaetano D'ADAMO) were accompanied by Captain Alfonso DUMARTO of the Italian Navy, and after inspecting the premises and stores they gave Captain Dumarto joint written authority to take over the Naval Stores building and conduct all further negotiations.

3. The following arrangements were made:
(a) In the first instance the Italian Government will take over stores for disposal, and any supply to the Italian Navy will be made afterwards.
(b) As soon as British ratings cease to use the Naval Stores premises the Italian Government to be responsible for security. Since stores for Malta are still being crated and returned from departments closing on 15th January will continue, this may be towards the end of January.
(c) All stores for disposal (except the steel plate in various custody in the Port area) to be moved into the Naval Stores premises. In the case of some victualling stores which may in the end go to U.N.R.R.A. (Worn clothing, chocolate, local purchase glass and crockery) a separate stowage in British custody may have to be maintained; a Nissen hut can be used.
(d) So far as possible, stores for transfer to be crated with packing notes; theextent to which this can be done depends on the time and hands available, the main agreement is to accept stores in situ. The Italian officials fear that articles in racks or loose stowage will be stolen, but once they have been listed and accepted the British Navy will not be concerned.

4. Captain Dumarto has been given an office in the Naval Stores, and an Office of Disposals (Italy) opens shortly in Naples; liaison should therefore be good.

5. Apart from details of the general transfer, the Italian representatives made a concerted request that early formal approval be given for the Italian Navy to receive the following:

SA 1

L.L. & S.A. Minesweeping Stores (C-in-C 021544/Jan, already approved)
\+ Captured German minesweeping gear.
Steel plate.
\+ Captured German generators.
(+ These do not belong to any ship and are therefore not due to be transferred to the nearest British Ordnance Depot)

6/....Over....

Declassified E.O. 12065 Section 3-402/NNSC NO. 785020

6. It is assumed that these and similar requests may now be dealt with by the Base Supply Officer and Captain Dumarto, within the various principles given in Mediterranean orders and correspondence, the actual transfer being reported on a Disposals Declaration as a fait accompli, the Naples Disposals Officer being consulted when necessary.

7. The remnants of stock now in store, are the debris of a small yard, in some disorder and of doubtful value. Sorting, identifying and listing will take time, even as an evolution, and local disposal on the spot will be expeditious.

Date : 30th November, 1945.
Ref. : 23584/2.

Subject : Recovery of antique Venetian guns, belonging to the Navy Museum at Venice.

1. This Ministry has to arrange the recovery of antique Venetian guns, belonging to the Navy Museum, Venice, which are in the former overseas exhibition at Naples.

2. The Naples Engineering Dept. of the Navy has made it known, however, that to enter the former overseas exhibition it is necessary for the workers to be provided with a permit by the American Hospital, presently located there, and that it is necessary also to make a temporary gap in the boundary wall in order to bring the guns out.

3. It is requested that the Navy Sub Commission may apply to the appropriate authorities to grant the necessary permit.

Subject : Supplies to Italian H.S.V. No. 49.

Reference: Navy Sub-Commission, H.Q. Allied Commission's letter No. NSC/3852 dated 25th October, 1945.

With reference to paragraph 2 of the above quoted letter, adjustment of this account cannot be effected by the Naval Store Department, Haifa, without a receipt for the missing quantity.

2. As it would appear that the remainder of the wire was taken on board H.S.V.49, and, if consumed in the course of the operation, would therefore be a charge to British Funds. It is considered that Lieutenant J. O'LEARY, R.N., of the Port Party concerned should be asked to state the disposal of this wire or alternatively of his accounts, which could then be examined.

3. Lieutenant J. O'Leary is understood to be serving in H.M.S. "LAUDERDALE".

SIGNED
N. M. F. CORBETT

NSC/[illegible].
25th October, 1945.

From : Navy Sub Commission, Hq., Allied Commission.
To : Senior Naval Officer Levant Area.
(Copy to:- Flag Officer Levant and Eastern Mediterranean.)

Subject: Supplies to Italian M.A.S. No.49

With reference to your letter LA.21/2/3/5409 dated 18th October, 1945, observing that the remaining wire does not appear to have been returned to the Italian Ship "M.A.S.49", by Lieutenant O'Henry, it would seem that the Italian Navy have been charged for a quantity of wire which does not appear to have been supplied to them. 4 25/10

2. It is requested therefore, that necessary accounting action be taken in order that the Italian Navy be charged for the amount of wire actually supplied i.e. approximately 12 fathoms, as shown in paragraph 2 of the Ministry of Marine's letter [illegible]/15757 of the 14th August, 1945, which was the quantity used for making the slings and towing cables, and that separate accounting action as thought fit be taken in respect of the remaining wire.

3. It would be appreciated if the Navy Sub Commission, Allied Commission could be informed in due course of the action taken.

SENIOR NAVAL OFFICER,
LEVANT AREA,
HAIFA.

10th October, 1945.

FLAG OFFICER,
I T A L Y.

Copy to:- Flag Officer, Levant and Eastern Mediterranean.

Subject : Supplies to Italian N.S.V. No. 49.

With reference to your NSC/3356 dated 24th August, 1945, it is confirmed that the quantities of wire issued for N.S.V.49 were as shown on the S.134d in question. "Shackles for towing - No. 64" stated in the Ministry of Marine's communication of the 14th August, 1945, is not correct, as 6 in Number only were demanded and supplied - the No. 64 was the Registered Number of the transcribed Demand.

2. The Boom Defence Department, Haifa, spliced the required number of slings from the wire supplied by Lieutenant O'LEARY, and returned all remaining wire (quantity not known) to this officer with the slings.

3. The disposal of the remaining wire is not known as Lieutenant O'LEARY was attached to a Port Party at Haifa and not on the staff of the Senior Naval Officer, Levant Area.

28 AUG 1945

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

From: MINISTRY OF MARINE (Maristat)
To : N.S.C. - Rome
Date: 14 August '45
Ref.: SM/16747/ - Encl.No.1

Subject: Triplicate C.134 D (Small) No.63 dated 14 September 1944 - from the N.S.O. Haifa.

1. The Naval Store Officer Haifa issued the triplicate C.134 d (small), of which copy is attached, on 14th September 1944. This charges the undermentioned materials to H.M. Ship Italian N.S.V.49 (The British No. of the Italian Landing craft No.722) :-
- 3 1/2 "Flexible steel wire - (fathoms 360 = m.658)
- 3" " " " - (fathoms 360 = m.658) } m.1316
-Shackles for towing - No.64.

2. With regard to this debiting, the Italian Unit concerned informs us that the stores actually received by Landing craft No. 722 and 729 in the form of slings and towing cables are equivalent to the following quantities of unprepared material.
- 3 1/2" steel cable (used for 4 slings) fathoms 20 = 37 m.
- 3" " " (" " 2 towing fathoms 100=182 m. } m.219
cables)
- Towing shackles 64 in N°.

3. From a comparison of the above figures it would appear, therefore, that an incorrect charge of 1097 metres of steel wire has been made to the Landing-Craft No.49. Although the above Italian Naval Authority has raised the matter many times it has been unable to resolve the question.

4. Considering that :

a) The request for these materials was made by the Duty Officer (Lt.O'Leary) at "Naval Operations" Haifa in September 1944 and delivery was taken from the N.S.O. by British personnel;

b) No responsible Italian person has signed from S.134 d No.63, which was signed, indeed, by Lt.O'Leary.

It is requested that the matter be raised with the appropriate British Naval Authority in order that the position may be clarified.

for CHIEF OF STAFF

T's Note : "unprepared material" - i.e., before splicing and making up into slingsetc.

GGE/P.

By Lawrifind E.O. 12065 Section 3-402/NNDC NO. 785020

From: NAVEXOFFICE (Duplicate)
To : U.S.S. - None
Date: 14 August '45
Ref.: NA/16747/ - Encl.No.1

Subject: Telephone Calls Y (one11) No.3 dated 14 September 1944 - from the U.S.S. Texas.

1. The naval attaché quoted the telephone call No.3 dated 14 September 1944, of which copy is enclosed, as having asked for the following changes (the underlined words refer to the Italian Indents on ft No.722) :-

- 3 1/2" flexible steel wire - (replace 365 = m.668) m.11lg
- 3" " " " - (replace 260 = m.668)
- Shackles for towing - 20.04.

2. The naval attaché also stated that the stores actually received by Leghorn differ in the following quantities of recovered materials from the quantities of new stores are equivalent to the following quantities of recovered materials:

- 3 1/2" steel cable (used for 4 slings) replace 44 = 57 m. } m.21lg
- 3" " (" " 2 towing, replace 170 = m.
cables)

- Towing shackles 64 in No.

3. From a comparison of the above it would appear, therefore, that an incorrect class of item (stores or steel) has been made to the Leghorn Indent No.49. Although the above Italian Naval Authority has stated the matter may stand it has been unable to resolve the question.

4. Considering that :

a) the request for these materials was made by the duty Officer (Lt.C'dr.Roxby) at Naval Headquarters in Leghorn on 12 September and delivery was taken from the U.S.S. by British personnel;

b) no Italian Italian person has signed for the items (which was signed, ~~in fact~~ in fact by Lt.C'dr.Roxby.

It is requested that the matter be raised with the appropriate British Naval Authority in order that the position may be clarified.

Al NAVY SUB COMMISSION

ROMA

ARGOMENTO: Triplicato C.I34 d (Small) N°63 in data I4 Settembre I944 del Naval Store Officer di HAIFA.-

I. - Il Naval Store Officer di Haifa ha emesso in data I4 Settembre I944 il triplicato C.I34 d(Small), di cui si allega copia, con il quale vengono caricati alla H.M. Ship Ttalian N.S.V.49 (Siglainglese della Motozattera Italiana 722) i seguenti materiali:

-Cavo di acciaio da 3½"(flexible steel wire)ftms 360=m.658)
- " " " " 3" (" " ") " 360=m.658) m.I3I6
-Maniglioni per rimorchio N° 64

2. - In merito a tale addebito, il Comando Navale Italiano interessato, riferisce che i materiali effettivamente ricevuti dalle Motozattere 722 e 729 sotto forma di braghe e cavi da rimorchio, corrispondono invece ai seguenti corrispettivi di materiali non lavorati:

-Cavo di acciaio da 3½"(impiegato per 4 braghe)ftms 20=m. 37)
- " " " " 3" (impiegato per 2 cavi m.2I9
da rimorchio) " I00=m.I82)
-Maniglioni per rimorchio N°64

3. - Dal confronto dei dati sopra trascritti risulta quindi, che alla Motozattera N.S.V.49 è stato fatto un indebito carico di m.I097 di cavo di acciaio. Al riguardo la predetta Autorità Navale Italiana ha svolto numerose pratiche senza essere riuscita a definire la questione.

4. - Considerato che:

a) - la richiesta del predetto materiale venne avanzata a cura dell'Ufficiale in servizio, nel Settembre I944 al "Naval Opera-

Prot. N. 3m/16/42 Allegati 1-

ARGOMENTO: Triplicato C.I34 d (Small) N°63 in data I4 Settembre I944 del Naval Store Officer di HAIFA.-

I. - Il Naval Store Officer di Haifa ha emesso in data I4 Settembre I944 il triplicato C.I34 d(Small), di cui si allega copia, con il quale vengono caricati alla H.M. Ship Ttalian N.S.V.49 (Sigla inglese della Motozattera Italiana 722) i seguenti materiali:

-Cavo di acciaio da 3½"(flexible steel wire)ftms 360=m.658} m.I3I6
- " " " " 3" (" " ") " 360=m.658}
-Maniglioni per rimorchio N° 64

2. - In merito a tale addebito, il Comando Navale Italiano interessato, riferisce che i materiali effettivamente ricevuti dalle Motozattere 722 e 729 sotto forma di braghe e cavi da rimorchio, corrispondono invece ai seguenti corrispettivi di materiali non lavorati:

-Cavo di acciaio da 3½"(impiegato per 4 braghe)ftms 20=m. 37}
- " " " " 3" (impiegato per 2 cavi } m.2I9
da rimorchio) " I00=m.I82}
-Maniglioni per rimorchio N°64

3. - Dal confronto dei dati sopra trascritti risulta quindi, che alla Motozattera N.S.V.49 è stato fatto un indebito carico di m.I097 di cavo di acciaio. Al riguardo la predetta Autorità Navale Italiana ha svolto numerose pratiche senza essere riuscita a definire la questione.

4. - Considerato che:

a) - la richiesta del predetto materiale venne avanzata a cura dell'Ufficiale in servizio nel Settembre I944 al "Naval Operations"di Haifa, Ten.O'LEARY, e il relativo prelievo dal N.S.O. effettuato da personale inglese;

b) - che nessun responsabile italiano ha firmato il modello S.I34 d N°63, anzi a questo venne apposta la firma del Ten.O'LEARY,

Si prega voler interessare della questione la competente Autorità Navale Inglese, per la sua definizione.

C - C - P - Y

From : MINISTRY OF MARINE (Cabinet)
To : N.S.C. - H.Q. - A.C.
Date : 30th November, 1945.
Ref. : 24363/2.

Subject : Manufacture by Pirelli Co. of 100 divers suits required by the Italian Royal Navy.

Reference is made to your letter N30/3454 of 3rd September, 1945.

1. This Ministry has reached an agreement with the Pirelli Co. - Rome Branch - for the manufacture of 100 diver's suits which are needed for the I.R.N.

2. The Company has confirmed that it can undertake manufacture of the required suits but the following material is necessary for each suit :

Natural rubber	176	grammes
Synthetic rubber	3546	"
Raw cotton	5650	"
Linen cloth	50	"
Gasoline	2	kgs.
Benzine	42	"
Alcohol	100	grs.

3. Of the above materials the Company is in possession already of natural rubber and synthetic rubber which are allocated for the manufacture of other goods, however.

4. It is requested, therefore, that the Navy Sub Commission may take action with the Industries Sub Commission in order that the Pirelli Co. may be allowed to make use of the quantity of material from the above allocation which is necessary for the manufacture of 100 diving suits. In all this comprises :

Natural rubber	17.6 Kgs.
Synthetic rubber	354.6 Kgs.

Furthermore the appropriate department should make the following total allocations to the Company :-

Cotton	565	Kgs.
Gasoline	200	"
Benzine	120	"
Alcohol	10	"

5. It is trusted that the above material may be allocated for the manufacture of the diving gear, the quantities in question being very modest.

By direction
for THE MINISTER.

C - O - P - Y

From : MINISTRY OF MARINE (Cabinet)
To : N.S.C. - H.Q. - A.C.
Date : 30th November, 1945.
Ref. : 24363/2.

Subject : Manufacture by Pirelli Co. of 100 divers suits required by the Italian Royal Navy.

Reference is made to your letter NSC/3454 of 3rd September, 1945.

1. This Ministry has reached an agreement with the Pirelli Co. - Rome Branch - for the manufacture of 100 diver's suits which are needed for the I.R.N.

2. The Company has confirmed that it can undertake manufacture of the required suits but the following material is necessary for each suit :

Natural rubber	176	grammes
Synthetic rubber	3546	"
Raw cotton	5650	"
Linen cloth	50	"
Gasoline	2	kgs.
Benzine	42	"
Alcohol	100	grs.

3. Of the above materials the Company is in possession already of natural rubber and synthetic rubber which are allocated for the manufacture of other goods, however.

4. It is requested, therefore, that the Navy Sub Commission may take action with the Industries Sub Commission in order that the Pirelli Co. may be allowed to make use of the quantity of material from the above allocation which is necessary for the manufacture of 100 diving suits. In all this comprises :

Natural rubber	17.6 Kgs.
Synthetic rubber	354.6 Kgs.

Furthermore the appropriate department should make the following total allocations to the Company :-

Cotton	565	Kgs.
Gasoline	200	"
Benzine	120	"
Alcohol	10	"

5. It is trusted that the above material may be allocated for the manufacture of the diving gear, the quantities in question being very modest.

By direction
for THE MINISTER.

Navy Sub Commission A/C 334

FSA/4031.
17th November, 1945.

From : Navy Sub Commission, HQ., Allied Commission.
To : Commander-in-Chief, Mediterranean Station.
(Copies to :- Principal Naval Officer, Levant.
Senior Naval Officer, Red Sea and
Persian Area.)

Subject : Grant of Italian vessels for Italian Naval Navy Ships visiting Port Said.

As a result of a request made by the Commanding Officer of the 9th Italian Scientific Group in the Middle East, the Italian Ministry of Marine have requested that the same troops listed in the enclosure hereto may be supplied to the above ships from Naval Navy sources in the Levant thereby that these requirements cannot, at present, be met by sending supplies from Italy.

2. It is requested therefore, that favourable consideration may be given to this request, and if approved, that the Principal Naval Officer, Levant be instructed to make arrangements for supply.

(Sgd) G. L. WARREN
NAVAL ADVISER,
CHIEF, NAVY SUB COMMISSION,
FOR CHIEF COMMISSIONER.

From: MINISTRY OF MARINE (Maristat)
To : N.S.C. - Rome
Date: 5th October 1945
Ref.: SM.21713

Subject: Supply of Mess Utensils for the I.R.N. ships "ITALIA" and "VITTORIO VENETO".

1. In view of their present location the I.R.N. Ships "ITALIA" and "VITTORIO VENETO" have found difficulty in obtaining locally the articles (stores, glassware, table-cloths, table-napkins, cutlery, etc.) which are essential requirements for the Messes on board.

2. Since it is at present impossible that needs should be met by sending supplies from Italy, it is requested that the appropriate Authorities may be approached in order that S.N.O. (R.S.C.A.) Alexandria be authorised to release to these ships, to the amount considered possible, quantities of the articles needed for the Messes on board.

HEAD QUARTERS ALLIED COMMISSION
Navy Sub Commission APO 394

N3C/4344.
31st December, 1945.

From : Navy Sub Commission, Hq., Allied Commission.
To : Allied Supply Accounting Agency,
c/o Finance Sub Commission, Headquarters,
Allied Commission.

Subject : Issues from British Army Depots to the Allied Commission Sub Commissions for the Italian Government.

With reference to your letter 13667/F/A/AR dated 18th December, 1945, records held, show that the stores in question appear to have been withdrawn direct from the E.S.D. Depot Cancello by a representative of the Italian Ministry of Marine on some date after the 21st June, 1945.

2. Authority for the release of this material to the Italian Ministry of Marine was given by the Director of Engineer Stores, Engineer Section (MR) Allied Force Headquarters in the form of release orders which were forwarded to the Ministry of Marine for necessary action on the 21st June, 1945.

3. The fact that the Italian Ministry of Marine arranged for the collection of this material direct from the depot appears to be sustained by the incomplete form of the issue voucher.

4. It is regretted therefore that paragraph 2 of your letter cannot be complied with, observing that these stores were not consigned to, or issued by the Navy Sub Commission, Headquarters Allied Commission. It is considered, however, that no cash deposits have been placed with A.F.A. by the Ministry of Marine and it is recommended, that the E.S.D. Cancello Depot be approached with a view to obtaining any further information in this matter should it be required.

1. To carry out urgent wiring-off of certain areas of Civitavecchia Port, approx. 5000 mts. of barbed wire are required.

2. According to Port Security there, a considerable quantity of this wire is available at Leghorn in possession of A.C.

3. Request you kindly authorize above quantity to be handed over, which would be transferred to Civitavecchia in first Ship available.

ROMA

ARGOMENTO Richiesta di filo spinato.

I.- Per urgenti necessità di recintare alcune zone del porto di Civitavecchia occorrono circa metri 5000 di filo spinato.

2.- Notevole quantità di tale filo, a quanto segnalato dal Port Securety di quella sede, si trovano a Livorno in possesso della Commissione Alleata.

3.- Si pregherebbe autorizzare la consegna del quantitativo richiesto che potrebbe essere trasferito a Civitavecchia col primo mezzo navale.

Subject : Diving Suits and Equipment.

The diving apparatus requested in the attached letter No.SM/8107 of the 14th April, 1945, from the Ministry of Marine cannot be immediately supplied from local resources in Southern Italy.

2. While the training of assault craft divers may be of no significance, it is, nevertheless, important in view of the shortage of shipping space generally, that all steps be taken to increase the scope of salvage work.

3. A copy of Allied Force Local Resources Section letter No.307/44 of the 30th April, 1945, in reply to enquiries on the prospect of securing diving equipment in Northern Italy is attached. Subject to the views of the Fleet Salvage Officer on the desirability of affording assistance by way of diving equipment to the Ministry of Marine, it is suggested that the Italian Navy's requirements be included in bids for diving equipment placed on behalf of the Royal Navy.

ROMA

ARGOMENTO: Materiale da palombaro.=

Il continuo afflusso, presso la Scuola dipendente dal Gruppo mezzi di assalto, di allievi da istruire e di palombari già brevettati che periodicamente debbono riallenarsi, comporta la necessità di un quantitativo sempre maggiore di materiale da palombaro.

D'altra parte, è di capitale interesse che l'attività dei gruppi di ricupero del naviglio nazionale sia intensificata al massimo grado, mentre l'attuale esistenza del materiale occorrente a tale scopo è appena sufficiente per proseguire con l'attuale ritmo.

Si prega pertanto codesta N.S.C. di voler esaminare la possibilità di fornire alla Marina Italiana il seguente materiale da palombaro necessario per soddisfare le esigenze di cui sopra:

- venti scafandri completi (vestiti impermeabili, elmi, scarpe, cinturini di cuoio con coltelli, pesi di piombo, calzoni di tela);
- venti pompe d'aria;
- venti scalette e venti biscagline;
- quantitativo adeguato (per venti apparecchiature) di scandaglio di sagola di canapa per la discesa e di cavo in tarozzi per la risalita;
- venti cassette utensili con relative chiavi, cacciaviti, guarnizioni, molle di ricambio, etc..= 1162

NSC/4198.
4th December, 1945.

From : Navy Sub Commission, Hq., Allied Commission.
To : Ministry of Marine, Rome.

Subject : Platinum taken away to Germany by the Germans.

With reference to the Ministry of Marine's letter SM.24287 dated 6th November, 1945, and SM/26255 dated 24th November, 1945, the Ministry of Marine's attention is invited to paragraphs 2 and 3 of Navy Sub Commission's letter NSC/3736 dated 10th October, 1945.

2. It has now been confirmed that the Ministry of Communications, Chief Supply Section of the Italian State Railways, are the correct authority through which all claims in respect of Italian Material removed to Germany and Austria by the German Authorities are channelled to the respective Allied Embassies.

3. It is recommended therefore that the Ministry of Marine approach the above mentioned authority of the Ministry of Communications with a view to effecting the return to Italy of the platinum in question.

R.S/5736.
10th October, 1945.

From : Navy Sub Commission, HQ., Allied Commission.
To : Ministry of Marine, Rome.

Subject : Italian Navy Equipment transported to Germany - Recovery of.

With reference to the Ministry of Marine's letter No. 18237/2 dated 2nd September, 1945, it is regretted that the dispatch of an Italian Naval Mission to Germany as suggested in paragraph 3 of the Ministry of Marine's letter under reference cannot be approved.

2. Information has now been received that Allied Force Headquarters will not undertake to handle claims for Italian machinery and stores in Austria and Germany, but that the Italian Government will have to make such claims through regular diplomatic channels.

3. It is recommended therefore that arrangements for the return of the material in question to Italy be made through diplomatic channels.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

From: MINISTRY OF MARINE (Cabinet)
To : F.O.I.L. - Rome
Date: 2 September 1945
Ref.: 18237/2

Subject: Reconstruction of the Experimental Laboratory.

1. From enquiries made by Maricost, La Spezia, it appears that almost all the equipment of the former Experimental Laboratory has been carried away by the Germans, who have also removed platinum objects to a total weight of over 3000 grammes.

2. According to information obtained by the above Maricost it seems that the apparata and machines belonging to the Laboratory were sent from Carrara and La Spezia to the Scientific Institute for Research in Stahl ("Kaiser Wilhelm Institute für Eisensforcheens), at Düsseldorf.

3. These facts are submitted for your attention with the request that we may be informed whether there are any objections on the part of the Allied Authorities to our sending an I.R.N. Mission to Germany to seek the abovementioned materials and equipment at the Institute named.

1°) - Da indagini eseguite da Maricost - La Spezia risulta che la quasi totalità delle attrezzature dell'Ex Laboratorio Sperimentale è stata asportata dai tedeschi, che hanno sottratto anche gli oggetti di platino per un peso di oltre 3000 grammi.

2°) - Secondo informazioni assunte dalla predetta Maricost risulta che gli apparecchi e i macchinari del Laboratorio sono stati spediti da Carrara e da La Spezia a Düsseldorf presso l'Istituto Scientifico per le ricerche sugli acciai. (Kaiser Wilhelm Institute für Eisensforcheens).

3°) - Si sottopone pertanto la questione all'attenzione di codesto F.O.I.E. con preghiera di voler far conoscere se nulla osta da parte delle Autorità Alleate che una Commissione della R. Marina si rechi in Germania presso tale Istituto, per la ricerca degli apparecchi e delle attrezzature sopradette.

Subject: Platinum taken away to Germany by the Germans.

Reply is made to your letter NSC/4007 of 10th November 1945.

1. A quantity of 1970 kgs. platinum, return of which from Germany was requested, is needed for the manufacture of articles (capsules, electrodes, crucibles, Gooch filters etc.) which are essential for experiments at the I.R.N. Chemical Laboratory, the re-establishment of which is a matter of urgency.

2. It is again requested, therefore, that application may be made to the proper Allied Authorities for the return of this amount of platinum to the Italian Government.

N30/4118.
28th November, 1945.

From : Navy Sub Commission, Hq., Allied Commission.
To : Air Forces Sub Commission, Milan.

Subject : Italian Naval Radio Equipment.

With reference to your letter AF30/M/662/Eq., dated 9th November, 1945, the matter was immediately taken up with the Italian Ministry of Marine who on consulting the Directorate of Telegraphic Communications of the Italian Ministry of Air were informed that the requirement for this equipment was not of a very urgent nature. An agreement was then reached whereby the equipment in question would be turned over to the Italian Royal Air Force after all the material now accumulated at Florence had been taken to Venice, inventoried and classified accordingly.

2. The matter now appears to have been settled between the Italian Ministries of Marine and Air who should make any further arrangements that may be required in order to effect this transfer.

ITALIAN NAVAL RADIO EQUIPMENT.

This office has been informed by HQ 2 District that a quantity of Radio Equipment situated at Clorenza, which was thought to belong to the Italian Air Force, does in actual fact belong to the Italian Navy. The attached list schedules all items in question.

2. This class of equipment is urgently needed, however, for operational use by the C.A.V. at Venice, and other Units, and work is being held up till such times as it is forthcoming.

3. It would be appreciated therefore if consideration may be given to the proposal that, subject to the equipment not being required by the Italian Navy, authority be given by your Sub Commission for the whole of it to be taken over by this Sub Commission for release to the I.A.F.

4. May this receive your prompt attention, please.

Subject: Allocation of Metal Sheeting to Italian Navy.

M O S T U R G E N T

1. The Naval Store Officer Taranto has informed the I.S.L.O. Taranto that the undermentioned materials which were allocated to him by the A.F.L.R.S. are no longer needed, and consequently if required by the Italian Navy a request for their transfer should be made to A.F.L.R.S.:

SH/22A	3000 x 1200 x 2	-	10 tons.
24A	3200 x 1200 x 2.5	-	4 "
25B	3500 x 1200 x 3	-	10 "

2. It is requested that you may arrange with the A.F.L.R.S. for the above allocation to be transferred to the I.R.N. Arsenal at Taranto.

Al NAVY SUB COMMISSION
ROMA

ARGOMENTO: Assegnazione lemiere alla Marina Italiana.

URGENTISSIMO

1.- Il Naval Store Officer di Taranto ha segnalato all'I.S.L.O. di Taranto che i seguenti materiali che gli erano stati assegnati dalla A.F.L.R.S. non sono ora più necessari e pertanto se occorrevano alla Marina Italiana doveva esserne richiesto il trasferimento dell'assegnazione alla A.F.L.R.S.:

SH/22A	3000xI200x2	- IO tonn.
24A	3200xI200x2.5	- 4 "
25B	3500xI200x3	- IO "

2.- Si pregherebbe intervenire presso la A.F.L.R.S. perchè l'assegnazione suddetta sia trasferita al R.Arsenale di Taranto.

Subject.. NAVAL STORES FOR ITALIAN SHIPS.

From..... THE COMMODORE IN CHARGE, TARANTO.

Date..... 26th October, 1945. No. T/104.

To..... THE COMMANDER IN CHIEF, IONIAN AND LOWER ADRIATIC.

- -

A recent instance occurred of the British Naval Liaison Officer in the Italian cruiser "POMPEO MAGNO" being asked to sign a demand for naval stores which transpired to be in excess of the items actually needed by the ship.

2. It is requested you will issue instructions that any stores drawn by Italian ships from British sources are to be solely for the requirements of the ship drawing them.

(Sgd). J.M.T. BEDFORD.

COMMODORE.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

From: The Br[illegible]h Naval Liaison Officer, Italian Ship "Pompeo Magno".

Date: 23rd October, 1945. Ref.PM/679.

To: The Commodore-in-Charge, Taranto.

SUBJECT: NAVAL STORES FOR ITALIAN SHIPS.

A demand for radio valves on the Naval Stores Officer at Malta, which I was recently asked to sign, transpired to be only partly in respect of the ship's own requirements. The remainder was being obtained on the instructions of an Admiral in Taranto "as these things are difficult to obtain in Italy".

2. It is realised that such requests may be hard for the ship's officers to refuse, and I should be glad therefore if you would make it clear to the Italian authorities that stores drawn by one of their ships in a British port are only for its own immediate needs, and that attempts by high-ranking officers to obtain other stores in this way must cease.

3. As a result of this incident, the Commanding Officer, who has only just taken over the command of the ship, has ordered that all requests for stores are to be countersigned by him.

P.K. Gerhold.

HSC/1071.
22nd November, 1945.

From : Navy Sub Commission, H.Q. Allied Commission.
To : Ministry of Marine.
(Copy to:- Land Forces C/O (SMIA)).

Subject : Equipment - Deficiencies.

Information has been received from the Land Forces C/O (SMIA) that the San Marco Regiment retained a certain quantity of vehicles, stores and equipment which is now required by the Garibaldi Regiment.

2. Observing therefore that the San Marco Regiment is partly being disbanded, it is requested that every facility and assistance be given the Ministry of War in effecting the transfer of these items required to the Garibaldi Regiment.

THE MINISTRY OF SUPPLY REPRESENTATIVE,
C/o THE BRITISH EMBASSY, ROME.
(Copies to:
The Flag Officer, Italy and Liaison.
The Head of the Navy Sub Commission, Headquarters,
Allied Commission.
The Naval Officer in Charge, Naples.
(Ref. No.187/51 dated 9th October 1945).
The Assistant Naval Store Officer, Rome.)

MATERIAL FOR THE MANUFACTURE OF DIVING SUITS.

It is requested that you will arrange for the disposal of 2,000 metres of material specially woven for the manufacture of diving dresses now available and surplus to requirements at Naples.

2. The material was purchased in Italy at a cost of 280 lire per metre but the order for manufacture of the dresses was cancelled in view of the lack of progress made by the firm of diving dress manufacturers. The latter have now offered 300 lire per metre for the material presumably for making up dresses for the Royal Italian Navy, but it is presumed that the material will be transferred to the Royal Italian Navy direct.

THE CHIEF OF THE NAVAL SUB COMMISSION,
A.P.O. 394.
Copy to:-
The Vice Admiral Malta and Central Mediterrancean.

SUBJECT:- ACCOMMODATION IN ITALIAN SHIP "DUCA D'AOSTA".

In reply to your communication No. NSC/3502 dated 9th September, 1945., the Civil Cashier, Naples reports that in accordance with Admiralty instructions percentage charges are invariably added to the value of any services performed or stores issued for other than R.N. purposes. These charges - particulars of which are detailed in A.F.O. 2414/44, are designed to cover the overhead expenses of the Naval Establishment concerned with the supply, and vary according to the nature of the work or the origin of the stores issued. Furthermore such charges would be included in the price irrespective of whether payment is made locally or the cost noted against Italy in the central record maintained at the Admiralty, c.f. A.F.O. 1047/44.

2. With regard to your paragraph 2, it should be noted that by reason of exemption from taxes, the lower rate of overheads and profit, and prompt payment, the R.N. is able to obtain supplies locally at a more competitive price than are the Italian Government.

3. Payment of the sum of 92,750 lire has now been received from the Ministry of Marine.

CAPTAIN, ROYAL NAVY.

Subject : Accommodation in Italian ships "DUCA D'AOSTA".

With reference to your simile IV No.183/134 dated 25th August, 1945, addressed to the Flag Officer Italy and Liaison, the surplus charges in excess of the actual cost of construction i.e., percentage 10% and surcharge on £1153-0-0 and the percentage and surcharge on £490-0-0 for the previous consignment is not understood, and an explanation is requested. Were these extra expenses actually incurred ?

2. The Navy Sub Commission is of the opinion that the Ministry of Marine should be charged for the actual cost of construction i.e., the amount the Ministry of Marine would have paid if they had undertaken the supply of this equipment direct.

To..... FLAG OFFICER LIAISON ITALY (ROME)
(Copy to : Senior Naval Officer, Western Italy).

With reference to No. FONAM 821-D-3 of the 27th April and Malta No. 214/c/2 of the 12th May, 1945, it has been reported by the British Naval Liaison Officer, "DUCA D'AOSTA" that 15 of the mess tables under consideration were converted into forms, which, together with the corresponding 30 forms, were utilized to make up a deficiency in the ship's cinema.

2. It is, therefore, requested that arrangements be made for a further supply to the ship of 15 Mess tables and 30 forms; the cost of construction to be charged to the Italian Authorities, irrespective of the final decision as to who is chargeable for the original supply.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

MESS TABLES AND FORMS FOR USE OF BRITISH DRAFTS.

FROM: British Naval Liaison Officer, R.I.E.F. DUCA D'AOSTA.

DATE: 4th January, 1945. No. 2/6.

TO: VICE ADMIRAL, MALTA.

When messdecks are cleared for accomodating British drafts onboard AOSTA, the Italian messtables and forms are used and ten men allotted to each table. Ship can muster barely twenty sound tables and under forty using broken ones. This leaves the Italians without mess furniture of any sort and the Captain has complained that his men are forced to eat seated on the decks. The tables and forms are in a filthy condition. They were scrubbed by British drafts during forenoons on two occasions, but normally, drafts are not on board long enough to scrub down and would raise objections to doing so because the Italians would benefit.

2. In view of above it is requested that consideration be given to supplying, for use of British drafts, 40 collapsible mess tables and 80 forms, these to be stowed away in separate space when not in use.

Prot. N.° Sm/15707 Allegati

Roma, 1 AGO. 1946 19 A

Al NAVY SUB COMMISSION
ROMA

ARGOMENTO: Approvvigionamento cuoiami.-

Da segnalazione pervenuta dal Centro Marina Milano risulta che il Capitano Trussel Capo dell'Ufficio Allied Forces Local Resourses Section di Milano, incaricato del controllo del cuoio per calzature in quella Regione, è giunto a Roma per esaminare presso L'Ufficio competente Alleato il fabbisogno delle calzature per le FF.AA. Italiane.

Si pregherebbe teher presente che per far fronte alle più urgenti necessità, occorrerebbe che alla Regia Marina Italiana fossero assegnate per lo meno 20000 paia di calzature o un corrispettivo quantitativo di cuoiami.

To H.Q.
ALLIED COMMISSION,
Industry S/C,
Rome.

SUBJECT/: Diving suits production.

1. Reference your letter AC/5603/IND.,dtd. August 8th, 1945.

2. We have not been able up to now to give informations requested, as we had to ask details to our Milan Head-Offices.

3. We have just received communication from Milan stating that our Head-Offices have decided to put immediately at your disposal:

No. 12 diving suits, Model "Spezia"
at the price of £. 16,000.- (sixteenthousand)
each, payment by cash on delivery at our
plant of Milan-Bicocca.

The suits will be contained in cardboard boxes costing £.64.- each.

4. As regards the further supply of 10 suits, our Milan factory could produce them on condition that you give us the necessary raw materials,requirements of which are as follows for each suit:

- Natural rubber	176 grms.
- Synthetic rubber	3546 "
- Cotton fabric,1,65 mts.height	7,90 mts. = Kgs.5.650 raw cotton
- Linen cloth	50 grms.
- Benzin	2 Kgs.
- Benzol	1,200 Kgs.
- Alcohol	100 grms.

COPY DESPATCHED ON
Allied Forces Local Resources Section's
letter No. LRS/591/S/107 of 14th August,
1945.

From : Navy Sub Commission, W.O., Allied Commission.
To : Commander-in-Chief, Mediterranean Station.
(Copy to :- Flag Officer Italy and Liaison).

Subject : Supplies to the Italian Navy.

Forwarded for information with reference to Sec.17/0060/30(A) dated 23rd July, 1945, and in continuation of NSC/3265 of the 19th August, 1945.

2. Italian Navy demands will, therefore, be examined initially by the Navy Sub Commission in conjunction with the Corsican Sub Commission and the Allied Forces Local Resources Section, Rome, with a view to eliminating any items that can be provided from local resources. This procedure has already been carried out when the half yearly demand for Naval Stores was examined prior to forwarding to Commodore Superintendent Taranto.

3. It is confirmed that a substantial amount of maintenance stores required by the Italian Navy are now available in Northern Italy especially from captured enemy material.

AVAILABILITY REPORT NO. 19

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be borne in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirous of acquiring any of the items on the enclosed list first approach the Provincial Supply Officer, AICOM concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

NSC/3301.
20th August, 1945.

FILE

From : Navy Sub Commission, Hq., Allied Commission.
To : Ministry of Marine, Rome.

Subject : Request for materials from local stocks.

Full consideration has been given to Ministry of Marine's letter No.SM/16309 dated 9th August, 1945, with the result that the release of the materials required by the Italian Navy has been obtained.

2. The enclosed Release Orders No.2763 and 2764 in respect of 6 tons of tin and 4 tons of white metal for bearings valid up to the 31st August, 1945 , are forwarded for necessary action.

3. In this connection the Ministry of Marine is informed that non-ferrous metals i.e. Solder, Tin, and white metal for bearings, are now no longer controlled items and can be obtained on the open market or through the Ministry of Industry and Commerce.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

From: MINISTRY OF MARINE (Maristat)
To : N.S.C. - Rome
Date: 9 August 1945
Ref.: SM/16309

Subject: Request for materials from local Stocks.

Reference is made to your NSC/3062 of 31 July, 1945.

1. It is confirmed that the request for tin and white metal reflects an essential need insomuch as the I.R.N. has suffered from the scarcity of these supplies in the past.

2. In clarification of the purposes of these requirements you are informed :-

a) that the white metal is to be used as an antifriction material on the internal surfaces of the bearings of the turbines and their associated machinery on board Italian ships; this work is due in great part to the difficulties of lubrication which have appeared as indicated to F.O.I.L. in my SM/3805 of 26 February '45;

b) that to a great extent the tin is to be used similarly since it is an essential ingredient in the various kinds of anti-friction metal which are used on the stern-tube brackets of I.R.N. ships.

ROMA

ARGOMENTO: Richiesta di materiali delle riserve locali.-

Riferimento foglio NSC/3062 del 31 Luglio 1945.

I. - Si conferma che la richiesta di stagno e di metallo bianco risponde ad imprescindibile necessità, in quanto la R. Marina già in passato si è trovata a dover sostenere la penuria di tali approvvigionamenti.

2. - In merito agli scopi della richiesta, si chiarisce;

a) che il metallo bianco dovrà essere utilizzato come materiale di riporto (antifrizione) sulle superfici interne dei cuscinetti delle turbine, e dei relativi macchinari, a bordo delle navi italiane; - Questi lavori sono conseguenti in massima parte, agli inconvenienti verificatisi alla lubrificazione, come comunicato al FOLI con mio foglio SM/3805 del 26-2-1945;

b) che lo stagno dovrà essere utilizzato in gran parte per lavori dello stesso genere, in quanto destinato, come ingrediente essenziale, alla formazione delle varie qualità di metallo antifrizione da riportarsi alle boccole-

AVAILABILITY REPORT NO. 18

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be borne in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirous of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer, ALCOM concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

AVAILABILITY REPORT NO. 18

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be borne in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirous of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer, ALCOM concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

AVAILABILITY REPORT NO. 16

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be borne in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirous of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer, ALCOM concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

AVAILABILITY REPORT NO. 17

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be borne in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirous of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer, ALCOM concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

AVAILABILITY REPORT NO. 15

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be borne in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that services, desirous of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer, ALCOM concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

RELEASE ORDER No. 1830 dated 24th January, 1945.
To Commander in Chief, Mediterranean Station (for the Italian Navy).

With reference to the above numbered release, allocating 2,000 square feet of upper leather to the Italian Naval Authorities, Flag Officer Liaison, Italy, Rome, has been advised by the Italian Ministry of Marine, that, when the order was presented to the Ministry of I.C.& L., they were informed that no leather was available.

2. It is requested therefore, in view of the priority given to the Italian Armed Forces in leather supplies, that this matter may be investigated as soon as possible please.

4th January, 1945.

No. L.191/16.

MINISTRY OF MARINE,
ROME.

DEMAND FOR RELEASE OF SHOE-MAKING MATERIALS.

With reference to your letter No SM/32434 of 21st December, 1944, stocks of clothing and materials in Italy are under the control of the Italian Ministry of Industry, Commerce and Labour to whom application for the release of the items required should be made.

(Sgd.) I. M. PALMER.
for REAR ADMIRAL.

From: I.R.N. Staff Office
To : F.O.L.I. - Rome
Date: 21/12/44
Ref.: SM/32434

Subject: Demand for Release of Shoe-making Materials.

This Ministry has placed an order with Calzaturificio "GIGLIO" (Ugo and Mario MANCINI) - Via Gioberti 61, Florence - to supply 8000 in N° pairs of boots which are urgently required for I.R.N. personnel.

This firm points out that it can execute this order if the following materials and quantities are released:-

a)	Crosta ingrassata da tomaia	kg.	1640
	Cuoio macello per suola e guardolo	"	2940
	Croste di cuoio suoletta	"	420
b)	Vitellone ingrassato al naturale	Pq.	6500
	Cuoio macello per suola e guardolo	kg.	2300
	Croste di cuoio a suoletta	"	400
c)	Vitello al cromo nero	Pq.	7800
	Cuoio & macello per cuoio e guardolo	kg.	5460
	Croste di cuoio a suoletta	"	730

translation attached

As the supply of footwear from Allied Authorities, even if based on immediate requirements as submitted to F.O.L.I. in July last, is absolutely inadequate to cover I.R.N. needs, your Command is requested to kindly approach Allied Authorities concerned with a view to the above materials being released as soon as possible. Same are already in the firm's possession and in large part they are semi-prepared and ready to be manufactured.

36. LEATHER BELTING:

A report was received from HQ, AC on the position of leather belting for the month of JAN 1945 as follows:

(a) Stocks on hand on 27 DEC 1944	1,757 Metres
Production during the period	4,795 Metres
	6,552 Metres
(b) Deliveries during the period	4,442 Metres
(c) Stocks on hand on 26 JAN 1945	2, 110 Metres

On 26 JAN 1945 Release Orders for 7,535 metres have been unfulfilled. The Committee decided that all outstanding release notes should be cancelled and that in future HQ, AC would report the actual stocks of belting produced during the month and available for collection in order that proper allocation could be ma de by the Committee, release notes issued by AFLRS, and collection effected by units, thus eliminating the delay and uncertainty experienced in the past.

37. LEATHER SUPPLIES:

The Board's Approval to the scheme proposed by HQ, AC to increase the availability of leather was noted. The Committee agreed that all outstanding release notes should be considered as cancelled and that in future only stocks available should be reported by AQ, AC for allocation and not the estimated production during the ensuing month as in the past.

Subject : Supply of Welding rods and Calcium carbide.

The attached correspondence with the British Naval Liaison Officer, Maddalena, is forwarded for information and necessary action for the inclusion of Marinist, Maddalena's requirements in those for the Italian Royal Navy generally.

2. A small allocation of Calcium carbide was made in Navy Sub Commission letter No.2110 of the 11th April, 1945, but the quantities required at Maddalena are probably too great to permit of supply from this release.

3. It is emphasised that the materials for Marinist are urgently required.

Supply of welding rods and calcium carbide.

Reference your letter No. NSC/1934., dated 22nd March, 1945. The present history is as follows :-

(a) The Department concerned here, MARINEST, made a request to MARITAT(Rome) on 13th January, 1945., in letter No.403 for :-
50,000 Weldingrods
4,000 kilos calcium carbide
This was for a six month's supply.

(b) The same Department, having had no reply to (a), made a signal number 967, to MARICOST (Naples) asking them to buy 10,000 welding rods for them to go on with. This was made on 24th January, 1945.

(c) Having had no reply to (a), or (b) they made a signal number 1997 on 14th February, 1945 to MARICOST (Taranto) asking them to supply 20,000 rods.

(d) Having had no reply to (a), (b) or (c), they wrote a letter of 24th March, 1945, number 3391, to MARICOST (Rome) for 13,000 welding rods and 1,000 kilos of calcium carbide for a special job of building a cradle for a slip-way.

(e) Having had no reply to (a), (b), (c) or (d) they wrote a letter on 27th March, 1945 to MARICOST (Rome) referring to (a) and numbered 3471 asking for 10,000 welding rods and 3,000 kilos of calcium carbide.

2. Two trawlers are based here (and Allied merchant ships visit the Port) and they all require occasional repairs. Certain Italian craft

50,000 Welding rods
4,000 Kilos calcium carbide
This was for a six month's supply.

(b) The same Department, having had no reply to (a), made a signal, number 967, to MARICOST (Naples) asking them to buy 10,000 welding rods for them to go on with. This was made on 24th January, 1945.

(c) Having had no reply to (a) or (b) they made a signal number 1997 on 14th February, 1945 to MARICOST (Taranto) asking them to supply 20,000 rods.

(d) Having had no reply to (a), (b) or (c), they wrote a letter of 24th March, 1945, number 3391, to MARICOST (Rome) for 13,000 welding rods and 1,000 Kilos of calcium carbide for a special job of building a cradle for a slip-way.

(e) Having had no reply to (a), (b), (c) or (d) they wrote a letter on 27th March, 1945 to MARICOST (Rome) referring to (a) and numbered 3471 asking for 30,000 welding rods and 5,000 Kilos of calcium carbide.

2. Two trawlers are based here (and Allied merchant ships visit the Port) and they all require occasional repairs. Certain Italian craft (tugs, minesweepers and landing craft) are operated directly or indirectly in the Allied interest. All repairs are done by the Royal Italian Naval yard, by whom the welding rods and calcium carbide are required.

Declassified E.O. 12065 Section 3-402/NNSC No. 785020

1945. The present history is as follows : -

(a) The Department concerned here, MARDIST, made a request to MARISTAT (Rome) on 13th January, 1945., in letter No. 403 for :-

50,000 Welding rods
4,000 kilos calcium carbide

This was for a six month's supply.

(b) The same Department, having had no reply to (a), made a signal, number 967, to MARICOST (Naples) asking them to buy 10,000 welding rods for them to go on with. This was made on 24th January, 1945.

(c) Having had no reply to (a) or (b) they made a signal number 1997 on 14th February, 1945 to MARICOST (Taranto) asking them to supply 20,000 rods.

(d) Having had no reply to (a), (b) or (c), they wrote a letter of 24th March, 1945, number 3391, to MARICOST (Rome) for 13,000 welding rods and 1,000 kilos of calcium carbide for a special job of building a cradle for a slip-way.

(e) Having had no reply to (a), (b), (c) or (d) they wrote a letter on 27th March, 1945 to MARICOST (Rome) referring to (a) and numbered 3471 asking for 30,000 welding rods and 5,000 kilos of calcium carbide.

AVAILABILITY REPORT NO. 14

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be borne in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirous of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer, AMG concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

ARGOMENTO. Richiesta di legno per la Marina Italiana, a Napoli.-

Riferimento foglio NSC/2001 in data 29.3.1945.-

1. - La richiesta di legno, di cui è oggetto il foglio a cui si fa riferimento, risponde ad effettiva necessità, relativa all'allestimento di bersagli per le esercitazioni di tiro della Marina Italiana.
2. - Nel comunicare che sarà chiarita alle dipendenti Autorità della R. Marina la procedura da seguire circa le richieste di materiali alle Autorità Alleate, si prega voler disporre affinchè la Resources Section Napoli venga incontro all'approvvigionamento del sottosegnato materiale, a favore del Comando in Capo del Basso Tirreno Napoli.

OFFICE OF THE OFFICER LIAISON ITALY, ROME.

(Naval Sub Commission)

STAFF MINUTE SHEET.

Subject Iron + Steel Requirements Pack No.

My of M's Sm 3281/ of 19th Feb. 1945.

Referred to

~~Army~~.

Can you give any lead please?

F. H. Thomas

27/2.

A catalogue of mild steel sections, plate and sheet, rolled in liberated Italy has been published by D.E.P.S, and the sizes of the material produced at TERNI and elsewhere are shewn in that booklet. The lack of definite detail, etc. in M. of M's letter makes it quite impossible to 'marry' their requirements to the standard manufactured articles. Thickness of plates and sheets, length, breadth, etc..., and diameter of bolt-steel are essential.

2. Raw and special materials (cast-iron ingots, nickel-steel, zinc-iron, etc) will no doubt be essential to maintain the present operation and output of the works, and it is hardly possible that such items would be released. They have never been reported for allocation at an A.F.H.Q.S. meeting.

3. A naval steel bid is entered at each Engr. Materials Committee meeting - these reqts. would have to be similarly dealt with - if M. of M. comply with D.E.P.S' catalogue sizes, etc.. and cut out some of their "fancy" descriptions. I am endeavouring to obtain a catalogue for the M.M. 1:87½

H. H. Morell 1/3.

10 August 1944.

SUBJECT : Italian War Material etc.
TO : Regional Commissioners, Region I - IX & "Z".
Provincial Commissioner, Foggia Province
S.C.A.Os 5 & 8 Armies.

1. This constitutes a full authority for the Italian Armed Forces to collect all vehicles and other war material originally held on charge by them.

2. Attention is drawn to:

(a) AFHQ Circular 13 of 1 May 1944, which clearly states:

"Italian Material. All Italian Material belonging to all arms and services of the Italian Ground Forces and in the possession of the Italians at the time of the armistice is considered as Italian material and, except as otherwise directed by this headquarters is reserved for the use of the Italian Army under the direction of the Army Sub-Commission, Allied Control Commission.

(b) A.A.I. letter 2030/12/Q2 dated 1 July 1944, of which the following are extracts:

"Cases have occurred (particularly in ROME and other newly occupied localities) where property, transport and materials belonging to the Italian Froces have been removed from them without proper authority and when the operational need for such action no longer existed".

"In future no buildings, real estate, transportation or other materials belonging to the Italian Armed Forces, or in the possession of effective units of the Italian Navy, Army or Air Froce, will be occupied, requisitioned, seized or made use of without prior reference to this H.Q."

"The Italian Commanders concerned have been authorized to place notices on their property indicating its ownership. These notices will be respected."

3. Every assistance should be given to the Italian Armed Forces in their efforts to maintain themselves by the salving and collecting into Depots of war material scattered throughout the country.

4. When ownership of any material is in dispute the matter will immediately be referred to this HQ for investigation and final decision.

10 May 1945. FILE

From: Navy Sub-Commission, Hq., Allied Commission.
To : Ministry of Marine, Rome.

Subject: Alleged removal of Materials from "Industria Meccanica Napoletana", Naples.

1. Ministry of Marine letter GM 7785 of 20 April 1945 contained an allegation that R.E.N.N. personnel had removed four Froude brakes from Industria Meccanica Napoletana without authority and requested their return.

2. The investigation made as a result of the above referenced letter from the Ministry of Marine has disclosed that the four sets of dynamometer parts were acquired by requisition in the normal manner and requisition note number 443322 was prepared by the requisitioning unit for transmission to the owners. At the time of the requisition, all of the materiel in question was lying in a derelict state.

3. As all of the dynamometer parts are required by the requisitioning unit, it is regretted that it is necessary to inform the Ministry of Marine that it is impossible to return them as requested.

Enclosure: (A) Copy (translation) of Ministry of Marine ltr. SM 7765, dated 20 April 1945.

1. Reference (a) forwarded a copy of a Ministry of Marine letter which alleged that R.E.M.E. personnel had removed Italian Navy materials from the Silurificio Torpedo plants in the Naples area. Reference (a) also requested comments and recommendations for use as a basis of reply to the Ministry of Marine.

2. Enclosure (A) contains a similar allegation from the Ministry of Marine to the effect that R.E.M.E. personnel have removed four Froude brakes for S.I. Torpedoes from Industria Meccanica Napoletana.

3. It would be appreciated if an investigation could be initiated concerning the removal of material as reported in enclosure (A), and appropriate information forwarded to the Navy Sub-Commission for use as a basis of reply to the Ministry of Marine.

From: MINISTRY OF MARINE (Maristat)
To : F.O.L.I. - Rome
Date: 18.2.45
Ref.: SM.3239

Subject: Italian War Materials.

Further to letter N°1389 of 22nd ulto. from this Maristat.

1. F.O.L.I. is informed that towards the end of Jan. last a British Corp - E.M.E.D. at Terni, without any preadvice, proceeded to clear a section of the projectile site forming part of the Terni Steel-works, including some installations, constructed with I.R.N.'s assistance and necessary to the manufacture and storage of projectiles.

2. As the clearance is being carried out with bulldozers for roadwork, considerable damage has been done to machines, fittings, brickwork as well as to the projectiles.

3. Only after the intervention of I.R.N. representative at Terni did Allied Command arrange for the clearance to be continued using improved methods, and various materials which had been mixed up were salvaged.

4. To avoid a repetition of a similar happening and to safeguard finished installations and materials still extant at Terni of particular interest to I.R.N., it is considered advisable to define (or implement) the procedures mentioned in letters N°30460 of 13.12.44, N°655 of 11.1.45 and N°1389 of 22.1.45 from this Maristat.

To:- Distribution as attached.

1. (a) In that part of ITALY for which it is responsible the Italian Government is exercising a control over certain materials which do not appear on the "CONTROLLED" or "RESTRICTED" list of the AFLR (Italian)Board.

(b) With the consent of Allied Commission, the Italian Government has extended its control of such items into territory rear of Army rear boundaries still under Allied Commission jurisdiction.

(c) A list of the materials affected is given in Appendix "A".

2. It is not the intention that the control by the Italian Government of the items enumerated should in any way prevent duly authorised agents of the Allied Forces from obtaining supplies as required.

3. To assist the Italian Government in its task and to avoid delay, all purchasing orders or similar documents of authority issued by Services in respect of any of the items listed at Appendix "A" must be endorsed, prior to presentation, by the Italian Provincial Ufficio del Commercio e dell' Industria. This will also ensure that the person or firm holding the item concerned does not question his or its authority to release.

MATERIALS CONTROLS BY THE ITALIAN GOVERNMENT

METALS

1. Iron bars, iron plates, tin plates.
2. Steel - in blooms, ingots, billets and slabs - other than special machine and tool steel.
3. Structural steel, sectional dimension of 150 mm or less.
4. Aluminium in pig, ingots, plates or semi-finished materials. (rolled, drawn, powders, grains, etc.)
5. Scrap metals other than copper and lead.
6. Aluminium scrap.

BUILDING MATERIALS.

7. Trunks only of:- fir, larch, pine and chestnut trees, average sectional dimension not less than 15 cms.
8. Sawn timber of the above-mentioned trees (small boards, planks, big planks, cants, etc.) with the thickness of 20 mm or more.
9. Beams of the above-mentioned trees regardless of manufacture (sawn or hewn), sectional dimension not less than 15 cms x 15 cms.
10. Small beams of the above-mentioned trees regardless of manufacture (sawn or hewn), sectional dimension not less than 7 cms x 7 cms.
11. Slats of the above-mentioned trees regardless of their sectional dimension and length.
12. Glass sheet.

FUELS & LUBRICANTS

13. Greases for industrial purposes, excluding petroleum products.
14. Solvents (carbon tetrachloride, trioline) excluding petroleum products.

TEXTILE FIBRES

15. Artificial textile fibres.
16. Cotton, cloth and other textile products.
17. Binder twine and 3rd, 4th and 5th quality rope.

MISCELLANEOUS

18. Sulphuric Acid (pure, to be employed for electrical accumulators).
19. Sulphur Rock and processed sulphur.

MATERIAL REQUISITIONED BY ROYAL NAVY.

With reference to your communication Ref. AC/5615/40/IND dated 7th April, the machinery enumerated in the list attached thereto was requisitioned in the proper manner through 61 Area Headquarters by Lieutenant-Commander (E) R.S. MAY, R.N.R., during the time he was Base Engineer Officer on my staff.

2. This machinery is now being used 24 hours per day in the repair and maintenance of His Majesty's Ships. It's removal would result in a serious reduction in the repair facilities of Ancona dockyard, and unless replacements are available from other sources, the release of these machines cannot be considered in the near future.

(C.V. Jack),

SUBJECT : Requisitioned Machinery of Cecchetti Railway Wagon Works, Civitanova, Marche.

TO : N. O. I. C. Ancona.

1. Your 26/552 of 26th April 1945 is subject.

2. The reasons for which the machinery is being retained are accepted by this Headquarters.

3. An attempt will be made to secure replacements from local availabilities through the Engineering Materials Committee of the Allied Force Local Resources (Italy) Board, it being our understanding that you will then be prepared to release these machines.

4. In the meantime, it would be appreciated if you would examine the possibility of providing the owners with properly executed requisitions for the 4 lathes and 1 milling machine which have not, apparently, been covered by Lieut. Commander Kay's original requisitions.

SUBJECT : Reactivation of Cecchetti Wagon Works, Civitanova, Marche.

TO : N.O.I.C. Ancona.

1. The attention of this Headquarters has been drawn to the fact that the attached list of machines was removed from the above-named works by R.N. personnel (unit unknown), for use in the Ancona shipyards under your command.

2. Every assistance has been given to the owners by Headquarters 1 District, Military Railway Services and the Italian State Railways in reactivation of these works in view of the vital importance to the Armed Forces, and civil transportation of production and repair facilities for railway rolling stock which are totally inadequate at present.

3. The output of the works would be increased if the requisitioned machines could be traced and returned to the works, and it would, therefore, be appreciated by this Headquarters if an examination be made as to the possibility for their release.

4. It is hoped that the information given in the attached list will enable the requisitioning unit to be identified and the machines to be traced.

Prot. N.° Ann. 4 4 1 9 Allegati

ARGOMENTO. Tubo di ottone speciale per alta pressione.-

Prosecuzione mio foglio 1643 del 26 Gennaio 1945.-
Per la riparazione dei segnalamenti marittimi è indispensabile poter disporre dei seguenti materiali:

metri 100 tubo ottone speciale per alta pressione da m/m 2 x 4 di diametro.

metri 3.000 tubo ottone speciale per alta pressione da m/m 4 x 8 di diametro.

Tali materiali potrebbero essere forniti dalla SOCIETA' METALLURGICA ITALIANA di Livorno che risulta tuttora requisita dagli Alleati.

Si pregherebbe codesto F.O.M.I. volere intervenire affinchè la Società suddetta sia messa in condizioni di potere al più presto eseguire la fornitura richiesta.-
