1. OBJECT OF THIS DIRECTIVE

The object of this directive is to indicate the method of disposal of, and policies and conditions controlling the disposal of the remaining captured and/or surrendered enemy war material in the Mediterranean Theater. The following letters from this headquarters, as amended, are hereby rescinded:

AG 386 3/163 LOG-O, dated 22 June 1945, subject: "Disposition of Captured Enemy Material in ITALY".

AG 386.3/143 GCT-O, dated 9 April 1945, subject: "Allocation and Disposal of Enemy Material in GREECE".

AG 386.3/219 GCT-O, dated 3 August 1945, subject: "Disposition of Captured Enemy Material in AUSTRIA".

2. RESPONSIBILITY FOR THE CONTROL AND DISPOSAL OF ENEMY MATERIAL

a. The control of all enemy material in this theater is vested in the Supreme Allied Commander.

b. The allocation, use and ultimate disposal of enemy material is a responsibility of command, which will be exercised by you in accordance with the provisions of this directive.

3. OWNERSHIP

The property of all enemy material in this theater is vested in the Supreme Allied Commander.

RESTRICTED

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

4. LOCATION

The majority of enemy material available for disposition is located in ITALY and AUSTRIA. Therefore this directive has been prepared with full reference to disposal in these two countries. Where the policy varies for other countries within the theater, notes have been added indicating the different procedure to be applied.

5. DEFINITIONS

a. Captured or Surrendered Enemy War Material - (Hereafter referred to as enemy material) includes any material of whatever nature and wherever situated, intended for war on land, at sea, or in the air, which has been at any time in use by, or intended for use by, the armed forces, civil defence, or other formations or organizations under the control or influence of the German Governments, German authorities, or Governments or authorities of any states allied to, or associated with, GERMANY.

b. Disposal Authority is the military authority in whom is vested the power to dispose of enemy material.

6. PRINCIPLES TO BE APPLIED

a. Allied Naval, Ground and Air Force Responsibilities -

Enemy Naval, and Air Force material will be controlled and disposed of by the Allied Naval and Air Forces respectively. Enemy Ground Forces material will be controlled and disposed of by the Allied Ground Forces and co-ordination, where necessary, between the Allied Naval, Ground and Air Forces will be effected by the Ground Forces Commanders. The latter, in the appropriate cases, must be prepared to assist Allied Naval and Air Force Commanders in the control and disposition of material peculiar to the enemy Naval and Air Forces. Common user items will normally be the responsibility of the Allied Ground Forces.

b. Allied Ground Forces, Staff and Service Responsibilities for Control and Disposition of Enemy Material -

The responsibility for the control, safeguarding or disposition of all enemy Ground Forces war material is placed upon the Commanding Generals of all major commands in their respective areas. This responsibility will be exercised through the normal Allied Staff and Technical service channels appropriate to the type of material concerned. It is desired that arrangements made by each command be such that continuity of control can be maintained when changes of territorial command occur.

7. CONTROLLING AUTHORITIES AT AFHQ - The control of enemy material will be exercised by AFHQ through normal command and technical channels appropriate to the material concerned.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

8. POLICIES

a. Retention of material by units or individuals - Retention by units or individuals of such material unless properly authorized in accordance with this instruction, and other pertinent directives is forbidden.

b. Use of material by Allied Commanders - Authority is granted for the maximum use to be made of enemy material required for the support of Allied Forces in the accomplishment of their assigned mission (including essential civil requirements) or for the maintenance of enemy forces.

c. Recaptured material of Italian Military Origin - Recaptured material of Italian origin which is not required for military purposes, including maintenance of POW, will be turned over immediately to the Italian military authorities, for maintenance of the Italian Forces within the authorized ceilings. The channel of transaction in material of Italian Ground Force origin, which is to be returned to the Italian Army authorities, will be the Land Forces Sub Commission A.C (MMIA). Receipt for material so handed over will be taken by the issuing Allied Services and forwarded to this headquarters through normal service channels. All remaining recaptured Italian War material, not required for maintenance as above, will be reported to AFHQ and disposal instructions awaited, except that in the case of Naval and Air Force material, when the instructions of the Navy or Air Force Sub Commission of the Allied Commission, acting on behalf of the Allied Naval and Air Force Commanders, may be accepted.

d. War material of United States, British or other United Nation Origin

(1) It will be the policy for material of United States or British origin recovered from the enemy by recapture or surrender to be turned over to the American or British services normally responsible for the class of material concerned.

(2) War materials which can be readily identified as having been acquired during the war in any way by the Germans, from any United Nations, will be restored, providing however, that material susceptible only of warlike use shall be restored only when it can be identified as having been captured from the armed forces of any United Nation.

(3) Any enemy material, apparently previously belonging to any of the United Nations as defined above will be segregated and reported to this headquarters. Particular attention is requested in this theater to material of Russian, Czechoslovak or French origin.

Unclassified E.O. 12065 Section 3-402/NSDC NO. 785020

c. Enemy material required by the London Munitions Assignment Board
There still exists outstanding requirements of the London Munitions Assignment Board to meet global demands for enemy material. A list of these requirements is contained in this headquarters letter AG 386.3/163 SUP-O of 23 September 1945, as amended. A copy of the required items is attached at Appendix "A" for reference. Reports of availabilities of this material will be made in accordance with the letter under reference.

f. Enemy material required for research - A search list of enemy material required for research in U.K. and U.S. has been supplied to major commands and items on this list are still required by Technical Intelligence. This material when found, is regarded as Category 1.

g. German Naval Equipment - All material appertaining to ships and vessels of the German Navy (including armament, ammunition and supplies) which must be handed over to the power receiving the ships and vessels, will be safeguarded and reported through naval channels.

h. War Factories and War Factory Production - The policies contained in letter, this headquarters, file AG 385.3/087 GEG-O dated 2 August 1945, subject: "Policy on Italian Munitions Production" will apply.

i. Remaining Surplus Material - All enemy material surplus to the requirements contained in a and g above will be disposed of in the manner indicated in the following sections of this letter.

With the exception of vehicles - see paragraph 9 g below - if material is surplus within any one particular command, it will be assumed to be surplus to theater requirements, unless notification received to the contrary, and will be disposed of as indicated.

9. METHODS OF DISPOSAL

a. Enemy material suitable for use in the civil rehabilitation of the country - In order that the maximum use may be made of surplus enemy material in its present form, all such material having a value in the civil rehabilitation of a country will be made available immediately for disposal to the government of that country as follows:

(1) In ITALY (less Venezia Giulia and Udine Provinces) - To the Ministry of Transportation through the Allied Commission to ITALY.

(2) In VENEZIA GIULIA and Udine Provinces - To Allied Military Government XIII Corps.

(3) In AUSTRIA - To British Troops in Austria (Military Government Staff) and later to Allied Commission to Austria when responsibility for civil supply passes to them from Military Government Staff.

Ltr, AFHQ, AG 386.3 (AF)-O,
dated 2 October 45, (Cont'd)

(4) In other countries - To the respective Governments through the Allied Military agency in that country.

b. Captured Civilian Material

Captured material which is apparently of a civil character and surplus to known military requirements will be disposed of as in a above. The Governments or Allied Military Government of the country will be responsible for investigating and settling claims to ownership.

c. Enemy material unsuitable for civil use (excluding ammunition)

All enemy material surplus to know requirements and having no value in its present form, in the civil rehabilitation of the country will be disposed of by being rendered innocuous, reduced to scrap and disposed of by the normal Allied Salvage organization. As far as possible, and in order to reduce transportation commitments, the material will be reduced to scrap in situ. Salvage organizations will arrange for the disposition of the material through normal channels to the Government or Allied Military Government concerned, from the location where the material is reduced to scrap. It will be the responsibility of the command concerned to ensure that all enemy material is rendered of no further military value, in its existing form, before it is made available for disposal as scrap.

d. Chemical Warfare Equipment and Toxic Material

(1) All defensive chemical warfare equipment which may have a value in the civil rehabilitation of the country will be disposed of as in 9c above. All other defensive chemical warfare equipment will be reduced to scrap.

(2) All chemical warfare ammunition will be destroyed by dumping at sea. Dumping will take place at least 20 miles from the shore, in at least 250 fathoms of water and away from shipping routes, fishing grounds and submarine cables. The provisions of AFHQ Operation Memorandum Number 77 and of AFHQ Administrative Memoranda Numbers 14, 15 and 33 will be adhered to in connection with all movement of toxic material.

(3) Any PHOSGENE or DIPHOSGENE (Valuable materials for dyestuffs manufacture) in bulk will be released to the Government or Allied Military Government of the country in which it is found, for use only by reputable concerns whose plant can be subjected to suitable control, or such materials will be dumped at sea under conditions laid down in paragraph (2).

(4) Any other bulk toxic material will be treated as in paragraph (2) unless its transportation is considered dangerous, in which case it will be rendered innocuous by methods approved by the chemical warfare advisers. 1412

(5) Further instructions will be issued by Chemical Warfare Staffs.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

c. Ammunition

(1) All enemy mines, grenades, detonators and initiators, explosives, small arms ammunition and ammunition of 20 mm caliber or below and surplus to known military requirements will be destroyed by dumping in the sea, or lakes or by being exploded. Dumping will take place only in water of 50 fanthoms depth or more. Until destroyed, as indicated, enemy material of this nature will continue to be a guard responsibility of the command in whose area it is located. In the destruction of this material German personnel, under Allied supervision, may be utilized and if necessary, German technical units may be formed for the purpose.

(2) The location and quantities of all enemy ammunition, larger than 20 mm caliber, will be made known to the Government or Allied Military Government of the country concerned by the Command in whose area the material is located, through the Allied Commission or similar Allied agency. The Government or Allied Military Government of the country will then become totally responsible for the ammunition and will make the necessary arrangements with civilian firms, for the breaking down of the ammunition into its component parts. The Allied agency will be responsible for ensuring that the resultant products from the breaking down process, are not employed in the production of further armaments by the Governments of the countries. When the location and quantity of ammunition larger than 20 mm caliber has been made known to the Government or Allied Military Government of the country concerned, that organization will then be responsible for the safeguarding of the ammunition until its final disposal. Allied responsibility for safeguarding such ammunition will cease from the time that satisfactory arrangements have been made to this effect.

(4) Nothing in these instructions is to be regarded in any way as restricting the authority of addressees to dispose of ammunition, in any quantity, or in any manner considered suitable, which is in a dangerous condition, or constitutes a hazard to civil or military security.

f. Animals - Any enemy animals surplus to known military requirements will be reported to this headquarters and disposal instructions awaited.

g. Vehicles

(1) All captured enemy vehicles will be used to the fullest possible extent in order to save Allied transport. Whenever practicable, however, such vehicles will not be issued without workshop inspection, and never without WD numbers and full registration.

Declassified E.O. 12065 Section 3-402/5200 NO. 725020

3 "(1) The location and quantities of all ammunition of Italian origin situated in Italy will be made known to the Italian Government or, in the case of the provinces of Udine and Venezia Giulia, to the Allied Military Government concerned.

(2) The Italian Government or the Allied Military Government concerned will make immediate arrangements to take over the ammunition and will be totally responsible for its safe custody until its final disposal. The Italian Government or the Allied Military Government concerned will assume the responsibility, within a time limit to be set by mutual agreement with the competent Allied Military Commander, for safeguarding such ammunition.

(3) In the interest of Internal security the Italian Government or the Allied Military Government concerned will be instructed to concentrate for particular guarding all ammunition of 20mm calibre and below including mines, grenades, etc. They will be further instructed to place special guards on ammunition of a dangerous nature until its disposal. Commanders will satisfy themselves, when handing over, that such arrangements are in fact in hand. Such handover will only be at their discretion having regard to any operational directives to the contrary and to the maintenance of internal security.

(4) The Italian Government, or Allied Military Government concerned, will make necessary arrangements, and be totally responsible for the disposal of all ammunition of Italian origin whether by destruction, dumping or breaking down into component parts for use in the civil

(4) cont. reabilitation of the country. Products resulting from the breaking down processes will not be employed in the production of further armaments except as permitted by the Allied authorities. The Italian Government when making disposal will have regard to the requirements of the future Italian armed forces.

(5) . The Italian Government, or the Allied Military Government concerned, will be made finally responsible for the disposal of dangerous ammunition. However, present facilities for disposal afforded by the Allies will be continued as long as possible.

(6) Ammunition of Italian origin, located elsewhere than in Italy, will be disposed of as for captured ammunition of enemy origin.

Ltr, AFHQ, AG 386.3 Q(AM)-O
dated 2 October 45 (Co d)

1. Allied Force Headquarters letter file AG 386.3 Q (AM)-O dated 2 October 1945, paragraph 9g (3), states that "Italian military vehicles can usually be identified by two stars to be found on the engine".

2. The Italian Ministry of Marine states that it is having difficulty in recovering its motor vehicles from CE dumps because of the above statement, it being assumed in some instances that the two star identification applies to Italian Naval vehicles. The Italian Ministry of Marine further states that:

a. I.R.N. regulations have never provided for motor vehicles to be marked in this manner.

b. The only distinctive markings on I.R.N. motor vehicles are the engine and chassis numbers.

c. From information received it would appear that the above marking - two five pointed stars - was adopted by the Italian Army for several lots of motor vehicles.

d. All Italian manufacturers have been approached formally in the matter and have given assurance that in supplying motor vehicles to the I.R.N. in no cases have they used this marking to distinguish them from those supplied to the public.

141)

3. It is desired that information be promulgated to the effect that the two five pointed star identification does not hold true for Italian Naval vehicles.

deficiencies in unit establishments. Responsibility for repair of vehicles, proper registration, and provision of drivers for all vehicles handed over to them will be that of Allied Commission or MMIA as the case may be.

(4) Vehicles of other United Nation origin will be disposed of as in paragraph 8 d above.

(5) All other vehicles if surplus to the requirements of any particular command (including in Military Government areas requirements for civil relief to the extent needed to prevent disease and unrest) will be reported as surplus to this headquarters and disposal instructions awaited. If vehicles are surplus to theater requirements they will be disposed of as in paragraph 9 a above.

140)

(6) All non runners, unless earmarked for any other particular purpose, will be made available to and handed over immediately to the Government or Allied Military Government of the country under the terms of 9 a above for repair by the civil organization of that country.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

10. DISPOSAL OF MATERIAL IN MIDDLE EAST AND GREECE

Arrangements for the disposal of surplus enemy material in MIDDLE EAST and GREECE will be made to suit the locally existing conditions of those countries provided the policies established in paragraph 8 above are complied with at all times.

11. RECORDS

In order that any financial adjustments may be completed at a subsequent date records of all issues and receipts and material reduced to scrap will be maintained. Salvage organizations will record quantities and nature of scrap disposed of through normal salvage disposal channels. Copies of all records of transactions will be forwarded to G(AE)AFHQ, through service channels, for maintenance, of the records.

12. REPORTS Deleted in accordance with Nad 46/12561/2/1

a. Addressees will render reports, as called for by this directive as at 15th each month (commencing with 15 October 1945) to reach this headquarters by the 20th of the same month. No other monthly reports other than those shown below are required:

(1) Material of other United Nation origin giving description of type, quantity, serviceability and location.

(2) Requirements of London Munitions Assignment Board in accordance with paragraph 8 c above.

(3) Material of Italian origin and surplus to command requirements as defined in paragraph 8 c above.

(4) Vehicles surplus to the requirements of the command in accordance with 9 g (5) above.

Reports will give:

Numbers
Type etc
Classification of serviceability.

13. In the case that this directive is contrary to, or at variance with, other directives in this theater covering the same subject, this directive will govern.

HEADQUARTERS ALLIED COMMISSION
Office of the Chief Commissioner
APO 394

CC 551/52 26 September 1945

MINUTES

Vice Presidents' Meeting, 1000 hours, 26 September 1945, Chief Commissioner's Conference Room, Sq Allied Commission, Rome.

Present: Rear Admiral Stone, Brigadier Lush, Brigadier Anderson, Brigadier Carr, Colonel Perkins, Mr. McBride, Mr. Hopkinson, Air Vice Marshal Brodie, Major General Browning, Commodore Giroli, Colonel Cavko, Captain Poullec, Mr. Brown.

1. Restoration of Provinces to Italian Government

With Reference to para 2 of Minutes of 19 September 1945, the Chief Commissioner stated that no word has been received yet with respect to the transfer date. Based on reports of the regional commissioners and of Brigadier Carr, a signal has been dispatched to AFHQ stating that the transfer can be effected within ten days after receipt of notification of the authorized date. The signal also pointed out that redeployment was weakening the authority of AMG in the North, and requested notification of the date as soon as possible.

2. Reduction of Italian Army Pay

With reference to para 8 of Minutes of 19 September 1945, General Browning stated that a full report has been submitted to AFHQ on the proposed pay table for the Italian Army. There appears to be no basis for protest to the Italian Government.

3. Employment of German POW's in Naples

The Chief Commissioner reported that the labor unrest and recent disturbances in Naples were largely the result of employment of German POW's by U.S. military authorities on projects on which Italians could be used. The difficulty also arose out of the fact that the POW's were allowed to circulate while not under guard as drivers of trucks and at other times on the street and on trams. This led to disorders wherever Italians recognized them. In addition it had been reported that POW's were apparently being used as supervisors of Italian workers and were allowed to give orders to and search Italian drivers on leaving the dockyard. The AC has been protesting against this practice for some weeks, and on Saturday the Chief Commissioner sent a directive to AFHQ pointing out steps which could be taken to take the heat out of the situation. On Monday General McCarney met with a delegation of Italians. Press reports indicate that a number of the German POW's employed in the

missioner stated that no word has been received yet with respect to the transfer date. Based on reports of the regional commissioners and of Brigadier Carr, a signal has been dispatched to AFHQ stating that the transfer can be effected within ten days after receipt of notification of the authorized date. The signal also pointed out that redeployment was reducing the authority of AMG in the North, and requested notification of the date as soon as possible.

2. Reduction of Italian Army Pay

With reference to para 8 of minutes of 19 September 1945, General Brownlee stated that a full report has been submitted to AFHQ on the proposed pay table for the Italian Army. There appears to be no basis for protest to the Italian Government.

3. Employment of German POW's in Naples

The Chief Commissioner reported that the labor unrest and recent disturbances in Naples were largely the result of employment of German POW's by U.S. military authorities on projects on which Italians could be used. The difficulty also arose out of the fact that the POW's were allowed to circulate while not under guard as drivers of trucks and at other times on the street and on trams. This led to disorders wherever Italians recognized them. In addition it has been reported that POW's were apparently being used as supervisors of Italian workers and were allowed to give orders to and search Italian drivers on leaving the dockyard. The AC has been protesting against this practice for some weeks, and on Saturday the Chief Commissioner sent a direct to AFHQ pointing out steps which could be taken to take the heat out of the situation. On Monday General McNarney met with a delegation of Italians. Press reports indicate that a number of the German POW's employed in the Naples area will be repatriated and their jobs given to Italians. In response to a question by Colonel Cavko, the Chief Commissioner replied that the repatriation in his opinion meant return to Germany. Considerable progress has been made in alleviating the situation.

4. Political Resume

Mr. Hopkinson gave a brief resume of the general political situation. During the past week, the meeting of the Council of Foreign Ministers has held the attention of the Italian press. On the whole, the Italian attitude is one of cautious optimism. Surprisingly, there has been no reaction against the proposed international administration of Italian colonies. The Consultative Assembly convened yesterday. Gregorio Agnini was elected provisional president of the Consulta. He gave an anti-monarchist speech which was loudly applauded.

Mr. McBride stated that the so-called "American plan" for Italy as reported in the Italian press is not an official plan of the U.S. Government but one that has been more or less suggested editorially by American correspondents.

5. Italian Film Legislation

Mr. Brown reported that the film legislation in the same form as originally submitted has been approved finally by the Italian Government, which will permit foreign film companies to operate in Italy on the cessation of P.B.

6. Newspaper Attacks on Police

The Chief Commissioner asked Mr. Brown for a translation of the newspaper account attacking the Police. The Chief Commissioner observed that the Field Marshal has stated that he will not permit political attacks on any group under his command.

7. Wheat Pressing

With reference to para 11 of Minutes of 19 September 1945, Colonel Densmore stated that 61% of the wheat target now has been amassed. The situation is not too encouraging.

8. Economic Plans of the AC

Colonel Densmore reported that a Congressional committee had arrived in Rome to conduct a hearing on future economic plans for Italy. The Chief Commissioner instructed Colonel Densmore to give the following information as representative of the views of AC: The main burden of supplies for Italy is to be taken over by UNRRA. As to the functions of the AC in the future, that will depend on the action taken at London. It can be pointed out that economic support in addition to that furnished by UNRRA may be furnished on the U.S. side through the Export-Import Bank. It is expected that as AC closes, economic missions from both governments will operate from the embassies until such time as Italy regains a normal economy.

9. Italian Machinary and Stores in Austria and Germany

Brigadier Anderson reported that instructions have been received to notify the Italian Government that AFHQ will not undertake to handle claims for machinery and stores in Austria and Germany, but that the Italian Government will have to make such claims through regular diplomatic channels.

10. Disturbances in Lecce

Brigadier Carr stated that he had received reports of riots and disturbances in Lecce in protest against the high cost of living. Three persons were killed and about 40 wounded by the Carabinieri. Contrary to press accounts, no troops were used to quell the disturbances. The Chief Commissioner requested the Executive Commissioner to send the Bari Liaison officer immediately down to Lecce to get a full report on the situation.

11. Matters to be discussed by Consults

Declassified E.O. 12065 Section 3-402/NSC NO. 785020

8. Present Plans of AC

Colonel Denomme reported that a Congressional committee had arrived in Rome to conduct a hearing on future economic plans for Italy. The Chief Commissioner instructed Colonel Denomme to give the following information as representative of the views of AC: The main burden of supplies for Italy is to be taken over by UNRRA. As to the functions of the AC in the future, that will depend on the action taken at London. It can be pointed out that economic support in addition to that furnished by UNRRA may be furnished on the U.S. side through the Export-Import Bank. It is expected that as AC closes, economic missions from both governments will operate from the embassies until such time as Italy regains a normal economy.

9. Italian Machinery and Stores in Austria and Germany

Brigadier Anderson reported that instructions have been received to notify the Italian Government that AFHQ will not undertake to handle claims for machinery and stores in Austria and Germany, but that the Italian Government will have to make such claims through regular diplomatic channels.

10. Disturbances in Lecce

Brigadier Carr stated that he had received reports of riots and disturbances in Lecce in protest against the high cost of living. Three persons were killed and about 40 wounded by the Carabinieri. Contrary to press accounts, no troops were used to quell the disturbances. The Chief Commissioner requested the Executive Commissioner to send the Bari Liaison officer immediately down to Lecce to get a full report on the situation.

11. Matters to be discussed by Consulta

With reference to sub-para 3 of para 9 of Minutes of 19 September 1945, Brigadier Carr stated that he had asked Minister Brosio if the Consulta was to consider revision of the voting procedure and whether the suggestions made by the U.S. and British Governments were to be included. Minister Brosio seemed to be uninformed on this subject and took full note of the criticisms of the present procedure and gave his personal assurances that some action would be taken. The Chief Commissioner observed that the Prime Minister apparently considered this question lightly. The Chief Commissioner expressed astonishment at the apparent reluctance of the Italian Government to correct the archaic voting procedure.

12. Return of Motor Transport to Italian Armed Forces

With reference to para 12 of Minutes of 19 September 1945, General Browning stated that because of certain conditions which he believed had to be met to keep within the spirit of the AFHQ directive, considerable difficulty has

SECRET

Declassified E.O. 11652 Section 3-402/NSC Nr. 785020

been experienced in trying to work out a compromise. The Chief Commissioner requested that General Browning and Brigadier Lush meet with the interested parties and make every effort to arrive at a workable compromise as soon as possible.

13. AMG Seizure of Italian Army Property

General Browning stated that a report has been received that AMG in the North has seized certain property (clothing, mills and uniforms) belonging to the Italian Army. Such action is in direct violation of AFHQ orders. Brigadier Anderson stated that he had been advised that the report was in error or at least the actual facts were not as stated. The Chief Commissioner directed the Executive Commissioner to check into the matter.

14. Release of Personnel from AC

With reference to para 6 of Minutes of 19 September 1945, Colonel Martin reported that orders have been received reducing the critical score to 75 for U.S. officers and 70 for enlisted men effective 1st October, which will leave the 2675th Regiment with 134 officers and 163 enlisted men in November. However, there are two plans whereby officers may volunteer to remain for certain periods, and accordingly a dispatch is being sent to all regions. Officers not wishing to volunteer cannot be held by the Commission.

15. Strike in Venezia Giulia

The Executive Commissioner gave a brief report on the latest information on the general strike in Venezi Giulia which started Monday and continued through Tuesday. Public utilities, excepting trams, are functioning. No serious demonstrations have been reported.

CEM file Naval Liaison A.C.

SUBJECT: Handover of CEM to the Italian Government.

HQ No. 2 District, CMF.
1265/42.
29 Oct 45.

Distribution as Adm Instruction No 35 dated 23 Oct 45

The following instructions are issued in amplification of para 9 of this HQ Adm Instr No. 35 dated 23 Oct 45.

1. DEFINITION.

The word "dump" below refers to any collection of CEM other than a central Depot formed by this HQ. The word "Depot" refers to a depot formed by this HQ especially to contain CEM.

2. POLICY.

(a) It will be the responsibility of Areas and Sub Areas to organise the work on CEM dumps so that CEM can be made ready for handing over to the Italian Government in accordance with a definite plan and with a minimum delay.

(b) The quickest and best method of handing over is to hand over the dump complete, all stores of military value having been previously removed.

(c) Where this is not practicable, stores for release to Italian Government will be earmarked and listed and prepared for removal by the Italian Government agency.

3. FUNCTION OF UNRRA.

A civil organisation known as UNRRA has been authorised by the Italian Government to act on their behalf in the collection, acceptance and disposal of CEM. This organisation is responsible for providing the necessary guards and storemen for the dumps taken over and for the necessary transport and labour to remove stores that have been released. An UNRRA Liaison Offr will be attached to Area and Sub Area HQs.

4. METHOD OF HANDOVER.

(a) When dumps or stores are ready for handing over to UNRRA, Area and Sub Area HQs will: 1380

This organisation is responsible for providing the necessary guards and storemen for the dumps taken over and for the necessary transport and labour to remove stores that have been released. An UNRRA Liaison Offr will be attached to Area and Sub Area HQs.

4. METHOD OF HANDOVER.

(a) When dumps or stores are ready for handing over to UNRRA, Area and Sub Area HQs will:

1389

(i) report to this HQ stating:

| location of the dump or stores,
| the nature of the stores and approximate quantities.

(ii) notify the UNRRA Liaison Officer who will at once make the necessary arrangements to take over.

(b) On receipt of the info in para (a)(i) above, this HQ will obtain approval from W&D Sub Commission AC for the stores to be handed over to UNRRA.

(c) This HQ will notify Area/Sub Area as soon as agreement with AC has been obtained. Areas and Sub Areas will then arrange to hand over to the UNRRA Liaison Offr. After taking over, a stock list will be prepared by the UNRRA Liaison Officer who will hand two copies to the Area or Sub Area as a receipt, these will be forwarded to this HQ for onward transmission to AC and GHQ CMF.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

(d) From time to time this HQ will notify WMD Sub Commission AC of stores held in Depots or Dumps that are available to Italian Government. As soon as AC approval has been received this HQ will instruct Area/Sub Area concerned to release to URMIT Liaison Officer accordingly. Similarly AC will notify URMIT for information URMIT Liaison Officer concerned that this release has been authorised. Clearance will be effected forthwith.

(e) From time to time URMIT will apply through AC to this HQ for release of stores urgently required; applications will be made in English, in duplicate.

5. DUMPS OR DEPOTS ALREADY OCCUPIED BY URMIT OR ALCOM.

(a) No CEM in dumps or depots occupied by URMIT or ALCOM will be moved by any agency without a release form from this HQ.

(b) Mil requirements take priority as in other dumps, but releases already authorised by CG 5 US Army or HQ 1 District will normally be confirmed.

(c) Areas/Sub Areas will arrange inspections of such dumps and will forward list of stores needed to meet Mil requirements to this HQ which will issue release note.

(d) Applications for release of stores to URMIT will be made by URMIT through WMD S/C to this HQ. Applications will be in English in duplicate. 5 Army or HQ 1 District releases will accompany such applications where applicable. This HQ will issue the release to URMIT through WMD S/C.

6. ASSISTANCE TO URMIT.

Although it is the responsibility of URMIT to provide the means of taking over the dumps and stores released to them, there is no objection to Area and Sub Area Commanders placing transport and labour not otherwise required, at the disposal of the URMIT Liaison Officer, should he request this. The only proviso is that if German Units are employed they will not work under the orders of any Italian civilians.

2. Policies

(a) Retention of Materials by Units and Individuals

(i) Areas/Sub Areas may authorise retention by units of captured enemy eqpt held within [illegible] in lieu of WD stores, except that retention of vehicles may only be authorised by this HQ.

(ii) Retention of enemy eqpt surplus to WE will be authorised by this HQ in the case of Staff Controlled Stores and vehs in all other cases by Area/Sub Area concerned.

(iii) Retention of captured enemy eqpt without authority from the appropriate HQ is forbidden. Disposal instrs for un-authorised enemy eqpt will be given through the appropriate Staff or service channels.

(b) Use of Captured Eqpt

(i) Max use will be made of captured eqpt to assist in maint of Allied Forces (incl essential civil requirements) or surrendered forces. Where WD stocks are adequate for needs of Brit forces, German eqpt will be used first for needs of surrendered forces; where WD stocks are short it will be used first for needs of Brit Forces.

(ii) Any captured enemy material of mil or civ origin having in its present form value in the civ rehabilitation of Italy and being neither required under (i) above not disposed of specially under sub paras c-f below will be handed over to Italian Govt through AC. Except in the case of vehs (see para 10 below) any material surplus to known mil requirements in this Dist will automatically be assumed to be surplus to theatre requirements and will be disposed of to Italian Govt through AC. Further instrs will be issued.

(iii) Any captured enemy material having no value in its present form in the civ rehabilitation of Italy will be disposed of by being rendered innocuous and reduced to scrap by services concerned and disposed of by them. As far as possible, and [illegible] to reduce bpt commitments, the material will be reduced to scrap [illegible]. Services will arrange for the disposal of the material through AC to the Italian Govt from the loca where the material is reduced to scrap. It will be the responsibility of the Services concerned to ensure that all enemy material is rendered of no further mil value, in its existing form, before it is made available for disposal as scrap.

be given through the appropriate Staff or Service channels.

(b) Use of Captured Eqpt

(i) Max use will be made of captured eqpt to assist in maint of Allied Forces (incl essential civil requirements) or surrendered forces. Where MD stocks are adequate for needs of Brit Forces, German eqpt will be used first for needs of surrendered forces; where MD stocks are short it will be used first for needs of Brit Forces.

(ii) Any captured enemy material of mil or civ origin having in its present form value in the civ rehabilitation of Italy and being neither required under (i) above not disposed of specially under sub paras c-f below will be handed over to Italian Govt through AC. Except in the case of vehs (see para 10 below) any material surplus to known mil requirements in this Dist will automatically be assumed to be surplus to theatre requirements and will be disposed of to Italian Govt through AC. Further instrs will be issued.

(iii) Any captured enemy material having no value in its present form in the civ rehabilitation of Italy will be disposed of by being rendered innocuous and reduced to scrap by services concerned and disposed of by them. As far as possible, and in order to reduce tpt commitments, the material will be reduced to scrap in the area. Services will arrange for the disposal of the material through AC to the Italian Govt from the locn where the material is reduced to scrap. It will be the responsibility of the Services concerned to ensure that all enemy material is rendered of no further mil value, in its existing form, before it is made available for disposal as scrap.

13.7

(c) Recaptured Materials of Italian Mil Origin.

(i) It is the intention that recaptured material of Italian mil origin, except arms, surplus to any requirements under (b) above be handed over to the Italian mil authorities.

Stocks of Italian stores will be reported to Services at this HQ who will in turn notify Mil of Italy. MML will nominate the authority to whom such stores are to be handed over and this HQ will inform Areas/Sub Areas accordingly. Receipts for material so handed over will be taken by issuing Service and forwarded through Service channels to GHQ CMF. All remaining recaptured Italian war material not required for maint as above will be reported to this HQ and disposal instrs awaited except in the case of Naval and Air Force Material.
Instrs of the Navy or Air Force Sub Commission of AC may be accepted.

(ii) Italian Amn

A ruling from the Combined Chiefs of Staff as to the method to be adopted for the disposal of Italian amn is expected shortly. Until this ruling is received Italian amn will be left in situ. No action will be taken to destroy it or dispose of it by any other means

(iii) Recaptured Italian military vehicles - see para 10 (c) below.

(d) War Material of US or Brit origin

Will be returned to appropriate US or Brit Service.

(e) War Material French, Czech or Russian Origin

All recaptured material of French Czech or Russian origin will be segregated and reported separately to CCS CMF under arrangements to be made by appropriate Service at this HQ.

(f) Amn

(i) All enemy mines, grenades, demolition explosives and their ancillaries, initiators of rocket projectiles, small arms amn and amn of 20 mm calibre or below and surplus to know mil requirements will be destroyed by dumping in the sea or lakes or by being exploded. Dumping will take place only in water of 50 fathoms depth or more. Where such enemy amn in built up areas presents a hazard to civ or mil security it will be moved to a suitable site outside. Until destroyed, as indicated above, enemy material of this nature continues to be a guard responsibility of the command in whose area it is located. In the destruction of this material German personnel will be used under Allied supervision.

Reports will be forwarded through Service channels to this HQ as the conc of amn of the classes above is completed, and will give the locns and approx tonnages of amn contained in these dumps. Instrs for the mov of this amn to lakes or ports for dumping in deep water will then be issued.

(ii) The locn and quantities of all enemy amn larger than 20 mm calibre will be made known to the Italian Govt through AC. The Govt will then become totally responsible for the amn and will make the necessary arrangements with civ firms for the breaking down of the amn into its component parts. AC will be responsible for ensuring that the resultant products from the breaking down process are not employed in the production of further armaments by the Italian [illegible]

(iii) All Chemical Warfare amn will be destroyed by dumping at sea. Dumping will take place at least 20 miles from the shore in at least 250 fathoms water, and away from shipping routes, fishing grounds, and submarine cables. As special conditions are imposed on the movement of toxic material by rail, this amn will not be mixed with other mitures when loaded for movement to port for dumping. Locns will be reported to this HQ.

(iv) Any phosgene or di-phosgene (valuable materials for dye stuffs manufacture) in bulk will be released to the Italian Govt for use only by reputable concerns whose plant can be subjected to suitable control. Alternatively such material will be dumped at sea under conditions as in (i) above.

(v) Any other bulk toxic material will be treated as in (i) above unless its tpt is considered dangerous, in which case it will be rendered innocuous by methods, approved by the Chemical Warfare advisers, to be advised later if the circumstances arise.

(vi) Nothing in these instrs is to be regarded as in any way preventing the destruction of any quantitiy which is in a dangerous condition or consitutes a hazard to internal security. Areas/Sub Areas will report locns of such dumps to this HQ, which will make arrangements for its destruction. So far as practicable German personnel under Brit supervision will be used for this work.

(g) Animals

Any enemy animals surplus to known mil requirements will be reported to this HQ when disposal instrs will be obtained from GHQ CMF.

10. Vehicles

(a) Captured enemy vehs are to be used to the fullest possible extent to save Allied transport; their retention and issue in this Dist is controlled by G(SD2) this HQ.

(b) Captured enemy vehicles will not be taken into use without prior application through Staff channels to G(SD2) HQ 2 Dist under the terms of this HQ General Staff Instruction No 14 and GRO 848/45.

(c) It is the policy ultimately to return to certain Allied and Associated governments and the Italian government through AC and appropriate Military Missions vehs surplus to Allied requirements. No such transfers will however take place without written authority of G (SD2) this HQ. A directive on this subject giving full details is

10. Vehicles

(a) Captured enemy vehs are to be used to the fullest possible extent to save Allied transport; their retention and issue in this Dist is controlled by G(SD2) this HQ.

(b) Captured enemy vehicles will not be taken into use without prior application through Staff channels to G(SD2) HQ 2 Dist under the terms of this HQ General Staff Instruction No 14 and GRO 348/45.

(c) It is the policy ultimately to return to certain Allied and Associated governments and the Italian government through AC and Appropriate Military Missions vehs surplus to Allied requirements. No such transfers will however take place without written authority of G (SD2) this HQ. A directive on this subject giving full details is shortly to be issued.

CAPTURED ENEMY MATERIAL.

With reference to Med.45/00460/13(A) dated 29th May 1945, information has been received from the Supreme Allied Commander, Mediterranean, that it is not intended to institute the reports requested in Part I, para.4 (A) of the proposed directive forwarded under your NSC/1938 dated 31st March 1945, as it is considered that any material captured prior to the Armistice with Italy, especially consumable material, will have been used and ceased to exist by this time.

2. Instructions for the disposal of captured enemy material have now been issued by Allied Force Headquarters under AG 386.3/163 LOG-O dated 22nd June 1945, a copy of which is enclosed.

1. OBJECT OF THIS DIRECTIVE - The object of this directive is to indicate the manner of dealing with captured and/or surrendered enemy war material in ITALY. The following pertinent letters, this headquarters, are hereby rescinded:

AG 386.3/163 LOG-O, dated 22 April 1945, subject as above
AG 386.3/163 LOG-O, dated 2 May 1945, subject as above
AG 386.3/163 GCT-O, dated 13 May 1945, subject as above
AG 386.3/163 GCT-O, dated 9 June 1945, subject as above.

2. RESPONSIBILITY FOR THE CONTROL, ALLOCATION AND DISPOSAL OF ENEMY MATERIAL

a. The control of all enemy material in this theater is vested in the Supreme Allied Commander.

b. The allocation, use and disposal of enemy material (either captured in the course of operations or as a result of enemy disarmament following a surrender) is a responsibility of command, which will be exercised in accordance with the provisions of this directive.

3. DEFINITIONS

a. Captured or Surrendered Enemy War Material - (hereafter referred to as enemy material) includes any material of whatever nature and wherever situated, intended for war on land, at sea, or in the air, or which is, or may be, or has been at any time in use by, or intended for use by, the armed forces, civil defense or other formations or organizations under the control or influence of the German Government, German authorities, or Governments or authorities of any states now allied to or associated with GERMANY.

b. Withdrawal Authority is the military authority in whom power to authorize withdrawals is vested.

4. PRINCIPLES TO BE APPLIED

a. Allied Naval, Ground and Air Forces Responsibilities - Enemy Naval and Air Forces material will be dealt with and the necessary reports and returns made by the Allied Naval and Air Forces respectively, subject to such convenient adjustments as may be necessary to deal with cases where the enemy Naval and Air Services do not correspond in their scope with the Allied Naval and Air Services. Enemy Ground Forces material will be dealt with by the Allied Ground Forces and coordination, where necessary, between the Allied Naval, Ground and Air Forces will be effected by the Ground Forces Commanders. The latter in the appropriate cases, must be prepared to assist Allied Naval and Air Force Commanders in the location and guarding of material peculiar to the enemy Naval and Air Forces. Common user items will normally be the responsibility of the Allied Ground Forces.

b. Allied Ground Forces Staff and Service Responsibility for safeguarding and control - The responsibility for the taking over (or the collection where necessary) and the safeguarding of all enemy Ground Forces war material is placed upon the Commanding Generals of Fifth and Fifteenth Armies, Headquarters 1 and 2 Districts, and Commanding General Peninsular Base Section in their respective areas. This responsibility will be exercised through the normal Allied staff and technical service channels appropriate to the type of material concerned. It is desired that the arrangements made by Armies be such that continuity of management can be maintained when headquarters of 1 and 2 Districts and Peninsular Base Section take over Armies' areas in Northern ITALY.

5. CONTROLLING AUTHORITIES AT AFHQ - The control of enemy material will be exercised by AFHQ through normal command and technical channels appropriate to the material concerned.

6. CLASSIFICATION AND WITHDRAWAL -

a. Enemy Ground Forces war material will be classified as to categories by the authorities designated below. Notes amplifying classification and withdrawal are at Appendix "A" to this directive.

CATEGORY	DESCRIPTION	CLASSIFICATION AND WITHDRAWAL AUTHORITY
1.	Material required for intelligence purposes and technical research.	AFHQ
2.	Material required by the Supreme Allied Commander for use within his sphere of responsibility.	Ground Forces Commanders
3.	Material required for use in operations against any nations still remaining at war with the Allies.	AFHQ

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

4.	Material required for equipping national forces of liberated countries or for distribution among the United Nations.	AFHQ
5.	Material which requires special handling (e.g. Toxic Gases)	Classifying authorities: Ground Forces Commanders. Withdrawal authority: AFHQ

b. Any war material not placed in categories 1 - 5 above will be known as uncategorized material, for which AFHQ will be the withdrawal authority.

c. The powers of classification and withdrawal will under no circumstances be delegated to Italian Commanders.

7. REPORTS

a. Addressees will report as of the 15th of each month (commencing with 15 June 1945) to reach this headquarters by the 28th of the same month all serviceable captured enemy material in dumps. Initially such reports will be in broad terms and special efforts will be made to insure the fullest possible reports on material which is significant for maintenance of PCI or Allied troops including redeployment operations. In addition to the inventories called for above, addressees will as of the 15th of each month designate such material as is in excess of their requirements. The first report of excesses will be as of 15 July 1945.

b. No special reports are required in connection with material which is not repairable. It should be rendered innocuous (where necessary) and turned over to Allied military salvage organizations.

c. As of the 15th of each month (commencing with 15 June 1945) to reach this headquarters by the 28th of the same month addressees will report the following information in respect of all captured general purpose (B) vehicles showing vehicles of Italian make separately.

(1) Numbers and types organized into car/truck companies, held by units within establishments, or otherwise.

(2) Numbers and types handed over to other agencies.

(3) Numbers and types awaiting issue.

(4) Numbers and types awaiting repair.

8. PRIORITIES FOR TAKING OVER AND COLLECTION

a. Material will be taken over (or collected where necessary) in the following order:

1361

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

(1) Category 1.

(2) Category 2.

(3) Category 3.

(4) Other categories and uncategorized material as convenient unless otherwise ordered by this headquarters.

(5) Unserviceable material and scrap.

b. The order in which material in category 2 is to be taken over or collected will normally be as follows:

(1) Vehicles which are serviceable or a source of spares.

(2) Food, clothing and coal.

(3) Animals.

(4) Petrol, oil, lubricants (including containers therefor).

(5) Signal Stores.

(6) Medical, dental and veterinary stores, equipment and drugs.

(7) Technical railway stores and equipment.

(8) Docks and inland water transport, stores and equipment.

(9) Engineer stores and equipment.

(10) All other serviceable and repairable Ground Forces material.

9. POLICIES

a. Retention of material by units or individuals - Retention by units or individuals of such material unless properly authorized in accordance with this instruction and other pertinent directives is forbidden.

b. Use of material by Allied Commanders - Authority is granted for the maximum use to be made of enemy material required for the support of Allied Forces (including essential civil requirements) or for the maintenance of enemy forces.

c. Recaptured material of Italian Military Origin - Recaptured material of Italian Military origin which is not required for military purposes including maintenance of POW will be turned over immediately to the Italian military authorities for Italian maintenance. Such material may also be used by Italian troops for support of operations. The channel of transaction in material of Italian origin which is to be returned to the Italian military authorities will be [illegible]. Receipt for material so handed over will be taken

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

4.	Material required for equipping national forces of liberated countries or for distribution among the United Nations.	AFHQ
5.	Material which requires special handling (e.g. Toxic Gases)	Classifying authorities: Ground Forces Commanders. Withdrawal authority: AFHQ

b. Any war material not placed in categories 1 - 5 above will be known as uncategorized material, for which AFHQ will be the withdrawal authority.

c. The powers of classification and withdrawal will under no circumstances be delegated to Italian Commanders.

7. REPORTS

a. Addressees will report as of the 15th of each month (commencing with 15 June 1945) to reach this headquarters by the 28th of the same month all serviceable captured enemy material in dumps. Initially such reports will be in broad terms and special efforts will be made to insure the fullest possible reports on material which is significant for maintenance of PCJ or Allied troops including redeployment operations. In addition to the inventories called for above, addressees will as of the 15th of each month designate such material as is in excess of their requirements. The first report of excesses will be as of 15 July 1945.

b. No special reports are required in connection with material which is not repairable. It should be rendered innocuous (where necessary) and turned over to Allied military salvage organizations.

c. As of the 15th of each month (commencing with 15 June 1945) to reach this headquarters by the 28th of the same month addressees will report the following information in respect of all captured general purpose (B) vehicles showing vehicles of Italian make separately.

(1) Numbers and types organized into car/truck companies, held by units within establishments, or otherwise.

(2) Numbers and types handed over to other agencies.

(3) Numbers and types awaiting issue.

(4) Numbers and types awaiting repair.

8. PRIORITIES FOR TAKING OVER AND COLLECTION

a. Material will be taken over (or collected where necessary) in the following order:

1307

Declassified E.O. 12065 Section 3-402/NNBD NO. 785020

by the issuing Allied Services and forwarded to this headquarters through normal channels. All remaining recaptured Italian war material will be reported to AFHQ and disposal instructions awaited.

d. War Material of US, British, Russian, or French Origin

(1) It will be the policy for material of US or British origin recovered from the enemy by recapture or surrender to be turned over to the American or British services normally responsible for the class of material concerned.

(2) It will be the policy to return to the Russian and French authorities all material which was formerly the property of the Russian and French Governments. Pending further instructions all material that is apparently of Russian and French ownership will be segregated and reported to this headquarters.

e. War Factories and War Factory Production - The policies contained in letter, this headquarters, file AG 386.3/087 GEG-O, dated 11 February 1945, subject: "Policy on Italian Munitions Production" will apply.

f. Ammunition

(1) Attention is drawn to current instructions on the handling of enemy ammunition.

(2) Ammunition of German manufacture if in Category 3 and in original containers will be centralized in a few selected parks under arrangements to be made by addressees. German transport and personnel will be used for this purpose under Allied supervision.

(3) Small quantities of loose ammunition in unguarded dumps which constitute a hazard to life or property will, under arrangements to be made by MMIA, be reported by Carabinieri to the Italian Ministry of War. MMIA will authorize the destruction by the Italian Ministry of War without reference to this headquarters of all such small quantities of German or Italian ammunition. Explosives will, if not available in the dumps, be demanded by MMIA from Armies, Districts, or Base Section.

(4) Small Dumps of German and Italian ammunition (other than that in Category 3 in original containers) of 500 tons or less will be destroyed by the most suitable means by German personnel under Allied supervision. German technical units may be formed for this purpose. If practicable the brass will be recovered and be returned through Allied Army Salvage organizations.

(5) Larger Dumps of German and Italian ammunition in excess of 500 tons will be placed under guard, their contents reported and disposal instructions awaited.

Declassified E.O. 12065 Section 3-402/NNDC NO. 725020

(6) Nothing in these instructions is to be regarded in any way as restricting the authority of addressees to destroy ammunition in any quantity which is in a dangerous condition or constitutes a hazard to internal security, utilizing German personnel, under Allied supervision, for the work.

g. Animals

(1) It is expected that a large proportion of enemy-held animals will disappear before Allied control becomes effective. The remainder will be classified and where possible Mallein-tested and Preston-branded from numbers allotted to Armies by this headquarters.

(2) Animals required for the maintenance of surrendered German forces will remain under German army care and supervision.

(3) Animals in Categories 2 and 3 will be moved as soon as possible into Allied animal collecting centers. Separate instructions will be issued on this subject.

(4) The remainder will be handed over on temporary loan to civil authorities by A.G who will obtain receipts.

h. War Material alienated by the Enemy - Any alienation of war material by the enemy, out of the ordinary course of army administration (for example, materials which may have been sold to the civilians in anticipation of surrender) entered into within three (3) months before the date of surrender shall be provisionally regarded as voidable, and, if required, the material so alienated will be summarily recovered.

i. Repairs to Enemy Material - Except on instructions from this headquarters, no attempt will be made to repair enemy material other than that categorized as 1 and 2, but category 3 material will be preserved to the extent of being put in grease and under cover where appropriate. With the exception of category 1, enemy material may be modified as required for abnormal uses.

j. Passenger and Load-Carrying Vehicles

(1) To allow for the maintenance of enemy forces and in order to save Allied transport, car and truck companies of vehicles of German make, by types, will be formed. Whenever practicable, however, such vehicles will not be issued without workshop inspection and never without WD numbers and full registration.

(2) The issue of enemy vehicles to existing Allied units will be permitted only in cases where such units have deficiencies in their TEs (WEs).

Declassified E.O. 12065 Section 3-402/NNBC No. 785020

(3) Italian Army vehicles captured after the armistice with Italy will be dealt with in accordance with Section II, AFHQ Circular Number 5, 1945, and returned to the appropriate Italian authorities through MMIA. All other captured Italian vehicles whether requisitioned or not will be turned over to Allied Commission. Italian vehicles are defined as vehicles of Italian make. Italian military vehicles can usually be identified by the R-E on the dashboard or instrument panel. If doubt arises as to whether a vehicle of Italian make is a civilian or military vehicle, such vehicle will be turned over to MMIA who will determine the ownership and subsequent allocation in conjunction with Allied Commission. Receipts for all vehicles handed over to Allied Commission or MMIA will be obtained. As the retention of vehicles of Italian make against deficiencies in unit establishments is, at present, authorized, the ultimate hand-over to Allied Commission or MMIA of such vehicles may be postponed until further orders are issued by this headquarters. Every effort will be made to hand-over to MMIA all stocks of spare parts including tires for Italian military vehicles which are marked with R-E or are otherwise identifiable as having been the property of the Italian Ministry of War. Stocks of spares for Italian civilian vehicles will similarly be handed-over to Allied Commission or in doubtful cases to MMIA. Sufficient spares may be retained for such Italian vehicles as are held against deficiencies in Unit establishments. Addressees will not normally be responsible for repairing vehicles of Italian make before they are handed over to Allied Commission or MMIA. The responsibility for insuring the proper registration of, and the provision of drivers for all vehicles handed over to them will be that of Allied Commission or MMIA as the case may be.

k. Captured Civilian Material

(1) Captured material, which is not required for military purposes including maintenance of POW, which is apparently of a civil character and of Italian origin will be turned over to Allied Commission or AMG as appropriate, who will investigate ownership and authorize its return to its owners under such financial arrangements as may be appropriate. Material of this character, the ownership of which cannot be determined, will be disposed of by sale or otherwise as Allied Commission may determine. Proceeds of sales will be deposited in the Allied Finance Agency under Allied Commission direction and held pending further instructions from CCS.

(2) Captured German civil material which is not required by the controlling service at this headquarters will be turned over to Allied Commission for disposal as above.

Ltr, AFHQ, AG 386.3/163 LCG-O,
dtd 22 June 1945 (Cont'd)

(3) Captured civil material, which is of neither German or Italian origin will be reported to this headquarters and disposal instructions awaited.

1. (Salvage (Scrap) - Unrepairable enemy ground forces war material for which there is no further use, will be regarded as salvage (scrap) and will be dealt with in accordance with existing procedures.

HOMES OF CLASSIFICATION AND WITHDRAWAL OF ENEMY WAR MATERIAL

1. CATEGORY 1 MATERIAL. AFHQ will be responsible for indicating to addressees (by means of a list or through liaison officers) what material is to be placed in Category 1 and where it is to be consigned. Material thus placed in Category 1 is not available for any purpose. AFHQ is responsible for maintaining records of all material withdrawn under their authority.

2. CATEGORY 2 MATERIAL. Addressees, subject only to limitation in 1 above, will place any material which they need or are likely to need in Category 2. They will maintain simple records of all Category 2 material which they put or use to be withdrawn (e.g. copies of the documents authorising depots to make issue). Addressees will not prepare consolidated returns of material thus used until ordered by this headquarters.

3. CATEGORY 3 MATERIAL. A list of Category 3 material which may be required for the FAR EAST is attached as Appendix "B". Addressees will locate such material and report the quantities held to this headquarters. Such inventories must be accurate and the material so reported must be frozen. AFHQ will declare how much of this material is to be placed in Category 3. AFHQ will be responsible for issuing disposal instructions and maintaining the records of withdrawals of Category 3 material.

4. CATEGORY 4 MATERIAL. If the policy in connection with the equipping of liberated armies is announced during the period this headquarters will issue a list of material that might be required under Category 4. The procedures will then be as for Category 3 material in paragraph 3 above.

5. CATEGORY 5 MATERIAL.

a. Material which must be destroyed for any reason e.g. perished foodstuffs, dangerous ammunition, will be placed in Category 5 by the addressees and destroyed. Simple records in broad terms of material which has been thus destroyed should be maintained by the addressees (e.g. a copy of the authorization to destroy the material). No returns of such destructions are required from the addressees until ordered by this headquarters.

b. All stocks of Toxic Gases will be placed in Category 5 and if practicable aggregated under normal safety precautions. The approximate tonnages by types of fillings and locations will be reported to this headquarters, which will then give disposal instructions. Isolated stocks of less than 100 tons may be destroyed by any suitable means if such destruction would help to reduce guarding, transportation, or any other problem.

9. Policies

(a) Retention of Materials by Units and Individuals

(i) Areas/Sub Areas may authorise retention by units of captured enemy eqpt held within ME in lieu of WD stores, except that retention of vehicles may only be authorised by this HQ.

(ii) Retention of enemy eqpt surplus to ME will be authorised by this HQ in the case of Staff Controlled Stores and vehs in all other cases by Area/Sub Area concerned.

(iii) Retention of captured enemy eqpt without authority from the appropriate HQ is forbidden. Disposal instrs for un-authorised enemy eqpt will be given through the appropriate Staff or Service channels.

(b) Use of Captured Eqpt

(i) Max use will be made of captured eqpt to assist in maint of Allied Forces (incl essential civil requirements) or surrendered forces. Where WD stocks are adequate for needs of Brit Forces, German eqpt will be used first for needs of surrendered forces; where WD stocks are short it will be used first for needs of Brit Forces.

(ii) Any captured enemy material of mil or civ origin having in its present form value in the civ rehabilitation of Italy and being neither required under (i) above not disposed of specially under sub paras c-f below will be handed over to Italian Govt through AC. Except in the case of vehs (see para 10 below) any material surplus to known mil requirements in this Dist will automatically be assumed to be surplus to theatre requirements and will be disposed of to Italian Govt through AC. Further instrs will be issued.

(iii) Any captured enemy material having no value in its present form in the civ rehabilitation of Italy will be disposed of by being rendered innocuous and reduced to scrap by services concerned and disposed of by them. As far as possible, and in order to reduce tpt commitments, the material will be reduced to scrap in situ. Services will arrange for the disposal of the material through AC to the Italian Govt from the loca where the

(ii) Retention of enemy eqpt surplus to WE will be authorised by this HQ in the case of Staff Controlled Stores and vehs in all other cases by Area/Sub Area concerned.

(iii) Retention of captured enemy eqpt without authority from the appropriate HQ is forbidden. Disposal instrs for un-authorised enemy eqpt will be given through the appropriate Staff or Service channels.

(b) Use of Captured Eqpt

(i) Max use will be made of captured eqpt to assist in maint of Allied Forces (incl essential civil requirements) or surrendered forces. Where WD stocks are adequate for needs of Brit Forces, German eqpt will be used first for needs of surrendered forces; where WD stocks are short it will be used first for needs of Brit Forces.

(ii) Any captured enemy material of mil or civ origin having in its present form value in the civ rehabilitation of Italy and being neither required under (i) above not disposed of specially under sub paras c-f below will be handed over to Italian Govt through AC. Except in the case of vehs (see para 10 below) any material surplus to known mil requirements in this Dist will automatically be assumed to be surplus to theatre requirements and will be disposed of to Italian Govt through AC. Further instrs will be issued.

(iii) Any captured enemy material having no value in its present form in the civ rehabilitation of Italy will be disposed of by being rendered innocuous and reduced to scrap by services concerned and disposed of by them. As far as possible, and in order to reduce tpt commitments, the material will be reduced to scrap in situ. Services will arrange for the disposal of the material through AC to the Italian Govt from the locn where the material is reduced to scrap. It will be the responsibility of the Services concerned to ensure that all enemy material is rendered of no further mil value, in its existing form, before it is made available for disposal as scrap.

(c) Recaptured Materials of Italian Mil Origin.

(i) It is the intention that recaptured material of Italian mil origin, except arm, surplus to any requirements under (b) above be handed over to the Italian mil authorities.

Stocks of Italian stores will be reported to Services at this HQ who will in turn notify MMIA N Italy. MMIA will nominate the authority to whom such stores are to be handed over and this HQ will inform Areas/Sub Areas accordingly. Receipts for material so handed over will be taken by issuing Service and forwarded through Service channels to GHQ CMF. All remaining recaptured enemy war material not required for maint as above will be reported to this HQ and disposal instrs awaited except in the case of Naval and Air Force Material.
Instrs of the Navy or Air Force Sub Commission of AC may be accepted.

(ii) Italian Amn

A ruling from the Combined Chiefs of Staff as to the method to be adopted for the disposal of Italian amn is expected shortly. Until this ruling is received Italian amn will be left in situ. No action will be taken to destroy it or dispose of it by any other means

(iii) Recaptured Italian military vehicles - see para 10 (c) below.

(d) War Material of US or Brit origin

Will be returned to appropriate US or Brit Service.

(e) War Material French, Czech or Russian Origin

All recaptured material of French Czech or Russian origin will be segregated and reported separately to CCG CMF under arrangements to be made by appropriate Service at this HQ.

(f) Amn

(i) All enemy mines, grenades, demolition explosives and their ancillaries, initiators of rocket projectiles, small arms amn and amn of 20 mm calibre or below and surplus to know mil requirements will be destroyed by dumping in the sea or lakes or by being exploded. Dumping will take place only in water of 50 fathoms depth or more. Where such enemy amn in built up areas presents a hazard to civ or mil security it will be moved to a suitable site outside. Until destroyed, as indicated above, enemy material of this nature continues to be a guard responsibility of the command in whose area it is located. In the destruction of this material German personnel will be used under Allied supervision.

Reports will be forwarded through Service channels to this HQ as the conc of amn of the classes above is completed, and will give the locns and approx tonnages of amn contained in these dumps. Instrs for the mov is amn to lakes or ports for dumping in deep water will then be ed.

(ii) The locn and quantities of all enemy amn larger than 20 mm calibre will be made known to the Italian Govt through AC. The Govt will then become totally responsible for the amn and will make the necessary arrangements with civ firms for the breaking down of the amn into its component parts. AC will be responsible for ensuring that the resultant products from the breaking down process are not employed in

Reports will be forwarded through Service channels to this HQ as the conc of amn of the classes above is completed, and will give the locns and approx tonnages of amn contained in these dumps. Instrs for the movement of this amn to lakes or ports for dumping in deep water will then be issued.

(ii) The locn and quantities of all enemy amn larger than 20 mm calibre will be made known to the Italian Govt through AC. The Govt will then become totally responsible for the amn and will make the necessary arrangements with civ firms for the breaking down of the amn into its component parts. AC will be responsible for ensuring that the resultant products from the breaking down process are not employed in the production of further armaments by the Italian Govt.

Locns and approx tonnages of amn in formed road side deps and dumps to be made known to the Italian Govt, will be reported to this HQ through Service channels. The first report will be rendered as soon as recces of areas are completed or on 31 Oct 45, whichever is the earliest, and thereafter from time to time. This HQ will inform the Italian Govt through War Material Disposal Sub Commission AC of Dumps to be taken over. When the locn and quantity of amn larger than 20 mm calibre has been made known to the Govt, it will be responsible for the safeguarding of the amn until its final disposal. Allied responsibility for safeguarding such amn will cease from the time satisfactory arrangements have been made to this effect.

Declassified E.O. 12065 Section 1-402/NNDC No. 785020

(iii) All Chemical Warfare amn will be destroyed by dumping at sea. Dumping will take place at least 20 miles from the shore in at least 250 fathoms water, and away from shipping routes, fishing grounds, and submarine cables. As special conditions are imposed on the movement of toxic material by rail, this amn will not be mixed with other natures when loaded for movement to port for dumping. Loons will be reported to this HQ.

(iv) Any phosgene or di-phosgene (valuable materials for dye stuffs manufacture) in bulk will be released to the Italian Govt for use only by reputable concerns whose plant can be subjected to suitable control. Alternatively such material will be dumped at sea under conditions as in (i) above.

(v) Any other bulk toxic material will be treated as in (i) above unless its tpt is considered dangerous, in which case it will be rendered innocuous by methods, approved by the Chemical Warfare advisers, to be advised later if the circumstances arise..

(vi) Nothing in these instrs is to be regarded as in any way preventing the destruction of any quantitiy which is in a dangerous condition or consitutes a hazard to internal security. Areas/Sub Areas will report loons of such dumps to this HQ, which will make arrangements for its destruction. So far as practicable German personnel under Brit supervision will be used for this work.

(g) Animals

Any enemy animals surplus to known mil requirements will be reported to this HQ when disposal instrs will be obtained from GHQ CMF.

10. Vehicles

(a) Captured enemy vehs are to be used to the fullest possible extent to save Allied transport; their retention and issue in this Dist is controlled by G(SD2) this HQ.

(b) Captured enemy vehicles will not be taken into use without prior application through Staff channels to G(SD2) HQ 2 Dist under the terms of this HQ General Staff Instruction No 14 and GRO 848/45.

(c) It is the policy ultimately to return to certain Allied and Associated governments and the Italian government through AC and appropriate Military Missions vehs surplus to Allied requirements. No such transfers will however take place without written authority of G (SD2) this HQ. A directive on this subject giving full details is shortly to be issued.

HEADQUARTERS ALLIED COMMISSION
Navy Sub Commission APO 394

NSC/3685.
29th September, 1945.

From : Navy Sub Commission, HQ., Allied Commission.
To : Headquarters, Allied Military Government,
Lombardia Region, Transport Division.

Subject : Equipment and Motor Transport recovered by Italian Royal Navy.

Enclosure (a) : Extract of Land Forces Sub Commission (M.M.I.A.) letter dated 20th April, 1945, to the Under Secretary of State.

Enclosure (b) : Navy Sub Commission Message timed 131758 June.

Enclosure (c) : Allied Force Headquarters Message timed 131613, June.

Enclosure (d) : Navy Sub Commission Message timed 211247, June.

Enclosures (a), (b), (c) and (d) are forwarded for information and guidance with reference to your letter No. TM/5/62 dated 3rd September, 1945.

2. It is confirmed that the Italian Navy Recovery Units have the authority of the Navy Sub Commission to recover captured Italian Navy Transport. It would appear to be immaterial whether or not the Italian Navy had a motor pool in Lombardia region in the past, since the vehicles could have quite easily been transferred there by the Italian Republican Navy. Also, the use to which the recovered vehicles are put, would appear to be justified since it affords transport facilities to Italian Navy families who would otherwise have to resort to civilian transport.

3. Observing therefore, that Italian Navy transport resources are considerably strained and that the number of vehicles formerly held by the Italian Republican Navy is disproportionately smaller than the number previously held by the other Italian Republican Armed Forces, it is considered that all captured Italian Naval transport should be turned over to the Italian Royal Navy in accordance with the instructions in force. This does not necessarily imply that a similar procedure should be strictly followed by the Italian Army and Air Force.

4. With reference to paragraph 5 of your letter, Italian Navy vehicles, for this purpose, are defined as those which have been proved to the former property of the Italian Navy and the Italian Republican Navy before and after the 8th September, 1945, respectively. It is regretted that no particular identification marks relative to these vehicles are known.

Extract of Land Forces Sub Commission (A.M.I.A.) letter dated 30th April, 1945, to the Under Secretary of State.

"II - TITLE TO ITALIAN ARMY VEHICLES.

The title to vehicles of the Italian Armed Forces falls into two categories as follows :

1. Vehicles captured by the Allied Armies prior to the Armistice with Italy - These vehicles have become spoils of war and remain the property of the Allied Military Authorities who have discretion to allot them as they see fit in accordance with existing instructions covering captured enemy material.

2. All other vehicles of the Italian Armed Forces.

a. These remain the property of the Italian Government as outlined in Allied Directives Number 16, and dated 29, 1944.

b. This transport should be used to the maximum benefit of the Italian nation as a whole, bearing in mind the calls made by Headquarters AC on the resources of the Allied Armies to meet essential civilian requirements.

c. The allocation of this transport in accordance with paragraph b above will be made as follows:

Italian Army vehicles by the Land Forces Sub Commission AC (A.M.I.A.). Italian Air Force vehicles by the Air Force Sub Commission AC. Italian Navy vehicles by the Navy Sub Commission AC. Transport surplus to the civilian needs of the Italian Armed Forces which is required for civilian use by Headquarters AC be allotted to civilian use by the appropriate Sub Commission, AC, title thereto and operation thereof being by the Italian Armed Forces under the control of the appropriate Sub Commission, A.C.

d. The Italian Armed Forces will exert every effort to locate and acquire vehicles still unaccounted for and will give every assistance possible to the Italian Authorities to the respective Sub Commission, AC. Any vehicles coming into the possession of the Allied Authorities will be reported to the appropriate Sub Commission, AC for disposal.

3. As you will note, the guiding principle is that this transport should be used to the maximum benefit of the Italian nation as a whole ". You will also note that transport surplus

to the minimum needs of the Italian Armed Forces which is desired for civilian use by Headquarters AC will be allotted to civilian use, but that title thereto, and operation thereof is to be by the Italian Armed Forces. It is only reasonable to assume that the Italian Armed Forces are more capable of operating this transport efficiently for civilian use in the interest of the Nation as a whole than are the individual civilians.

4. In accordance with the instructions of the Supreme Allied Commander, quoted above, all Italian Armed Forces' motor transport material must be returned to Italian Armed Forces' control and will be disposed of as follows :

(a) Reconditioned for use, if necessary, by the Italian Armed Forces.

(b) Cannibalized to secure parts for reconditioning vehicles necessary for the Italian Armed Forces.

(c) Released to civilian use as not being necessary for the Italian Armed Forces, if requested by Headquarters AC as necessary for the Nation as a whole.

5. It must be remembered that certain vehicles of the Italian Armed Forces will be available for civilian transport as requested by Headquarters AC after the needs of the Armed Forces have been met and that the Armed Forces will operate these vehicles for civilian transport.

TO : Naval Sub-Commission, Allied Commission , AFO 394

1. Many complaints have been received by this Division from users of A.M.G. war booty trucks, who had their vehicles seized by a recently established Recovery Unit of the Royal Italian Navy.

2. Lt. P. Barogiola, Liason Officer R.I.N. was requested to call on this Office to furnish the necessary explanations. It appe= ars that the Naval Recovery Unit acts on authority released to them by the Naval Sub-Commission and by War Material Disposal Lombardia. Incidentally it appears that in the past the Italian Navy never had a motor pool in Lombardia region.
Furthermore, the recovered vehicles are not to be used for military operations, but to carry displaced persons belonging to the families of Navy personnel.

3. This Division has no objection to release to the Navy any vehicle of which they are in a position to prove ownership. Satisfac= tory arrangements have already been made under this respect with the Italian Army and Air Force Recovery Commissions.

4. A point has however arisen as to what the Navy considers its property. It has been agreed with the representatives of the o= ther Italian Armed Forces, that all vehicles manufactured for,or re= quisitioned by Italian Fascist Republican Forces after 8 Sept. 1943 had to be considered as Allied war booty and no claim could be estab= lished on them whilst the vehicles listed as Army or Air Force proper= ty prior to the above mentioned date would have been returned, on ap= plication filed with this Division.
The Navy however claims to have authority to take possession of all vehicles previously belonging to the Italian Republican Navy irrespe= ctively of their date of manufacture or requisition.
If this point of view ought to be accepted, it should be extended to all Italian Armed Forces, and in that case a very large percentage of

Declassified E.O. 12065 Section 3-402/NSDC NO. 725020

A.M.G. vehicles now given in use to civilians in order to provide the necessary transportation for the economic needs of the region would have to be withdrawn.

5. A definite ruling is requested in order to clarify the point of exactly what are R.I.N. vehicles and how are they to be identified.

TO A.M.G. LOMBARDIA REGION
TRANSPORT DIVISION

FROM NAVY SUB COMMISSION.

Enclosure (a):Extract of L.F.S/c (M.M.I.A.) letter No.ST/1001 dated 20th April, 1945.

Enclosure (b):Navy Sub Commission message timed 131758 June.

Enclosure (c):A.F.H.Q's Message timed 181613 June.

Enclosure (a), (b) and (c) are forwarded for information and guidance with reference to your letter No. TN/5/62 dated 3rd September 1945.

2. It is confirmed that the Italian Navy Recovery Units have the authority of the Navy Sub Commission to recover captured Italian Navy transport. It would appear to be immaterial whether or not the Italian Navy had a motor pool in Lombardia region in the past, since the vehicles could have quite easily been transferred there by the Italian Republican Ministry of Marine. Also, the use to which the recovered vehicles are put, appears to be justified since it affords transport facilities to XXX Italian Navy familieswho would otherwise have to resort to civilian transport.

3. Observing therefore, that Italian Navy transport resources are considerably strained and that the number of vehicles formerly held by the Italian Ministry of Marine is proportionately smaller than the number previously held by the other Italian Republican Armed Forces, it is considered that all former Italian Republican Navy transport should be turned over to the Italian Royal Navy in accordance with the instructions in force. This does not necessarily imply that a similar procedure should be strictly followed by the Italian Army and Air Force.

4. With reference to paragraph 5 of your letter, Italian Royal Navy vehicles are those which have been proved to be the former property of the Italian Navy and the Italian Republican Navy before and after the 8th September, 1945 respectively. It is regretted that no particular XXXXXXXXXXX identification marks relative to these vehicles are known.

1. Reference is made to letter, this headquarters, AG 386.3/163 LOC-O, dated 22 June 1945 with subsequent amendments. Paragraph 9d (2) of subject letter refers.

2. There have been numerous incidents, recently brought to the notice of this headquarters, that the instructions contained in the above-mentioned paragraph are not being complied with in all instances. It is the intention to return ALL material of FRENCH or RUSSIAN origin, no matter in what condition, to the appropriate authorities. Especially it is desired that all transportation be returned at the earliest possible time.

3. It is desired that all major commands give special attention to the early recovery and reporting of this material, especially vehicles, with a view to its disposal to the French and Russian authorities.

4. Further, it is understood that the Germans appropriated much material originally belonging to the CZECHOSLOVAK Government. It is now desired that as much of this material as possible will be returned to the Czechoslovak authorities. Major commands will treat the Czechoslovak material in an exactly similar manner as for French and Russian material. Reports will be sent direct to this headquarters.

1. Reference is made to letter, this headquarters, AG 386.3/163 LOG-O, dated 22 June 1945 with subsequent amendments. Paragraph 9d (2) of subject letter refers.

2. There have been numerous incidents, recently brought to the notice of this headquarters, that the instructions contained in the above-mentioned paragraph are not being complied with in all instances. It is the intention to return ALL material of FRENCH or RUSSIAN origin, no matter in what condition, to the appropriate authorities. Especially it is desired that all transportation be returned at the earliest possible time.

3. It is desired that all major commands give special attention to the early recovery and reporting of this material, especially vehicles, with a view to its disposal to the French and Russian authorities.

4. Further, it is understood that the Germans appropriated much material originally belonging to the CZECHOSLOVAK Government. It is now desired that as much of this material as possible will be returned to the Czechoslovak authorities. Major commands will treat the Czechoslovak material in an exactly similar manner as for French and Russian material. Reports will be sent direct to this headquarters.

SUBJECT: Procedure for the Distribution of Captured Civilian Material in Northern Italy

TO : Distribution below

1. The object of this Order is to set up procedures for the distribution of captured civilian material found in Northern Italy, and it is intended to implement provisions of AFHQ's Directive of 22 June '45, AG386 .3/163 LOG-O, on the subject: "Disposition of Captured Enemy Material in Italy," and in particular paragraph 9k thereof (a copy of which is attached), insofar as AC or ACC is concerned therewith.

2. It is intended that captured civilian material made available to AC/ACC under the provisions of the Directive above referred to should be dealt with under the terms of the plan for the control of the manufacture and sale of industrial products in Northern Italy attached to the letter of this HQ of 9 July '45, ref. 1.00/ES.

3. The agency to receive declarations of availability of captured civilian material to be made available to AC/ACC by Armies, Base Sections or Districts in the field, or by controlling services of AFHQ will be the Milan Office of the War Materials Disposal Subcommission.

4. a. The ownership of materials which are determined to be of Italian origin within the meaning of sub-section (1) to paragraph 9k of the AFHQ Directive above referred to and to which title had not passed to the Germans shall be determined by War Materials Disposal Subcommission with the assistance of a claims board set up by that Subcommission consisting of Italian personnel selected with the agreement of the North Italy Industrial Council and the Italian Government. The War Materials Disposal Subcommission will make the necessary releases of these materials to the owners under financial arrangements to be made where necessary with the advice of Finance Subcommission. The Finance Subcommission will designate for this purpose an officer in the Northern Area to give such advice as may be required from time to time.

b. Material of Italian origin, title to which had not passed to the Germans and the ownership of which cannot be determined, will be disposed of in the same manner as all other materials handed over to AC/ACC under the terms of the Directive.

5. All materials made available to AC/ACC other than those referred to in 4a will be disposed of as provided below. The War Materials Disposal Subcommission is constituted as the authority to issue releases of such materials to the Italian Government represented by the North Italy Industrial Council (NITC), which is hereby authorized to make suballocations necessary

1325

and sale of industrial products in Northern Italy attached to the letter of this HQ of 9 July '45, ref. 1.30/ES.

3. The agency to receive declarations of availability of captured civilian material to be made available to AC/AMG by Armies, Base Sections or Districts in the field, or by controlling services of AFHQ will be the Milan Office of the War Materials Disposal Subcommission.

4. a. The ownership of materials which are determined to be of Italian origin within the meaning of sub-section (1) to paragraph 9g of the AFHQ Directive above referred to and to which title had not passed to the Germans shall be determined by War Materials Disposal Subcommission with the assistance of a claims board set up by that Subcommission consisting of Italian personnel selected with the agreement of the North Italy Industrial Council and the Italian Government. The War Materials Disposal Subcommission will make the necessary releases of these materials to the owners under financial arrangements to be made where necessary with the advice of Finance Subcommission. The Finance Subcommission will designate for this purpose an officer in the Northern Area to give such advice as may be required from time to time.

b. Material of Italian origin, title to which had not passed to the Germans and the ownership of which cannot be determined, will be disposed of in the same manner as all other materials handed over to AC/AMG under the terms of the Directive.

5. All materials made available to AC/AMG other than those referred to in 4a will be disposed of as provided below. The War Materials Disposal Subcommission is constituted as the authority to issue releases of such materials to the Italian Government represented by the North Italy Industrial Council (NITC), which is hereby authorized to make suballocations necessary to enable firms and individuals to withdraw the materials in question from controlling services. These releases will contain all the information appearing on the declaration of availability called for in paragraph 7 below.

6. When materials are designated by the NITC for distribution in Italian Government territory, the Italian Government will issue the necessary instructions through the President of the NITC for suballocation to such firms and individuals as may be situated outside territory under AMG control.

7. The Milan office of the War Materials Disposal Subcommission will circularise the appropriate services under the Commanding Generals of 5th Army, PBS and the No. 1, No. 2 and No. 3 Districts requesting that declarations of availability of captured civilian materials to AC/AMG be issued in triplicate and in such form as to show the exact location and description of the goods, including quantities, types, condition, packing, state of readiness for shipment, origin (Italian, German or other, or, if unknown, a statement to that effect), and the designation of the unit having physical

control thereof. Whenever possible, declarations of availability of captured civilian materials should be accompanied by existing documents, such as bills of lading, invoices, or evidence of sale or any record from which prior valuation of the goods might be ascertained. The Milan office of the War Materials Disposal Subcommission will likewise circularize sample copies of the form of the release which it will issue in the name of AC/A&S with the appropriate Subcommission endorsement so that the form may be readily recognizable by units expected to be called upon to honor suballocations made under such releases.

8. The War Materials Disposal Subcommission will channel all releases covering industrial plant, machinery and equipment, semi-fabricated goods and raw material, in triplicate, to the Milan office of Industry Subcommission, which will submit a copy of the same to the NHIC for consideration thereby according to the terms of paragraphs 3a (4) (5) and b (1) of the Directive of this HQ of 9 July '45. A second copy bearing the endorsement of the Industry Subcommission will be forwarded to the controlling service when the program of distribution submitted by the NHIC has been approved thereby.

9. The War Materials Disposal Subcommission will channel all releases covering consumer goods in triplicate to the Milan office of Commerce Subcommission, which will transmit one copy of the same to the NHIC for consideration under the terms of paragraph 3d of the Directive of this HQ of 9 July '45. A second copy bearing the endorsement of the Commerce Subcommission will be forwarded to the controlling service when the program of distribution submitted by the NHIC has been approved thereby.

10. The Milan offices of Industry and Commerce Subcommissions, upon transmitting such releases to the NHIC, will obtain from the latter Receiving Reports in triplicate covering the goods, to be signed by the President of the NHIC or by his delegate on behalf of the Italian Government. These Receiving Reports, in the form attached hereto, will contain all the information called for in paragraph 7 above and will be transmitted to the War Materials Disposal Subcommission. Two copies of the Receiving Report will be transmitted by the War Materials Disposal Subcommission to the Chief Accountant, Finance Subcommission, as evidence of the assumption of obligation of the Italian Government for the value of the materials and will be accompanied by such evidence of prior valuation as may have been obtained from the controlling service. The Chief Accountant will later transmit to the Italian Government one copy of the Receiving Report with request that the Italian Government certify the price at which such materials have been released for sale by the NHIC, or the fair value thereof, in the event of other disposition. Any adjustments which may be required in such Receiving Reports due to non-delivery of materials released shall be submitted subsequently by the NHIC to the War Materials Disposal Subcommission, which will in-

k. Captured Civilian Material

(1) Captured material, which is not required for military purposes including maintenance of POW, which is apparently of a civil character and of Italian origin, will be turned over to Allied Commission or AMG as appropriate, who will investigate ownership and authorize its return to its owners under such financial arrangements as may be appropriate. Material of this character, the ownership of which cannot be determined, will be disposed of by sale or otherwise, as Allied Commission may determine. Proceeds of sales will be deposited in the Allied Finance Agency under Allied Commission direction and held pending further instruction from CCS.

(2) Captured German civil material which is not required by the controlling service at this headquarters will be turned over to Allied Commission for disposal as above.

(3) Captured civil material, which is of neither German or Italian origin will be reported to this headquarters and disposal instructions awaited.

4. PRINCIPLES TO BE APPLIED

a. Allied Naval, Ground and Air Forces Responsibilities. Enemy Naval and Air Forces material will be dealt with and the necessary reports and returns made by the Allied Naval and Air Forces respectively, subject to such convenient adjustments as may be necessary to deal with cases where the enemy Naval and Air Services do not correspond in their scope with the Allied Naval and Air Services. Enemy Ground Forces material will be dealt with by the Allied Ground Forces and co-ordination, where necessary, between the Allied Naval, Ground and Air Forces will be effected by the Ground Forces Commanders. The latter in the appropriate cases, must be prepared to assist Allied Naval and Air Forces Commanders in the location and guarding of material peculiar to the enemy Naval and Air Forces. Common user items will normally be the responsibility of the Allied Ground Forces.

b. Allied Ground Forces Staff and Service Responsibilities for safeguarding and control. The responsibility for the taking over (or the collection where necessary) and the safeguarding of all enemy Ground Forces war material is placed upon the Commanding Generals of Fifth and Eighth Armies, Headquarters 1 and 2 Districts, and Commanding General Peninsular Base Section in their respective areas. This responsibility will be exercised through the normal Allied staff and technical service channels appropriate to type of material concerned. It is desired that the arrangements made by Armies be such that continuity of management can be maintained when Headquarters of 1 and 2 Districts and Peninsular Base Section take over Army areas in Northern ITALY.

5. CONTROLLING AUTHORITIES AT AFHQ. The control of enemy material will be exercised by AFHQ through normal command and technical channels appropriate to the material concerned.

6. CLASSIFICATION AND WITHDRAWAL

a. Enemy Ground Forces war material will be classified into categories by the authorities designated below. Notes amplifying classification and withdrawal are at Appendix "A" to this directive.

appropriate cases, must be prepared to assist Allied Naval and Air Forces Commanders in the location and guarding of material peculiar to the enemy Naval and Air Forces. Common user items will normally be the responsibility of the Allied Ground Forces.

b. Allied Ground Forces Staff and Service Responsibilities for safeguarding and control. The responsibility for the taking over (or the collection where necessary) and the safeguarding of all enemy Ground Forces war material is placed upon the Commanding Generals of Fifth and Eighth Armies, Headquarters 1 and 2 Districts, and Commanding General Peninsular Base Section in their respective areas. This responsibility will be exercised through the normal Allied staff and technical service channels appropriate to type of material concerned. It is desired that the arrangements made by Armies be such that continuity of management can be maintained when Headquarters of 1 and 2 Districts and Peninsular Base Section take over Army areas in Northern ITALY.

5. CONTROLLING AUTHORITIES AT AFHQ. The control of enemy material will be exercised by AFHQ through normal command and technical channels appropriate to the material concerned.

6. CLASSIFICATION AND WITHDRAWAL

a. Enemy Ground Forces war material will be classified into categories by the authorities designated below. Notes amplifying classification and withdrawal are at Appendix "A" to this directive.

CATEGORY	DESCRIPTION	CLASSIFICATION AND WITHDRAWAL AUTHORITY
1.	Material required for intelligence purposes and technical research.	AFHQ
2.	Material required by the Supreme Allied Commander for use within his sphere of responsibility.	Ground Forces Commanders
3.	Material required for use in operations against any nations still remaining at war with the Allies.	AFHQ

4.	Material required for equipping national forces of liberated countries or for distribution among the United Nations.	AFHQ
5.	Material which requires special handling (e.g. Toxic Gases)	Classifying authorities: Ground Forces Commanders. Withdrawal authority: AFHQ

b. Any war material not placed in categories 1 - 5 above will be known as uncategorised material, for which AFHQ will be the withdrawal authority.

c. The powers of classification and withdrawal will under no circumstances be delegated to Italian commanders.

7. REPORTS

a. Addressees will report as of the 15th of each month to reach AFHQ by the 25th of the same month all serviceable material which is in excess of their needs or has not been otherwise reported (i.e. under paragraphs 1, 3 and 4 of Appendix "A"). Such reports will be in broad terms. If more detailed information is required by AFHQ about certain classes of material, further instructions will be issued.

b. No special reports are required in connection with material which is not repairable. It should be rendered innocuous (where necessary) and turned over to salvage organizations.

8. PRIORITIES FOR TAKING OVER AND COLLECTION

a. Material will be taken over (or collected where necessary) in the following order:

(1) Category 1.

(6) Medical, dental and veterinary stores, equipment and drugs.

(7) Technical railway stores and equipment.

(8) Docks and inland water transport, stores and equipment.

(9) Engineer stores and equipment.

(10) All other serviceable and repairable Ground Forces material.

9. POLICIES

a. Retention of material by units or individuals. Retention by units or individuals of such material unless properly authorized in accordance with this instruction and other pertinent directives is forbidden.

b. Use of material by Allied Commanders. Authority is granted for the maximum use to be made of enemy material required for the support of Allied Forces (including essential civil requirements) or for maintenance of enemy forces.

c. Recaptured Material of Italian Military Origin. Recaptured material of Italian military origin may be turned over immediately to the Italian military authorities for Italian maintenance. Such material may also be used by Italian troops for support of operations. The channel of transaction in material of Italian origin which is to be returned to the Italian military authorities will be MMIA. Receipt for material so handed over will be taken by the issuing Allied Services and forwarded to AFHQ through normal channels. All remaining recaptured Italian war material will be reported to AFHQ and disposal instructions awaited.

d. War Material of US or British Origin. It will be the policy for material of US or British origin recovered from the enemy by recapture or surrender to be turned over to the American or British services normally responsible for the class of material concerned.

e. War Factories and War Factory Production. Separate instructions will be issued on this subject.

f. Ammunition. Attention is drawn to current instructions on the handling of enemy ammunition.

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

g. Animals.

(1) It is expected that a large proportion of enemy-held animals will disappear before Allied control becomes effective. The remainder will be classified and where possible Mallein-tested and Preston-branded from numbers allotted to Armies by AFHQ.

(2) Animals required for the maintenance of surrendered German forces will remain under German Army care and supervision.

(3) Animals in categories 2 and 3 will be moved as soon as possible into Allied animal collecting centers. Separate instructions will be issued on this subject.

(4) The remainder will be handed over on temporary loan to civil authorities by AMG who will obtain receipts.

h. War Material alienated by the Enemy. Any alienation of war material by the enemy, out of the ordinary course of army administration (for example, material which may have been sold to civilians in anticipation of surrender) entered into within three (3) months before the date of surrender (or a date to be fixed by the Supreme Allied Commander) shall be provisionally regarded as voidable, and, if required, the material so alienated will be summarily recovered.

i. Repairs to Enemy Material. Except on instructions from AFHQ, no attempt will be made to repair enemy material other than that categorised as 1 and 2, but category 3 material will be preserved to the extent of being put in grease and under cover where appropriate. With the exception of category 1, enemy material may be modified as required for abnormal uses.

j. Passenger and Load-carrying Vehicles

(1) To allow for the maintenance of enemy forces and in order to save Allied transport, enemy car and truck companies, by types, will be formed when surrender takes place. Whenever practicable, however, enemy vehicles will not be issued without workshop inspection and never without WD numbers and full registration.

(2) The issue of enemy vehicles to existing Allied units will be permitted only in cases where such units have deficiencies in their TEs (WEs).

NOTES ON CLASSIFICATION AND WITHDRAWAL OF ENEMY WAR MATERIAL

1. CATEGORY 1 MATERIAL. AFHQ will be responsible for indicating to addressees (by means of a list or through Liaison Officers) what material is to be placed in Category 1 and where it is to be consigned. Material thus placed in Category 1 is not available for any purpose. AFHQ is responsible for maintaining records of all material withdrawn under their authority.

2. CATEGORY 2 MATERIAL. Addressees, subject only to limitation in 1 above, will place any material which they need or are likely to need in Category 2. They will maintain simple records of all Category 2 material which they authorize to be withdrawn (e.g. copies of the documents authorizing depots to make issue). Addressees will not prepare consolidated returns of material thus used until ordered by AFHQ.

3. CATEGORY 3 MATERIAL. AFHQ will issue a list of material which may be required for the FAR EAST. Addressees will locate such material and report the quantities held to AFHQ. Such inventories must be accurate and the material so reported must be frozen. AFHQ will declare how much of this material is to be placed in Category 3. AFHQ will be responsible for issuing disposal instructions and maintaining the records of withdrawals of Category 3 material.

4. CATEGORY 4 MATERIAL. If the policy in connection with the equipping of liberated armies is enunciated during the period of the SAC, AFHQ will issue a list of the material that might be required under Category 4. The procedures will then be as for Category 3 material in paragraph 3 above.

5. CATEGORY 5 MATERIAL

a. Material which must be destroyed for any reason e.g. perished foodstuffs, dangerous ammunition, will be placed in Category 5 by the addressee and destroyed. Simple records in broad terms of material which has been thus destroyed should be maintained by the addressees (e.g. a copy of the authorization to destroy the material). No returns of such destructions are required from the addressees until ordered by AFHQ.

b. All stocks of Toxic Gases will be placed in Category 5 and if practicable segregated under normal safety precautions. The approximate tonnages by types of fillings and locations will be reported to AFHQ, who will then give disposal instructions. Isolated stocks of less than 100 tons may be destroyed by any suitable means if such destruction will help to reduce guarding, transportation, or any other problem.

ITALIAN AIR FORCE

At a meeting held at Caserta on 8th June, between the Chief of Staff and the A.C.C. of the Air Forces Sub-Commission, ROME, the following was agreed:-

(i) Italian Air Force material discovered in Italy should be centralised and placed under the control of the A.C.C. A.F.S.C. He is authorised to make issues of such material as is necessary to maintain the authorised Italian Air Force, and should encourage the use of such materials so as to reduce to a minimum the issues required from R.A.F. sources.

(ii) Repair facilities in Northern Italy may be utilised to overhaul the aircraft and engines which are to be used on the Italian Courier Service subject to accurrence of Chief Commissioner.

(iii) Only such quantities of petrol as are necessary to meet the approved flying commitment of the Italian Air Force will be issued.

(iv) Provided the Chief Commissioner agrees, new aircraft and engines discovered in Northern Italy may be made available to the Italian Air Force as replacements or to bring Italian Air Force up to establishment, but not to increase the new holding of aircraft above the authorised establishment.

(v) Lists of major items of Italian equipment discovered, e.g. aircraft, M.T. engines etc, are to be submitted to this Headquarters for re-submission to the Air Ministry.

Memorandum for

11th May, 1945.

G-4 Division, S.H.A.E.F.
G-3 Division, A.F.H.Q.

On the 7th May, 1945, the Naval Assignment Sub-Committee of the London Munitions Assignment Board made advance assignments of captured German material against bids made on behalf of the U.S. Navy and of the Royal Navy as shewn in the attached lists. These assignments have been made under the authority given in C.C.S.200/4D.

2. In regard to some items coming within the "common user" category, it may be found necessary to take account of any pre-capture assignments made by the Army Assignment Sub-Committee in respect of similar material.

3. It is regretted that detailed German descriptions of the material required are not readily available.

4. Consignment of such material as may be available should be arranged as indicated at the end of the list.

5. It would be appreciated if arrangements could be made for details of any issues made against the assignments listed to be forwarded to the Secretary, Naval Assignment Sub-Committee, Munitions Assignment Section, Admiralty, S.W.1.

General Officer Commanding
British Troops in Austria
Number 2 District
Number 3 District

This headquarters letter, file AG 386.3/163 LOG-O dated 22 July 1945, subject: "Disposition of Captured Enemy Material in Italy" (as amended) is rescinded. Paragraph 7b(4) of this headquarters letter, file AG 386.3/219 GOT-O dated 3 August 1945, addressed to British Troops in Austria only, is also rescinded.

2. Attached at Appendix "A" is a new list of outstanding LMAB requirements of captured enemy material. Addressees will locate and report to this headquarters the quantities and conditions of items listed, surplus to their requirements.

3. In addition to the above, the LMAB have requirements of German ground forces material for war memorial and trophy purposes in the United States. A list of the desired material is at Appendix "B". No specific quantity of each item is known and it will therefore be necessary to report total availabilities in each case.

4. Availabilities, surplus to your requirements, will be reported in a similar manner as for other LMAB requirements but will be shown separately and marked "UNITED STATES TROPHIES".

5. Material so reported as available will be frozen.

6. The initial report of material required in Appendices "A" and "B" will show total availabilities of each item as at 15 October 1945. Monthly reports will be submitted thereafter, but will not be cumulative, as allocation may have been made by LMAB against the last return. Additional quantities only will be reported.

Subject: Recaptured Enemy Material.

Forwarded for information with reference to Mediterranean Message 26 1144 June, 1945.

2. The arrangement of supplies for the Italian Royal Navy is a British responsibility and reductions in the materials now being sent from the United Kingdom can be achieved if the Italian Royal Navy is able to recover recaptured enemy materials which were formerly available to enemy Naval forces in Northern Italy. It is requested, therefore, that, subject to Allied requirements, the Material Recovery Parties referred to in Enclosure (A) to the basic correspondence may be permitted to carry out their duties as expeditiously and effectively as practicable. Remarks on their activities would be of interest to the Navy Sub Commission, and serve as a check on the proper performance of the duties for which they are being formed.

NSC/277
29 June 1945

From: Navy Sub Commission, Hq., Allied Commission
To : Ministry of Marine, Rome.

Subject: Disposal of Recaptured Enemy Material.

Enclosure: (A) Instructions for Disposal of Recaptured Enemy Material.

1. The Naval Allied Commander-in-Chief, Mediterranean has authorised release to the Ministry of Marine, subject to requirements of Allied Naval Authorities, of stores, equipment and supplies of all kinds formerly intended for and available to enemy naval forces, as provided in enclosure (A) hereto.

2. The Minister is requested to form Material Recovery Parties under the Officers in Charge of Italian Royal Naval Centres at Genoa, Turin, Milan, Venice and La Spezia to carry out the provisions of enclosure (A). This matter should be treated as urgent to prevent the loss of valuable material during the interim.

3. The appropriate Allied Naval and Military Authorities will be informed of these instructions.

(Signed) C. L. WARNER.

Enclosure "A" to Navy Sub Commission letter No. NSC/2771 of the 29th June, 1945.

DISPOSAL OF RECAPTURED ENEMY MATERIAL.

1. The following instructions govern the procedure to be followed with reference to former Italian Navy material which has been recaptured from the Italian Republican Navy or otherwise retaken or found, including material of German origin, except :

(A) Material recaptured or found in that part of the Venezia Giulia are recently transferred from Jugoslavia to Allied Military control.

(B) Material of Allied origin irrespective of the manner in which it was acquired.

2. The above material includes consumable naval stores and supplies and military equipment of all kinds formerly intended for and available to enemy naval forces in Italy and, subject to the requirements of the Allied Naval Authorities, all materials found and reported to the Navy Sub Commission, Allied Commission, may be utilised at the discretion of the Ministry of Marine for the maintenance of the Italian Navy.

3. The Ministry will form Material Recovery parties at the earliest practicable date in areas designated to take possession and control of all such material not required for Allied Naval use. The functions of these parties are :

(A) To locate, sort, classify and list materials;
(B) To report on 31 July 1945 and monthly thereafter to the Navy Sub Commission through the Ministry of Marine particulars of all material taken over under the following headings, distinguishing in each case between (a) material of Italian origin (b) material of German origin. It is particularly emphasized that these reports are not required to specify details of minor items of stores and equipment and for the most part statements in total of the various items located will suffice.
