TO: Political Sub-Commission, ACC.

1. Forwarded for comment and return, indicating whether or not the Political Sub-Commission approves the return of Lieutenant Commander FILIASI, IRN to Madrid, Spain, to terminate his affairs.

2. If approved, advice is requested whether any political arrangements with the Spanish Government are necessary for his visit.

3. Telegram No. 514 to Madrid, attached hereto, is approved.

4. Telegram No. 419, attached hereto, is not approved. A copy of this telegram has been delivered to the Italian Naval Commissioner, Rome, pointing out that even though it is merely the confirmation of the message already sent on 2 July 1944, it refers to the assignment of Lieutenant Commander FILIASI as Naval Attache , Madrid. In asmuch as the dispatch of this telegram would be misleading if sent at this late date, approval is not recommended. You will be advised whether the Italian Navy Commissioner, Rome, agrees that it should be cancelled.

1. It is regretted that the French submarine cable, which formerly linked Nabeul (Tunisia) with Igalo (Split, Yugoslavia), was cut by Italian authorities during 1940 and that after the cable was cut, somewhere off Brindisi, the southern section was diverted into Brindisi to form a Brindisi-Tunis link. The cable was then operated by the Italian Navy up to the time of the liberation of Tunis by the Allies.

SUBJECT: Release of Italian Naval Barracks Equipment by French Army.

1. The Italian Navy Commissioner, Rome, was directed by your letter of 21 June 1944 to evacuate the Italian Naval Barracks, Caserma Regia Marina by 26 June 1944 for use as a U. S. Army hospital and authorized to retain stowage space in the barracks for vital equipment. On account of the short time allowed for the evacuation of the barracks, the Italian Naval authorities left considerable equipment and furniture in the barracks.

2. The Italian Naval Barracks were occupied by the 73rd Station Hospital, U. S. Army. Some of the equipment and material left in the barracks has been used by the hospital and the remainder was transferred by the hospital authorities to the 81st Italian Infantry Barracks. Subsequently this barracks was occupied by French troops.

3. The Italian Navy is now transferring approximately 1000 men to Rome in connection with the move of the Ministry from Taranto. The barracks equipment is therefore urgently required. The matter has been referred to the French Military authorities, requesting that the equipment be released. A copy of a reply received from General de HESDIN, Commander of the French Army in Rome, dated 22 July 1944, is enclosed herewith.

4. Headquarters, AAI C.M.F. ltr 2030/12/G2 of 1 July 1944, directs that no buildings, real-estate, transportation or other materials belonging to the Italian Armed Forces, or in the possession of effective units of the Italian Navy, Army or Air Force, will be occupied, requisitioned siezed or made use of without prior reference to AAI. It is further stated that this does not preclude the use of Italian property for operational reasons. It is recognized that under many conditions the French Army would have prior rights over the Italian Navy to

Oggetto: POLVERE DI LANCIO PER CANNONI NAVALI

Ci pregiamo informare che presso il nostro Stabilimento di Anagni, situato sulla linea Roma - Cassino, a circa 65 KM. da Roma si trovano tuttora circa 200 (duecento) tonn. di polvere di lancio per cannoni navali ordinate a suo temp dalla R. Marina e sottratte alla requisizione tedesca perchè l'entrata del deposito sotterraneo in cui si trova detta polvere venne fatta a suo tempo franare.

Trattasi di esplosivo gia preparato nelle granitura e composizioni edatte per i connoni navali italiani. Percio appare opportuno ricuperarlo sistemandolo in depositi dove possa essere evitato un eventuale deperimento, quale potrebbe invece manifesturai in una galleria franata.

Per eseguire il suddetto recupero sarebbe necessario: 1° - Concedere i necessari mezzi di trasporto che potranno essere reichiesti direttamente dalla Direzione del nostro Stabilimento di Colleferro.

2° - Autorizzare il lavoro nello Stabilimento di Anagni al personale (capi ed operai) necessario per il ricupero che sara designato nominativamente dalla predetta nostra Direzione.

Ringraziamo per quanto ci verra cortesemente risposto e rimaniamo in attesa di disposizioni. (* 331)

ROME.

ATTENTION G. 4.
Subject: Propelling charge for Naval guns.

We wish to inform you that near our Anagni Establishment, situated on the Rome-Cassino line, atabout 65 KM. from Rome, may be found at the present time about 200 tons of propelling charge for naval guns ordered by the R. Navy. It has been saved from being requisitioned by the Germans because the entrance to the sub-terranean dump where this powder is located has been caved-in.

This explosive is already prepared in the right grainage and composition for use by Italian Naval guns.

Therefore, it is necessary to salvage this powder and to place it in a dump where it may be protected from eventual deterioration, rather than leaving it in a collapsed cave.

In order to carry out the salvaging of the powder, it would be necessary:

(1) To allot the necessary means of transportation which could be requested directly from the management of our Colleferro establishment.

(2) To authorize the necessary personnel (workers and managers) in the Anagni Plant to carry out the salvaging, which shall be nominatively designated by the above mentioned Management. (33)

We thank you for whatever answer we shall receive and we shall wait at your disposal.

SUBJECT : Press Release on Italian Military Activities.

1. With reference to Army Sub-Commission, ACC letter G/103 of 22 July which forwarded the subject press release to Sq. A.A.I.(Adv) for censorship prior to publication in the Politica Estera", attention is invited to the statement under the heading " THE NAVY" which states that "the chain of command in the field of operations has been recognised on the basis of rank and seniority". As this statement is not correct, it is requested that it be deleted.

2. The last sentence of the article on the Navy reads as follows, "The Italian Navy, touching the parts of the United Nations shows eloquent testimony of the respect due to the flag which she has never hauled down". While the Italian Navy has been permitted to continue to fly the Italian flag, the surrender was unconditional. The statement is therefore misleading and should be censored.

3. The references to the numbers of officers and men serving with Italian Navy and the numbers of missions and vessels involved is considered to be of an operational nature. It is requested that all numbers be deleted from the article except the number of dead.

SUBJECT : Defascistisation.

TO : Distribution Below.

1. This memorandum is concerned with the defascistisation of the personnel of national ministries at the seat of the Government including ministries temporarily situated elsewhere for convenience. It is not concerned with local bodies nor with governmental representatives in the field e.g. Prefects.

2. In each ministry there has been or will shortly be set up a committee to advise each minister on the defascistisation of the personnel in his ministry and it is essential that such work be completed as soon as possible.

3. In order therefore, to ensure that the various ministries do get to work on this matter, Sections and Sub-Commissions of this HQ will be reponsible for ensuring that these boards are immediately set up (Where this has not already been done), and that they carry out their work speedily and effectively.

4. Appended below ar the ministries for which Sections and Sub-Commissions will be responsible. It is appreciated that in some instances (e.g. Public Safety in the Ministry of Interior) more than one Sub-Commission is concerned. In these cases, the Sub-Commission named in Column 2 will be the responsible authority and will coordinate the work with those named in column 3.

5. If Sub-Commissions have any information as to the fascist antecedents of any person concerned in their ministry, they should place any such information at the disposal of the minister concerned. If there is any doubt as to whether any information should or should not be disclosed on security grounds, the Security Branch RC & MG will be consulted.

6. It is obviously impracticable that all the personnel of ministries should be screened by the Security Branch. Directors of Sub-Commissions will exercise their discretion in referring the most important personnel in their respective ministries to the Security Branch for screening; this will particularly apply to the members of the ministerial committees.

7. NATION-WIDE INSTITUTIONS & PARASTATAL INSTITUTIONS.

A separate directive will shortly be issued with regard to the defascistisation of nation-wide institutions (e.g. Banca d'Italia, Banca di Napoli, assurance companies and so on) and of parastatal institutions (e.g. I.R.I, I.M.E. and E.I.A.R.).
In the meantime the following principles are laid down for guidance.

(a) The defascistisation of the Head Office wherever situated of such institutions will be the responsibility of HQ ACC and not of the Regional Commissioner of the Region within which the Head Office is found.

(b) The defascistisation of branch offices, even those situated in the same city as the Head Office, will be the responsibility of the Regional Commissioner of the Region in which such offices are found.

8. Vice Presidents will ensure that the above instructions are carried out in their respective Sections. Progress reports to be rendered weekly commencing MONDAY 24 Jul 44 to Vice President, Administrative Section who will be the coordinating authority.

SUBJECT : Sale by U.S. Navy of 3 LST's.

1. Reference is to your letter of 1 July 44, concerning sale of 3 vessels by U.S. Navy to firm of "A. Lupo Raimondo (Palermo)".

2. It is considered desirable that some further explanation of the reasons and implications of this sale should be obtained.

3. The present required "informal assurance" that the sale would be "free of any requisitions or interference from Allied or Co-belligerent Governments for a period of one year from this date" is one which could be interpreted as a carte blanche acceptance of such operations as the purchaser may deem to undertake, including the conveyence of black market traffic and movement banned for priority reasons by ACC.

4. So far as ACC is concerned it cannot agree to give up its power to control the authorisation of all cargoes carried and therefore, when operating, any such craft must be control by Co-ge-na or some nominee of the Italian Minister of Mercantile Marine.

5. It is felt that the intentions of the purchasers in respect of these vessels should be obtained, i.e. for use as scrap or for repair and re-use.

6. With your reply, please clarify as to whether the vessels are LST's or LCT's. Both are mentioned in your letter.

Memorandum 18th.July, 1944.

From. Navy Sub-Commission
To: Executive Director, Economic Section.

With reference to the 'defascistisation' circular No. 1/CC 250 and in particular to the list of Ministeries mentioned in para 3, I desire to point out that the Direzione Generale della Marina Mercantile was, at the express wish of C.in C.Med., removed from the Ministero delle Communicazioni and placed in the Ministero della Marina.

The Shipping Sub-Commission should be shown, therefore, in column 3 as co-ordinating with the Navy Sub-Commission and not with (Roads & Rlys) Transportation Sub-Commission.

It is suggested that the separate directive referred to in para 7 of the circular should take into account:-

a) FINMARE which, with I.R.I., was reported to control all the subsidized as well as the major part of the Italian merchant tonnage and should therefore be considered and treated as a 'parastatal institution'

b) Steamship Companies ITALIA, ADRIATICA, TIRRENIA, ORIENS(formerly Lloyd Triestino), the four subsidized companies which should be considered and treated as 'nation-wide institutions'.

Enclosure: (A) Copy of reference (a).

1. Enclosure (A) is forwarded for information.

2. The two individuals arrested have been provisionally released through arrangements made with the Regional Legal Officer of the Allied Control Commission, and thr president and prosecutor general of the Italian military tribunal in Palermo. The Regional Police Commissioner has made provision to prevent the serving of any further such warrants now pending or which may be received, pending settlement of the matter via the Regional Legal Officer and the Naval Sub_Commission of theAllied Control Commission.

3. The warrants already served were issued by Italian military authorities in Taranto, charging desertion under section 146 of the Wartime Penal Code.

4. Several hundred skilled workers and technicians currently employed on this base are affected by the above procedure. Arrests already made have had a definitely adverse effect upon their morale, and the removal of any appreciable number of such men would seriously hamper production.

5. It is therefore requested that direct representation be made to the Italian authorities in order to further final clarification of this matter.

SUBJECT : Cable Communication with Italian Ministry of Marine.

1. In reply to your memorandum, 7 July 1944 (copy attached) the situation with respect to the communication channels therein is as follows :

(1) Telegraph circuit Naples-Gaeta-Anzio-Rome Civitavecchia.

Application has been made for the release of the necessary stores and for the permission to work on the route. Reply will be hastened.

(2) Telegraph circuit Rome-Naples.

Government telegraph service is working, and use can be made of it now, on a 'common user' basis.

It is probable that an exclusive channel can be allotted for Italian Navy use when the necessary multichannel apparatus is installed and working, probably in about ten days.

The Italian Navy should approach Lieut. Gigli (Ministry of Communications) on this subject.

(3) Telephone circuit Rome - Naples.

Government telephone service is working, and use can be made of it now, on a 'common user' basis.

It is very unlikely that the allocation of telephone circuits to the Italian Government will permit of an exclusive circuit being made available for the Italian Navy for a considerable time.

Commodore,
S.B.N.O., ROME.

MEMORANDUM OF THE REQUIREMENTS OF CABLE CONNECTIONS FOR THE NAVY MINISTRY.

With the transfer to Rome of the Navy Ministry the following connections are necessary:

1) a telegraphic circuit Naples-Gaeta-Anzio-Rome-Civitavecchia.
2) a pair or single strain on thenational cable for 'phone Communications or teletype with Naples.
3) a direct telegraphic circuit Rome-Naples..

The circuit as per 1) is at present under construction with personnel and materiel of the R. Navy. With favourable opinion by Naples FOWIT, both ACC Salerno and the CSO LC Caserta have permitted the start of the work and have approved the project. The work has been suspended at Capua because permit is needed from the Group Command Allied Armies in Italy which had been asked for by the ACC. Because this traffic would contribute materially to the handling of the traffic between the Ministry of the Navy and the peripheric agencies, it will be appreciated if authorization to carry on with the work will be obtained at the earliest possible moment, so that from the first moment when theMinistry will begin to function in Rome, the circuit may be ready.

The circuit as per 2) is considered indispensable for the handling of the traffic which it is believed will be intensive for all questions of organizational character under the jurisdiction of the Ministry of the Navy.

The circuit as per 3) may be achieved at a later period.

Rome, 7 July 1944

Compiled by Corvette Captain VACCARISI
Chief of Telecommunications Office of the Chief of Staff
of the R. Navy. Navy Ministry Taranto.

1. With reference to Rome Allied Area Command memo. RTO/TEC/va of 10 July 1944, it is requested that electrical current be supplied to:

(a) The Italian Navy Barracks "Scuola PISTELLI" Via Montezebio 29.

(b) Current is required for the general lighting of the building, i.e. corridors, Mess Halls, kitchens, dormitories, etc.

(c) The amount of current required is 3 to 4 Kw per day.

(d) The supply of current will only be required during the dark hours, i.e. 2100 to 0600.

2. The Naval Barracks will be full to capacity on the 20th of July with Italian naval personnel from Taranto. It will be much appreciated therefore, if arrangements can be made to supply the subject barracks with electrical current by that date.

1. With reference to your memo. HTO/IEC/va of 10 July 1944, it is requested that electrical current be supplied to:

(a) Italian Ministry of Marine building, Lungo Tevere, Flaminio.

(b) Current is required for the offices, print shop and workshop, etc. owing to the work entailed due to the transfer of the Ministry of Marine from Taranto to Rome.

(c) The total amount of current required is 73 KW.

(d) It is necessary that power be supplied at least during the following office hours:

0830 to 1400
and 1600 to 2100.

2. The electrical current has been completed cut off for the past five days and as a result the existent batteries are becoming exhausted. Also, it is anticipated that the internal telephone system will be affected.

3. It is requested therefore, that priority be given to this urgent matter and that the work be taken in hand at a very early date.

1. The Italian Naval Barracks Caserma Regia Marina have been requisitioned by the Rome Area Command for use as a U. S. Army Hospital, now accomodating 400 casualties. The Italian Navy has been authorized by the Rome Area Command to use the subject school as a barracks.

2. On about 17 July the Italian Ministry of Marine will be transferred from Taranto to Rome. When the transfer is effected additional accomodations will be required for approximately 200 officers and 900 men.

3. As the provision of barracks for Italian Naval personnel is an operational requirement involving the proper administration of the Italian Navy it will be necessary to retain the School E. PISTELLI until the barracks Caserma Regia Marina are returned to the Navy. It is therefore requested that the Education Sub-Commission be advised that the school may not be available in September when school opens. Your comments will be appreciated.

N. 4 Acc. PM di Prot. 11/7/44

SUBJECT : GARGANO Francesco son of Paolo and Gandolfo Caterina born on the 5/5/97 in S.Flavia Palermo, living in Rome via Amba Aradam, I.

Francesco Gargano, wearing the uniform of Captain of Cruiser, was seen in Rome in a car numbered R.M. 10015 and drived by a military of the Royal Navy.

Francesco Gargano is a "squadrista", he was consul of M.V.S.N., under chief of S.M.Millzia C.A. chief of S.M. MILMARI, director of the "Revolution Show", one of the owners of the Newspaper "Tevere" and it seems that he belonged also to the "OVRA".

He started with nothing a few years ago, now he possesses a conspicuous fortune and it is not know in which way he earned it. After the 25th July 1943 he was denounced to theCommission for illicit enrichments.

In the same period he went away from Rome to South Italy, and came back only on the 1 July 1944 having the charge to buy for two millions Lire of motor car material for the Ministry of the Navy.

He is also chief of the "Committee for the Recovery of Sicilia, Calabria, Puglia, Campania", and now he does everything in order to have also the "lazio" put under his jurisdiction.

It results, at last, that the above mentioned is not Captain of Cruiser but only a retired Major of the Army.

In Rome, where his political precedings are well known, his return as an officer of the Navy has provoked a great surprise. The fact that he can circulate freely and with the permission of the Allies, who perhaps are not informed of his previous activity, gave ground to not very favourable comments.

SENIOR U.S. NAVAL OFFICER, ITALY.

9 July 1944.

From: Representative, Senior U.S. Naval Officer, Italy, in Rome.

TO : Commodore I.M. Palmer, D.S.O.,R.N.,Naval Sub-Commission, A.C.C.

Subject: Captain Rombert E. MAASS, Jr., Ordnance, U.S. Army- Illegal seizure of Italian Government (Naval) Property.

Enclosure: (A) Copy of note left by Captain Maass.

1 1. On the morning of July 6th I was informed by the Italian Naval Liaison Officer at the Ministry of Marine that a U.S. Army Captain was attempting to acquire by seizure an automobile used in the service of theItalian Navy for official business. The car in question was in the inner courtyard of the Ministry property.

2. At my request the Army Officer reported to my office. He gave his name as Captain Robert E. Maass, Jr., and his duty that of Transportation Officer of the U.S. Army Rest Center located at or near what was known as the Foro Mussolini.

3. Captain Maass had with him two Italian civilians, one of whom claimed to be the owner of the car. He produced a receipt showing that the car had been turned over to the Italian Naval Authorities for temporary service.

4. As Representative of the Senior U.S. Naval Liaison Officer, Italy, with the Italian Navy, Rome, I explained to Captain Maass that the car was in the service of the Italian Navy, was carrying a Regia Marina license No. 2025 and was listed among the cars authorized by the Naval Sub-Commission of the A.C.C. to be employed for official purposes by the Italian Navy. I showed him the list of cars which included the one he was attempting to seize. I told him that while the car was in the hands of the Italian Navy it must be considered to be Italian government property and that a regulation was in force prohibiting the seizure, acquisition, requisition or occupancy of Italian government property, materiel, etc., military, naval or air without first obtaining consent of interested service. I gave him definite instructions not to touch the car and explained that the registration of all cars for the Italian Navy was in process through the Naval Sub-Commission of the A.C.C. I told Captain Maass I would consult with Commodore Palmer, R.N., of the Naval Sub-Commission, advise him of the facts, and that he, Maass, was to keep hands off the car until I telephoned to him. He then left with the two Italians and I presumed he full understood what I had told him.

5. Despite the above, I am informed that Captain Maass came to the Italian Ministry of Marine during the afternoon of the 6th of July, entered the courtyard, ordered the Italian chauffeur out of the car and drove it away. Enclosure (A) is a copy of note left by Captain Maass. Although it has since been learned that request for requisitioning of the car had been made, the papers had not been approved at the time the car was seized and, therefore, could not be presented. The owner of the car who had instigated the requisitioning had not, it is believed, informed Captain Maass that the car had been turned over to the Italian Navy. However, the Regia Marina license was on the car at the time of seizure.

6. I telephoned Captain Cowing of G-4, Rome Area Command, giving him the facts in the case. He agreed with me that Captain Maass had acted without authority, had evidently disobeyed my instructions and had seized Italian government property contrary to established regulations.

7. On the afternoon of the 7th of July I saw Captain Maass at Rome Area Command headquarters, informed him he had disobeyed my instructions, had taken Italian government property without authority, etc., and told him I expected the car to be returned immediately. He admitted he had acted wrongly, stated he did not understand that he could not take Italian government property, and that he would see that the car was returned. I informed him I would make a report to the proper U.S. Army authorities for such action as might be considred necessary.

8. The car was returned on 8 July.

9. The unwarranted and illegal action of an officer who is obviously incapable of understanding instructions given or who deliberately violated such instructions has resulted in the loss of valuable time through consultations, telephone calls, written reports, etc. It is evident that Captain Maass acted without authority and he has clearly demonstrated a lack of knowledge of requisitioning procedure. It is the understanding of this Command that no property is to be taken until formal written approval has been given.

10. The above is submitted to you for forwording to proper authority with a view to avoiding unnecessary controversies in the future and for such action by U.S. Army authorities as may appear to be desirable and necessary in this case.

OFFICE OF THE REPRESENTATIVE AT
BARI OF THE MINISTER RESIDENT
AT ALLIED FORCE HEADQUARTERS?
BARI.

1st June, 1944.

My Dear Harold:

We have just received a reply from the British Commander on Vis to our enquiry about the Italian compalint referred to in my letter to you of the 17th May.

This is to the effect that the three schooners were "captured" on the 22nd April. The report goes on to say that the crews have been partly retained on the ships and partly enrolled in Partisan units. It gives an assurance that the Italian members of the crews are at liberty to go to Italy if they so wish.

The Partisans claim that the vessels must be regarded as captured enemy ships and that they are therefore theirs. I do not know whether this argument can be sustained legally, but I think it would be very difficult in practice to obtain the restitution of the vessels.

I am sending copies of this letter to the Foreign Office, the Minister Resident at Algiers and the High Commissioner at Naples. Copies of my letter under reference have also been sent to them.

Yours ever,

/s/ Philip Brown

BARI.

17th May, 1944.

My Dear Harold:

The Italians have addressed to our Naval Authorities a complaint that three Italian motor smooners which recently escaped from the Trieste area were seized by the Partisans at Vis, at which port they had been obliged to put in. The complaint adds that all stores on board the vessels were removed and the crews were obliged to join the ranks of the Partisans.

The names of the three vessels are : Emilia, Gagliano and San Antonio.

A signal has been sent from here to the British Commander on Vis to investigate the question and report on the facts. In the meantime I thought you might like to know about the receipt of the complaint. I imagine the matter will come up for discussion at the next meeting of Special Operations Committee.

Yours ever,

/s/ Philip Brown.
