Subject: Captain (A.N.) Sergio VANZINI.

1. Reference is made to Ministry of Marine letter B.206 of 6 January 1945.

2. The Navy Sub-Commission has been informed by the Legal Sub-Commission that it is not possible to supply a copy of the "sentenza" of Captain VANZINI, as Allied Military Court procedure does not provide for the preparation of such a document.

3. A brief summary of the record of the case which is exceedingly long is as follows:

(a) The 16 year old servant of the accused's family told the accused that she had been talking to an escaped German prisoner in a nearby copse. Whether such a remark was made seriously or in cheff is in dispute.

(b) The accused found the man in the copse and took him to his house allegedly to give him a glass of water. The man was in fact an American Sergeant of good military repute and who was properly dressed and absent from his Command with a regular leave pass. The accused admitted at the trial that he saw and recognized the Sergeant's American dress.

(c) On arrival at the house the accused told his brothers that he had found a German. While one of the accused's brothers fetched a rope the accused obtained a pistol (the possession of which was in itself an offence in the circumstances in which he had it) and for some inexplicable reason and without warning or provocation shot the American Sergeant from behind and thereby killed him.

(d) The accused then removed from the dead man the sum of 16,000 lire, leaving behind a much smaller sum, presumably to divert attention from the fact that any money had been removed.

4. The accused was sentenced to 20 years imprisonment for killing an Allied soldier and a further 7 years for theft from the dead soldier. The salient feature of the case is that there was no possible ground for thinking that the man was a German, indeed there was every reason for thinking to the contrary. The accused easily could have detained

the man for investigation had he entertained any doubts as to his identity.

5. The Legal Sub-Commission has stated that under the circumstances the sentence is not thought to be excessive. But for the fact that the Court was satisfied that the accused was mentally unstable, it is possible that the sentence might have been one of death.

6. The sentence of the court has been considered at Headquarters, Allied Commission and affirmed.

Enclosure No. 2 - Proposed Letter to I.R.N. Commands.

Subject: Italian War Materials.

Ref. letter from Marisegrege 6227 dated 6th Oct. last under above heading.

1. So as to enable Central Departments and outlying Commands to undertake the recovery and safekeeping of I.R.N. materials, the following instructions are hereby issued: -

A) Authorisation to recover material originally in the charge of IRN.

(a) All material belonging to I.R.N. Ships and Shore Commands, or under delivery to them at the time of the Armistice, is considered as Italian material and, unless otherwise ordered by A.C., is reserved to the use of I.R.N. under the control of N.S.C.

(b) No building, land Ships, transport or other materials belonging to the Administration of the Ministry of Marine, or in the possession of I.R.N. Ships, Commands and Departments can be occupied, requisitioned, taken and used without prior authorization from N.S.C. unless it is a matter of using the transport and materials listed above for operational requirements, in which event Allied Operational Commands may make direct use of same.

(c) To avoid the occupation, requisitioning, confiscation, etc., other than by the procedure referred to in sub para (b), Allied Authorities have authorized the use of bilingual notices (see Encl. 1) on all Ministry of Marine Administration property, ordering Allied Commands and Departments to respect same.

(d) The new bilingual notices will be prepared by this Ministry and are to replace all those in use to date. The principal characteristic of the new notice is that it is to be numbered and refer to the property for which it had been issued and moreover it must bear the date, stamp and signature of a N.S.C. Officer.

(e) Request for the new bilingual notices are to be made at once by the Commands and Depts. concerned to Maristat M.D.S. Office C.R.A. specifying: -

- Address of the property to which the notice refers.
- Denomination of the property and its present use.

(f) These notices: - 1864

In areas South of the Army Rear Control Line will be distributed to Commands and Depts. concerned by M.M.I.A. Command through their own L/Os.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

In areas North of A.R.C.L., they will be applied by M.M.I.A. L/Os. to all I.R.N. property not required for immediate operational needs. These Officers each month will notify M.M.I.A. Command of the notices set up so that the corresponding list of properties bearing the bilingual notices may be kept up to date. M.M.I.A. Comnand will notify Maristat M.D.S. Office C.R.A. so that their similar list may be kept in the same manner.

(g) Copy is attached of Circular No. 29, Part I of 9 December, 1944 from A.F.H.Q. with a request that any doubts may be cleared up in regard to what Allied Forces Command has very clearly set forth.

B) Definition of what must be understood as being Italian Materials.

(a) Ships: I.R.N. Ships of any type and tonnage, including subsidiary and auxiliary vessels, requisitioned vessels and those chartered by I.R.N.; craft of any description engaged in coastal or port services.

(b) Buildings: Commands, Offices, Barracks, Working Establishments, Hospitals, Depots, Stores and all other real estate, property of I.R.N. Administration or requisitioned and occupied by I.R.N. personnel or Departments.

(c) Equipment, etc.,: All arms, ammunition, technical gear, equipment, Barracks gear, clothing as well as all Naval gear in possession of I.R.N. at the time of the Armistice and which has been or will be salvaged during the progress of the liberation of Italian soil.

(d) Vehicles: All means of transport belonging to or requisitioned by I.R.N. up to the time of the Armistice.

Civil establishments which were under the control of Ministry of Marine Administration are not considered as being war materials, nor those having contracts with this Ministry, nor real estate nor aother property belonging to them. Such are to be considered as civilian mate ials and thus cannot motivate demands to N.S.C. unless they do not directly interest I.R.N. for the maintenance of its own war efficiency.

C) The infringements proven or those which may be verified subsequently in regard to what is set out in Para "A" should be made known to this Ministry in the following manner: 2303

(a) Name of Ship or Command, Dept. of Establishment from whence materials have been drawn.
(b) Name of Allied Command which drew same.
(c) Date and time same was effected.
(d) Nature of the infringement in regard to Para "A".
(e) Materials drawn.
(f) Any particulars helpful to a prompt and efficient intervention.

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

D) Moreover, a full list also is to be sent to this Ministry of all war materials of Ministry of Marine Administration property which have been requisitioned, drawn or in use by Allied Forces contrary to the rulings of Para "A".

Those materials in regard to which it will not be possible to gather particulars as called for in Para "C" are to be mentioned in a special list and considered as I.R.N. 's contribution to the Allied war effort.

E) Any eventual divergencies of opinion which may arise from application of Para "B" will be solved as set out below:

(a) Questions of a local character will be dealt with by CinC of the Department (Area) with the Senior Local British Naval Commands.

(b) Matters of a general nature which involve questions of principle are to be passed to this Ministry for discussion with N.S.C.

THE MINISTER.

Subject: Cantieri Navali Riuniti - PALERMO.

1. Forwarded.

2. Information is requested whether inventories of any materiels which may have been requisitioned from the subject company at PALERMO by U.S. Naval activities is available or has been furnished to the company.

3. This data is apparently required in order for the Italian Ministry of Industry, Commerce and Labor to make payments to the Cantieri Navali Riuniti for materiels requisitioned by Allied Forces.

4. In accordance with the provisions of Allied Force Headquarters Circular No. 13 of 1 May 1944, a distinction is made between Captured Enemy Material and Italian Material. Captured Enemy Material is defined as all equipment, stores and supplies previously belonging to all arms and services of the ground forces of the enemy. Italian materiel is defined as materiel belonging to all arms and services of the Italian ground forces and in the possession of the Italians at the time of the Armistice and is reserved for the Italian Armed Forces in accordance with Allied Force Headquarters Circular No. 29 of 19 December 1944.

5. Whether the materiels referred to in the basic correspondence were requisitioned prior to the Armistice and the status of the Cantieri Navali Riuniti Company as a private firm of a subsidised government plant are questions of fact. Further consideration should be given to these questions before representatives of the company are permitted to visit Palermo and participate in the preparation of inventories of requisitioned materiel.

OPERATION MEMORANDUM)
NUMBER 58)

7 June 1944

JOD

PASSIVE AIR DEFENSE, CIVIL DEFENSE, AND FIRE DEFENSE

1. OBJECT

a. This memorandum supersedes Operation Memoranda Numbers 40 and 44 and Training Memorandum Number 51, which are hereby rescinded.

b. The object of this memorandum is to define the responsibility of commanders for the control of Passive Air Defense, Civil Defense, and Fire Defense.

2. DEFINITION

a. Passive Air Defense (PAD) measures cover all passive action which is required to mitigate the effects of enemy air attack, delay-action mines, long-range artillery fire or accidental explosions. It is a military responsibility. PAD includes measures for:

(1) Reporting air raid or similar damage;

(2) Pooling of all available resources to combat such damage;

(3) In British formations, reporting the presence of, and dealing with the effects of gas where necessary. In U.S. formations PAD responsibility is limited to the provision of arrangements for reporting gas incidents to the Chemical Officer.

b. Civil Defense (CD) covers arrangements made and action taken by local civil authorities to mitigate the effects of enemy air attack, delay-action mines, long-range artillery fire or naval bombardment on the civil population and installations required to serve their needs. Civil Defense will be a military necessity in those areas where the failure of the Civil Defense will impede or hinder military operations. Classification of areas is detailed in paragraph 6.

c. Fire Defense is the prevention or extinction of all fires which may be caused by hostile attack or other means. Fire Defense is carried out by Army Fire Service (U.S. Engineer Fire Fighting Units or British Army Fire Service) assisted, when necessary, by other arms and services and by civilian fire services.

3. RESPONSIBILITY

Declassified E.O. 12065 Section 3-402/NNDG No. 785020

Fire Defense is carried out by Army Fire Service (U.S. Engineer Fire Fighting Units or British Army Fire Service) assisted, when necessary, by other arms and services and by civilian fire services.

3. RESPONSIBILITY

a. Military commanders will be responsible for PAD, Civil Defense, and Fire Defense measures, including planning, in areas under their immediate control.

b. The Military Commander is responsible for the coordination of PAD, Civil Defense, and Fire Defense with the appropriate Naval and/or Air authorities if present.

c. When an Air Force or Naval Commander has also been designated as the Military Commander, their responsibilities will include those specified above for the military commander.

d. It is the responsibility of the Allied Military Government, Allied Military Liaison, Allied Control Administration, or such other Allied organization as has been established to deal with civil affairs, to provide such Civil Defense measures as are required by the military. Hereafter in this paper such organizations will be referred to collectively as "Civil Affairs".

4. ORGANIZATION

a. Army, Task Force, Base, District and Sub-Area Headquarters normally should employ full time PAD Staffs. It is the responsibility of British Commanders to request that PAD personnel be included on their War Establishment as

4550

required. U.S. manning tables and tables of organization do not include personnel specifically for PAD. It is, however, within the responsibility of U.S. Commanders at their discretion to provide personnel for full time PAD work. Full time PAD personnel, when appointed, form the PAD Section of the headquarters which should work under G-3 (G-Ops).

b. In formations where a special PAD Staff is not authorized, Commanders are responsible that personnel are detailed to carry out necessary PAD work in addition to their other duties.

c. (1) Normally, a Fire Officer will be appointed on the Staffs of Lines of Communications, Communication Zones, Base, Base Sub-Area and Base Section Headquarters.

(2) In every port and town of military importance, all available fire defense agencies, both static and mobile, whenever engaged in fire fighting will be brought under a unified operational control which will normally be the Army Fire Service Officer (British) or Fire Officer (U.S. or RAF).

(3) If called in to assist in extinguishing a fire in a Naval or Merchant vessel, the Army Fire Service Officer in charge will consult with the Commanding Officer or Master as to the steps to be taken and will take charge of the firefighting operations, subject to the control of ship's stability by the Commanding Officer or Master.

(4) Should the fire reach such proportions that the safety of installations or other ships is also endangered, then the Naval Officer in charge, or his representative is responsible for issuing the necessary instructions.

5. FUNCTIONS

a. PAD Staff Officers are responsible for advising the Military Commander on all matters pertaining to PAD Planning, Operations and Training, and for coordination with Civil Defense.

b. The Chief Civil Affairs Officer is responsible to the Military Commander for the reactivation of Civil Defense organizations, for their coordination with PAD, and for the provision of required equipment, subject to such equipment being available and within the limits of transportation allotted by the military to the Civil Affairs.

c. The Army Fire Service Officer (British) or Fire Officer (U.S. or RAF) is responsible for advising the Military Commander on all matters of Fire Defense including Planning, Fire Control and coordination of mutual assistance between Military and Civil Fire Services.

6. CLASSIFICATION OF AREAS AND DESIGNATION OF RESPONSIBILITY

Service Officer (British) or Fire Officer (U.S. or RAF).

(3) If called in to assist in extinguishing a fire in a Naval or Merchant vessel, the Army Fire Service Officer in charge will consult with the Commanding Officer or Master as to the steps to be taken and will take charge of the firefighting operations, subject to the control of ship's stability by the Commanding Officer or Master.

(4) Should the fire reach such proportions that the safety of installations or other ships is also endangered, then the Naval Officer in charge, or his representative is responsible for issuing the necessary instructions.

5. FUNCTIONS

a. PAD Staff Officers are responsible for advising the Military Commander on all matters pertaining to PAD Planning, Operations and Training, and for coordination with Civil Defense.

b. The Chief Civil Affairs Officer is responsible to the Military Commander for the reactivation of Civil Defense organizations, for their coordination with PAD, and for the provision of required equipment, subject to such equipment being available and within the limits of transportation allotted by the military to the Civil Affairs.

c. The Army Fire Service Officer (British) or Fire Officer (U.S. or RAF) is responsible for advising the Military Commander on all matters of Fire Defense including Planning, Fire Control and coordination of mutual assistance between Military and Civil Fire Services.

6. CLASSIFICATION OF AREAS AND DESIGNATION OF RESPONSIBILITY

Army, Task Force, District or Base Section Commanders (in Lines of Communication or Communications Zones) will classify areas within their commands The following is the basis for the classification of areas, together with the designation of responsibility for PAD and CD measures:

a. Army or Task Force Areas

(1) Definition: Areas of active operations in which ground fighting is in progress, and no Civil Defense is undertaken except as required for military operations.

(2) Responsibility - Military Commander.

b. Class 'A' Areas

(1) Definition: Areas of military importance immediately in rear of Army or Task Force Area, and on the Lines of Communication or in Communication Zones, including bases, ports and vital centers where organized PAD is a military necessity.

CONFIDENTIAL

Declassified E.O. 12065 Section 3-402/NSDC No. 785020

(2) Responsibility - Military Commander. The Chief Civil Affairs Officer for the provision of the maximum available civil assistance.

c. Class 'B' Areas

(1) Definition: Areas on the Lines of Communication or in Communications Zones where unit PAD will normally be sufficient for military needs, but in which the failure of the local Civil Defense organization is likely to hamper military operations.

(2) Responsibility - Same as in Class 'A' Areas.

d. Class 'C' Areas

(1) Definition: Areas in which a breakdown of the local Civil Defense arrangements cannot interfere with military operations

(2) Responsibility - Military Commander; through the Chief Civil Affairs Officer.

7. AIR FORCE

The Air Commander-in-Chief, Mediterranean, will ensure that measures are taken for PAD and Fire Defense at all Air Force installations. Plans will be prepared for mutual assistance of Army and Air Force Fire Services and PAD Services.

8. NAVY

Commander-in-Chief, Mediterranean, will ensure that measures are taken for PAD and static fire defense of all ships and naval establishments ashore. Plans will be prepared for mutual assistance of Naval and Army Fire Services and PAD Services.

9. TRAINING

a. The establishment and maintenance of a PAD organization requires special training for PAD personnel and units.

(1) The training of full time personnel will be supervised or conducted by the PAD Training School of this headquarters.

(2) Unit training and training of part time personnel will be supervised or conducted by the PAD Staff Officer concerned.

10. AIR RAID WARNING SYSTEM

a. The establishment and maintenance of a PAD organization requires special training for PAD personnel and units.

(1) The training of full time personnel will be supervised or conducted by the PAD Training School of this headquarters.

(2) Unit training and training of part time personnel will be supervised or conducted by the PAD Staff Officer concerned.

10. AIR RAID WARNING SYSTEM

The Air Raid Warning System is the responsibility of the Military Commander, who will consult with the Air Defense Commander.

11. BOMB DISPOSAL

Policy as regards the disposal of an unexploded bomb is covered in Operation Memorandum Number 32.

12. AMPHIBIOUS OPERATIONS

During amphibious operations, whenever there is an appreciable delay in the establishment of a Base Section or Base Area, a PAD officer from the Base Section or Base Area should be attached to the Beach Group (or similar U.S. organization). If, however, it is planned that a Beach Group is to operate for a period on its own, a PAD officer should be attached or assigned.

13. ADVICE ON PAD AND CIVIL DEFENSE

The PAD and CD Advisor, AFHQ, will be responsible for giving advice as necessary on all matters of PAD and Civil Defense, working through the appropriate

THE NAVY SUB-COMMISSION,
ALLIED COMMISSION.

ORGANISATION FOR ITALIAN PORTS.

With reference to paragraph 4 of your letter No. NSC/1227 of 29th November, 1944, the following is a rough approximate of the merchant shipping expected to use the ports mentioned: -

CIVITA VECCHIA.

Six ships per month - (3 Coasters, 1 large Collier, 2 Grain Ships). Also Schooners. Ministry of War Transport and War Shipping Administration have accepted joint responsibility for supervision of discharge of vessels and act in an advisory capacity to the authorities concerned with the provision of labour. The number of Colliers is likely to increase to 2 per month in the near future.

PIOMBINO.

Schooners only. Such Schooners as may use this port will carry civil supplies only on behalf of the Allied Commission.

SAN STEFANO.

United States Petroleum Section maintain Engineers and Technicians to handle pipe lines and pumps, and it is assumed that they recruit such local labour as they require. No firm estimate of shipping can be given for this port, but it is through that it will probably handle one medium sized Tanker per week.

CAGLIARI.

During November 1944 the port was used by 108 vessels, namely:

Personnel	7
Tankers	1
Merchant Vessels	14
Coasters	32
Schooners and Miscellaneous	54

2. With regard to the use of the port of Piombino, your letter No. NSC/1325 dated 14th December, 1944, also refers. In this connection, it is observed that all cargoes handled by this port are civil supplies carried on behalf of the Allied Commission, and that therefore the Flag Officer, Northern Area Mediterranean, has no direct interest in the operation of the port, except in so far as it lessens the weight on Leghorn.

SALVAGE POLICY IN MEDITERRANEAN- ITALIAN WATERS

1. With reference to NSC/1139 of 8th November, 1944, the Deputy Principal Salvage Officer, Mediterranean, is now paying a visit to Admiralty and will raise certain questions on the non-operational salvage of Allied and ex-German vessels in Italian waters.

2. It may be that certain of the Italian salvage resources now employed by, or available to, the Italian Ministry of Marine will be required for work on the above mentioned vessels.

3. The question of non-operational salvage as a whole (i.e. not only of Italian owned vessels) will therefore again be reviewed when the Deputy Principal Salvage Officer, Mediterranean returns with further information on the Admiralty policy on these questions.

4. Meanwhile, in view of the above, and the difficulties attached to delegating the responsibility of non-operational salvage to the Navy Sub-Commission, Allied Commission, the recommendation in paragraph 6 of the above quoted letter is concurred in.

5. The Commander-in-Chief will therefore continue for the present to control non-operational salvage in Italian waters employing the Flag Officer, Taranto and Adriatic, Italy (Rome) as the channel of correspondence with the Italian Ministry of Marine. The Flag Officer, Taranto and Adriatic, Italy (Rome) is requested to inform interested authorities accordingly.

6. Navy Sub-Commission letters NSC/1281 dated 9th December, NSC/1367 dated 21st December and the Flag Officer, Taranto and Adriatic, Italy (Rome) signal timed 211047 December, also refer.

Subject: Payments to Italians for Services Rendered to Shipping.

1. Returned. Information is requested in the basic correspondence as to the responsibility for the payment of pilotage fees at Italian ports and stevedoring or affiliated port labor costs.

2. In accordance with Article 19 of the Armistice with Italy, the Italian Government is required to make available such resources or services as the United Nations may require within the areas designated in Article 18. Under Article 23 of the Armistice, the Italian Government is required to make available such Italian currency as the United Nations may require. The Italian Government is therefore responsible for providing the services directly or funds for the payment thereof.

3. Whether payment should be made directly by the Italian Government or by the Allied agency concerned depends upon the manner of employment. If the pilots or port labor are employed through an agency of the Italian Government, payment should be made by the branch of the Italian Government concerned. If employed directly, the Allied agency concerned should make payment in Allied Military Lire, furnished by the Italian Government.

4. This procedure is in accordance with Admiralty Fleet Order No. 1628 of 23 March 1944, a copy of which is enclosed herewith for information.

1628. - SUPPLIES AND SERVICES FROM ITALY - ACCOUNTING

(W.G.F. 29/44. - 23 Mar. 1944)

Any payments made in Italy are made in Allied Military lira, which are obtainable either from the Army Authorities or direct from A.M.F.A. These lira have no back in sterling or any other currency, and it is the eventual responsibility of the Italian Government to redeem them.

2. Financial relations with the Italian Government derive from the terms of the Armistice. These terms are implemented by the Allied Control Commission or the Allied Military Government, according to the area affected, and advice in doubtful cases should be sought from these bodies.

3. Under the Armistice, Allied Forces have a right to call upon the Italian Government to provide such resources and services as they require without payment, the Italian Government being left to make any necessary settlement with private firms or individuals upon whom they have had to call to meet any of the requirements in question. It is, however, recognised that in practice this procedure must necessarily be modified in many cases where direct orders are placed with private concerns in order to avoid the delay, economic dislocation and hardship to individuals which would be the result of a refusal to pay lira for the goods or services provided.

4. Normally, it will not be necessary to make any payments to Italian Naval or other Government organisations, or to public corporations. In the case of private individuals and firms, however, it will usually be found desirable to effect settlement locally in lira. Any payments so made should be brought to account in the usual way.

Subject: Remittances to Italy from Captured Members of Italian Mercantile Marine.

1. It is the understanding of the Navy Sub-Commission that arrangements have been made through the Italian High Commissioner for Prisoners of War for Italian Prisoner of War Cooperators to submit remittances to beneficiaries in Italy by the despatch of a form from locations in the British Commonwealth to the Italian Ministry of War.

2. Inasmuch as Italian merchant seamen, who have been held as prisoners of the British Government, are now accorded the opportunity of becoming cooperators, the Navy Sub-Commission has been requested to approach the Ministry of Marine to determine whether a similar remittance system can be instituted for them as is already in operation under the auspices of the Italian Ministry of War for other Cooperators.

3. It is requested that the Navy Sub-Commission be informed of the Ministry of Marine's views in this regard and supplied with the details of any procedures that can be originated so that appropriate Allied authorities can be notified. As the number of merchant seamen Cooperators undoubtedly is not large, it is suggested that the Italian Ministry of War may be able to handle their remittances through its existing organization.

3. It would be preferable for Merchant Navy men to remit through their Management; but there is no objection - if considered more suitable - to do so through the War Ministry.

In the latter case it would be desirable for a Merchant Navy list to be carried separately from Army personnel so as to enable Merchant Navy Management to make arrangements easily with the War Ministry.

2. It is regretted that requirements cannot be conveniently divided into the categories you suggest in paragraph 2 of your letter. The only Allied transport at present on loan to the Italian Navy consists of the following:

6 Ambulances.
2 Trucks for maintenance of line communications.
6 Trucks for lighthouse service.
9 Vehicles for the Italian NOICs at Civitavecchia and Piombino.

The supply of tyres and other equipment for the above vehicles presents no difficulty since demands are met through normal R.N. channels.

3. All other transport held by the Italian Navy is of Italian origin and is used mainly in operational ports working for the Allied Armies and navies. Essential minimum requirements of tyres and tubes for these vehicles is as follows:

Enclosure: (A) Copy Hq.AAI C.M.F. ltr 2086/1/42 of 3 May 1944.

1. Headquarters AAI in enclosure (A) at the request of the Flag Officer, Taranto Adriatic and Liaison, Italy, issued instructions governing the employment of active duty Italian Navy personnel by the Allied Armed Forces. These instructions were cancelled by Hq. AAI. C.M.F. ltr 2086/1/42 of 17 July 1944, pending the issuance of the revised instructions contained in Hq. AAI Administrative Instruction No. 52 of 22 August 1944. No specific provisions were incorporated therein governing the employment of active duty Italian Navy personnel by units of the Allied Armed Forces.

2. Reports received from the Italian Ministry of Marine indicate that numerous active duty Italian Navy personnel are employed by the Allied Forces without co-ordination by Allied authorities or approval by the Italian Ministry of Marine. Unless the Italian Ministry of Marine has been notified, these ratings are technical deserters from the Italian Navy. As a matter of policy and in the interest of military discipline, desertions or absenteeism from the Italian Navy should not be encouraged.

3. In order to regularize the position of active duty Italian Navy personnel who are employed by units of the Allied Armed Forces, it is requested that a directive be promulgated requiring all units employing such ratings to report by a specified date to the Navy Sub-Commission, A.C. - Flag Officer, Taranto Adriatic and Liaison, Italy, ROME, the names of all Italian Navy personnel employed. The report should include the exact name, the rating, service number and expected duration of employment, together with a brief statement of the necessity for employment. The instruction should further provide that in the future, no active duty Italian Navy personnel are to be employed without specific approval from the Navy Sub-Commission, AC - ROMA, Rome. Requests for such employment should be kept at a minimum and should contain the data indicated above.

It is requested that these instructions be given wide circulation and that all Allied Commands be informed that active duty Italian Navy personnel are not to be employed except as provided therein.

1. Reference your NSC/1517 of 17 January, 1945.

2. The two rulings given by Finance Sub-Commission in its letters 13076 of 7 June, 1944, and 6 January, 1945, are not inconsistent. In the earlier letter we indicated that no part of the Allied Commission should admit to the Italian Government that either the American or British Governments have any liability to repay to the Italian Government in dollars or sterling the cost of any goods or services furnished to the Allied Forces by the Italian Government. Our later letter stated that there is no objection to payments to private Italian firms by the Allied Forces for goods and services. Since the AM lire used by the Allied Forces for such payments is eventually charged to the Italian Government, the Royal Navy is not being debited for the cost of goods and services, as your letter suggests, but rather the Italian Government is itself being debited by the Allied. I feel, therefore, that this Sub-Commission's letter 13076 of 6 January, 1945, should stand.

Headquarters, AAI. restricted letter AAI 3074/A(A) of 22 August 1944, promulgated consolidated instructions governing the terms and conditions of employment in the "AAI Operational Zone" of Italian Military, Naval and Airforce personnel and civilians. In accordance with enclosure (A), Administrative Instructions No. 52 does not apply to Italian personnel employed by the U.S. Army, as no exemptions are requested by the 5TH Army. The policy with respect to the exemption of civilians from military service stated therein is applicable to the 5TH Army.

2. Headquarters, AAI. in enclosure (B) informed the Navy Sub-Commission, A.C. that Administrative Instruction No. 52 does not apply to requests for the exemption of civilians employed by U.S. Naval Forces from military service. It is, however, recommended that a similar policy be adopted in the interest of uniformity.

3. The Navy Sub-Commission, A.C. was informed by enclosure (C) that Administrative Instruction No. 52 is applicable only to the exemption of civilians employed by British Units with the AAI operational zone from military service and that the question of exemption from service of personnel employed by units in the line of communications area should be taken up with Allied Force Headquarters.

4. (PBS letter AG 327.3(MTO-1) of 6 June 44 refers.

3. This instruction is based on the following policy:

(a) To make available to the Italian authorities as many Italian personnel of the 1924 classes as possible to enable the authorities to meet the additional commitments undertaken by them.

(b) With the above intention in mind to restrict the employment by the Allied of Italian personnel to those only whose continued employment is considered vitally or operationally necessary and more valuable to the war effort than if in the Italian Armed Forces.

(c) To limit the authorities empowered to grant exemption from call-up to Armies, Base Sections and their equivalents.

(d) To ensure adequate notice is given to the Italian Authorities of exemption granted and withdrawn to that necessary action may be taken by them.

The matter was referred to the Regional Commissioner, Southern Region, A.C. who advises that the Town Major has requisitioned only those apartments in Taranto which are essential to Allied requirements. It is further reported that in every case alternate accomodations have been found for the families which have been moved.

2. It appears that the main reason for the over-crowding is due to the large number of accomodations required for Italian Naval personnel stationed in the area. No obvious remedy for this situation is apparent. The Italian Ministry of Marine has been advised accordingly.

Gentlemen:

Your letter of January 12th which informs the Allied Commission of the facilities of the Emilio Picchiotti Shipyard at Civitavecchia is appreciated. It will be forwarded to the appropriate office of the Allied Commission for information.

As the port of Civitavecchia has been returned to operational and administrative control of the Italian Navy, it is suggested that if you have not already done so, you should ensure that the Italian Ministry of Marine has full knowledge of all of your personnel and equipment which is available to assist in the rehabilitation of the port.

1. The following translation of Ministry of Marine letter SM/0342 of 6 January 1945, is quoted for information and appropriate action:

"On the 17th of December, specialised personnel in Merchant Fishing vessel "San. Antonio" rendered safe and recovered a German magnetic mine on the Punta Salina beach (N.W. coast of S. Antioco Island, Sardinia).

An examination of the weapon shows the following:

Spherical shape; casing of duraluminium, hornless.
Lettering stamped on upper portion:
e/5856 - C.150 Rg. - fod. M.42-Mr. 1195 (a k).
Much dented and externally in very bad condition.
Full of water; charge in fragments and sodden;
firing mechanism rusted and conductors disconnected;
in poor condition generally.
No trace of any mooring arrangement.

Another mine of the same type (except that it was soldered or welded on 3/4 of the upper part) was recovered on 28th Aug. last on the beach at Cape Pula, and sent to Naples c/o Allied Command. It is presumed that both mines were laid at the same time".

My dear Mr. Prime Minister:

The establishment of an accounting procedure for general services rendered by the Italian Navy to the Anglo-American Armed Forces referred to in your letter 19391/1.2.2 of 10 January 1945, has been carefully re-examined. As the Italian Ministry of Marine was previously informed on 15 June 1944 by the Flag Officer Liaison, Italy, the accounting of such services is a matter of internal administration and responsibility of the Italian Navy. While there is no objection to the maintenance of complete records of such services furnished by the Italian Navy, it is regretted that the Anglo-American Armed Forces cannot participate in the accounting.

Yours very truly,

ITALIAN FISHING VESSELS ENGAGED IN MINESWEEPING DUTIES.

Details of the Italian Fishing Vessels obtained from the local Italian Naval Authority relative to the names of such vessels employed in the Naples Area for Minesweeping Duties are forwarded (Enclosure) in accordance with the Commander-in-Chief, Mediterranean's signal timed 221613A Dec ember.

2. The Vessels PROCIDA, SULLIVAN, EZIO, SAINT BON and SAINT UMBERTO have been operating in an area in the vicinity of Sicily until recently. When these Vessels are fully operational it is intended that they should proceed to Civita Vecchia for the maintenance of channels in that area.

3. Requisitioning of further Vessels is not envisaged in the near future, but in order that full minesweeping commitments may be met it will be necessary to replace at least eight of the Vessels at present operating as Minesweepers in view of their poor state of repair. No definite plan can be attempted, however, until suitable Vessels as replacements have been found.

4. It is considered essential that the Italian Marine should, as time goes, on increase their scope of minesweeping activity in order to release much needed Allied Minesweeping Craft for duty elsewhere. It will, therefore, be necessary to increase the Italian Minesweeping Force by requisitioning further Craft at a later date.

Subject: Personnel for Italian Military Courts.

1. In October 1944 the Land Forces Sub-Commission, AC authorized an establishment of 250 Italian Military personnel to staff the various Italian Military Courts in Southern Italy.

2. In December the Legal Sub-Commission, AC requested the Procuratore Generale Militare to arrange for the establishment of a circuit of Italian Military Courts for Northern Italy. The Procuratore Militare Generale and the Italian Ministry of War, both have agreed that there will be need for such a circuit of courts in Northern Italy, however, they have indicated that it would not be possible to adequately staff such a circuit with personnel presently available. The Land Forces Sub-Commission, while in favor of the proposed court organization for Northern Italy, has stated that it cannot authorize an increase in the number of Italian Army officers who are assigned for duty with the Military Courts.

2. As many of the cases that are brought before Italian Military Courts in Southern Italy involve members of the Italian Navy and Italian Air Force, it is considered that the Ministry of Marine and Ministry of Air should supply an appropriate proportion of Military Court personnel. The Legal Sub-Commission estimates that a total of 80 Navy and Air Force officers will be required.

3. The Navy Sub-Commission is prepared to authorize the assignment of Italian Navy personnel to Military Courts so that the Italian Navy may assume an equitable share of Military court work. It is requested that the Navy Sub-Commission be informed of the views of the Ministry of Marine in this regard at the earliest possible date in order that measures may be instituted by appropriate agencies to implement the existing Military Court organization.

1. With reference to your letter AC/5615/IND of 31 December 1944, in connection with the reactivation of the subject works, the matter was referred to the British Naval Officer-in-Charge, Naples, who advises that the premises are in an area controlled by the Port Commandant, Naples.

2. The Port Commandant, Naples, will not consent to the re-occupation of the works by the De Bonis Company. In any case, it is stated that the move is considered to be of doubtful value owing to the probable length of time which would be required for rehabilitation.

Subject: Naval Meccanica.

Reference: (a) Finance Sub-Com. ltr 13076/F of 7 June 1944.

Enclosure: (A) Copy FCLI ltr No. T.A. 1125/10 of 15 June 1944.
(B) Copy FCLI ltr No. L. 327 of 23 October 1944.

1. Returned for reconsideration.

2. The Finance Sub-Commission, A.C. in reference (a) reviewed a proposed accounting procedure by the Italian Ministry of Marine for materials, work and services rendered to the Allied Forces. In paragraph 3 thereof, it was stated that the Allied Control Commission cannot agree to any Italian Government arrangement under which the cost of goods and services furnished would be debited to the Allied Forces.

3. The Ministry of Marine was informed in enclosure (A) and (B) by FCLI, Taranto and FCLI, Rome, respectively, that services rendered by the Italian Navy cannot be debited to the Allied Governments and that the proposed accounting procedure could not be adopted. The Italian President of the Council of Ministers on 10 January 1945, requested the Chief Commissioner, A.C. to request the Flag Officer Liaison, Italy, to reconsider the decision, not to adopt the proposed accounting procedure. No reply, as yet, has been made.

4. The Finance Sub-Commission, A.C. in the basic letter recommends that the Royal Navy make payments to Naval Meccanica for the hire of machinery by the company from the Italian Navy on the theory that the Royal Navy payments to Naval Meccanica are ultimately charged to the Italian Government. Under this procedure the Italian Navy is permitted indirectly to debit the Royal Navy for the cost of hire of machinery used by Naval Meccanica. Such charges are not permitted in accordance with reference (a) and enclosures (A) and (B). An early decision in this matter is requested in order to comply with paragraph 3 of FONAM letter No. FONAM 437-1 of 16 December 1944.

5. The return of papers is requested.

ACCOUNTING PROCEDURE.

In reply to your letter, reference 216/TO of 2nd April, 1944, the accounting procedure for general services rendered by the Italian Royal Navy to Anglo-American Forces is a matter of internal administration and responsibility of the Italian Navy. The provision which affect dealings with Allied representatives are not approved, as it is not desired to make radical changes in the current practices.

2. The services rendered by the Italian Navy are in accordance with Article 19 of the Armistice terms. It should be clearly understood that no financial obligation whatsoever is accepted at the present time for these services and they cannot be debited to the Allied Government as stated in Article 1 of the accounting procedure.

With reference to your letter No. 642/70 of 21st September, 1944, it is regretted that after careful consideration the decisions made in Flag Officer Taranto, Adriatic and Liaison Italy's letter No. T.A. 1125/10 of 15th June, 1944, with respect to the subject accounting procedure can not be altered.

TO : Director, Naval Sub-Commission.

1. I refer to your letters I10-3/ACC of 18 May and L8-2/NSC of 1 June 1944.

2. It is my understanding that under the Armistice Terms the Italian Government is obligated to make available to the Allied Forces such Italian military, naval, and air installations, equipment, and services as may be required. The question of any eventual payment or compensation to the Italian Government for Allied use of Italian Government property and services is one that can only be decided at the highest policy levels of the American and British Governments as part of a general financial settlement. It is the view of the Finance Sub-Commission that no statement should be made at the present time to the Minister of Marine on the possibility of such a settlement or the terms thereof.

3. It follows that the Allied Control Commission cannot agree to any Italian Government arrangement under which the cost of goods and services furnished would be debited to the Allied forces. An appropriate change should therefore be made in Chapter I, Article i of the Minister of Marine's account/instruction. We see no objection, however, to the pricing and accurate recording of materials and services provided by the Italian navy to the Allied, as long as it is made clear that the Allied do not accept any obligation with respect thereto.

On 12th August last at Poggi di Rivalty (Pisa), Capt. (A.N. - Act. Serv.) Sergio VANZINI shot at and killed an American Sergeant of the 5th Army, apparently have mistaken him for a German.

On 6th Dec. the Allied Federal Tribunal at Florence issued its findings and sentenced VANZINI to 27 years imprisonment as he was found guilty of:

a) - Culpable homicide
b) - Robbing the body
c) - Illegal possession of fire-arms.

2. As VANZINI is an Active Service Officer it is necessary, therefore, that a copy of the sentence should be forwarded to this Ministry by the Allied Court at Florence; at the same time F.C.L.I. is requested to kindly arrange for particulars (documents) of the proceedings to be sent us for perusal and return, so that this Ministry may be informed of what really occurred which resulted in a heavy sentence being passed on the Officer in question.

Navy Sub-Commission. (for action).

---

1. On the 3rd January, 1945, Capt Kay, C.A.O. 45 T. F., stopped a British Navy Truck No. 15650317, driven by Pvr HARDUS of Navy Party 950, Livorno, which was travelling north along Route 66 in IV Corps Area.

2. The truck contained Italian civilians using the attached irregular passes and in the truck was a quantity of grain which, the civilians said, was to be exchanged for potatoes. The Officer could not ascertain how or where the grain was obtained.

3. There is an urgent need for the utmost security in Corps Area and civilians riding in Military vehicles are not stopped by Carabinieri at the Road Blocks. Also there are numerous complaints of civilians indulging in black market activities and exchanging controlled goods in the area concerned.

4. May suitable action be taken by the Royal Navy to stop this breach.

FIRST ENDORSEMENT ON
Minister Marine ltr.
SM/30460 of 13 Dec. 44.

From: Navy Sub-Commission, Hq. Allied Commission.
To : Commander-in-Chief, Mediterranean.

Subject: Italian Naval Vessels, Realty, Equipment and Stores.

1. The Italian Ministry of Marine in the basic letter, forwarded a copy of the Italian Ministry of War letter of 21 November 1944, outlining the procedure governing Italian Army War materials and a proposed letter by the Ministry of Marine governing the subject Italian Navy property, for approval. Allied Forces Headquarters Circular letter No. 13 of 1 May 1944, issued instructions for the allocation and assignment of captured enemy material. This directive relates primarily to Italian Army material. Paragraph 1(a) thereof states that a directive was to be issued by the Naval Allied Commander-in-Chief, Mediterranean, governing Italian Navy property. The Navy Sub-Commission, A.C. has no record indicating whether a directive has been issued. Allied Forces Headquarters circular letter No. 29 of 9 December 1944, modified circular letter No. 13 and provided in paragraph 2 that no material supplies or stores will be removed from Italian Navy depots without authority from the Navy Sub-Commission, A.C.

2. The proposed letter by the Ministry of Marine relates to Italian naval vessels and auxiliaries, realty, equipment and vehicles. AFHQ circular letter No. 13 refers primarily to consumable stores and supplies. Headquarters, AAI. CMF. letter 2030/12/Q2 of 1 July 1944, exempted Italian Navy buildings, real-estate, transportation and other material from requisitioning, without prior approval from that Headquarters, except for operational requirements.

3. Article 11 of the Armistice Terms with Italy provides that all Italian war material will be placed in store under such control as the Allied Commander-in-Chief may direct for ultimate disposal as prescribed by the United Nations. The Navy Sub-Commission, A.C. does not recommend approval of the proposed directive as prepared by the Italian Ministry of Marine, for the reason that it is too broad and is tantamount to a modification of the Armistice Terms. The directive contains no definition as to what Italian navy property is to be considered as captured enemy material. It defines as Italian property, ships of all

types, naval and auxiliary; realty including requisitioned buildings; equipment which was in the possession of the Italian Navy at the time of the Armistice including equipment which has been or will be salvaged and all transport. Paragraphs C and D of the proposed directive are not approved for the reason that they are premised on the assumption that Allied authorities continuously disregard Italian Navy property rights. Approval of these provisions would constitute a tacit admission of this contention.

4. Before taking action on the proposed directive by the Italian Ministry of Marine, information is requested whether the Naval Allied Commander-in-Chief, Mediterranean, has issued any instructions in this connection. If no instructions have been issued, it is recommended that a directive be promulgated defining Italian Navy property which is considered as captured enemy material and property which under the acceptance of Italy as a co-belligerent should be reserved for Italian Navy use. The directive should be applicable only to moveable equipment and consumable supplies and not to ships, realty and equipment which has been incorporated into the realty. A separate directive should further provide for the exemption of Italian Navy realty and buildings from being requisitioned without prior approval from a designated authority except for operational requirements. A form notice should be included in the directive for use by Italian Navy authorities to advise Allied authorities that the property is not subject to requisition. When promulgated, the Ministry of Marine will be informed as to the provisions of the directive and advised that, consistent with the provisions thereof, orders may be issued to the Italian Navy Commands for the implementation of the directive without prior reference to Allied authorities.

Subject: Allocation of Newsprint.

As a result of the interest shown by the public in regard to the publication of "La Marina Combatte", this Ministry has decided to publish a second magazine at the end of this month and would wish, together with the work undertaken by the Italian Navy, to stress the gigantic effort and the heroical enterprises of the United Nations Navies.

A summary of the general outline of this publication is attached hereto; a printer's proof will later be sent to N.S.C. for approval.

To be able to publish this edition it is essential that N.S.C., as in the case of the newspaper "Buona Guardia", approach Authorities concerned to allocate the necessary newsprint. As it is estimated that 70,000 copies would be required, plus a reprint of the first edition which was only 30.000 (every one distributed), your Command is requested to make an allocation to this Ministry of 80 quintals of newsprint of a glazed type suitable for the publication of the magazine in question.

POLICY

Proposed for the re-activation of the

ITALIAN SHIPBUILDING INDUSTRY.

I Stage. Ascertainment of present situation of all shipyards located in liberated Italian territory:

This to be done by report from:

Col. Bordoli.

A. Damages: suffered - by war action
- "Sabotage or removal
- "lack of maintenance

B. Actual production and/or repair capacity

1) with local resources both as regards building materials, power and employment

2) with partially local or exclusively national resources necessitating transport of materials, power and immigration.

with 3 experts for:
a) Naples
b) Taranto
c) Palermo

C. Other data regarding

1) quiridal situation (requisition by Allied Authorities)
2) particulars of organisation
3) Orders received or pending
4) Ships under design or construction
5) Material both for building & consumption, tools, etc..

When above is completed Stage II will be commenced.

Stage II Re-habilitation of shipyards:

1) Assist and encourage such restoration of ship-building and repair facilities as will be presumably required by the program as specified below:

1461

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

2) Requirements: to put this into effect involve

1) Derequisition partial or total and removal of stores and machinery and/or activity not connected with the industry
2) Transport by land or sea for materials and machinery strictly connected with the repair of the plant.

3. Power.

Note: In case of canibalisation coordinate problems involved in transferring property in leasing or lending it to the plant to be thus re-habilitated.

III Stage. Shipbuilding program.

1) Priority to be security mainly for repairs needed for the immediate war efforts.

2) If shipbuilding and repair facilities are in excess of demand as mentioned under 1) such residuary capacity be used for

1) repair of salvaged ships
2) construction of coastal vessels (up to 1500 DW)
3) completion of work (mercantile ships) on hand, on which progress has reached a stage of over 50%

3) The program as suggested above can only be carried out if necessary supplies of material, power, transport and capital are available.

2. The Navy Sub-Commission has been informed by the Industry Sub-Commission that the question of the tanker at ANCONA was recently considered at a meeting with the Italian Ministry of Industry, Commerce and Labor. At that time it was decided that material for the completion of the tanker would not be made available at present as there was some doubt in regard to the condition of the ship's keel.

3. The Industry Sub-Commission has informed that Professor SACERDOTI, an Italian Marine Engineer, is making a complete survey of the vessel's hull. When the results of the survey are made available a final decision will be made as to whether the ship can be completed.

Subject: Salvage of Italian Navy Craft in Harbors of Elba.

1. Reference is made to Navy Sub-Commission letter NSC/1322 of 12 December which informed the Ministry of Marine that approval had been received from Commander-in-Chief Mediterranean for the Ministry of Marine to salve Italian Navy craft in the harbours of Elba.

2. The Navy Sub-Commission now has been directed by Commander-in-Chief Mediterranean to inform the Ministry of Marine that the approval granted for salving craft in the harbours of the Island of Elba in no way infers that it is safe to embark on any such operations whether on account of mine danger or other hazard.

3. Commander-in-Chief Mediterranean has directed that prior to proceeding with salvage operations at Elba the operations should be staged from Piombino and made subject to the concurrence of the Naval Officer in Charge, Leghorn.

Subject: Transfer of Royal Italian Army Motor Vehicles to the Royal Italian Navy.

1. Reference is made to Ministry of Marine letter No. 1131/FO. of 16 December which requests that the Land Forces Sub-Commission be approached with a view to obtaining the transfer of ten (10) lorries from the Italian Army to the Italian Navy.

2. The Navy Sub-Commission is completely aware of the precarious state of motor transport that is available to the Italian Navy and the matter has been presented fully to the appropriate Allied Headquarters. It is hoped that some relief may be given in this regard in the not too distant future. However, it is regretted that the Land Forces Sub-Commission has stated that the proposed transfer of Italian Army vehicles to the Italian Navy can not be authorized owing to the urgent operational need for all possible vehicles by the Italian Army.

Flag Officer, Northern Area, Mediterranean.

Subject: Visits of Italian Navy Personnel to LEGHORN.

Enclosure: (A) Copy FONAM ltr 736-5 of 29 December 1944.

1. Returned.

2. The Navy Officer-in-Charge, LEGHORN, letter No. 28/30 of 18 December 1944 reported to the Flag Officer, Northern Area, Mediterranean, the visit of Maggiore General G.N. Francesco VITERBO, IRN., to LEGHORN. The Flag Officer, Northern Area, Mediterranean, in enclosure (A) directs that no further visits by Italian Naval personnel to LEGHORN be authorized without his personal permission. The Commanding Officer, Headquarters, Peninsular Base Section, in paragraph 3 of PBS letter AG091.713 BPPOG of 26 December 1944, recommends that approval be secured from that Headquarters for high ranking Italian officials to visit LEGHORN area.

3. The letter of courtesy issued by the Senior U.S. Naval Liaison Officer, Italy, referred to in NOIC, LEGHORN letter of 18 December 1944, did not constitute any authority for Generale Francesco VITERBO to enter or perform travel in the Army zone. It is appreciated that NOIC, LEGHORN should have been advised of the proposed visit by Generale VITERBO. The orders issued by the Ministry of Marine and approved by Lieutenant R.S. CRAIG, USNR, were regularly issued by the competent authorities in accordance with the current directives and established procedure. Lieutenant CRAIG is the regularly designated officer of the staff of FOTALI, Rome - Navy Sub-Commission, AC, to approve and countersign orders issued by the Ministry of Marine for travel in the Army zone.

4. The above procedure is in accordance with paragraph 11 of Headquarters, A.C. Executive Memorandum No. 77, of 31 August 1944, which provides for travel by members of the Italian Armed Forces in the Army zone when they are on duty and in possession of proper credentials, countersigned by designated authorities. The Flag Officer, Northern Area, Mediterranean, and NOIC, LEGHORN were informed as to this procedure by Navy Sub-Commission, letters NSC/1158 and NSC/1253 of 12 November 1944 and 2 December 1944, respectively.

5. Generale VITERBO is the Chief of the Bureau of Naval Construction and Engineering of the Italian Navy and was authorized to perform travel in the Army Zone on official duty. Such visits are considered necessary if the Italian Navy is to be permitted to retain any control over Italian Naval facilities. The Sub-Commission has been exceedingly meticulous in investigating requests for travel and in limiting the number of authorizations granted. If the Flag Officer, Northern Area, Mediterranean, and AFHQ consider that further restrictions should be placed on visits to the LEGHORN Area, it is recommended that the Civil Affairs Section, Headquarters, Allied Commission be informed and that paragraph 11 of Executive Memorandum No. 77 of 31 August 1944 be modified accordingly.

6. Pending further instruction, all requests for Italian Naval personnel to visit or travel through LEGHORN will be referred to the Flag Officer, Northern Area, Mediterranean for approval.

1. The attached letter from the Naval Officer in Charge, Leghorn concerns the arrival of high ranking Italian officials in the Leghorn area without prior notice to or consent of Allied Military authorities in the area.

2. I am entirely in accord with the NOIC's views on the matter. Transportation, billeting, and many other factors make it undesirable to accommodate high ranking Italian officials in the city of Leghorn without advance notice.

3. It is strongly recommended that approval be secured from this Headquarters prior to the sending out of these people, and that appropriate instructions be issued to the agencies sponsoring such travellers.

VISIT OF MAGGIORE GENERALE G. N. FRANCESCO VITERBO,
I.R.N. TO LEGHORN

The above named Italian Officer arrived without warning at Leghorn on a tour of inspection on the 16th December, 1944, provided with the following documents: -

(1) A letter signed by Commodore H.W. Ziroli, U.S.N. as Senior U.S. Naval Liaison Officer, Italy Allied Control Commission, Rome, dated 29th October, 1944, stating that the Maggiore Generale is personally known to him and that Naval and Military Authorities are to give him every facility on his travels. (copy attached).

(2) A permit from the Ministero della Marine Gabinetto signed by "F. Rasalini", Capitano di Vascello, authorising him to travel to Livorno, Lucca and Firenze -
This document was endorsed "Above travel approved to be completed by 31/12/44" and signed by R.S. Craig, Lieut., U.S.N.R., dated 8/12/44.

2. Permission was given for this officer to be escorted around the Royal Naval Dockyard by my Italian Liaison Officer after consultation with the local Military Authorities.

3. It is submitted that at present such visits are undesirable and, where necessary, should be made only after the Naval and Military Commands concerned have given the requisite permission.

TOSCANA REGION
ALLIED MILITARY GOVERNMENT

RVIII/207/24. 27 Dec 44.

SUBJECT: Operation of Port of PIOMBINO.

TO : HQ,AC (Attention Navy Sub-Commission).

1. Reference is made to your letter of 14 Dec 44, subject as above, to Transportation Sub/c, file NSC/1325.

2. This Headquarters is keenly interested in seeing the port of Piombino put to use as soon as possible in order to:

(a) Utilize part of the 4500 unemployed there, as social unrest is developing and agitators are taking advantage of the situation.

(b) Relieve part of the strain on Livorno facilities where food, sanitation, housing, labor and services are dangerously short.

3. The Allied authorities in Livorno, including NOIC Royal Navy and Commanding Officer PBS, are in agreement that Piombino should be put to all possible use. They have urged its use for distribution of civilian supplies, now being shipped to Livorno.

4. It is suggested that the Economic Section, Headquarters Allied Commission be approached with the proposal that the Commissions' civilian supply depot, now employing 700 civilians in Livorno, be moved to Piombino. Supply distribution would be improved for the three southern provinces of the region. The northern provinces should soon be served by rail transportation.

Colonel, F.A. US Army,
Regional Commissioner.

1. In reply to your letter 483 of 29 July 1944 and 551/FO of 28 August 1944, regarding possible subject survivors, information has been received that the Prisoner of War Information Bureau of London has no record of these officers' bodies being found or their deaths established otherwise by British Forces. Negative results were also reported by the British Admiralty after every effort was made to trace possible survivors; it is thought none of subject officers were picked up by British ships.

2. When reply is received from Prisoner of War Information Bureau at Washington, whatever data may be available will be passed for your information.

SUBJECT: Policy on Italian Munitions Production

TO : G-5, AFHQ

1. For some time there has been need for a policy governing the treatment of the Italian munitions plants, both state and private concerns.

2. It is considered undesirable that the existing plants, many of which are still capable of munitions production on a large scale, should be allowed to retain their present character. Moreover, the extent of destruction of other manufacturing plants makes it imperative that plants designed for the production of munitions be converted or cannibalized to the greatest possible extent for the production of civilian necessities. After considerable discussion within AC, including the Services Sub-Commissions, the interim policy, set out in para 4, is proposed for adoption by the Allied Commission as a basis for action until a general directive is received from higher authority.

3. The policy statements in para 4 are intended to cover all Italian munition plants (government owned or civilian) which formerly produced war-like stores (including war chemicals) exclusive of naval base establishments serving Allied naval needs.

4. (a) No production of war-like stores is to be permitted during the period of the present war. To this effect, materials and facilities imported by or otherwise in the control of the Allies will not be made available for such production.

(b) Through whatever procedures are established by the Italian Government and the Allied Commission for the handling of transfer of plant and machinery between private firms for the purpose of national reconstruction, it will be the intention of AC to encourage:

1) The use of all machinery capable of serving purposes necessary to the Allied war effort or to the rehabilitation of Italian economy for such purposes.

(c) Exception to the foregoing will be made in the case of firms normally furnishing items and stores to the Italian Navy which will be permitted to maintain supplies at levels to be agreed with the Allied Naval Commander-in-Chief, Mediterranean. In the case of plants which have been working exclusively for the Italian Navy, no action will be taken without prior approval of the Allied Naval Commander-in-Chief, Mediterranean.

(d) This policy is to be of an interim nature. Long-term policy will be developed after advice of decisions as to the size of the Navy, Army, and Air Force to be maintained by Italy after the war and the nature of the equipment to be permitted.

5. In connection with the above statements of interim policy, it is contemplated that the Allied Commission will make a survey of Italian war-like stores in arsenals, factories, depots, dumps or in the hands of units of the Italian Armed Forces.

6. While it is recognized that these are matters of high policy, we consider it extremely important that the officers of AC who are in daily contact with this problem have some interim policy statement to guide them. It is therefore proposed that the statements in para 4 above be used as an interim guide for AC section. May we hear from you by 15 January 1945 if you do not wish these statements to be used in this way, pending advice of the over-all decisions referred to in para 4 (d) above.

While it is recognized that these are matters of high policy, we consider it extremely important that the officers of AC who are in daily contact with this problem have some interim policy statement to guide them. It is therefore proposed that the statements in para 4 above be used as an interim guide for AC action. May we hear from you by 15 January 1945 if you do not wish these statements to be used in this way, pending advice of the over-all decisions referred to in para 4 (d) above.

From: Navy Sub-Commission, Hq. Allied Commission.
To : Ministry of Marine - ROME.

Subject: Major of the Port Vincenzo GUARINO, Railway pass for.

1. Reference is made to Ministry of Marine letter 16062 of 30 November 1944.

2. Enclosed herewith is Permit No. 35, in duplicate, which will allow Major GUARINO to travel by the civilian workers train between ROME and CIVITAVECCHIA until 31 January 1945. Upon the permit's expiration, it should be returned to Captain Dean, Transportation Sub-Commission Representative, LAZIO UMBRIA Region Headquarters, Rome, at which time a permit for the succeeding month will be issued.

3. The enclosed permit does not grant free travel to Major GUARINO and his fare must be paid in the usual way. The question of a free pass for Major GUARINO is one that should be presented to the Italian Ministry of Transport by the Ministry of Marine.
