Prot. No.12126/2

Argomento : Marinaio PAUSELLI Sante, Classe 1920.

1. Il militare in argomento, in forza alla R.Nave "Giulio Cesare", inviato nell'ottobre 1944 in licenza a S.Sepolcro non faceva più rientro a bordo.

2. Esperite le ricerche fu accertato che il PAUSELLI era stato fermato dalla F.S.S. inglese in S.Sepolcro, sembra per irregolarità nel foglio di licenza, e trasferito in località sconosciuta.

3. Successivamente fu possibile conoscere che il militare era stato ristretto nel campo di concentramento per internati civili n.2 di Collecipoli (Terni), ove tuttora trovasi.

4. Si prega compiacersi interessare le competenti Autorità Alleate perché facciano conoscere se, oltre alle notizie riferite, sussistano sul conto del PAUSELLI ulteriori elementi di responsabilità esaminando, in caso negativo, la possibilità di disporne la consegna agli organi della R.Marina per l'esame della di lui posizione militare.

With reference to your letter No. 3 7891 of the 29th June, 1945, the circumstances of the arrest of Dr. Eugenio Sarmella are being closely watched by the Allied Naval Commander in Chief, Mediterranean Station, who has already issued instructions for the press statements to which you refer to be withdrawn. It is not considered, therefore, that a communique on the lines you suggest is desirable at this stage.

As regards the remarks in paragraph 4(b) of your letter under reply, your anxiety for a thorough investigation of the case is fully understood. The arrest was effected, however, and investigations are being conducted by Allied Military Authorities and no Governmental Board of Inquiry should, therefore, be appointed.

Subject: Completion of 4,000-ton Refrigerating Vessel now at Franco Tosi Shipyard, TARANTO.

1. The Navy Sub-Commission is in receipt of a request from the Transportation Sub-Commission, Allied Commission that approval be secured for the completion of a 4,000-ton refrigerating vessel which is located at the Franco Tosi Shipyard, Taranto. The Transportation Sub-Commission has determined that only 120 days of labor and 26 tons of steel plate will be necessary to enable the hull to be floated. As soon as the hull is completed, the Transportation Sub-Commission proposes to float it to Castellamare where the Transportation Sub-Commission states that adequate facilities are available to complete its construction. Approval and enforcement of this project have been given by the Food Sub-Commission, Allied Commission.

2. The Transportation Sub-Commission has stated that revised programs of imports for marine rehabilitation are being developed in conjunction with surveys of Italian industrial capacity and that results indicate that only a very small amount of machinery for merchant vessels must be imported. Representatives of the Transportation Sub-Commission have indicated that if the approval of the Commander-in-Chief, Mediterranean is received for the completion of subject vessel they will arrange to procure necessary labor and material.

3. It is requested that the Navy Sub-Commission may be informed of the views of the Commander-in-Chief, Mediterranean concerning the completion of subject vessel in order that appropriate notification may be given to the Transportation Sub-Commission.

Subject: Alleged Removal of Italian Naval Material by Members of the French Navy.

1. The Navy Sub-Commission recently has been informed by the Ministry of Marine that during the first ten days after the liberation of S. Remo and before the arrival of other Allied Forces French personnel placed the following Italian Navy property aboard their torpedo craft:

2 Torpedoes
2 Torpedo Tubes
1 Compressor
1 New Assault Craft
1 Box of 20 mm. Cartridges
Several German Sea Mines
A Large Number of 75 mm. Cartridges
Several German Anti-tank Mines

2. In addition to the above, the Ministry of Marine alleges that the same French personnel removed all material from the F.I.A.R. wireless telegraph station at S. Remo.

3. The French Navy personnel in question were under the command of Lt. Chauvin and the alleged removals occurred on approximately 4 May 1945.

4. It would be appreciated if the Liaison Division would bring the above allegations to the attention of the French Representative to the Allied Commission and request him to take appropriate steps to cause an investigation to be made and the results reported in order that a reply may be given to the Ministry of Marine by the Navy Sub-Commission.

AL MINISTERO R. MARINA
Ufficio Gabinetto

Nel mese di agosto 1944, il Capitano Inglese Arthur C.MACK, destinato a Livorno quale C.A.P.O. (Chief Allied Police Office) dell'A.M.G. al seguito della 5° Armata, prendeva possesso nel Garage CAMILLI, in Via Rastrengo n°8 - Ardenza - di una macchina di mia proprietà Bianchi S.9 targata 42293 Roma, N° di motore 50422, che trovavasi colà custodita fin dal giugno 1940. Il predetto ufficiale non rilasciava al proprietario del garage nessuna ricevuta o foglio regolare di requisizione.

Ai primi di Aprile del corrente anno mi sono recato a Lucca dove trovavasi il Capitano MACK ed ho avuto con lui un colloquio in seguito al quale egli mi ha rilasciato una ricevuta provvisoria di cui allego copia fotografica.

Un precedente reclamo scritto, da me presentato al Claims Office Americano di Livorno, e da questo regolarmente inoltrato, non ha avuto sinora nessun esito.

Mi permetto di chiedere l'intervento di codesto Ufficio Gabinetto affinchè voglia portare quanto sopra esposto a conoscenza del competente Ufficio della Commissione Alleata e provocarne l'interessamento affinchè, qualora non sia per me possibile ottenere la restituzione della macchina, sia almeno salvaguardato il mio diritto di proprietà mediante una regolare requisizione.

Il libretto di circolazione dell'automobile è intestato a mia madre SIRLETTI Carlotta Amalia ved. BOZZI - abitante in Via Salaria N°195 - ROMA.

Con osservanza.

Subject: Disposal of Recaptured Enemy Material.

Enclosure: (A) Instructions for Disposal of Recaptured Enemy Material.

1. The Naval Allied Commander-in-Chief, Mediterranean has authorised release to the Ministry of Marine, subject to requirements of Allied Naval Authorities, of stores, equipment and supplies of all kinds formerly intended for and available to enemy naval forces, as provided in enclosure (A) hereto.

2. The Minister is requested to form Material Recovery Parties under the Officers-in-Charge of Italian Royal Naval Centers at Genoa, Turin, Milan, Venice and La Spezia to carry out the provisions of enclosure (A). This matter should be treated as urgent to prevent the loss of valuable materials during the interim.

3. The appropriate Allied Naval and Military Authorities will be informed of these instructions.

Enclosure "A" to Navy Sub Commission letter No. [illegible] of the 29th June, 194[illegible]

DISPOSAL OF RECAPTURED ENEMY MATERIAL.

1. The following instructions govern the procedure to be followed with reference to former Italian Navy material which has been recaptured from the Italian Republican Navy or otherwise retaken or found, including material or German origin, except :

(A) Material recaptured or found in that part of the Venezia Giulia recently transferred from Jugoslavia to Allied Military control.

(B) Material of Allied origin irrespective of the manner in which it was acquired.

2. The above material includes consumable naval stores and supplies and military equipment of all kinds formerly intended for and available to enemy naval forces in Italy and, subject to the requirements of the Allied Naval authorities, all materials found and reported to the Navy Sub Commission, Allied Commission, may be utilized at the discretion of the Ministry of Marine for the maintenance of the Italian Navy.

3. The Ministry will form Material Recovery parties at the earliest practicable date in areas designated to take possession and control of all such material not required for Allied Naval use. The functions of these parties are :

(A) To locate, sort, classify and list materials;
(B) To report on 31 July 1945 and monthly thereafter to the Navy Sub Commission through the Ministry of Marine particulars of all material taken over under the following headings, distinguishing in each case between (a) material of Italian origin (b) material of German origin. It is particularly emphasized that these reports are not required to specify details of minor items of stores and equipment and for the most part statements in total of the various items located will suffice.

1.....

Subject: Italian Merchant Vessels - Disarming of.

1. In answer to Ministry of Marine letter Gab.11615 of 10 June 1945, the Commander-in-Chief, Mediterranean has stated that Italian Merchant Vessels in the Mediterranean which carry Italian armament manned by Italian Naval personnel are now to be disarmed.

2. It is requested that the Ministry of Marine arrange for the disarming of all such Italian Merchant Vessels referred to in paragraph (1) above. In addition it is requested that the Navy Sub-Commission be provided with a list of Italian Merchant Vessels which will require to be disarmed and be informed of the numbers and categories of Italian Naval personnel which it is anticipated can be released as a result of the vessel's disarming. The information furnished should include the expected dates on which the Italian Naval personnel will be released.

Subject: Italian Republican Navy Personnel.

1. The Ministry of Marine letter D.7243 of 14 June 1945 requested instructions concerning the disposition of personnel of the Royal Italian Navy who served with the Italian Republican Forces and are now presenting themselves to Royal Italian Navy Authorities. It has further been represented verbally that if they are not taken into custody, they are in danger from the local population. A brief summary of the status of such personnel will assist in clarifying their position.

2. In September 1944 the Italian Government agreed that Italian neo-fascists, in uniform and organised under the provisions of international law, captured by the Allies, should be treated as prisoners of war in accordance with the Geneva Convention in the same manner as German prisoners of war. The term "neo-fascist" includes all Italian fascists who fought for the Republican Italian Government since the Italian Armistice. The purpose of this agreement was, undoubtedly, to secure reciprocity of treatment for members of the Italian Armed Forces when captured by the Germans.

3. In accordance with the terms of the Instrument of Surrender of German and other forces under the command or control of the German Commander-in-Chief Southwest, the personnel of vessels surrendered to Allied Forces are to be reduced to twenty percent of their complement of officers and men. The officers and men removed are to be placed in shore barracks where they are to remain under naval discipline. The crews of merchant vessels are to remain on board their ships. A directive has been received from Allied Force Headquarters that surrendered Italian Republican Navy personnel in the custody of the Royal Italian Navy should be dealt with accordingly and are not to be taken from Italian custody into Allied custody.

4. Under the agreements made in September 1944, referred to above, so far as concerns neo-fascist personnel who are still at large and have not yet been taken into custody by either Allied or Italian Authorities, there is no obligation on the part of the Allies to arrest such personnel or make them prisoners of war. The decision as to the action to be taken concerning them must be the responsibility of the Italian Government, subject always to the right of the Allies to require, even in Italian Government territory, that such personnel as may be desired shall be handed over to the Allies for internment on security grounds.

Subject: Italian Republican Navy Personnel.

5. A distinction is made between "Prisoners of War" and "Surrendered Enemy Forces". All enemy personnel, who have not passed through Army prisoner of war cages before 1400 hours on 2 May 1945, will be termed "Surrendered Enemy Forces". Surrendered Italian Republican Navy personnel taken into Allied custody will not be accorded prisoner of war status except on express direction from Allied Force Headquarters.

6. In accordance with the instructions contained above, the action to be taken concerning ex-Italian Republican Navy personnel who are still at large, is the responsibility of the Italian Government. Such personnel cannot be taken into Allied protective custody either as prisoners of war or surrendered enemy forces.

To : Commander-in-Chief, Mediterranean Station.
(Copy to :- Flag Officer Taranto, Adriatic and Liaison, Italy.)

Subject : Clothing Supplied to the Italian Royal Navy.

The Ministry of Marine have recently reported a few incidents in which it appears that Italian Naval Personnel have been apprehended by Allied Military Authorities for having in their possession uniform and footwear with markings of British origin.

2. This difficulty has been experienced previously and it seems evident that lower military formations are unaware that clothing and footwear are supplied from the United Kingdom by the Royal Navy for the use of the Italian Royal Navy. In view of the desirability of avoiding the unnecessary loss of materials supplied from Allied Sources, however small, as well as the administrative work arising from investigations of such cases individually, it is requested that the matter may be represented to Allied Force Headquarters, with a view to the promulgation of a brief notification of the facts to military formations.

Subject: Floating Sheers - Trieste.

1. With reference to your letter No. SM.10569 dated 27th May 1945, it has been found necessary to employ the floating sheerlegs - TRIESTE, at Civita Vecchia and they will not therefore be available for work on the Duca degli Abruzzi breakwater at Naples.

2. There is however, at Castellamare a floating gantry CESARE, which is at present under repair by its owners. The Naval Officer in Charge, Naples has been directed to afford naval assistance in the matter and it is hoped that on completion it will be possible to make CESARE available for work on the Duca degli Abruzzi breakwater.

1. Your letter NSC/2661 dated 15 June 1945, subject as above, has been passed by the Transportation Sub Commission to this Group for action.

2. Para 4 of the Commander-in-Chief's letter referred to by you is not strictly accurate. The 10 Italian Transport Companies referred to are purely operating Companies and in no way handle Maintenance and repairs except in so far as performing 1st and 2nd echelon maintenance on their own vehicles.

3. 3rd and 4th Echelon Maintenance Shops have been and are being set up in various centers of Italy. These have been authorised by A.F.H.Q. who stated the object would be to take care of all A.C. vehicles and the vehicles of all Allied relief Agencies and missions. These vehicles are American vehicles and it is regretted that the facilities given to us would not enable us to maintain Italian vehicles.

Subject : Periodic inspections of Italian Royal Navy Bulk Food Depots.

In order that periodic inspections of Italian Royal Navy Bulk Food Depots may be carried out from time to time by officers of the Military Mission to the Italian Army, who are primarily responsible for all bulk supplies of foodstuffs to the Italian Armed Forces, it is requested you will advise the appropriate authorities at Taranto, Brindisi, Bari, Naples, La Spezia, Venice, Messina, Cagliari and Maddalena that such inspections are contemplated and that every facility should be afforded these officers to enable them to perform their duties.

2. It would be appreciated if Officers-in-Charge of the above named depots could furnish the inspecting officer with a statement at the time of the inspection showing :-

(a) The number of personnel victualled from the base.

(b) The stocks of food held on charge at the time.

Subject : Ammunition ex. "V.VENETO" and "ITALIA".

Your N.S.C./253 of 4th inst. refers.

This matter had been given particular attention as the deterioration of ammunition in question means a considerable loss to Italian Royal Navy since no further stocks are available.

The present condition of the Depots in Egypt indicates that there will be a progressive worsening of the situation and that a large part of this ammunition will have to be condemned with no possibility of its replacement.

I consider it necessary, therefore, to insist that this Ministry's proposal to send a small party of specialists to Egypt to carry out the necessary work on the spot be re-examined, or, should this not possible, to arrange transfer of ammunition in question to Italy as soon as transport is available.

1. In answer to Ministry of Marine letter 2SC/00 of 10 May 1943, the Navy Sub-Commission has been informed by the Commandant, U.S. Naval Operating Base, Palermo that no detailed estimates for the necessary repairs of the SAN MICHELE have been prepared, but that the overall estimate is seventy-five thousand dollars($75,000), as previously reported. As of the present date no work has been undertaken on SAN MICHELE at the U.S. Naval Operating Base, Palermo. The Commandant has stated that he will be pleased at any time to assist Public Works and owners' representatives in conducting any inspection and survey of SAN MICHELE which they may desire. SAN MICHELE now is moored in the commercial port of Palermo.

2. In a recent communication from the Commander-in-Chief, Mediterranean, the Navy Sub-Commission has been informed that it will be necessary for the crews' quarters, galley, etc., to be fitted out. R O M A

We take the liberty of informing your office of our lack of personnel, apt for the many salvage commissions, that we are presently undertaking on behalf of the Royal Navy Fleet Salvage.

Among our personnel we have listed Mr.Mario MURATORIO, assistant technician, who, at the beginning of hostilities, was in Asmara. He was recalled in service as a Major of the Italian Royal Air Force and, later, was taken prisoner. The aforesaid person is, at present moment, in Bombay, Camp.28, No.31066.

We could be grateful to your office if you could see that Mr.MURATORIO returns to Italy, where he could look after many delicate matters in our work.

We care to remind you that Mr.MURATORIO was never listed in the Fascist Party, nor was ever interested in politics.

Thanking you for your help,

Yours truly

1. Reference is made to Commander-in-Chief, Mediterranean letter MED.45/210/6/5A of 23 May 1945, which requested the Navy Sub-Commission to arrange for the Italian Ministry of Marine to implement an organisation at Messina on the lines suggested in Senior Naval Officer Eastern Sicily's letter number AB/5/2063, dated 20 April 1945.

2. The Ministry of Marine has notified the Navy Sub-Commission that it is prepared to establish an office of Genio Marina at Messina for the purpose of carrying out repair, maintenance and constructual work at the Royal Navy Base. The Navy Sub-Commission has approved the assignment of Lt.Col. (Engineers) CATALDI, Giuseppe as its Senior Civil Engineer Officer.

3. The Navy Sub-Commission has directed that arrangements be made for the activation of Genio Marina, Messina at the earliest possible date and has approved the tentative adoption at Messina of technical and administrative procedures similar to those now in use at Naples and Taranto. Detailed procedures will be drawn up locally by Genio Marina, Messina and submitted to the Senior Naval Officer Eastern Sicily for final approval.

It is pointed out that the variation of about 6,000 in N° units in this estimate compared with the previous one and about 10,000 as compared with estimate for 20 June last is due to discharges and exceptional leave granted to personnel whose families are up to North.

As discharges will be compensated in part by new recruiting and the return of men now on leave, it should be borne in mind that future victualling estimates will again rise in ration strength to former figures.

Subject: Italian Military and Naval Censorship.

1. As requested in Ministry of Marine letter 86468 of 30 May, the Navy Sub-Commission has approached the appropriate section of Allied Force Headquarters in regard to Italian Censorship in areas of Italian Navy responsibility.

2. From the information received by the Navy Sub-Commission, it would seem that the Ministry of Marine is under a misapprehension. The Italian Military Press Censorship Organization, which is set up under the authority of the Information News and Censorship Section, Press and Radio Censorship Branch, is autonomous only from the point of view of administration.

3. From the policy point of view, all press censorship directives are issued by Allied Force Headquarters. The desires of all Italian Ministries are presented to the Chief, Press and Radio Censorship Branch through the Chief Italian Military Press Censor. If approved, they then are incorporated in Allied Force Headquarters Censorship Directives.

4. Therefore, in the light of information received by this Sub-Commission, it would appear that the composition of Italian Press Censorship Units is immaterial. Regardless of whether the Italian Censorship Officers belong to the Italian Army, Navy or Air Force they carry out the same directives, and the Chief Italian Censor should maintain the necessary liaison with the Ministry of Marine or with any other Ministry of the Italian Government which is interested.

3. The Land Forces Sub-Commission (M.M.I.A.) should be informed of all transportation requirements of the Italian Ministry of War in order that the necessary movements may be arranged.

4. It is felt that the Ministry of Marine should encounter no difficulty in handling requests for the use of Italian Navy vessels by other Italian Government agencies if all such agencies are reminded that transportation requirements should be submitted to the appropriate branch of the Allied Commission and that no request should be submitted to the Ministry of Marine for the movement of individuals by any specific means of transportation, either Italian Naval vessels or otherwise.

REPORT OF PROCEEDINGS 1st MAY to 31st MAY, 1945.

Sir,

I have the honour to forward my Report of Proceedings in my capacity as Flag Officer, Taranto and Liaison, Italy for the period 1st May to 31st May, 1945.

REVIEW OF ITALIAN NAVY.

2. There has been a considerable reduction in the employment of Italian ships generally, on British Services during the month, except for the cruisers, three of which continue to be fully employed in transporting large drafts of British Personnel. One cruiser has been used to carry large numbers of refugees from North Italy to Sicily.

3. The number of Italian Submarines in use for Anti Submarine training have been reduced. The GUGLIELMI has returned from the Red Sea, DIASPRO from Malta, while JADRA and MICHELE are expected to return to Taranto shortly from Gibraltar.

4. With the end of the war in Europe, there are now more British Destroyers available to assist in the working up of Aircraft Carriers and Cruisers at Malta, and two of the Italian destroyers which had been used for this purpose have consequently been returned to Taranto. The destroyer [illegible] has sailed to Colombo for duties on the East Indies Station.

5. Convoying is practically at an end, though since the opening up of the port of Venice, convoys Ancona - Venice have been escorted by two pairs of Italian corvettes owing to the constant danger from mines in those waters. Otherwise, the Italians have been allowed, in the main, to use their escort vessels for their own purposes, which have centred in the transportation of sailors going on leave to the North, until this was temporarily suspended on the East Coast owing to congestion at Ancona.

6. As regards the battleships in the Bitter Lakes, the end of the war in Europe and the complete liberation of Italy must be calculated to have lowered, rather than raised, the morale of their crews, since they have now much more incentive than heretofore for wishing to proceed on leave and regain contact with their families. For this reason, the Minister of Marine has ordered Admiral DA ZARA to proceed to the Bitter Lakes and address the ships' companies, with a view to improving morale.

This visit .....

Declassified E.O. 12356 Section 3.3/NND No. 785020

This visit has been approved by the Commander-in-Chief, Mediterranean and is expected to take place early in June.

DOCKYARD.

7. The Commodore Superintendent's report of repairs carried out at Taranto, Bari and Brindisi during the month of May is enclosed.

8. The complete liberation of Italy and cessation of hostilities in Europe has not so far had the unfavourable effect on work in the Taranto dockyard which had at first been feared. Work is continuing at the same standard as before and, in fact, the workers have put in some overtime to make up for the time lost during the various fiestas which took place on and after V.E. Day. I continue to hear re ports from Commanding Officers of British ships refitted in Taranto dockyard that they have had a better or as good a refit as they have ever had in any dockyard.

9. The situation regarding clothing for dockyard workmen has eased slightly and advice has recently been received that 5,000 overalls are to be supplied.

PERSONNEL.

10. During the month Italian Port Parties have been sent to Venice, Spezia, Manfredonia, Porto Cersini and Ravenna. The British Port Party has been withdrawn from Manfredonia and the Port turned over completely to the Italians. It is intended to hand over Porto Corsini and Ravenna to the Italians on the 10th June.

11. A large number of personnel are now being sent on leave to North Italy in order to visit their families. They have been transported by destroyer to Leghorn and in corvette to Ancona. In spite of assurances received from the Commander-in-Chief, Italian and Lower Adriatic that these personnel would in no way inflict themselves on the Naval Officer-in-Charge, Ancona, I received a report from him towards the end of the month, that they were in fact an encumbrance on him, since the Italians had no organisation capable of dealing with them. I have consequently issued instructions that no further personnel are to be sent to Ancona for leave in Northern Italy for the present.

ITALIAN NAVAL LIAISON PARTIES.

12. In view of the reduction in the numbers of Italian ships employed on British services, it is hoped to be able to effect further reduction in British Liaison Parties during June.

CONFIDENTIAL .....

Declassified E.O. 12356 Section 3.3/NND No. 785020

MINESWEEPING.

13. There has been considerable discussion during the month on the subject of minesweeping by Italian Sweepers. A force of Italian Minesweepers is being formed to carry out organised sweeping in the Bay of Naples. The Minister of Marine endeavoured to explain the non-arrival of Minesweepers at Naples by alleging that I had opposed their transfer from Taranto. This was completely untrue since I had never been approached on the subject and, had I been, I should have been only too glad to allow Italian Minesweepers to leave my area where I have yet to see them do any work of material value. It has been my experience that Italian Minesweepers, which are for the most part converted fishing vessels, are very much more interested in fishing than minesweeping.

POLITICAL.

14. With the termination of hostilities in Europe there is now a feeling of nervous anticipation in the Italian air. Their future is uncertain and they undoubtedly view with growing concern the approaching departure of the Allies from Italy, which will leave them to their own devices under a Government in whom they have no great confidence for some time to come.

15. The situation in Venezia Giulia, and particularly in Trieste, is most disturbing for the Italians, many of whom have near relations in that area. The firm attitude adopted by the Allies has been received with acclamation and has helped to reassure the people that the Yugo-Slavs will not be allowed to dictate the future generality of Trieste and Venezia Giulia.

GENERAL.

16. Now that the Naval War in the Mediterranean is over the Italian Navy feels that it's task of assisting the Allies has come to an end. I think it can truthfully be said that they have little or no interest in the war in the Far East and the general attitude is to obtain demobilisation and return to their families at the earliest possible moment. I doubt whether there would be any great response to a call for volunteers to serve in the Far East.

17. Nevertheless it will be admitted that during the past 18 months, the Italian Navy has co-operated to the fullest possible extent and rendered valuable, though unspectacular, service to the war effort. The lack of sabotage or veiled resistance to Allied orders has been most encouraging and the Italian Navy has in my opinion shown real desire to co-operate with the Allies as best they were able. Their "best" has not always been very good, but this is due to their national characteristics rather than any lack of desire to co-operate.

I have the honour to be Sir,
Your obedient Servant,
(Sgd.) G. E. MORGAN
VICE ADMIRAL.

19th June, 1945.

From: Navy Sub Commission, Hq., Allied Commission.
To : The Minister of Marine, Rome.

Subject: ZANFAGNA, Marcello.

Your attention is invited to the following report which has been received from Allied Force Headquarters.

2. On the 7th June, 1945, 808 Centro Spionaggio Battalion arrested at Naples a certain ZANFAGNA, Marcello, who had returned from former enemy occupied territory at the end of May. The grounds for the arrest, which had the support of the Allied Security Authorities, were that ZANFAGNA had collaborated with the German Secret Service, was a former enemy agent, and was also formerly an officer of the Xth Flotilla M.A.S.

3. The Centro Spionaggio Centre at Naples notified the Allied Security Authorities on the 10th June, 1945, that the Comando in Capo, Dipartimento Marittimo Basso Tirreno had applied the same day for ZANFAGNA to be surrendered to Italian Naval custody. The Italian Naval Authority claimed to be acting on the orders of Admiral De Courten, who wished to interrogate ZANFAGNA on an unspecified subject.

4. Ceding to pressure and the superior rank of the Italian Naval Authority, the Centro Spionaggio Centre at Naples, surrendered ZANFAGNA at the POGGIOREALE Gaol on the 13th June, 1945, stipulating his eventual return to the Centro Spionaggio Centre. It is believed that ZANFAGNA has been transferred to Rome.

5. Allied Force Headquarters wish me to state that they consider this interference by the Italian Ministry of Marine, with Centro Spionaggio work which was being carried out on behalf of the Allies is in their opinion most irregular. Allied Force Headquarters have requested me to demand the immediate return of ZANFAGNA to the custody of Centro Spionaggio Centre, Naples, and an explanation of the unwarranted interference in Allied Security measures.

Date : 12 June, 1945.
Ref. : SM.11697.

Subject : W/T for Communications Service.

1. As you are aware, F.O.T.A.L.I. and F.O.M.A.M. arranged for some W/T. to be made available to Communications Service for repairs to telegraph lines and to ensure supplies to Semaphore and constal W/T Stations.

2. Considering that :-
a) - Some of those services were of operational interest to Allied Commands;

b) - That the obligation to carry sufficient fuel for the duration of the work caused excessive wear and tear to the W/T and prevented rational use of same, F.O.M.A.M. issued (when necessary and for limited period) permits to obtain petrol from Allied depots in the area where operating.

3. Naples having become of less operational interest and above all to changes in the running of coastal Commands, these supply facilities are no longer available.

4. However, as you are aware, the work to be carried out by I.R.M. Communications Service is on the increase as recently liberated areas have to be linked up (Spezia and Venice, for example) and much remains to be done, apart from maintenance to some lines which are also of interest to Allied Authorities to a certain extent.

5. It is therefore suggested that F.Q.L.I. continues to allow facilities (by means of coupons or permits) from time to time for this Maristat, which controls all the organisations in being, to obtain fuel from Allied depots for the rational and economical execution of repairs and maintenance.

It is understood that the Military Mission to the Italian Army are prepared to extend the scope of their investigations regarding stocks of foods held by the Italians to Italian Royal Navy establishments.

3. An inquiry into the detailed distribution of rations within the Italian Navy itself is, however, considered most undesirable as the policy has been not to interfere with their internal administration.

1. Levant Naval Command informed on 1st ulto. that I.R.N. personnel stationed at Haifa are not receiving the cigarette-match ration as arranged nor the recent increase in flour ration to 15 ounces.

2. Moreover, said Command informs of considerable discontent felt by subordinate personnel due to their being unable to purchase N.A.A.F.I. supplies due to local restrictions which only authorize such purchases when local market prices are "prohibitive".

3. Considering that cigarette-match issue and increased flour ration are established by Allied Authorities, request you kindly bring this fact to the notice of Haifa local Authorities so that such rations be issued to Italian personnel stationed there.

4. At the same time it is requested that said personnel be enabled to purchase N.A.A.F.I. goods, within limits, in view of the fact that due to shortage of local currency (3 palestinian pounds per mensum), local market prices, so far as I.R.N. personnel are concerned, are practically "prohibitive".

1. Reference is made to Economic Section memorandum number 1.38/EC, CWW/es of 15 June 1945 which requested that favorable consideration be given to the possibility of modifying Allied Commission Office Memorandum number 20, dated 21 December 1944.

2. Allied Commission Office Memorandum number 20 was not intended to prevent Sections and Sub-Commissions of the Allied Commission from contacting representatives of the Ministry of Marine on routine matters of which the Navy Sub-Commission has been made cognisant by the Allied Representatives concerned.

3. At the time of drafting Office Memorandum number 20, the Navy Sub-Commission realised that the interest of other branches of the Allied Commission in matters concerning the Italian Mercantile Marine would make it necessary and advisable that they be permitted certain direct contact with Ministry of Marine personnel. Representatives of the Agriculture Sub-Commission (Fisheries Division), Shipping Sub-Commission and Transportation Sub-Commission were verbally informed of the Navy Sub-Commission's views in the matter and have acted accordingly in their dealings with the Ministry of Marine during the past six months.

4. It is believed that during this period no difficulty has been encountered by Allied Commission personnel as a result of the memorandum's existence. It is not considered, therefore, that the transfer of the functions of the Shipping Sub-Commission to the Transportation Sub-Commission requires that Office Memorandum number 20 be revised. However, if desired, the Navy Sub-Commission has no objection to the addition of a paragraph to Office Memorandum number 20, which is written in the sense of paragraph two above.

5. The Navy Sub-Commission does not concur in the cancellation of Office Memorandum number 20 or in other revisions thereof, as it is felt that if other Sections or Sub-Commissions of the Allied Commission contact the Ministry of Marine, the onus of keeping the Navy Sub-Commission informed of their dealings should remain with those Sections or Sub-Commissions concerned.

Subject : Rations for Lighthouse men and militarised civilians serving in inaccessible places.

A submission has recently been received from the Ministry of Marine that certain civilian personnel are suffering undue hardship as a result of the strict application of the Allied ruling that no civilians can be entitled to draw Armed Force Rations.

2. It would appear that, prior to the Allied occupation of Italy, the Corps of Navigational Aids Personnel, being a highly organised body entrusted with the manning and maintenance of lighthouses and living as they so often do, in isolated and inaccessible places far removed from inhabited localities, were permitted to draw naval rations from Italian naval sources.

3. In these circumstances, observing the ill feeling and discontent liable to arise from witholding such rations, it is submitted that an exception might well be made of the undermentioned personnel, to avoid any possibility of dislocation of this important and vital service.

4. The numbers involved are as follows :-

403 Lighthousemen
7 Lighthouse workmen who are specialists in repair work.

Consideration has been given to the more detailed application made in the Ministry's letter No. B.5934 of the 19th May, 1945, for increased advances of British and United States funds for the payment of personnel outside Italian waters. It is observed that the Ministry's reasons for the proposed increases are confined to a justification of adjustments between types of service, ranks and rates and no explanation as to the necessity for overall increases in sterling and dollar advances is given.

2. If the Ministry's object is merely to effect adjustment of rates of pay as between ranks and rates, this can be achieved by making appropriate increases and reductions so that no change in the total sums of sterling and dollars need be necessary. It is requested therefore, that the Ministry will give further attention to this matter, and if, after further consideration, it is ultimately thought essential for advances in Allied currencies to be increased in total, a full explanation of the grounds for such a request be given, together with the data already provided, for the information of the Commander-in-Chief, Mediterranean Station.

PROVISION OF SERVICE FOR VEHICLES SUPPLIED TO ITALIAN ROYAL NAVY

With reference to your letter N.S.C./2401 dated 11th May, 1945, while it is appreciated that a complete check on spares, replacements, etc. would be achieved should the Royal Navy undertake general responsibility for servicing the Italian Royal Naval Motor Transport, it is regretted that this is impracticable owing to considerations of man power, and is contrary to the policy of reducing Royal Navy commitments in Italy.

2. For this reason it will be necessary to adhere to the procedure for supply of spares and tyres laid down in Allied Force Headquarters Memorandum 3200/6/3/Q(AK) dated 3rd April, 1945 which was forwarded with Mediterranean letter Med.45/955/16/3 dated 17th April, 1945, accepting the fact that, after screening, supplies may not correspond exactly with requirements.

3. The facilities made available to the Italian Royal Navy at Naples cover emergency work only and there is no intention to withdrew them at present.

4. It is understood that the Allied Commission have arranged the formation of ten M/T Maintenance and Repair Companies (Italian General Transport Companies for Allied Commission) manned by Italians under British non-commissioned officers for distribution throughout Italy in order to provide for vehicles supplied by the Allied Commission If the Italian Royal Navy have difficulty in arranging for maintenance of its vehicles it is suggested that approach be made with a view to affiliating them to these units.

5. The Companies in question are under the control of Lieutenant Colonel Franklin, Transport Sub Commission, Headquarters, Allied Commission, Rome.

ENCLOSURE TO ASSISTANT NAVAL STORE OFFICER, ROME's LETTER OF 6th JUNE, '46

Town :- PORTOCANNARO

Location :- Junction of routes 14 and 53.

The works visited were the "Fabbrica Persfofati" which had apparently been manufacturing agricultural implements. An army unit was in occupation, using the front of the factory and the yards for M/T maintenance.

2. Located in the rear of the mainbuilding are several heaps of metal :-

(a) 1 pile, estimated at 10 tons, of zinc slabs, varying from 4" x 9" to 6" x 18", and up to 3/4" thick.

(b) 5 piles, estimated at 25 tons, of lead, copper and brass scrap (in sheet, strip and piping).

(c) 1 pile, estimated at 6 tons, of some 60 No. copper or phosphor-bronze ingots, each approximately 30" x 15" x 6".

(d) 30 No. empty acid carboys.

Subject : Swing Bridge over Canal at Taranto.

Due to the intense traffic above Bridge has carried during the last few years, the structure has become distorted and weakened.

Maridipart Taranto has been asked, in accordance with F.O.T.A. and 22 Area Command, to examine the possibility of limiting the traffic so as to allow a proper inspection to be carried out.

To do this and to undertake radical repairs, it would be advisable to have a subsidiary 20 - ton bridge with floating supports.

As I.R.M. cannot undertake this work due to lack of materials, we shall be grateful if W.S.O. will approach Allied Authorities concerned to provide a floating bridge (of the type used for landings) or the material required for its construction.

Subject: Lorry for Upper Tyrrhenian Lighthouse Area.

The "Bedford" truck N°.L.4668350 which Allied Authorities made available for above area is in bad condition due to over-long running.

It can still be used locally but in definitely not in condition to undertake long or arduous trips such as are required for Lighthouse servicing.

Therefore shall be glad if N.S.C. could have this lorry replaced to carry out servicing and renewals as insistently requested by N.Cs.I.C. at Genoa and Leghorn.

SUPPLY OF CIVIL ENGINEERING AND BUILDING MATERIALS FOR USE BY MINISTRY OF MARINE AND GENIO MARINA ON WORKS FOR THE ROYAL ITALIAN NAVY.

With reference to your MSC/2291 of 4th May, 1945 (not to all) it is regretted that the Royal Navy cannot accept any of the responsibilities envisaged in paragraph 2 of your letter either through the Commander-in-Chief, Mediterranean, Flag Officers or local Officers in Charge of works, since they would involve placing upon the Royal Navy Civil Engineering Department a constantly increasing amount of work in connection with schemes for the Royal Italian Navy coincident with reduction and ultimate complete withdrawal of Royal Navy Works staff.

2. Responsibility for obtaining stores for works being executed by Genio Marina and the Ministry of Marine for the Royal Navy and the Royal Italian Navy is defined as follows :-

(i) Royal Navy will arrange through existing channels for supply of requirements on all works under the supervision of an R.N. Officer in Charge of Works whether they are actually being executed by the Royal Navy or by GENIO MARINA.

(ii) GENIO MARINA and the MINISTRY OF MARINE will be responsible for arranging (through the Navy Sub Commission in the case of restricted or controlled materials) for supply of requirements on all works not under the supervision of an R.N. Officer in Charge of Works regardless of the service for which the work is being carried out and of whether the port is under British or Italian control.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785020

The sole consideration governing the method of procuring materials is therefore whether the project concerned is under the supervision and direction of an R.N. Officer in Charge of Works or not.

3. In the case of controlled and restricted materials for which bids are made at the monthly meetings of the Engineering Materials Committee of the Allied Force Local Resources (Italian) Board, requirements as paragraph 2 (ii) above, on behalf of the Royal Italian Navy should be dealt with through the Chief of the Navy Sub Commission, Rome, in accordance with paragraphs 5 and 8 of the Commander-in-Chief, Mediterranean's Memorandum dated 5th January, 1945 on "Local Resources in Italy, Sicily and Sardinia". It should be noted that since cement is now a controlled material it requires to be dealt with as above and not as in paragraph 10 (b) of the Memorandum which is therefore superseded in this respect.

Since supplies as paragraph 2 (ii) are for works executed on behalf of the Italian authorities, it follows that such works would be classed as maintenance or approved re-habilitation, and bids placed with the Allied Force Local Resources (Italian) Board should be described accordingly so that they may be given the appropriate priority.

4. In the case of uncontrolled items, it is the responsibility of the Ministry of Marine to make their own arrangements for procurement of supplies.

5. It is requested that you bring the above procedure to the notice of the Ministry of Marine for ONIC MARINA. R.N. Officers in Charge of Works are being informed accordingly.

1. To meet urgent Ship accumulator requirements, it was found necessary to set up a Battery Works at Naples Base to work with the Partenope factory at Granlnuovo.

2. Maridipart Naples therefore made arrangements with local Allied Authorities as set out in attached letters 21933 of 16 June 1944 from Maridipart Naples and No.0515 of 4 June 1944 from R.N.M.S.

3. The Workshop was made ready but has not been able to operate due to P.A.P. Granlnuovo being unable to grind the lead as had been established in above-cited correspondence.

4. Due to the increasingly urgent need to effect battery replacements in Ships, and Submarines especially, request you kindly ask Allied Authorities controlling P.A.P. to reconsider the possibility of having the lead ground which is essential to accumulator manufacture.

ARGOMENTO: Visite impianti accumulatori Ditta Partenope.

Riferimento mio log.le N°02387 in data 10 c.m. all'argomento sopracitato.

In seguito alla visita ai locali della Ditta F.A.P. eseguita dal delegato inviato dal Ministero della Marina, Maggiore del Genio Navale BARBI, Pasquale, è apparso che è possibile costituire in Taranto un reparto per la costruzione e riparazione degli accumulatori qualora la Ditta concessse con i mezzi a sua disposizione per su erare le difficoltà d'impianto.

A questo scopo si prega codesto Comando voler interessare le Autorità competenti perchè sia concesso quanto appresso : -

a) - permesso di macinare nei mulini delle fabbrica, che sono conberanti rispetto alla produzione attuale, la quantità di piombo che sarà fornita dalla Regia Marina;

b) - permesso di inviare saltuariamente a Taranto il tecnico della Ditta con gli elementi necessari e disegni relativi per poter approntare l'attrezzatura necessaria;

c) - permesso di prelevare presso la Ditta gli stampi e relativi cavalletti attualmente non utilizzati e che non interessano la produzione alleata;

d) - permesso di prelevare dai magazzini della Ditta le piastre per accumulatori ivi depositate - che non interessano la produzione alleata;

e) - permesso di prelevare gli accumulatori già formati che non sono attualmente utilizzati.

Nell'attesa dell'attuazione del programma di cui sopra, si prega voler come per il passato, mantenere l'autorizzazione affinchè le fabbrica continui ad eseguire per conto della Marina i lavori più urgenti.

Further to our letter ST/53/20 of 24 May 45.

1. Certain difficulties have arisen in connection with the disposition of stock caused by the closure of No. 13 Bulk Food Depot, TARANTO. In order to meet these contingencies the measures appearing below will be followed.

2. Italian Navy will draw requirements including allowable reserve for maintenance to and including 20 June from No.13 Bulk Food Depot, TARANTO.

3. Balance of stock in No.13 Bulk Food Depot will be transferred to the No.11 Food Distribution Depot, TARANTO. Any excesses over a 30 day holding for this Depot will be moved to No.9 Bulk Food Depot, BARI, under arrangements of MMIA LO BARI.

4. Italian Navy Pack ex 22 CRASC of 32,000 rations daily commencing on 6 June, will be taken into No.9 Bulk Food Depot until 21 June. Subsequent to 20 June Italian Navy Pack will be despatched by No.9 Bulk Food Depot with adjustments to make up for unbalanced holdings of Italian Navy at TARANTO. When Italian Navy holdings at TARANTO are balanced, a balanced pack will be resumed from 22 CRASC through the Bari Bulk Food Depot.

5. MMIA LO BARI has already made arrangements with Direzione Commissariato Bari, Italian Navy (Bari and Taranto) and 22 CRASC to implement the above.

6. To MMIA LO BARI, this confirms telephonic agreement your letter ST/2 of 1 June 45.

Date : 4 June, 1945
Ref. : SM.11033.

Subject : Allocation of Petroleum Products to I.R.N. Command ANCONA.

With reference to conversations held.

1. Traffic to recently liberated Northern Bases has occasioned an exceptional influx of through M/traffic at Ancona which frequently needs to refuel before proceeding further.

2. For above reason, allocation of petroleum products to Ancona Base should be doubled, as follows :-

- Gasoline	1040	gals	monthly
- Gasoil	360	gals	"
- Kerosene	6	gals	"
- Motor oils	30	gals	"
- C 600	6	gals	"
- Greases	3	lbs.	"

3. In view of difficulties already experienced in regard to carrying on the services, request increase may come into effect as from current month.

It is considered that above increase would be required temporarily and that allocation could be reduced to normal once exceptional traffic requirements have ceased.

Subject: Demobilisation Italian Royal Naval personnel.

1. As a result of a directive, understood to have been issued by the Ministry of Marine to all Italian Naval Authorities, to the effect that certain naval personnel of the classes below 1919 were to be discharged forthwith, some members of the crews of the tugs TURBINE and MELORIA in Leghorn abandoned their ships and could not be located.

2. The Naval Officer-in-Charge, Leghorn advises that his Italian Naval Liaison Offices contacted MARIDEPART, Naples to obtain reliefs. In the meantime, these two essential tugs cannot be manned and operated.

3. It is presumed that provision would have been made in the directive referred to regarding the supply of reliefs and it is therefore requested that a report be forwarded on the disciplinary action it is intended to take against the personnel responsible for this incident.

1. Receipt is acknowledged of Ministry of Marine letter SM. 9871 of 19 May, which requested that an Italian cruiser be made available for the purpose of transferring approximately 1,000 civilian refugees from Sardinia to the Mainland of Italy.

2. This office has been informed by the Displaced Persons and Repatriation Sub-Commission, AC that it has been agreed with the Italian High Commissioner for War Refugees that, during the present rush of refugees from the North of Italy to the South, it is undesirable to undertake the additional commitment of sending refugees to their homes from Sardinia. It is considered that they can receive better care in Sardinia than they can on the mainland. At the present time all refugee camps on the mainland are full and over-flowing and transport is taxed to the utmost.

3. In view of the above the Displaced Persons and Repatriation Sub-Commission has decided to postpone to a later date the less urgent repatriation to the mainland from Sardinia.

Subject: Port of LA SPEZIA.

1. In answer to Public Works and Utilities Sub-Commission letter 109/PWU of 1 June 1945, the Navy Sub-Commission has requested the Allied Naval Commander-in-Chief, Mediterranean to give due consideration to providing the requisite ACCOUSTIC and MAGNETIC minesweepers for clearing the Port of LA SPEZIA in order to reactivate the docks and relieve local unemployment. A copy of the communication to the Allied Naval Commander-in-Chief, Mediterranean has been forwarded to the Senior Naval Officer Western Italy, Naples for information.

2. In this connection it is desired to bring to the attention of the Public Works and Utilities Sub-Commission the fact that the shortage of minesweepers and minesweeping equipment makes it unlikely that the Port of LA SPEZIA can be cleared until after the completion of similar minesweeping activities have been completed in the Port of GENOA.

Subject: Italian Civilian Personnel for the Eastern Theatre.

Arrangements which have not yet been made public, are being made with the Italian Government for the recruitment of Italian Civilian labour for civil engineering work with the Royal Navy in the Eastern Theatre.

2. It is intended to supply each recruit with an out-fit of clothing for the purpose of their employment and, in particular, the Commander-in-Chief, Mediterranean Station, has under consideration the issue of a blue cap similar to that at present in use in the Italian Royal Navy but without a cap ribbon. It is requested, therefore, that a specimen naval cap may be supplied for inspection by the Commander-in-Chief, Mediterranean Station and, as far as possible, the following particulars of manufacture obtained from the Ministry's contractors for this type of product :-

(i) the estimated cost of making caps from blue serge supplied by the Royal Navy;

(ii) the details of material required to make 16,000 caps;

(iii) the earliest date by which 2,000 caps could be supplied after delivery of materials and the rate of completion of subsequent quantities up to 16,000.

Enclosure: (A) List of machine tools and equipment belonging to Cantieri Navali Riuniti Ltd., Ancona and which were evacuated to Northern Italy.

1. Enclosure (A) is a list of machine tools and equipment belonging to Cantieri Navali Riuniti Ltd., Ancona which were evacuated to Northern Italy.

2. As the Cantieri Navali Riuniti Dockyard in Ancona is now under the control of the British Navy, the Allied Naval Commander-in-Chief, Mediterranean has requested the Allied Commission to assist in, and give authority for, the return of the equipment to the dockyard at Ancona. All of the machinery and equipment listed in enclosure (A) was deposited in various areas of Northern Italy for security during hostilities. Each machine has been dismantled and crated for light and easy shipment. Accurate records are held by the Management of the Cantieri Navali Riuniti, Ancona as proof of ownership. The machines are all of modern manufacture and would be of great assistance in hastening naval repair work.

3. The larger proportion of the machines now in use at Ancona was requisitioned from the Railway Wagon Works at Civitanova Marche, who it is understood have twice made representations to the Allied Commission for the return of their property in order to expedite the rehabilitation of the Italian State Railways. The British Naval Officer-in-Charge, Ancona considers that by the return of the machinery listed in enclosure (A) to Ancona, it will be possible to take favorable action on the request for the return of some equipment for the use of the Italian State Railways. Also, he has stated that if release for this machinery is given, a large proportion can be transported by vehicles now available at the Ancona Dockyard.

2. Due to the large number of such cases and due to the usual lack of specific information concerning their past history and present status, it is the policy of the Navy Sub-Commission to require the owners of vessels whose title is in dispute to present their cases to the Italian Ministry of Marine in Rome. If after study of the owner's claim, in conjunction with any other information which may be available to the Ministry on the subject, the Ministry considers it is appropriate to do so, it will refer the question of the vessel's status to the Navy Sub-Commission in order that a final decision may be requested from Allied Naval Authorities.

3. In connection with the procedure outlined above, it is desired to emphasize that all owners of vessels who desire to present a claim to the Ministry of Marine should be instructed to furnish initially to the Ministry of Marine complete, and if possible documented, facts concerning their vessels.

Subject: Italian Military and Naval Censorship.

1. The Navy Sub-Commission is in receipt of a communication from the Italian Ministry of Marine which states that the Ministry of Marine has been informed that an Italian Military Press Censorship Center has been set up under the authority of the Press and Radio Censorship Branch of AFHQ, which is to work autonomously and to be administered by an Italian Army Command in Rome.

2. According to the information furnished by the Ministry of Marine, the Italian Navy has been asked to furnish Italian Naval Officers to serve in the various branches of the Italian Military Press Censorship Center, i.e., Milan, Turin, Genoa, Padova, Trieste, Bologna, Florence, Naples and Palermo.

3. The Ministry of Marine considers that the Italian Censorship Organizations in port cities, or in other locations in which the interests of the Italian Navy exceed those of the Italian Army, should be administered by Italian Naval personnel. In addition, the Ministry contends that daily newspapers and periodicals published at Italian Navy Bases should be censored under the direction of Italian Naval Officers due to their specialized knowledge of the subjects involved.

4. The Navy Sub-Commission cannot vouch for the veracity of the statements of the Ministry of Marine as reported above; however, it is desired that appropriate consideration be given to the Ministry's wishes. In the absence of other considerations, it would appear desirable for the censorship in Italian Naval Areas to be in charge of Italian Naval Officers.

5. Upon receipt of a reply from the Chief, Press and Radio Censorship Division, AFHQ, an answer to the Ministry of Marine will be made by the Navy Sub-Commission.

NSC/2560
6 June 1945.

From: Navy Sub-Commission, HQ. Allied Commission.
To : Ministry of Marine, Rome.

Subject: Financial assistance for repair of Italian naval ships interned in Turkey.

1. In answer to Ministry of Marine letter 560/72 of 04 May 1945, the Navy Sub-Commission has been informed by the Finance Sub-Commission, A.C. that the British and American governments have ruled that no further advances of Turkish lire may be made to the Italian Government.

2. In order to arrange for the overhauling of the Italian naval vessels interned in Turkey, it will therefore be necessary for the Italian Ministry of Marine to request the Italian Ministry of the Treasury to draw upon the Italian Government's post-liberation dollar accounts in the United States and to remit the dollar equivalent of the Turkish lire required to the Italian Naval Attache in Ankara. The Finance Sub-Commission has stated that this remittance must be carried out through normal banking channels and that the funds can be paid to the Italian Naval Attache in Ankara in Turkish currency.

3. Since the writing of Navy Sub-Commission letter NSC/2523 of 31 May 1945, this office has received information through the British Naval Attache in Ankara that the Italian Naval Attache in Ankara has estimated that the sum required for fitting-out the interned Italian naval vessels will be 60,000 Turkish lire. Only the above estimate has been received by the Navy Sub-Commission and no additional facts are available which justify the need for 60,000 Turkish lire or which indicate its anticipated apportionment among costs involving victualling, maintenance or repairs. In view of the procedure for making Turkish lire available to the Italian Naval Attache in Ankara, as outlined in paragraph (2) above, it will not be necessary for the Navy Sub-Commission to receive a reply to its letter NSC/2560 of 31 May 1945.

2. Reference (b) in reply to reference (a) notified Headquarters, Allied Commission that the Italian cruiser GARIBALDI would be made available to make two trips from PIOMBINO to MESSINA and that after the completion of other duties she would be made available again for the ferry of refugees from PIOMBINO.

3. In addition, as a result of communications originated by the Navy Sub-Commission, Commander-in-Chief, Mediterranean has approved the use of small Italian Naval vessels from the TARANTO/LEGHORN Ferry for the movement of refugees from PIOMBINO to MESSINA.

4. As supplementary to the arrangements mentioned above, the Navy Sub-Commission, acting on verbal information from the Transportation Sub-Commission, completed arrangements for sailings of Italian Naval vessels on two different occasions which subsequently had to be cancelled as a result of later advice received from the Transportation Sub-Commission.

5. In view of the action taken in reference (b) by Allied Force Headquarters, the Navy Sub-Commission cannot accept further requests for the supply of Italian Naval vessels for purposes of transporting refugees. It is submitted that all further requirements for the sea transport of refugees should be forwarded by the Transportation Sub-Commission to Allied Force Headquarters as an implementation of references (a) and (b). It is felt that the total requirements for the movement of refugees and displaced persons should be presented to Allied Force Headquarters when available, in order that an over-all program for their transportation can be drawn up and activated.

MEMORANDUM FOR ADMIRAL WARREN:

Subject: Italian Refugees and Displaced Persons - Movement of on Italian Naval Vessels.

1. The following material is respectfully submitted for your information concerning the verbal and written arrangements that have been made as of the present date with respect to the movement of Italian refugees on Italian Naval vessels. The papers concerning each particular movement have been secured together and referenced as indicated:

(A). Movement of 2,000 refugees from CIVITAVECCHIA to Sicily on south-bound vessels of TARANTO/LEGHORN Ferry. This movement did not materialize as a result of information from the Transportation Sub-Commission to the effect that it had been determined subsequently that the 2,000 refugees could be removed by rail.

(B). Headquarters, Allied Commission (Transportation Sub-Commission), priority dispatch to AFHQ which very generally presented the over-all requirements of the Allied Commission in regard to water transportation for refugees. Also attached at (B) is the AFHQ reply which notified the Allied Commission that GARIBALDI can be made available for trips from PIOMBINO to MESSINA. It should be noted particularly that paragraph 6 of the AFHQ dispatch states that "for further assistance consideration should be given to the use of vessels under your (AC) control".

(C). Dispatches concerning schedule of GARIBALDI which was allocated by AFHQ and CINC-MED as indicated in papers attached to (B).

(D). Dispatches concerning south-bound vessels from TARANTO/LEGHORN Ferry which were made applicable to PIOMBINO instead of CIVITAVECCHIA after PONAM was informed by Navy Sub-Commission dispatch 211833-May (Copy attached at (A)), that all refugees at CIVITAVECCHIA could be moved by rail.

MEMORANDUM FOR ADMIRAL WARREN:

NSC/2549

Subject: Italian Refugees and Displaced Persons - Movement of on Italian Naval Vessels.

- -

(E). Dispatches concerning movement of 400 refugees from MESSINA to PIOMBINO. I sent Navy Sub-Commission dispatch 251318-May as a result of verbal information received from the Transportation Sub-Commission, which desired to lift 400 refugees to PIOMBINO from MESSINA as GARIBALDI already was scheduled for the trip and was returning to PIOMBINO light. This movement did not occur as the 400 refugees were not available at MESSINA.

(F). Dispatches concerning the movement of 1,000 Italian ex-POWs from NAPLES to SARDINIA. I also made arrangements for this lift as a result of verbal information received from the Transportation Sub-Commission. As of the present date, I have verified the presence of 1,000 ex-POWs in NAPLES, both with the Transportation Sub-Commission and with the Director of the Italian Prisoners of War Sub-Commission, and have been assured that the refugees do in fact exist and that they will be ready to depart on GARIBALDI when she arrives in NAPLES.

2. As of the present date, approximately 2100 bodies have been moved from PIOMBINO to MESSINA, and as stated above at (F), it is anticipated that an additional 1,000 will be moved from NAPLES to CAGLIARI on approximately 2 June. The majority of the refugees were carried on the GARIBALDI, however, some have also been moved on vessels from the TARANTO/LEGHORN Ferry which have been made available by FONAM.

3. Although the arrangements made with the Transportation Sub-Commission for the movement of refugees have broken down on two different occasions, it should be noted that in neither case did the cancellation of the arrangements result in the actual movement of vessels. The first time, Italian Naval vessels were saved a trip to CIVITAVECCHIA by the removal of refugees from that area by rail. In the second instance the failure of the 400 refugees to sail to PIOMBINO from MESSINA resulted only in the GARIBALDI making that trip empty. In stating the above, I am making no brief for the Transportation Sub-Commission's arrangements, as it is my opinion that they could have been more efficiently made.

MEMORANDUM FOR ADMIRAL WARREN:

Subject: Italian Refugees and Displaced Persons - Movement of on Italian Naval Vessels.

RECOMMENDATIONS:

a. It is my recommendation that the Navy Sub-Commission should inform the Transportation Sub-Commission, with copies to the Chief Commissioner and other Sub-Commissions concerned, that the Navy Sub-Commission can not undertake to make further arrangements for the movement of refugees. Such a course of action will in all probability be considered by the Transportation Sub-Commission as evidence of a lack of cooperation on the part of the Navy Sub-Commission, however, it is my opinion that such action is justified in view of the difficulties previously encountered and in view of the correspondence attached to (B). As the AFHQ reply to the AC dispatch concerns itself with the over-all program for the movement of refugees, it is my belief that the Navy Sub-Commission is justified in asking that the Transportation Sub-Commission make all future arrangements direct with AFHQ, and as supplemental to the AFHQ dispatch (242103-May). Presumably the Transportation Sub-Commission will not request vessels from AFHQ except on the basis of a preconceived and long range program.

b. Alternative recommendation. Navy Sub-Commission might inform the Transportation Sub-Commission that no further arrangements can be made for the movement of refugees, except on the basis of written requests which are received 10 days prior to the date on which the lift is desired. If this course of action is preferred, the Navy Sub-Commission in effect must assume responsibility for coordinating the movement of refugees by sea. It would be necessary to request the Transportation Sub-Commission to furnish at the earliest possible date a full schedule for sea movement in order that the Commander-in-Chief, Mediterranean could be informed of the exact number of bodies to be moved by Italian Naval vessels and the dates between which their movement would be required; also it would be necessary for me to contact representatives of the Italian Prisoners of War Sub-Commission, Displaced Persons Sub-Commission, Public Health Sub-Commission, Food Sub-Commission as I have done in the past, in order to make sure that all arrangements are properly buttoned up.

Subject : Report of Italian Naval Activities.

The Chief Commissioner, Allied Commission, has enquired whether a short general report of the activities of the Italian Royal Navy, on similar lines to reports already received from the Military Mission to the Italian Army and the Air Forces Sub Commission in the respect of the Italian Army and Air Force, could be supplied for his information.

2. The best source of material for such a resume of Italian Naval activity is Admiral MORGAN's report of proceedings as the Flag Officer Liaison, Italy, and approval is requested for the use of these reports as the basis of monthly statements to the Chief Commissioner subject to the proviso that such information will be restricted to the Chief Commissioner, the Military Mission to the Italian Army and the Air Forces Sub Commission. The Flag Officer Taranto, Adriatic and Liaison, Italy concurs.

Subject : Rations for Italian Royal Navy Personnel stationed in Outlying Areas.

It would be appreciated if arrangements could be made for personnel of the Italian Naval Centre at Bologna to draw 31 rations daily direct from an Allied Depot in that vicinity.

2. The present arrangements which entail transporting rations to Bologna for so small a unit are most uneconomical and your cooperation in eliminating this wasteful procedure is requested.
