Subject: Deserters or Absentees from the Italian Navy - Delivery of.

1. With reference to your letter of 3 July 1945 and confirming previous verbal conversations, it is considered appropriate that the Ambassador be apprised as to the status of S. T. SANTAMARIA, Pietro, S. No.57477, 1924 Cl, prior to taking any further action with the Italian Ministry of Marine. SANTAMARIA is a regular service volunteer for enlistment in the Italian Navy, as contrasted from personnel who are conscripted. In the interest of morale, the present Allied policy is to assist Italian Naval authorities in apprehending deserters from the Italian Navy, particularly when they are regular service volunteers.

2. The Navy Sub-Commission, Allied Commission has no objection to requesting the Ministry of Marine to authorize SANTAMARIA to continue his present employment in the Embassy and will take such action immediately if requested. 2. Subject has been denounced to the Epuration Commission by the High Commissioner for Epuration under Article 17 of Lieutenant - General of the Realm's decree No. 159 dated 27th July 1944. As a precautionary measure he has been removed from the active list of the Italian Royal Navy.

3. The Italian Naval Intelligence Department of the Ministry of Marine report:-

"General Bianco, although not formally joining the Republican Party nor taking the oath, worked diligently in collaboration with the German authorities.

Indeed, after the Armistice he was given a technical appointment, as extraordinary commissioner with the F.E.R.V.E.T. Factory at Viareggio and he showed great zeal in carrying out the orders of the German authorities in spite of the great reluctance to work for the enemy which was several times manifested by the workers.

Furthermore, he made efforts to ensure that the materials under trial in the workshops should not fall into the hands of the Partisans, and when the store of projectiles for the firing range was destroyed by an explosion, as a member of the Board of Enquiry he tried to have the theory of sabotage adopted and even made insinuations against certain of the employees.

He is accused by some to have disclosed to the Germans particulars of the delayed action bombs which were undergoing tests at the S.M.G. However, no definite information about this has emerged.

It appears, also, that he forwarded a letter to the National Labour Commissioner at Lucca to which was attached a list of names of employees who were available for transfer to Germany; another was addressed to the ---

Reference to message No. 2160 dated 6 July 1945.

1. The Breda Ship Yard in Venice informs that authorities of the 5th Army have started the requisitioning of their timber laying in several localities of the provinces of Trento and Bolzano. The wood was already seasoned and cut for ship building.

2. Considering the lack of timber for ship building and the great difficulties existing for its supply, we beg you to intervene in order to stop the requisitioning of the timber belonging to the firm Breda, leaving it entirely at their disposal.

1. Receipt is acknowledged of Ministry of Marine letter B.8071 of 10 July 1945.

2. In view of the fact that four Ministries of the Italian Government are interested in the return of the materials and books of the Istituto Elettrotecnico to Italy from Germany, it is considered that the whole matter should be co-ordinated and presented to the cognizant Allied Authorities by one Italian Government Ministry. It is felt that such a procedure would result in a more satisfactory and expeditious solution than if the problem is handled independently by several agencies.

Brindisi, 14 - 7 -1945

Sir,

We come to you with the natural frankness of the italian worker, because we know that with frankness and loyality the Chief that hears is well disposed to give his benevolence.

We shall be short to not waste your precious time.

We are some hundreds of civilians that work in the Royal Naval Academy, now in Brindisi for war reasons, and for this last reason obliged to live away from our families with all the troubles that you can easily think.

We asked the Italian Authority that the activity of the Academy would be newly made in his natural place: Leghorn, that is the town where are all our interests. Sais Authority answered that for the present it is impossible.

Our last hope are you, Sir, and therefore we ask you to will dispose, if possible, that leaving a part of the buildings in Leghorn where once was the Naval Academy, we could develope there our activity, without trouble for the Allied Forces now there barracked.

Hoping that the present wish will be the reality of to morrow, and that you will so kindly give us an answer, we thank you in advance with the blessings of our babies waiting us from a so long time.

Your most obliged.

1. The Flag Officer, Taranto and Adriatic, Italy(Rear), was informed by reference (a) that the Commander-in-Chief, Mediterranean will continue for the present to control non-operational salvage in Italian Waters, employing the Flag Officer, Taranto and Adriatic, Italy(Rear), as the channel of correspondence with the Italian Ministry of Marine. No information has been received indicating that these instructions are unfilled.

2. A Salvage Committee, Mediterranean was formed by reference (b) for non-operational salvage, composed of representatives of the Commander-in-Chief, Mediterranean, the Ministry of War Transport, the War Shipping Administration, the French Navy and Merchant Marine, and the Italian Navy. This Committee is understood to be primarily concerned with the non-operational salvage of Allied vessels and Italian vessels which may be required in the interest of the war effort, rather than non-operational salvage of Italian vessels in the interest of Italian economy and port clearance.

3. The Italian Ministry of Marine was informed in reference (c) that the Campbell Committee Report has been approved by the Supreme Allied Commander, Mediterranean and the Commander-in-Chief, Mediterranean, and directed to take the necessary steps to implement the policies established. A copy of Section IV of the Report, relating to Salvage, is forwarded herewith for information. Paragraph 4 thereof recommends that an Authority be established to co-ordinate non-operational salvage, including representatives from the Commander-in-Chief, Mediterranean, the Director of Harbour Craft, Mediterranean, the Transportation Sub-Commission, Allied Commission and the Italian Ministry of Marine. It is recommended that the Commander-in-Chief, Mediterranean issue a directive to activate the Salvage Authority. Representatives from the offices concerned should be nominated

CENTRAL COMMITTEE.

SECTION IV

SALVAGE.

1. The Committee have examined the question of salvage insofar as it affects clearance of ports and recovery of sunken or damaged harbour craft, tugs and lighters, for use in Returned Ports.

2. It has been ascertained that subject to the overriding authority of the salvage requirements of the Commander in Chief, Mediterranean, the Italian Ministry of Marine is responsible for the salvage, in any non-operational port or area, of all Italian vessels other than those required for the use of the Allied Services.

3. All privately owned craft can only be salved by private salvage companies or individuals under licence granted to the owner by the Divisione Risuperi of the Italian Ministry of Marine, whose local representation where there is no individual representation of the Divisione Risuperi, is the Port Technical Services Section of the office of the Captain of the Port.

4. As no priorities are established or supervision exercised other than that for R.I.N. craft, and that exercised by the Fleet Salvage Officer in the case of craft required for the Allied Forces, the Committee recommend that an authority be set up for the purpose of allotting priorities and deciding how requirements of craft for port working and clearance can be met from salvaged civilian craft. For this purpose the Authority should include representatives from the Commander in Chief, Mediterranean, Director of Harbour Craft, Transportation Sub-Commission, A.C., and the Italian Ministry of Marine(Divisione Risuperi). The Authority should confine its activities only to those ports which will revert to Italian control and in those areas which are declared non-operational by the Allies.

5. In the event of any Italian vessel or craft having been salved by private enterprise and thereafter requisitioned by either the Allied or Italian Authorities, the Committee have been advised that the question of compensation will be arranged and settled by the Italian Government.

References: (a) Navy Sub-Commission ltr NSC/2863 of 6 July 1945.

1. As indicated in reference (a), the Campbell Committee Report for the transfer of ports in Italy to Italian Government control has been formally approved and the Ministry of Marine requested to take the necessary steps to implement the policies established.

2. Section I, sub-section i, paragraph 3 of the report recommends that official notification from Allied Force Headquarters be given to the Italian Government(Ministry of Marine) that a port is about to revert to Italian control, clearly stating the date on which such transfer of control will pass and laying down the official procedure to be followed. Section I, sub-section ii, paragraph 1 of the report provides for a classification of the various Italian ports into three categories. This classification is now being carried out by a sub-committee of the Mediterranean Shipping Board.

3. It is recommended that a procedure be established by Allied Force Headquarters to provide for official notification to the Italian Government(Ministry of Marine) when ports in Italy are returned to Italian Government control as provided for in Section I, sub-section i, paragraph 6 of the Campbell Committee Report.

1. With reference to the attached letter from S.O.(M) Liaison Staff, Allied Force Headquarters, forwarded under cover of letter MED.45/139/8/1 dated 27th June 1945, the following information has been obtained from the Ministry of Marine.

2. The MAS boat in question was the 522, under the Command of Midshipman (C.R.E.M.) BEGHI Carlo Pierino, which left SAMOS on the 23rd September 1943 and passing over to the Germans arrived at SYRA where three Allied officers and one Italian General, who were on board, were handed over to the Germans. As a recompense BEGHI was promoted to Lieutenant, posted to the German Navy and awarded the Iron Cross.

3. It is confirmed that BEGHI has part of a finger of his right hand missing. BEGHI is the son of Ernesto and Luigia nee SPRIANO, born at S. Ambrogio Olona (VARESE)on 4th February 1912. He enlisted in the Italian Navy 5th April 1929.

4. It is understood that, just before the liberation of Northern Italy, BEGHI belonged to the Political Investigation Service of the Fascist Republic and carried out his duties with the rank of Captain (presumably Fascist rank) at the political Investigation Centre of VARESE.

5. From confidential sources it appears that this officer is still in Lombardy and as he has been denounced to the Italian Military Tribunal by the Italian Naval Authorities every effort is being made to trace him.

1. The Commander-in-Chief, Mediterranean was advised in enclosure (A) that the Allied Commission is not considered to be responsible for the supply of motor transport to the Italian Navy for port operations affecting civilian economy and the rehabilitation of Italy. Allied Force Headquarters in enclosure (B) established a policy for the supply and method of forwarding vehicles, spares and ancillary equipment for the Italian Navy after discussion with G-4(A) and the Royal Navy. Paragraph 1(a) thereof provided that demands for vehicles, spares, tires, tubes, etc., for Italian Naval Units working for the clearance of civilian supplies will be met by the Allied Commission without call on Allied Force Headquarters.

2. The Commander-in-Chief, Mediterranean was informed in enclosure (C) that the provisions of paragraph 1(a) referred to above were not clearly understood and was requested to clarify the procedure to be adopted. Enclosure (F) requests that the provisions of enclosure (A) be reviewed, with the object of implementing the decision contained in paragraph 1(a) of enclosure (B), namely, that the Allied Commission is responsible for the supply of vehicles, spares, tires, tubes and etc., for Italian Naval Units working for the clearance of civilian supplies.

3. The Italian Ministry of Marine has been requested to review the position regarding tires and spares for vehicles in ports such as Civita Vecchia, Piombino and San Stefano which are operating mainly in the interest of Italian civilian economy. The Ministry in enclosure (E) submitted the requirements for tires and inner tubes for these ports and the ports of Genoa, Naples, La Spezia, Leghorn and Venice for the second half of 1945.

4. In addition to the supply of tires and spares for Italian Navy vehicles, the matter of maintenance has caused considerable difficulty. The Commander-in-Chief, Mediterranean proposed that this service be provided by the Italian transport companies which are under the control of the Transportation Sub-Commission, Headquarters Allied Commission. The matter was referred to that Sub-Commission and a reply received that the companies are primarily operational except for minor repairs. Maintenance shops have been authorized for Allied Commission vehicles and vehicles of Allied relief agencies and missions and are being set up in various centers of Italy. The Transportation Sub-Commission stated that the vehicles are American and no facilities are available to maintain Italian vehicles.

5. The Commander-in-Chief, Mediterranean in enclosure (F) states that the vehicles supplied so far to the Italian Navy are two-thirds American and one-third British, and that arrangements will be made to supply a majority of American vehicles in the future. For this reason it is proposed to deploy the vehicles so that British vehicles may be employed in areas where the Italian Navy have adequate maintenance facilities, leaving American vehicles to be maintained by the Allied Commission.

6. It is requested that the provisions of paragraph 1(a) of enclosure (B) be revised to determine whether the Allied Commission can accept responsibility for the supply of tires and spare parts to Italian Navy vehicles allegedly employed in the interest of civilian economy, taking into consideration the Allied Commission policy set forth in enclosure (A) and observing that the initial Italian Navy demands for tires and tubes forwarded by enclosure (F) provides for the supply of 1980 tires and tubes for the second half of 1945. It is further recommended that a decision be made whether the Allied Commission can accept responsibility for the repair and maintenance of American vehicles supplied by the Royal Navy to the Italian Navy as proposed in enclosure (F).

7. To assist in determining whether the Italian Navy is engaged in the operation of ports for the clearance of civilian supplies and in the interests of civilian economy to such an extent as to ratify the provisions of paragraph 3 of enclosure (A), reference is made to the report of the CAMPBELL COMMITTEE, May 1945 which has been approved by Allied Force Headquarters, as indicated in reference (n). 23 November 1944.

From: Chief Commissioner, Allied Commission.
To : Commander-in-Chief, Mediterranean.

Subject: Italian Controlled Ports - Provision of Transport for.

Enclosure: (A) Copy FOWIT letter No. 955-2-F of 20 October 1944.

1. In accordance with directives issued by the Flag Officer Western Italy, the ports of CIVITAVECCHIA, PIOMBINO and SAN STEFANO are now the operational and administrative responsibility of the Royal Italian Navy.

2. In each of these ports motor transport was allocated to the Italian Naval authorities prior to the turn-over. The Flag Officer Western Italy in enclosure (A), requests that transport for the ports of CIVITAVECCHIA and PIOMBINO now be provided by the Allied Commission for the stated reason that these ports are now working for the Commission.

3. It appears that the transport required will ultimately be used for the supply and maintenance of Italian Naval vessels and facilities in the ports concerned. Under this condition the necessary facilities should be provided by the Royal Navy inasmuch as under paragraph 9 of Combined Chiefs' of Staff Secret letter COS. 515/1 of 19 March 1944, the repair, maintenance and supply of the Italian Navy is a United Kingdom responsibility. The necessary transport required for other purposes will presumably be supplied by the user of the facilities in question.

4. In any event, the Allied Commission is not in a position to supply the over-all transport requirements which will be necessary for the complete rehabilitation of Italy, including all port operations. If these views are not concurred in, it is recommended that the matter be referred to Allied Force Headquarters, in order that plans may be made to furnish adequate transport to the Allied Commission for purposes which are determined to be the responsibility of the Commission.

SUBJECT: Provision of Transport, Tyres & Tubes for the Italian Navy.

G.-5

1. The policy of supply and method of demanding vehicles, spares, and ancillary equipment for the Italian Navy has been discussed with G-4(A) and Royal Navy, and the following has been agreed:

(a) Demands for vehicle spares, tyres, tubes, etc., for Italian Naval Units working for the clearance of civilian supplies will be met by AC without call on AFHQ. It is not considered that any additional demands should be placed by AC on Allied military services to meet these requirements, owing to the extensive truck transportation programme at present being undertaken for AC as a joint British - US commitment, and owing to the large requisitions for ancillary equipment that have already been placed on them.

(b) Demands for Italian Naval Units working within the establishment of the British Royal Navy.

(i) Demands for vehicles will be forwarded through the Flag Officer, TARANTO, Adriatic and Liaison, Italy, to the Commander-in-Chief, Mediterranean, with recommendations, and after approval will be passed to Q(AE) AFHQ for allocation.

(ii) Demands for spares, tyres etc will be forwarded to, and screened by, the Flag Officer, TARANTO, Adriatic and Liaison, Italy, who will arrange supply from local Royal Naval stock if available.

(iii) Spares, less tyres and tubes not available will be demanded on 527 B.O.S. Demands for tyres and tubes not available will be submitted to F.M.T.O. Royal Navy, A.F.H.Q.

2. The demands forwarded under AC reference HEC/1313 of 11 Dec 44 are, therefore, returned to be met by AC in accordance with the terms of paragraph 1 (a) above.

26th April, 1945.

From: Navy Sub Commission, Hq. Allied Commission.
To : Commander-in-Chief, Mediterranean Station.

Subject: Provision of transport, tyres and tubes for Italian Navy.

With reference to the Commander-in-Chief, Mediterranean Station's letter No.45/955/16/8 of the 17th April, 1945, a distinction has been made between two categories of transportation supplied for the use of the Italian Royal Navy as follows:

(a) vehicles, etc, supplied to Italian Naval Units working "for the clearance of civilian supplies";

and(b) vehicles, etc, supplied for units working within the establishment of the Royal Navy.

2. The division of responsibility for the supply of transportation to the Italian Navy which has thus been made is not fully understood. The Navy Sub Commission has no information concerning Italian units working for the clearance of civilian supplies unless this function is, in fact, the operation of ports such as Civitavecchia, Piombino, San Stefano, etc, and the Chief Commissioner, Allied Commission, in his letter No.1202 of the 22nd November, 1944, disclaimed responsibility for the provision of transportation to the Italian Navy for the supply and maintenance of Italian vessels and port facilities in these ports.

3. It is requested, therefore, that the intention of paragraph 1(a) of Allied Force Headquarters Memorandum No.8200/6/3/Q (AK) of the 3rd April, 1945, be clarified before steps are taken to promulgate the supply procedure agreed at Allied Force Headquarters.

PROVISION OF TRANSPORT, TYRES AND TUBES FOR ITALIAN NAVY.

With reference to your letter No.NSC/2260 dated 26th April, 1945 it is considered that the supply of spares for Motor Transport vehicles in use by the Italian Navy at ports such as Civitavecchia, Piombino, San Stefano etc., which are operating mainly in the interest of Italian Civilian economy should be dealtwith by the Transport Section of Allied Commission. In this connection the circumstances have changed since the letter of 22nd November, 1944 from Chief Commissioner, to which you refer, was written and it is therefore requested that you will cause the question to be reviewed with the object of implementing the decision contained in Allied Force Headquarters' communication forwarded with Med.45/955/16/8 of 17th April, 1945.

PROVISION OF SERVICE FOR VEHICLES SUPPLIED TO ITALIAN ROYAL NAVY

With reference to your letter NSC/2757 of 26th June, 1945, it is presumed that the Italian Royal Navy have existing maintenance facilities and that it would, at the most, be necessary to assist with the maintenance of the additional vehicles provided only. The vehicles supplied so far are two-thirds American and one-third British, and it is considered that this fleet could be employed so that the British vehicles could be employed in areas where the Italian Royal Navy have adequate maintenance facilities, leaving the American vehicles to be maintained by the Allied Commission in areas where Italian Royal Naval facilities are lacking.

2. Arrangements will be made to supply a majority of American vehicles in future.

1. The Navy Sub-Commission is in receipt of a request from the Italian Ministry of Marine for permission for the Italian Navy to institute the following action with respect to the Islands of Pantelleria, Lampedusa and Linosa, which are under Allied Military Government Control:

(a) To send an Italian Navy Commission to the Islands for the purpose of mustering any Italian Navy personnel which may be located there. It is estimated that the duties of the mustering Commission can be completed within a period of two months.

(b) To send an Engineering Officer of the Italian Navy to the Islands for the purpose of investigating the need and desirability of carrying out port salvage operations by Italian Navy personnel.

(c) To send an Italian Navy Party to the Islands for the purpose of storing and cleaning weapons. This party would operate in conjunction with the Italian Army Party, which it is believed is now engaged in similar functions.

(d) To send Italian Navy personnel to Pantelleria to examine the possibility of reopening the Semaphore and Maritime Office which at one time was located on that Island.

3. It is proposed to notify the Ministry of Marine that there is no objection to the minimum number of personnel necessary to carry out the Ministry's desires, as outlined in paragraph 1(a), (b) and (c) above, being sent to the Islands. At the same time, it is proposed to notify the Ministry of Marine that the activities of the Maritime Commission and of the salvage personnel must be limited to a two month period. Authorization will not be given for the salvage personnel to conduct any salvage operations but only to make a survey of the salvage operations which are considered to be necessary.

4. It is not considered by the Navy Sub-Commission that it would be desirable to permit the re-establishment of an Italian Navy office on Pantelleria. Consequently, it is intended to inform the Ministry of Marine that their request reported in paragraph 1(d) above is not approved. The Ministry of Marine will be informed that all Italian Navy personnel proceeding to the AMG Islands must report to the Civil Affairs Officer, Pantelleria immediately upon their arrival, and the Ministry of Marine will be directed to provide the Navy Sub-Commission with a complete report of their activities in the Islands.

5. Prior to informing the Ministry of Marine in the sense of the paragraphs above, the concurrence of Allied Force Headquarters is requested in view of the political complications which conceivably might arise from the visit of Italian Navy personnel to the Islands.

1. In reply to reference (a), as stated in paragraph 3 of reference (b) Allied Naval and Military authorities, including the 5th Army, were informed by letter on 5 July 1945 that the Ministry of Marine had been directed to form Material Recovery Parties to take possession or control of former Italian Navy material which has been recaptured from the Italian Republican Navy or otherwise retaken or found, including material of German origin. In connection with the instructions which are enforced by 5th Army authorities at Venice, it is probable that the provisions of reference (b) have not yet been disseminated to all Army Commands. Fifth Army authorities, however, have been informed as to the situation at Venice and requested to take appropriate action.

2. In order to facilitate the recovery of material, the Italian Officers-in-Charge of Material Recovery Parties should be directed by the Ministry of Marine to contact, whenever practicable, their negotiations with Allied Military or Naval authorities through the British Naval Officers-in-Charge in the various localities who are cognizant of the instructions which have been issued.

Subject : Clothing ceded to Vittorio Veneto Group from Victualling Store Officer, Alexandria.

The clothing shown on the attached lists was supplied by Victualling Store Officer, Levant to the 9th Italian Battleship Group in March, 1945, on the understanding that an equal quantity was to be returned by the Ministry of Marine when further stocks were received from the United Kingdom.

2. In reply to a recent letter from the Navy Sub Commission on this matter, the Ministry of Marine state that the clothing will be returned by Maricosmi, Taranto except for the following items, which they allege, have not yet been received from Allied sources :-

Overalls	- 1,000	Seamen's Caps	- 200
Cotton Socks	- 2,000	Officer's Caps	- 70
P.O.'s Caps	- 200	Seamen's Serge Trousers	- 200
Vests, heavy	- 1,100		

Seamen's Jumpers 200.

3. In view of the fact that further supplies of clothing to the Royal Italian Navy is likely to be severely restricted, if not curtailed altogether, it is submitted that should a sufficient quantity of the above articles be available to meet all station requirements, that the Ministry of Marine may be informed that no further action need be taken by them to return these items as separate accounting action is now being taken.

TO : Navy Sub Commission
attn. Lt. Cmdr. Thomas

1. In recent weeks demands for repaired army clothing and boots have been diminishing steadily. At the same time it has been increasingly difficult for Commerce Sub Commission to find trained personnel for carrying on the reprocessing of salvaged garments.

2. Therefore it has been decided to transfer the supervision of the repairing process and the work of allocating the finished garments to the Italian Government. Thus in the future the Istituto Nazionale per il Commercio Estero will exercise control over the reprocessing of clothing and shoes and all allocations will be made by the Ministry of Industry and Commerce. Commerce Sub Commission wil no longer be responsible for either repairing or allocating.

3. Thus in the future there will be no further weekly allocations made to your office by this Sub Commission. If clothing and boots are still needed for civilian employees under your supervision then your request for the same should be forwarded to the a/m Ministry via your corresponding agency in the Italian Government. No further requests for these items will be accepted by this Sub Commission.

2. Lieutenant Commander T.G. Procter did visit offices of the Public Works and Utilities Sub-Commission on 16 July 1945; his visit resulted in the following:

a) - The Coal Division, Allied Commission reported that the Island of Sicily is receiving its regular allocation of coal.

b) - The Ministry of Public Works were instructed by the Public Works and Utilities Sub-Commission to notify their Sicilian representative that essential facilities, such as the Messina Dockyard and associated works, must receive a continuous supply, and that electricity rationing must be done at the expense of less important uses. Furthermore, instructions were given stating that non-essential load must be reduced to the point where normal systems frequency can be maintained.

c) - Lieutenant Commander Proctor reported that he was going to endeavour to locate boiler tubes which would be suitable to make repairs to the Catania boilers.

3. It is expected that the action as outlined in sub-paragraph 2b of the foregoing will remedy the condition. In the event that the improvement is not sufficient, this Sub-Commission would appreciate being informed.

Memorandum For All Officers:

Subject: Preparation and Assembly of Correspondence.

1. The purpose of this memorandum is to standardise the method of preparation and assembly of correspondence in order to facilitate the rapid examination thereof. A routing slip is attached to the reverse side of all incoming correspondence. This slip should not be removed from the correspondence until such time as action is finally completed. The action officer, assisted by the clerical force, should search out such relevant correspondence as may be necessary to take appropriate action on the incoming correspondence. The references should be assembled in chronological order on top of the incoming correspondence. If any of the references used have former routing slips attached, the action officer should examine the routing slips and wherever possible initial it off to show action completed and utilise the latest routing slip in order to insure that the correspondence will be "brought up" for follow-up or final action.

2. After a smooth reply in letter form or dispatch is prepared, it should be placed on top of the incoming correspondence and references which have been arranged in chronological order. Any references which have been referred to in the reply should be tabbed so that they may be readily identified. The routing slip attached to the correspondence on which action is being taken should in all cases be left uncovered in order to insure that the correspondence will be routed to the appropriate officers for information or action.

3. The co-operation of all officers and clerical personnel is enjoined to standardize the assembly of correspondence which will facilitate and expedite rapid examination and handling thereof.

(C) Plans Nos. 2626V, 2710V, 2720V, 2721V and other misc. information regarding subject craft.

1. The Navy Sub-Commission has received information through Allied Naval channels that four wooden minesweepers under construction at the San Elena Yard, Venice originally were ordered by Italian Navy Republican Authorities on behalf of the German Navy.

2. The Navy Sub-Commission has been informed by the Allied Naval Commander-in-Chief, Mediterranean that the Allied Navies do not intend to take possession of the four craft and that they are therefore available for the use of the Ministry of Marine if desired.

3. The four boats are in progressive states of completion, the most advanced being ready for the installation of engines. Their characteristics are understood to be approximately as follows:-

Length	...	34 Metres.
Draught	...	1.50 Metres.
Beam	...	5.80 Metres.
Displacement	...	127 tons.
Twin screws	...	350 H.P. petrol engines.
Speed	...	15 Knots.
Crew	...	2 Officers, 26 Men.

4. Additional pertinent information concerning the four vessels is forwarded herewith in enclosures (A), (B) and (C). It must be emphasised that no materials or machinery can be made available from Allied Naval sources for their completion.

MINUTE II

NSC/2942
14 July 1945.

From: Navy Sub-Commission, HQ. Allied Commission.
To : Commander-in-Chief, Mediterranean.

Subject: Italian Labour for the Far East - Victualling Stores.

1. Forwarded. The sample cap is enclosed.

2. The following details have been supplied by the Ministry of Marine:-

(i) The estimated cost of making up the cap has been fixed at L.120 each.
(ii) Approximately 2,000 metres of serge, ca. 140 in width, would be required to manufacture 16,000 caps. The lining material would be supplied by the manufacturers and is included in the cost.
(iii) The firm can produce up to 500 caps daily.

3. No estimate of the cost of 16,000 white cap covers has been sought but these would presumably be required for service in the tropics.

4. It is understood from the Italian Liaison officer to the Navy Sub-Commission that the Ministry of Marine, in view of the civilian status of the volunteers, would prefer that the cap adopted should be less like that worn by ratings of the Italian Royal Navy.

5. As an alternative suggestion to that put forward in paragraph 3 of minute I, a beret made of blue serge or khaki has the following merits:-

(a) Economical to produce in large numbers.
(b) Easy to produce quickly.
(c) Suitable for the rig.
(d) Easy to clean.
(e) Not easily lost.

6. Should samples and estimates be required for these suggested alternatives, early information is requested in order that the Ministry of Marine may be informed.

Subject: Disposal of Recaptured Enemy Naval Material.

Reference: (a) Navy Sub-Commission ltr NSC/2802 of 5 July 1945.

1. The Italian Ministry of Marine was directed by enclosure (A) to reference (a) to form Material Recovery Parties under the Officers-in-Charge of Italian Royal Naval Centers at Genoa, Turin, Milan, Venice and La Spezia to take possession and control of former Italian Navy material which has been recaptured from the Republican Navy or otherwise retaken or found, including material of German naval origin. Information has been received through the Italian Ministry of Marine from the Italian Royal Naval Center at Venice that 5th Army authorities consider all material formerly belonging to enemy forces to be under 5th Army control for disposition in accordance with the following priorities:

(a) For the requirements of surrendered German Forces in Italy still in the area under 5th Army control.
(b) For civilian requirements.
(c) For the requirements of Italian Forces operating with the 5th Army.
(d) For Italian Forces.

2. If the above instructions are in fact in force, it is presumed that they are applicable only to materials belonging to the enemy land forces and not to enemy naval materials. Accordingly, it is requested that appropriate instructions be issued to 5th Army Commands as soon as practicable in order to permit Italian Naval authorities to carry out the directives contained in reference (a) for the assembly and disposal of recaptured enemy naval material.

Subject : Cement.

With reference to Commander-in-Chief, Mediterranean Station's Minute II No. Med.45/607/4/7 of 23rd May, 1945, (to Navy Sub Commission only) and paragraph 4 of Allied Force Local Resources Section, Allied Force Headquarters' letter No.LRS/310 of 17th May, 1945, the Ministry of Marine have been approached regarding the availability of cement in Sicily and Sardinia and the position would appear to be as follws :-

SICILY.

(a) All requirements for Sicily might be met from Villafranca's cement works, provided the necessary supplies of coal were forthcoming and the present inadequate supply of electricity augmented.

SARDINIA.

(b) In Sardinia, the requirements could be met from local sources.

2. It is understood that orders are being given by the Ministry of Marine to Italian authorities concerned in both Sicily and Sardinia to contact local Allied authorities regarding the difficulties at present being encountered in obtaining cement supplies.

From: Navy Sub-Commission, Hq. Allied Commission.

Subject: Fire Near Italian Naval Ammunition Dump, LEGHORN.

1. The Navy Sub-Commission recently has received information through the Naval Officer-in-Charge, Leghorn, that a brush fire near the 975th bivouac area in Leghorn on the night of 19th June 1945, threatened a dump of Italian naval ammunition. An Italian Royal Navy petty officer, Capo Boncampagni, originally reported the fire to Captain Thomas R. Smith, U.S.A. Air Corps, Headquarters 549th Air Service Group, APO 650. The fire was controlled by Allied personnel and equipment and no damage resulted.

2. Investigation later brought out the fact that this dump did not have fire lanes and fire guards cleared around it; also, that only one Italian Royal Navy Officer and three enlisted men now guard three widely separated dumps in this area.

3. In view of the above it is requested that the Ministry of Marine direct the subordinate naval command in Leghorn to initiate appropriate action to clear fire lanes and fire guards around the ammunition dump above mentioned, and that sufficient personnel be assigned to guard the area. Also, it is requested that the Ministry of Marine direct all subordinate naval commands to initiate appropriate action to insure proper and safe guarding of all ammunition dumps along the lines mentioned in this letter.

SUITABLE LANDING AND TAXE-OFF AREAS FOR SEAPLANES.

Further to my signal T.O.O. 2915112 May, the attached Overlay is forwarded for your information indicating the positions of seaplane moorings laid for fair weather and foul weather.

2. Arrangements can be made for seaplanes to land either:

(a) Outside the Breakwaters to taxi to, or be taken in tow to their moorings,

(b) Inside the Breakwaters in the waters of the Avamporto.

3. It is essential in view of movements of shipping in the Port that times of arrival and departure should be signalled in advance addressed to Naval Officer in Charge, Leghorn.

4. A landing signal will be flown from both the Harbour Signal Station and from Admiralty Berthing Officer's Control Tower at the end of the Molo Mediceo.

Red Flag - Landing not permitted.
Green Flag - Permission to land.

5. Weather permitting it will always be desirable that aircraft land to seaward of the Breakwaters.

6. The system of fuelling would of necessity be by hand from small drums as no specially constructed fuelling tender is available.

7. As per Overlay: A. Fairweather Berth
B. Foul weather Berth

ITALIAN NAVY STORES, EQUIPMENT AND REALTY

(a) Captured enemy material consists of all equipment, stores and supplies previously belonging to all arms and services of the ground forces of the enemy.

(b) Italian material. All Italian material belonging to all arms and services of the Italian ground forces and in possession of the Italians at the time of the Armistice with Italy is considered as Italian material and, except as otherwise directed by Allied Force Headquarters, is reserved for the use of the Italy Army under direction of the Army Sub-Commission, Allied Commission.

(c) Italian Naval Material and Italian Naval Property. All captured Italian naval material which came into the possession of the Allied Governments prior to the Armistice with Italy is the property of the Allied Government concerned. Italian naval material which was in possession of the Italian Navy at the time of the Armistice with Italy is reserved for the use of the Italian Navy under the direction of the Navy Sub-Commission and is not to be removed from Italian naval jurisdiction and control without express written authority from the Navy Sub-Commission. This restriction does not preclude the right of the utilisation of such materials for operational requirements only. The Italian Navy has been authorised to post suitable notices at Italian Naval Depots and installations after they have been stamped with the seal of, and countersigned by, the Navy Sub-Commission.

(ii) All buildings and land, hospitals, depots, navy yards and offices belonging to the Italian Navy are reserved for the use of the Italian Navy under the direction of the Navy Sub-Commission, and are not to be requisitioned without express written authority from the Navy Sub-Commission unless required operationally. The Italian Navy has been authorised to affix suitable notices as above.

(iii) All private Italian industrial and munition plants engaged in work for the Italian Navy are to be utilised to the maximum extent to further the allied war effort and for the rehabilitation of Italian economy, and the output of such plants is not to be impaired without prior consent of the Commander-in-Chief through the Navy Sub-Commission, but this does not preclude the right to use such plants for operational requirements only. These plants are authorised to post notices as above prohibiting the requisition of materials or equipment without authority from the Navy Sub-Commission. 6254

(d) Recaptured Material of Italian Naval Origin. Recaptured material of Italian naval origin, if not required by Royal Navy, may be turned over immediately to the Italian naval authorities for Italian maintenance. This is to be effected through the Navy Sub-Commission.

MMIA LO's :

BARI	NAPLES	PBS
SICILY	SARDINIA	1 DISTRICT
N.W. ITALY (3)		

1. In view of the responsibility of the Military Mission Italian Army for the Bulk Supplies of foodstuffs to all Italian Armed Forces, it is considered desirable to inspect Italian Bulk Naval Depots from time to time and to observe on the actual stocks held.

2. The Navy Sub Commission AC in their letter NSC/2752 dated 25 June 45 have requested the Ministry of Marine to offer facilities to MMIA LO's to carry out these inspections and to furnish the visiting officer with (a) the number of personnel victualled from the base, (b) stocks of food held on charge at the time.

3. It is particularly stressed that the LO's should not issue corrective orders at the time of their visit but submit a report to this HQ in duplicates so that any matter may be then be brought to the attention of the Navy Sub Commission.

4. Depot Commanders will not doubt appreciate advice on depot organisation, stacking and general care of foodstuffs, but these matters should be reported as in para 3 above.

5. Italian Royal Navy Bulk Food Depots are situated at TARANTO, BRINDISI, BARI, NAPLES, LA SPEZIA, VENICE, MESSINA, CAGLIARI, and MADDALENA.

6. Reports should be rendered on usual Depot Inspection Forms not less than once a month.

7. It is hoped that the above inspection will prove of mutual assistance and that any problems experienced by the Navy can be ventilated direct to the source of supplies.

8. Addressees will be responsible for inspection of Depots underlined.

2. Although the operational control of the Italian Merchant Navy is, under present circumstances, an allied naval responsibility, it is considered that the supply of controlled materials to private shipyards working potentially for the Italian Merchant Marine does not constitute a naval commitment and it is therefore proposed to reply in the following terms:-

"Demands for controlled materials for shipyards working for the Italian Merchant Marine, should be forwarded through the Ministry of Industry, Commerce and Labour to the Industry Sub-Commission, Hq. Allied Commission and not through the Navy Sub-Commission.

Demands for non controlled items should, of course, continue to be met by either contract with the manufacturer concerned or by local purchase."

(C) Original Ministry of Foreign Affairs Memorandum 6/1857/852 of 25 June 1945, With Enclosure.

1. The Italian Ministry of Foreign Affairs in enclosure (A) requested information with respect to the decision that all Italian ships sunk in North African Waters should be committed to the judgment of the Prize Court in London and was informed by enclosure (B) that no comments could be made unless data was furnished specifically referring to the source from which this decision was communicated to the Ministry of Marine.

2. The Navy Sub-Commission, Headquarters Allied Commission was informed in enclosure (C) that reference was made in enclosure (A) to Mediterranean Temporary Memoranda No. 214 of 22 September 1944, which states in paragraph 10(b) that Ex-Italian vessels in North African Waters are property of the Prize Court in London. Comments are therefore requested upon which an appropriate reply may be made to the Italian Ministry of Foreign Affairs.

3. As a matter of information, the Italian Ministry of Foreign Affairs previously raised a similar question on 26 September 1944 through the Political Section, Allied Commission and requested that certain Ex-Italian vessels recaptured subsequently to the Armistice be returned to Italian control under the provisions of the Cunningham Agreement and amendments thereto, instead of being treated as captured vessels. The Ministry was informed that no formal assurance could be given with respect to the ultimate disposition of Ex-Italian vessels captured after the Armistice, nor could it be inferred that such vessels are not prizes of war.

4. Paragraph 3 of enclosure (C) requests information relative to an alleged conference of Allied Powers to be held at Naples to define the status of sunken enemy shipping which may be salvaged in Mediterranean ports or waters. It is probable that the recently formed Salvage Committee, Mediterranean is referred to. In accordance with paragraph 2 of Commander-in-Chief, Mediterranean letter MED.45/219/2/2 of 7 March 1945 the Italian

Subject: Supply of Civil Engineering and Building Materials for use by the Ministry of Marine on works for the Italian Royal Navy.

With reference to paragraph 2 of Commander-in-Chief, Mediterranean Station's letter No.Med.45/954/3/4 of the 1st June, 1945, forwarded under cover of Navy Sub Commission letter No.NSC/2617 of the 11th June, 1945, it is now considered desireable to effect arrangements whereby the requirements of restricted or controlled materials for works undertaken by the Royal Italian Navy during the period 1st June to 31st December, 1945, may be reviewed.

2. It is requested therefore that the enclosed forms may be despatched to the respective Senior Italian Naval Officer at all ports under Italian control, requesting them to render a completed form for each projected work, both new construction and maintenance, which they anticipate will be undertaken during the above named period. Completed forms should be returned as soon as possible through the Ministry of Marine to the Navy Sub Commission who will attempt to obtain the release of the necessary materials where possible.

3. On receipt, however, of the schedule from the Ministry of Marine showing the estimated total of controlled items required for works in all Italian ports, it is intended to commence bidding for the release of such materials in advance of the return of the various forms, so that urgent requirements can be met without undue delay.

4. It will be appreciated that the above system can only apply to works undertaken under the provisions of paragraph 2 of Commander-in-Chief, Mediterranean Station's letter No.Med.45/954/3/4 of the 1st June, 1945.

From : Ministry of Marine, (Cabinet)

To : Rear Admiral WARREN.

Date : 24th June, 1945. (Received for translation 1240 June 28th.)

Ref. : B.7590 - 1 Enclosure.

Subject : "Milmart" Officer ZANFAGNA, Marcello.

In reply to your NSC/2692 of 19th inst.

1. On 24th May last the "Commissione Dipartimentale d'Inchiesta" (Maridipart Naples Inquiries Commission) pointed out to this Ministry's Inquiries Sub Commission that "Milmart" Officer ZANFAGNA, Marcello had presented himself of his own accord adding that he had admitted having served with 10th M.A.S. Flotilla of the Republican Navy from November '43 to April, '45.

2. Subsequently in letter dated 31st March, said Commander-in-Chief informed that ZANFAGNA, at 8th September '43, after having been appointed an "Active Service" Milmart Officer, was carrying out duties at the "Scuola Aeronautica Allievi Ufficiali" (Air Cadet's College), awaiting appointment.

3. On several occasions, the "Commissione Dipartimentale" asked for guidance with regard to ZANFAGNA's service position, but there was no sign of Italian or Allied Counter-spy intervention in regard to the above-named.

4. On 1st inst. the "Commissione d'Inchiesta Ministeriale" aware only that ZANFAGNA was at Naples asked for him to be sent to Rome, by signal signed "De Courten".

Under this heading it is pointed out that all outgoing signals from Ministry of Marine Departments or Commands, in accordance with General orders in force, are sent signed by the Minister, who, in this particular case, as happens in similar normal administrative matters, was not yet aware of ZANFAGNA's position.

5. In the meantime, ZANFAGNA was arrested by the C.S.Centre at Naples who following verbal instructions from said Commander in Chief, allowed him to be temporarily placed at the disposal of the Italian Royal Navy, to complete inquiry being held, as per letter sent to Commander-in-Chief (Copy attached) dated 8th inst.

Declassified E.O. 12356 Section 3.3/NNO No. 785820

6. On 13th inst. with ZANFAGNA in Rome, the President of the "Commissione d'Inchiesta Ministeriale", (aware for the first time), from C.in C's attached letter that ZANFAGNA had been detained by C.S. Centre Naples and temporarily handed over to I.R.N. for completion of disciplinary inquiry, ordered his immediate transfer back to Naples, under escort, which order was put into effect the same day by means of subordinate R.Carabiniers who had him returned to Poggioreale Prison from whence he had been taken.

(Sgd) The Minister.

Letter from C.S. Centre, Naples to Commander in Chief (Italian), Naples. No.5674 dated 8th June, 1945.

During the interrogation of enemy agent, now arrested - ZANFAGNA, Marcello (son of Nicola and SESSA, Anna), born in Naples on 16th August, 1922, address Vico 2 Montecalvario No.7, was shown to have belonged to 10th M.A.S. Flotilla with the rank of Officer, for which reason I consider it necessary to inform your command.

With reference to verbal request, I have arranged for him to be accompanied to your command and I ask that, on completion of inquiry, he be placed at this Centre's disposal for future action to be taken in his regard.

ZANFAGNA's arrest was duly notified (by letter No.5645 of 7th inst.) to War Ministry - S.I.M.R.E. Office, 1 Section 2 and to similar local Allied organisations.

NSC/2692.
19th June, 1945.

P-P-R-S-C-N-A-L

From : Navy Sub Commission, Hq., Allied Commission.
To : The Minister of Marine, Rome.

Subject : ZANFAGNA, Marcello.

Your attention is invited to the following report which has been received from Allied Force Headquarters.

2. On the 7th June, 1945, 808 Contro Spionaggio Battalion arrested at Naples a certain ZANFAGNA, Marcello, who had returned from former enemy occupied territory at the end of May. The grounds for the arrest, which had the support of the Allied Security Authorities, were that ZANFAGNA has collaborated with the German Secret Service, was a former enemy agent, and was also formerly an officer of the Xth Flotille M.A.S.

3. The Contro Spionaggio Centre at Naples notified the Allied Security Authorities on the 10th June, 1945, that the Commando in Capo, Dipartimento Marittimo Basso Tirreno has applied the same day for ZANFAGNA to be surrendered to Italian Naval custody. The Italian Naval Authority claimed to be acting on the orders of Admiral De Courten, who wished to interrogate ZANFAGNA on an unspecified subject.

4. Ceding to pressure and the superior rank of the Italian Naval Authority, the Contro Spionaggio Centre at Naples, surrendered ZANFAGNA at the POGGIOREALE gaol on the 13th June, 1945, stipulating his eventual return to the Contro Spionaggio Centre. It is believed that ZANFAGNA has been transferred to Rome.

5. Allied Force Headquarters wish me to state that they consider the interference by the Italian Ministry of Marine, with Contro Spionaggio work which was being carried out on behalf of the Allies is in their opinion most irregular. Allied Force Headquarters have requested me to demand the immediate return of ZANFAGNA to the custody of Contro Spionaggio Centre, Naples, and an explanation of the unwarranted interference in Allied Security measures.

The Ministry of Marine, which it has been determined originated the inquiry concerning Naval Arms Workshops with the Italian Ministry of Industry, Commerce and Labor, has indicated that further necessary details regarding the Chiozza Firm and the present location of the machinery in question will be obtained from Naples. Upon receipt of such information from the Ministry of Marine, appropriate action will be taken by this Sub-Commission.

3. It is considered that due to the limited information presently available no useful purpose would be served by presenting this matter to the Fleet Engineer Officer as suggested in paragraph two of your letter.

SUBJECT: Salvage of Abandoned Motor Fishing Vessel "CAMILLO I"

The undersigned residing in Rome, Piazza Vittorio Emanuele No.79, represented by Ernesto Luzi ask the Ministry for authority to salvage theabandoned motor fishing vessel "CAMILLO I" sunk by war action on 28 April 1943 at 8 a.m. in the waters of Cape Bon(Tunisia) and precisely in the neighborhood of Ras El Ahamar Eq. Sphelibia.

According to information received from the crew, the wreck is lying in very low water for which reason salvage appears possible.

We intend to salvage the vessel at our risk and expense.

We pledge ourselves, upon salvage being effected, to those guarantees which may be required, and an indemnity to be fixed in relation to the value of the material and machinery salvaged.

We further declare that the above vessel, of our property, requisitioned and registered in the auxiliary shipping of the State and later sunk as mentioned above,was the object of a regular act of abandonment by the State, and consequently the indemnity due was settled in accordance with the law.

Italian Royal Navy. Rome.

Sir,

I have to report that at Rome on the 13 June 45 at about 1035hrs I was on duty in Piazza Venezia accompanied by L/Cpl Standen, C.M. Police where I saw the above named NCO driving a WD 3 Ton Dodge No 5605759, in the driving cab I noticed an Italian civilian Female.

I caused him to stop, ascertained that she was not in possession of the necessary Authority to travel in WD vehicles and requested her to leave the vehicle.

I then asked the above named NCO for the AFG 3518 in respect of the vehicle, he could not produce one, I obtained and verified his particulars, informed him that he would be reported and allowed him to proceed.

From : Navy Sub Commission, Hq., Allied Commission.
To : Commander-in-Chief, Mediterranean Station.
(Copy to :- Flag Officer Taranto, Adriatic and Liaison, Italy.)

Subject : Report of Italian Naval Activities.

The Chief Commissioner, Allied Commission, has enquired whether a short general report of the activities of the Italian Royal Navy, on similar lines to reports already received from the Military Mission to the Italian Army and the Air Force Sub Commission in the respect of the Italian Army and Air Force, could be supplied for his information.

2. The best source of material for such a resume of Italian Naval activity is Admiral MORGAN's report of proceedings as the Flag Officer Liaison, Italy, and approval is requested for the use of these reports as the basis of monthly statements to the Chief Commissioner subject to the proviso that such information will be restricted to the Chief Commissioner, the Military Mission to the Italian Army and the Air Forces Sub Commission. The Flag Officer Taranto, Adriatic and Liaison, Italy concurs.

DISPOSAL OF RECAPTURED ENEMY MATERIAL.

1. The following instructions govern the procedure to be followed with reference to former Italian Navy material which has been recaptured from the Italian Republican Navy or otherwise retaken or found, including material of German origin, except :

(A) Material recaptured or found in that part of the Venezia Giulia and recently transferred from Jugoslavia to Allied Military control.

(B) Material of Allied origin irrespective of the manner in which it was acquired.

2. The above material includes consumable naval stores and supplies and military equipment of all kinds intended for and available to enemy naval forces in Italy and, subject to the requirements of the Allied Naval Authorities, all materials found and reported to the Navy Sub Commission, Allied Commission, may be utilised at the discretion of the Ministry of Marine for the maintenance of the Italian Navy.

3. The Ministry will form Material Recovery Parties at the earliest practicable date in areas designated to take possession and control of all such material not required for Allied Naval use. The functions of these parties are :-

(A) To locate, sort, classify and list materials;

(B) To report on 31st July, 1945, and monthly thereafter to the Navy Sub Commission through the Ministry of Marine particulars of all material taken over under the following headings, distinguishing in each case between (a) material of Italian origin (b) material of German origin. It is particularly emphasized that these reports are not required to specify details of minor items of stores and equipment and for the most part statements in total of the various items located will suffice.

On Monday morning, 25th inst., two British Officers visited Dr. E. SARNELLA'S office in Naples (he is the Director of COGENA) and, after conversing with him, they took him away and from that moment he has neither returned to his office nor been heard of since.

During the same afternoon said Officers searched Dr. SARNELLA's office in Naples, and M.Ps. searched his private rooms in Naples and yesterday, 26th inst., his residence in Rome.

As he is an Executive Officer of an organization under this Ministry, which is carrying out duties of interest to the United Nations, and in regard to which this Ministry is responsible to Allied Authorities in accordance with definite accords in being, it is requested that you make known Dr. SARNELLA's present whereabouts and what reasons existed for the action taken against him.

ROUGH TRANSLATION (C O P Y)

From: Ministry of Marine (Cabinet)
To : N.3.C. - Rome
Date: 29 June 1945.
Ref.: B.7891

Subject: CO.GE.NA-

1°)- With reference to my letter N° B.7839 of yesterday June 27th concerning the arrest of Dr. Sarnella, I bring to your knowledge that I am now informed that the Italiana newspapers in Naples have published in their yesterday's issue the following notice, both in Italian and English language:

"Comm. Eugenio Sarnella, the Director of CO.GE.NA. has been arrested by the Allied police on charges of bribery and corruption, in connection with the use of schooners and conveyance of goods by sea.

Any person desiring to lay information to the Allied Military Authorities respecting the administration of activities of CO.GE.NA. etc., should present themselves at the public Safety Office AMG Provincia, Room 12, Mezzanine Floor between the hours of 9 - 12 or 14.30 - 17.30 daily, or may give information by letter to this address."

2°)- The case so far limited to the person of Dr. Sarnella but nevertheless particularly embarassing becomes after the publication above referred extremely serious, and an official investigation is now being carried out by the Allied Military police on an Italiana Governmental body.

3°)- About the activities of this body which is now brought under public accusation, I have to recall that:

a)- the release of the permits for transportation of goods by sea has been a committment of the Allied Commission;
b)- The allocation and mouvements of the motoschooners have been directed by the Schooner's Control Board (Medbo) members of which were two Allied officials and Dr. Sarnella.
c)- Cogena, according with its institutional duties, was in charge of the execution of mouvements as ordered by A.C., and S.C.B.

4°)- I would ask you to call on these facts the attention of the Commander in Chief, Mediterranean, making known to Him that on reporting to my Government, I intend proposing:

Declassified E.O. 12356 Section 3.3/NND No. 785820

a)- the publication of an official communicate stating the matter as explained in para 3°);
b)- the appointment of a Governmental Board of Inquiry, with the object of investigating all and every responsibility wherever it may be. I intend to do so as I am very anxious to shed a complete light on such a deplorable matter.

5°)- I would be grateful if you would let me know as soon as possible your views on the subject.

IL MINISTRO.

NSC/2795.
29th June, 1945.

From: Navy Sub-commission, Hq. Allied Commission.
To: Ministry of Marine.

Subject: Doctor Eugenio Sarnella.

With reference to your letter No. B 7891 of the 29th June, 1945, the circumstances of the arrest of Dr. Eugenio Sarnella are being closely watched by the Allied Naval Commander in Chief, Mediterranean Station, who has already issued instructions for the press statements to which you refer to be withdrawn. It is not considered, therefore, that a communique on the lines you suggest is desirable at this stage.

As regards the remarks in paragraph 4(b) of your letter under reply, your anxiety for a thorough investigation of the case is fully understood. The arrest was effected, however, and investigations are being conducted by Allied Military Authorities and no governmental Board of Inquiry should, therefore, be appointed.

CHIEF, NAVY SUB-COMMISSION, AC.
