Subject : Provisions for Naval Units in transit in Sardinia.

1. With reference to your letter No.NSC/2924 of 12th July last, forwarded herewith are copies of the communications received from Maricosud La Maddalena, from which it appears that the M.M.I.A. in Cagliari not only requires to give prior authorisation for every issue of provisions to warships in transit at Sardinian Ports but also gives notice that in future approval will be given only in cases of emergency.

2. Since one of the principal reasons for authorising I.R.N. Provision Stores to hold a reserve stock is to make possible the provisioning of naval vessels in transit it would be appreciated if the Navy Sub Commission would take up the matter with the M.M.I.A. in order to obtain the withdrawal of the restrictions imposed by the M.M.I.A. Office at Cagliari, thereby avoiding the resulting inconveniences and the delay which may be caused in the ships' itineraries.

3. In respect of the above it is considered desirable to observe that the provisioning of vessels in transit is a normal occurrence, and not an emergency, since these ships in particular which have no store of provisions being authorised to retain on board only the stock necessary for their time at sea, must necessarily embark provisions in other ports than that on which they are based and on the victualling estimates of which they are normally included.

4. On the other hand, in the following fortnight the base to which their provisions are allocated deducts these stores which were not issued to the ship owing to its sailing, and thus does not form a surplus reserve which it is not permitted.

NSC/572.
13th October, 1945

From : Navy Sub Commission, Ro. ; Allied Commission.
To : Ministry of Marine, Rome.

Subject : Provisions for Naval Units in transit in Sardinia.

With reference to the Ministry of Marine's letter No. GM.21223 dated 27th September, 1945, owing to the shortage of shipping, there are no ample facilities for the shipment of food to Sardinia. To offset this, a strict control has been instituted to curtail the issues of food rations in Sardinia as much as possible, and it is considered that the Italian Royal Navy could naturally resist if Italian Warships calling at Sardinian Ports, whilst reserving the right to draw rations in cases of emergency only, did not draw provisions there, but obtained a sufficient quantity of victuals for the round trip from the mainland.

2. The procedure for the issue of allied rations to Italian warships in transit at Sardinian ports followed by the Military Liaison Italian Navy Mission Officer, Sardinia, therefore, has the approval of the Land Forces Sub Commission (M.M.I.A.) and the full concurrence of the Navy Sub Commission, Allied Commission, observing that the period a ship is away from the mainland on a trip to Sardinia, is normally under a week, for which rations can easily be issued from the mainland, thereby avoiding any delay that may be incurred in sailing the ship should she have to draw rations, and obviating any further correspondence mentioned in paragraph 4 of the Ministry of Marine's letter under reference.

In compliance with the request of the Navy Sub Commission instructions have been given to all Commands concerned to arrange that the Naval vessels calling at Sardinian ports, whether in transit or for a short stay, shall always be provisioned as necessary to avoid withdrawals of food stores from the depots on the inland save in exceptional cases resulting from unforeseen events.

OGGETTO: Sondaggio planimetrico del fondo del Porto di Civitavecchia.

1. - A seguito della riserva contenuta nel foglio 20531 in data 20 settembre u.s., si trasmettono in allegato i dati relativi agli ordigni esplosivi e relitti rinvenuti alla data del 16 corrente nel fondo del Porto di Civitavecchia, informando che l'esplorazione delle piccole zone ancora rimaste sarà ultimata per il 26 p.v., data con la quale il controllo del Porto sopra nominato sarà del tutto completato: verrà redatto allora un nuovo prospetto relativo agli ulteriori rinvenimenti.

2. - Come risulta dal grafico allegato, le bombe ed ordigni di cui ai nº 4 - 5 - 7 - 13 sono ubicate in posizioni tali che il loro brillamento provocherebbe seri danni alle opere murarie del Porto e pertanto si renderà necessario provvedere alla loro rimozione mentre per le rimanenti sarà possibile procedere al brillamento, approfittando di periodi di completa assenza di piroscafi in porto.

Nel frattempo si sono impartiti ordini intesi a proibire che le unità navali diano fonda nelle zone ritenute pericolose per la presenza degli ordigni di cui sopra.

1. In execution of the undertaking in our letter 20531 of 26th September last forwarded herewith are the details concerning the explosive devices and remains which were recovered from the bottom of Civitavecchia harbour on 16th September 1945. You are informed that the exploration of the small areas remaining will be completed by 20th next, upon which date the inspection of the whole of the above harbour will have been accomplished; a new list showing further recoveries will then be compiled.

2. As is shown in the attached chart the bombs and devices in paras. nos. 4-5-7-13 are so located that by exploding them serious damage would be caused to the quaysides and in consequence it will be necessary to arrange for their removal while it will be possible to explode the remainder, taking advantage of periods when there are no ships in the port.

In the meantime orders have been given in order that naval vessels shall not drop anchor in the areas considered dangerous owing to the presence of the above-mentioned devices.

Subject : Supply of fuels to the Italian Navy.

1. In anticipation that the Italian Navy fuel stores will be handed over one by one to the direct control of the I.R.N., as has happened in the case of those at Augusta, this Ministry is concerned to know in what manner in future it will be possible for these stores to be replenished with the fuels necessary to meet the requirements of Naval vessels and Shore Establishments.

2. In the event of the Allied Authorities' deciding to allocate periodically a quantity directly to the Italian Government to cover both civilian requirements and those of the Armed Forces, it is requested that the needs communicated by this Ministry in the attached letters may be borne in mind and action taken by the Allied Authorities to define what part of the total allocation is intended for the I.R.N., thereby avoiding any subsequent useless and prolonged exchange of letters between the Ministry of Marine and other Ministries which would lead inevitably to an interruption of the supplies to ships, thus having repercussions upon the activities which the I.R.N. must pursue in this transition period.

3. In view of the importance of this matter, information would be appreciated of the decisions made in respect of the above proposals.

Subject: Supply of Fuels to the Italian Navy.

With reference to the Ministry of Marine's letter GM/21617 dated 3rd October 1943, addressed to the Flag Officer Italy and Taranto, the present policy is that all Italian refuels formerly controlled by the Allied Authorities, where possible, be returned to the control of the Italian Government.

2. In accordance with the above policy, whereby the time will then come for procurement of fuels and lubricants to meet Italian National requirements, both civil and military, will be the responsibility of the Italian Government. Consistent with the above, it is understood that the new procedure for the supply of these commodities to Italy, will be for the various Ministries to submit their respective requirements to an Italian Governmental Agency nominated by the Italian Government, who will in turn, take action as appropriate, to forward the total Italian National requirements to the Allied Governments through diplomatic channels. It is further understood, that the onus of making the necessary arrangements for the supply of fuel and lubricants to meet the needs of the various Military and Civil organisations, will rest entirely with the Ministries concerned.

3. While it is regretted therefore, that in these circumstances, the Allied Military Authorities will not be in a position to intervene, it is considered that in any event, the Ministry of Marine will have no difficulty in obtaining essential fuels which are peculiar to the Navy, since no other Ministry could expect to have similar requirements, thereby ensuring an uninterrupted supply to the Fleet.

(e) Navy Sub-Commission ltr. NSC/3700 of 2 October 1945.
(f) Executive Commissioner, AC, ltr. 9010/60/EC of 17 October 1945.

1. The Navy Sub-Commission, AC, has not been furnished with copies of the French Representative to the Allied Commission memorandum number 2250 of 28 August 1945 and the Executive Commissioner, AC, letter 572/103/EC of 5 September 1945. A list of questions relating to French merchant shipping was forwarded to the Navy Sub-Commission, AC, by reference (b). In reply the Navy Sub-Commission, in reference (c), stated that it is considered that the questions should be submitted direct to the Italian Government.

2. The Executive Commissioner, in reference (d), informed the Navy Sub-Commission as to prior negotiations in this matter and requested that the data be obtained. In reply the Navy Sub-Commission, AC, in reference (e), recommended that the French Delegation be informed that the necessary data should be obtained from the Italian Government through diplomatic channels. The Executive Commissioner in paragraph (3) of reference (f) informed the French Representative to the Allied Commission accordingly.

3. It is noted from reference (a) that the French Representative to the Allied Commission approached the Italian Ministry of Marine direct instead of through diplomatic channels in order to obtain data relative to French merchant vessels. Furthermore, the French Representative, as indicated in the enclosure to reference (a) dated 20 October 1945, has requested the Italian Ministry of Marine to furnish complete information concerning the organization of the Italian Navy and data on Italian naval vessels, including Allied authorizations for

for personnel and plans for demobilization. The furnishing of such data was not contemplated when it was recommended that the French Representative be informed that data should be obtained from the Italian Government through diplomatic channels.

4. With respect to paragraph (2) of reference (a), the Navy Sub-Commission, AC, did not establish the distinction between matters which took place before or after the Armistice with Italy in 1943. As to paragraph (4) of reference (a), it is not considered advisable for the Navy Sub-Commission, AC, to inform the Italian Ministry of Marine with respect to the manner in which relations between the French and Italian Governments should be conducted.

5. In view of paragraph II (3) of Allied Force Headquarters Administrative Memorandum number 74 of 2 November 1943 which states that the function of the Allied Commission is to be the organ through which the policies of the United Nations towards the Italian Government are conducted and the relations between the United Nations with the Italian Government are handled, it is recommended that a conference be held at an early date between representatives of the Allied Commission and British and American political advisers to determine whether this policy has been changed by the establishment of diplomatic relations between the French and Italian Governments, and to formulate a current policy for the Allied Commission in these matters.

6. It is recommended that the policy governing relations between the French Representatives to the Allied Commission and the Allied Commission when established be disseminated to all offices concerned to prevent comparason being made between action taken by different agencies on related subjects.

(b) Hq. MTOUSA Circular Ltr. No. 111 of 11 Sept. 1945.
(c) AFHQ Admin. Memorandum No. 40 of 8 Sept. 1945.

1. In reply to reference (a), Section II of reference (b) sets forth the procedure to be followed by all U.S. Commands when requisitioning real estate in Italy and indicates that the U.S. Navy as the requisitioning agency should deal only with the appropriate office of the Italian Comando Militare, which office will make the necessary contacts with the owners of the property and will receive and adjust all claims that may arise from the occupancy. A local office of the Comando Militare is located in Palermo.

2. Reference (c) sets forth the procedure to be followed when requisitioning equipment which is installed in premises that are about to be requisitioned and indicates also that adequate arrangements should be made with the Comando Militare. Reference (c) specifically states that equipment requisitioned from Italian sources will be returned by the Italian Government and that its return to individuals is an irregular practice and will be discontinued.

3. In regard to paragraph (3) of reference (c), the Navy Sub-Commission is unaware of an Allied directive which provides for a requisition form containing a stipulation as to partial Allied control of the requisitioned premises. Information obtained from other sub-commissions of the Allied Commission indicates that there is in fact no such Allied directive. However, it is suggested that it would be entirely proper for the Commander U.S. Naval Forces, Northwest African Waters to stipulate as a condition of the requisition that the repair of Allied naval and merchant vessels takes precedence over repairs to Italian vessels in accordance with priorities established by competent Allied authorities. This provision can be enforced under the Terms of Armistice with Italy.

FOL FOR THE ITALIAN NAVY.

With reference to the Allied Force Headquarters' message timed 031415 October 1943, and the Commander-in-Chief, Mediterranean's reply thereto timed 121516A October 1943, copies of which are attached, the following information and directions are forwarded in amplification of the new procedure.

2. With the establishment of the Italian National Oil Slate the Italian Government have become responsible for estimating their own requirements and shipments for the Italian Civil and Armed Forces are being arranged on the basis of these estimates.

3. For the present it is not possible for the Italian Services to maintain their own storage entirely since a large proportion of that available is still required by the Allied Forces.

4. To ensure therefore that the Italian allocation shall be in conformity with the Italian Slate and "does in", it has been agreed that allocations at each port in Italy to the Royal Italian Navy will be arranged by Allied Forces Headquarters' Petroleum Section, Rome Area Command, in conjunction with the Italian Ministry of Marine.

5. Allied Force Headquarters' Petroleum Section, Rome, will pass these agreed figures to the Flag Officer, Italy and Liaison, who is requested to order releases accordingly.

6. It is emphasised that the above applies to all petroleum products issued to the Italian Naval Forces, including shore establishments, motor transport, category A and B vessels. No issues other than these authorised releases are to be made by the bases.

7. To ensure an early introduction of this scheme bases concerned are to signal Allied Force Headquarters' Petroleum Section, Rome Area Allied Command, repeated to the Flag Officer, Italy and Liaison, as soon as practicable after receipt of this letter, details of quantities of liquid fuels and lubricants issued to the Italian Navy since 1st October 1945.

8. Class "A" Vessels occasionally fuel at Malta or Alexandria. On such occasions details of fuels issued will be signalled by the Naval Authority concerned to the Flag Officer, Italy and Liaison, who is requested to forward the information to Allied Forces Headquarters' Petroleum Section, Rome Area Allied Command, who will arrange for the Italian Naval State to be adjusted accordingly.

1. Enclosures (A) and (B) contain requests from the Italian Minister of Marine to the effect that he be informed of the present whereabouts and status of Doctor Eugenio Sarnella, former director of Cogena, who was taken into custody by Allied police on 25 June 1945.

2. As of the present date the Navy Sub-Commission has been unable to obtain appropriate information concerning Doctor Sarnella's status, which could be supplied to the Minister of Marine. In response to an inquiry addressed to Allied Force Headquarters, enclosure (C) indicated that final arrangements regarding the case would be made in Rome on Friday, 14 September 1945; however, at the meeting referred to in enclosure (C) it was determined that further investigation of the case was necessary.

3. The Chief Commissioner, Allied Commission, has informed the Navy Sub-Commission that the Legal Sub-Commission should now be able to furnish the required information concerning Doctor Sarnella, as it is understood he will be tried by an Allied Military Government Court. It is requested, therefore, that appropriate information concerning Doctor Sarnella be forwarded to the Navy Sub-Commission at an early date in order that it may be transmitted to the Minister of Marine.

1. Reference (a) addressed to the Italian Ministry of Marine, copy to the Finance Sub-Commission, requested that the Navy Sub-Commission be informed of the status of negotiations between the Ministry of Marine and subject firm for the payment of 60,000,000 lire to the firm by the Ministry of Marine. As of the present date the Ministry of Marine has been unable to furnish any information which indicates that the Italian Government will furnish the 60,000,000 lire to the Odero-Terni-Orlando Company in the near future.

2. In a recent communication the Commander-in-Chief, Mediterranean has stressed that it is imperative that an advance of 60,000,000 lire be provided immediately by the Italian Government to the firm of Odero-Terni-Orlando in order to insure the continued operation of the firm. In addition, the Commander-in-Chief, Mediterranean has requested that the Navy Sub-Commission use the utmost pressure with the Ministry of Marine to provide the advance required, particularly in view of the fact that the firm is apparently owed three times that sum of money by the Italian Government.

3. Reference (b) contains the Allied Commission's proposed policy for Italian shipbuilding and repair industries. Paragraph 11(1) of reference (b) states that the repair of Allied naval and merchant vessels takes precedence over repairs to Italian vessels in accordance with priorities established by competent Allied authorities.

4. Although Allied Force Headquarters' approval has not been received for the policy outlined in reference (b), the question of the financing of Italian shipbuilding and repair industries in order that they may repair Allied naval and merchant vessels as required will become increasingly important as Allied control over the Italian Government is relaxed. It would be appreciated, therefore, if the Finance

Reference: (a) ComNOB Palermo ltr. NB/L10-5, serial 0995 of 23 August 1945.
(b) ComNOB Palermo dis. 1014230A October.

1. Reference (a) requested the Navy Sub-Commission to procure and forward to the Repair Officer, U. S. Naval Operating Base, Palermo, the sum of fifty thousand five hundred twenty dollars in cash for the purpose of defraying the cost of repair to the tug SICILIA. Subsequently, in reference (b) the Commandant, U. S. Naval Operating Base, Palermo requested the Commander-in-Chief, Mediterranean to initiate action to procure payment in Allied military lire.

2. The Finance Sub-Commission, Allied Commission, to which the matter has been referred, recommends that the cost of the U. S. materials and U. S. labor used in repairing the tug SICILIA be raised as a dollar charge against the Italian Government. This procedure is being followed in the case of permanent installations and repairs thereto erected by the U. S. Army and handed over to the Italian Government. The Finance Sub-Commission has stated that if necessary agreement is received from U. S. Naval Authorities, such a charge can be raised on the books of the Chief Accountant, Finance Sub-Commission, A.C. However, the Finance Sub-Commission has stated that to the extent that local labor and materials were used to repair SICILIA and that such labor and materials were paid for in Allied military lire, the Italian Government already has borne the cost involved and that no further charge need be raised against them.

3. Upon receipt of a request from the Commandant, U. S. Naval Operating Base, Palermo, which includes confirmation that the amount in question involves only the cost of U. S. materials and U. S. labor and which shows the apportionment between those two, the Navy Sub-Commission will request the Chief Accountant, Finance Sub-Commission, A.C. to raise the necessary charge against the Italian Government.

With reference to your letter M.21/1/1/369 dated 24th October, 1945, observing that the remaining wire drum not so far been returned to the Italian Ship "M.S.V.48", by Lieutenant O'Leary, it would seem that the Italian Navy have been charged for a quantity of wire which does not appear to have been supplied to them.

1. The Navy Sub-Commission, AC by reference (a) made certain comments to the Commander-in-Chief, Mediterranean relative to the activation of the committee to co-ordinate non-operational salvage in Italian waters, the formation of which was recommended by the Campbell Committee report.

2. The Commander-in-Chief, Mediterranean, in enclosure (A), states that as the Mediterranean Salvage Committee which is concerned primarily with operational salvage will be dissolved at the end of November, there is no objection to the activation of the non-operational Salvage Committee recommended by the Campbell Committee if such control is still considered necessary. It is further suggested that the Committee should derive its authority from the Allied Commission.

3. The Navy Sub-Commission, AC is not in a position to take over this responsibility on account of the limited number of officer personnel available and the fact that the Sub-Commission has no field organisation. In order that the Commander-in-Chief, Mediterranean may be informed, instructions are requested as to whether the Allied Commission will assume responsibility for the control of non-operational salvage in Italian waters. In the event it is determined to assume this responsibility, it is requested that an office of the Allied Commission other than the Navy Sub-Commission, Allied Commission be designated to co-ordinate and supervise this work.

21 October 1945.

From: Navy Sub-Commission, Hq. Allied Commission.
To : Signal Officer, Peninsular Base Section, South, Naples.

Subject: Telephones in the Port of Naples.

1. The Navy Sub-Commission has received a request from the Italian Ministry of Marine that the telephone lines installed by the Allies in the Port of Naples be allowed to remain for Italian use at such time as Naples is returned to Italian Government control.

2. The Chief Signal Officer, Number 3 District, after being made cognizant of the Ministry of Marine's request, has informed that all military telephones that have been installed in the Port of Naples by British Military Authorities cannot be allowed to remain after the port is returned to Italian control.

3. As it is understood that the installation of telephones in the Port of Naples has been under the direction of the Signal Officer, Peninsular Base Section, South, information is requested as to what telephone equipment can be left in the port either permanently or temporarily for the use of the Italian Navy and what other assistance can be given to the Italian Authorities in regard to communication facilities at such time as the transfer of the port is effected.

1. In March 1945 the Italian Ministry of Marine informed the Navy Sub-Commission, AC that the tug Sicilia had been salvaged at Palermo by Italian Navy personnel and requested that the tug be turned over to the Italian Navy. The matter was referred to the Commandant, U. S. Naval Operating Base, Palermo, who informed the Navy Sub-Commission, AC that on completion of repairs to the tug she would be made for allocation as authorized by the Commander-in-Chief, Mediterranean.

2. The Commander-in-Chief, Mediterranean confirmed that the tug Sicilia would be required for services on completion of repairs, as decided by the Commander-in-Chief, Mediterranean and requested that action be taken as regard to the cost of repairs as in the case of the dredger San Michele referred to in paragraph (2) of Navy Sub-Commission letter NSC/2037 of 5 April 1945, a copy of which was forwarded to the Finance Sub-Commission. The Commander-in-Chief, Mediterranean was informed that the action taken in the case of the San Michele was not intended as a precedent for future financing of repair work and that it was considered that the financing of repairs to the Sicilia should be carried out in the same manner as are similar repairs which are made at the U. S. Naval Operating Base, Palermo.

3. The Commandant, U. S. Naval Operating Base, Palermo on 23 August 1945 informed the Navy Sub-Commission, AC that on 13 August 1945 the Sicilia had been dispatched to Naples to report to the Commander-in-Chief, Mediterranean and requested that fifty thousand five hundred twenty dollars ($50,520) be procured from the Italian Ministry of Marine and forwarded to the Repair Officer, U. S. Naval Operating Base, Palermo to defray the cost of repairs. Subsequently, the Commandant, U. S. Naval Operating Base, Palermo requested the Commander-in-Chief, Mediterranean to initiate action to procure payment in allied military lire.

Subject: Italian Prisoner of War Giuseppe TONIZZO, Family of.

1. An inquiry has been received from the United Kingdom on behalf of an Italian prisoner of War Giuseppe TONIZZO for information as to the health and welfare of his family as he has been without news since 1943.

2. His family consists of wife, Mrs. Maria SANTAROSA in TONIZZO born at FRAFORTANO di RONCHIS, LATISANA in 1910, and three children, ALCIDE, STEFANO and ALBERTO. The last news the P.O.W. received was that the family was working on a big estate at FRAFORTANO di RONCHIS.

3. It would be appreciated if you could cause inquiries to be made, if possible informing the wife that her husband is well, and any information obtained be transmitted to the Navy Sub-Commission.

all motor transport fuel lubricants and diesel, and the Royal Air Force, Mediterranean/Middle East for all aircraft fuels and lubricants.

(b) A monthly summary of issues of all petroleum products made up to the 20th of each month or other date as may be determined later, is therefore to be prepared and forwarded to the Commander-in-Chief, Mediterranean.

(c) The consolidated summary is to be segregated under the headings (a), (b) and (c) in paragraph 4. In respect of furnace, diesel and lubricating oils this segregation will easily be effected from the D.15 and S.131 accounts. Expenditure of other petroleum products is to be obtained from the usual records and similarly reported. A specimen summary is attached as Appendix II.

Paragraph 16 - Delete all after "S.131 accounts".

2. A modified form of Appendix II which is required to be issued in future is attached.

3. In future slate returns are to be rendered direct to the Commander-in-Chief, Mediterranean, that to cover January requirements being forwarded immediately with copies to the Director of Supplies and Transport, Central Mediterranean Force, and the Royal Air Force, Mediterranean/Middle East authority.

4. Attention is called to the fact that a copy of the report rendered in accordance with Appendix II should be included in the D.15 return.

5. With reference to paragraph 13 of Med.43/301/3/32 dated 5th June, 1945, early action is to be taken to despatch any records still outstanding and Flag Officers are requested to forward any records held by them from bases already closed down. Any base closing down in future should forward all available records including books and documents regarding oil, coal and lubricating oils to the Director of Stores, Section 2B, Admiralty, as soon as they are no longer required in connection with local accounting action.

Subject : Provisions for Naval Units in transit in Sardinia.

With reference to the Ministry of Marine's letter No. 21123 dated 27th September, 1945, owing to the shortage of shipping, there are not ample facilities for the shipment of food to Sardinia. To offset this, a strict control has been instituted to curtail the issues of food rations in Sardinia as much as possible, and it is considered that the Italian Royal Navy could materially assist if Italian warships calling at Sardinian ports, whilst reserving the right to draw rations in cases of emergency only, did not draw provisions there, but obtained a sufficient quantity of victuals for the round trip from the mainland.

2. The procedure for the issue of allied rations to Italian warships in transit at Sardinian ports followed by the military Italian Navy Liaison Officer Sardinia, therefore, has the approval of the Land Forces Sub Commission (L.F.S.A.) and the full concurrence of the Navy Sub Commission, Allied Commission, ensuring that the period a ship is away from the mainland on a trip to Sardinia; is normally under a week, for which rations can easily be issued from the mainland, thereby avoiding any delay that may be incurred in sailing the ship should she have to draw rations, and obviating any further accounting mentioned in paragraph 4 of the Ministry of Marine's letter under reference.

Subject : Sale of electrical material belonging to the Italian Royal Navy.

With reference to Ministry of Marine's letter No.D11100 dated 19th September, 1945, sub paragraphs (a) and (c) of Navy Sub Commission letter No.NSC/3431 dated 31st August, 1945, would appear to be supported by the Base Electrical Officer, Leghorn's certificate, copy of which is enclosed in your letter, i.e., (a) that the lamps were obtained in the first place by Guido VENTURINI, (b) they were therefore his property and (c) the Royal Navy only had an option on the consignment.

2. Where VENTURINI states that the lamps were released to him by the Royal Navy, he means he obtained the release of his property from option.

3. It would appear therefore that the responsible party for this transaction is Ovidio PICCINI of Cecina who obtained possession of Italian Navy property and caused it to be sold to VENTURINI.

Subject: Entry into Italy of Jugoslavs Searching for ex-Jugoslav Ships.

1. Allied Force Headquarters has forwarded to the Navy Sub-Commission, AC the Jugoslav Delegation to the Advisory Council for Italy letters listed below, for appropriate action:

(a) Jugoslav Delegation letter 24/45 of 8 August 1945, requesting authority for the owners of 7 ex-Jugoslav vessels listed to visit Italian ports to locate vessels.

(b) Jugoslav Delegation letter 25/45 of 8 August 1945, requesting authority for 2 Jugoslav representatives to proceed to Messina and contract with Italian firm for the salvage and repair of the S.S. SARAJEVO.

(c) Jugoslav Delegation letter 26/45 of 8 August 1945, requesting authority for 2 customs officers of the Jugoslav Ministry of Communications, Naval Department, Split, to visit Italy to locate ex-Jugoslav vessels listed therein.

2. In order that appropriate action may be taken by Allied Force Headquarters, it is requested that the Navy Sub-Commission, AC be furnished with a complete list of the names of Jugoslav representatives for whom authority is requested to visit Italy for the purposes stated above, together with full details indicating the Government agency or private company they represent, the names of the vessels each group desires to locate, the places they propose to visit and the duration of the visit.

3. The purposes of the visits, except in the case of the salvage of the S.S. SARAJEVO, will be limited to a search for and location of the vessels listed. Before the return of any vessels to Jugoslav control can be authorized, it will be necessary for the Jugoslav Government to furnish satisfactory evidence of prior ownership and for Allied authorities to complete the necessary arrangements for the transfer of each specific vessel.

4. In order to expedite action on similar matters of this nature in the future, it is requested that correspondence be forwarded to the Allied Commission instead of direct to Allied Force Headquarters.

Subject: Questions Submitted by the French Representative to the Allied Commission.

1. In reply to Executive Commissioner letter 572/121/EC of 21 September 1945, the questions submitted by the French Representative to the Allied Commission in connection with shipping are of a broad and general nature, obviously designed to discover information upon which a demand for reparations may be based, as well as a desire to effect the return of French shipping to France. Little or none of the information requested is readily available to the Navy Sub-Commission, AC and can only be obtained either by exhaustive research or through the Italian Ministry of Marine. The work involved will ultimately have to be accomplished by a reparations committee.

2. For the reasons stated above, it is not considered advisable for the Navy Sub-Commission, AC to undertake the responsibility for obtaining the information requested, as it is not a function of the Allied Commission to act as an arbitrator between the French and Italian Governments.

3. It is recommended that the French Delegation be informed that the necessary data should be obtained from the Italian Government through diplomatic channels.

1. The Executive Commissioner in reference (a) requests that the objections made by the Finance Sub-Commission in reference (b) to the proposed draft letter on a policy for the Italian shipbuilding and repair industry be reconciled. Accordingly it is suggested that the following revisions of Navy Sub-Commission secret letter NSC/3624 of 21 September be made:

(1) Paragraph 2, line 1, delete "(b)".

(2) Add new sentence to paragraph 2 as follows:
"Sub-paragraph 6(b), which states that there is no objection to the Italian Government advancing funds for the rehabilitation of the Monfalcone Shipyard, is not concurred in as the Italian Government has no jurisdiction in Venezia Giulia, which is Allied Military Government territory."

(3) Paragraph 4, add sentence:
"In this connection neither the Jugoslav nor the Italian Government has any financial jurisdiction in AMG Venezia Giulia and therefore any rehabilitation of the Shipyard while Venezia Giulia remains under AMG should be financed by AMG."

(4) Add new paragraph 6:
"The Finance Sub-Commission, Hq. AC does not make direct advances to Italian industry through its sub-section, the Allied Financial Agency. If it is found desirable for reasons of military necessity to rehabilitate Monfalcone during the AMG period in Venezia Giulia, the Finance Division of AMG Venezia Giulia will provide the necessary funds. These funds will come from the same source as all other State expenditures in Venezia Giulia, i.e. by an advance from the central bank(the Banca d'Italia). The amount of state debt represented by this and similar advances will represent an obligation to be taken over by the power which is finally awarded sovereignty over the area".

Subject : Italian Navy Transport requirements on transfer of ports to Italian Navy Authorities.

With reference to the Ministry of Marine's letter No.SM.18009 dated 31st August, 1945, it is understood that at Brindisi, all launches not required for present Allied Commitments have been returned to the Italian Navy authorities and that three trucks were also turned over when the Royal Navy port party withdrew. The Ministry of Marine's requirements at Brindisi, therefore, would appear to have been sa' satisfied.

2. With reference to the requirement for motor transport at Taranto, and Genoa referred to in Ministry of Marine's letter No.SM.18084 dated 15th September, 1945, it is regretted that these cannot now be supplied direct from Royal Navy or other Allied sources, since the supply procedure has been revised with the result that the responsibility for the supply of transport, vehicle spares, tyres and tubes etc., to the Italian Navy has now devolved upon the Italian Government.

3. All available vehicles are being transferred to the Italian Ministry of Transport and said ministry is establishing a national maintenance organisation which will service its vehicles and stock and control spare parts and stores received from the United States and United Kingdom, and tyres and tubes are being transferred in bulk to the Italian Ministry of Industry and Commerce, Navy Sub Commission letter No.NSC/3803 of 19th September refers.

4. It is requested therefore, that in future, the Ministry of Marine make appropriate representation to the above mentioned Ministries in order to meet Italian Navy transport requirements.

With reference to the Commander-in-Chief, Mediterranean Station's letter No. 43/0060/36 dated 19th September, 1945, the procedure proposed by Allied Force Headquarters in reference (a) is considered to be impracticable and no longer necessary for the following reasons.

(i) A limit has already been established for the number of reserve rations held.

(ii) Ministry of Marine have already taken steps to ensure that the stocks of reserve rations held are maintained within the established limits.

(iii) A monthly report showing the days holdings as at 20th of each month is submitted by the Ministry of Marine to the Navy Sub Commission for information and onward transmission to Land Forces Sub Commission, (M.M.I.A.).

(iv) The latest report shows Taranto as having reduced from 11 days in excess to within 1 day of the established level.

In any event the present system as outlined in paragraph 7 above together with the screening of ration strength returns submitted bi-monthly to Military Mission Italian Army, is considered very satisfactory, and observing that it has always been the policy not to interfere with the internal administration of the Italian Navy it would appear both unnecessary and undesirable, at this late stage, to initiate any further control.

4th October, 1945.

Subject : Feeding Strength - Italian Navy.

With reference to Allied Force Headquarters letter No.AFHQ/2513/1/Q (Maint), dated 22nd September, 1945, the ration strength figures of approximately 53,000 rendered for July, 1945, showed a decrease of approximately 10,000 as compared to the May and June approximative figures of 64,000 and 60,000 respectively.

2. This was explained by the Ministry of Marine as being due to discharges and exceptional leave granted to personnel residing in Northern Italy. The Ministry of Marine also pointed out that owing to the new recruiting and the return of men on leave, in due course, the future ration strength would rise again to former figures.

3. Further information has recently been received from the Ministry of Marine to the effect that, as the recruiting of the remaining groups of the 1924 class is now in progress, and as, particularly in the northern areas, there is a continuous inflow of ex prisoners of war and of disbanded men who belong to those classes still under arms, for a brief period there will be an overlap between this inflow and the ratings of the 1924 and 1922 classes who are still to be discharged. As a result, the present strength, which has increased to about 58,000 in September, may still mount up in the coming two months to approximately 62,000 men, and then gradually decrease by February next to about 54,000.

4. In view of the above therefore, and observing that the ration strength would further be increased by about 2,000 in the event of the return of Italian Royal Navy units to Italy from abroad, it is considered that, for the present, the feeding strength ceiling of the Italian Navy may safely be lowered to 65,000.

7132

5. While the future strength of the Italian Royal Navy is dependent upon decisions which may be reached at the Peace Treaty with Italy, the matter will, however, be brought up in six months time with a view to a further reduction being made.

2. To comply with the wishes of the Italian Ministry of Marine the use of the Category "B" has been discontinued and all ports which are civilian operated, irrespective of whether a military commitment exists, have now been classified as "A". It is however a condition that in all "A" ports, where a military commitment does exist it shall be given the necessary priority to ensure that programmed dates are met. In such cases the military responsibility will be exactly as defined for a Category "B" port in G-4 (Mov & Tn)5/120-CDM of 13 July, para.3(b) but Movements Liaison Officers appointed to such ports must ensure that full details of military commitments are advised to the Civil Authorities as early as possible.

3. Arrangements have been made for representatives of the Italian Ministry of Marine to visit the ports of BARI, BRINDISI and TARANTO to discuss with the local civilian authorities any problems arising as a result of the re-classification of those ports. In the case of BARI every endeavour should be made for the re-classification to take effect prior to 1st Oct and in this connection Port Commandant, BARI, should be free forthwith, with the Capitano di Porto, the actual area which

4. Following upon the reduction in military commitments resulting from the classifications enumerated in para first, Port Commandants, in conjunction with Docks Superintendants and O.Cs. Port Operating Groups are requested to forward to this H.Q. (with copy to D.D.Tn (Docks) Tn. Inc. ROAR) details of the reductions which can now be made in the Port Movements and Transportation staffs. These proposals are to be forwarded as a matter of urgency.
