NSC/4152
30 November 1945

My Dear Mr. Prime Minister:

The Supreme Allied Commander, Mediterranean Theater, without prejudice to any terms which may be imposed by the Peace Treaty with Italy, has adopted the following interim policy for the rehabilitation and utilization of Italian ship repair and shipbuilding facilities, in Italian Government territory and Military Government territory, to facilitate the recovery of the industry in the interests of Italian economy and to alleviate unemployment:

(a) The rehabilitation of Italian ship repair and shipbuilding facilities for the repair and limited construction of Italian Merchant vessels and for other repair work in the interest of the Italian civilian economy is approved and recommended to the extent set out in the following paragraphs.

(b) The repair of Allied Naval and Merchant vessels takes precedence over repairs to Italian vessels in accordance with priorities established by competent Allied authorities.

(c) The utilization of Italian ship repair and shipbuilding facilities for the repair of Italian Merchant vessels and new construction of powerful twin screw tugs suitable for berthing and long distance towage should be accorded second priority.

(d) The completion of all Merchant vessels under construction in Italy of 5000 D.W. or less which are over 50% complete and for which materials are either now available in Italy or can be procured through commercial channels is authorized and should be accorded third priority. 771

(e) Italian ship repair and shipbuilding facilities are authorized to undertake work in the interest of Italian civilian economy provided no materials or equipment of any kind intended for war purposes or conversion into warlike stores are manufactured. This work should be accorded fourth priority.

IRN-18
(Extra)

Declassified E.O. 12065 Section 3-402/NNDC No. 785020

(f) New construction of coastal vessels of 5000 tons D.W. or less, schooners of 500 tons D.W. or less, lighters, floating cranes and miscellaneous harbour craft is authorized provided materials and equipment can be obtained in Italy and no demands are made upon Allied resources except in normal commercial channels. This work should be accorded fifth priority.

(g) The Italian Government will make arrangements for and designate an agency of the Government to discuss financial matters involving ship repair and shipbuilding facilities with Italian companies. No demands will be made on Allied Governments for assistance in financing such ship repair and shipbuilding work as may be considered as Italian Government responsibility.

(h) No construction of Naval vessels or vessels intended for conversion into Naval vessels is authorized.

(i) The utilization of Italian Government and privately owned ship repair and shipbuilding facilities for repairs to or modernization of Italian Naval vessels and for the production or repair of arms, munitions or other implements of war will continue to be controlled by the appropriate Allied authorities.

(j) In implementing the foregoing the Italian Government must ascertain through normal civil import channels to what extent materials are likely to be available. This will prevent the undesirable situation arising whereby the degree of rehabilitation achieved exceeds the supply of essential materials.

It is desired that the Italian Government take early positive steps to implement the above-stated policy and keep the Allied Commission informed as to progress made at quarterly intervals commencing January 1, 1946, indicating generally the results which have been obtained to enable co-ordination with Allied authorities if required.

Very truly yours,

/s/ Ellery W. Stone

2. The Navy Sub-Commission, AC has no knowledge of any vessels now in the Mediterranean Theater suitable for fishing which can be transferred to the Italian Government as surplus tonnage now that hostilities have ended. The Supreme Allied Commander, Mediterranean Theater in reference (a) established a liberal policy for the reactivation of the Italian ship repair and shipbuilding industry. The Italian Government is being informed by the Allied Commission as to the policy. It is recommended that Italian authorities be informed as to the policy and encouraged to undertake the repair and building of fishing schooners.

To : N.S.O. - Rome
Date : 23rd November, 1945
Ref. : SM.26/45.

Subject : Provision stocks in I.S.N. Depots.

MOST - URGENT

1. As you will have been able to observe, this Staff has always taken the greatest care to avoid any excess in the reserves of foodstuffs by ordering the prompt elimination of surpluses upon every occasion that they have become manifest.

However, there is no equally effective way in which to replace the stocks consumed, which - if they should not exceed the established quantities - neither should they remain below them unless they are to fail in the purpose for which they were authorised.

2. In practice it occurs that when the reserve of ten or fifteen days authorised by the Navy Sub Commission is reduced or exhausted owing to increase in strength or to issues to ships which could not be foreseen in making the fortnightly estimate (which is known to be compiled a considerable time beforehand), it is impossible to replenish it, and all applications made for this purpose to the Italian Army Authorities or to the M.M.I.A. are in vain.

3. Maridepart Taranto has now notified us that the local I.S.N. Provision Depot is in the most serious difficulties owing to lack of reserves and it is foreseen, should it prove impossible to reconstitute this stock, that the victualling of personnel will not be ensured.

Similar circumstances are appearing at certain other bases, and in particular at Naples.

4. The position at Taranto is especially difficult since supplies to that, the most important, I.S.N. base nor come from the Italian Army Stores at Bari and rail consignments of allocated foodstuffs are subject to notable delays owing to the difficulties of transportation (delays in allocating trucks, derailings, bottlenecks and other rail incidents).

7703

.....

Declassified E.O. 12065 Section 3-402/NNDC NO. 785020

These difficulties, and also the possibility of strikes or disorders which must be taken into consideration, unfortunately, compel that it be considered essential to maintain a full 15 days' supply, and therefore to re-establish it whenever it falls below this limit.

5. This could be effected by a request from this Staff to the Navy Sub Commission for the reserve to be built up again upon any occasion of its being reduced. It is considered, however, that this procedure would result in noticeable delays and that the necessary arrangements could not be made with the speed indispensable at such a time.

6. In consequence it is proposed that M.M.I.A. Liaison Officers who control fortnightly allocations according to the state of stocks at the various stores, should be empowered to grant allocations - upon request by the stores concerned - to complete the reserves upon every occasion of their falling below the limit, in the same way that they grant the said allocations in case of there being a surplus.

7. In view of the present serious situation and of communications from external authorities upon the subject, it is requested that you may refer the matter in the above sense to the appropriate Allied Authorities in order that these regrettable inconveniences may be disposed of at an early date, and particularly at Taranto and Naples where the traffic of naval vessels is heavier.

Subject: Supply of Coal to Italian Navy.

1. Efforts are being made to meet the coal requirements of the Italian Navy with Sardinian coal, using the collier SENIO for its delivery. This vessel, however, is not considered adequate to satisfy the monthly demands and it is requested that favourable consideration may be given to the release from Mediterranean Shipping Board of another vessel suited for operation as a collier.

2. The Ministry of Marine has submitted the following list of ships from which a second collier might be chosen:

Pertusola	2350	tons.

NSC/4413.
30th November, 1945.

From : Navy Sub Commission, No., Allied Commission.
To : The Commanding General, Peninsular Base Section.

Subject : Material belonging to the Italian Royal Navy sold to private concerns by the Allied Authorities.

It has been reported to the Navy Sub Commission by the Ministry of Marine that Italian Navy property was inadvertently sold by Peninsular Base Section (South) to an Italian civilian at Naples on 8th November, 1944.

2. The facts are as follows :-

The Ministry of Marine were invited to purchase 60 lengths of anchor chain at 85,000 lire per ton. On inspection, these anchor chains were found to be of Italian Royal Navy property. The matter was then investigated and it was discovered that these chains formed part of 800 tons of iron material which were sold to Mr. Ettore Farina at 2,500 lire per ton, by Peninsular Base Section (South) Supply Office on the 8th November, 1944, on written authority dated 18th October, 1944, from G-4 Division Peninsular Base Section United States Army.

3. From the above it will be seen that the same anchor chains which were purchased at 2,500 lire per ton, were offered for sale to the Ministry of Marine at a price 34 times increased, i.e. 85,000 lire per ton.

4. Your consent would be appreciated in order that the Ministry of Marine may be informed.

From : Navy Sub Commission, Hq., Allied Commission.
To : Flag Officer Italy and Liaison, Rome.

Subject : Replacement of 3 ton trucks belonging to Marina Ancona.

Enclosure (A) : Translation of Ministry of Marine's letter SM/26101 dated 23th November, 1945 and enclosures.

Enclosure (A) is forwarded in continuation of Navy Sub Commission's letter N3C/4070 dated 22nd November, 1945, with the request that appropriate action be taken to effect the issue to the Ministry of Marine of two replacement vehicles against these B.L.R. certificates.

2. It is observed that the vehicles, Dodge 3 ton truck No. 5317070 and Austin 3 ton truck No.4678024, were certified Beyond Local Repair long before the new procedure regarding the supply of motor transport to the Italian Royal Navy came into force, and it is considered that sufficient grounds exist to treat this as an outstanding case.

3. It is further observed that with the reduction of Royal Navy bases in Italy a considerable amount of motor transport becomes surplus to Royal Navy requirements thus facilitating the supply to the Italian Royal Navy, only in special cases and in circumstances of this nature.

1. The Commander-in-Chief, Mediterranean Station has informed the Flag Officer Italy and Liaison that no further refits and repairs to Royal Navy ships and vessels is contemplated at Naples and Taranto, and it is intended to withdraw the technical staffs at these ports by the end of November and December, 1945, respectively.

2. Repair work at Leghorn is being reduced to a minimum and a small technical staff will remain to supervise essential repairs only. At Messina it is intended to continue to carry out repairs to small minesweepers and coastal craft in reserve, but no further refits of fleet minesweepers will be undertaken. The British Naval Authority will remain with a reduced technical staff and no immediate change in the status of the port of Messina is contemplated.

From: Navy Sub-Commission, Hq. Allied Commission.
To: Ministry of Marine, Rome.

Subject: Unserviceable Craft in Dodecanese.

1. The Commander-in-Chief, Mediterranean has requested the Navy Sub-Commission to make proposals for the disposition of the following three Italian craft which are now sunk in Dodecanese waters:

(A) S.S. "CABOTO".
(i) Italian Fleet Auxiliary; Built 1912; About 660 tons displacement. Completely stripped of all fittings.
(ii) Government owned.
(iii) Sunk in Mandrachio Harbour following R.A.F. raid on 19th September, 1944. Direct hit on forecastle and numerous splinter holes above and below waterline. Has been refloated since British Occupation, and beached in Fedi Bay, Symi.

(B) S.S. "POMEZIA".
(i) Refrigerator Ship; Chartered by Italian Government; 638 gross tons; Built 1883. Completely stripped of all fittings.
(ii) Registered in Naples.
(iii) Sunk in Mandrachio Harbour following R.A.F. raid on 19th September, 1944. Direct hit in No.3 hold. Side blown out and stern practically severed. Entirely unserviceable.

(C) STEAM CRANE
(i) About 15 tons(?) Lifting Capacity.
(ii) Government owned.
(iii) Sunk in shallow water in Mandrachio Harbour following R.A.F. raid on 19th September, 1944. Badly damaged by splinters and machinery and fittings looted, or destroyed by rust. Unserviceable.

1. Reference (a) forwarded to the Finance Sub-Commission a copy of a Ministry of Marine letter which requested that certain valuables and currency belonging to the Italian Royal Navy be released to the Italian Navy from a safe deposit box of the Banca d'Italia, Vicenza.

2. In reply to reference (b) from the Finance Sub-Commission, the Navy Sub-Commission has determined, as indicated in enclosures (A) and (B), that the valuables in question are in fact the property of the Italian Royal Navy. In addition the Ministry of Marine has designated Captain Giuseppe Zarpellon, Commanding Officer of the Italian Navy Mustering Party, Vicenza, as the individual to whom the valuables should be released on behalf of that Ministry.

3. The Finance Sub-Commission is requested, therefore, to make arrangements for the release of the contents of the safe deposit box to Captain Zarpellon and to arrange for a copy of the custody receipt which is signed by him to be forwarded to the Navy Sub-Commission.

1. The precarious state of affairs which was brought to your attention in the above letter, concerning the hospital services at Taranto, has been aggravated by the absolute lack of spare wheels, and of spare parts in general, to the point where, at present, only one ambulance is available, which is in a reduced state of serviceability.

2. In consequence it is requested that you may communicate to us decisions reached concerning supply of the materials in question, it being of the greatest importance to the I.R.H. that it should be possible to make an allocation from the material thus made available.

MINISTRY OF LABOUR AND SOCIAL SECURITY

Prot.N.2021-900

7 November 45
LSC - 219

To: the Allied Commission
Labour Sub-Commission.

The High Commissioner for Sicily has informed us that before the end of November of the current year, the shipbuilding-yard of Palermo will be given back by the Allies to the Italian administration.

In order to assure the uninterrupted operation of the ship-building yard and to avoid a dismissal, even if it would be partial, of the workers actually employed in that yard, - a dismissal which would no doubt seriously affect the already critical situation of the workers - we take the liberty to state that it is necessary that the Allied Authorities allow to remain unaltered in the ship yards all the installations and machinery belonging to the Allied. Concerning the payment of the respective material, proper understandings could be reached with the "Societa Cantiere Navali Riuniti", with Head-quarters in Rome, Via G.Battista Vico 1.

This Ministry, considering the serious consequences that the deprecable dismissal of the said workers is bound to have, is of the opinion that it would be very wise to accept the proposal made by the High Commissioner for Sicily. Therefore it take leave to submit the same proposal to this Allied Commission and begs to consider it with benevolence and to recommend the acceptance of the same to the competent Allied Authorities.

We will be very glad to know the decisions, if any, to be adopted by this Allied Commission on the subject.

NSC/3663.
4th October, 1945.

From : Navy Sub Commission, Hq., Allied Commission.
To : Allied Force Headquarters.

Subject : Feeding Strength - Italian Navy.

With reference to Allied Force Headquarters letter No. AFHQ/2513/1/Q (maint), dated 22nd September, 1945, the ration Strength figures of approximately 53,000 rendered for July, 1945, showed a decrease of approximately 10,000 as compared to the May and June approximative figures of 64,000 and 60,000 respectively.

2. This was explained by the Ministry of Marine as being due to discharges and exceptional leave granted to personnel residing in Northern Italy. The Ministry of Marine also pointed out that owing to the new recruiting and the return of men on leave, in due course, the future ration strength would rise again to former figures.

3. Further information has recently been received from the Ministry of Marine to the effect that, as the recruiting of the remaining groups of the 1924 class is now in progress, and as, particularly in the northern areas, there is a continuous inflow of ex prisoners of war and of disbanded men who belong to those classes still under arms, for a brief period there will be an overlap between this inflow and the ratings of the 1921 and 1922 classes who are still to be discharged. As a result, the present strength, which has increased to about 58,000 in September, may still mount up in the coming two months to approximately 62,000 men, and then gradually decrease by February next to about 54,000.

4. In view of the above therefore, and observing that the ration strength would further be increased by about 2,000 in the event of the return of Italian Royal Navy units to Italy from abroad, it is considered that, for the present, the feeding strength ceiling of the Italian Navy may safely be lowered to 65,000.

Date : 19th October, 1945.

Subject : Land Mine-Disposal Party at Venice.

1. Our letter 11169 of 19th July last informed the Navy Sub Commission that the personnel of the third Mine-Disposal Party would be ready for service after they had completed their training course, and requested that assistance might be rendered in obtaining delivery of the necessary equipment.

In its letter No.[illegible]/31 M of 2nd August last the Navy Sub Commission asked for further details of the Party and of the Authority which had requested its formation.

2. Our letter 11223 of 5th August indicated that the first two parties had been sent to Genoa and La Spezia at the request of the Allied Authorities who also equipped them, while the third parties had been formed in anticipation of similar operations in the Venice area; this party, according to the latest information to hand, was landing 23 No. detectors which were available at the stores controlled by the British Military Authorities (A.F.H.Q. Med., A.F.H.Q., Caserta).

Subsequently you were informed (in our No.13713 of 23rd August) that the detectors were not held by that Department, but that it was the only Royal Naval office with authority to put forward requests to the British Army Authorities concerned.

In its letter M3/5348 of 23rd August last the Navy Sub Commission informed us that it had requested F.O.I.C. Venice to establish whether there was need in that area for the third party in question.

3. In the meantime your letter 800/6 of 20th September last requested that other personnel might be trained for Mine-Disposal ashore in order to meet future requirements along the coasts of Italy and particularly in the North, subdividing the said personnel into two groups for training at Genoa and Venice. The I.N.S. Staff have issued the necessary orders informing F.O.I.C. (letter ref. 21665 of 4th inst.), and requesting that the said groups might be provided with the requisite equipment.

4. In view of the new request which has been advanced its to be [illegible] that the despatch of the 3rd Mine-Disposal Party to Venice has been held [illegible]

and it is requested that the appropriate British Army Authorities may be approached in order that this Party and the new personnel to be trained may be furnished with detectors.

In this connection it is observed that an incident recently occurred at Idio di Jesolo (near Venice) in which a mine exploded resulting in the deaths of three ratings of the 3rd Party and another two men (one of them an officer) being wounded while bringing assistance to civilians ; consequently it becomes more urgent that ever that these personnel should be provided with their full equipment - and in particular with detectors - in order that they may be placed in a position to carry out their activities with the greatest margin of safety.

Subject: Approval for travel of Italian Citizen to Lagosta (Dalmatia).

Reference: (a) Navy Sub-Commission ltr. NSC/3533 of 11 September 1945.

1. With regard to reference (a), an early reply would be appreciated in view of the length of time elapsed since the original inquiry.

2. The Ministry of Marine has informed the Navy Sub-Commission that the person involved in the travel requested should have been discharged from the Italian Royal Navy some time ago; however, the discharge is being held up pending the receipt of the proper authorization to travel to Lagosta.

3. It is understood that the person involved in the correspondence has received permission from the Jugoslav Delegation in Rome that he may proceed to Lagosta travelling on a Jugoslav Naval Vessel leaving Bari, provided that he is in possession of the correct discharge and travel documents. Since the method of travel appears irregular, the Navy Sub-Commission would appreciate being informed if the public Safety Sub-Commission has any objection to the mode of travel proposed. It is understood that the travel documents will have to have the approval of the Allied Military Government, 13 Corps Headquarters and countersigned by the Jugoslav Mission.

1. The Finance Sub-Commission in reference (a) informed the Navy Sub-Commission, AC that funds removed from Italian POW/SEP by Allied authorities are not transferred from place to place with the personnel and that the ultimate disposition of such funds is to be determined by the Combined Chiefs of Staff.

2. The Italian Ministry of Marine in enclosure (A) submits a further list of Italian Navy personnel from whom funds have been removed and request that the amounts involved be transferred to the Nami Camp Headquarters where the personnel are in custody.

3. Chapter 6, Article 24, of the Geneva Convention of July 27, 1929, relates to the treatment of funds taken or withheld from prisoners of war. Prior to informing the Italian Ministry of Marine as to the policy stated in reference (a), confirmation would be appreciated that the provisions of Article 24 have been taken into consideration. Information is further desired as to the reasons for the matter having been referred to the Combined Chiefs of Staff so that the Navy Sub-Commission will be prepared to inform the Italian Ministry of Marine, if necessary.

Subject : Generators for Taranto Arsenal.

Information has been received to the effect that the following 3 complete diesel generator plants, which are partially dismantled and of German Military origin, are at present located at the MAN Company Workshops at Viale ZANOLINI No.23, Bologna.

(a) 1 Deutsche-Werke-Kiel 4-stroke Diesel engine - 390 H.P. - turns in 1 minute : 375 - six-cylinder model 601423, coupled co-axially with an Elin-Vient Weiss alternator - Kw.A.400 - 6900 Volts; 33.6 amps, co-axial exciter.

(b) 2 Deutsche-Werke-Kiel four stroke diesel engines - 520 H.P. - turns in 1 minute : 375 - model 811423, coupled co-axially to Elin-Vient-Weiss alternators - Kw.500 - 6900 Volts. - 44.5 Amps - co-axial exciter.

2. Observing therefore, that an urgent requirement exists for three generators to replace three of the generators in the thermo-electric power-house in the Italian Navy dockyard at Taranto, it is requested that the possibility of the release of these generators to the Italian Royal Navy may be examined and the Navy Sub Commission informed of the outcome.

3. It would be very much appreciated if the release of the generators in question to the Italian Navy could possibly be arranged, as the diesel generators at present used are old and in very bad condition, and cannot be relied upon to run continously for a period of intensive energy-production, such as would be required if the grid supply was cut off, without breaking down or requiring a rest for repair and overhaul. The Italian Navy dockyard at Taranto is performing very important repair work to ships of both the Allied and Italian Navies, and the consequences, in the event of lack of electric power, cannot be too highly estimated.

Enclosure: (A) Copy Jugoslav Delegation to the Advisory Council for Italy ltr Br. 1554 of 13 November 1945.

1. The Jugoslav Delegation to the Advisory Council for Italy in enclosure (A) requests that action be initiated to salvage and repair 7 Jugoslav vessels sunk in Italian waters at the expense of the Italian Government. In separate correspondence, the Jugoslav Delegation informs the Navy Sub-Commission, AC that a contract was signed on 10 November 1945 with Ing. GUIDO BIASINI, Via Piedigrotta 23, Naples for the salvage of the S.S. HERCEGOVINA, sunk at Baia near Naples.

2. Under the provisions of Article 15 of the Armistice Terms, United Nations merchant ships in Italian hands will be assembled in ports to be specified by the United Nations for disposal as directed by them. Any necessary repairs to any of the above-mentioned vessels will be effected by the Italian Government, if required at their expense.

3. Except under the provisions referred to in paragraph 2 above, no specific provision is included in the Armistice Terms to require the Italian Government to salvage and repair United Nations merchant ships sunk in Italian waters or elsewhere as the result of Italian actions, utilizing Italian facilities at the expense of the Italian Government. In view of the precedent which would be created by acceding to the request of the Jugoslav Delegation in enclosure (A) and the implications involved affecting Italy financially and the Italian shipbuilding industry, instructions are requested prior to taking any action on the Jugoslav request.

4. It is submitted for consideration that the Jugoslav Delegation be informed that private contracts should be entered into for the salvage and repair of ex-Jugoslav vessels, as in the case of the S.S. HERCEGOVINA, and that the responsibility for the payment for costs involved be determined at a later date.

Subject: Italian Naval Radio Equipment.

1. The Air Forces Sub-Commission, AC advises that information has been received from Headquarters, 2 District that a quantity of radio equipment situated at Florenza, which was thought to belong to the Italian Air Force, does in fact belong to the Italian Navy. A list of the equipment is forwarded herewith as enclosure (A).

2. As this equipment is urgently needed for operational use by the C.A.V. at Venice, it is requested that the Ministry of Marine authorise the use of the equipment by the Italian Air Force. It is requested that this matter be treated as urgent in order that the Air Forces Sub-Commission, AC may be informed.

Subject : Supply of fuels to the Italian Navy.

With reference to the Ministry of Marine's letter SM/21617 dated 3rd October, 1945, the Ministry of Marine is informed that as from the 1st January, 1946, the Italian Government will be responsible for the procurement of fuels and lubricants to meet Italian National requirements, both civil and military.

2. Consistent with the above, therefore, the new procedure for the supply of these commodities to Italy, will be for the various Ministries to submit their respective requirements to the Liquid Fuels Office of the Italian Ministry of Industry, Commerce and Labor, who will then arrange for a bulk allocation, which will be made available by C.I.F., to be made to each Ministry out of the Italian National programme. The onus of making the necessary arrangements for the supply of POL products to meet the needs of the various military and civil organizations will rest entirely with the Ministries concerned, thus, it will be the responsibility of each Ministry to advise C.I.F., where the allocations are to be made available.

3. It is requested, therefore, that the estimated Italian Royal Navy requirements of all POL products, including fuels and Navy oils for ships, for the month of January 1946, may be presented to the Liquid Fuels Office of the Ministry of Industry, Commerce and Labor by the 15th December, 1945, and that C.I.F. be advised of the quantities that are required at each port.

Subject: Salvage Vessel "ERTHA".

1. The Commander-in-Chief, Mediterranean has requested that the Italian Ministry of Marine be asked to furnish any known information concerning the salvage vessel ERTHA, which is owned by the Ertha Naval and Hydraulic Undertakings Co. Ltd., Athens. ERTHA is a salvage tug-boat which was registered at Piraeus as vessel No. 575. At the time of hostilities in Greece she was requisitioned by the Greek Government and on the entry of German occupation forces she was seized by the German Port Officer of Khalkis at Aliyropotamos. Subsequently she was taken to Piraeus by the German crew, where she was held for a considerable period while numerous alterations were made. Later she was equipped with guns and used by the German Navy in shuttle service between Piraeus and Crete. Her owners have reason to believe that she recently was in Suda Bay, however all efforts to locate her in Greek waters have failed. One recent but unconfirmed report has indicated that she recently has been in Trieste undergoing alterations and repairs. It is understood that she was renamed V-2 by the Germans.

2. It is requested that any information which can be obtained concerning ERTHA be forwarded to the Navy Sub-Commission in order that it may be transmitted to the Commander-in-Chief, Mediterranean.

1. At the request of the Commander-in-Chief, Mediterranean it is desired that the Ministry of Marine furnish all information which may be available concerning the present location and status of motor yacht TIRRENA. According to information received from the Commander-in-Chief, Mediterranean the owner of TIRRENA, M. Louis H. Contalen of 7 Rue Le Sueur, Paris, has reason to believe that the yacht was removed from Cannes, France to Italy in 1942 and that she now is located in Genoa. Details of TIRRENA are listed in Lloyds Register of Shipping. She is a 28-metre boat with special Hydraulic Rudder and 2 Diesel Engines 120 H.P.

1. The Italian Ministry of Industry, Commerce and Labour has informed the Navy Sub-Commission, A.C. that on account of the withdrawal of the British Royal Navy from Ancona the Shipyard Cantieri Navali Riuniti Co. at Ancona is urgently in need of work to prevent unemployment. It is further requested that consideration be given to the allocation of Allied merchant vessels to Ancona for repairs, with the understanding that no docking facilities are available.

2. The matter was referred to the Flag Officer Italy and Liaison for comment and the Navy Sub-Commission, A.C. was informed in enclosure (A) as to the British Royal Navy's policy and requirements for ship repair facilities in Italy. In accordance with paragraph 3 of enclosure (A), a statement of the general policy and requirements of the Commander U.S. Naval Forces, Northwest African Waters and the War Shipping Administration with respect to the requirements for the utilisation of ship repair facilities at Ancona and Italy would be appreciated in order that the Italian Ministry of Industry, Commerce and Labour may be informed.

Further reference is made to my letter 23075 of 21st October last.

On 20th instant the examination of Civitavecchia harbour-botton was completed.

In addition to the devices listed in the enclosure to the above letter the other undermentioned have been discovered:

20) A cylindrical object, considered explosive, resting on the wreck of a sunken vessel in a position at the point on a line joining the end of the Sardegna Mole and that of the Mole Lazzaretto, at 60 metres from the end of the latter.

On the same vessel there were found, also, about 10 metal aeroplane propellers which are being recovered.

21) An aerial bomb in position on the line of the Lazzaretto Mole produced and at a distance of 90 metres from the end thereof.

On 25th instant the bombs whose position was indicated by the numbers (11) and (12) on the plan enclosed with the above-mentioned letter were exploded; no harm was done to the harbour quaysides.

In the next few days, when the complete absence of ships from the port permits, the exploding of the other bombs will be arranged.

Prosecuzione foglio 23075 del 21 Ottobre u.s. -

E' stato ultimato, in data 20 c.m., il controllo del fondo del Porto di Civitavecchia.

Oltre agli ordigni elencati nell'allegato al foglio cui si fa riferimento, sono stati rinvenuti i seguenti altri:

20) - Un ordigno cilindrico, che si ritiene esplosivo, adagiato su un relitto di natante affondato, la cui ubicazione trovasi sul la congiungente la testata del Molo Sardegna con quella del Mo lo Lazzaretto ed a 60 metri dalla testata di quest'ultimo.

Sullo stesso natante sono state riavenute anche una decina di eliche di metallo per aerei, che sono in corso di ricupero.

21) - Una bomba d'aereo, ubicata sul prolungamento del Molo Lazzaretto e ad una distanza dalla testata di questo di metri 90.

Il giorno 25 c.m. sono state fatte brillare le bombe ubicate ai numeri 11) 12) del grafico allegato al foglio suddetto: nessun danno alle opere murarie del Porto.

Nei prossimi giorni, quando cio sara consentito dalla completa assenza di piroscafi in porto, sara provveduto al brillamento delle altre bombe.

I find, on my appointment to Rome as M.W.T.R.(Italy), that it will be necessary to maintain closer contact with Officers of the Allied Commission in connection with the movements of Italian merchant vessels, programming coastwise cargoes, imports and exports in MWT controlled tonnage, and kindred subjects than has been possible hitherto from our present offices in the Corso d'Italia.

I feel sure that the undermentioned Officers of the Allied Commission would support the view that any move which would facilitate closer contact is desireable;

Major Saul, Foreign Trade Division of Commerce Sub-Commission.

In order to accomplish this purpose it would be of great advantage if Headquarters Commandant Allied Commission would be good enough to authorise office space in the Corporations Building for MWT officials.

I should be grateful if you could see your way to support such a move particularly as it would bring us nearer to your Signals Office the facilities of which I trust you will kindly extend to MWT in Rome.

From: Navy Sub-Commission, Hq. Allied Commission.
To : Ministry of Marine, Rome.

Subject: Harbor Services at Naples.

1. In answer to paragraph 1(a) of Ministry of Marine letter 3M/18707 of 11 September 1945, the Navy Sub-Commission has determined that neither telephone equipment nor telephone lines now operating for the Allies in the port of Naples can be allowed to remain after the port is returned to Italian control. At such time as the port is returned to Italian control, the Allied telephone service now installed and operating in the port will be discontinued and all equipment removed.

2. The Signal Officer, Headquarters, Peninsular Base Section, Southern District, Naples has informed the Navy Sub-Commission, however, that there exists an extensive telephone cable network throughout the port area which radiates from the Italian Navy House. This cable system will remain intact and may be utilized by the Ministry of Marine. The Signal Officer, HQ, PBS, Southern District has stated that technical assistance from his office will be furnished to the Ministry of Marine concerning the telephone cable network from the Italian Navy House if the Ministry of Marine so desires. In the event that such assistance is desired, it is requested that the Navy Sub-Commission be informed at an early date in order that appropriate arrangements may be made with the Signal Officer, HQ, PBS, Southern District.

3. The remaining questions raised in the above referenced letter from the Ministry of Marine are still under consideration and an additional communication will be made concerning them at a later date.

Subject : Distribution of coffee substitute.

1. With reference to the letter of which copy is attached (the Ministry of War's - Directorate General of Supply's No. 1634/3/X of 17th September, 1945) the Ministry of Marine has already requested the Ministry of War to exclude personnel afloat from the distribution of coffee substitute.

2. In view of the fact that the particular living conditions of crews on board our ships render absolutely unavoidable a decrease in the ration of proper coffee it is requested that you may take the matter up with the S.H.A.E. in order that the Ministry of Marine's request may not be refused.

For Chief of Staff.

Ref. : 1693/3/1

Subject : Distribution of coffee substitute.

The Allied Sub Commission for the Army, having been informed of the considerable stocks of coffee substitute obtained from the stores of the armed forces of the so-called Social Republic, has instructed that these shall be distributed, until reserves are exhausted, to all the Italian Armed Forces without distinction to the amount of 6 grammes per man per day, in place of an equal quantity of coffee.

In consequence this Ministry has given instructions to that effect and has ordered - in order to hasten its consumption - that the existing quantities of substitute shall be redistributed among all the depots in the northern areas, including those of Legjorn, Florence and Ancona.

While noting the content of the above letter this Ministry regrets that it can not exclude Italian Air Force Units from the distribution, as it is not considered fair that only Army and Navy Units should partake in consuming a supply of this kind, since also the latter have been subjected to restrictions similar to those suffered by Air Force units in order to liquidate stocks in their own depots.

1. It is noted that the two drafts forwarded by reference (a) merely established procedures to be followed in the event Italian plants are found to be engaged in the manufacture of munitions. Paragraph (4) of the draft outlining the procedure to be followed by Allied ~~Force~~ Commission Headquarters specifically states it is not required that investigations be made de novo of plants manufacturing or capable of manufacturing warlike stores. It is not considered that the policy established by Allied Force Headquarters in reference (b) can be effectively implemented until such time as complete information is collected at Allied Commission Headquarters in central files concerning Italian plants which are capable of manufacturing munitions and a survey is made of Italian warlike stores.

2. It is recommended that the Industry Sub-Commission, AC, be made responsible for the compilation of the data required to implement paragraphs 4 (a), (b), (c) and (d) of reference (b) and that the War Materials Disposal Sub-Commission, AC, make the survey of Italian warlike stores required by paragraph 4 (c) of reference (b).

3. It is pointed out that a survey of Italian plants must be made in order to comply with reference (c).
