(b) Navy Sub-Commission's ltr. NSC/5235 dated 5 July 1946.

1. In reply to reference (a), the Ministry of Marine's attention is invited to reference (b), and especially, paragraph 3 thereof.

2. This timber, was originally requested by the Ministry of Marine, as part of the Italian Navy half-yearly requirements of Naval stores from British sources for July-December 1945. It is therefore the property of the Ministry of Marine for the maintenance of the Italian Navy.

3. The statement made by the "Assistant Naval Store Officer", Incanto, that the timber had to be forwarded to the "Italian Naval Mission Rome" is erroneous, as such organisation does not appear to exist. The timber in question may therefore be disposed of at the direction of the Ministry of Marine.

Enclosure: (A) Translation of the Minister of Marine's letter
B.422 dated 25 January 1947.

1. Enclosure (A) is forwarded herewith in accordance with reference (a). The sense of Base Supply Officer, H.M.S. Nile's letter No. 5/2 dated 25 May 1946, and paragraph 2 of reference (a) have been communicated to the Ministry of Marine under cover of reference (b) in which the Ministry of Marine was also requested to render a full report on the matter. Reference (c) is an interim reply.

2. While it is appreciated that Italian vessels should have an adequate reserve of provisions at all times, it is considered, that in the circumstances, the withdrawal of such a large quantity of provisions by Italian warships in this instance, and the subsequent misunderstanding regarding payment for the stores supplied would appear to be fairly well justified. The failure of Italian ships "ABRUZZI" and "GRANATIERE" to pay for the provisions from the cash provided is mitigated by (a) the possibility of a language difficulty (b) that, as has been the practice in the past, all stores issued to the Italian Navy were usually signed for by the Italian authority concerned on the appropriate form and not supplied on a cash basis, and (c) advances of cash were made to Italian ships in addition to the supply of victualling stores, all such issues being reported to Admiralty in accordance with Admiralty Fleet Order 1047/44. As will be seen by paragraph 4 and 5 and especially paragraph 6 of enclosure (A), the slight deviation from the usual procedure by the Base Supply Officer, H.M.S. Nile, resulted

in this unfortunate misunderstanding.

3.
