AQUILA WELFARE COMMITTEES

Translation of the circular letter sent by the prefect of Aquila for the costitution of Welfare Committees - Nov. 5 the 1944 -

---

As regards to the Welfare Committees to be costitued for the distribution of relief supplies to Italy, from U.S., each Committee will be constitued as follows :

Provincial Welfare committee:

Prefect - Archbishop - Provincial Commissioner I.R.C.

There will be three pther consulting members :

Medico Provinciale-Ispettore Provinciale of the Prefecture - president of Opera nazionale maternità infanzia - Patroness of I.R.C.

The provincial welfare committee will meet every second Thursday ar 3.30 p.m. First meeting Nov. 16 th. Mrs. Small A.R.C. F.R. will attand the meeting.

Comunal Welfare Committee:

Sindacc - parish - Comm. I.R.C. - Constulting members : Medico Comunale - President of E.C.A. - local representative of O.N.M.I. Meeting same dates -

For all the devastated Communes the distribution will take place in the centres of Sulmona and Avezzano - Therefere, every commune has to province with their own means for the transport of the relief supplies - In case of absolute impossibility for a commune of finding the means of transport, the Welfare committee will province for it.

It is therefore necessary that the Communal welfare Committee will compile a statistic as regards the persons in need of shoes, clothing and blankets (age and sex) stating also the distance from the commune to the centre of distribution (Avezzano or Sulmona) and routes to follow.

Notice is made that after the distribution, a list signed by the theree responsible members of the Committee, will be compiled, stating the names of the names of the persons having received the relief supplies and the number of garments. The list will be posted in every commune ar the municipio, the hurch or any central places, one copy of which will be sent to the Welfare Committee in Rome and one to the Provincial Welfare Committee.

Later on, there will be a distribution of medicines . In the meantime, the medico provincial will give dispositions for the free distribution of the drugs sent to hospitals, clinics ect.

The sindacos are begged to sent the informations not later than the 15 th inst.

SUBJECT : Devastated Areas. Estimate of damage to dwellings and public buildings - Italy.
TO : The Public Welfare Sub-Commission (Attention : Lt.Col. Andrews).
DATE : 22 November 1944.

1. The following information has not been requested from this office but being available is submitted for general information:

a) This is an estimate of the number of rooms, dwellings, and public buildings, destroyed, heavily and lightly damaged.

b) The estimate for liberated areas is based on known conditions. Those for Northern areas are obtained by assuming the per capita damage to be equal to that of liberated areas. This is questionable since most of the damage in Northern Italy is assumed to be primarily caused by air damage while that in the liberated areas was mostly through ground action. These estimates however have been tentatively accepted by the Public Works Sub-Commission.

c) Private Dwellings Only

1579

		Liberated Areas	Balance of Italy (Estimated)
No.dwellings	Destroyed	28,088	
	Heavy damage	32,394	
	Light damage	92,842	
No.rooms	Destroyed	214,781	536,952
	Heavy damage	283,747	709,367
	Light damage	627,672	1,569,180
Estimate damage in million lire	Destroyed	27,921	69,804
	Heavy damage	21,281	53,203
	Light damage	15,692	39,229

Declassified E.O. 12356 Section 3.3/NND No. 785014

DATE : 22 November 1944.

1. The following information has not been requested from this office but being available is submitted for general information:

a) This is an estimate of the number of rooms, dwellings, and public buildings, destroyed, heavily and lightly damaged.

b) The estimate for liberated areas is based on known conditions. Those for Northern areas are obtained by assuming the per capita damage to be equal to that of liberated areas. This is questionable since most of the damage in Northern Italy is assumed to be primarily caused by air damage while that in the liberated areas was mostly through ground action. These estimates however have been tentatively accepted by the Public Works Sub-Commission.

c) Private Dwellings Only

1379

		Liberated Areas	Balance of Italy (Estimated)
No.dwellings	Destroyed	28,088	
	Heavy damage	32,394	
	Light damage	92,842	
No.rooms	Destroyed	214,781	536,952
	Heavy damage	283,747	709,367
	Light damage	627,672	1,569,180
Estimate damage in million lire	Destroyed	27,921	69,804
	Heavy damage	21,281	53,203
	Light damage	15,692	39,229

(Total $ 2,271,300,000.00)

d) Damage to Official Buildings

		Liberated Areas	Remainder Italy
No.Buildings	Destroyed	376	
	Heavy damage	971	
	Light damage	3,739	

:/:

Declassified E.O. 12356 Section 3.3/NND No. 785016

		Liberated Areas	Remainder Italy Estimated
No. Rooms :	Destroyed	8,186	20,465
	Heavy damage	30,313	75,782
	Light damage	146,762	366,905
Est.damage: Millions lire	Destroyed	1,227	2,169
	Heavy damage	2,425	6,062
	Light damage	4,403	11,007

(Total : $ 272,930,000,00)

e) Estimate total damage is therefore $ 2,544,230,000,00. An estimate by Public Works approximates this figure with $ 2,694,000,000,00.

f) An extremely rough estimate is that 44% of the total damage is South of the Pisa - Rimini Line and 56% North of that line.

g) "Liberated Area" is that area liberated as of October 1,1944.

Declassified E.O. 12356 Section 3.3/NND No. 785016

ALLIED COMMISSION
Pisno Province

AC/Pis/4.10 13 Nov. 1944.

SUBJECT: Devastated Areas.

TO : Lt. Col. F. S. Andrews, (2)
HQ. A.C., Abruzzi-Marche Region.

1. I enclose herewith an additional sixteen (16) AC forms in respect of CHIETI Province, as follows:

1. Montefarvarto
2. Quadri
3. Rocello
4. Borrello
5. Civitaluparella
6. Pisciarello
7. Gamberale
8. Rojo del Sangro
9. Vacri
10. Giuliano Teatino
11. Ari
12. Villamagna
13. Bagno
14. Fara Filiorum Petri
15. Ipetoro
16. Bucchianico

2. This completes the survey of devastated communes in Chieti Province, and brings the total, in respect of which forms (AC) have been submitted to 53 - Chieti Province 47, - Pescara Province 6.

3. I draw your attention to the fact that forms for four (4) communes, namely; BUCCHIANICO, ORTONA, CASTELFRENTANO and MONTEFRENTANO have been submitted, which were not shown on the list of devastated communes supplied to us by the Genio Civile of CHIETI, and they are clearly communes which should be considered devastated.

4. On the other hand, LANCIANO was included as a devastated commune. A personal inspection of the town shows that it would be wrong to treat it as such. The damage done is comparatively little, and there is no homeless problem.

5. The exclusion of the four (4) communes (referred to in para. 3) from the list of devastated communes prepared by the Genio Civile, Chieti, is not easily understood, and it may be that there are others in the Province of which we have so far no knowledge. Further inquiry will be made and if any more come to light they will be reported upon.

6. I hope to be able to let you have, very shortly, forms in respect of all the devastated Communes in Chieti Province showing number of houses capable of repair in one month and materials needed, and the same in respect of houses capable of repair in two months.

7. The serious situation of the homeless persons in these communes I need not emphasise, and the need for speedy action is apparent.

[signature]
for J. Tumbrough
Lt. Col.

Declassified E.O. 12356 Section 3.3/NND No. 785016

1. I enclose herewith an additional sixteen (16) AG forms in respect of CHIETI Province, as follows:

1. Montefarrante
2. Fusari
3. Rosello
4. Torrello
5. Civitaluparella
6. Fossofresto
7. Carbonale

8 November 1944

SUBJECT:- Devastated Areas. Initial Information

TO:- R.C. Southern Region (6)
R.C. Lazio-Umbria (6)
R.C. Abruzzi-Marche (8)

1. An office has now been established at HQ AC to deal with the immediate problems of the Devastated Areas.

2. This office is working under the direction of D.C.O.S. CA Sec. and is located in Room 15 on the fifth floor of AC Buildings.

3. While it is appreciated to the full that action - and very quick action - is the only way by which the new office can justify its existence, it is essential that some information be requested from Regional Commissioners before action begins.

4. It is proposed to limit initial activities to the belt of country in which the opposing Armies were static during the winter of 1943-4. It is felt that any other badly damaged area is sufficiently local to require no additional attention outside the Regional resources and normal channels. This means Lazio-Umbria, Abruzzi-Marche, and (possibly) Southern Region to a very limited extent. Should Regional Commissioners feel very strongly that other areas should be considered, they are of course at liberty to put forward proposals but priority will be given to the Winter Line.

5. The attached+ pro-forma will supply enough information on which activity can start. For the sake of speed please make a first return of approximate accuracy, following up with a more concrete statement as soon as possible. It will be appreciated that this return will establish the limits of Devastated Area and enable an estimate to be made of what is required.

6. Once more it is requested that the first return be made as quickly as possible. If it only gives a rough summary it will help us enormously, details can follow.

7. All communications relating to this subject will be clearly marked in red "DEVASTATED AREA".

3. While it is appreciated to the full that action - and very quick action - is the only way by which the new office can justify its existence, it is essential that some information be requested from Regional Commissioners before action begins.

4. It is proposed to limit initial activities to the belt of country in which the opposing Armies were static during the winter of 1943-4. It is felt that any other badly damaged area is sufficiently local to require no additional attention outside the Regional resources and normal channels. This means Lazio-Umbria, Abruzzi-Marche, and (possibly) Southern Region to a very limited extent. Should Regional Commissioners feel very strongly that other areas should be considered, they are of course at liberty to put forward proposals but priority will be given to the Winter Line.

5. The attached* pro-forma will supply enough information on which activity can start. For the sake of speed please make a first return of approximate accuracy, following up with a more concrete statement as soon as possible. It will be appreciated that this return will establish the limits of Devastated Area and enable an estimate to be made of what is required.

6. Once more it is requested that the first return be made as quickly as possible. If it only gives a rough summary it will help us enormously, details can follow.

7. All communications relating to this subject will be clearly marked in red "DEVASTATED AREA".

4. It is proposed to limit initial activities to the belt of country in which the opposing Armies were static during the winter of 1943-4. It is felt that any other badly damaged area is sufficiently local to require no additional attention outside the Regional resources and normal channels. This means Lazio-Umbria, Abruzzi-Marche, and (possibly) Southern Region to a very limited extent. Should Regional Commissioners feel very strongly that other areas should be considered, they are of course at liberty to put forward proposals but priority will be given to the Winter Line.

5. The attached+ pro-forma will supply enough information on which activity can start. For the sake of speed please make a first return of approximate accuracy, following up with a more concrete statement as soon as possible. It will be appreciated that this return will establish the limits of Devastated Area and enable an estimate to be made of what is required.

6. Once more it is requested that the first return be made as quickly as possible. If it only gives a rough summary it will help us enormously, details can follow.

7. All communications relating to this subject will be clearly marked in red "DEVASTATED AREA".

Should Regional Commissioners feel very strongly that other areas should be considered, they are of course at liberty to put forward proposals but priority will be given to the Winter Line.

5. The attached+ pro-forma will supply enough information on which activity can start. For the sake of speed please make a first return of approximate accuracy, following up with a more concrete statement as soon as possible. It will be appreciated that this return will establish the limits of Devastated Area and enable an estimate to be made of what is required.

6. Once more it is requested that the first return be made as quickly as possible. If it only gives a rough summary it will help us enormously, details can follow.

7. All communications relating to this subject will be clearly marked in red "DEVASTATED AREA".

SUBJECT:- Devastated Areas. Initial Information

TO:- R.C. Southern Region (6)
R.C. Lazio-Umbria (6)
R.C. Abruzzi-Marche (8)

1. An office has now been established at HQ AC to deal with the immediate problems of the Devastated Areas.

2. This office is working under the direction of D.C.O.S. CA.Sec. and is located in Room 15 on the fifth floor of AC Buildings.

3. While it is appreciated to the full that action - and very quick action - is the only way by which the new office can justify its existence, it is essential that some information be requested from Regional Commissioners, before action begins.

4. It is proposed to limit initial activities to the belt of country in which the opposing Armies were static during the winter of 1943-4. It is felt that any other badly damaged area is sufficiently local to require no additional attention outside the Regional resources and normal channels. This means Lazio-Umbria, Abruzzi-Marche, and (possibly) Southern Region to a very limited extent. Should Regional Commissioners feel very strongly that other areas should be considered, they are of course at liberty to put forward proposals but priority will be given to the Winter Line.

5. The attached+ pro-forma will supply enough information on which activity can start. For the sake of speed please make a first return of approximate accuracy, following up with a more concrete statement as soon as possible. CASE CHE POSSONO ESSERE RIPARATE IN UN MESE

SCHEMA A

1. Numero delle case 20 2. Numero delle persone che vi possono alloggiare 120

3. MATERIALE OCCORRENTE	QUANTITA' TOTALE	
Cemento	15	quintali
Mattoni	20,000	
Tegole	40,000	
Vetri	70	metri quadrati
Legname	300	metri quadrati

Altro materiale indispensabile ~~Sicicocco~~ Iron rods 150 Kg. Hardware.

ALTRE CASE CHE POSSONO ESSERE RIPARATE IN DUE MESI

SCHEMA B

1. Numero delle case 30 2. Numero delle persone che vi possono alloggiare 180

3. MATERIALE OCCORRENTE	QUANTITA' TOTALE	
Cemento	30	quintali
Mattoni	40,000	
Tegole	30,000	
Vetri	140	metri quadrati
Legname	600	metri quadrati

Altro materiale indispensabile Iron rods 300 Kg. Hardware

1192

Numero delle persone che non trovano posto nelle case contemplate negli schemi A e B e che per conseguenza non possono essere alloggiate localmente /

Nota: Lo scopo di questo censimento è: 1.° di ottenere informazioni per procedere **solo a riparazioni urgenti** alle case da rendere abitabili per l'inverno; 2.° per provvedere agli alloggi di coloro che tuttavia rimangono senza tetto.

E' un problema di estrema urgenza.

ALLIED COMMISSION

FIUME PROVINCE

January 3rd. 1944.

To: Lt. Col. F. Craig, Devastated Areas, HQ. A.C.

Subject: Supplementary Rations to Devastated Communes.

1. Junior Commander M. Proby telephoned from HQ Region V and explained that owing to the number of persons in devastated communes for whom application had been made for supplementary rations being excessive, it was not possible to proceed with the original scheme. She asked me to submit a list of communes in the Provinces of CHIETI and PESCARA to which I considered supplementary rations should be issued.

2. It is not easy to discriminate between communes, for all are really in need of supplementary rations in this exposed region. On the other hand, it is a fact that, mainly on account of altitude and paucity of local resources, i.e. grain, oil and livestock, some communes are worse off than others, and no doubt less able to undergo the rigours of winter than those better situated geographically.

1474

3. It is, therefore, on that basis and no other, that I submit the attached list of ~~eighteen~~ (18) communes in CHIETI province and recommend that they be issued with supplementary rations. I have not included any in PESCARA Province as the need in the devastated communes in that province is not comparable with those in CHIETI Province.

ALLIED COMMISSION+

FIUME PROVINCE

January 3rd. 1944.

To: Lt. Col. F. Craig, Devastated Areas, HQ. AC.

Subject: Distribution of Clothing to Devastated Communes.

1. On the night of the 31 Dec. - 1 Jan a fall of fifteen (15) inches of snow took place in the LANCIANO area, with much deeper falls in the higher up area.

2. This has put a complete stop for the past two days to the distribution of clothing to communes from the depots in LANCIANO and CHIETI.

3. Yesterday I managed to reach ORTONA in a jeep, and found conditions in and near ROUTE 16 much better. Today I have sent Captain Cobb off to CHIETI in the jeep to recce. that area with a view to resuming distribution from that depot tomorrow.

1473

4. Tomorrow, if the jeep is not needed by Captain Cobb, I propose to do a recce in the Sangro River area to see if it is possible to complete the distribution to communes in that district. Unfortunately, unless there is a thaw tonight (of which there is no indication) the jeep will be the only vehicl capable of the journey from LANCIANO to Route 16. We have no chains for any of our vehicles.

5. We are as well forward with the distribution to Communes as could reasonably be expected. Right up to and including 31 Dec (Sunday) we were at it full swing, and but for this fall of snow we would have completed the task by the end of this week. As it is, most of the Communes in the Province have had one issue. PESCARA have not yet began to issue to Communes. They are going to manage with their own transport.

6. The blankets and canvas have not arrived.

ALLIED COMMISSION
Fiume Province
APO 394

AC/Min/510 7 Dec. 1944.

SUBJECT: Transport.

TO : Regional Commissioner
Hq.,A.C., Venezia Region
A.P.O. 394.

1. Since 5 Nov. 1944, when I arrived here, I have had the utmost difficulty in carrying out the duties assigned to me owing to lack of transport.

2. In the first instance, I had only one P.U. On 11 Nov., Capt. Cobb arrived with a 3 tonner. The latter cannot be used for the visiting of anything like all the communes in the area, owing to the nature of the roads, lack of bridges, etc. It has, however on occasions, come in useful as a means of transporting me to the Provincial HQ, at CHIOGGIA, for conferences with the Provincial Commissioner and representatives of the Italian Red Cross, but the use of a 3 tonner for the conveyance of a Provincial Commissioner of the rank of Lt. Colonel is not, in my opinion, in keeping with either the position or the rank, nor does it enhance the reputation of the Allied Forces in general or Venezia Region in particular.

3. On 14 Nov., I complained by letter to Col. Craig about my transport difficulties. That complaint met with no response.

4. On 23 Nov., I reported(my AC/Min/510) the difficulties I was encountering with my P.U. These difficulties have continued, and on 3 Dec. the P.U. was taken to RMMS at CHIOGGIA with burned out valves. It is still there, and will not be ready for use until on or about the 10 Dec. The delay in carrying out repairs is chiefly due to lack of any appropriate tools kit, RMMS not being supplied with tools, and in consequence, they have to make the tools to do the work. Thus, for the whole of this week I have had only the 3 tonner. Visits to communes have, therefore, been out of the question.

5. In addition, the P.U. has been giving constant trouble with punctures. Having no repair outfit and, despite every endeavor,being unable to obtain them, I have had to return from visits to Communes to have repairs effected at a local Italian garage. In the case of a number of communes in the south, I have made three attempts to visit them in the P.U. and, on each occasion, have had to return with punctures without reaching any of the communes in question.

6. On 25 Nov., I sent Capt Cobb to Regional HQ. to explain my position and to try and get additional transport, tools and a repair outfit. He succeeded in obtaining some old tools, and the promise of a jeep (which was undergoing repairs) in a week's time, subject to the approval of the Regional Commissioner.

7. The week has elapsed but the jeep has not arrived, and I have had no communication on the matter.

8. It is expected that, very shortly, supplies of canvas and clothing will arrive at the railhead, CHIOGGIA, for distribution to communes. Unless I am given additional

A.P.O. 394.

1. Since 5 Nov. 1944, when I arrived here, I have had the utmost difficulty in carrying out the duties assigned to me owing to lack of transport.

2. In the first instance, I had only one P.U. On 11 Nov., Capt. Cobb arrived with a 3 tonner. The latter cannot be used for the visiting of anything like all the communes in the area, owing to the nature of the roads, lack of bridges, etc. It has, however on occasions, come in useful as a means of transporting me to the Provincial HQ, at CREMA, for conferences with the Provincial Commissioner and representatives of the Italian Red Cross, but the use of a 3 tonner for the conveyance of a Provincial Commissioner of the rank of Lt. Colonel is not, in my opinion, in keeping with either the position or the rank, nor does it enhance the reputation of the Allied Forces in general or Venezia Region in particular.

3. On 14 Nov., I complained by letter to Col. Craig about my transport difficulties. That complaint met with no response.

4. On 25 Nov., I reported(my AG/Fin/510) the difficulties I was encountering with my P.U. These difficulties have continued, and on 3 Dec. the P.U. was taken to REME at CREMONA with burned out valves. It is still there, and will not be ready for use until on or about the 10 Dec. The delay in carrying out repairs is chiefly due to lack of any appropriate tools kit, ~~transmission~~, REME not being supplied with tools, and in consequence, they have to make the tools to do the work. Thus, for the whole of this week I have had only the 3 tonner. Visits to communes have, therefore, been out of the question.

5. In addition, the P.U. has been giving constant trouble with punctures. Having no repair outfit and, despite every endeavor, being unable to obtain them, I have had to return from visits to Communes to have repairs effected at a local Italian garage. In the case of a number of communes in the south, I have made three attempts to visit them in the P.U. and, on each occasion, have had to return with punctures without reaching any of the communes in question.

6. On 26 Nov., I sent Capt Cobb to Regional HQ. to explain my position and to try and get additional transport, tools and a repair outfit. He succeeded in obtaining some odd tools, and the promise of a jeep (which was undergoing repairs) in a week's time, subject to the approval of the Regional Commissioner.

7. The week has elapsed but the jeep has not arrived, and I have had no communication on the matter.

8. It is expected that, very shortly, supplies of canvas and clothing will arrive at the railhead, CREMONA, for distribution to communes. Unless I am given additional and suitable transport, it must be clearly understood that I cannot possibly undertake to supervise the distribution of these supplies in this area.

9. I need at least two other vehicles, at least one of which should be a jeep (in order that visits may be made to the most inaccessable communes). A P.U. would suffice for the second vehicle. The three tonner will be needed for the haulage of these supplies from the depot at Luciano to Communes without transport.

10. In addition, a suitable car should be provided for my personal use. These must, at this time of inactivity, be a requisitioned car available, which is not in use, and which could without the least loss of efficiency, be assigned to me for the time being.

Declassified E.O. 12356 Section 3.3/NND No. 785646

11. I have been extremely patient in this matter of transport, and have endeavoured to carry on with what has been assigned to me, hoping that something would be done to remedy a most unsatisfactory state of affairs. But such representations as I have made have met with no response, and I must therefore now ask that the matter be given attention and additional and suitable transport supplied to enable me to discharge my duties.

ALLIED COMMISSION
Fiume Province

AC/Fiu/410 25 Nov. 1944.

SUBJECT: Devastated Communes.

TO : Lt. Col. P.S. Andrews (2)
HQ.,A.C. Abruzzi-Marche Region.

1. Reference your suggestion to transfer the TRIESTE Province team to CHIETI,with a view to the taking over by that team of additional devastated Communes in PESCARA and CHIETI Provinces, the following recommendation is made:

2. The following Communes in PESCARA Province be supervised by Lt. Col. Ainslie:-

PESCARA	PENNE	LORETO APRUTINO
MONTESILVANO	POPOLI	S. VALENTINO (Scafa)

TOTAL 6

and in CHIETI Province:-

CHIETI	MIGLIANICO	S. GIOVANNI TEATINO
VILLANAGNA	FRANCAVILLA	BUCCHIANICO
RIPA TEATINA	VACRI	FARA FILIORUM PETRI

TOTAL 9 GRAND TOTAL 15

3. These with the 15 already supervised by Lt. Col. Ainslie would give him a total of 30, leaving me 39 to supervise.

4. All the Communes that I suggest should go over to Lt. Col. Ainslie, are easily accessible from CHIETI and PESCARA, indeed much more so than from LANCIANO.

F. J. ARMSTRONG

ALLIED COMMISSION
Fiume Province

AC/Fiu/410 14 Nov. 1944

SUBJECT: Devastated Areas.

TO : Lt. Col. F. Craig ✓
HQ.A.C. Abruzzi-Marche Region.

1. The urgent nature of the work in which I am engaged does not seem to be fully realised in the proper quarters, in spite of communications to the contrary, otherwise I should be supplied with sufficient and suitable transport to carry out the task assigned to me with the utmost expedition.

2. I arrived here on 5 Nov. with one P.U. and two officers, plus enlisted men. I had them received no written instructions regarding the detailed information required by HQ. A.C. I therefore drew up what I considered was a suitable proforma, supplemented by written instructions to my officers, who were visiting the Genio Civili and Communes, and began the survey. It was not until the 11th Nov that I received written instructions from HQ. A.C. regarding what information was needed. As a result, the communes already visited had to be revisited.

3. On 11 Nov, another officer, Capt. Cobb, reported to me for duty, with a 3 ton truck, from HQ. Venezia Region. You then advised me that a 15 Cwt Bedford would be placed at my disposal in a day or so. That vehicle has not yet arrived.

4. Meanwhile, I am carrying on with the two vehicles mentioned, but owing to the condition of the roads in the devastated areas, the use of the 3 tonner is very limited, and I have already covered those communes which it is capable of reaching, or near-reaching, and it is now of little further use to me.

5. The position at the moment is that I am depending upon the P.U. for the completion of the survey, so, unless I am provided with suitable transport, preferably jeeps or P.U.s (at least an additional two) unavoidable delay will occur in submitting the information so urgently needed by HQ.

6. I desire to point out that it is quite useless sending me additional officers without transport. 1466

7. I regret the necessity and tone of this report. I am aware that you have personally done your utmost to help me with transport, but I consider that the urgency of this work demands that the question of transport be taken upon a higher level than has heretofore been done, and that the difficulty of carrying out the survey, owing to the lack of sufficient and suitable transport be made known in the proper quarters.

Declassified E.O. 12356 Section 3.3/NND No. 785016

ALLIED COMMISSION
Fiume Province
APO 394

AC/Fiu/410 28 Nov. 1944

SUBJECT: Devastated Communes: Tobacco Warehouses at CHIETI and LANCIANO.

TO : Lt. Col. P.S. ANDREWS,
HQ., A.C. Abruzzi-Marche Region.
A.P.O. 394.

Reference: Signal of 24 Nov. 1944 from HQ. A.C.

1. I received a telephoned copy of the above signal at Chieti on 24 Nov. 1944.

2. The Provincial Commissioner, Major Manders, arranged for alternative storage accomodations at Chieti, the Tobacco warehouse having meanwhile been occupied by troops.

3. The Prefect agreed to visit Lanciano on 25 Nov. to arrange for alternative accomodations there. It was found, when enquiry was made, that the part of the Tobacco warehouse at Lanciano, reserved for relief supplies, had not been requisitioned for troops, and, in consequence, is still available.

4. I assured Signora Battista, on 24 Nov. 1944 that the necessary storage accomodations for relief supplies would be found at Lanciano, and that her organization could proceed on that assumption.

5. An attempt was made to phone this information to you from Chieti on 27 Nov. and a note had to be sent instead. This confirms that note sent by Major Snee.

F. J. ARMSTRONG
Lt. Colonel
Provincial Commissioner
Fiume.

ALLIED COMMISSION
Fiume Province

AC/Fiu/410 18 Nov. 1944.

SUBJECT: Devastated Areas.

TO : Lt. Col. P. S. Andrews, (2)
HQ. A.C., Abruzzi-Marche Region.

1. I enclose herewith an additional sixteen (16) AC forms in respect of CHIETI Province, as follows:

1. Monteferrante
2. Quadri
3. Rosello
4. Borrello
5. Civitaluperella
6. Pizzofenato
7. Gamberale
8. Rojo del Sangro
9. Veeri
10. Giuliano Teatino
11. Ari
12. Villamagna
13. Pagino
14. Fara Filiorum Petri
15. Pretoro
16. Bucchianico

2. This completes the survey of devastated communes in Chieti Province, and brings the total, in respect of which forms (AC) have been submitted to 55 - Chieti Province 47, - Pescara Province 6.

3. I draw your attention to the fact that forms for four (4) communes, namely; BUCCHIANICO, PRETORI, CASTELFRENTANO and MANTENERRANTE have been submitted, which were not shown on the list of devastated communes supplied to me by the Genio Civile of CHIETI, and they are clearly communes which should be considered devastated.

4. On the other hand, LANCIANO was included as a devastated commune. A personnal inspection of the town shows that it would be wrong to treat it as such. The damage done is comparatively little, and there is no homeless problem.

5. The exclusion of the four (4) communes (referred to in para. 3) from the list of devastated communes prepared by the Genio Civile, Chieti, is not easily understood, and it may be that there are others in the Province of which we have so far no knowledge. Further inquiry will be made and if any more come to light they will be reported upon.

6. I hope to be able to let you have, very shortly, forms in respect of all the devastated Communes in Chieti Province showing number of houses capable of repair in one month and materials needed, and the same in respect of houses capable of repair in two months.

7. The serious situation of the homeless persons in these communes I need not emphasise, and the need for speedy action is apparent.

Declassified E.O. 12356 Section 3.3/NND No. 785016

TO : Lt. Col. E. S. Andrews, (2)
HQ. A.C., Morumbi- Marche Region.

1. I enclose herewith forms in duplicate, in respect of 43 devastated Communes in CHIMBI Province, showing the number of houses capable of repair in one month and the materials needed, and the same in respect of houses capable of completion in 2 months, and, in each case, the number of homeless persons these will accomodate.

2. The Communes, namely TORNABUONO and ANI have already repaired all repairable houses in their respective communes, consequently forms are not enclosed in respect of either.

3. The accuracy of the figures in respect of materials needed cannot of course be guaranteed, as they have been hurriedly compiled. Nevertheless, they are considered sufficiently reliable to form the basis for the allocation of such materials as may be available for emergency repairs.

4. I have already submitted this information in Summary form in respect of the 6 devastated Communes in Nasara Province.

5. Once more, I urge the necessity for speedy action. The Finland are emphatic that labor is available to carry out the repairs necessary in their respective Communes.

REF: R XII/Fiu/DA/4 12 Nov. 1944.

SUBJECT: Devastated Areas.

TO : Colonel F. Craig
HQ. A.C., Abruzzi-Marche Region. (2)

1. HQ. A.C. letter, reference No. 4/31. A/c A, dated 8 Nov. 1944, reached me today at 1530 hours by the hands of the Regional Commissioner, Chieti.

2. I will immediately concentrate on obtaining the information asked for, or as much of it as can be got at once, and submit to you. The information (detailed) of materials needed for rehousing (already submitted to you in respect of Pescaro Province) will henceforth be treated as of secondary importance, but will follow on as soon as it becomes available, since query X of the Return asked for by HQ. A.C. deals only with roofless houses.

3. The second part of query XVII of the Return, I cannot answer by inquiring from Communal Officials, and I cannot spare an officer to go to Provincial or Regional HQ. to get the information. Query XVI appears to be a matter for the Regional Commissioner.

TO : Col. F. Craig,
HQ. A.C., Abruzzi-Marche Region.

1. I enclose herewith, (Appendices A & B), returns showing the requirements of the six (6) devastated communes in PESCARA Province in order to house the homeless.

2. Scheme A (Appendix A) provides for houses capable of being repaired in one month, and Scheme B (Appendix B) provides for additional houses capable of being repaired in two months, from date of receipt of the necessary materials.

3. If these two schemes are approved and the required materials supplied, all the homeless in the Province of Pescara will be provided with accomodation.

4. I have not included any information regarding requirements of clothing or bedding, as I understand that measures are already under way to provide for those in need.

5. All these communes will be accessable by road during the winter months.

6. The Genio Civile, PESCARA, asserts that bricks, cement and tiles could all be provided locally if coal could be supplied to the factories concerned. I have not attempted to check-up on this information, as it appeared to be outside the scope of my instructions, but if the materials mentioned cannot be made available elsewhere, or if transport difficulties arise, the possibility of using local resources might be considered, and investigated by officers competent to do so.

ALLIED COMMISSION
Fiume Province

14 Nov. 1944.

AC/Fiu/410

SUBJECT: Devastated Areas.

TO : Lt. Col. Craig, HQ. A.C. ✓
Abruzzi-Marche Region.

1. In the devastated communes already visited by my officers, it is clear that an extremely urgent problem is the supply of blankets and clothing. This undoubtedly applies to all the devastated communes.

2. I understand that plans are already in hand to supply both blankets and clothing. If this is so, every endeavor should be made to speed up the work, as the wintry weather already prevailing in this area makes the desperate condition of the people in need more pitiable day by day.

F. J. ARMSTRONG

(6)

AC/Fiu/410 14 Nov. 1944

SUBJECT: Devastated Areas.

TO : Lt. Col. F. Craig
HQ.A.C. Abruzzi-Marche Region.

1. The urgent nature of the work in which I am engaged does not seem to be fully realised in the proper quarters, in spite of communications to the contrary, otherwise I should be supplied with sufficient and suitable transport to carry out the task assigned to me with the utmost expedition.

2. I arrived here on 5 Nov. with one P.U. and two officers, plus enlisted men. I had then received no written instructions regarding the detailed information required by HQ. A.C. I therefore drew up what I considered was a suitable proforma, supplemented by written instructions to my officers, who were visiting the Genio Civili and Communes, and began the survey. It was not until the 11th Nov that I received written instructions from HQ. A.C. regarding what information was needed. As a result, the communes already visited had to be revisited.

3. On 11 Nov, another officer, Capt. Cobb, reported to me for duty, with a 3 ton truck, from HQ. Venezia Region. You then advised me that a 15 Cwt Bedford would be placed at my disposal in a day or so. That vehicle has not yet arrived.

4. Meanwhile, I am carrying on with the two vehicles mentioned, but owing to the condition of the roads in the devastated areas, the use of the 3 tonner is very limited, and I have already covered those communes which it is capable of reaching, or near-reaching, and it is now of little further use to me.

5. The position at the moment is that I am depending upon the P.U. for the completion of the survey, so, unless I am provided with suitable transpost, preferably jeeps or P.U.s (at least an additional two) unavoidable delay will occur in submitting the information so urgently needed by HQ.

6. I desire to point out that it is quite useless sending me additional officers without transport. 1417

7. I regret the necessity and tone of this report. I am aware that you have personally done your utmost to help me with transport, but I consider that the urgency of this work demands that the question of transport be taken upon a higher level than has heretofore been done, and that the difficulty of carrying out the survey, owing to the lack of sufficient and suitable transport, be made known in the proper quarters.

0874
Declassified E.O. 12356 Section 3.3/NND No. 785016

1. The urgent nature of the work in which I am engaged does not seem to be fully realised in the proper quarters, in spite of communications to the contrary, otherwise I should be supplied with sufficient and suitable transport to carry out the task assigned to me with the utmost expedition.

2. I arrived here on 5 Nov. with one P.U. and two officers, plus enlisted men. I had then received no written instructions regarding the detailed information required by HQ. A.C. I therefore drew up what I considered was a suitable proforma, supplemented by written instructions to my officers, who were visiting the Genie Civili and Communes, and began the survey. It was not until the 11th Nov that I received written instructions from HQ. A.C. regarding what information was needed. As a result, the communes already visited had to be revisited.

3. On 11 Nov, another officer, Capt. Cobb, reported to me for duty, with a 3 ton truck, from HQ. Venezia Region. You then advised me that a 15 Cwt Bedford would be placed at my disposal in a day or so. That vehicle has not yet arrived.

4. Meanwhile, I am carrying on with the two vehicles mentioned, but owing to the condition of the roads in the devastated areas, the use of the 3 tonner is very limited, and I have already covered those communes which it is capable of reaching, or near-reaching, and it is now of little further use to me.

ALLIED COMMISSION

FIUME PROVINCE

9 Nov. 1944.

To: Lt. Col. F. Craig, HQ. AC. Region V.

From: Provincial Commissioner, FIUME.

Subject: Devasted Areas.

1. The following is a brief account of our activities here since we arrived on the 5th. Nov.

(i) On 6 Nov. office accomodation was fixed up at the Municipio, Lanciano. The same day Major Snee contacted the Town Major at CHIETI (he covers this area)to settle our billets. At the same time he arranged with DID there about drawing rations.

(ii) On 7 Nov with Major Snee I contacted the Garrison Commander at S. VITO, Colonel Bennet, and then went on to PESCARO and saw the Prefect and Genio Civile of that Province, and arranged to recce the devastaded communes - only about six, but widely scattered. We went on to CHIETI and saw the Vice Prefect (the Prefect was at Rome) but, although we waited until 4p.m. we failed to see the Genio Civile who was out in the Province. We fixed up for an interview the following day, however, and left a note of what infn. we needed.

(iii) The following day Major Snee and Lt. Milich went to CHIETI. They did not see the Genio Civile but got all the information available about the devastated Communes in the Province.

2. From these contacts it is clear that a personal visit by an officer to each devastated Commune is necessary to complete the survey, as the information in the hands of the respective Genio Civile is insufficient for o our purpose.

14 6

3. Today, Major Snee has gone to PESCARO to visit Communes in that Province with the Genio Civile to get what information we need. He hopes to complete that Province in two days. Incidentally, will you please tell Ainslie that we shall cover POPOLI as it is in PESCARO Province.

4. The P.C. at CHIETI tells me that TERAMO does not need our attention. As I see it at the moment, CHIETI Province is the real problem. If I can get

action taken 12/11

4. The P.C. at CHIETI tells me that TERAMO does not need our attention. As I see it at the moment, CHIETI Province is the real problem. If I can get other two officers and other two vehicles I could cover it all in a reasonably quick time .

5. I enclose, for information, a copy of a form I have had printed for the survey, together with an instruction to officers regarding supplementary information which seems necessary. I hope these cover what you want.

6. I've lost my driver to hospital today, so, as I have had to send my ~~him~~ out with Snee to watch the PW, I am clerkless, but as I have never had one since

Declassified E.O. 12356 Section 3.3/NND No. 785016

I came to Region XII it does not worry me unduly.

7. Our accomodation in our billets is, I regret to say, somewhat bare of creature comforts, but will suffice for all the time we are likely to be here. If you come to see us be ready to rough it - after ACQUILA!

8. We are bearing up in the face of all these difficulties with christian fortitude!!

Lt. Colonel.
F. J. ARMSTRONG.

ALLIED COMMISSION

FIUME PROVINCE

8th. Nov. 1944.

To: All Officers engaged on Survey of Devasted Areas.

From: Lt. Colonel F. J. Armstrong

Subject Devasted Areas.

1. In addition to the information asked for in the FOGLIO INFORMATIVO (Information Sheet) information regarding the following should also be noted on the back of the sheet in respect of each Commune:-

A. COMMUNICATIONS

(i) Can road communications be maintained to the Commune throughout the winter?

(ii) If not, what is required to ensure essential supplies, e.g. food drugs, etc. reaching the Commune? Pack mules may be needed, and these or donkeys, may be available locally. If not, state requirements.

(iii) If pack mules cannot negotiate bridgeless rivers a wire or rope cable may be practicable to haul supplies across. If not available locally, state requirements.

Note: The Sindaco may be able to state that sufficient supplies of food, etc. are already stockpiled for the winter months. If so, questions (ii) and (iii) do not arise.

1443

B. CLOTHING

Give an estimate of the number of people needing clothing and blankets, i.e. people who have lost all their belongings as the result of war.

Note: It is understood that the American Red Cross is importing a large quantity of clothing and blankets into the devasted areas, and the information above will assist them in distribution.

ALLIED COMMISSION

FIUME PROVINCE

Nov 9 1944.

Personal.

Dear Mary,

Thanks a lot for yours of 8 Nov. As this was the first news we have had from the outside world since we arrived here on the 5th. it brought us great comfort.

I note Colonel Craig's difficulties about transport. It is all most vexatious and trying, but quite in keeping with the traditions of the Allied Commission!

Thanks for the arrangements made about mail. We have been wondering how we were going to maintain touch with our Regional HQ, but you seem to have solved the difficulty.

I very much fear that the telephone to ACQUILA is hopeless. It seems impossible to get through to CHIETI from here, and I understand the same applies between CHIETI and ACQUILA. I expected my message about transport to be phoned through to you on the 5th. but learned two days later that it had been sent by hand.

I hope that Colonel Craig will send Fletcher here some time to settle any expenses I may incur. I find financial matters very trying and always leave them to someone else to settle.

Do make the most of the hot water at the Albergo Grande. Here we have nothing but cold water.

Kind regrds

Yours sincerely, 14/2

Dear Colonel Armstrong,

Colonel Craig has asked me to acknowledge receipt of your two letters - RXII/FIU/DA/I and RXII/FIU/DA/2 - of 6 Nov, and also of an appeal for transport which was handed in this morning.

Colonel Craig left this morning for Pesaro, for the purpose of trying to raise some vehicles.

Subject: Devasted Areas.

1. I arrived at LANCIANO at 1430 hrs on 5 Nov without incident.

2. Accomodation had been arranged by the Provincial Commissioner, CHIETI, at the Albergo Palomba, Corso Trieste e Trento, and this was occupied. Cots will be needed by any other officers allotted to me.

3. I have been provided with office accommodation at the Municipio.

4. Contact has been established with the Town Major, ORTONA, who holds the Albergo Palomba on requisition, and no difficulty arises in this connection.

5. Major Snee, who saw the Town Major, tells me that he is very helpful and will give us all possible assistance. The 67 Area Commander, Colonel Bennet, is stationed at S. VICO, and I propose to contact him personally on the 7 Nov.
