3. DRESS - BRITISH OFFICERS:

The Supreme Allied Commander, while not desiring to impose additional irksome restrictions and regulations, nevertheless wishes all British troops under his command to be reminded that the victorious end of the war in Europe has left the British Army with a reputation as high as, or higher than, it has ever had. He is most anxious that this reputation shall not be dulled in the eyes of Allied Nations or of foreign observers by carelessness and inattention to such matters as dress and saluting.

In connection with the foregoing, the Commander, British Troops, ROME, has issued instructions, extracts of which read as follows:

> "Officers should be reminded that upon them lies the duty of setting an example in respect, both of turnout and saluting. The more flagrant eccentricities of dress must be discarded. In particular coloured scarves are quite inappropriate to a capital city, and will not be worn in ROME.
>
> Similarly in respect of saluting, officers are reminded that failure to return salutes or a perfunctory acknowledgement is bad discipline apart from being an unpardonable lapse from good manners. If all will think of the salute as a salutation exchanged between soldiers than as a ceremonial gesture offered by the junior and acknowledged by the senior, we shall put the matter on a more genuine basis."

2. MESSAGE FROM THE SUPREME ALLIED COMMANDER, MEDITERRANEAN THEATER: The following message, dated 17 August 1945, from Field Marshal Sir HAROLD R.L.G. ALEXANDER, Supreme Allied Commander, Mediterranean Theater, is republished:

"This is a day for thanksgiving and rejoicing, for peace has at last been won and the cause for Freedom and Justice has prevailed. This is the day for which the freedom-loving nations of the world have been fighting for almost 6 years. It is the day that spells the doom of totalitarian governments and their policies of aggression, hatred and persecution.

Each of you - whatever service or your nationality - has played a vital role in our struggle for this great victory. You brought the Nazis and their satellites to their knees, while your brothers-in-arms were administering the final blows to the Japanese on the other side of the globe.

Today I know you will join me in extending the warmest congratulations of this theater to the men who have inflicted overwhelming defeat on Japan. They have fought long, hard and well. They have won a truly magnificent victory.

Naturally, all of us hope that the events of today will hasten your return to your families and to normal peacetime pursuits. You may be certain that your commanders in the Mediterranean Theater will do everything in their power to get you home and back to the normal pursuits of peace with all possible speed. For the task of us here - redeployment and occupation - we shall attempt to cut our forces to an essential minimum.

You are the men and women on whom the future peace of the world will depend. Out of the chaos that this war has brought, it will be your task to build a world in which peace and human decency are the dominating motives. You, soldiers of the United Nations, who have fought shoulder to shoulder as Allies against a common enemy, today form a united front for world peace and security". (Estab Sec)

2. MESSAGE FROM THE SUPREME ALLIED COMMANDER, MEDITERRANEAN THEATER: The following message, dated 17 August 1945, from Field Marshal Sir HAROLD R.L.G. ALEXANDER, Supreme Allied Commander, Mediterranean Theater, is republished:

"This is a day for thanksgiving and rejoicing, for peace has at last been won and the cause for Freedom and Justice has prevailed. This is the day for which the freedom-loving nations of the world have been fighting for almost 6 years. It is the day that spells the doom of totalitarian governments and their policies of aggression, hatred and persecution.

Each of you - whatever service or your nationality - has played a vital role in our struggle for this great victory. You brought the Nazis and their satellites to their knees, while your brothers-in-arms were administering the final blows to the Japanese on the other side of the globe.

Today I know you will join me in extending the warmest congratulations of this theater to the men who have inflicted overwhelming defeat on Japan. They have fought long, hard and well. They have won a truly magnificent victory.

Naturally, all of us hope that the events of today will hasten your return to your families and to normal peacetime pursuits. You may be certain that your commanders in the Mediterranean Theater will do everything in their power to get you home and back to the normal pursuits of peace with all possible speed. For the task of us here - redeployment and occupation - we shall attempt to cut our forces to an essential minimum.

You are the men and women on whom the future peace of the world will depend. Out of the chaos that this war has brought, it will be your task to build a world in which peace and human decency are the dominating motives. You, soldiers of the United Nations, who have fought shoulder to shoulder as Allies against a common enemy, today form a united front for world peace and security". (Estab Sec)

2. TRANSMISSION OF RECORDS TO ARCHIVES:

A very large volume of the Commission's records is likely to become available for Archives during the next few months. A programme for dealing with this material has been worked out, and close co-operation between all offices and Archives Branch is essential.

Every office (Section, Sub-Commission, Region, etc) will appoint a Records Officer to co-ordinate and supervise the preparation of its records, and will provide two competent clerks, one of whom will be a typist, to work for a period under the direction of Archives Branch to assist in sorting, arranging and indexing its records.

In general, the provisions of Establishment Memorandum No. 3 will apply. Particular attention is called to paragraphs 7 - 10 of the Memorandum, which are modified as follows:-

Para 7 - A bundle 15" high has proved to be unwieldy; the desirable maximum is 12".

Para 8 - It is not now necessary for the file lists to indicate the the division of files into bundles.

So far as offices at Hq are concerned, no further written directive will be issued. Instead, every office at Hq will notify Archives Branch (through its own Records Officer) when it is ready to prepare its records. The Archivist will then visit the office to discuss any difficulties, and to advise as to the manner in which the records can best be arranged and listed in order to meet Archive requirements.

Permits will be issued to civilian employees only, when they present a letter from the Section head or Executive Officer, thereof, certifying that transportation is already available to their particular destination, and, if so be the case, for the return journey.

Of late, too many outsiders are being sent to the Adjutant's Office from other offices in this headquarters, requesting permits to reach certain destinations for compassionate reasons, with intent to hitch-hike, and becoming a nuisance to the Military Police and other Allied Agencies in other parts of Italy. The Assistant Adjutant will not issue a W.D. Permit to any civilian without a letter, and in no case, will the Assistant Adjutant assume the responsibilities of a travel agency for civilians travelling throught Italy, on anything other than official business for the Commission. 3. REQUESTS FOR TRAVEL AND/OR TEMPORARY DUTY:

Attention is again called to paragraph 5, on the reverse side of the Request for Travel and/or Temporary Duty form, which states:

"Requests will be forwarded at least 48 hours prior to the date of departure. Orders are closed at 1530 hours each day. All requests received after this time will be published the following day".

Too many requests are being submitted to the Adjutant's Office on short notice, in some cases, only a few minutes before departure. This practice must cease as it disrupts the daily procedure, delaying the issuance of those orders in the proper sequence of priority. Requests should not be marked "EMERGENCY" as a means of expediting orders, and such requests will be thoroughly investigated. It is urged that as much information as possible be submitted on the request, giving the complete itinerary and full reason for the performance of travel.

Attention is also called to paragraphs 3 and 4. (Est Sec)

7. LEAVE - BRITISH PERSONNEL: 1. In view of the increased allotment of LIAP vacancies given to this Command for the month of August, it is not proposed to make a general allocation of local leave vacancies to units as it is considered that this would result only in wholesale surrendering of vacancies.

RAVELLO	FLORENCE
AMALFI	SALERNO
AQUILA	ROME
FLORENCE	AQUILA

N.B. Other Ranks' leave vacancies at Aquila are limited to 35 per week. Units are therefore requested to make only moderate demands for such vacancies so that fair distribution can be made to all units. (EXTRACT HQ ROME AREA ALLIED COMMAND, Ref: 22A9, dated 19 July 1945).

It has become apparent from the number of enquiries received on the subject of Local Leave, that British Officers and other ranks of the Commission are not conversant with the provisions of GRO 998/44.

Periods of 48 hours or less (short leave) will not count against Local Leave. Leave in the UK will, however, be taken into account in granting Local Leave".

Officers of this Headquarters should apply for leave through their Sub-Commissions, etc, to the Headquarters Commandant.

The question of leave for Other Ranks of this Headquarters is dealt with by O.C. British Detachment.

Regional Commissioners concerned will use their own discretion in granting leave to all ranks in the field in accordance with the above.

5. POSTAL REGULATIONS - AMERICAN:

The following is quoted from the Army Postal Bulletin, 1 May 1945, for the information of all concerned:

"Many gift parcels for Great Britain and Northern Ireland have failed of delivery because the addressees would not or could not pay the customs duty assessed, which, in some cases may amount to 43½ percent ad valorem. In addition, most consumers goods, other than foodstuffs, are subject to the United Kingdom purchase tax, which is a charge on importation and is imposed at 100 percent, in some cases, on the wholesale value.

This Department (US Postal Dept) has been informed that about the only articles suitable for gifts to Great Britain and Northern Ireland admitted duty free are books and periodicals sent in single copies, maps, printed music, and paintings in oil or water colors". (Postal O (1))

2. PROPER USE OF CLASSIFICATION AND PRECEDENCE IN SIGNAL MESSAGES: The following letter, AFHQ, reference, AC 311.5/199 SIG-O, subject: "Proper Use of Classification and Precedence in Signal Messages", dated 11 June 1945, is quoted for the information, guidance and compliance of all concerned:

"1. The volume of messages originated in this theater has decreased slightly since the cessation of hostilities, but difficulties are being experienced in many instances in the expeditious handling of those messages by electrical means. These difficulties may be expected to increase with the early redeployment of many of the Signal troops and cipher personnel. Under current regulations, only message classified as "CONFIDENTAL" or lower may be transmitted by certain land lines in the clear; all other classified messages require encipherment. The temporary inadequacy of land encipherment of all classified messages, has increased the already heavy load on cipher offices. With the cessation of hostilities the urgency requiring rapid transmission of many of the messages appears to be reduced. This should permit greater use of letters in lieu of messages with increased use of the various messenger services, especially in those areas where a shortage of electrical facilities exists.

2. It is hoped shortly to relax regulations regarding classification of messages, thus permitting the transmission of more signal traffic in the clear. Pending the issuance of such relaxations, all originators are cautioned to avoid overclassification. Overclassification debases the value of the higher security classifications and tends to add to delay owing to the special handling required. At the present time, therefore, it is more than ever essential that current rules regarding the classification and precedence of messages be scrupulously observed in the interests of all concerned.

3. Originators are furthermore cautioned against the abuse of precedence. Where the volume of "Priority" and "Operational Priority" traffic becomes disproportionately heavy, these precedences necessarily lose their value.

4. Care must be taken in the drafting of messages to reduce their length by employing concise language without sacrificing clarity". (Adj)

5. CONSERVATION OF WATER: The attention of all concerned is directed to the necessity for conserving water during the coming months. The main causes for the shortage in water are as follows:

a. An unusually dry spring.
b. There are no reservoirs in the system and therefore no reserve can be stored up.
c. The population to be served, both military and civilian, is far in excess of the pre-war population for which the distribution system was considered barely adequate.

In view of the above, the attention of all ranks is drawn to the strictest economy of water in Headquarters building. All taps should be kept closed when not in use.

Leaking taps, pipes and faulty lavatory flushes should be immediately reported to Office Space Section, telephone - Ext. 585.

Sub-Commissions, Branches, etc., are asked to instruct their Italian employees on the seriousness of the waste of water. (Hq Comat)

10. CONSERVATION OF WATER: The attention of all concerned is directed to the necessity for conserving water during the coming months. The main causes for the shortage in water are as follows:

(1) An unusually dry Spring.
(2) There are no reservoirs in the system and therefore no reserve can be stored up.
(3) The population to be served, both military and civilian, is far in excess of the pre-war population for which the distribution system was considered barely adequate.

In view of the above, the attention of all ranks is drawn to the strictest economy of water in Headquarters building. All taps should be kept closed when not in use.

Leaking taps, pipes and faulty lavatory flushes should be immediately reported to Office Space Section (Tel. Ext. 585).

Sub-Commissions, Branches, etc, are asked to instruct their Italian employees on the seriousness of the waste of water. (Hq Comdt)

11. DEDUCTIONS FOR MID-DAY MEAL - ITALIAN OFFICE EMPLOYEES:

As from 1st June 1945, and in accordance with AFHQ Administrative Instruction No. 30, of 3 May 1945, and RAAC Administrative Instruction No. 4, of 25 May 1945, a revised scale of rations, to cover the Noon-meal for Office personnel, has been issued. This ration is issued at a cost of five (5) lire per head per issue. Such cost will be deducted on the payroll from the pay of all Office Employees partaking of the Mid-day meal.

(Hq Comdt)

12. CONSERVATION OF WATER:

The attention of all concerned is directed to the necessity for conserving water during the coming months. The main causes for the shortage in water are as follows:

(1) An unusually dry Spring.
(2) There are no reservoirs in the system and therefore no reserve can be stored up.
(3) The population to be served, both military and civilian, is far in excess of the pre-war population for which the distribution system was considered barely adequate.

In view of the above, the attention of all ranks is drawn to the strictest economy of water in Headquarters building. All taps should be kept closed when not in use.

Leaking taps, pipes and faulty lavatory flushes should be immediately reported to Office Space Section (Tel. Ext. 585).

Sub-Commissions, Branches, etc, are asked to instruct their Italian employees on the seriousness of the waste of water.

2. MESSAGE FROM SUPREME ALLIED COMMANDER:

The following is a special message from the Supreme Allied Commander to all the Allied Armed Forces in the Mediterranean Theatre:

"The territory around TRIESTE and GORIZIA and east of the ISONZO River is part of ITALY known as VENEZIA GIULIA. The territory around VILLACH and KLAGENFURT is part of AUSTRIA. The above Italian and Austrian territory is now claimed by Marshal TITO who wishes to incorporate it in JUGOSLAVIA. We have no objection to claims being put forward by Marshal TITO to this territory. His claims will be examined and finally settled with fairness and impartiality at the peace conference, in exactly the same manner as other disputed areas throughout Europe. Our policy, as has been publicly proclaimed, is that the territorial changes should be made only after thorough study and after full consultation and deliberation between the various governments concerned. It is, however, Marshal TITO's apparent intention to establish his claims by force of arms and military occupation. Action of this kind would be all too reminiscent of HITLER, MUSSOLINI and JAPAN. It is to prevent such actions that we have been fighting this war. We have agreed to work together to seek an orderly and just solution of territorial problems; this is one of the cardinal principles for which the peoples of the United Nations have made their tremendous sacrifices in an endeavour to obtain a just and lasting peace. It is one of the cornerstones on which our representatives, with the approbation of world public opinion, are now at work at SAN FRANCISCO to build a system of world security. We can not now throw away the vital principles for which we have all fought. Under these prinicples it is our duty to hold these disputed territories as trustees until their ultimate disposal is settled at the peace conference. Within these territories our duty and responsibility is to keep law and order by our military forces and to ensure a peaceful and secure life for their peoples through our Allied military government. We may be relied on to act impartially as we do not covet these territories ourselves. In this situation I tried my best to come to a friendly agreement with Marshal TITO, but did not succeed. The UNITED STATES and British Governments have therefore taken the matter up directly with Marshal TITO. The Soviet Government have been kept fully informed. We are now waiting to hear whether Marshal TITO is prepared to cooperate in accepting a peaceful settlement of this territorial claims, or whether he will attempt to establish them by force. It has always been my policy to keep you all, whatever your rank, fully informed about the general situation and the objects for which you have fought. 2. MESSAGE OF PRIME MINISTER TO FIELD MARSHAL ALEXANDER:

"I rejoice in the magnificently planned and executed operation of 15 Group of Armies which are resulting in the complete destruction or capture of all enemy forces south of the Alps.

That you and General MARK CLARK should have been able to accomplish these tremendous and decisive results against a superior number of enemy divisions after you have made great sacrifices of whole armies for the western front, is indeed another proof of your genius for war and of intimate brotherhood-in-arms between British Commonwealth and Imperial forces and those of the United States.

Never I suppose have so many nations advanced and maneuvered in one line victoriously. The British, Americans, New Zealanders, South Africans, British-Indians, Poles, Jews, Brazilians and strong force of liberated Italians have all marched together in that high comradeship and unity of men fighting for freedom and for the deliverance of mankind.

This great final battle in Italy will long stand out in history as one of the most famous episodes in this second World War.

Pray give my heartfelt congratulations to all your Commanders and principal officers of all services and above all to the valiant and ardent troops whom they have led with so much skill." (EXTRACT from RAAC Memorandum, dated 3 May 1945).

5. ROUTING OF LONG DISTANCE TELEPHONE CALLS: The following is extracted from Section I, Circular #7, Allied Force Headquarters, dated 27 April 1945, for the information, guidance and compliance of all concerned:

"The practice of telephone subscribers routing their own long distance calls through intermediate switchboards is resulting in unnecessary delay and confusion. To expedite the completion of long distance calls over the most direct route available, subscribers will ask the originating operator for the switchboard desired and refrain from attempting to route their own calls by requesting connection to intermediate switchboards. In cases where direct circuits to the desired switchboard do not exist, the originating operator will connect the subscriber to the next intermediate switchboard in accordance with prescribed practice. When the operator answers at the one or more intermediate switchboards involved, the subscriber will repeat the name of the switchboard desired in each instance, until the call is completed".
