Please thank Colonel Rava for the very great trouble he has been to in giving me the complete picture.

2. I think the position is quite clear. Both Fifth and Eighth Army Commanders have specifically expressed the view that they do not wish civilian representatives assigned to either of their Army Commands A.M.G. Therefore paragraph 7 on page 2 would appear to me to have dealt with the matter satisfactorily.

3. I have never given any instructions as to the abolition or withdrawal of civilian representatives who are assigned to Regional or Provincial Commissions. If, however, such Regional and Provincial Commissioners do not require these officers then they should be withdrawn and they should be addressed in these terms accordingly by you at an early date before any further decision is taken in their regard.

4. In this matter the question should be definitely presented to the V.P. when the replies are received.

During conversations you had with Col. CRAIG, you mentioned difficulties you were having with civilian vehicles for the use of Patriot Representatives.

It is pointed out that the instructions laid down in the Directive under heading "Employment and Payment of Patriot Representatives, and Hiring of Motor Vehicles" (copy of which is enclosed,) dated the 30th October, 1944, remain in force. The Directive issued by A.C. which deals with the requisitioning of vehicles does not affect the issue.

This is to inform you that a letter was sent by the Chief
Commissioner to the Italian Government which included the following text:

"As a matter of urgency I must ask you to give immediate instructions,
as a temporary measure, that no Patriot Representatives will be sent
into Military Government Territory except with the consent, to be
obtained in writing, of an officer of the Patriots Branch of the A.C.,
and further that such representative be furnished with written in-
structions by the appropriate Ministry stating the amount of currency
which he is carrying and the exact terms upon which he is to dis-
tribute such currency amongst Patriots and their dependents."

It was found necessary to send this letter in view of the fact
that numerous Government Representatives had been going up into Military
Government Territory without prior notification to this Branch for the
purpose of distributing funds amongst Patriots which they had collected
through their own initiative.

Efforts are being made to arrange for the Government to budget
for a lump sum so that all Patriots will receive demobilisation payments
when they come through the lines, and it is hoped that in the near future
a settlement will be reached. You will be notified in due course as to
what happens.

Referring to your letter ref. 36/PAT. dated 6 January 1945, same subject.

With the circular ref. 36/PAT. dated 30 October 1944 the Patriots Branch instructed that to simplify the payment of Representatives they should be paid by Allied I.Qs. or bodies to which they were attached. The amounts would be refunded by the National Patriots Committee upon exchange of corresponding documents.

As some of the military representatives have their drivers, for whose payments there are the same difficulties as for the representatives, this Office on 21 December, with letter ref. 323, requested that the same provisions be adopted for the drivers as for the Representatives.

Naturally also such amounts would be refunded.

While we inform you that 90 lire daily must be paid to Mr. Roselli Attilio for the period which will be specified by Cap. Jannarone, we wish that the A.C. Patriots Branch would examine the possibility that the same provisions adopted for the Military Representatives should be adopted for the drivers, and that they should be paid by the Allied bodies where they are serving.

Would you notify to us the amount that will have to be paid at the Banca d'Italia for the Allied Financial Commission to complete the necessary amount for the payment of Military Representatives.

A.C. H.Q. has signalled that all mail to the representatives of this office should be addressed impersonally. Such policy can often be useful, but sometimes it would be liable to create difficulties.

It often happens that one is answering problems which have been set forth personally by the Representatives, or that one has to make personal communications which might be of praise or of blame; or disciplinary provisions, etc.

Considering the above reasons, will you please let us know which will be the best way of eliminating the above difficulties.

To: AG. Hq. Patriots Branch.

Rome.

It is known that upon request of AG.Hq. this office detaches Military representatives for the Patriots to HQs of Allied Units, to Allied Regional and Provincial Commissioners, and for all other tasks which might be specified each time.

AG. Hq. has directed in the circular 36/PAT dated 30th October, 1944, that the Military Representatives are not entitled to buy any goods from EMPI Stores.

We have asked the Ministry of War to authorize the above officers to buy clothing articles at Italian Military stores, as most of them are badly equipped, either because they left their luggage in the North, or because they lost it independently of the war.

The Ministry of War has answered us that the above authority must be approved by the Land Forces Sub-Commission A.C. (MILA.)

Referring to the above paragraph, would the Patriot Branch ask the MILA to authorize us, even if we are not included in the "battle plan", to issue to the Military Representatives vouchers by which they will be authorized to buy complete outfits at the Military stores.

PRESIDENZA DEL CONSIGLIO DEI MINISTRI
UFFICIO PATRIOTI

N° 42/R.T. di prot.

Roma, 11 Gennaio 1945

OGGETTO: Ufficiali Rappresentanti.

ALL'A.C. - PATRIOTS BRANCH

R O M A

- Come è noto questo Ufficio, su richiesta di codesta A.C. invia Ufficiali quali rappresentanti per i Patrioti presso Comandi di Grandi Unità Alleate, presso i Commissari Regionali e Provinciali Alleati e per gli altri compiti che di volta in volta vengono indicati.
- Questi Ufficiali, come disposto da codesta A.C. non possono effettuare prelevamenti presso i magazzini N.A.A.F.I. (circolare 36/Pat del 30 Ottobre 1944).
- L'Ufficio scrivente ha interessato il M.G. Direzione Generale di Commissariato perchè fosse ad essi concesso di prelevare oggetti di corredo presso i magazzini italiani essendone la maggior parte di essi sprovvisti per aver dovuto lasciare il proprio bagaglio al nord per averlo perduto per eventi di guerra.
- Il Ministero della Guerra ha risposto che tale concessione è subordinata al benessere della Land Forces Sub Commission A.C. (M.M.I.A.).
- Si prega pertanto codesta A.C. di voler interessare il suddetto Ente perchè l'Ufficio scrivente, anche se non compreso nel "piano di battaglia", sia autorizzato a rilasciare agli Ufficiali rappresentanti buoni di prelevamento a pagamento per serie di vestiario completo, dai magazzini del Commissariato Militare Italiano.

Reference your 621/PT dated 21 December 1944.

We wish to inform you that circular 36/PAT dated 30 October 1944 of this H.Q. instructed Army H.Q.'s. and Regional Commissioners to pay their indemnities to the patriots representatives attached to the above Allied H.Q.'s.

We therefore cannot see any indication which might lead to believe that drivers should be paid by Allied authorities.

However, to facilitate the work of your office, and in consideration of the difficulties of communicating and of transferring monies to the Army area, we wish you would let us know the total amount due to Mr. Aleni Alfiero, driver of Capt. Jannarone, to enable this Patriots Branch, only for this once, to request the paymaster of Fifth Army, 4th Corps, to pay the due amount to the above driver.

Concerning Mr. Roselli Attilio, this Patriots Branch does not know where Col. Corradi is, it will therefore be suggested that the matter should be solved directly by your office on the occasion of a future visit of Col. Corradi to Rome.

Concerning the drivers attached to the representatives with Regional and Provincial Commissioners, your office will see directly to their payment.

For your knowledge, anyway, we wish to inform you that the money deposited for the Allied Financial Agency on behalf of A.C. for payment of daily indemnities to the representatives, and for the hire of motor cars, has become entirely exhausted. Such money had been calculated to last until the end of October last, and it would be opportune that a further amount should be paid in with all urgency to avoid the danger that the Allied authorities should stop all payments.

253

In risposta al foglio n° 623/RT. del 21 Dicembre 1944, si fa presente che la circolare 35/PAT del 30 Ottobre 1944, di questo Hq. dà istruzioni ai Quartier Generali delle Armate ed ai Commissari Regionali di pagare le indennità ai Rappresentanti dei Patrioti in servizio presso quei Comandi Alleati.

Non si ravvisa, pertanto, nessuna analogia che possa indurre a credere che il pagamento degli autisti debba essere effettuato dalle Autorità Alleate.

Comunque, per venire incontro al desiderio di codesto Ufficio ed in vista delle difficoltà di comunicare ed inviare somme di denaro nella zona delle Armate, si prega di far conoscere l'ammontare delle competenze spettanti al sig. ALCIVI Alfiero, autista del Cap. Jannerona, affinché questo Patriots Branch, in via del tutto eccezionale, possa pregare l'Ufficiale di Amministrazione della 5ª Armata 4º Corpo, di versare l'ammontare di cui trattasi, all'interessato.

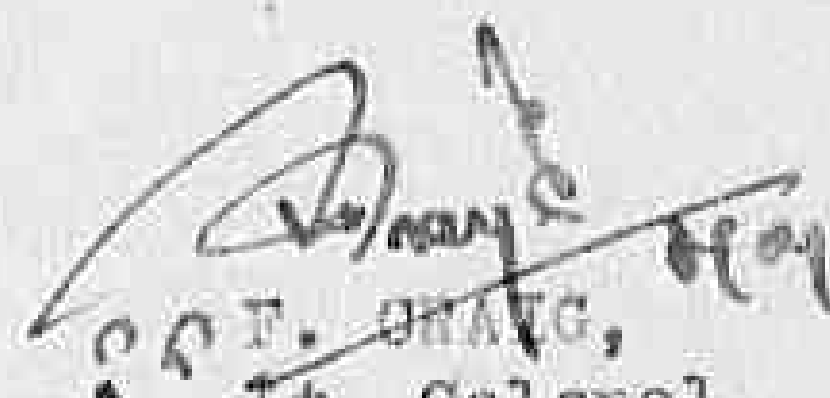

Per ciò che concerne il sig. BOSELLI Attilio, poiché questo Patriots Branch non è a conoscenza dell'esatta località ove trovasi il Col. Corradi, sarà opportuno che la questione venga risolta direttamente da codesto Ufficio in occasione di una prossima venuta a Roma del Col. Corradi.

Per il pagamento degli stipendi agli autisti in servizio con i Rappresentanti presso i Commissari Regionali e Provinciali, codesto Ufficio provvederà direttamente alla liquidazione dei relativi ammontari.

Ad ogni buon fine si comunica, per opportuna norma, che

essendo esaurito il fondo versato alla Allied Financial Agency presso la Banca d'Italia a favore dell'A.C. per il pagamento delle diarie ai Rappresentanti e noleggio automobili, calcolato a tutto il mese di Ottobre u.s., sarebbe opportuno che venisse effettuato, con tutta urgenza, un ulteriore versamento ad evitare la sospensione dei pagamenti da parte delle Autorità Alleate.

MEMORANDUM FOR THE DIRECTOR.

1. The circular 36/PAT dated 8 December 1944, on the subject "Patriots Representatives" establishes that "all Patriot Representatives of the C.I.P. (civilian) in V and VIII Army areas are recalled forthwith".

2. Following the above instructions to this day the underwritten representatives have returned:

1) ALBERTINI Edmondo	VIII Army
2) MORINELLO Aldo	VIII Army
3) VASSILIADIS Vassilli	VIII Army
4) MELINO Mario	VIII Army

3. The following civil Representatives are still with the Regional and Provincial Commissioners:

1) CHIESA Agolfo,	with the Prov. Comm. of	PISA
2) GATTANI Silvano	"	SIENA
3) MBI Americo	"	GRABSETO

8) SOPRANI Aldo	"	RAVENNA
9) LENTIERI Maurizio	"	FERRARA (Riccione)

4. Upon orders of the Regional Commissioner for Emilia (vide letter R IX/HQ/P/4/1 dated 4 Dec. 1944, file 36/4/PAT, No. 1) the following have returned to Rome either on temporary leave or at disposal of their respective Commands.

11) RICHELTI Giuseppe,	formerly with Prov. Comm. for	PARMA
12) KERI ITALO	"	BOLOGNA
13) VOLTEIRA Edoardo	"	at HQ. Emilia Region for Intelligence Team.

5. Following letter R/IX/HQ/P/4/1 dated 10 Dec. 1944 (File 36/4/PAT No. 7):

- 2 -

2549

14) ACERBI Giannino, attached to Prov. Comm. for REGION EMILIA has also returned to Rome on temporary leave.

6. The following have also returned to Rome at the disposal of Emilia Region:

- 15) MALAVASI Giacchino
16) BACCHINI Giuseppe, with the Prov. Comm. for PIACENZA.

HQ Emilia Region

7. From the above personnel return-sheet it appears that all civil representatives with the Armies have returned (para. 2).

A few civil Representatives assigned to Regional and Provincial Commissioners still remain at their posts in Army areas (para. 3).

Others are in Rome either on temporary leave or at the disposal of Regional Headquarters (paras 4, 5 and 6).

8. In consideration of the above situation, would you kindly make it clear to me if the civil Representatives who are still up, should be forthwith recalled or if they should be left at their appointed posts until their stay there is considered useful and timely by the respective Commissioners.

9. It must still be made clear if by the circular 16/PAT dated 8 December 1944 issued by this Office, it must be understood that the appointment of Civil Representatives of the Patriots Office with Regional and Provincial Commissioners is definitely abolished or if such appointments can still be made at the discretion of the Commissioners and in accordance with the particular exigencies of time and place.

This matter should be cleared as soon as possible also on moral and administrative grounds, and priority should therefore be granted to it.

Should it then be decided that no civil Representatives can in the future be detached there will be only military representatives in Army areas, and consequently all previous instructions issued upon agreements between the former Director of the Patriots Branch, Col. McCarthy and Italian Authorities, will henceforth be recommended.

In reply to your letter of 2 December (ref. 350/R.P.), para. 7 of this H.Q. directive 36/PAT dated 30 October is by no means inaccurate. It is here stated that the patriot representatives "shall receive free petrol, free billets and a free issue of rations".

In reply to your letter of 2 December (ref. 349.R.T.), it is regretted that it is not possible for permits to be issued to enable officers and officials of the Patriots Office in Rome to circulate in Military Government territory at the present time.

The task of rehabilitating patriots in Military Government territory must rest, it is felt, upon the A.M.G. authorities.

In Italian Government territory the rehabilitation of patriots is, of course, the responsibility of the Italian Government acting through and by the I.N.P.C.

MEMORANDUM

From the circular 36/PAT dated 30 October 1944 it appears that civil and military representatives "may" obtain by Allied Authorities, free from charge, petrol, rations, and living quarters. We ask that you should let us know if there is actually such a possibility or if the text of the circular forwarded to this Presidency was inaccurate.

It has been further noticed that the Representatives cannot draw goods from N.A.A.F.I. stores or from the postal services.

Considering the fact that such goods cannot be purchased in advanced localities, we ask that the A.C. should examine the possibility of allowing the Representatives to the purchase of such goods at the N.A.A.F.I. stores.

Si prega compiacersi voler far conoscere se effettivamente esiste tale possibilità o se nel testo pervenuto a questa Presidenza vi siano delle inesattezze al riguardo.

E' stato altresì rilevato che gli stessi rappresentanti non possono prelevare generi o merci dai magazzini N.A.A.F.I. o dai servizi postali.

- 1 The pressing and vital problem in connection with the dispersal of patriots from the patriot centres and patriot reception points in the forward areas of V and VIII Armies is becoming daily more acute.
- 2 A sympathetic and urgent decision is required in regard to the ration question. The absorption of patriots who have been rehabilitated in patriot centres - which should and must be regarded as transit centres only - into labour gangs organized for the benefit of the war effort will be a satisfactory answer in regard to the large majority of patriots who cross the line.
- 3 No hard and fast rule can be laid down in view of the fact that patriot reception must depend entirely on operations.
- 4 The patriots feel - and all officers without exception in this matter report - that their chief reason for not wishing to go into these labour gangs is that, at present, they are only issued with supplementary heavy workers' ration scale "A". The issue in V and VIII Armies must of necessity be different, and I ask you for your authority to introduce the following rations into patriot labour gangs employed by the Armies:
 - a) VIII Army - p.o.w. scale 30
 - b) V Army - normal American ration less fresh meat component.
 In regard to the latter category, Brigadier HAMLEN of AAI informed me that he was in favour of such a ration under the circumstances.
- 5 Without a sympathetic absorption of these patriots from patriot centres we shall be faced with an extremely serious problem which, in addition to accommodation difficulties at the patriot centres, will undoubtedly have serious political repercussions in this country, and I strongly urge that the ration scale which I have suggested above should be approved, and, if approved, I would request that such authority be conveyed to AAI.

1. Reference 36/PAT dated 25 Oct 44, signed by Prof. Giovanni RAINI and addressed to the Provincial Commissioner of SIENA, Toscana Region.

2. It is found with some surprise that orders direct to a Provincial Commissioner are signed and issued by an Italian attached to the Patriot Branch at HQ, AG.

3. It may well be this official is working with full approval of AG, but the time has hardly arrived when Italian officials can give orders to Allied officers in A.M.S. territory.

PARTISANS

(Statement by Ettoreighieri, Commander of a Patriot Brigade, in "ITALIA LIBERA" of 17 November 1944).

As the Allied armies advance towards the North of Italy the problem of Patriots becomes ever greater. Areas in South and Central Italy only scattered groups existed, in the North we are a formidable army, the army of Italian democracy.

The problem is as follows. Either the Government recognises Patriots as its best armed forces and works for them, while taking advantage of their moral and material power, or the Patriots will lose all faith in the Government. A third alternative does not exist. To request all Patriots to enter the C.I.L. (Italian Regular Army) would be an imposition. Many of us would refuse for the following reasons.

1. We are Republicans.
2. Leaders are elected democratically by their men, because they are the bravest and the most capable of command, and they do not avail themselves of former grades in the Army.
3. We intend to continue fighting together with our comrades, and not to be dispersed in the Royal Army.
4. We want to fight the Germans in the front lines.
5. We quite openly distrust the military bureaucracy of a crumbling State. We are the strongest and most faithful army of the new Italian State of the people.

The problem is both of a political and practical nature. On political grounds the Patriots request legal recognition by the Government. Should the due recognition be given to the National Committee of Liberation of the North, the necessity for legal status would be solved. But this is not enough. Everybody knows that communications in Northern Italy are no easier than those between liberated Italy and the territory immediately behind the front lines; it is easier to reach Bologna by parachute from Rome than to get to it from Milan. While, therefore, recognition of the Northern C.I.L. as a Government organ is essential, it is no less essential that official representatives of the Roma Government should be sent to join it, to cooperate with the local C.I.L.'s in bringing unity and legality into existence. Why do we Patriots request legalisation?

1. Because we want our work recognised.
2. Because we want not only de facto but legal recognition to

The problem is as follows. Either the Government recognises Patriot bands as its best armed forces and works for them, while taking advantage of their moral and material power, or the Patriots will lose all faith in the Government. A third alternative does not exist. To request all Patriots to enter the C.I.M. (Italian Regular Army) would be an imposition. Many of us would refuse for the following reasons.

1. We are Republicans.
2. Leaders are elected democratically by their men, because they are the bravest and the most capable of command, and they do not avail themselves of former grades in the army.

Why do we Patriots request legalisation?

1983

1. Because we want our work recognised.
2. Because we want not only de facto but legal recognition to decorations for bravery granted by Patriot commanders, to all necessary requisitions, to the innumerable rulings and orders carried out on behalf of our commanders in our daily life of combat, and in order to be able to assure our fighting men that, in case of death, proper assistance will be given to their families.

3./

2.

3. Because, without prejudice to the autonomy of action of the various Patriot brigades and divisions, one should be able to establish coordinated action, and someone should have the legal right to restrain bands and individuals from abuse of power, plunder of private property for private use, and so that one should achieve proper control with the purpose of saving the few resources still left to the population of occupied territories.

So far as concerns moral assistance: to let the Patriot feel that someone exists who thinks of him, that someone exists to whom he can turn in case of dissension with his comrades, that someone exists who can say STOP to unjustified plundering.

Furthermore, and of primary importance, comes the material side. We need clothes, boots, jerseys, food, arms and ammunition. Many brigades exist which have so far had nothing from anti-fascist Italy; neither a word of encouragement nor any help. We request that the Italian Government should recognise Patriot commanders elected by Italian fighting men, and that it should establish a single organization to deal with Patriot action beyond the lines, which could dispose of funds and should collect and distribute the necessary means for continuing the fight.

May it be allowed to a man who has left the Patriot front only a few days ago and who is returning there to speak freely. The recent more or less explicit order to demobilise Patriot bands does not take into consideration either the life or the means of our warfare. We are not people who wage war on Nazism as a sport which can be carried on in summer, only to go back home in winter and resume it again in spring. The demobilisation of Patriots is a proposition which it is practically impossible to carry out, quite independent from all moral considerations. When a man has taken to the woods, he cannot come back. Should the allies refuse to continue to help us, should the Government in Rome continue to do nothing for us, rather than go home only to be shot one by one by the Germans, we would prefer to go on fighting to the end with the very limited means at our disposal.

Tens of thousands of free men, of men of the people in Italy have thrown themselves into the war against the Germans with the certainty of obtaining the necessary backing to carry on to the end the war of liberation.

We Patriots cannot lie low during winter as a regular army can. To lie low would mean taking refuge in the villages. But, if we occupy a village, the Germans at once find out, surround the village in overwhelming numbers and attack it, compel us to evacuate, and burn it down. We cannot remain in the mountains because there we can neither find food nor shelter from the cold. To return to the plains means sooner or later being shot, or at the best being deported to Germany. The only possibility of living left to us, therefore, is to go on fighting. The allies and the Government must give us the means whereby we can carry on the war. We must and we want to go on fighting. We are the people's army of Italian democracy. Let the Democrats join to support us.

MEMO : Memorandum.

PARTISANS

From day to day the political situation with regard to the Patriots grows worse. Despite all the efforts of the Officers concerned the Partisans are so ill provided for that they arrive in Florence and other towns dispirited, ill fed, ill clothed and demoralized.

It is only natural that the genuine Patriot who has fought and suffered for many months at the instigation of Allied Forces should expect material support and encouragement when he comes through the lines. As it is, most of the men refuse to work not so much because they are not prepared to do so as because they feel that their dignity as fighters for their country is being impaired. Also they refuse to join the Italian Army because they believe, rightly or wrongly, that the Senior Officers are imbued with Fascist principles and they have no confidence in their military capacities. The present situation is grave and most competent observers agree that unless radical measures are taken there is the greatest danger of anarchy in this country.

It would seem most urgent therefore to establish a well coordinated organization for the rehabilitation and welfare of the Patriots. It should be possible to form teams of competent Officers to receive them when they pass through the lines, look after their immediate well being and to refit them in civilian work before they become demoralized.

It is clear that to clothe and feed these Patriots is a great problem and it is also obvious that if they are not clothed and fed they may present a still greater both now and for years to come.

Their services, if used, could prove of the greatest value in such military necessities as the reconstruction of railways and the clearing of mines. If the rebuilding is considered, the potential requirement of labor greater than can be supplied from this source alone.

Partisans prove worse. Despite all the efforts of the officers concerned the Partisans are so ill provided for that they arrive in Florence and other towns dispirited, ill fed, ill clothed and demoralized.

It is only natural that the genuine Patriot who has fought and suffered for many months at the instigation of Allied propaganda should expect material support and encouragement when he comes through the lines. As it is, most of the men refuse to work not so much because they are not prepared to do so as because they feel that their dignity as fighters for their country is being impaired. Also they refuse to join the Italian Army because they believe, rightly or wrongly, that the senior officers are imbued with Fascist principles and they have no confidence in their military capacities. The present situation is grave and most competent observers agree that unless radical measures are taken there is the greatest danger of anarchy in this country.

It would seem most urgent therefore to establish a well coordinated organization for the rehabilitation and welfare of the Patriots. It should be possible to form teams of competent officers to receive them when they pass through the lines, to look after their immediate well being and to assist them in any civilian work before they become demoralized.

It is clear that to clothe and feed these parties is a great problem and it is also obvious that if they are not clothed and fed they may present a still greater both now and for years to come.

Their services, if used, could prove of the greatest value in such military necessities as the reconstruction of railways and the clearing of mines. If the rebuilding is considered, the potential requirement of labor greater than can be supplied from this source of

Now these Patriots will, if handled properly, work willingly. The problem is a psychological one, work if they are allowed to remain under their own in their own formations but they must be made to reconstruction of their country is a patriotic act they are still as it were, front line soldiers in the war effort.

With regard to feeding and clothing these volunteers if it is to be done it should be done well. If these contingents are fed and clothed properly such material will be involved but still far less than would have to be supplied to labor units of the Allied Forces.

Some observers maintain that if these Patriot formations remain intact they may eventually be used for subversive or political action. The answer, I think, is that if you give an Italian work, food and a few cigarettes he is easily contented, and in any case after a few weeks of employment the militant ardour of these Patriots will tend to disappear.

With regard to Patriots that wish to go home it is essential that they should be resettled quickly before they have time to cause trouble and so that they may help in the reestablishment of the normal life in this country.

Lastly the Patriots who arrive in Unoccupied Italy have had no organized and effective welcome from their fellow-Italians. It should be possible to establish centers and welcome centers where they may be able to feel that their past efforts have been appreciated, already in Florence a committee of Italians has been formed to collect clothes and money for the Patriots. Given the right stimulus and support such committees could be formed elsewhere.

To sum up the present situation once more, the Patriots feel that they are uncared for, unwelcomed and that they have been made the tools of Allied Propaganda. Already there are very hundreds of them wandering about unemployed in the cities of the war zone. Whether they are to be blamed or not for refusing to work under present circumstances is irrelevant. If present conditions are allowed to continue they will prove a formidable obstacle not only to the resettlement of Italy but to the resettlement of Europe as a whole and will form an easy prey to almost any kind of subversive activity.

For the Patriot problem is one that has to be solved in every country which has fought against Germany.

2. There appears to be some confusion as to our requirements of patrol representatives with any formation, and which it is desired to clarify.

3. In Eighth Army at the moment there are 3 patrols and two representatives are required with each Corps. As there are with this H.C. at the present amount a total of only three patrol representatives, it has been necessary to shift them from First Corps to Second, as dictated by the patrol situation locally.

4. The three representatives with this H.C. are:

Capt. H. H. Jones (U.M.)
Prof. Moricello (C.I.N.)
Sgt. V. V. V. (C.I.N.)

Therefore, in order to make up the numbers to the scale, we require 2 C.I.N. representatives and 1 C.I.N.

5. In future it is suggested that all patrol representatives should be sent to A.C. 394. Eighth Army and not direct to Corps. This H.C. will then allocate them as required. Notification of requirements for this H.C. is to be sent by signal so that accommodation can be arranged.

6. In regard to transport, it is quite impossible to send patrol representatives for A.C. 394. Eighth Army with transport. Vehicles cannot be found in forward areas. There are a certain number of vehicles but they are effectively broken and remain so, usually, until troops have passed out of the area. It is accordingly suggested that patrol representatives sent or duty with 8th Army, are provided with efficient transport.

MEMORANDUM

Ref: 35/PAC (Ca 95/Pat)

14 November 1944.

Until a couple of months ago, the Allied Commission proposed disposing of the Patriots problem on this side of the line in the following manner: disarming and disbanding them; quickly discriminating the genuine fighting Patriots according to definitely laid down rules, and on the judgment of the "Giunte Comunal" assisted by Patriot Representatives and Allied Provincial Commissioners; awarding "General Alexander" Certificates to genuine fighting Patriots; inducing Patriots, by means of and with the assistance of Screening Agencies sent out by the Italian War Ministry and operating in conjunction with Allied Military authorities, to enlist into the Italian Army; offering Patriots jobs on the reconstruction of roads and bridges. At present the Allied Commission, Patriots Branch, finds support in the recently appointed Italian National Patriot Committee, formed by the Italian Presidency of the Council, which deals with all Patriot problems.

In spite of joint Allied and Italian efforts, most Patriot problems have up to date found no solution, and present considerable danger to the future peace of this country. I believe this can be attributed to the following reasons.

1. Patriots, who have fought for months in the most frightful circumstances, accepting every sacrifice and displaying courage in the face of an enemy many times superior in number, organization and equipment, and who have been supported by daily propaganda over the air and particularly by General Alexander's proclamations, expect to be considered as forces fighting for freedom and not as civilian bands to be disbanded. They wish to continue fighting for the liberation of Italy, but under their own officers whom they have freely chosen and who have proved worthy of their leadership. They are not willing to be dispersed into the many units of the Italian Army, under the orders of young officers who may never have seen action, and under the leadership of Generals of whom they feel, rightly or wrongly, that they have cooperated with the Fascists and the Germans and brought the country to its present tangle state of defection.

It should not be forgotten that most Patriots have faced the extreme hardships of warfare (with the certainty of being tortured and killed if they were caught, and with the knowledge of the cruel reprisals they would bring upon their own families and friends if they were detected) in the conviction of belonging to a very special and heroic legion - which indeed they are - fighting for a better world and a definite place therein for their country. Of course, many believe in their national ideals, and many believe in their party ideals. Many of them have been believing in and fighting for a Communist ideal, others for a land of Democracy, a sister to the great Anglo-American countries, and taking up to realities is quite a shock to such highly-

of the Patriots' problem; quickly discriminating the deserving and disbanding them; quickly discriminating the Patriots according to definitely laid down rules, and on the judgment of the "Giunte Cammali" assisted by Patriot Representatives and Allied fighting Commissions; awarding "General Alexander" Certificates to genuine fighting Patriots; inducing Patriots, by means of and with the assistance of screening Agencies sent out by the Italian War Ministry and operating in conjunction with Allied Military Authorities, to enlist into the Italian Army; offering Patriots jobs on the reconstruction of roads and bridges. At present the Allied Commission, Patriots Branch, finds support in the recently appointed Italian Patriotic Committee, formed by the Italian Presidency of the Council, which deals with all Patriot problems.

It should not be forgotten that most Patriots have faced the extreme hardships of warfare (with the certainty of being tortured and killed if they were caught, and with the knowledge of the cruel reprisals they would bring upon their own families and friends if they were detained) in the conviction of belonging to a very special and heroic legion - which indeed they are - fighting for a better world and a definite place therein for their country. Of course, many believe in their national ideals, and many believe in a party ideals. Many of them have been believing in and fighting for a Communist Eden, others for a land of Democracy, a sister to the great Anglo-Saxon countries, and making up to reality is quite a task to such highly-strung men who have been living in a world of their own with a law of their own.

2.

Patriots do not know all the technical difficulties which oppose their continuing to be used as fighting units (such as a ceiling to the Italian Army, difficulty of increasing rations, etc.). They feel they are being dealt with unfairly, and as a result of their resentment against the Allies and the Italian Government they do not comply with the order to surrender arms and to disband, but secretly maintain armed units which will constitute a great danger to the future of this country. It should also be noted that while the Italian Government officially supports the Allied orders to disarm and disband patriots, parties, which through their leaders are actually a part of the Government, unofficially encourage patriots belonging to their own party or to parties in close cooperation to disregard Allied orders, in view of a future settlement of the Italian Constitution by means of force. This is not my personal opinion, but is the result of what I have heard from leaders of bands in Florence who made no bones about it, and of what is reported to us by most of the Representatives operating particularly in the advanced Regions.

As to the attempted enlistment into the Italian Army, sought by the Screening Agencies, this has proved an absolute failure, when you consider the number of men who have enlisted compared to the number of patriots who have by now been joined by the Allied armies - even though due consideration is given to the fact that some of them are middle-aged and who feel they have done their bit and want to return home, and that others are peasants who go back to their land, and so on. I do not believe that transport facilities, camps or any other facilities offered by A.C., Allied U.S., or the I.N.P.C. will obtain positive results.

2. While a number of Patriots will return to their previous employment if still open to them (and this is particularly true in the case of peasants), many will be unemployed on account of the havoc caused by the war and German destruction throughout this country. Amongst them will be all types of men, from the professional class, such as engineers, lawyers and accountants, to mechanics, employees and artisans. To these types of men, the offer made in the past of work on reconstruction of roads and bridges cannot prove very attractive, particularly as the wages offered are considerably lower than the average wage paid today to manual labourers. As for the suggestion to keep on patriots in labour gangs, I feel this would be absolutely unfeasible, not only because of the different classes of men found amongst the Patriots, but because even those who are used to such work would consider working in gangs as forced labour, and, further, a suggestion of this kind would undoubtedly create an uproar among the political parties.

I.N.P.C., also on the suggestion of A.C., Patriots Branch, have issued instructions to the Prefects that Patriots should be given preference in available provincial government and municipal jobs and in the police. They have also accepted Patriots Branch suggestion to appoint a civilian delegate to work in conjunction with provincial Patriot Representatives and contact all possible employers with a view to securing jobs for unemployed patriots. Unfortunately the very constitution of the present Italian Government, composed of six parties of opposed political views, and a replica of the situation in I.N.P.C., make it extremely difficult for any action to be taken, as each

officially encourage patriots belonging to their own party or to parties in close cooperation to disregard Allied orders, in view of a future settlement of the Italian Constitution by means of force. This is not my personal opinion, but is the result of what I have heard from leaders of bands in Florence who made no bones about it, and of what is reported to us by most of the Representatives operating particularly in the advanced regions.

As to the attempted enlistment into the Italian army, bought by the screening agencies, this has proved an absolute failure, when you consider the number of men who have enlisted compared to the number of patriots who have by now been joined by the Allied armies - even though due consideration is given to the fact that some of them are middle-aged and who feel they have done their bit and want to return home, and that others are peasants who go back to their land, and so on. I do not believe that transport facilities, camps or any other facilities offered by A.C., Allied N., or the I.N.F.C., will obtain positive results.

3.

The same applies to welfare committees, the organization of which has been repeatedly urged by C.O., Patriots Branch, and agreed to by I.N.F.C., but which has not yet been brought into effect except in many cases in advanced regions by extreme parties, and by the Communist party in particular. In many villages and towns of the advanced regions, posters are to be seen: "Communist Party - Patriots Welfare Committee". The Communist party apparently has considerable funds at its disposal. In the advanced regions it is practically the only one which can and does do something for the Patriots, thus making very effective propaganda for itself.

At its last meeting, the I.N.F.C. asked the Government to forbid any association other than the "Associazione Nazionale Patrioti" to use the name of "Patriot" or "Partisan", and also to forbid any person or association other than the aforementioned to ask for money or subscriptions for Patriots. While this should clear from the field a number of more or less illegal organizations, such as the "Movimento Partigiano" and the "Comando Superiore Partigiano", which are operating for obscure purposes and often for private interests, this decision seems to be illegal and unjust as the "Associazione Nazionale Patrioti", emanating from the C.O.I.M. (Commissione Centrale di Liberazione Nazionale), can by no means represent all Patriots. The "V" Brigade in Florence, for instance, rendered invaluable services in the fight against the Germans, and was the only one to comply with General Alexander's orders to disarm and disband. But, owing to the fact that the majority of its members were former Carabinieri officers and soldiers, all of monarchist tendencies and therefore not attached to any one of the six parties of the C.O.I.M. and the Government, you may rest assured that no employment agency or welfare committee will see to their needs, and they will have no right to an organization of their own, nor will any welfare committee be allowed to expropriate from parties in sympathy with their political ideas. The same applies to members of the Republican Party, the Independent Communist Party, etc.

3. Many Patriots return from the lines in a frightful physical condition: many are wounded and others are sick. Allied forces give them first aid, but once they are sent to the rear a tragic Odyssey begins. Often there are no civilian hospitals to receive them; in other cases hospitals do not possess the necessary equipment for their treatment. But in all cases the Patriot feels he is unfairly treated compared to his Allied brother in arms at whose side he has so often fought and shed his blood. The Allied Medical Commission, which is at present investigating the matter, will undoubtedly make some helpful suggestion, but the unfortunate situation will never be righted fundamentally, as the Patriot cannot be assimilated to members either of the Allied or Italian Regular Army and therefore accepted by any military hospital for treatment.

4. In the course of Partisan warfare most Patriots lose their entire belongings and arrive in the Allied lines in a frightful state of destitution, with their clothes in rags and their boots in shreds. In some cases the Allies provide them with uniform and retain them to fight along with their own troops. But this is really not allowed by C.O.I.M., and in most cases the Patriots find themselves in a hopeless position. The Italian army has been extremely generous, Patriots Office, to supply them with military kit, and unfortunately this was not

practically the only one which can and does do something for the Patriots, thus making very effective propaganda for itself.

At its last meeting, the I.N.P.O. asked the Government to forbid any association other than the "Associazione Nazionale Patriotti" to use the name of "Patriot" or "Partisan", and also to forbid any person or association other than the aforementioned to ask for money or subscriptions for Patriots. While this should clear from the field a number of more or less illegal organizations, such as the "Movimento Partigiano" and the "Comando Superiore Partigiano", which are operating for obscure purposes and often for private interests, this decision seems to be illegal and unjust as the "Associazione Nazionale Patriotti", emanating from the C.O.L.N. In some cases the Allies provide them with uniforms and retain them to fight along with their own troops. But this is really not allowed by G.H.Q., and in most cases the Patriots find themselves in a hopeless position. The Italian Army has been requested by I.N.P.O., Patriots Office, to supply them with military kit, and would have consented, had M.M.I.A. agreed, but unfortunately this was not possible. Obtaining clothes and shoes in large numbers from ordinary tradesmen, with shops practically empty and prices of the few remaining articles at an exorbitant figure, has proved unfeasible. Frankly, there is no solution in view.

4.

5. The movement of unrest among Patriots, who find that nobody can or will provide for their many and urgent needs with the approach of winter, creates a situation which is exploited by extreme parties for their own purposes to prepare the ground for class uprisings in the more or less near future, and is quite obvious to anyone in touch with Patriot units or with Patriot organisations. Its importance should not be minimised, because, while serious revolts do not seem possible as long as Allied forces continue to occupy Italy, there is no telling to what extremes men can be led by hunger and despair. Another element which should not be ignored is the uneasy speed with which news leaks from one side of the line to the other, and the present frame of mind of Patriots on this side is not much as to encourage Patriots on the other side of the line.

I sincerely believe I am not taking a dramatic or melodramatic view of events, but a very realistic one which is confirmed also by reports from Allied Officers dealing with Patriot problems. It would be interesting to have the comments of Allied Regional Commissioners and of senior Allied Officers at A.M.G. of V and VIII Armies and at G.H.Q.

The only fundamental method of solving the Patriot problem seems to be the international recognition of Patriots as an Italian fighting force, under the direct command of the Italian Commander in Chief who, in turn, will take orders from Allied G.H.Q. The strengthening of Patriot units in occupied territory by means of the infiltration by parachute of Italian regular army officers and men would help to prepare the ground for the day when Patriots would actually have to join the Italian regular forces, besides making Patriot warfare better organised and more efficient.

Such problems as the treatment of sick and wounded Patriots in military hospitals, supplying Patriots with uniform, and enlistment into the Italian Army would automatically be solved. With regard to the latter, small Patriot units should be left intact and attached to bigger units of the regular army. While there is no doubt that discipline in a Patriot unit is very different from that in the army, and that Patriot units have strong political tendencies, it is felt in competent military circles that such difficulties as might arise could be satisfactorily handled, and that the general discipline of a major Italian regular army unit at war would be a decisive factor in restoring to normal the highly-strung mentality of Patriots. Such was the opinion of Under Secretary of War, General Grilla, at a conference held on the subject with Brigadier McCarthy. As for the willingness of Patriots to join the Italian army and to continue to fight, I have no doubt on this subject, provided that even small Patriot units are preserved under their own officers. Incidentally, most of the latter were officers in the Italian Army.

Two major difficulties could be raised to this scheme of recognition of Patriots as fighting forces and their incorporation into the army, namely rations and the length of training period before Patriots could be of use in the regular army.

Rations. Allied authorities seem to be prepared to provide heavy-work rations should an attempt be made to maintain Patriot units as labourer units. These rations do not differ greatly from the military ration

other side of the line.

With regard to the latter, small Patriot units should be left intact and attached to bigger units of the regular Army. While there is no doubt that discipline in a Patriot unit is very different from that in the Army, and that Patriot units have strong political tendencies, it is felt in competent military circles that such difficulties as might arise could be satisfactorily handled, and that the general disciplining of a major Italian regular Army unit at war would be a decisive factor in restoring to normal the highly-strung mentality of Patriots. Such was the opinion of Under Secretary of War, General Orsini, at a conference held on the subject with Brigadier McCarthy. As for the willingness of Patriots to join the Italian Army and to continue to fight, I have no doubt on this subject, provided that even small Patriot units are preserved under their own officers. Incidentally, most of the latter were officers in the Italian Army.

Two major difficulties could be raised to this scheme of recognition of Patriots as fighting forces and their incorporation into the Army, namely rations and the length of training period before Patriots could be of use in the regular Army.

Rations. Allied authorities seem to be prepared to provide heavy-worker rations should an attempt be made to maintain Patriot units as labour gangs. The heavy-worker rations do not differ greatly from the military ration of the Italian Army, and it therefore seems logical that if the first could be provided there should be no difficulty for the second.

1499

217E

5.

Length of Training. If the Allied Armies have found it so convenient to retain Patriot units for fighting and reconnaissance without any previous period of training, and have adopted this action which actually has not so far been officially recognised, it would appear that a very real use already exists for their employment. Should, however, some of them need preliminary training, this need never be very long, as, once incorporated in the Army, their employment would always be that of advance troops and assault and reconnaissance units.

In conclusion, the morale of the Patriots would thus be maintained at a high level, and great satisfaction would be given to the Italian people as a whole, which would be highly appreciated. Many material problems would be solved, and many dangers eliminated in regard to the future of Italy.

On 7 November 1944 the C.C.L.N. unanimously voted the following order of the day:

"The C.C.L.N., having taken into consideration with great pride the undaunted and persevering activity of the Committees of Liberation in occupied Italy, and having taken into consideration also the brave and heroic contribution made by the sacrifices of Patriots in those regions where, through prolongation of the war, the ferocity and barbarity of Nazi-Fascism is steadily intensified; being certain of interpreting the feelings of all political forces throughout liberated Italy, without Party distinction; expresses its sincere solidarity with all Patriot formations in oppressed Italy and spiritual participation in their fierce struggle against overwhelming enemy forces; points out to the united nations the effective contribution of Italian Patriots to the common cause in the struggle against Nazi-Fascism; and entreats the Government to recognise the C.C.L.N.'s in the North as Government bodies in the occupied regions and to promote energetically the necessary action for the lawful international recognition to all Patriots at present fighting beyond the front line of the status of Italian military forces."

1. I received last evening a visit from Major H.D. ROSS and his opposite American number, No. 1 Special Force. These officers are deeply perturbed because of the way in which patriots are being handled in some instances when they first come through the lines.

2. The example which has brought this matter to a head is as follows:

250 patriots came through the lines the day before yesterday. They were disarmed and were sent on to Florence soaked to the skin and unfed. These patriots on reporting to AM in Florence said that they had been promised hot baths, clothing and food.

3. The feeling of Major H.D. ROSS to my mind is natural. He feels that if this kind of talk is allowed to go on it would lead to serious repercussions and an unnecessary element of danger for Allied individuals elsewhere. He furthermore feels that with the advent of winter something quite definite should be done with regard to the feeding of patriots in general, not just those volunteering to enter the Army. He has also pointed out that most of these patriots, while operational, are wearing shorts and singlets only, so that a clothing problem arises.

4. I have discussed this matter with Col. ROSS, and Florence Irvine, who, in fact, telephoned me on the subject. I pointed out to him that in my capacity here I was not in a position to interfere or to discuss the matter with Col. MARTIN, but I do feel that there is a grave risk if this dissatisfaction is allowed to grow, that numbers of these patriots may return to the other side and stir up trouble which might lead to grave difficulties for Special Forces. I think the time has come when:

- a) MC Annies must be told quite definitely that these people must be fed;
- b) That some consideration should be given to the question of clothing;
- c) That undue publicity and propaganda must cease.
5. The Army is moving forward quite well now and the matter is urgent.

1. Acknowledgement is made of the assistance given in the prompt supply of garments requested by signal.

2. With regard to the questions of policy raised by our request the position is as follows:

- a. The rehabilitation and resettlement of ex-partisans is still regarded as primarily an Italian concern and no suggestion is made that the duty of providing clothing for such individuals should be assumed by HQ/AC. In normal circumstances and particularly in periods of a swift advance it is quite unnecessary and clearly undesirable for HQ/AC to become involved in any commitments of this nature, particularly as the accumulation of partisans with Allied troops in such cases is brief and comparatively unimportant.
- b. In the case in point however we were faced with a static front in a devastated mountain area with no shelter or local food supplies available for a group of some 500 Belgians who had been fighting most courageously in direct support of Allied troops but whose usefulness was now over. They were therefore evacuated to Florence to a special center where they could be looked after until it is possible for them to return to Bologna. Many of the men were dressed in rags and in the circumstances it was impossible to evade the responsibility for obtaining clothing for them.

3. Similar cases to that in paragraph 2b. may be expected to occur again in future years.

- a. The fighting is in mountain areas where partisans are not used by Allied troops.
- b. The advance is slow.
- c. The weather is bad and ex-partisans genuinely need help.
- d. A.M.G. has to take charge of ex-partisans who have been fighting in direct support of Allied troops and are not able to return at once to their own homes.

It is however quite impossible to give any worthwhile estimate of numbers when there are so many unpredictable factors involved.

4. At the same time it is felt desirable that a small stock of clothing should be available in readiness for other situations of this type and it is suggested that 1000 sets of shoes, socks, shirts, trousers and coats in assorted sizes be sent up to some central place (i.e. Florence) for this purpose.

My dear

Your letter to TOM MCCARTHY of 21 October has just been put in front of me.

The whole of this Branch is going through a reshuffle following TOM's departure, and I have taken it over for better or for worse. Incidentally, the final policy for the Branch has not as yet been decided, and I myself do not pretend to be able to give a lecture which would deal competently with the very large sphere which it involves at the present moment.

Will you be patient, and as soon as I have got a real grip of things I will let you know and offer myself to do what I can in the matter. I will give you plenty of time before, however, I descend on you.

Yours sincerely.

My Dear Tom

You will remember during our recent visit to ROME that you volunteered to come and give us a talk on the activities of the patriots and an outline of your scheme for dealing with them.

Our preliminary studies of the political situation in NW ITALY has already made it abundantly clear that we shall require your advice and guidance in our dealings with patriots, and the General and myself would be very grateful if you can spare the time to come up and spend a day or two with us and give a talk to our planning staff on this subject.

We have managed to find a villa for the General but I am not sure whether or not the accommodation there will run to guests. In any event, if you could drop me a line or ring me up I will make all the necessary arrangements for your accommodation in comfortable quarters.

Yours Sincerely

To hand Patriot Representative situation as at 30 Oct 44. It is noted that representatives (six military and six civilian) are still employed in the Abruzzi-Marche area. Might I suggest that it is about time these people had completed their task of clearing up Patriot problems. Perhaps you would care to take the matter up with the Regional Commissioner.

With regard to Toscana, I do feel that in such provinces as Grosseto, Siena, Livorno, work should be nearing completion also.

3. Lists of Patriot Representatives will be sent fortnightly to Regional Commissioners who are responsible for ensuring that all representatives in their area are duly and punctually paid, as laid down in Part II.

Part II. Payment of Patriot Representatives.

1. Regional Commissioners will notify the Regional Finance Officer of the name and location of all Patriot Representatives in the Region. Any change in the personnel of the Patriot Representatives or in their location will at once be reported to the Regional Finance Officer by the Regional Commissioner.

2. On the basis of the information received from the Regional Commissioner, the Regional Finance Officer will make arrangements to pay, through his Provincial Finance Officers or other sub-accountants, the Patriot Representatives who will be distributed throughout the Region.

3. Patriot Representatives will immediately be paid by A.C. as from the date of their appointment or on from the 1st of September in their appointment was prior to that date, up to 15th of October 1944. Thereafter they will be paid on the last and the 15th day of each month.

4. The rate will be two hundred (200) lire per day for a 7-day week. The rate will be the same for civilians and for officer personnel irrespective of rank.

5. The pay of Patriot Representatives will eventually be received by A.C. from the Italian National Warlet Committee. It will therefore be necessary for all Patriot Representatives to be paid on a separate payroll, two original copies of which, signed by each Patriot Representative drawing pay, will be forwarded with the monthly report of Receipts and Disbursements to the Chief accountant A.C. He will take the necessary steps to obtain reimbursement from the Italian National Warlet Committee each month.

6. Attached is a schedule with the names of existing Patriot Representatives. This schedule should be used as a basis for making the original payment. Therefore, the schedule will be sent periodically to the Regions; as, however, the Regional Commissioner may change the personnel or location of the Patriot Representatives in his Region, these lists may not subsequently reflect the actual situation. For this reason they will only act as the authority for payment, up to the end of September, and subsequent payment will be made on the authority of the Regional Commissioner.

2. On the basis of the information received from the Regional Commissioner, the National Finance Officer will make arrangements to pay, through his Provincial Finance Officers or other sub-accountants, the Patriot National Activities who will be distributed throughout the Region.

3. Patriot Representatives will immediately be paid by N.C. as from the date of their appointment or as from the 1st of September in their appointment prior to that date, up to 15th of October 1944. Thereafter they will be paid on the last and the 15th day of each month.

4. The rate will be two hundred (200) Lira per day for a 7-day week. The rate will be the same for civilians and for office personnel irrespective of rank.

5. The pay of Patriot Representatives will eventually be received by N.C. from the Italian National Election Committee. It will therefore be necessary for all Patriot Bureau activities to be paid on a separate payroll, two original copies of which, signed by each Patriot Representative drawing pay, will be forwarded with the monthly report of Receipts and Disbursements to the Chief Accountant N.C. He will take the necessary steps to obtain reimbursement from the Italian National Election Committee each month.

6. Attached is a schedule with the names of existing Patriot Representatives. This schedule should be used as a basis for making the original payment. Moreover, the schedule will be sent periodically to the Region; as, however, the National Commissioner may change the personnel or location of the Patriot Representatives in his Region, these lists may not subsequently reflect the actual situation. For this reason they will only act as the authority for payment, up to the end of September, and subsequent payment will be made on the authority of the Regional Commissioner.

Part III. Use of Motor Vehicles.

1. Motor vehicles may be hired on behalf of the Patriot Representatives on the specific authority of the Patriots Branch, Headquarters N.C., who will issue instructions through the Regional Commissioners. In all such cases the prior agreement of the Italian National Election Committee will be obtained.

2. The Sub-Committee making the payment will obtain a receipt on a Payment Voucher, P/P 2, in triplicate (using two originals and one duplicate), and will attach them clearly to show that the Patriots in question are in respect of the hire of vehicles for Patriot Representatives.

./.

- 3 -

The two originals will then be sent, with his Monthly Report of Receipts and Disbursements, to the Chief Accountant, at Headquarters. Such expenditures will subsequently be recovered from the Italian National Patriot Committee by A.C. in the same way as the pay of the Patriot Representatives.

SUBJECT: Rations.

TO : Col. C.M. Parkin, Executive Officer (A).

1. Lieut. Vills and Advocate Balbi are employed with the Patriots Branch at this H.Q.
2. They are duly appointed officials under paragraph 14 of letter "A" (Flagged).
3. Para. 13 of letter "A" states Patriots Representatives are to be rationed etc by A.M.G. Armies.
4. The 2 officials wish to be given Army rations in Rome on the grounds:
 - (a) They are selected men.
 - (b) They are worse off for food whilst serving in Rome than officials holding similar appointments with Armies.

(This is of course true).
5. It is for decision whether or not they are to be issued with Army Rations. if 'Yes' then is it to be:

- (a) Italian Army Rations.
- (b) British or American Army Rations.

6. In my opinion para. 13 intended to include only those Patriots Officials actually serving with Armies, where food and accommodation etc are scarce and difficult to obtain.
7. It will be a precedent to issue these gentlemen with Army rations and we may find it difficult to turn down other border line cases in future if we pass this one.
8. I understand from Sir Philip Magnus, that a Major Zanchino (C.C.R.A.) at present in Public Safety does make use of the Plera Mess but I know nothing about the circumstances of his case. It does however affect the point regarding "precedent" in para 7.
9. As an alternative to the issue of rations and if the principle of Army liability to food then is accepted, then I recommend their attachment to a Junior Officers' Mess for food rather than issue them with Army Rations.

TO : CSO for VP.

1. The attached minute from Major Magnus on the subject of certificates for patriots raises several issues.
2. While it is probably true that a number of certificates have already been granted to those who do not fully deserve them, it is my opinion that the proposals of the I.N.P.C. should be examined very carefully before we agree to some of them.
3. a) I believe that the only certificate which we should sponsor should continue to be one signed by the Allied Commander;
b) The proposals in paragraph 3 of the minute of Major Magnus appear to be sound.
4. The main difficulty, as I see it, is that the Committee of Liberation would be given a responsibility for very important Italian activity from which they would derive considerable prestige.
5. Patriot activities should be non-political. Reports which have come in to this Headquarters appear to indicate - especially in Florence - that various parties take every advantage of whatever assistance their groups have given in organizing these patriots in the occupied areas. A recent communication from AFHQ now being circulated for the information of Patriots, Local Government and Public Safety, shows that AFHQ are aware of the large part played by the C.L.N. in cities like Milano.
6. Our recent directive on the subject of how to deal with the C.L.N. does not coincide with the de facto position which AFHQ tacitly recognizes.
7. Two other communications which came to CA Section and have been turned over to Local Government so that they may advise us, bring the problem to even sharper focus.

1931

- 2 -

9. One of these communications is ^{from} General Hume who sends an article from L'Unita. L'Unita prints an ~~un~~adged statement by Palmiro Togliatti on the subject of the Prefect of Florence. Togliatti's remarks are inflammatory and General Hume very properly requests this Headquarters to inform the Italian Government that a Prefect appointed by A.M.G. on the advice of the Italian Government should not be attacked by a member of that Government. Togliatti of course although a member of the Italian Government is ~~espousing~~ ^{because} of the C.L.N.
10. We have not yet received from Local Government any word of the action they propose to take on General Hume's recommendation but Captain Williams agreed with the undersigned officer that the Italian Government should be told to do what General Hume requests. It would seem to me that this information should be given to the Italian Government in writing.
11. The other letter which we passed to Local Government for action, from Col. Luteri contains the surprising news that the Comitato had been dissolved in that area and that a new organization called Unione Nazionale had taken its place. It is presumed that this is merely a change of names.
12. That letter declared that the dissolving of the Comitato had been arranged by Col. Spicer and Capt. Benson jointly.
13. The Comitato, the letter declares, was interfering with A.M.G. and issuing its own orders as well as instructions to Italians to ignore those of the regularly constituted authorities.
14. To sum up: The attached memorandum of Major Magnus, the letters referred to, and the communication of AFHQ reveal that a unified policy on the question of the Committee of Liberation, A.M.G. and the Italian Government ~~must~~ ^{must} be decided upon.
15. Either we accept the C.L.N. and therefore agree to the suggestions in Major Magnus's memorandum as one example of the way they can help us and consolidate their own position, or we must be alert and firm and reject measures which eventually will put the C.L.N. where they can tell us what to do.

Subject : Handling of Patriots

To : ~~Vice President~~,

1. You will have seen the minutes of the last meeting of the Italian National Patriot Committee of 24 Oct 44. A question of policy which has potentially an important bearing on the future handling of the Patriot problem is involved in these minutes, and I desire to draw your attention to it.

2. The I.N.P.C. is not prepared to accept a certificate signed by General Alexander as affording final evidence that the holder is a Patriot. By agreement between the Allied Commission and the Italian Government the "General Alexander" certificates are issued at present after consultation between the Communal Patriot Committees and the Italian Patriot Representatives. It is now proposed by the I.N.P.C. that Provincial Patriot Committees shall be appointed by the Central Committee of National Liberation on the advice of the local Committees of National Liberation. These Provincial Patriot Committees, in consultation with local Military Commanders, will have the responsibility of drawing up the final roll of Patriots. */ Italian*

3. The I.N.P.C. proposes that there shall be in effect three separate categories of Patriots :

- i. Fighting Patriots.
- ii. Those who have assisted the cause of National Liberation by means other than fighting.
- iii. Families of Patriots who have been killed.

4. I am seeing Gen. Odone, the Secretary of the I.N.P.C. on Wednesday and shall expect then to hear from him more details of the genesis of this proposal and of the lines on which it may be expected to develop.
